(iii) Unless the cause of termination is an event stated in paragraph 15(a) or (b) above respecting BCBSA, the Plan and its Licensed Controlled Affiliates shall be jointly liable for payment to BCBSA of an amount equal to the Re-Establishment Fee (described below) multiplied by the number of Licensed Enrollees of the terminated entity and its Licensed Controlled Affiliates; provided that if any other Plan is permitted by BCBSA to use marks or names licensed by BCBSA in the Service Area established by this Agreement, the Re-Establishment Fee shall be multiplied by a fraction, the numerator of which is the number of Licensed Enrollees of the terminated entity and its Licensed Controlled Affiliates and the denominator of which is the total number of Licensed Enrollees in the Service Area. The Re-Establishment Fee shall be indexed to a base fee of $80. The Re-Establishment Fee through December 31, 2005 shall be $80. The Re-Establishment Fee for calendar years after December 31, 2005 shall be adjusted on January 1 of each calendar year up to and including January 1, 2010 and shall be the base fee multiplied by 100% plus the cumulative percentage increase or decrease in the Plans' gross administrative expense (standard BCBSA definition) per Licensed Enrollee since December 31, 2004. The adjustment shall end on January 1, 2011, at which time the Re-Establishment Fee shall be fixed at the then-current amount and no longer automatically adjusted. For example, if the Plans' gross administrative expense per Licensed Enrollee was $278.60, $285.00 and $290.00 for calendar year end 2004, 2005 and 2006, respectively, the January 1, 2007 Re-Establishment Fee would be $83.27 (100% of the base fee plus $1.84 for calendar year 2005 and $1.43 for calendar year 2006). Licensed Enrollee means each and every person and covered dependent who is enrolled as an individual or member of a group receiving products or services sold, marketed or administered under marks or names licensed by BCBSA as determined at the earlier of (a) the end of the last fiscal year of the terminated entity which ended prior to termination or (b) the fiscal year which ended before any transactions causing the termination began. Notwithstanding the foregoing, the amount payable pursuant to this subparagraph (d)(iii) shall be due only to the extent that, in BCBSA's opinion, it does not cause the net worth of the Plan to fall below 100% of the Health Risk-Based Capital formula or its equivalent under any successor formula, as set forth in the applicable financial responsibility standards established by BCBSA (provided such equivalent is approved for purposes of this sub paragraph by the affirmative vote of three-fourths of the Plans and

Amended as of June 16, 2005

---

three-fourths of the total then current weighted vote of all the Plans), measured as of the date of termination and adjusted for the value of any transactions not made in the ordinary course of business. This payment shall not be due in connection with transactions exclusively by or among Plan or their affiliates, including reorganizations, combinations or mergers, where the BCBSA Board of Directors determines that the license termination does not result in a material diminution in the number of Licensed Enrollees or the extent of their coverage. At least 50% of the Re Establishment Fee shall be awarded to the Plan (or Plans) that receive the new license(s) for the service area(s) at issue;
provided, however, that such award shall not become due or payable until all disputes, if any, regarding the amount of and BCBSA's right to such Re-Establishment Fee have been finally resolved; and provided further that the award shall be based on the final amount actually received by BCBSA. The Board of Directors shall adopt a resolution which it may amend from time to time that shall govern BCBSA's use of its portion of the award. In the event that the terminated entity's license is reinstated by BCBSA or is deemed to have remained in effect without interruption by a court of competent jurisdiction, BCBSA shall reimburse the Plan (and/or its Licensed Controlled Affiliates, as the case may be) for
payments made under this subparagraph only to the extent that such payments exceed the amounts due to BCBSA pursuant to subparagraph 15(d)(vi) and any costs associated with
reestablishing the Service Area, including any payments made by BCBSA to a Plan or Plans (or their Licensed Controlled Affiliates) for purposes of replacing the terminated entity.

(iv) The terminated entity shall comply with all financial settlement
procedures set forth in BCBSA's License Termination Contingency Plan, as amended from time to time and shall work diligently and in good faith with BCBSA, any Alternative Control Licensee or Replacement Licensee and any existing or potential new account for Blue-branded products and services to minimize the disruption of termination, and honor, to the fullest extent possible, the desire of accounts to continue to receive or obtain Blue-branded products and services through a new Licensee ("Transition"). Such diligence and good faith on the part of the terminated entity shall include, but not be limited to: (a) working cooperatively with BCBSA to protect the Names and Marks from potential harm; (b) cooperating with BCBSA's use of the Names and Marks in the terminated entity's former service area during the termination and Transition; (c) transmitting, upon the request of an

Amended as of June 16, 2005

---

existing Blue account or of BCBSA with consent and on behalf of an existing Blue account, all member and account-data relating to the Federal Employee Program to BCBSA, and all member and account data relating to other programs to an Alternative Control Licensee or Replacement Licensee; (d) working with BCBSA and the Alternative Control or Replacement Licensee with respect to potential new Blue accounts headquartered in the terminated entity's former service area; (e) continuing to service Blue accounts during the Transition; (f) continuing to comply with National Programs, Federal Employee Program and NASCO policies and procedures and all voluntary BCBSA programs, policies and performance standards, such as Away From Home Care, including being responsible for payment of all penalties for non-compliance duly levied in conformity with the License Agreements, Membership Standards, or the Federal Employee Program agreements, that may arise during the Transition; (g) maintaining and providing access to its provider networks, as defined by Federal Employee Program agreements and National Account Program Policies and Provisions, and Inter-Plan Programs Policies and Provisions, and making those networks and discounts available to members and providers who participate in National Programs and the Federal Employee Program during the Transition; (h) maintaining its technical connections and processing capabilities during the Transition; and (i) working diligently to conclude all financial settlements and account reconciliations as negotiated in the termination transition agreement.

(v) Notwithstanding any other provision in this Agreement, BCBSA shall have the right, with the approval of its Board of Directors, to assess additional fines against the terminated entity during the Transition in the event it fails to maintain and provide access to provider networks as defined by Federal Employee Program agreements, National Account Program Policies and Provisions, and Inter-Plan Programs Policies and Provisions, and/or pass on applicable discounts. Such fines shall be in addition to any other assessments, fees or liquidated damages payable herein, or under existing policies and programs and shall be imposed to make whole BCBSA and/or the Plans. Terminated entity shall pay any such fines to BCBSA no later than 30 days after they are approved by the Board of Directors.

(vi) BCBSA shall have the right to examine and audit and/or hire at terminated entity's expense a third-party auditor to examine and audit the books and records of the terminated entity and its Licensed Controlled Affiliates to verify compliance with the terms and requirements this paragraph 15(d).

Amended as of November 16, 2006

(vii) Subsequent to termination of this Agreement, the terminated entity and its affiliates, agents, and employees shall have an ongoing and continuing obligation to protect all BCBSA and Blue Licensee data that was acquired or accessed during the period this
Agreement was in force, including but not limited to all confidential processes, pricing, provider, discount and other strategic and competitively sensitive information ("Blue Information") from disclosure, and shall not, either alone or with another entity,
disclose such Blue Information or use it in any manner to compete
without the express written permission of BCBSA.

(viii) As to a breach of 15 (d) (i), (ii), (iii), (iv), (vi), or (vii) the parties agree that the obligations are immediately enforceable in a court of competent jurisdiction. As to a breach of 15 (d) (i), (ii), (iv), (vi), or (vii) by the Plan, the parties agree there is no adequate remedy at law and BCBSA is entitled to obtain specific performance.

(ix) In the event that the terminated entity's license is reinstated by BCBSA or is deemed to have remained in effect without
interruption by a court of competent jurisdiction, the Plan and its Licensed Controlled Affiliates shall be jointly liable for reimbursing BCBSA the reasonable costs incurred by BCBSA in connection with the termination and the reinstatement or court action, and any associated legal proceedings, including but not limited to: outside legal fees, consulting fees, public relations fees, advertising costs, and costs incurred to develop, lease or establish an interim provider network. Any amount due to BCBSA under this subparagraph may be waived in whole or in part by the BCBSA Board of Directors in its sole discretion.

(e). BCBSA shall be entitled to enjoin the Plan or any related party in a court of competent jurisdiction from entry into any transaction which would result in a termination of this License Agreement unless the License Agreement has been terminated pursuant to paragraph 10 (d) of this Agreement upon the required six (6) month written notice.

(f). BCBSA acknowledges that it is not the owner of assets of the Plan.

Amended as of June 16, 2005

---

16. This Agreement supersedes any and all other agreements between the parties with respect to the subject matter herein, and contains all of the covenants and agreements of the parties as to the licensing of the Licensed Marks and Name. This Agreement may be amended only by the affirmative vote of three-fourths of the Plans and three-fourths of the total then current weighted vote of all the Plans as officially recorded by the BCBSA Corporate Secretary.

17. If any provision or any part of any provision of this Agreement is judicially declared unlawful, each and every other provision, or any part of any provision, shall continue in full force and effect notwithstanding such judicial declaration.

18. No waiver by BCBSA or the Plan of any breach or default in performance on the part of BCBSA or the Plan or any other licensee of any of the terms, covenants or conditions of this Agreement shall constitute a waiver of any subsequent breach or default in performance of said terms, covenants or conditions.

19a. All notices provided for hereunder shall be in writing and shall be sent in duplicate by regular mail to BCBSA or the Plan at the address currently published for each by BCBSA and shall be marked respectively to the attention of the President and, if any, the General Counsel, of BCBSA or the Plan.

19b. Except as provided in paragraphs 9(b), 9(d)(iii), 15(a), and 15(b) above, this Agreement may be terminated for a breach only upon at least 30 days' written notice to the Plan advising of the specific matters at issue and granting the Plan an opportunity to be heard and to present its response to the Member Plans.

19c. For all provisions of this Agreement referring to voting, the term 'Plans' shall mean all entities licensed under the Blue Cross License Agreement and/or the Blue Shield License Agreement, and in all votes of the Plans under this Agreement the Plans shall vote together. For weighted votes of the Plans, the Plan shall have a number of votes equal to the number of weighted votes (if any) that it holds as a Blue Cross Plan plus the number of weighted votes (if any) that it holds as a Blue Shield Plan. For all other votes of the Plans, the Plan shall have one vote. For all questions requiring an affirmative three-fourths weighted vote of the Plans, the requirement shall be deemed satisfied with a lesser weighted vote unless the greater of: (i) 6/52 or more of the Plans (rounded to the nearest whole number, with 0.5 or multiples thereof being rounded to the next higher whole number) fail to cast weighted votes in favor of the question; or (ii) three (3) of the Plans fail to cast weighted votes in favor of the question. Notwithstanding the foregoing provision, if there are thirty-nine (39) Plans, the requirement of an affirmative three-fourths weighted vote shall be deemed satisfied with a lesser weighted vote unless four (4) or more Plans fail to cast weighted votes in favor of the question.

Amended as of June 16, 2006

---

20. Nothing herein contained shall be construed to constitute the parties hereto as partners or joint venturers, or either as the agent of the other, and Plan shall have no right to bind or obligate BCBSA in any way, nor shall it represent that it has any right to do so. BCBSA shall have no liability to third parties with respect to any aspect of the business, activities, operations, products, or services of the Plan.

21. This Agreement shall be governed, construed and interpreted in accordance with the laws of the State of Illinois.

IN WITNESS WHEREOF, the parties have caused this License Agreement to be executed, effective as of the date of last signature written below.

EXHIBIT 1

BLUE CROSS
CONTROLLED AFFILIATE LICENSE AGREEMENT
(Includes revisions adopted by Member Plans through their September 18, 2015 meeting)

This Agreement by and among Blue Cross and Blue Shield Association ("BCBSA") and_____ ("Controlled Affiliate"), a Controlled Affiliate of the Blue Cross Plan, known as _____ ("Plan" or "Sponsoring Plan"), which is also a Party signatory hereto.

WHEREAS, BCBSA is the owner of the BLUE CROSS and BLUE CROSS Design service marks;

WHEREAS, Plan and Controlled Affiliate desire that the latter be entitled to use the BLUE CROSS and BLUE CROSS Design service marks (collectively the "Licensed Marks") as service marks and be entitled to use the term BLUE CROSS in a trade name ("Licensed Name");

NOW THEREFORE, in consideration of the foregoing and the mutual agreements hereinafter set forth and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereby agree as follows:

1. GRANT OF LICENSE

Subject to the terms and conditions of this Agreement, BCBSA hereby grants to Controlled Affiliate the right to use the Licensed Marks and Name in connection with, and only in connection with: (i) health care plans and related services, as defined in BCBSA's License Agreement with Plan, and administering the non-health portion of workers' compensation insurance, and (ii) underwriting the indemnity portion of workers' compensation insurance, provided that Controlled Affiliate's total premium revenue comprises less than 15 percent of the Sponsoring Plan's net subscription revenue.

This grant of rights is non-exclusive and is limited to the Service Area served by the Plan. Subject to paragraph 3A(3) of this Agreement, Controlled Affiliate may use the Licensed Marks and Name in its legal name on the following conditions: (i) the legal name must be approved in advance, in writing, by BCBSA; (ii) Controlled Affiliate shall not do business outside the Service Area under any name or mark; and (iii) Controlled Affiliate shall not use the Licensed Marks and Name, or any derivative thereof, as part of any name or symbol used to identify itself in any securities market, unless such Controlled Affiliate is a not-for-profit company which may use the Licensed Marks and Name, or an approved derivative therefor, to identify itself in debt securities markets. Controlled Affiliate may use the Licensed Marks and Name in its Trade Name only with the prior, written, consent of BCBSA.

Amended as of March 26, 2015

2. QUALITY CONTROL

A. Controlled Affiliate agrees to use the Licensed Marks and Name only in connection with the licensed services and further agrees to be bound by the conditions regarding quality control shown in attached Exhibit A as they may be amended by BCBSA from time-to-time.

B. Controlled Affiliate agrees to comply with all applicable federal, state and local laws.

C. Controlled Affiliate agrees that it will provide on an annual basis (or more often if reasonably required by Plan or by BCBSA) a report or reports to Plan and BCBSA demonstrating Controlled Affiliate's compliance with the requirements of this Agreement including but not limited to the quality control provisions of this paragraph and the attached Exhibit A.

D. Controlled Affiliate agrees that Plan and/or BCBSA may, from time-to-time, upon reasonable notice, review and inspect the manner and method of Controlled Affiliate's rendering of service and use of the Licensed Marks and Name.

E. As used herein, a Controlled Affiliate is defined as an entity organized and operated in such a manner, that the Sponsoring Plan has:

(1) The legal authority directly or indirectly through wholly-owned subsidiaries:

(a) to select members of the Controlled Affiliate’s governing body having not less than 50% voting control thereof; and

(b) to prevent any change in the articles of incorporation, bylaws or other establishing or governing documents of the Controlled Affiliate with which the Sponsoring Plan does not concur; and

(c) to exercise control over the policy and operations of the Controlled Affiliate at least equal to that exercised by persons or entities (jointly or individually) other than the Sponsoring Plan; and

Notwithstanding anything to the contrary in (a) through (c) hereof, the Controlled Affiliate’s establishing or governing documents must also require written approval by the Sponsoring Plan before the Controlled Affiliate can:

(i) change its legal and/or trade names;

(ii) change the geographic area in which it operates;

Amended as of September 19, 2014

(iii) change any of the type(s) of businesses in which it engages;

(iv) create, or become liable for by way of guarantee, any indebtedness, other than indebtedness arising in the ordinary course of business;

(v) sell any assets, except for sales in the ordinary course of business or sales of equipment no longer useful or being replaced;

(vi) make any loans or advances except in the ordinary course of business;

(vii) enter into any arrangement or agreement with any party directly or indirectly affiliated with any of the owners or persons or entities with the authority to select or appoint members or board members of the Controlled Affiliate, other than the Sponsoring Plan or other Plans (excluding owners of stock holdings of under 5% in a publicly traded Controlled Affiliate);

(viii) conduct any business other than under the Licensed Marks and Name;

(ix) take any action that the Sponsoring Plan or BCBSA reasonably believes will adversely affect the Licensed Marks and Name.

In addition, the Sponsoring Plan directly or indirectly through wholly owned subsidiaries shall own at least 50% of any for-profit Controlled Affiliate, provided that in instances where the Sponsoring Plan formed a publicly traded Controlled Affiliate Licensee and such publicly traded Controlled Affiliate Licensee owns and controls other Controlled Affiliate Licensees, the Sponsoring Plan directly or indirectly shall own and control at least 50% of any Controlled Affiliate that is indirectly owned and controlled by the publicly traded Controlled Affiliate Licensee.

Or

(2) the legal authority directly or indirectly through wholly-owned subsidiaries:

(a) to select members of the Controlled Affiliate's governing body having more than 50% voting control thereof and to:

Amended as of March 26, 2015

(b) to prevent any change in the articles of incorporation, bylaws or other establishing or governing documents of the Controlled Affiliate with which the Sponsoring Plan does not concur; and

(c) to exercise control over the policy and operations of the Controlled Affiliate.

In addition, the Sponsoring Plan directly or indirectly through wholly-owned subsidiaries shall own more than 50% of any for-profit Controlled Affiliate, provided that in instances where the Sponsoring Plan formed a publicly traded Controlled Affiliate Licensee and such publicly traded Controlled Affiliate Licensee owns and controls other Controlled Affiliate Licensees, the Sponsoring Plan directly or indirectly shall own and control more than 50% of any Controlled Affiliate that is indirectly owned and controlled by the publicly traded Controlled Affiliate Licensee.

Or

(3) With respect to a Controlled Affiliate that is 100% controlled by Plans including the Sponsoring Plan and which offers solely Medicaid products and services, the legal authority together with such other Plans:

(a) to select all members of the Controlled Affiliate's governing body; and

(b) to prevent any change in the articles of incorporation, bylaws or other establishing or governing documents of the Controlled Affiliate; and

(c) to exercise control over the policy and operations of the Controlled Affiliate.

In addition, the Sponsoring Plan and such other Plans shall own 100% of any for-profit Controlled Affiliate with the Sponsoring Plan and such other Plans each having an ownership interest. Such control and ownership by Plans must be direct or, if indirect, solely through affiliates that are licensed to use marks owned by BCBSA. Further, the Sponsoring Plan and such other Plans shall execute the Addendum to Controlled Affiliate License Agreement attached hereto as Exhibit B-1.

Or

(4) With respect to a Controlled Affiliate that is 100% controlled by a Sponsoring Plan which on a Blue-branded basis offers solely a Basic Medicare Part D Prescription Drug product, the legal authority:

(a) to select all members of the Controlled Affiliate's governing body; and

(b) to prevent any change in the articles of incorporation, bylaws or other establishing or governing documents of the Controlled Affiliate; and

(c) to exercise control over the policy and operations of the Controlled Affiliate.

Amended March 17, 2016

In addition, the Sponsoring Plan shall own 100% of any for-profit Controlled Affiliate. Such 100% control and ownership by Sponsoring Plan must be direct or, if indirect, solely through affiliates that are licensed to use marks owned by BCBSA. Further, the Participating Plan as defined in Exhibit B-2 and the Sponsoring Plan shall execute the Addendum to Controlled Affiliate License Agreement attached hereto as Exhibit B-2.

3. FOR-PROFIT, PUBLICLY TRADED LICENSEES

A. The Controlled Affiliate may operate as a for-profit publicly traded company on the following conditions:

(1) The Controlled Affiliate shall discharge all responsibilities which it has to the Association and to other Plans by virtue of this Agreement.

(2) The Controlled Affiliate shall provide 90 days advance written notice to BCBSA prior to the initial filing with the SEC.

(3) The Controlled Affiliate shall not use the Licensed Marks and Name, or any derivative thereof, as part of its legal name or any symbol used to identify the Controlled Affiliate in any securities market. The Controlled Affiliate shall use the Licensed Marks and Name as part of its trade name within its service area for the sale, marketing and administration of health care and related services in the service area.

(4) The Controlled Affiliate's license to use the Licensed Marks and Name shall automatically terminate effective: (a) thirty days after the Controlled Affiliate knows, or there is an SEC filing indicating that, any Institutional Investor, has become the Beneficial Owner of securities representing 10% or more of the voting power of the Controlled Affiliate ("Excess Institutional Voter"), unless such Excess Institutional Voter shall cease to be an Excess Institutional Voter prior to such automatic termination becoming effective; (b) thirty days after the Controlled Affiliate knows, or there is an SEC filing indicating that, any Noninstituional Investor, other than a Plan or Plans or Controlled Affiliate Licensee or Licensees has become the Beneficial Owner of securities representing 5% or more of the voting power of the Controlled Affiliate ("Excess Noninstitutional Voter") unless such Excess Noninstitutional Voter shall cease to be an Excess Noninstitutional Voter prior to such automatic termination becoming effective; (c) thirty days after the Controlled Affiliate knows, or there is an SEC filing indicating that, any Person has become the Beneficial Owner, other than a Plan or Plans or Controlled Affiliate Licensee or Licensees, of 20% or more of the Controlled Affiliate's then outstanding common stock or other equity securities which (either by themselves or in combination) represent an ownership interest of 20% or more pursuant to determinations made under paragraph 3A(4) below ("Excess Owner"), unless such Excess Owner shall cease to be an Excess Owner prior to such automatic termination becoming effective; (d) ten business days after individuals who at the time the Controlled Affiliate went public constituted the Board of Directors of the Controlled Affiliate (together with any new directors whose election to the Board was approved by a vote of 2/3 of the directors then still in office who were directors at the time the Controlled Affiliate went public or whose election or nomination was previously so approved) (the "Continuing Directors") cease for any reason to constitute a majority of the Board of Directors; or (e) ten business days after the Controlled Affiliate consolidates with or merges with or into any person or conveys, assigns, transfers or sells all or substantially all of its assets to any person other than a merger in which the Sponsoring Plan is the surviving entity and immediately after which merger, no person is an Excess Institutional Voter, an Excess Noninstitutional Voter or an Excess Owner: provided that, if requested by the affected Controlled Affiliate in a writing received by BCBSA prior to such automatic termination becoming effective, the provisions of this paragraph 3A(4) may be waived, in whole or in part, upon the affirmative vote of a majority of the disinterested Plans and majority of the total then current weighted vote of the disinterested Plans. Any waiver so granted may be conditioned upon such additional requirements (including but not limited to imposing new and independent grounds for termination of this License) as shall be approved by

Amended as of March 26, 2015

---

the affirmative vote of a majority of the disinterested Plans and a majority of the total then current weighted vote of the disinterested Plans. If a timely waiver request is received, no automatic termination shall become effective until the later of: (1) the conclusion of the applicable time period specified in paragraphs 3A(4) (a)-(d) above, or (2) the conclusion of the first Member Plan meeting after receipt of such a waiver request.

In the event that the Controlled Affiliate's license, or any other license, to use the Licensed Marks and Name is terminated pursuant to Paragraph 3A(4), the license may be reinstated in BCBSA's sole discretion if, within 30 days of the date of such termination, the Controlled Affiliate demonstrates that the Person referred to in clause (a), (b), or (c) of the preceding paragraph is no longer an Excess Institutional Voter, an Excess Noninstitutional Voter or an Excess Owner.

(5) The Controlled Affiliate shall not issue any class or series of security other than (i) shares of common stock having identical terms or options or derivatives of such common stock, (ii) non-voting, non-convertible debt securities or (iii) such other securities as the Controlled Affiliate may approve, provided that BCBSA receives notice at least thirty days prior to the issuance of such securities, including a description of the terms for such securities, and BCBSA shall have the authority to determine how such other securities will be counted in determining whether any Person is an Excess Institutional Voter, Excess Noninstitutional Voter or an Excess Owner.

(6) For purposes of paragraph 3A(4) above, the following definitions shall apply:

(i) "Affiliate" and "Associate" shall have the respective meanings ascribed to such terms in Rule 12b-2 of the General Rules and Regulations under the Securities Exchange Act of 1934, as amended and in effect on November 17, 1993 (the "Exchange Act").

(ii) A Person shall be deemed the "Beneficial Owner" of and shall be deemed to "beneficially own" any securities:

(1) which such Person or any of such Person's Affiliates or Associates beneficially owns, directly or indirectly;

(2) which such Person or any of such Person's Affiliates or Associates has (A) the right to acquire (whether such right is exercisable immediately or only after the passage of time) pursuant to any agreement, arrangement or understanding, or upon the exercise of conversion rights, exchange rights, warrants or options, or otherwise; or (B) the right to vote pursuant to any agreement, arrangement or understanding; provided, however, that a Person shall not be deemed the Beneficial Owner of, or to

Amended as of March 26, 2015

beneficially own, any security if the agreement, arrangement or understanding to vote such security (1) arises solely from a revocable proxy or consent given to such Person in response to a public proxy or consent solicitation made pursuant to, and in accordance with, the applicable rules and regulations promulgated under the Exchange Act and (2) is not also then reportable on Schedule 13D under the Exchange Act (or any comparable or successor report); or

(3) which are beneficially owned, directly or indirectly, by any other Person (or any Affiliate or Associate thereof) with which such Person (or any of such Person's Affiliates or Associates) has any agreement, arrangement or understanding (other than customary agreements with and between underwriters and selling group members with respect to a bona fide public offering of securities) relating to the acquisition, holding, voting (except to the extent contemplated by the proviso to (ii)2(B) above) or disposing of any securities of the Controlled Affiliate.

Notwithstanding anything in this definition of Beneficial Ownership to the contrary, the phrase "then outstanding," when used with reference to a Person's Beneficial Ownership of securities of the Controlled Affiliate, shall mean the number of such securities then issued and outstanding together with the number of such securities not then actually issued and outstanding which such Person would be deemed to own beneficially hereunder.

(iii) A Person shall be deemed an "Institutional Investor" if (but only if) such Person (i) is an entity or group identified in the SEC's Rule 13d-1(b)(1)(ii) as constituted on June 1, 1997, and (ii) every filing made by such Person with the SEC under Regulation 13D-G (or any successor Regulation) with respect to such Person's Beneficial Ownership of Plan securities shall have contained a certification identical to the one required by item 10 of SEC Schedule 13G as constituted on June 1, 1997.

(iv) "Noninstitutional Investor" means any Person who is not an Institutional Investor.

(v) "Person" shall mean any individual, firm, partnership, corporation, trust, association, joint venture or other entity, and shall include any successor (by merger or otherwise) of such entity.

4. SERVICE MARK USE

A. Controlled Affiliate recognizes the importance of a comprehensive national network of independent BCBSA licensees which are committed to strengthening the Licensed Marks and Name. The Controlled Affiliate further recognizes that its actions within its Service Area may affect the value of the Licensed Marks and Name nationwide.

Amended March 26, 2015

B. Controlled Affiliate shall at all times make proper service mark use of the Licensed Marks and Name, including but not limited to use of such symbols or words as BCBSA shall specify to protect the Licensed Marks and Name and shall comply with such rules (generally applicable to Controlled Affiliates licensed to use the Licensed Marks and Name) relative to service mark use, as are issued from time-to-time by BCBSA. Controlled Affiliate recognizes and agrees that all use of the Licensed Marks and Name by Controlled Affiliate shall inure to the benefit of BCBSA.

C. Controlled Affiliate may not directly or indirectly use the Licensed Marks and Name in a manner that transfers or is intended to transfer in the Service Area the goodwill associated therewith to another mark or name, nor may Controlled Affiliate engage in activity that may dilute or tarnish the unique value of the Licensed Marks and Name.

D. If Controlled Affiliate meets the standards of 2E(1) but not 2E(2) above and any of Controlled Affiliate's advertising or promotional material is reasonably determined by BCBSA and/or the Plan to be in contravention of rules and regulations governing the use of the Licensed Marks and Name, Controlled Affiliate shall for ninety (90) days thereafter obtain prior approval from BCBSA of advertising and promotional efforts using the Licensed Marks and Name, approval or disapproval thereof to be forthcoming within five (5) business days of receipt of same by BCBSA or its designee. In all advertising and promotional efforts, Controlled Affiliate shall observe the Service Area limitations applicable to Plan.

E. Notwithstanding any other provision in the Plan's License Agreement with BCBSA or in this Agreement, Controlled Affiliate shall use its best efforts to promote and build the value of the Licensed Marks and Name.

5. SUBLICENSING AND ASSIGNMENT

Controlled Affiliate shall not, directly or indirectly, sublicense, transfer, hypothecate, sell, encumber or mortgage, by operation of law or otherwise, the rights granted hereunder and any such act shall be voidable at the sole option of Plan or BCBSA. This Agreement and all rights and duties hereunder are personal to Controlled Affiliate.

6. INFRINGEMENT

Controlled Affiliate shall promptly notify Plan and Plan shall promptly notify BCBSA of any suspected acts of infringement, unfair competition or passing off that may occur in relation to the Licensed Marks and Name. Controlled Affiliate shall not be entitled to require Plan or BCBSA to take any actions or institute any proceedings to prevent infringement, unfair competition or passing off by third parties. Controlled Affiliate agrees to render to Plan and BCBSA, without charge, all reasonable assistance in connection with any matter pertaining to the protection of the Licensed Marks and Name by BCBSA.

Amended as of March 26, 2015

7. LIABILITY INDEMNIFICATION

Controlled Affiliate and Plan hereby agree to save, defend, indemnify and hold BCBSA harmless from and against all claims, damages, liabilities and costs of every kind, nature and description (except those arising solely as a result of BCBSA's negligence) that may arise as a result of or related to: (i) Controlled Affiliate's rendering of services under the Licensed Marks and Name; or (ii) the activities of any hospital, medical group, clinic or other provider of health services that is owned or controlled directly or indirectly by Plan or Controlled Affiliate.

8. LICENSE TERM

A. Except as otherwise provided herein, the license granted by this Agreement shall remain in effect for a period of one (1) year and shall be automatically extended for additional one (1) year periods unless terminated pursuant to the provisions herein.

B. This Agreement and all of Controlled Affiliate's rights hereunder shall immediately terminate without any further action by any party or entity in the event that: (i) the Plan ceases to be authorized to use the Licensed Marks and Name; or (ii) pursuant to Paragraph 15(a)(x) of the Blue Cross License Agreement the Plan ceases to be authorized to use the Licensed Names and Marks in the geographic area served by the Controlled Affiliate provided, however, that if the Controlled Affiliate is serving more than one State or portions thereof, the termination of this Agreement shall be limited to the State(s) or portions thereof in which the Plan's license to use the Licensed
Marks and Names is terminated. By not appealing or challenging such regulatory action within the time prescribed by law or regulation, and in any event no later than 120 days after such action is taken, a Plan shall be deemed to have exhausted its rights to appeal or challenge, and automatic termination shall proceed.

C. Notwithstanding any other provision of this Agreement, this license to use the Licensed Marks and Name may be forthwith terminated by the Plan or the affirmative vote of the majority of the Board of Directors of BCBSA present and voting at a special meeting expressly called by BCBSA for the purpose on ten (10) days written notice to the Plan advising of the specific matters at issue and granting the Plan an opportunity to be heard and to present its response to the Board for: (1) failure to comply with any applicable minimum capital or liquidity requirement under the quality control standards of this Agreement; or (2) failure to comply with the "Organization and Governance" quality control standard of this Agreement; or (3) impending financial insolvency; or (4) for a Smaller Controlled Affiliate (as defined in Exhibit A), failure to comply with any of the applicable requirements of Standards 2, 3, 4, 5 or 7 of attached Exhibit A; or (5) the pendency of any action instituted against the Controlled Affiliate seeking its dissolution or liquidation of its assets or seeking appointment of a trustee, interim trustee, receiver or other custodian for any of its property or business or seeking the declaration or establishment of a trust for any of its property or business, unless

Amended as of March 26, 2015

this Controlled Affiliate License Agreement has been earlier terminated under paragraph 8(E); or (6) failure by a Controlled Affiliate that meets the standards of 2E(1) but not 2E(2) above to obtain BCBSA's written consent to a change in the identity of any owner, in the extent of ownership, or in the identity of any person or entity with the authority to select or appoint members or board members, provided that as to publicly traded Controlled Affiliates this provision shall apply only if the change affects a person or entity that owns at least 5% of the Controlled Affiliate's stock before or after the change; or (7) such other reason as is determined in good faith immediately and irreparably to threaten the integrity and reputation of BCBSA, the Plans, any other licensee including Controlled Affiliate and/or the Licensed Marks and Name.

D. Except as otherwise provided in Paragraphs 8(B), 8(C) or 8(E) herein, should Controlled Affiliate fail to comply with the provisions of this Agreement and not cure such failure within thirty (30) days of receiving written notice thereof (or commence a cure within such thirty day period and continue diligent efforts to complete the cure if such curing cannot reasonably be completed within such thirty day period) BCBSA or the Plan shall have the right to issue a notice that the Controlled Affiliate is in a state of noncompliance. If a state of noncompliance as aforesaid is undisputed by the Controlled Affiliate or is found to exist by a mandatory dispute resolution panel and is uncured as provided above, BCBSA shall have the right to seek judicial enforcement of the Agreement or to issue a notice of termination thereof. Notwithstanding any other provisions of this Agreement, any disputes as to the termination of this License pursuant to Paragraphs 8(B), 8(C) or 8(E) of this Agreement shall not be subject to mediation and mandatory dispute resolution. All other disputes between BCBSA, the Plan and/or Controlled Affiliate shall be submitted promptly to mediation and mandatory dispute resolution. The mandatory dispute resolution panel shall have authority to issue orders for specific performance and assess monetary penalties. Except, however, as provided in Paragraphs 8(B) and 8(E) of this Agreement, this license to use the Licensed
Marks and Name may not be finally terminated for any reason without the affirmative vote of a majority of the present and voting members of the Board of Directors of BCBSA.

E. This Agreement and all of Controlled Affiliate’s rights hereunder shall immediately terminate without any further action by any party or entity in the event that:

(1) Controlled Affiliate shall no longer comply with item 2(E) above;

(2) Appropriate dues, royalties and other payments for Controlled
Affiliate pursuant to paragraph 10 hereof, which are the royalties for this License Agreement, are more than sixty (60) days in arrears to BCBSA; or

(3) Any of the following events occur: (i) a voluntary petition shall be filed by Controlled Affiliate seeking bankruptcy, reorganization, arrangement with creditors or other relief under the bankruptcy laws of the United States or any other law governing insolvency or debtor relief, or (ii) an involuntary petition or proceeding shall be filed against Controlled

Amended as of March 26, 2015

Affiliate seeking bankruptcy, reorganization, arrangement with creditors or other relief under the bankruptcy laws of the United States or any other law governing insolvency or debtor relief and such petition or proceeding is consented to or acquiesced in by Controlled Affiliate or is not dismissed within sixty (60) days of the date upon which the petition or other document commencing the proceeding is served upon the Controlled Affiliate, or (iii) an order for relief is entered against Controlled Affiliate in any case under the bankruptcy laws of the United States, or Controlled Affiliate is adjudged bankrupt or insolvent as those terms are defined in the Uniform Commercial Code as enacted in the State of Illinois by any court of competent jurisdiction, or (iv) Controlled Affiliate makes a general assignment of its assets for the benefit of creditors, or (v) any government or any government official, office, agency, branch, or unit assumes control of Controlled Affiliate or delinquency proceedings (voluntary or involuntary) are instituted, or (vi) an action is brought by Controlled Affiliate seeking its dissolution or liquidation of its assets or seeking the appointment of a trustee, interim trustee, receiver or other custodian for any of its property or business, or (vii) an action is instituted by any governmental entity or officer against Controlled Affiliate seeking its dissolution or liquidation of its assets or seeking the appointment of a trustee, interim trustee, receiver or other custodian for any of its property or business and such action is consented to or acquiesced in by Controlled Affiliate or is not dismissed within one hundred thirty (130) days of the date upon which the pleading or other document commencing the action is served upon the Controlled Affiliate, provided that if the action is stayed or its prosecution is enjoined, the one hundred thirty (130) day period is tolled for the duration of the stay or injunction, and provided further, that the Association's Board of Directors may toll or extend the 130 day period at any time prior to its expiration, or (viii) a trustee, interim trustee, receiver or other custodian for any of Controlled Affiliate's property or business is appointed or the Controlled Affiliate is ordered dissolved or liquidated. Notwithstanding any other provision of this Agreement, a declaration or a request for declaration of the existence of a trust over any of the Controlled Affiliate's property or business shall not in itself be deemed to constitute or seek appointment of a trustee, interim trustee, receiver or other custodian for purposes of subparagraphs 8(E)(3)(vii) and (viii) of this Agreement.

(4) The for-profit, publicly traded Controlled Affiliate is terminated pursuant to Paragraph 3A(4) of this Agreement. In which case, the licenses of any Controlled Affiliates directly or indirectly owned by the terminated for-profit, publicly traded Controlled Affiliate also shall immediately terminate as provided for in paragraph 3A(4) of this Agreement.

F. Upon termination of this Agreement for cause or otherwise, Controlled Affiliate agrees that it shall immediately discontinue all use of the Licensed Marks and Name, including any use in its trade name.

Amended as of March 26, 2015

G. Upon termination of this Agreement, Controlled Affiliate shall immediately notify all of its customers that it is no longer a licensee of BCBSA and, if directed by the Association's Board of Directors, shall provide instruction on how the customer can contact BCBSA or a designated licensee to obtain further information on securing coverage. The notification required by this paragraph shall be in writing and in a form approved by BCBSA. The BCBSA shall have the right to audit the terminated entity's books and records to verify compliance with this paragraph.

H. In the event this Agreement terminates pursuant to 8(B) hereof, or in the event the Controlled Affiliate is a Larger Controlled Affiliate (as defined in Exhibit A), upon termination of this Agreement, the provisions of Paragraph 8.G. shall not apply and the following provisions shall apply, except that, in the event of a partial termination of this Agreement pursuant to Paragraph 8(B)(ii) of this Agreement, the notices, national account listing, payment, and audit right listed below shall be applicable solely with respect to the geographic area for which the Plan's license to use the Licensed Names and Marks is terminated.

(1) The Controlled Affiliate shall send a notice through the U.S. mails, with first class postage affixed, to all individual and group customers, providers, brokers and agents of products or services sold, marketed, underwritten or administered by the Controlled Affiliate under the Licensed Marks and Name. The form and content of the notice shall be specified by BCBSA and shall, at a minimum, notify the recipient of the termination of the license, the consequences thereof, and instructions for obtaining alternate products or services licensed by BCBSA, subject to any conflicting state law and state regulatory requirements. This notice shall be mailed within 15 days after termination.

(2) The Controlled Affiliate shall deliver to BCBSA within five days of a request by BCBSA a listing of national accounts in which the Controlled Affiliate is involved (in a control, participating or servicing capacity), identifying the national account and the Controlled Affiliate's role therein.

(3) Unless the cause of termination is an event respecting BCBSA stated in paragraph 15(a) or (b) of the Plan's license agreement with BCBSA to use the Licensed Marks and Name, the Controlled Affiliate, the Plan, and any other Licensed Controlled Affiliates of the Plan shall be jointly liable for payment to BCBSA of an amount equal to the Re-Establishment Fee (desribed below) multiplied by the number of Licensed Enrollees of the Controlled Affiliate; provided that if any other Plan is permitted by BCBSA to use marks or names licensed by BCBSA in the Service Area established by this Agreement, the Re-Establishment Fee shall be multiplied by a fraction, the numerator of which is the number of Licensed Enrollees of the Controlled Affiliate, the Plan, and any other Licensed Controlled Affiliates and the denominator of which is the total number of Licensed Enrollees in the Service Area.

Amended as of March 26, 2015

The Re-Establishment Fee shall be indexed to a base fee of $80. The Re-Establishment Fee through December 31, 2005 shall be $80. The Re-establishment Fee for calendar years after December 31, 2005 shall be adjusted on January 1 of each calendar year up to and including January 1, 2010 and shall be the base fee multiplied by 100% plus the cumulative percentage increase or decrease in the Plans' gross administrative expense (standard BCBSA definition) per Licensed Enrollee since December 31, 2004. The adjustment shall end on January 1, 2011, at which time the Re-Establishment Fee shall be fixed at the then-current amount and no longer automatically adjusted. For example, if the Plans' gross administrative expense per Licensed Enrollee was $278.60, $285.00 and $290.00 for calendar year end 2004, 2005 and 2006, respectively, the January 1, 2007 Re-Establishment Fee would be $83.27 (100% of base fee plus $1.84 for calendar year 2005 and $1.43 for calendar year 2006). Licensed Enrollee means each and every person and covered dependent who is enrolled as an individual or member of a group receiving products or services sold, marketed or administered under marks or names licensed by BCBSA as determined at the earlier of (i) the end of the last fiscal year of the terminated entity which ended prior to termination or (ii) the fiscal year which ended before any transactions causing the termination began. Notwithstanding the foregoing, the amount payable pursuant to this subparagraph H. (3) shall be due only to the extent that, in BCBSA's opinion, it does not cause the net worth of the Controlled Affiliate, the Plan or any other Licensed Controlled Affiliates of the Plan to fall below 100% of the Health Risk-Based Capital formula, or its equivalent under any successor formula, as set forth in the applicable financial responsibility standards established by BCBSA (provided such equivalent is approved for purposes of this sub paragraph by the affirmative vote of three-fourths of the Plans and three-fourths of the total then current weighted vote of all the Plans); measured as of the date of termination, and adjusted for the value of any transactions not made in the ordinary course of business. This payment shall not be due in connection with transactions exclusively by or among Plans or their affiliates, including reorganizations, combinations or mergers, where the BCBSA Board of Directors determines that the license termination does not result in a material diminution in the number of Licensed Enrollees or the extent of their coverage. At least 50% of the Re-Establishment Fee shall be awarded to the Plan (or Plans) that receive the new license(s) for the service area(s) at issue; provided, however, that such award shall not become due or payable until all disputes, if any, regarding the amount of and BCBSA's right to such Re-Establishment Fee have been finally resolved; and provided further that the award shall be based on the final amount actually received by BCBSA. The Board of Directors shall adopt a resolution which it may amend from time to time that shall govern BCBSA's use of its portion of the award. In the event that the Controlled Affiliate's license is reinstated by BCBSA or is deemed to have remained in effect without interruption by a court of competent jurisdiction, BCBSA shall reimburse the Controlled Affiliate (and/or the Plan or its other Licensed Controlled Affiliates, as the case may be) for payments made under this subparagraph 8.H.(3) only to the extent that such payments exceed the amounts due to BCBSA pursuant to paragraph 8.M. and any costs associated with reestablishing the Service Area, including payments made by BCBSA to a Plan or Plans (or their Licensed Controlled Affiliates) for purposes of replacing the Controlled Affiliate.

Amended as of March 26, 2015

---

(4) BCBSA shall have the right to examine and audit and/or hire at terminated entity's expense a third party auditor to examine and audit the books and records of the Controlled Affiliate, the Plan, and any other Licensed Controlled Affiliates of the Plan to verify compliance with this paragraph 8.H.

(5) Subsequent to termination of this Agreement, the terminated entity and its affiliates, agents, and employees shall have an ongoing and continuing obligation to protect all BCBSA and Blue Licensee data that was acquired or accessed during the period this Agreement was in force, including but not limited to all confidential processes, pricing, provider, discount and other strategic and competitively sensitive information ("Blue Information") from disclosure, and shall not, either alone or with another entity, disclose such Blue Information or use it in any manner to compete without the express written permission of BCBSA.

(6) As to a breach of 8.H.(1), (2), (3), (4) or (5) the parties agree that the obligations are immediately enforceable in a court of competent jurisdiction. As to a breach of 8.H.(1), (2) or (4) by the Controlled Affiliate, the parties agree there is no adequate remedy at law and BCBSA is entitled to obtain specific performance.

I. This Agreement shall remain in effect until terminated by the Controlled Affiliate or the Plan upon not less than eighteen (18) months written notice to the Association or upon a shorter notice period approved by BCBSA in writing at its sole discretion, or until terminated as otherwise provided herein. The Plan's right to terminate without cause upon such notice is unfettered and may be exercised in the Plan's sole discretion.

J. In the event the Controlled Affiliate is a Smaller Controlled Affiliate (as defined in Exhibit A), the Controlled Affiliate agrees to be jointly liable for the amount described in H.3. and M. hereof upon termination of the BCBSA license agreement of any Larger Controlled Affiliate of the Plan.

K. BCBSA shall be entitled to enjoin the Controlled Affiliate or any related party in a court of competent jurisdiction from entry into any transaction which would result in a termination of this Agreement unless the Plan's license from BCBSA to use the Licensed Marks and Names has been terminated pursuant to 10(d) of the Plan's license agreement upon the required 18 months written notice.

L. BCBSA acknowledges that it is not the owner of assets of the Controlled Affiliate.

M. In the event that the Plan has more than 50 percent voting control of the Controlled Affiliate under Paragraph 2(E)(2) above and is a Larger Controlled Affiliate (as defined in Exhibit A), then the vote called for in Paragraphs 8(C) and 8(D) above shall require the affirmative vote of three-fourths of the Plans and three-fourths of the total then current weighted vote of all the Plans.

Amended as of March 26, 2015

N. In the event this Agreement terminates and is subsequently reinstated by BCBSA or is deemed to have remained in effect without interruption by a court of competent jurisdiction, the Controlled Affiliate, the Plan, and any other Licensed Controlled Affiliates of the Plan shall be jointly liable for reimbursing BCBSA the reasonable costs incurred by BCBSA in connection with the termination and the reinstatement or court action, and any associated legal proceedings, including but not limited to: outside legal fees, consulting fees, public relations fees, advertising costs, and costs incurred to develop, lease or establish an interim provider network. Any amount due to BCBSA under this subparagraph may be waived in whole or in part by the BCBSA Board of Directors in its sole discretion.

9. DISPUTE RESOLUTION

The parties agree that any disputes between them or between or among either of them and one or more Plans or Controlled Affiliates of Plans that use in any manner the Blue Cross and Blue Cross Marks and Name are subject to the Mediation and Mandatory Dispute Resolution process attached to and made a part of Plan's License from BCBSA to use the Licensed Marks and Name as Exhibit 5 as amended from time-to-time, which documents are incorporated herein by reference as though fully set forth herein.

10. LICENSE FEE

Controlled Affiliate will pay to BCBSA a fee for this License determined pursuant to the formula(s) set forth in Exhibit C.

11. JOINT VENTURE

Nothing contained in the Agreement shall be construed as creating a joint venture, partnership, agency or employment relationship between Plan and Controlled Affiliate or between either and BCBSA.

12. NOTICES AND CORRESPONDENCE

Notices regarding the subject matter of this Agreement or breach or termination thereof shall be in writing and shall be addressed in duplicate to the last known address of each other party, marked respectively to the attention of its President and, if any, its General Counsel.

13. COMPLETE AGREEMENT

This Agreement contains the complete understandings of the parties in relation to the subject matter hereof. This Agreement may only be amended by the affirmative vote of three-fourths of the Plans and three-fourths of the total then current weighted vote of all the Plans as officially recorded by the BCBSA Corporate Secretary.

Amended as of March 26, 2015

14. SEVERABILITY

If any term of this Agreement is held to be unlawful by a court of competent jurisdiction, such findings shall in no way affect the remaining obligations of the parties hereunder and the court may substitute a lawful term or condition for any unlawful term or condition so long as the effect of such substitution is to provide the parties with the benefits of this Agreement.

15. NONWAIVER

No waiver by BCBSA of any breach or default in performance on the part of Controlled Affiliate or any other licensee of any of the terms, covenants or conditions of this Agreement shall constitute a waiver of any subsequent breach or default in performance of said terms, covenants or conditions.

15A. VOTING

For all provisions of this Agreement referring to voting, the term 'Plans' shall mean all entities licensed under the Blue Cross License Agreement and/or the Blue Shield License Agreement, and in all votes of the Plans under this Agreement the Plans shall vote together. For weighted votes of the Plans, the Plan shall have a number of votes equal to the number of weighted votes (if any) that it holds as a Blue Cross Plan plus the number of weighted votes (if any) that it holds as a Blue Shield Plan. For all other votes of the Plans, the Plan shall have one vote. For all questions requiring an affirmative three-fourths weighted vote of the Plans, the requirement shall be deemed satisfied with a lesser weighted vote unless the greater of: (i) 6/52 or more of the Plans (rounded to the nearest whole number, with 0.5 or multiples thereof being rounded to the next higher whole number) fail to cast weighted votes in favor of the question; or (ii) three (3) of the Plans fail to cast weighted votes in favor of the question.

Notwithstanding the foregoing provision, if there are thirty-nine (39) Plans, the requirement of an affirmative three-fourths weighted vote shall be deemed satisfied with a lesser weighted vote unless four (4) or more Plans fail to cast weighted votes in favor of the question.

Amended as of March 26, 2015

THIS PAGE IS INTENTIONALLY BLANK.

16. GOVERNING LAW

This Agreement shall be governed by, and construed and interpreted in accordance with, the laws of the State of Illinois.

17. HEADINGS

The headings inserted in this agreement are for convenience only and shall have no bearing on the interpretation hereof.

IN WITNESS WHEREOF, the parties have caused this License Agreement to be executed and effective as of the date of last signature written below.

EXHIBIT A

CONTROLLED AFFILIATE LICENSE STANDARDS November 2016
PREAMBLE

For purposes of definition:

- A "smaller Controlled Affiliate:" (1) comprises less than fifteen percent (15%) of Sponsoring Plan's and its licensed Controlled Affiliates' total member enrollment (as reported on the BCBSA Quarterly Enrollment Report, excluding rider and freestanding coverage, and treating an entity seeking licensure as licensed);* or (2) underwrites the indemnity portion of workers' compensation insurance and has total premium revenue less than 15 percent of the Sponsoring Plan's net subscription revenue.
- A "larger Controlled Affiliate" comprises fifteen percent (15%) or more of Sponsoring Plan's and its licensed Controlled Affiliates' total member enrollment (as reported on the BCBSA Quarterly Enrollment Report, excluding rider and freestanding coverage, and treating an entity seeking licensure as licensed.)*

Changes in Controlled Affiliate status:

If **any** Controlled Affiliate's status changes regarding: its Plan ownership level, its risk acceptance or direct delivery of medical care, the Controlled Affiliate shall notify BCBSA within thirty (30) days of such occurrence in writing and come into compliance with the applicable standards within six (6) months.

If a smaller Controlled Affiliate's health and workers' compensation administration business reaches or surpasses fifteen percent (15%) of the total member enrollment of the Sponsoring Plan and licensed Controlled Affiliates, the Controlled Affiliate shall:

Amended as of September 19, 2014

EXHIBIT A (continued)

1. Within thirty (30) days, notify BCBSA of this fact in writing, including evidence that the Controlled Affiliate meets the minimum liquidity and capital (BCBSA "Health Risk-Based Capital (HRBC)" as defined by the NAIC and state-established minimum reserve) requirements of the larger Controlled Affiliate Financial Responsibility standard; and

2. Within six (6) months after reaching or surpassing the fifteen percent (15%) threshold, demonstrate compliance with all license requirements for a larger Controlled Affiliate.

If a Controlled Affiliate that underwrites the indemnity portion of workers' compensation insurance receives a change in rating or proposed change in rating, the Controlled Affiliate shall notify BCBSA within 30 days of notification by the external rating agency.

*For purposes of this calculation, The numerator equals:

Applicant Controlled Affiliate's member enrollment, as defined in BCBSA's Quarterly Enrollment Report (excluding rider and freestanding coverage).

The denominator equals:

Numerator PLUS Sponsoring Plan and all other licensed Controlled Affiliates' member enrollment, as reported in BCBSA's Quarterly Enrollment Report (excluding rider and freestanding coverage).

Amended as of September 19, 2002

EXHIBIT A (continued)

STANDARDS FOR LICENSED CONTROLLED AFFILIATES

Each licensed controlled affiliate shall be subject to certain standards as determined below:

1. What percent of the licensed controlled affiliate is controlled by the Sponsoring Plan and other Plans?

More than 50% by Sponsoring Plan	50% by Sponsoring Plan	100% Plan Control but less than 50% Sponsoring Plan Control and it offers solely Medicaid products and services	100% Sponsoring Plan control and on a Blue-branded basis, it only offers a Basic Medicare Part D Prescription Drug Plan product

EXHIBIT A (continued)

Standard 1 - Organization and Governance

1A.) The Standard for more than 50% Plan control is:

A Controlled Affiliate shall be organized and operated in such a manner that a Plan authorized to use the Licensed Marks in the Service Area of the Controlled Affiliate pursuant to the separate Primary License Agreement with BCBSA, has the legal authority, directly or indirectly through wholly-owned subsidiaries: 1) to select members of the Controlled Affiliate's governing body having more than 50% voting control thereof; and 2) to prevent any change in the articles of incorporation, bylaws or other establishing or governing documents of the Controlled Affiliate with which the Sponsoring Plan does not concur; and 3) to exercise control over the policy and operations of the Controlled Affiliate. In addition, the Sponsoring Plan directly or indirectly through wholly-owned subsidiaries shall own more than 50% of any for-profit Controlled Affiliate.

1B.) The Standard for 50% Plan control is:

A Controlled Affiliate shall be organized and operated in such a manner that a Plan authorized to use the Licensed Marks in the Service Area of the Controlled Affiliate pursuant to the separate Primary License Agreement with BCBSA, has the legal authority, directly or indirectly through wholly-owned subsidiaries:

1) to select members of the Controlled Affiliate's governing body having not less than 50% voting control thereof; and

2) to prevent any change in the articles of incorporation, bylaws or other establishing or governing documents of the Controlled Affiliate with which the Sponsoring Plan does not concur; and

3) to exercise control over the policy and operations of the Controlled Affiliate at least equal to that exercised by persons or entities (jointly or individually) other than the Sponsoring Plan.

Amended as of March 17, 2016

EXHIBIT A (continued)

Notwithstanding anything to the contrary in 1) through 3) hereof, the Controlled Affiliate's establishing or governing documents must also require written approval by Sponsoring Plan before the Controlled Affiliate can:

- change the geographic area in which it operates
- change its legal and/or trade names
- change any of the types of businesses in which it engages
- create, or become liable for by way of guarantee, any indebtedness, other than indebtedness arising in the ordinary course of business
- sell any assets, except for sales in the ordinary course of business or sales of equipment no longer useful or being replaced
- make any loans or advances except in the ordinary course of business
- enter into any arrangement or agreement with any party directly or indirectly affiliated with any of the owners or persons or entities with the authority to select or appoint members or board members of the Controlled Affiliate, other than the Sponsoring Plan or other Plans (excluding owners of stock holdings of under 5% in a publicly traded Controlled Affiliate)
- conduct any business other than under the Licensed Marks and Name
- take any action that the Sponsoring Plan or BCBSA reasonably believes will adversely affect the Licensed Marks and Name.

In addition, the Sponsoring Plan directly or indirectly through wholly-owned subsidiaries shall own at least 50% of any for-profit Controlled Affiliate.

Amended September 19, 2014

1C.) The Standard for a Controlled Affiliate that offers solely Medicaid products and service and has 100% Plan control but less than 50% Sponsoring Plan Control:

A Controlled Affiliate shall be organized and operated in such a manner that (i) it offers solely Medicaid products and services; and (ii) a Plan authorized to use the Licensed Marks in the Service Area of the Controlled Affiliate pursuant to the separate Primary License Agreement with BCBSA (the "Sponsoring Plan,) has the legal authority together with Other Plans:

1) to select all members of the Controlled Affiliate's governing body; and

2) to prevent any change in the articles of incorporation, bylaws, or other establishing or governing documents of the Controlled Affiliate; and

3) to exercise control over the policy and operations of the Controlled Affiliate.

In addition, the Sponsoring Plan and such other Plans shall own 100% of any for-profit Controlled Affiliate, with the Sponsoring Plan and such other Plans each having an ownership interest. Such 100% control and ownership by Plans shall be direct or, if indirect, solely through affiliates that are licensed to use marks owned by BCBSA. Further, the Sponsoring Plan and such other Plans shall execute the Addendum to Controlled Affiliate License.

1D.) The Standard for a Controlled Affiliate that on a Blue-branded basis, only offers a Basic Medicare Part D Prescription Drug product and has 100% Plan control is:

A Controlled Affiliate shall be organized and operated in such a manner that (i) it offers solely a Basic Medicare PDP product; and (ii) the Sponsoring Plan has the legal authority:

1) to select all members of the Controlled Affiliate's governing body; and

2) to prevent any change in the articles of incorporation, bylaws or other establishing or governing documents of the Controlled Affiliate; and

3) to exercise control over the policy and operations of the Controlled Affiliate.

In addition, the Sponsoring Plan shall own 100% of any for-profit Controlled Affiliate. Such 100% control and ownership by Sponsoring Plan must be direct or, if indirect, solely through affiliates that are licensed to use marks owned by BCBSA.

Further, the Sponsoring Plan and Participating Plan shall execute the Addendum to Controlled Affiliate License.

Amended March 17, 2016

EXHIBIT A (continued)

Standard 2 - Financial Responsibility

A Controlled Affiliate shall be operated in a manner that provides reasonable financial assurance that it can fulfill all of its contractual obligations to its customers. If a risk-assuming Controlled Affiliate ceases operations for any reason, Blue Cross and/or Blue Cross Plan coverage will be offered to all Controlled Affiliate subscribers without exclusions, limitations or conditions based on health status. If a nonrisk-assuming Controlled Affiliate ceases operations for any reason, Sponsoring Plan will provide for services to its customers. The requirements of the preceding two sentences shall apply to all lines of business unless a line of business is specially exempted from the requirement(s) by the BCBSA Board of Directors.

Standard 3 - State Licensure/Certification

3A.) The Standard for a Controlled Affiliate that employs, owns or contracts on a substantially exclusive basis for medical services is:

A Controlled Affiliate shall maintain unimpaired licensure or certification for its medical care providers to operate under applicable state laws.

3B.) The Standard for a Controlled Affiliate that does not employ, own or contract on a substantially exclusive basis for medical services is:

A Controlled Affiliate shall maintain unimpaired licensure or certification to operate under applicable state laws.

Standard 4 - Certain Disclosures

A Controlled Affiliate shall make adequate disclosure in contracting with third parties and in disseminating public statements of 1) the structure of the Blue Cross and Blue Shield System; and 2) the independent nature of every licensee; and 3) the Controlled Affiliate's financial condition.

Amended as of September 19, 2014

EXHIBIT A (continued)

Standard 5 - Reports and Records for Certain Smaller Controlled Affiliates

For a smaller Controlled Affiliate that does not underwrite the indemnity portion of workers' compensation insurance, the Standard is:

A Controlled Affiliate and/or its Sponsoring licensed Plan shall furnish, on a timely and accurate basis, reports and records relating to these Standards and the License Agreements between BCBSA and Controlled Affiliate.

Standard 6 - Other Standards for Larger Controlled Affiliates Standards 6(A) - (I) that follow apply to larger Controlled

Affiliates. Standard 6(A): Board of Directors

A Controlled Affiliate Governing Board shall act in the interest of its Corporation in providing cost-effective health care services to its customers. A Controlled Affiliate shall maintain a governing Board, which shall control the Controlled Affiliate, composed of a majority of persons other than providers of health care services, who shall be known as public members. A public member shall not be an employee of or have a financial interest in a health care provider, nor be a member of a profession which provides health care services.

Standard 6(B): Responsiveness to Customers

A Controlled Affiliate shall be operated in a manner responsive to customer needs and requirements.

Standard 6(C): Participation in National Programs

A Controlled Affiliate shall effectively and efficiently participate in each national program as from time to time may be adopted by the Member Plans for the purposes of providing portability of membership between the licensees and ease of claims processing for customers receiving benefits outside of the Controlled Affiliate's Service Area.

Amended as of September 19, 2014

EXHIBIT A (continued)

Such programs are applicable to licensees, and include:

1. BlueCard Program;

2. Inter-Plan Teleprocessing System (ITS);

3. National Account Programs;

4. Business Associate Agreement for Blue Cross and Blue Shield Licensees, effective April 14, 2003; and
5. Inter-Plan Medicare Advantage Program. Standard Standard 6(D): Financial Performance Requirements

In addition to requirements under the national programs listed in Standard 6C: Participation in National Programs, a Controlled Affiliate shall take such action as required to ensure its financial performance in programs and contracts of an inter-licensee nature or where BCBSA is a party.

Standard 6(E): Cooperation with Plan Performance Response Process

A Controlled Affiliate shall cooperate with BCBSA's Board of Directors and its Brand Enhancement & Protection Committee in the administration of the Plan Performance Response Process and in addressing Controlled Affiliate performance problems identified thereunder.

Standard 6(F): Independent Financial Rating

A Controlled Affiliate shall obtain a rating of its financial strength from an independent rating agency approved by BCBSA's Board of Directors for such purpose.

Standard 6(G): Local and National Best Efforts

Notwithstanding any other provision in the Plan's License Agreement with BCBSA or in this License Agreement, during each year, a Controlled Affiliate shall use its best efforts to promote and build the value of the Blue Cross Mark.

Amended as of November 21, 2014

EXHIBIT A (continued)

Standard 6(H): Financial Responsibility

A Controlled Affiliate shall be operated in a manner that provides reasonable financial assurance that it can fulfill all of its contractual obligations to its customers.

Standard 6(I): Reports and Records

A Controlled Affiliate shall furnish to BCBSA on a timely and accurate basis reports and records relating to compliance with these Standards and the License Agreements between BCBSA and Controlled Affiliate. Such reports and records are the following:

A) BCBSA Controlled Affiliate Licensure Information Request; and

B) Triennial trade name and service mark usage material, including disclosure material; and

C) Changes in the ownership and governance of the Controlled Affiliate, including changes in its charter, articles of incorporation, or bylaws, changes in a Controlled Affiliate's Board composition, or changes in the identity of the Controlled Affiliate's Principal Officers, and changes in risk acceptance, contract growth, or direct delivery of medical care; and

D) Semi-annual “Health Risk-Based Capital (HRBC) Report” as defined by the NAIC, Annual Certified Audit Report, Insurance Department Examination Report, Annual Statement filed with State Insurance Department (with all attachments), and

Amended as of November 17, 2011

EXHIBIT A (continued)

Standard 6(J): Control by Unlicensed Entities Prohibited

No Controlled Affiliate shall cause or permit an entity other than a Plan or a Licensed Controlled Affiliate thereof to obtain control of the Controlled Affiliate or to acquire a substantial portion of its assets related to licensable services.

Standard 7 - Other Standards for Risk-Assuming Workers' Compensation Controlled Affiliates

Standards 7(A) - (E) that follow apply to Controlled Affiliates that underwrite the indemnity portion of workers' compensation insurance.

Standard 7 (A): Financial Responsibility

A Controlled Affiliate shall be operated in a manner that provides reasonable financial assurance that it can fulfill all of its contractual obligations to its customers.

Standard 7(B): Reports and Records

A Controlled Affiliate shall furnish, on a timely and accurate basis, reports and records relating to compliance with these Standards and the License Agreements between BCBSA and the Controlled Affiliate. Such reports and records are the following:

A. BCBSA Controlled Affiliate Licensure Information Request; and

B. Triennial trade name and service mark usage materials, including disclosure materials; and

C. Annual Certified Audit Report, Annual Statement as filed with the State Insurance Department (with all attachments), Annual NAIC's Risk-Based Capital Worksheets for Property and Casualty Insurers; and

D. Quarterly Estimated Risk-Based Capital for Property and Casualty Insurers, Insurance Department Examination Report; and

Amended as of November 17, 2011

EXHIBIT A (continued)

E. Notification of all changes and proposed changes to independent ratings within 30 days of receipt and submission of a copy of all rating reports; and

F. Changes in the ownership and governance of the Controlled Affiliate including changes in its charter, articles of incorporation, or bylaws, changes in a Controlled Affiliate's Board composition, Plan control, state license status, operating area, the Controlled Affiliate's Principal Officers or direct delivery of medical care.

Standard 7(C): Loss Prevention

A Controlled Affiliate shall apply loss prevention protocol to both new and existing business.

Standard 7(D): Claims Administration

A Controlled Affiliate shall maintain an effective claims administration process that includes all the necessary functions to assure prompt and proper resolution of medical and indemnity claims.

Standard 7(E): Disability and Provider Management

A Controlled Affiliate shall arrange for the provision of appropriate and necessary medical and rehabilitative services to facilitate early intervention by medical professionals and timely and appropriate return to work.

Amended as of November 16, 2000

EXHIBIT A (continued)

Standard 8 - Cooperation with Controlled Affiliate License Performance Response Process Protocol

A Controlled Affiliate and its Sponsoring Plan shall cooperate with BCBSA's Board of Directors and its Brand Enhancement & Protection Committee in the administration of the Controlled Affiliate License Performance Response Process Protocol (ALPRPP) and in addressing Controlled Affiliate
compliance problems identified thereunder.

Standard 9(A) - Participation in National Programs by Smaller Controlled Affiliates that were former Primary Licensees

A smaller controlled affiliate that formerly was a Primary Licensee shall
effectively and efficiently participate in certain national programs from time to time as may be adopted by Member Plans for the purposes of providing ease of claims processing for customers receiving benefits outside of the Controlled Affiliate's service area and be subject to certain relevant financial and reporting requirements.

A. National program requirements include:
    - BlueCard Program;
    - Inter-Plan Teleprocessing System (ITS);
    - National Account Programs.

B. Financial Requirements include:
    - Standard 6(D): Financial Performance Requirements and Standard 6(H): Financial Responsibility; or
    - A financial guarantee covering the Controlled Affiliate's Inter-Plan Programs obligations in a form, and from a guarantor, acceptable to BCBSA.

Amended as of November 21, 2014

EXHIBIT A (continued)

Standard 9(A) - Participation in National Programs by Smaller Controlled Affiliates that were former Primary Licensees

C. Reporting requirements include:

- The Semi-annual Health Risk-Based Capital (HRBC) Report.

Amended as of June 13, 2002

EXHIBIT A (continued)

Standard 9(B) - Participation in National Programs by Smaller Controlled Affiliates

A smaller controlled affiliate shall participate in national programs in accordance with BlueCard and other relevant Policies and Provisions shall effectively and efficiently participate in national programs from time to time as may be adopted by Member Plans for the purposes of providing ease of claims processing for customers receiving benefits outside of the controlled affiliate's service area and be subject to certain relevant financial and reporting requirements.

A. National program requirements include:

- BlueCard Program;
- Inter-Plan Teleprocessing System (ITS);
- National Account Programs.

B. Financial Requirements include:

- Standard 6(D): Financial Performance Requirements and Standard 6(H): Financial Responsibility; or
- A financial guarantee covering the Controlled Affiliate's Inter-Plan Programs obligations in a form, and from a guarantor, acceptable to BCBSA.

Amended as of June 20, 2013

EXHIBIT A (continued)

Standard 10 - Participation in Inter-Plan Medicare Advantage Program

A smaller controlled affiliate for which this standard applies pursuant to the Preamble section of Exhibit A of the Controlled Affiliate License Agreement shall effectively and efficiently participate in certain national programs from time to time as may be adopted by Member Plans for the purposes of providing ease of claims processing for customers receiving benefits outside of the controlled affiliate's service area.

National program requirements include:

A. Inter-Plan Medicare Advantage Program.

Standard 11: Participation in Master Business Associate Agreement by Smaller Controlled Affiliate Licensees

Effective April 14, 2003, all smaller controlled affiliates shall comply with the terms of the Business Associate Agreement for Blue Cross and Blue Shield Licensees to the extent they perform the functions of a business associate or subcontractor to a business associate, as defined by the Business Associate Agreement.

Amended as of September 19, 2014

EXHIBIT B-1

ADDENDUM TO CONTROLLED AFFILIATE LICENSE TO BE EXECUTED BY CONTROLLED AFFILIATES LICENSED UNDER CONTROLLED AFFILIATE LICENSE STANDARD 1C.

ADDENDUM TO CONTROLLED AFFILIATE LICENSE

This Addendum is made to that certain Blue Cross Controlled Affiliate License Agreement executed by and among Blue Cross and Blue Shield Association
("Licensor"), _____ ("Controlled Affiliate Licensee")
and_____ ("Sponsoring Plan")
dated the _____ day of_____ , _____ ("Agreement"). The parties to this Addendum are Licensor, Controlled Affiliate Licensee, Sponsoring Plan, and the undersigned other Plans ('Other Plans"). This Addendum is made and shall be deemed effective as of the date of the Agreement.

WHEREAS, the Sponsoring Plan asserts that it can serve the Medicaid market in its Service Area more efficiently and with less risk through a Medicaid enterprise jointly owned and controlled with other Plans than through a wholly owned and controlled Medicaid enterprise;

WHEREAS, in such circumstance Controlled Affiliate License Standard 1C. permits the licensing of a Controlled Affiliate that is less than 50% owned and controlled by the Sponsoring Plan but which is 100% owned and controlled by Plans including the Sponsoring Plan, subject to certain conditions;

WHEREAS, one such condition is that the Sponsoring Plan and all such other owning and controlling Plans enter into this Addendum;

NOW THEREFORE, for good and valuable consideration, including the promises and covenants set forth herein, the parties agree as follows:

1. The Sponsoring Plan shall participate operationally in Controlled Affiliate's business that is conducted under the Licensed Marks. The parties understand that participation may take many forms, one of which should be providing a network of providers in the Service Area of the Controlled Affiliate for the Medicaid services being offered under the Agreement and being involved in network development and provider relations.

2. Each of the Other Plans agrees that (i) it will cooperate fully with the Sponsoring Plan and BCBSA as needed to enable Sponsoring Plan and

Amended March 17, 2016

Controlled Affiliate Licensee to meet their obligations to Licensor under the Agreement and all associated rules and regulations of Licensor, including the Brand Regulations, (ii) it will not take any action, either individually or jointly with any of the Other Plans, that would cause Sponsoring Plan or Controlled Affiliate Licensee to violate the Agreement, and (iii) it will not fail to take any action, either individually or jointly with any of the Other Plans, where such failure would cause Sponsoring Plan or Controlled Affiliate Licensee to violate the Agreement.

3. Each of the Other Plans acknowledges that it has reviewed the Agreement and understands that Sponsoring Plan has the right to terminate the Agreement without cause upon notice as provided in Paragraph 8 of the Agreement, and that such right is unfettered and may be exercised by Sponsoring Plan in its sole discretion.

WHEREFORE, by signing below the parties agree to be bound to the terms stated herein.

EXHIBIT B-2

ADDENDUM TO CONTROLLED AFFILIATE LICENSE TO BE EXECUTED BY CONTROLLED AFFILIATES LICENSED UNDER CONTROLLED AFFILIATE LICENSE STANDARD 1D.

ADDENDUM TO CONTROLLED AFFILIATE LICENSE

This Addendum is made to that certain Blue Cross Controlled Affiliate License Agreement executed by and among Blue Cross and Blue Shield Association ("Licensor"),_____("Controlled Affiliate Licensee"), _____("Sponsoring Plan") and _____("Participating Plan") dated the _____ day of _____, _____ ("Agreement").

WHEREAS, the Participating Plan is defined as the Plan that holds the Primary License with BCBSA to use the Service Marks in the Service Area where the Controlled Affiliate will use the Service Marks;

WHEREAS, the Participating Plan asserts that it can offer a lower cost Basic Medicare Part D Prescription Drug Plan product more efficiently in the Participating Plan's Service Area through the Controlled Affiliate Licensee;

WHEREAS, the Controlled Affiliate shall only use the Service Marks inside of the Participating Plan(s) Service Area subject to each Participating Plan signing a separate Addendum;

WHEREAS, in such circumstance Controlled Affiliate License Standard 1D permits the licensing of a Controlled Affiliate that is 100% owned and controlled by a Sponsoring Plan, subject to certain conditions;

WHEREAS, one such condition is that the Sponsoring Plan, Controlled Affiliate and the Participating Plan enter into this Addendum;

NOW THEREFORE, for good and valuable consideration, including the promises and covenants set forth herein, the parties agree as follows:

1. The Participating Plan shall participate in Controlled Affiliate's business that is conducted under the Licensed Marks. The parties understand that the Participating Plan shall conduct sales support and marketing of the Controlled Affiliate's Basic Medicare Part D Prescription Drug Plan product offered in the Participating Plan's Service Area. Any other form of participation shall require BCBSA's written approval.
2. Participating Plan agrees that (i) it will cooperate fully with the Sponsoring Plan and BCBSA as needed to enable Sponsoring Plan and Controlled Affiliate Licensee to meet their obligations to Licensor under the Agreement and all associated rules and regulations of Licensor, including the Brand Regulations, (ii) it will not take any

action that would cause Sponsoring Plan or Controlled Affiliate Licensee to violate the Agreement, and (iii) it will not fail to take any action, either individually or jointly with the Sponsoring Plan or Controlled Affiliate Licensee, where such failure would cause Sponsoring Plan or Controlled Affiliate Licensee to violate the Agreement.

3. The Controlled Affiliate Licensee shall only use the Licensed Marks authorized by the Participating Plan in connection with the Basic Medicare Part D Prescription Drug Plan product offered in the Participating Plan's Service Area.

4. The Sponsoring Plan and Controlled Affiliate acknowledge that it has reviewed the Agreement and understands that Participating Plan has the right to terminate this Agreement: (i) immediately upon the expiration or termination of the Plan Participation Agreement by and between Participating Plan and Controlled Affiliate upon written notice to the Sponsoring Plan, Controlled Affiliate Licensee and Licensor, or (ii) without cause upon 18 months written notice to the Sponsoring Plan, Controlled Affiliate Licensee and Licensor, and that such right is unfettered and may be exercised by Participating Plan in its sole discretion. In the event that Participating Plan and Controlled Affiliate fail to execute the Plan Participation Agreement by _____(Date), Participating Plan may terminate this Agreement immediately upon notice to Sponsoring Plan, Controlled Affiliate Licensee and Licensor.

5. This Agreement and all of Controlled Affiliate Licensee's rights hereunder shall immediately terminate without any further action by any party or entity in the event that the Sponsoring Plan or Participating Plan ceases to be authorized to use the Licensed Marks and Name.

WHEREFORE, by signing below the parties agree to be bound to the terms stated herein.

EXHIBIT C
ROYALTY FORMULA FOR SECTION 9 OF THE CONTROLLED AFFILIATE LICENSE AGREEMENT

Controlled Affiliate will pay BCBSA a fee for this license in accordance with the following formula:

FOR RISK PRODUCTS:

For Controlled Affiliates not underwriting the indemnity portion of workers' compensation insurance:

An amount equal to its pro rata share of Sponsoring Plan's dues payable to BCBSA computed with the addition of the Controlled Affiliate's members using the Marks on health care plans and related services as reported on the Quarterly Enrollment Report with BCBSA. The payment by Sponsoring Plan of its dues to BCBSA, including that portion described in this paragraph, will satisfy the requirement of this paragraph, and no separate payment will be necessary.

For Controlled Affiliates underwriting the indemnity portion of workers' compensation insurance:

An amount equal to 0.35 percent of the gross revenue per annum of Controlled Affiliate arising from products using the marks; plus, an annual fee of $5,000 per license for a Controlled Affiliate subject to Standard 7.

Amended as of September 19, 2014

EXHIBIT C (continued)

FOR NONRISK PRODUCTS:

For third-party administrative business, an amount equal to its pro rata share of Sponsoring Plan's dues payable to BCBSA computed with the addition of the Controlled Affiliate's members using the Marks on health care plans and related services as reported on the Quarterly Enrollment Report with BCBSA. The payment by Sponsoring Plan of its dues to BCBSA, including that portion described in this paragraph, will satisfy the requirement of this paragraph, and no separate payment will be necessary.

For non-third party administrative business (e.g., case management, provider networks, etc.), an amount equal to 0.24 percent of the gross revenue per annum of Controlled Affiliate arising from products using the marks; plus:

1) An annual fee of $5,000 per license for a Controlled Affiliate subject to Standard 6 D.

2) An annual fee of $2,000 per license for all other Controlled Affiliates.

The foregoing shall be reduced by one-half where both a BLUE CROSS® and BLUE SHIELD® License are issued to the same Controlled Affiliate. In the event that any license period is greater or less than one (1) year, any amounts due shall be prorated. Royalties under this formula will be calculated, billed and paid in arrears.

Amended as of September 19, 2014

EXHIBIT 1A

CONTROLLED AFFILIATE LICENSE AGREEMENT APPLICABLE TO LIFE INSURANCE COMPANIES
(Includes revisions adopted by Member Plans through their November 18, 2016 meeting)

This agreement by and among Blue Cross and Blue Shield Association ("BCBSA")_____ ("Controlled Affiliate"), a Controlled Affiliate of the Blue Cross Plan(s), known as _____ ("Plan").

WHEREAS, BCBSA is the owner of the BLUE CROSS and BLUE CROSS Design service marks;

WHEREAS, the Plan and the Controlled Affiliate desire that the latter be entitled to use the BLUE CROSS and BLUE CROSS Design service marks (collectively the "Licensed Marks") as service marks and be entitled to use the term BLUE CROSS in a trade name ("Licensed Name");

NOW, THEREFORE, in consideration of the foregoing and the mutual agreements hereinafter set forth and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereby agree as follows:

1. GRANT OF LICENSE

Subject to the terms and conditions of this Agreement, BCBSA hereby grants to the Controlled Affiliate the exclusive right to use the licensed Marks and Names in connection with and only in connection with those life insurance and related services authorized by applicable state law, other than health care plans and related services (as defined in the Plan's License Agreements with BCBSA) which services are not separately licensed to Controlled Affiliate by BCBSA, in the Service Area served by the Plan, except that BCBSA reserves the right to use the Licensed Marks and Name in said Service Area, and except to the extent that said Service Area may overlap the area or areas served by one or more other licensed Blue Cross Plans as of the date of this License as to which overlapping areas the rights hereby granted are non-exclusive as to such other Plan or Plans and their respective Licensed Controlled Affiliates only. Controlled Affiliate cannot use the Licensed Marks or Name outside the Service Area or in its legal or trade name; provided, however, that if and only for so long as Controlled Affiliate also holds a Blue Cross Controlled Affiliate License Agreement applicable to health care plans and related services, Controlled Affiliate may use the Licensed Marks and Name in its legal and trade name according to the terms of such license agreement.

Amended as of June 12, 2003

2. QUALITY CONTROL

A. Controlled Affiliate agrees to use the Licensed Marks and Name only in relation to the sale, marketing and rendering of authorized products and further agrees to be bound by the conditions regarding quality control shown in Exhibit A as it may be amended by BCBSA from time-to-time.

B. Controlled Affiliate agrees that Plan and/or BCBSA may, from time-to-time, upon reasonable notice, review and inspect the manner and method of Controlled Affiliate's rendering of service and use of the Licensed Marks and Name.

C. Controlled Affiliate agrees that it will provide on an annual basis (or more often if reasonably required by Plan or by BCBSA) a report to Plan and BCBSA demonstrating Controlled Affiliate's compliance with the requirements of this Agreement including but not limited to the quality control provisions of Exhibit A.

D. As used herein, a Controlled Affiliate is defined as an entity organized and operated in such a manner that it is subject to the bona fide control of a Plan or Plans. Absent written approval by BCBSA of an alternative method of control, bona fide control shall mean the legal authority, directly or indirectly through wholly-owned subsidiaries: (a) to select members of the Controlled Affiliate's governing body having not less than 51% voting control thereof; (b) to exercise operational control with respect to the governance thereof; and (c) to prevent any change in its articles of incorporation, bylaws or other governing documents deemed inappropriate. In addition, a Plan or Plans shall own at least 51% of any for-profit Controlled Affiliate. If the Controlled Affiliate is a mutual company, the Plan or its designee(s) shall have and maintain, in lieu of the requirements of items (a) and (c) above, proxies representing 51% of the votes at any meeting of the policyholders and shall demonstrate that there is no reason to believe this such proxies shall be revoked by sufficient policyholders to reduce such percentage below 51%.

3. SERVICE MARK USE

Controlled Affiliate shall at all times make proper service mark use of the Licensed Marks, including but not limited to use of such symbols or words as BCBSA shall specify to protect the Licensed Marks, and shall comply with such rules (applicable to all Controlled Affiliates licensed to use the Marks) relative to service mark use, as are issued from time-to-time by BCBSA. If there is any public reference to the affiliation between the Plan and the Controlled Affiliate, all of the Controlled Affiliate's licensed services in the Service Area of the Plan shall be rendered under the Licensed Marks. Controlled Affiliate recognizes and agrees that all use of the Licensed Marks by Controlled Affiliate shall inure to the benefit of BCBSA.

4. SUBLICENSING AND ASSIGNMENT

Controlled Affiliate shall not sublicense, transfer, hypothecate, sell, encumber or mortgage, by operation of law or otherwise, the rights granted hereunder and any such act shall be voidable at the option of Plan or BCBSA. This Agreement and all rights and duties hereunder are personal to Controlled Affiliate.

5. INFRINGEMENTS

Controlled Affiliate shall promptly notify Plan and BCBSA of any suspected acts of infringement, unfair competition or passing off which may occur in relation to the Licensed Marks. Controlled Affiliate shall not be entitled to require Plan or BCBSA to take any actions or institute any proceedings to prevent infringement, unfair competition or passing off by third parties. Controlled Affiliate agrees to render to Plan and BCBSA, free of charge, all reasonable assistance in connection with any matter pertaining to the protection of the Licensed Marks by BCBSA.

6. LIABILITY INDEMNIFICATION

Controlled Affiliate hereby agrees to save, defend, indemnify and hold Plan and BCBSA harmless from and against all claims, damages, liabilities and costs of every kind, nature and description which may arise as a result of Controlled Affiliate's rendering of health care services under the Licensed Marks.

7. LICENSE TERM

The license granted by this Agreement shall remain in effect for a period of one (1) year and shall be automatically extended for additional one (1) year periods upon evidence satisfactory to the Plan and BCBSA that Controlled Affiliate meets the then applicable quality control standards, unless one of the parties hereto notifies the other party of the termination hereof at least sixty (60) days prior to expiration of any license period.

This Agreement may be terminated by the Plan or by BCBSA for cause at any time provided that Controlled Affiliate has been given a reasonable opportunity to cure and shall not effect such a cure within thirty (30) days of receiving written notice of the intent to terminate (or commence a cure within such thirty day period and continue diligent efforts to complete the cure if such curing cannot reasonably be completed within such thirty day period). By way of example and not for purposes of limitation, Controlled Affiliate's failure to abide by the quality control provisions of Paragraph 2, above, shall be considered a proper ground for cancellation of this Agreement.

This Agreement and all of Controlled Affiliate's rights hereunder shall immediately terminate without any further action by any party or entity in the event that:

A. Controlled Affiliate shall no longer comply with Standard No. 1 (Organization and Governance) of Exhibit A or, following an opportunity to cure, with the remaining quality control provisions of Exhibit A, as it may be amended from time-to-time; or

B. Plan ceases to be authorized to use the Licensed Marks; or

C. Appropriate dues for Controlled Affiliate pursuant to item 8 hereof, which are the royalties for this License Agreement are more than sixty (60) days in arrears to BCBSA.

Upon termination of this Agreement for cause or otherwise, Controlled Affiliate agrees that it shall immediately discontinue all use of the Licensed Marks including any use in its trade name.

In the event of any disagreement between Plan and BCBSA as to whether grounds exist for termination or as to any other term or condition hereof, the decision of BCBSA shall control, subject to provisions for mediation or mandatory dispute resolution in effect between the parties.

Upon termination of this Agreement, Licensed Controlled Affiliate shall immediately notify all of its customers that it is no longer a licensee of the Blue Cross and Blue Shield Association and provide instruction on how the customer can contact the Blue Cross and Blue Shield Association or a designated licensee to obtain further information on securing coverage. The written notification required by this paragraph shall be in writing and in a form approved by the Association. The Association shall have the right to audit the terminated entity's books and records to verify compliance with this paragraph.

8. DUES

Controlled Affiliate will pay to BCBSA a fee for this license in accordance with the following formula:

- An annual fee of five thousand dollars ($5,000) per license, plus
- .05% of gross revenue per year from branded group products, plus
- .5% of gross revenue per year from branded individual products plus
- .14% of gross revenue per year from branded individual annuity products.

The foregoing percentages shall be reduced by one-half where both a BLUE CROSS® and BLUE SHIELD® license are issued to the same entity. In the event that any License period is greater or less than one (1) year, any amounts due shall be prorated. Royalties under this formula will be calculated, billed and paid in arrears.

Plan will promptly and timely transmit to BCBSA all dues owed by Controlled Affiliate as determined by the above formula and if Plan shall fail to do so, Controlled Affiliate shall pay such dues directly.

Amended as of November 20, 1997

9. JOINT VENTURE

Nothing contained in this Agreement shall be construed as creating a joint venture, partnership, agency or employment relationship between Plan and Controlled Affiliate or between either and BCBSA.

9A. VOTING

For all provisions of this Agreement referring to voting, the term 'Plans' shall mean all entities licensed under the Blue Cross License Agreement and/or the Blue Shield License Agreement, and in all votes of the Plans under this Agreement the Plans shall vote together. For weighted votes of the Plans, the Plan shall have a number of votes equal to the number of weighted votes (if any) that it holds as a Blue Cross Plan plus the number of weighted votes (if any) that it holds as a Blue Shield Plan. For all other votes of the Plans, the Plan shall have one vote. For all questions requiring an affirmative three-fourths weighted vote of the Plans, the requirement shall be deemed satisfied with a lesser weighted vote unless the greater of: (i) 6/52 or more of the Plans (rounded to the nearest whole number, with 0.5 or multiples thereof being rounded to the next higher whole number) fail to cast weighted votes in favor of the question; or (ii) three (3) of the Plans fail to cast weighted votes in favor of the question. Notwithstanding the foregoing provision, if there are thirty-nine (39) Plans, the requirement of an affirmative three-fourths weighted vote shall be deemed satisfied with a lesser weighted vote unless four (4) or more Plans fail to cast weighted votes in favor of the question.

10. NOTICES AND CORRESPONDENCE

Notices regarding the subject matter of this Agreement or breach or termination thereof shall be in writing and shall be addressed in duplicate to the last known address of each other party, marked respectively to the attention of its President and, if any, its General Counsel.

Amended as of June 16, 2005

11. COMPLETE AGREEMENT

This Agreement contains the complete understandings of the parties in relation to the subject matter hereof. This Agreement may only be amended by a writing executed by all parties.

12. SEVERABILITY

If any term of this Agreement is held to be unlawful by a court of competent jurisdiction, such finding shall in no way effect the remaining obligations of the parties hereunder and the court may substitute a lawful term or condition for any unlawful term or condition so long as the effect of such substitution is to provide the parties with the benefits of this Agreement.

13. NONWAIVER

No waiver by BCBSA of any breach or default in performance on the part of the Controlled Affiliate or any other licensee of any of the terms, covenants or conditions of this Agreement shall constitute a waiver of any subsequent breach or default in performance of said terms, covenants or conditions.

14. GOVERNING LAW

This Agreement shall be governed by, and construed and interpreted in accordance with, the laws of the State of Illinois.

IN WITNESS WHEREOF, the parties have caused this License Agreement to be executed, effective as of the date of last signature written below.

EXHIBIT A
CONTROLLED AFFILIATE LICENSE STANDARDS
LIFE INSURANCE COMPANIES
Page 1 of 2

PREAMBLE

The standards for licensing Life Insurance Companies (Life and Health Insurance companies, as defined by state statute) are established by BCBSA and are subject to change from time-to-time upon the affirmative vote of three-fourths (3/4) of the Plans and three-fourths (3/4) of the total weighted vote of all Plans. Each Licensed Plan is required to use a standard controlled affiliate license form provided by BCBSA and to cooperate fully in assuring that the licensed Life Insurance Company maintains compliance with the license standards.

An organization meeting the following standards shall be eligible for a license to use the Licensed Marks within the service area of its sponsoring Licensed Plan to the extent and the manner authorized under the Controlled Affiliate License applicable to Life Insurance Companies and the principal license to the Plan.

Standard 1 - Organization and Governance

The LIC shall be organized and operated in such a manner that it is controlled by a licensed Plan or Plans which have, directly or indirectly: 1) not less than 51% of the voting control of the LIC; and 2) the legal ability to prevent any change in the articles of incorporation, bylaws or other establishing or governing documents of the LIC with which it does not concur; and 3) operational control of the LIC.

If the LIC is a mutual company, the Plan or its designee(s) shall have and maintain, in lieu of the requirements of items 1 and 2 above, proxies representing at least 51% of the votes at any policyholder meeting and shall demonstrate that there is no reason to believe such proxies shall be revoked by sufficient policyholders to reduce such percentage below 51%.

Standard 2 - State Licensure

The LIC must maintain unimpaired licensure or certificate of authority to operate under applicable state laws as a life and health insurance company in each state in which the LIC does business.

EXHIBIT A
CONTROLLED AFFILIATE LICENSE STANDARDS
LIFE INSURANCE COMPANIES
Page 2 of 2

Standard 3 - Records and Examination

The LIC and its sponsoring licensed Plan(s) shall maintain and furnish, on a timely and accurate basis, such records and reports regarding the LIC as may be required in order to establish compliance with the license agreement. The LIC and its sponsoring licensed Plan(s) shall permit BCBSA to examine the affairs of the LIC and shall agree that BCBSA's board may submit a written report to the chief executive officer(s) and the board(s) of directors of the sponsoring Plan(s).

Standard 4 - Mediation

The LIC and its sponsoring Plan(s) shall agree to use the then-current BCBSA mediation and mandatory dispute resolution processes, in lieu of a legal action between or among another licensed controlled affiliate, a licensed Plan or BCBSA.

Standard 5 - Financial Responsibility

The LIC shall maintain adequate financial resources to protect its customers and meet its business obligations.

Standard 6 - Cooperation with Affiliate License Performance Response Process Protocol

The LIC and its Sponsoring Plan(s) shall cooperate with BCBSA’s Board of Directors and its Brand Enhancement & Protection Committee in the administration of the Affiliate License Performance Response Process Protocol (ALPRPP) and in addressing LIC compliance problems identified thereunder.

Exhibit 1A1

CONTROLLED AFFILIATE
TRADEMARK LICENSE AGREEMENT
FOR LIFE AND DISABILTY INSURANCE PRODUCTS

This Agreement by and among Blue Cross and Blue Shield Association ("BCBSA") and_____ , ("Life and Disability Controlled Affiliate") which is a company offering life and disability insurance products owned and controlled by , , _____ (individually, "Sponsoring Plan" and when referred to collectively, "Sponsoring Plans").

Whereas, BCBSA is the owner of the BLUE CROSS and BLUE SHIELD word and design service marks and any derivatives thereof ("Licensed Marks");

Whereas, each Sponsoring Plan is licensed separately by BCBSA to use one or more of the Licensed Marks in a particular Service Area;

Whereas, the Sponsoring Plans and the Life and Disability Controlled Affiliate desire that the latter be entitled to use the appropriate Licensed Marks in connection with life and disability insurance products in some or all of such Sponsoring Plans' Service Areas and in the Service Areas of other Regular Member Plans, as defined in the BCBSA By-laws, ("Blue Plans") consistent with the terms of this Agreement.

NOW, THEREFORE, in consideration of the foregoing and the mutual agreements hereinafter set forth and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereby agree as follows:

1. GRANT OF LICENSE

A. Subject to the terms and conditions of this Agreement, BCBSA hereby grants to the Life and Disability Controlled Affiliate the limited right to use the Licensed Marks in connection with and only in connection with the following life and disability insurance products authorized by state law: (1) Group: Term Life, Long Term Disability, Whole Life, Benefit Life, Universal Life; (2) Individual: Term Life, Whole Life, Dependent Life, Spouse Life; (3) Other: Disability Income, Short Term Disability, Long Term Disability, Income Replacement; and (4) such other life and disability products approved by BCBSA in writing ("Licensed Products") in the Service Areas served by the Sponsoring Plans or in the Service Area or Areas of one or more other licensed Blue Plans, provided that such Blue Plans have consented to such use as authorized by this Agreement. Life and Disability Controlled Affiliate may not use the Licensed Marks in its legal or trade name.

B. Notwithstanding that the license granted to Life and Disability Controlled Affiliate is a license to use all of the Licensed Marks, Life and Disability Controlled Affiliate may only use those of the Licensed Marks in

the Service Area of a Sponsoring Plan or other consenting Blue Plan as described below that such Plan is authorized to use as a Blue Plan pursuant to its separate license agreements with BCBSA.

C. Life and Disability Controlled Affiliate may use the Licensed Marks in the Service Areas of Sponsoring Plans or in the Service Area of a Blue Plan that is not a signatory to this Agreement only after such Sponsoring Plan(s) or non-signatory Blue Plan consents to such use by executing a written consent in substantially the same form as the Consent Agreement attached as Exhibit B.

D. The following provisions apply with respect to Consent Agreements once such agreements have been fully and properly executed:

(1) All sales, marketing and advertising materials developed by and proposed for use by Life and Disability Controlled Affiliate in the Service Area of Sponsoring Plan or consenting Blue Plan (hereinafter, such consenting Sponsoring Plan or consenting Blue Plan collectively referred to "Consenting Plan(s)") must clearly identify the Consenting Plan (for example, a statement on such materials that reads "This product is offered with the cooperation of Blue Cross and/or Blue Shield of [Geography]");

(2) To the extent the Consenting Plan has separate divisions or other Affiliates that use the Licensed Marks in distinct geographic areas within its Service Area, consent obtained under this Agreement may be limited to one or more of such specific geographic areas as specified by the Consenting Plan in its signed Consent Agreement. For purposes of this entire Agreement, all references to the Service Area of a Sponsoring Plan, Blue Plan or Consenting Plan may include the entire Service Area or a distinct geographic area within such Service Area as specified in this Section 1 D (2);

(3) Where BCBSA has licensed two or more Blue Plans to use the same Licensed Marks in the same Service Area, in addition to the requirements set forth in Section D (1) above, the sales, marketing and advertising materials referenced in such section above must be communicated to the Consenting Plan's existing and prospective accounts through or with the approval of such Consenting Plan, and the personnel of such Consenting Plan must actively participate in all sales and marketing activities conducted by Life and Disability Controlled Affiliate in the same Service Area, including participating in meetings (whether in-person or via telephone, video or internet conference) with both existing and prospective accounts of the Consenting Plan;

(4) Life and Disability Controlled Affiliate shall be entitled to use in a Service Area only those Licensed Marks that the Consenting Plan has been granted by BCBSA the license to use under its Blue Plan license

(5) agreements (for example, if a Consenting Plan is licensed to use only the Blue Cross Marks in its Service Area, the materials used by Life and Disability Controlled Affiliate in that Service Area may only contain or reference the Blue Cross Marks and not the Blue Shield Marks).

(6) If a Consent Agreement is terminated, Life and Disability Controlled Affiliate shall, unless BCBSA and the Consenting Plan agree in their sole discretion to a phase out in writing, immediately (i) cease all use of the Licensed Marks, including in connection with any and all sales and marketing of the Licensed Products in the Service Area where consent has been terminated, and (ii) notify its customers that it is no longer a licensee and provide instruction on how the customer can contact BCBSA or a designated licensee to obtain further information on securing coverage. The notification required by this paragraph shall be in writing and in form approved by BCBSA.

2. QUALITY CONTROL

A. Life and Disability Controlled Affiliate agrees to use the Licensed Marks only in relation to the sale, marketing and administration of the Licensed Products and further agrees to be bound by the conditions regarding quality control shown in Exhibit A and the Guidelines to Administer the Standards for Trademark License Agreement for Life and Disability Insurance Products attached thereto.

B. Life and Disability Controlled Affiliate agrees that BCBSA may, from time-to-time, upon reasonable notice, review and inspect the manner and method of Life and Disability Controlled Affiliate's rendering of service and use of the Licensed Marks.

C. Life and Disability Controlled Affiliate agrees that it will provide on an annual basis (or more often if reasonably required by BCBSA) a report to BCBSA demonstrating Life and Disability Controlled Affiliate's compliance with the requirements of this Agreement including but not limited to the quality control provisions of Exhibit A.

D. As used herein, a Life and Disability Controlled Affiliate is defined as: An entity organized and operated in such a manner that it is 100% owned and controlled by Sponsoring Plans. Absent written approval by BCBSA of an alternative method of control, control shall mean the legal authority, directly or indirectly through wholly-owned subsidiaries: (a) to select members of the Life and Disability Controlled Affiliate's governing body having not less than 100% voting control thereof; (b) to exercise operational control with respect to the governance thereof; and (c) to prevent any change in its articles of incorporation, bylaws or other governing documents deemed inappropriate. In addition, a Sponsoring Plan or Plans shall own at least 100% of any for profit Life and Disability Controlled Affiliate.

3. SERVICE MARK USE

Life and Disability Controlled Affiliate shall at all times make proper service mark use of the Licensed Marks and shall ensure all uses of the Licensed Marks comply with the BCBSA Brand Regulations, as amended by BCBSA from time to time. Life and Disability Controlled Affiliate recognizes and agrees that all use of the Licensed Marks by Life and Disability Controlled Affiliate shall inure to the benefit of BCBSA.

4. SUBLICENSING AND ASSIGNMENT

The license hereby granted to Life and Disability Controlled Affiliate to use the Licensed Marks is and shall be personal to Life and Disability Controlled Affiliate and shall not be assignable by any act of the Life and Disability Controlled Affiliate, directly or indirectly, without the written consent of BCBSA. Said license shall not be assignable by operation of law, nor shall Life and Disability Controlled Affiliate mortgage or part with possession or control of this license or any right hereunder, and the Life and Disability Controlled Affiliate shall have no right to grant any sublicense to use the Licensed Marks.

5. INFRINGEMENTS

Life and Disability Controlled Affiliate shall promptly notify BCBSA of any suspected acts of infringement, unfair competition or passing off which may occur in relation to the Licensed Marks. Life and Disability Controlled Affiliate shall not be entitled to require BCBSA to take any actions or institute any proceedings to prevent infringement, unfair competition or passing off by third parties. Life and Disability Controlled Affiliate agrees to render to BCBSA, free of charge, all reasonable assistance in connection with any matter pertaining to the protection of the Licensed Marks by BCBSA. BCBSA shall have sole control of the defense and resolution of any claim of infringement brought or threatened by others.

6. LIABILITY INDEMNIFICATION

Life and Disability Controlled Affiliate hereby agrees to save, defend, indemnify and hold BCBSA harmless from and against all claims, damages, liabilities and costs of every kind, nature and description which may arise as a result of Life and Disability Controlled Affiliate's conduct.

7. LICENSE TERM

A. The license granted by this Agreement shall remain in effect for a period of one (1) year and shall be automatically extended for additional one (1) year periods, unless either BCBSA or Life and Disability Controlled Affiliate notifies the other party in writing of the termination hereof at least sixty (60) days prior to expiration of any license period.

B. This Agreement may be terminated by BCBSA for cause at any time provided that Life and Disability Controlled Affiliate has been given a reasonable opportunity to cure and shall not effect such a cure within thirty (30) days of receiving written notice of the intent to terminate (or commence a cure within such thirty day period and continue diligent efforts to complete the cure if such curing cannot reasonably be completed within such thirty day period). By way of example and not for purposes of limitation, Life and Disability Controlled Affiliate's failure to abide by the conditions regarding use of the Licensed Marks set forth in Section 1 of this Agreement or the quality control provisions of Section 2 (other than with respect to Section 2 D which is subject to immediate termination as stated in Section 7 C (1) below) shall be considered proper grounds for termination of this Agreement.

C. This Agreement and all of Life and Disability Controlled Affiliate's rights hereunder shall immediately terminate without any further action by any party or entity in the event that:

(1) Life and Disability Controlled Affiliate shall no longer comply with Section 2 D (or Standard No. 1 (Organization and Governance) of Exhibit A); or

(2) Any Sponsoring Plan ceases to be authorized to use the Licensed Marks; or

(3) Appropriate fees for Life and Disability Controlled Affiliate pursuant to Section 8 of this Agreement are more than sixty (60) days in arrears to BCBSA.

Upon termination of this Agreement for cause or otherwise, Life and Disability Controlled Affiliate agrees that it shall immediately discontinue all use of the Licensed Marks.

In the event of any disagreement between Life and Disability Controlled Affiliate and BCBSA as to whether grounds exist for termination or as to any other term or condition hereof, the decision of BCBSA shall control, subject to provisions for mediation or mandatory dispute resolution in effect between the parties.

Upon termination of this Agreement, Licensed Life and Disability Controlled Affiliate shall immediately notify all of its customers that it is no longer a licensee of BCBSA and provide instruction on how the customer can contact BCBSA or a designated licensee to obtain further information on securing coverage. The notification required by this paragraph shall be in writing and in a form approved by BCBSA. BCBSA shall have the right to audit the terminated entity's books and records to verify compliance with this paragraph.

8. ROYALTIES

Life and Disability Controlled Affiliate will pay to BCBSA a fee for this license in accordance with the following formula:

- An annual fee of five thousand dollars ($5,000) per license, plus
- .05% of gross revenue per year from group products sold under the Licensed Marks, plus
- .5% of gross revenue per year from individual products sold under the Licensed Marks

In the event that any license period is greater or less than one (1) year, any amounts due shall be prorated. Royalties under this formula will be calculated, billed and paid in arrears.

Life and Disability Controlled Affiliate will promptly and timely transmit to BCBSA all fees owed by Life and Disability Controlled Affiliate as determined by the above formula.

9. JOINT VENTURE

Nothing contained in this Agreement shall be construed as creating a joint venture, partnership, agency or employment relationship between any Sponsoring Plan and Life and Disability Controlled Affiliate or between among them and/or BCBSA.

10. VOTING

For all provisions of this Agreement referring to voting, the term 'Plans' shall mean all entities licensed under the Blue Cross License Agreement and/or the Blue Shield License Agreement, and in all votes of the Plans under this Agreement the Plans shall vote together. For weighted votes of the Plans, the Plan shall have a number of votes equal to the number of weighted votes (if any) that it holds as a Blue Cross Plan plus the number of weighted votes (if any) that it holds as a Blue Shield Plan. For all other votes of the Plans, the Plan shall have one vote. For all questions requiring an affirmative three-fourths weighted vote of the Plans, the requirement shall be deemed satisfied with a lesser weighted vote unless the greater of: (i) 6/52 or more of the Plans (rounded to the nearest whole number, with 0.5 or multiples thereof being rounded to the next higher whole number) fail to cast weighted votes in favor of the question; or (ii) three (3) of the Plans fail to cast weighted votes in favor of the question. Notwithstanding the foregoing provision, if there are thirty-nine (39) Plans, the requirement of an affirmative three-fourths weighted vote shall be deemed satisfied with a lesser weighted vote unless four (4) or more Plans fail to cast weighted votes in favor of the question.

11. NOTICES AND CORRESPONDENCE

Notices regarding the subject matter of this Agreement or breach or termination thereof shall be in writing and shall be addressed in duplicate to the last known address of each other party, marked respectively to the attention of its President and, if any, its General Counsel.

12. COMPLETE AGREEMENT

This Agreement contains the complete understandings of the parties in relation to the subject matter hereof. This Agreement may only be amended by: (a) a writing signed by all parties; or (b) a writing approved by the affirmative vote of three-fourths of the Blue Plans and three-fourths of the total then current weighted vote of all the Blue Plans as officially recorded by the BCBSA Corporate Secretary. Upon such adoption by the Blue Plans, this Agreement and all other Trademark License Agreements for Life and Disability Insurance Products then in effect shall simultaneously be amended.

13. SEVERABILITY

If any term of this Agreement is held to be unlawful by a court of competent jurisdiction, such finding shall in no way affect the remaining obligations of the parties hereunder and the court may substitute a lawful term or condition for any unlawful term or condition so long as the effect of such substitution is to provide the parties with the benefits of this Agreement.

14. NONWAIVER

No waiver by BCBSA of any breach or default in performance on the part of the Life and Disability Controlled Affiliate or any other licensee of any of the terms, covenants or conditions of this Agreement shall constitute a waiver of any subsequent breach or default in performance of said terms, covenants or conditions.

15. GOVERNING LAW

This Agreement shall be governed by, and construed and interpreted in accordance with, the laws of the State of Illinois.

IN WITNESS WHEREOF, the parties have caused this License Agreement to be executed, effective as of the date of last signature written below.

EXHIBIT A

LICENSE STANDARDS APPLICABLE TO TRADEMARK LICENSE AGREEMENT FOR LIFE AND DISABILITY INSURANCE PRODUCTS Page 1 of 2

Standard 1 - Organization and Governance

Any Life and Disability Controlled Affiliate licensed under the Trademark License Agreement for Life and Disability Insurance Products ("licensee") shall be organized and operated in such a manner that it is an entity organized and operated in such a manner that it is 100% owned and controlled by Sponsoring Plans. Absent written approval by BCBSA of an alternative method of control, control shall mean the legal authority, directly or indirectly through wholly-owned subsidiaries: (a) to select members of the Life and Disability Controlled Affiliate's governing body having not less than 100% voting control thereof; (b) to exercise operational control with respect to the governance thereof; and (c) to prevent any change in its articles of incorporation, bylaws or other governing documents deemed inappropriate. In addition, a Sponsoring Plan or Plans shall own at least 100% of any for profit Life and Disability Controlled Affiliate.

Standard 2 - State Licensure

The licensee must maintain unimpaired licensure or certificate of authority to operate under applicable state laws as a life company in each state in which the licensee does business.

Standard 3 - Records and Examination

The licensee shall maintain and furnish, on a timely and accurate basis, such records and reports regarding the licensee as may be required in order to establish compliance with the Agreement. The licensee shall permit BCBSA to examine the affairs of the licensee and shall agree that BCBSA's board may submit a written report to the chief executive officer(s) and the board(s) of directors of the Sponsoring Plan(s).

Standard 4 - Mediation

The licensee, its Sponsoring Plan(s) and all consenting Blue Plans shall agree to use the then-current BCBSA mediation and mandatory dispute resolution processes, in lieu of a legal action between or among another licensed Life and Disability Controlled Affiliate, a Sponsoring Plan and or consenting Blue Plan or BCBSA.

EXHIBIT A

LICENSE STANDARDS APPLICABLE TO TRADEMARK LICENSE AGREEMENT FOR LIFE AND DISABILITY INSURANCE PRODUCTS Page 2 of 2

Standard 5 - Financial Responsibility

The licensee shall maintain adequate financial resources to protect its customers and meet its business obligations.

Standard 6 - Cooperation with BCBSA Governance

The licensee shall cooperate with BCBSA's Board of Directors and its Brand Enhancement & Protection Committee in the administration of and in addressing licensee compliance problems that may be identified in connection with the operation or administration of the Trademark License Agreement for Life and Disability Insurance Products.

EXHIBIT B

CONSENT AGREEMENT

This Consent Agreement is made and entered into by and among the undersigned Blue Plan, and_____ ("Life and Disability Controlled Affiliate"), and the Blue Cross and Blue Shield Association ("BCBSA") and shall be deemed effective on_____ ("Effective Date").

Whereas, BCBSA owns the Blue Cross and Blue Shield word and design service marks and any derivative mark thereof (the "Brands");

Whereas, the undersigned Blue Plan is licensed to use one or more of the Brands within a specific geographic area ("Service Area");

Whereas Life and Disability Controlled Affiliate is licensed by BCBSA to use one or more of the Brands to offer life and disability insurance products ("Products") as defined and authorized in the Trademark License Agreement for Life and Disability Insurance Products ("Life and Disability License Agreement");

Whereas neither the Blue Plan nor its affiliates offer the Products under any of the Brands in such Blue Plan's Service Area or portion thereof where Blue Plan has consented to sale of the Products by Life and Disability Controlled Affiliate; and

Whereas BCBSA and the undersigned Blue Plan desire to consent to Life and Disability Controlled Affiliate's use of the Brands in Blue Plan's Service Area consistent with the terms of the Life and Disability License Agreement and this Consent Agreement.

Now, therefore, in consideration of the obligations and conditions stated in this Agreement, Blue Plan, Life and Disability Controlled Affiliate and BCBSA agree as follows:

1. Life and Disability Controlled Affiliate may market, sell, administer and underwrite the Products in Blue Plan's Service Area under the Brands licensed to Blue Plan in such Service Area subject to the terms of this Consent Agreement, the Life and Disability License Agreement and Blue Plan's license agreement(s) with BCBSA. Life and Disability Controlled Affiliate's rights under the Brands to offer the Products under the Brands are limited to offering the Products only under the Brand(s) licensed to the consenting Blue Plan.

2. Life and Disability Controlled Affiliate shall work with the undersigned Blue Plan to develop a written sales and marketing agreement that identifies the relationship between it and Blue Plan for the sales, marketing and customer service for the Products. The term of the sales and marketing agreement shall be the same as the term of this Consent Agreement.

3. All sales, marketing and advertising materials developed by and proposed for use by Life and Disability Controlled Affiliate in a consenting Blue Plan's Service Area must clearly identify the consenting Blue Plan (for example, a statement on such materials that reads "This product is offered with the cooperation of Blue Cross and/or Blue Shield of [Geography]");

4. Life and Disability Controlled Affiliate may use the Brands to sell the Products in the following Service Area or portion thereof as designated by Blue Plan:

   _____

5. If two or more Blue Plans to use the same Licensed Marks in the same Service Area, Life and Disability Controlled Affiliate shall work with the consenting Blue Plan in the following manner: (a) the sales, marketing and advertising materials must be communicated to the consenting Blue Plan's existing and prospective accounts through or with the approval of such Blue Plan, and (b) the personnel of such Blue Plan must actively participate in all sales and marketing activities conducted by Life and Disability Controlled Affiliate in the same Service Area, including participating in meetings (whether in-person or via telephone, video or internet conference) with both existing and prospective accounts of the consenting Blue Plan;

6. Life and Disability Controlled Affiliate shall be entitled to use in a Service Area only those Licensed Marks that the consenting Blue Plan has been granted by BCBSA the license to use under its license agreement (for example, if a consenting Blue Plan is licensed to use only the Blue Cross Marks in its Service Area, the materials used by Life and Disability Controlled Affiliate in that Service Area may only contain or reference the Blue Cross Marks and not the Blue Shield Marks).

7. If this Consent Agreement is terminated, Life and Disability Controlled Affiliate shall, unless each BCBSA and the Blue Plan agree in their sole discretion to a phase out in writing, immediately (i) cease all use of the Licensed Marks, including in connection with any and all sales and marketing of the Licensed Products in the Service Area where consent has been terminated, and (ii) notify its customers that it is no longer a licensee of BCBSA and provide instruction on how the customer can contact BCBSA or a designated licensee to obtain further information on securing coverage. The notification required by this paragraph shall be in writing and in form approved by BCBSA.

8. The term of this Consent Agreement shall be one year from the Effective Date. Unless either Blue Plan or Life and Disability Controlled Affiliate provides the other party with written notice of its desire not to renew this Consent Agreement at least 60 days prior to expiration of the term or any extended term or unless terminated as provided in Paragraph 9 below, this Consent Agreement shall automatically renew for subsequent one year periods.

9. This Consent Agreement may be terminated as follows:

   A. Upon mutual written consent of Life and Disability Controlled Affiliate and Blue Plan;

   B. By Blue Plan or Life and Disability Controlled Affiliate upon 60 days advance written notice to the non-terminating party and BCBSA; or

   C. By Blue Plan immediately if Life and Disability Controlled Affiliate does not comply with this Consent Agreement or the sales protocol agreement.

10. This Consent Agreement shall automatically terminate if Blue Plan's primary licensee agreement terminates for any reason or if the Life and Disability License Agreement terminates for any reason.

Exhibit 1B

BLUE CROSS
CONTROLLED AFFILIATE LICENSE AGREEMENT
APPLICABLE TO REGIONAL MEDICARE ADVANTAGE PPO PRODUCTS
(Adopted by Member Plans at their November 18, 2016 meeting)

This Agreement by and among Blue Cross and Blue Shield Association ("BCBSA") and_____ ("Controlled Affiliate"), a Controlled Affiliate of the Blue Cross Plan(s), known as_____ ("Controlling Plans"), each of which is also a Party signatory hereto.

WHEREAS, BCBSA is the owner of the BLUE CROSS and BLUE CROSS Design service marks;

WHEREAS, under the Medicare Modernization Act, companies may apply to and be awarded a contract by the Centers for Medicare and Medicaid Services ("CMS") to offer Medicare Advantage PPO products in geographic regions designated by CMS (hereafter "regional MAPPO products").

WHEREAS, some of the CMS-designated regions include the Service Areas, or portions thereof, of more than one Plan.

WHEREAS, the Controlling Plans and Controlled Affiliate desire that the latter be entitled to use the BLUE CROSS and BLUE CROSS Design service marks (collectively the "Licensed Marks") as service marks and be entitled to use the term BLUE CROSS in a trade name ("Licensed Name") to offer regional MAPPO products in a region that includes the Service Areas, or portions thereof, of more than one Controlling Plan;

NOW THEREFORE, in consideration of the foregoing and the mutual agreements hereinafter set forth and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereby agree as follows:

1. GRANT OF LICENSE

Subject to the terms and conditions of this Agreement, BCBSA hereby grants to Controlled Affiliate the right to use the Licensed Marks and Name in connection with, and only in connection with the sale, marketing and administration of regional MAPPO products and related services.

This grant of rights is non-exclusive and is limited to the following states: _____ (the "Region"). Controlled Affiliate may use the Licensed

Marks and Name in its legal name on the following conditions: (i) the legal name must be approved in advance, in writing, by BCBSA; (ii) Controlled Affiliate shall not do business outside the Region under any name or mark except business conducted in the Service Area of a Controlling Plan provided that Controlled Affiliate is separately licensed by BCBSA to use the Licensed Marks and Name in connection with health care plans and related services in the Service Area of such Controlling Plan; and (iii) Controlled Affiliate shall not use the Licensed Marks and Name, or any derivative thereof, as part of any name or symbol used to identify itself in any securities market. Controlled Affiliate may use the Licensed Marks and Name in its Trade Name only with the prior, written, consent of BCBSA.

2. QUALITY CONTROL

A. Controlled Affiliate agrees to use the Licensed Marks and Name only in connection with the licensed services and further agrees to be bound by the conditions regarding quality control shown in attached Exhibit A as they may be amended by BCBSA from time-to-time.

B. Controlled Affiliate agrees to comply with all applicable federal, state and local laws.

C. Controlled Affiliate agrees that it will provide on an annual basis (or more often if reasonably required by the Controlling Plans or by BCBSA) a report or reports to the Controlling Plans and BCBSA demonstrating Controlled Affiliate's compliance with the requirements of this Agreement including but not limited to the quality control provisions of this paragraph and the attached Exhibit A.

D. Controlled Affiliate agrees that the Controlling Plans and/or BCBSA may, from time-to-time, upon reasonable notice, review and inspect the manner and method of Controlled Affiliate's rendering of service and use of the Licensed Marks and Name.

E. As used herein, a Controlled Affiliate is defined as an entity organized and operated in such a manner, that it meets the following requirements:

(1) Controlled Affiliate is owned or controlled by two or more Controlling Plans;

(2) Each Controlling Plan is authorized pursuant to a separate Blue Cross License Agreement to use the Licensed Marks in a geographic area in the Region and every geographic area in the Region is so licensed to at least one of the Controlling Plans; and

(3) The Controlling Plans must have the legal authority directly or indirectly through wholly-owned subsidiaries:

(a) to select members of the Controlled Affiliate's governing body having not less than 100% voting control thereof;

(b) to prevent any change in the articles of incorporation, bylaws or other establishing or governing documents of the Controlled Affiliate with which the Controlling Plans do not concur;

(c) to exercise control over the policy and operations of the Controlled Affiliate; and

Notwithstanding anything to the contrary in (a) through (c) hereof, the Controlled Affiliate's establishing or governing documents must also require written approval by each of the Controlling Plans before the Controlled Affiliate can:

(i) change its legal and/or trade names;

(ii) change the geographic area in which it operates (except such approval shall not be required with respect to business of the Controlled Affiliate conducted under the Licensed Marks within the Service Area of one of the Controlling Plans pursuant to a separate controlled affiliate license agreement with BCBSA sponsored by such Controlling Plan);

(iii) change any of the type(s) of businesses in which it engages (except such approval shall not be required with respect to business of the Controlled Affiliate conducted under the Licensed Marks within the Service Area of one of the Controlling Plans pursuant to a separate controlled affiliate license agreement with BCBSA sponsored by such Controlling Plan);

(iv) take any action that any Controlling Plan or BCBSA reasonably believes will adversely affect the Licensed Marks and Name.

In addition, the Controlling Plans directly or indirectly through wholly owned subsidiaries shall own 100% of any for-profit Controlled Affiliate.

3. SERVICE MARK USE

A. Controlled Affiliate recognizes the importance of a comprehensive national network of independent BCBSA licensees which are committed to strengthening the Licensed Marks and Name. The Controlled Affiliate further recognizes that its actions within the Region may affect the value of the Licensed Marks and Name nationwide.

B. Controlled Affiliate shall at all times make proper service mark use of the Licensed Marks and Name, including but not limited to use of such symbols or words as BCBSA shall specify to protect the Licensed Marks and Name and shall comply with such rules (generally applicable to Controlled Affiliates licensed to use the Licensed Marks and Name) relative to service mark use, as are issued from time-to-time by BCBSA. Controlled Affiliate recognizes and agrees that all use of the Licensed Marks and Name by Controlled Affiliate shall inure to the benefit of BCBSA.

C. Controlled Affiliate may not directly or indirectly use the Licensed Marks and Name in a manner that transfers or is intended to transfer in the Region the goodwill associated therewith to another mark or name, nor may Controlled Affiliate engage in activity that may dilute or tarnish the unique value of the Licensed Marks and Name.

D. Controlled Affiliate shall use its best efforts to promote and build the value of the Licensed Marks and Name in connection with the sale, marketing and administration of regional MAPPO products and related services.

4. SUBLICENSING AND ASSIGNMENT

Controlled Affiliate shall not, directly or indirectly, sublicense, transfer, hypothecate, sell, encumber or mortgage, by operation of law or otherwise, the rights granted hereunder and any such act shall be voidable at the sole option of any Controlling Plan or BCBSA. This Agreement and all rights and duties hereunder are personal to Controlled Affiliate.

5. INFRINGEMENT

Controlled Affiliate shall promptly notify the Controlling Plans and the Controlling Plans shall promptly notify BCBSA of any suspected acts of infringement, unfair competition or passing off that may occur in relation to the Licensed Marks and Name. Controlled Affiliate shall not be entitled to require the Controlling Plans or BCBSA to take any actions or institute any proceedings to prevent infringement, unfair competition or passing off by third parties. Controlled Affiliate agrees to render to the Controlling Plans and BCBSA, without charge, all reasonable assistance in connection with any matter pertaining to the protection of the Licensed Marks and Name by BCBSA.

6. LIABILITY INDEMNIFICATION

Controlled Affiliate and the Controlling Plans hereby agree to save, defend, indemnify and hold BCBSA harmless from and against all claims, damages, liabilities and costs of every kind, nature and description (except those arising solely as a result of BCBSA's negligence) that may arise as a result of or related to Controlled Affiliate's rendering of services under the Licensed Marks and Name.

7. LICENSE TERM

A. Except as otherwise provided herein, the license granted by this Agreement shall remain in effect for a period of one (1) year and shall be automatically extended for additional one (1) year periods unless terminated pursuant to the provisions herein.

B. This Agreement and all of Controlled Affiliate's rights hereunder shall immediately terminate without any further action by any party or entity in the event that: (i) any one of the Controlling Plans ceases to be authorized to use the Licensed Marks and Name; or (ii) pursuant to Paragraph 15(a)(x) of the Blue Cross License Agreement any one of the Controlling Plans ceases to be authorized to use the Licensed Names and Marks in the Region.

C. Notwithstanding any other provision of this Agreement, this license to use the Licensed Marks and Name may be forthwith terminated by the Controlling Plans or the affirmative vote of the majority of the Board of Directors of BCBSA present and voting at a special meeting expressly called by BCBSA for the purpose on ten (10) days written notice to the Controlling Plans advising of the specific matters at issue and granting the Controlling Plans an opportunity to be heard and to present their response to the Board for: (1) failure to comply with any applicable minimum capital or liquidity requirement under the quality control standards of this

Agreement; or (2) failure to comply with the "Organization and Governance" quality control standard of this Agreement; or (3) impending financial insolvency; or (4) failure to comply with any of the applicable requirements of Standards 2, 3, 4, or 5 of attached Exhibit A; or (5) the pendency of any action instituted against the Controlled Affiliate seeking its dissolution or liquidation of its assets or seeking appointment of a trustee, interim trustee, receiver or other custodian for any of its property or business or seeking the declaration or establishment of a trust for any of its property or business, unless this Controlled Affiliate License Agreement has been earlier terminated under paragraph 7(E); or (6) such other reason as is determined in good faith immediately and irreparably to threaten the integrity and reputation of BCBSA, the Plans (including the Controlling Plans), any other licensee including Controlled Affiliate and/or the Licensed Marks and Name.

D. Except as otherwise provided in Paragraphs 7(B), 7(C) or 7(E) herein, should Controlled Affiliate fail to comply with the provisions of this Agreement and not cure such failure within thirty (30) days of receiving written notice thereof (or commence a cure within such thirty day period and continue diligent efforts to complete the cure if such curing cannot reasonably be completed within such thirty day period) BCBSA or the Controlling Plans shall have the right to issue a notice that the Controlled Affiliate is in a state of noncompliance. If a state of noncompliance as aforesaid is undisputed by the Controlled Affiliate or is found to exist by a mandatory dispute resolution panel and is uncured as provided above, BCBSA shall have the right to seek judicial enforcement of the Agreement or to issue a notice of termination thereof. Notwithstanding any other provisions of this Agreement, any disputes as to the termination of this License pursuant to Paragraphs 7(B), 7(C) or 7(E) of this Agreement shall not be subject to mediation and mandatory dispute resolution. All other disputes between or among BCBSA, any of the Controlling Plans and/or Controlled Affiliate shall be submitted promptly to mediation and mandatory dispute resolution. The mandatory dispute resolution panel shall have authority to issue orders for specific performance and assess monetary penalties. Except, however, as provided in Paragraphs 7(B) and 7(E) of this Agreement, this license to use the Licensed Marks and Name may not be finally terminated for any reason without the affirmative vote of a majority of the present and voting members of the Board of Directors of BCBSA.

E. This Agreement and all of Controlled Affiliate's rights hereunder shall immediately terminate without any further action by any party or entity in the event that:

(1) Controlled Affiliate shall no longer comply with item 2(E) above;

(2) Appropriate dues, royalties and other payments for Controlled Affiliate pursuant to paragraph 9 hereof, which are the royalties for this License Agreement, are more than sixty (60) days in arrears to BCBSA; or

(3) Any of the following events occur: (i) a voluntary petition shall be filed by Controlled Affiliate seeking bankruptcy, reorganization, arrangement with creditors or other relief under the bankruptcy laws of the United States or any other law governing insolvency or debtor relief, or (ii) an involuntary petition or proceeding shall be filed against Controlled Affiliate seeking bankruptcy, reorganization, arrangement with creditors or other relief under the bankruptcy laws of the United States or any other law governing insolvency or debtor relief and such petition or proceeding is consented to or acquiesced in by Controlled Affiliate or is not dismissed within sixty (60) days of the date upon which the petition or other document commencing the proceeding is served upon the Controlled Affiliate, or (iii) an order for relief is entered against Controlled Affiliate in any case under the bankruptcy laws of the United States, or Controlled Affiliate is adjudged bankrupt or insolvent as those terms are defined in the Uniform Commercial Code as enacted in the State of Illinois by any court of competent jurisdiction, or (iv) Controlled Affiliate makes a general assignment of its assets for the benefit of creditors, or (v) any government or any government official, office, agency, branch, or unit assumes control of Controlled Affiliate or delinquency proceedings (voluntary or involuntary) are instituted, or (vi) an action is brought by Controlled Affiliate seeking its dissolution or liquidation of its assets or seeking the appointment of a trustee, interim trustee, receiver or other custodian for any of its property or business, or (vii) an action is instituted by any governmental entity or officer against Controlled Affiliate seeking its dissolution or liquidation of its assets or seeking the appointment of a trustee, interim trustee, receiver or other custodian for any of its property or business and such action is consented to or acquiesced in by Controlled Affiliate or is not dismissed within one hundred thirty (130) days of the date upon which the pleading or other document commencing the action is served upon the Controlled Affiliate, provided that if the action is stayed or its prosecution is enjoined, the one hundred thirty (130) day period is tolled for the duration of the stay or injunction, and provided further, that the Association's Board of Directors may toll or extend the 130 day period at any time prior to its expiration, or (viii) a trustee, interim trustee, receiver or other custodian for any of Controlled Affiliate's property or business is appointed or the Controlled Affiliate is ordered dissolved or liquidated. Notwithstanding any other provision of this Agreement, a declaration or a request for declaration of the existence of a trust over any of the Controlled Affiliate's property or business shall not in itself be deemed to constitute or seek appointment of a trustee, interim trustee, receiver or other custodian for purposes of subparagraphs 7(E)(3)(vii) and (viii) of this Agreement.

F. Upon termination of this Agreement for cause or otherwise, Controlled Affiliate agrees that it shall immediately discontinue all use of the Licensed Marks and Name, including any use in its trade name, except to the extent that it continues to be authorized to use the Licensed Marks within the Service Area of one of the Controlling Plans pursuant to a separate controlled affiliate license agreement with BCBSA sponsored by such Controlling Plan.

G. Upon termination of this Agreement, Controlled Affiliate shall immediately notify all of its customers to whom it provides products or services under the Licensed Marks pursuant to this Agreement that it is no longer a licensee of BCBSA and, if directed by the Association's Board of Directors, shall provide instruction on how the customer can contact BCBSA or a designated licensee to obtain further information on securing coverage. The notification required by this paragraph shall be in writing and in a form approved by BCBSA. The BCBSA shall have the right to audit the terminated entity's books and records to verify compliance with this paragraph.

H. In the event this Agreement terminates pursuant to 7(B) hereof, upon termination of this Agreement the provisions of Paragraph 7(G) shall not apply and the following provisions shall apply, except that, in the event that Controlled Affiliate is separately licensed by BCBSA to use the Licensed Marks in the Service Area of a Controlling Plan and termination of this Agreement is due to a partial termination of such Controlling Plan's license pursuant to Paragraph 15(a)(x)(ii) of the Blue Cross License Agreement, the notices, national account listing, payment, and audit right listed below shall be applicable solely with respect to the Region and the geographic area for which the Controlling Plan's license to use the Licensed Names and Marks is terminated:

(1) The Controlled Affiliate shall send a notice through the U.S. mails, with first class postage affixed, to all individual and group customers, providers, brokers and agents of products or services sold, marketed, underwritten or administered by the Controlled Affiliate under the Licensed Marks and Name. The form and content of the notice shall be specified by BCBSA and shall, at a minimum, notify the recipient of the termination of the license, the consequences thereof, and instructions for obtaining alternate products or services licensed by BCBSA. This notice shall be mailed within 15 days after termination.

(2) The Controlled Affiliate shall deliver to BCBSA within five days of a request by BCBSA a listing of national accounts in which the Controlled Affiliate is involved (in a control, participating or servicing capacity), identifying the national account and the Controlled Affiliate's role therein.

(3) Unless the cause of termination is an event respecting BCBSA stated in paragraph 15(a) or (b) of the Plan's license agreement with BCBSA to use the Licensed Marks and Name, the Controlled Affiliate, the Controlling Plans, and any other Licensed Controlled Affiliates of the Controlling Plans shall be jointly liable for payment to BCBSA of an amount equal to $25 multiplied by the number of Licensed Enrollees of the Controlled Affiliate; provided that if any Plan other than a Controlling Plan is permitted by BCBSA to use marks or names licensed by BCBSA in a geographic area in the Region, the payment for Licensed Enrollees in such geographic area shall be multiplied by a fraction, the numerator of which is the number of Licensed Enrollees of the Controlled Affiliate, the Controlling Plans, and

any other Licensed Controlled Affiliates of the Controlling Plans in such geographic area and the denominator of which is the total number of Licensed Enrollees in such geographic area. Licensed Enrollee means each and every person and covered dependent who is enrolled as an individual or member of a group receiving products or services sold, marketed or administered under marks or names licensed by BCBSA as determined at the earlier of (i) the end of the last fiscal year of the terminated entity which ended prior to termination or (ii) the fiscal year which ended before any transactions causing the termination began. Notwithstanding the foregoing, the amount payable pursuant to this subparagraph H. (3) shall be due only to the extent that, in BCBSA's opinion, it does not cause the net worth of the Controlled Affiliate, the Controlling Plans or any other Licensed Controlled Affiliates of the Controlling Plans to fall below 100% of the Health Risk-Based Capital formula, or its equivalent under any successor formula, as set forth in the applicable financial responsibility standards established by BCBSA (provided such equivalent is approved for purposes of this subparagraph by the affirmative vote of three-fourths of the Plans and three-fourths of the total then current weighted vote of all the Plans); measured as of the date of termination, and adjusted for the value of any transactions not made in the ordinary course of business. This payment shall not be due in connection with transactions exclusively by or among Plans (including the Controlling Plans) or their affiliates, including reorganizations, combinations or mergers, where the BCBSA Board of Directors determines that the license termination does not result in a material diminution in the number of Licensed Enrollees or the extent of their coverage. In the event that the Controlled Affiliate's license is reinstated by BCBSA or is deemed to have remained in effect without interruption by a court of competent jurisdiction, BCBSA shall reimburse the Controlled Affiliate (and/or the Controlling Plans or their other Licensed Controlled Affiliates, as the case may be) for payments made under this subparagraph 7.H.(3) only to the extent that such payments exceed the amounts due to BCBSA pursuant to paragraph 7.K. and any costs associated with reestablishing the terminated Controlling Plan's Service Area or the Region, including any payments made by BCBSA to a Plan or Plans (including the other Controlling Plans), or their Licensed Controlled Affiliates, for purposes of replacing the Controlled Affiliate.

(4) BCBSA shall have the right to audit the books and records of the Controlled Affiliate, the Controlling Plans, and any other Licensed Controlled Affiliates of the Controlling Plans to verify compliance with this paragraph 7.H.

(5) As to a breach of 7.H.(1), (2), (3) or (4), the parties agree that the obligations are immediately enforceable in a court of competent jurisdiction. As to a breach of 7.H.(1), (2) or (4) by the Controlled Affiliate, the parties agree there is no adequate remedy at law and BCBSA is entitled to obtain specific performance.

I. BCBSA shall be entitled to enjoin the Controlled Affiliate or any related party in a court of competent jurisdiction from entry into any transaction which would result in a termination of this Agreement unless a Controlling Plan's license from BCBSA to use the Licensed Marks and Names has been terminated pursuant to 10(d) of such Controlling Plan's license agreement upon the required 6 month written notice.

J. BCBSA acknowledges that it is not the owner of assets of the Controlled Affiliate.

K. In the event this Agreement terminates and is subsequently reinstated by BCBSA or is deemed to have remained in effect without interruption by a court of competent jurisdiction, the Controlled Affiliate, the Controlling Plans, and any other Licensed Controlled Affiliates of the Controlling Plans shall be jointly liable for reimbursing BCBSA the reasonable costs incurred by BCBSA in connection with the termination and the reinstatement or court action, and any associated legal proceedings, including but not limited to: outside legal fees, consulting fees, public relations fees, advertising costs, and costs incurred to develop, lease or establish an interim provider network. Any amount due to BCBSA under this subparagraph may be waived in whole or in part by the BCBSA Board of Directors in its sole discretion.

8. DISPUTE RESOLUTION

The parties agree that any disputes between or among them or between or among any of them and one or more Plans or Controlled Affiliates of Plans that use in any manner the Blue Cross and Blue Cross Marks and Name are subject to the Mediation and Mandatory Dispute Resolution process attached to and made a part of each Controlling Plan's License from BCBSA to use the Licensed Marks and Name as Exhibit 5 as amended from time-to-time, which documents are incorporated herein by reference as though fully set forth herein.

9. LICENSE FEE

Controlled Affiliate will pay to BCBSA a fee for this License determined pursuant to the formula(s) set forth in Exhibit B.

10. JOINT VENTURE

Nothing contained in this Agreement shall be construed as creating a joint venture, partnership, agency or employment relationship between the Controlling Plans and Controlled Affiliate or between either and BCBSA.

11. NOTICES AND CORRESPONDENCE

Notices regarding the subject matter of this Agreement or breach or termination thereof shall be in writing and shall be addressed in duplicate to the last

known address of each other party, marked respectively to the attention of its President and, if any, its General Counsel.

12. COMPLETE AGREEMENT

This Agreement contains the complete understandings of the parties in relation to the subject matter hereof. This Agreement may only be amended by the affirmative vote of three-fourths of the Plans and three-fourths of the total then current weighted vote of all the Plans as officially recorded by the BCBSA Corporate Secretary.

13. SEVERABILITY

If any term of this Agreement is held to be unlawful by a court of competent jurisdiction, such findings shall in no way affect the remaining obligations of the parties hereunder and the court may substitute a lawful term or condition for any unlawful term or condition so long as the effect of such substitution is to provide the parties with the benefits of this Agreement.

14. NONWAIVER

No waiver by BCBSA of any breach or default in performance on the part of Controlled Affiliate or any other licensee of any of the terms, covenants or conditions of this Agreement shall constitute a waiver of any subsequent breach or default in performance of said terms, covenants or conditions.

14A. VOTING

For all provisions of this Agreement referring to voting, the term 'Plans' shall mean all entities licensed under the Blue Cross License Agreement and/or the Blue Shield License Agreement, and in all votes of the Plans under this Agreement the Plans shall vote together. For weighted votes of the Plans, the Plan shall have a number of votes equal to the number of weighted votes (if any) that it holds as a Blue Cross Plan plus the number of weighted votes (if any) that it holds as a Blue Shield Plan. For all other votes of the Plans, the Plan shall have one vote. For all questions requiring an affirmative three-fourths weighted vote of the Plans, the requirement shall be deemed satisfied with a lesser weighted vote unless the greater of: (i) 6/52 or more of the Plans (rounded to the nearest whole number, with 0.5 or multiples thereof being rounded to the next higher whole number) fail to cast weighted votes in favor of the question; or (ii) three (3) of the Plans fail to cast weighted votes in favor of the question. Notwithstanding the foregoing provision, if there are thirty-nine (39) Plans, the requirement of an affirmative three-fourths weighted vote shall be deemed satisfied with a lesser weighted vote unless four (4) or more Plans fail to cast weighted votes in favor of the question.

15. GOVERNING LAW

This Agreement shall be governed by, and construed and interpreted in accordance with, the laws of the State of Illinois.

16. HEADINGS

The headings inserted in this agreement are for convenience only and shall have no bearing on the interpretation hereof.

IN WITNESS WHEREOF, the parties have caused this License Agreement to be executed and effective as of the date of last signature written below.

EXHIBIT A

CONTROLLED AFFILIATE LICENSE STANDARDS APPLICABLE TO REGIONAL MEDICARE ADVANTAGE PPO PRODUCTS

November 2016

PREAMBLE

The standards for licensing Controlled Affiliates for Medicare Advantage PPO Products are established by BCBSA and are subject to change from time-to-time upon the affirmative vote of three-fourths (3/4) of the Plans and three-fourths (3/4) of the total weighted vote. Each Controlling Plan is required to use a standard Controlled Affiliate license form provided by BCBSA and to cooperate fully in assuring that the licensed Controlled Affiliate maintains compliance with the license standards.

Standard 1 - Organization and Governance

A Controlled Affiliate is defined as an entity organized and operated in such a manner, that it meets the following requirements:

(1) Controlled Affiliate is owned or controlled by two or more Controlling Plans;

(2) Each Controlling Plan is authorized pursuant to a separate Blue Cross License Agreement to use the Licensed Marks in a geographic area in the Region and every geographic area in the Region is so licensed to at least one of the Controlling Plans; and

(3) The Controlling Plans must have the legal authority directly or indirectly through wholly-owned subsidiaries:

(a) to select members of the Controlled Affiliate's governing body having not less than 100% voting control thereof;

(b) prevent any change in the articles of incorporation, bylaws or other establishing or governing documents of the Controlled Affiliate with which the Controlling Plans do not concur;

(c) exercise control over the policy and operations of the Controlled Affiliate; and

EXHIBIT A (continued)

Notwithstanding anything to the contrary in (a) through (c) hereof, the Controlled Affiliate's establishing or governing documents must also require written approval by each of the Controlling Plans before the Controlled Affiliate can:

(i) change its legal and/or trade names;

(ii) change the geographic area in which it operates (except such approval shall not be required with respect to business of the Controlled Affiliate conducted under the Licensed Marks within the Service Area of one of the Controlling Plans pursuant to a separate controlled affiliate license agreement with BCBSA sponsored by such Controlling Plan);

(iii) change any of the type(s) of businesses in which it engages (except such approval shall not be required with respect to business of the Controlled Affiliate conducted under the Licensed Marks within the Service Area of one of the Controlling Plans pursuant to a separate controlled affiliate license agreement with BCBSA sponsored by such Controlling Plan);

(iv) take any action that any Controlling Plan or BCBSA reasonably believes will adversely affect the Licensed Marks and Name.

In addition, the Controlling Plans directly or indirectly through wholly owned subsidiaries shall own 100% of any for-profit Controlled Affiliate.

Standard 2 - Financial Responsibility

A Controlled Affiliate shall be operated in a manner that provides reasonable financial assurance that it can fulfill all of its contractual obligations to its customers.

Standard 3 - State Licensure/Certification

A Controlled Affiliate shall maintain appropriate and unimpaired licensure and certifications.

EXHIBIT A (continued)

Standard 4 - Certain Disclosures

A Controlled Affiliate shall make adequate disclosure in contracting with third parties and in disseminating public statements of:

a. the structure of the Blue Cross and Blue Shield System; and
b. the independent nature of every licensee.

Standard 5 - Reports and Records for Controlled Affiliates

A Controlled Affiliate and/or its Controlling Plans shall furnish, on a timely and accurate basis, reports and records relating to these Standards and the License Agreements between BCBSA and Controlled Affiliate.

Standard 6 - Best Efforts

During each year, a Controlled Affiliate shall use its best efforts to promote and build the value of the Blue Cross Marks.

Standard 7 - Participation in Certain National Programs

A Controlled Affiliate shall effectively and efficiently participate in certain national programs from time to time as may be adopted by Member Plans for the purposes of providing ease of claims processing for customers receiving benefits outside of the Controlled Affiliate's service area.

National program requirements include:

a. Inter-Plan Teleprocessing System (ITS); and

b. Inter-Plan Medicare Advantage Program.

Standard 8 - Participation in Master Business Associate Agreement

Controlled Affiliates shall comply with the terms of the Business Associate Agreement for Blue Cross and Blue Shield Licensees to the extent they perform the functions of a business associate or subcontractor to a business associate, as defined by the Business Associate Agreement.

Amended as of November 15, 2007

EXHIBIT B

**ROYALTY FORMULA FOR SECTION 9 OF THE
CONTROLLED AFFILIATE LICENSE AGREEMENTS
APPLICABLE TO REGIONAL MEDICARE ADVANTAGE PPO PRODUCTS**

Controlled Affiliate will pay BCBSA a fee for this license in accordance with the following formula:

An amount equal to its pro rata share of each Controlling Plan dues payable to BCBSA computed with the addition of the Controlled Affiliate's members using the Marks on regional MAPPO products and related services as reported on the Quarterly Enrollment Report with BCBSA. The payment by each Controlling Plan of its dues to BCBSA, including that portion described in this paragraph, will satisfy the requirement of this paragraph, and no separate payment will be necessary.

Amended as of June 14, 2007

Exhibit 1C

BLUE CROSS
CONTROLLED AFFILIATE LICENSE AGREEMENT
APPLICABLE TO REGIONAL MEDICARE PART D PRESCRIPTION DRUG PLAN PRODUCTS
(Adopted by Member Plans at their November 18, 2016 meeting)

This Agreement by and among Blue Cross and Blue Shield Association ("BCBSA") and_____ ("Controlled Affiliate"), a Controlled Affiliate of the Blue Cross Plan(s), known as_____ ("Controlling Plans"), each of which is also a Party signatory hereto.

WHEREAS, BCBSA is the owner of the BLUE CROSS and BLUE CROSS Design service marks;

WHEREAS, under the Medicare Modernization Act, companies may apply to and be awarded a contract by the Centers for Medicare and Medicaid Services ("CMS") to offer Medicare Part D Prescription Drug Plan products in geographic regions designated by CMS (hereafter "regional PDP products)."

WHEREAS, some of the CMS-designated regions include the Service Areas, or portions thereof, of more than one Plan.

WHEREAS, the Controlling Plans and Controlled Affiliate desire that the latter be entitled to use the BLUE CROSS and BLUE CROSS Design service marks (collectively the "Licensed Marks") as service marks and be entitled to use the term BLUE CROSS in a trade name ("Licensed Name") to offer regional PDP products in a region that includes the Service Areas, or portions thereof, of more than one Controlling Plan;

NOW THEREFORE, in consideration of the foregoing and the mutual agreements hereinafter set forth and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereby agree as follows:

1. GRANT OF LICENSE

Subject to the terms and conditions of this Agreement, BCBSA hereby grants to Controlled Affiliate the right to use the Licensed Marks and Name in connection with, and only in connection with the sale, marketing and administration of regional PDP products and related services.

This grant of rights is non-exclusive and is limited to the following states: _____ (the "Region"). Controlled Affiliate may use the Licensed

Marks and Name in its legal name on the following conditions: (i) the legal name must be approved in advance, in writing, by BCBSA; (ii) Controlled Affiliate shall not do business outside the Region under any name or mark except business conducted in the Service Area of a Controlling Plan provided that Controlled Affiliate is separately licensed by BCBSA to use the Licensed Marks and Name in connection with health care plans and related services in the Service Area of such Controlling Plan; and (iii) Controlled Affiliate shall not use the Licensed Marks and Name, or any derivative thereof, as part of any name or symbol used to identify itself in any securities market. Controlled Affiliate may use the Licensed Marks and Name in its Trade Name only with the prior, written, consent of BCBSA.

2. QUALITY CONTROL

A. Controlled Affiliate agrees to use the Licensed Marks and Name only in connection with the licensed services and further agrees to be bound by the conditions regarding quality control shown in attached Exhibit A as they may be amended by BCBSA from time-to-time.

B. Controlled Affiliate agrees to comply with all applicable federal, state and local laws.

C. Controlled Affiliate agrees that it will provide on an annual basis (or more often if reasonably required by the Controlling Plans or by BCBSA) a report or reports to the Controlling Plans and BCBSA demonstrating Controlled Affiliate's compliance with the requirements of this Agreement including but not limited to the quality control provisions of this paragraph and the attached Exhibit A.

D. Controlled Affiliate agrees that the Controlling Plans and/or BCBSA may, from time-to-time, upon reasonable notice, review and inspect the manner and method of Controlled Affiliate's rendering of service and use of the Licensed Marks and Name.

E. As used herein, a Controlled Affiliate is defined as an entity organized and operated in such a manner, that it meets the following requirements:

(1) Controlled Affiliate is owned or controlled by two or more Controlling Plans;

(2) Each Controlling Plan is authorized pursuant to a separate Blue Cross License Agreement to use the Licensed Marks in a geographic area in the Region and every geographic area in the Region is so licensed to at least one of the Controlling Plans; and

(3) The Controlling Plans must have the legal authority directly or indirectly

through wholly-owned subsidiaries:

(a) to select members of the Controlled Affiliate's governing Body having not less than 100% voting control thereof;

(b) to prevent any change in the articles of incorporation,

bylaws or other establishing or governing documents of the Controlled Affiliate with which the Controlling Plans do not concur;

(c) to exercise control over the policy and operations of the Controlled Affiliate; and

Notwithstanding anything to the contrary in (a) through (c) hereof, the Controlled Affiliate's establishing or governing documents must also require written approval by each of the Controlling Plans before the Controlled Affiliate can:

(i) change its legal and/or trade names;

(ii) change the geographic area in which it operates

(except such approval shall not be required with respect to business of the Controlled Affiliate conducted under the Licensed Marks within the Service Area of one of the Controlling Plans pursuant to a separate controlled affiliate license agreement with BCBSA sponsored by such Controlling Plan);

(iii) change any of the type(s) of businesses in which it engages (except such approval shall not be required with respect to business of the Controlled Affiliate conducted under the Licensed Marks within the Service Area of one of the Controlling Plans pursuant to a separate controlled affiliate license agreement with BCBSA sponsored by such Controlling Plan);

(iv) take any action that any Controlling Plan or BCBSA reasonably believes will adversely affect the Licensed Marks and Name.

In addition, the Controlling Plans directly or indirectly through wholly-owned subsidiaries shall own 100% of any for-profit Controlled Affiliate.

3. SERVICE MARK USE

A. Controlled Affiliate recognizes the importance of a comprehensive

national network of independent BCBSA licensees which are committed to strengthening the Licensed Marks and Name. The Controlled Affiliate further recognizes that its actions within the Region may affect the value of the Licensed Marks and Name nationwide.

B. Controlled Affiliate shall at all times make proper service mark use of the Licensed Marks and Name, including but not limited to use of such symbols or words as BCBSA shall specify to protect the Licensed Marks and Name and shall comply with such rules (generally applicable to Controlled Affiliates licensed to use the Licensed Marks and Name) relative to service mark use, as are issued from time-to-time by BCBSA. Controlled Affiliate recognizes and agrees that all use of the Licensed Marks and Name by Controlled Affiliate shall inure to the benefit of BCBSA.

C. Controlled Affiliate may not directly or indirectly use the Licensed Marks and Name in a manner that transfers or is intended to transfer in the Region the goodwill associated therewith to another mark or name, nor may Controlled Affiliate engage in activity that may dilute or tarnish the unique value of the Licensed Marks and Name.

D. Controlled Affiliate shall use its best efforts to promote and build the value of the Licensed Marks and Name in connection with the sale, marketing and administration of regional PDP products and related services.

4. SUBLICENSING AND ASSIGNMENT

Controlled Affiliate shall not, directly or indirectly, sublicense, transfer, hypothecate, sell, encumber or mortgage, by operation of law or otherwise, the rights granted hereunder and any such act shall be voidable at the sole option of any Controlling Plan or BCBSA. This Agreement and all rights and duties hereunder are personal to Controlled Affiliate.

5. INFRINGEMENT

Controlled Affiliate shall promptly notify the Controlling Plans and the Controlling Plans shall promptly notify BCBSA of any suspected acts of infringement, unfair competition or passing off that may occur in relation to the Licensed Marks and Name. Controlled Affiliate shall not be entitled to require the Controlling Plans or BCBSA to take any actions or institute any proceedings to prevent infringement, unfair competition or passing off by third parties. Controlled Affiliate agrees to render to the Controlling Plans and BCBSA, without charge, all reasonable assistance in connection with any matter pertaining to the protection of the Licensed Marks and Name by BCBSA.

6. LIABILITY INDEMNIFICATION

Controlled Affiliate and the Controlling Plans hereby agree to save, defend, indemnify and hold BCBSA harmless from and against all claims, damages,
liabilities and costs of every kind, nature and description (except those arising solely

as a result of BCBSA's negligence) that may arise as a result of or related to Controlled Affiliate's rendering of services under the Licensed Marks and Name.

7. LICENSE TERM

A. Except as otherwise provided herein, the license granted by this Agreement shall remain in effect for a period of one (1) year and shall be automatically extended for additional one (1) year periods unless terminated pursuant to the provisions herein.

B. This Agreement and all of Controlled Affiliate's rights hereunder shall immediately terminate without any further action by any party or entity in the event that: (i) any one of the Controlling Plans ceases to be authorized to use the Licensed Marks and Name; or (ii) pursuant to Paragraph 15(a)(x) of the Blue Cross License Agreement any one of the Controlling Plans ceases to be authorized to use the Licensed Names and Marks in the Region.

C. Notwithstanding any other provision of this Agreement, this license to use the Licensed Marks and Name may be forthwith terminated by the Controlling Plans or the affirmative vote of the majority of the Board of Directors of BCBSA present and voting at a special meeting expressly called by BCBSA for the purpose on ten (10) days written notice to the Controlling Plans advising of the specific matters at issue and granting the Controlling Plans an opportunity to be heard and to present their response to the Board for: (1) failure to comply with any applicable minimum capital or liquidity requirement under the quality control standards of this Agreement; or (2) failure to comply with the "Organization and Governance" quality control standard of this Agreement; or (3) impending financial insolvency; or (4) failure to comply with any of the applicable requirements of Standards 2, 3, 4, or 5 of attached Exhibit A; or (5) the pendency of any action instituted against the Controlled Affiliate seeking its dissolution or liquidation of its assets or seeking appointment of a trustee, interim trustee, receiver or other custodian for any of its property or business or seeking the declaration or establishment of a trust for any of its property or business, unless this Controlled Affiliate License Agreement has been earlier terminated under paragraph 7(E); or (6) such other reason as is determined in good faith immediately and irreparably to threaten the integrity and reputation of BCBSA, the Plans (including the Controlling Plans), any other licensee including Controlled Affiliate and/or the Licensed Marks and Name.

D. Except as otherwise provided in Paragraphs 7(B), 7(C) or 7(E) herein, should Controlled Affiliate fail to comply with the provisions of this Agreement and not cure such failure within thirty (30) days of receiving written notice thereof (or commence a cure within such thirty day period and continue diligent efforts to complete the cure if such curing cannot reasonably be completed within such thirty day period) BCBSA or the Controlling Plans shall have the right to issue a notice that

the Controlled Affiliate is in a state of noncompliance. If a state of noncompliance as aforesaid is undisputed by the Controlled Affiliate or is found to exist by a mandatory dispute resolution panel and is uncured as provided above, BCBSA shall have the right to seek judicial enforcement of the Agreement or to issue a notice of termination thereof. Notwithstanding any other provisions of this Agreement, any disputes as to the termination of this License pursuant to Paragraphs 7(B), 7(C) or 7(E) of this Agreement shall not be subject to mediation and mandatory dispute resolution. All other disputes between or among BCBSA, any of the Controlling Plans and/or Controlled Affiliate shall be submitted promptly to mediation and mandatory dispute resolution. The mandatory dispute resolution panel shall have authority to issue orders for specific performance and assess monetary penalties. Except, however, as provided in Paragraphs 7(B) and 7(E) of this Agreement, this license to use the Licensed Marks and Name may not be finally terminated for any reason without the affirmative vote of a majority of the present and voting members of the Board of Directors of BCBSA.

E. This Agreement and all of Controlled Affiliate's rights hereunder shall immediately terminate without any further action by any party or entity in the event that:

(1) Controlled Affiliate shall no longer comply with item 2(E) above;

(2) Appropriate dues, royalties and other payments for Controlled Affiliate pursuant to paragraph 9 hereof, which are the royalties for this License Agreement, are more than sixty (60) days in arrears to BCBSA; or

(3) Any of the following events occur: (i) a voluntary petition shall be filed by Controlled Affiliate seeking bankruptcy, reorganization, arrangement with creditors or other relief under the bankruptcy laws of the United States or any other law governing insolvency or debtor relief, or (ii) an involuntary petition or proceeding shall be filed against Controlled Affiliate seeking bankruptcy, reorganization, arrangement with creditors or other relief under the bankruptcy laws of the United States or any other law governing insolvency or debtor relief and such petition or proceeding is consented to or acquiesced in by Controlled Affiliate or is not dismissed within sixty (60) days of the date upon which the petition or other document commencing the proceeding is served upon the Controlled Affiliate, or (iii) an order for relief is entered against Controlled Affiliate in any case under the bankruptcy laws of the United States, or Controlled Affiliate is adjudged bankrupt or insolvent as those terms are defined in the Uniform Commercial Code as enacted in the State of Illinois by any court of competent jurisdiction, or (iv) Controlled Affiliate makes a general assignment of its assets for the benefit of creditors, or (v) any government or any government official, office, agency, branch, or unit assumes control of Controlled Affiliate or delinquency proceedings (voluntary or involuntary) are instituted, or (vi) an action is brought by Controlled Affiliate seeking its

dissolution or liquidation of its assets or seeking the appointment of a trustee, interim trustee, receiver or other custodian for any of its property or business, or (vii) an action is instituted by any governmental entity or officer against Controlled Affiliate seeking its dissolution or liquidation of its assets or seeking the appointment of a trustee, interim trustee, receiver or other custodian for any of its property or business and such action is consented to or acquiesced in by Controlled Affiliate or is not dismissed within one hundred thirty (130) days of the date upon which the pleading or other document commencing the action is served upon the Controlled Affiliate, provided that if the action is stayed or its prosecution is enjoined, the one hundred thirty (130) day period is tolled for the duration of the stay or injunction, and provided further, that the Association's Board of Directors may toll or extend the 130 day period at any time prior to its expiration, or (viii) a trustee, interim trustee, receiver or other custodian for any of Controlled Affiliate's property or business is appointed or the Controlled Affiliate is ordered dissolved or liquidated. Notwithstanding any other provision of this Agreement, a declaration or a request for declaration of the existence of a trust over any of the Controlled Affiliate's property or business shall not in itself be deemed to constitute or seek appointment of a trustee, interim trustee, receiver or other custodian for purposes of subparagraphs 7(E)(3)(vii) and (viii) of this Agreement.

F. Upon termination of this Agreement for cause or otherwise, Controlled Affiliate agrees that it shall immediately discontinue all use of the Licensed Marks and Name, including any use in its trade name, except to the extent that it continues to be authorized to use the Licensed Marks within the Service Area of one of the Controlling Plans pursuant to a separate controlled affiliate license agreement with BCBSA sponsored by such Controlling Plan.

G. Upon termination of this Agreement, Controlled Affiliate shall immediately notify all of its customers to whom it provides products or services under the Licensed Marks pursuant to this Agreement that it is no longer a licensee of BCBSA and, if directed by the Association's Board of Directors, shall provide instruction on how the customer can contact BCBSA or a designated licensee to obtain further information on securing coverage. The notification required by this paragraph shall be in writing and in a form approved by BCBSA. The BCBSA shall have the right to audit the terminated entity's books and records to verify compliance with this paragraph.

H. In the event this Agreement terminates pursuant to 7(B) hereof, upon termination of this Agreement the provisions of Paragraph 7(G) shall not apply and the following provisions shall apply, except that, in the event that Controlled Affiliate is separately licensed by BCBSA to use the Licensed Marks in the Service Area of a Controlling Plan and termination of this Agreement is due to a partial termination of such Controlling Plan's license pursuant to Paragraph 15(a)(x)(ii) of the Blue Cross

License Agreement, the notices, national account listing, payment, and audit right listed below shall be applicable solely with respect to the Region and the geographic area for which the Controlling Plan's license to use the Licensed Names and Marks is terminated:

(1) The Controlled Affiliate shall send a notice through the U.S. mails, with first class postage affixed, to all individual and group customers, providers, brokers and agents of products or services sold, marketed, underwritten or administered by the Controlled Affiliate under the Licensed Marks and Name. The form and content of the notice shall be specified by BCBSA and shall, at a minimum, notify the recipient of the termination of the license, the consequences thereof, and instructions for obtaining alternate products or services licensed by BCBSA. This notice shall be mailed within 15 days after termination.

(2) The Controlled Affiliate shall deliver to BCBSA within five days of a request by BCBSA a listing of national accounts in which the Controlled Affiliate is involved (in a control, participating or servicing capacity), identifying the national account and the Controlled Affiliate's role therein.

(3) Unless the cause of termination is an event respecting BCBSA stated in paragraph 15(a) or (b) of the Plan's license agreement with BCBSA to use the Licensed Marks and Name, the Controlled Affiliate, the Controlling Plans, and any other Licensed Controlled Affiliates of the Controlling Plans shall be jointly liable for payment to BCBSA of an amount equal to $25 multiplied by the number of Licensed Enrollees of the Controlled Affiliate; provided that if any Plan other than a Controlling Plan is permitted by BCBSA to use marks or names licensed by BCBSA in a geographic area in the Region, the payment for Licensed Enrollees in such geographic area shall be multiplied by a fraction, the numerator of which is the number of Licensed Enrollees of the Controlled Affiliate, the Controlling Plans, and any other Licensed Controlled Affiliates of the Controlling Plans in such geographic area and the denominator of which is the total number of Licensed Enrollees in such geographic area. Licensed Enrollee means each and every person and covered dependent who is enrolled as an individual or member of a group receiving products or services sold, marketed or administered under marks or names licensed by BCBSA as determined at the earlier of (i) the end of the last fiscal year of the terminated entity which ended prior to termination or (ii) the fiscal year which ended before any transactions causing the termination began. Notwithstanding the foregoing, the amount payable pursuant to this subparagraph H. (3) shall be due only to the extent that, in BCBSA's opinion, it does not cause the net worth of the Controlled Affiliate, the Controlling Plans or any other Licensed Controlled Affiliates of the Controlling Plans to fall below 100% of the Health Risk-Based Capital formula, or its equivalent under any successor formula, as set forth in the applicable financial responsibility standards established by BCBSA (provided such equivalent is approved for purposes of this subparagraph by the affirmative vote of three-fourths

of the Plans and three-fourths of the total then current weighted vote of all the Plans); measured as of the date of termination, and adjusted for the value of any transactions not made in the ordinary course of business. This payment shall not be due in connection with transactions exclusively by or among Plans (including the Controlling Plans) or their affiliates, including reorganizations, combinations or mergers, where the BCBSA Board of Directors determines that the license termination does not result in a material diminution in the number of Licensed Enrollees or the extent of their coverage. In the event that the Controlled Affiliate's license is reinstated by BCBSA or is deemed to have remained in effect without interruption by a court of competent jurisdiction, BCBSA shall reimburse the Controlled Affiliate (and/or the Controlling Plans or their other Licensed Controlled Affiliates, as the case may be) for payments made under this subparagraph 7.H.(3) only to the extent that such payments exceed the amounts due to BCBSA pursuant to paragraph 7.K. and any costs associated with reestablishing the terminated Controlling Plan's Service Area or the Region, including any payments made by BCBSA to a Plan or Plans (including the other Controlling Plans), or their Licensed Controlled Affiliates, for purposes of replacing the Controlled Affiliate.

(4) BCBSA shall have the right to audit the books and records of the Controlled Affiliate, the Controlling Plans, and any other Licensed Controlled Affiliates of the Controlling Plans to verify compliance with this paragraph 7.H.

(5) As to a breach of 7.H.(1), (2), (3) or (4), the parties agree that the obligations are immediately enforceable in a court of competent jurisdiction. As to a breach of 7.H.(1), (2) or (4) by the Controlled Affiliate, the parties agree there is no adequate remedy at law and BCBSA is entitled to obtain specific performance.

I. BCBSA shall be entitled to enjoin the Controlled Affiliate or any related party in a court of competent jurisdiction from entry into any transaction which would result in a termination of this Agreement unless a Controlling Plan's license from BCBSA to use the Licensed Marks and Names has been terminated pursuant to 10(d) of such Controlling Plan's license agreement upon the required 6 month written notice.

J. BCBSA acknowledges that it is not the owner of assets of the Controlled Affiliate.

K. In the event this Agreement terminates and is subsequently reinstated by BCBSA or is deemed to have remained in effect without interruption by a court of competent jurisdiction, the Controlled Affiliate, the Controlling Plans, and any other Licensed Controlled Affiliates of the Controlling Plans shall be jointly liable for reimbursing BCBSA the reasonable costs incurred by BCBSA in connection with the

termination and the reinstatement or court action, and any associated legal proceedings, including but not limited to: outside legal fees, consulting fees, public relations fees, advertising costs, and costs incurred to develop, lease or establish an interim provider network. Any amount due to BCBSA under this subparagraph may be waived in whole or in part by the BCBSA Board of Directors in its sole discretion.

8. DISPUTE RESOLUTION

The parties agree that any disputes between or among them or between or among any of them and one or more Plans or Controlled Affiliates of Plans that use in any manner the Blue Cross and Blue Cross Marks and Name are subject to the Mediation and Mandatory Dispute Resolution process attached to and made a part of each Controlling Plan's License from BCBSA to use the Licensed Marks and Name as Exhibit 5 as amended from time-to-time, which documents are incorporated herein by reference as though fully set forth herein.

9. LICENSE FEE

Controlled Affiliate will pay to BCBSA a fee for this License determined pursuant to the formula(s) set forth in Exhibit B.

10. JOINT VENTURE

Nothing contained in this Agreement shall be construed as creating a joint venture, partnership, agency or employment relationship between the Controlling Plans and Controlled Affiliate or between either and BCBSA.

11. NOTICES AND CORRESPONDENCE

Notices regarding the subject matter of this Agreement or breach or termination thereof shall be in writing and shall be addressed in duplicate to the last known address of each other party, marked respectively to the attention of its President and, if any, its General Counsel.

12. COMPLETE AGREEMENT

This Agreement contains the complete understandings of the parties in relation to the subject matter hereof. This Agreement may only be amended by the affirmative vote of three-fourths of the Plans and three-fourths of the total then current weighted vote of all the Plans as officially recorded by the BCBSA Corporate Secretary.

13. SEVERABILITY

If any term of this Agreement is held to be unlawful by a court of competent jurisdiction, such findings shall in no way affect the remaining obligations of the parties hereunder and the court may substitute a lawful term or condition for any unlawful term or condition so long as the effect of such substitution is to provide the parties with the benefits of this Agreement.

14. NONWAIVER

No waiver by BCBSA of any breach or default in performance on the part of Controlled Affiliate or any other licensee of any of the terms, covenants or conditions of this Agreement shall constitute a waiver of any subsequent breach or default in performance of said terms, covenants or conditions.

14A. VOTING

For all provisions of this Agreement referring to voting, the term 'Plans' shall mean all entities licensed under the Blue Cross License Agreement and/or the Blue Shield License Agreement, and in all votes of the Plans under this Agreement the Plans shall vote together. For weighted votes of the Plans, the Plan shall have a number of votes equal to the number of weighted votes (if any) that it holds as a Blue Cross Plan plus the number of weighted votes (if any) that it holds as a Blue Shield Plan. For all other votes of the Plans, the Plan shall have one vote. For all questions requiring an affirmative three-fourths weighted vote of the Plans, the requirement shall be deemed satisfied with a lesser weighted vote unless the greater of: (i) 6/52 or more of the Plans (rounded to the nearest whole number, with 0.5 or multiples thereof being rounded to the next higher whole number) fail to cast weighted votes in favor of the question; or (ii) three (3) of the Plans fail to cast weighted votes in favor of the question. Notwithstanding the foregoing provision, if there are thirty-nine (39) Plans, the requirement of an affirmative three-fourths weighted vote shall be deemed satisfied with a lesser weighted vote unless four (4) or more Plans fail to cast weighted votes in favor of the question.

15. GOVERNING LAW

This Agreement shall be governed by, and construed and interpreted in accordance with, the laws of the State of Illinois.

16. HEADINGS

The headings inserted in this agreement are for convenience only and shall have no bearing on the interpretation hereof.

IN WITNESS WHEREOF, the parties have caused this License Agreement to be executed and effective as of the date of last signature written below.

CONTROLLED AFFILIATE LICENSE STANDARDS APPLICABLE TO REGIONAL MEDICARE PART D PRESCRIPTION DRUG PLAN PRODUCTS June 2016

PREAMBLE

The standards for licensing Controlled Affiliates for Medicare Part D Prescription Drug Plan Products are established by BCBSA and are subject to change from time-to-time upon the affirmative vote of three-fourths (3/4) of the Plans and three-fourths (3/4) of the total weighted vote. Each Controlling Plan is required to use a standard Controlled Affiliate license form provided by BCBSA and to cooperate fully in assuring that the licensed Controlled Affiliate maintains compliance with the license standards.

Standard 1 - Organization and Governance

A Controlled Affiliate is defined as an entity organized and operated in such a manner, that it meets the following requirements:

(1) Controlled Affiliate is owned or controlled by two or more Controlling Plans;

(2) Each Controlling Plan is authorized pursuant to a separate Blue Cross License Agreement to use the Licensed Marks in a geographic area in the Region and every geographic area in the Region is so licensed to at least one of the Controlling Plans; and

(3) The Controlling Plans must have the legal authority directly or indirectly through wholly-owned subsidiaries:

(a) to select members of the Controlled Affiliate's governing body having not less than 100% voting control thereof;

(b) prevent any change in the articles of incorporation, bylaws or other establishing or governing documents of the Controlled Affiliate with which the Controlling Plans do not concur;

(c) exercise control over the policy and operations of the Controlled Affiliate; and

EXHIBIT A (continued)

Notwithstanding anything to the contrary in (a) through (c) hereof, the Controlled Affiliate's establishing or governing documents must also require written approval by each of the Controlling Plans before the Controlled Affiliate can:

(i) change its legal and/or trade names;

(ii) change the geographic area in which it operates (except such approval shall not be required with respect to business of the Controlled Affiliate conducted under the Licensed Marks within the Service Area of one of the Controlling Plans pursuant to a separate controlled affiliate license agreement with BCBSA sponsored by such Controlling Plan);

(iii) change any of the type(s) of businesses in which it engages (except such approval shall not be required with respect to business of the Controlled Affiliate conducted under the Licensed Marks within the Service Area of one of the Controlling Plans pursuant to a separate controlled affiliate license agreement with BCBSA sponsored by such Controlling Plan);

(iv) take any action that any Controlling Plan or BCBSA reasonably believes will adversely affect the Licensed Marks and Name.

In addition, the Controlling Plans directly or indirectly through wholly-owned subsidiaries shall own 100% of any for-profit Controlled Affiliate.

Standard 2 - Financial Responsibility

A Controlled Affiliate shall be operated in a manner that provides reasonable financial assurance that it can fulfill all of its contractual obligations to its customers.

Standard 3 - State Licensure/Certification

A Controlled Affiliate shall maintain appropriate and unimpaired licensure and certifications.

EXHIBIT A (continued)

Standard 4 - Certain Disclosures

A Controlled Affiliate shall make adequate disclosure in contracting with third parties and in disseminating public statements of:

a. the structure of the Blue Cross and Blue Shield System; and
b. the independent nature of every licensee.

Standard 5 - Reports and Records for Controlled Affiliates

A Controlled Affiliate and/or its Controlling Plans shall furnish, on a timely and accurate basis, reports and records relating to these Standards and the License Agreements between BCBSA and Controlled Affiliate.

Standard 6 - Best Efforts

During each year, a Controlled Affiliate shall use its best efforts to promote and build the value of the Blue Cross Marks.

Standard 7 - Participation in Master Business Associate Agreement

Controlled Affiliates shall comply with the terms of the Business Associate Agreement for Blue Cross and Blue Shield Licensees to the extent they perform the functions of a business associate or subcontractor to a business associate, as defined by the Business Associate Agreement.

EXHIBIT B

**ROYALTY FORMULA FOR SECTION 9 OF THE
CONTROLLED AFFILIATE LICENSE AGREEMENTS
APPLICABLE TO REGIONAL MEDICARE PART D PRESCRIPTION DRUG PLAN PRODUCTS**

Controlled Affiliate will pay BCBSA a fee for this license in accordance with the following formula:

An amount equal to its pro rata share of each Controlling Plan dues payable to BCBSA computed with the addition of the Controlled Affiliate's members using the Marks on regional PDP products and related services as reported on the Quarterly Enrollment Report with BCBSA. The payment by each Controlling Plan of its dues to BCBSA, including that portion described in this paragraph, will satisfy the requirement of this paragraph, and no separate payment will be necessary.

Amended as of June 14, 2007

EXHIBIT 2

Membership Standards Page 1 of 5

Preamble

The Membership Standards apply to all organizations seeking to become or to continue as Regular Members of the Blue Cross and Blue Shield Association. Any organization seeking to become a Regular Member must be found to be in substantial compliance with all Membership Standards at the time membership is granted and the organization must be found to be in substantial compliance with all Membership Standards for a period of two (2) years preceding the date of its application. If Membership is sought by an entity which controls or is controlled by one or more Plans, such compliance shall be determined on the basis of compliance by such Plan or Plans.

The Regular Member Plans shall have authority to interpret these Standards.

A Regular Member Plan that operates as a "Shell Holding Company" is defined as an entity that assumes no underwriting risk and has less than 1% of the consolidated enterprise assets (excludes investments in subsidiaries) and less than 5% of the consolidated enterprise net general and administrative expenses.

A Regular Member Plan that operates as a "Hybrid Holding Company" is defined as an entity that assumes no underwriting risk and has either more than 1% of the consolidated enterprise assets (excludes investments in subsidiaries) or more than 5% of the consolidated enterprise net general and administrative expenses.

Standard 1: A Plan shall maintain a governing Board, which shall control the Plan and ensure that the Plan follows appropriate practices of corporate governance. A Plan's Board shall not be controlled by any special interest group, shall make an annual determination that a majority of its directors are independent, and shall act in the best interest of its Corporation and its customers. The Board shall be composed of a majority of persons other than providers of health care services, who shall be known as public members. A public member shall not be an employee of or have a financial interest in a health care provider, nor be a member of a profession which provides health care services.

Amended as of March 15, 2007

EXHIBIT 2

Membership Standards Page 2 of 5

Standard 2: A Plan shall furnish to the Association on a timely and accurate basis reports and records relating to compliance with these Standards and the License Agreements between the Association and the Plans. Such reports and records are the following:

A. BCBSA Membership Information Request;

B. Triennial trade name and service mark usage material, including disclosure material under Standard 7;

C. Changes in the governance of the Plan, including changes in a Plan's Charter, Articles of Incorporation, or Bylaws, changes in a Plan's Board composition, or changes in the identity of the Plan's Principal Officers;

D. Quarterly Financial Report, Semi-annual "Health Risk-Based Capital (HRBC) Report" as defined by the NAIC, Annual Budget, Annual Certified Audit Report, Insurance Department Examination Report, Annual Statement filed with State Insurance Department (with all attachments), Plan, Subsidiary and Affiliate Report; and

- Plans that are a Shell Holding Company as defined in the Preamble hereto are required to furnish only a calendar year-end "Health Risk-Based Capital (HRBC) Report" as defined by the NAIC.

Amended as of November 17, 2011

EXHIBIT 2

Membership Standards Page 3 of 5

E. Quarterly Enrollment Report, Quarterly Member Touchpoint Measures Index (MTM) through 12/31/2011, and Semi-annual MTM Index starting 1/1/2012 and thereafter.

- For purposes of MTM reporting only, a Plan shall file a separate MTM report for each Geographic Market.

Standard 3: A Plan shall be operated in a manner that provides reasonable financial assurance that it can fulfill its contractual obligations to its customers.

Standard 4: A Plan shall be operated in a manner responsive to customer needs and requirements.

Standard 5: A Plan shall effectively and efficiently participate in each national program as from time to time may be adopted by the Member Plans for the purposes of providing portability of membership between the Plans and ease of claims processing for customers receiving benefits outside of the Plan's Service Area.

Such programs are applicable to Blue Cross and Blue Shield Plans, and include:

A. Inter-Plan Teleprocessing System (ITS);
B. BlueCard Program;
C. National Account Programs;
D. Business Associate Agreement for Blue Cross and Blue Shield Licensees, effective April 14, 2003; and
E. Inter-Plan Medicare Advantage Program.

Amended as of November 21, 2014

EXHIBIT 2

Membership Standards Page 4 of 5

Standard 6: In addition to requirements under the national programs listed in Standard 5: Participation in National Programs, a Plan shall take such action as required to ensure its financial performance in programs and contracts of an inter-Plan nature or where the Association is a party.

Standard 7: A Plan shall make adequate disclosure in contracting with third parties and in disseminating public statements of (i) the structure of the Blue Cross and Blue Shield System, (ii) the independent nature of every Plan, and (iii) the Plan's financial condition.

Standard 8: A Plan shall cooperate with the Association's Board of Directors and its Brand Enhancement & Protection Committee in the administration of the Plan Performance Response Process and in addressing Plan performance problems identified thereunder.

Standard 9: A Plan shall obtain a rating of its financial strength from an independent rating agency approved by the Association's Board of Directors for such purpose.

Standard 10: Notwithstanding any other provision in this License Agreement, during each year, a Plan and its Controlled Affiliate(s) engaged in providing licensable services (excluding Life Insurance and Charitable Foundation Services) shall use their best efforts to promote and build the value of the Blue Cross Marks.

Standard 11: Neither a Plan nor any Larger Controlled Affiliate shall cause or permit an entity other than a Plan or a Licensed Controlled Affiliate thereof to obtain control of the Plan or Larger Controlled Affiliate or to acquire a substantial portion of its assets related to licensable services.

Amended as of June 16, 2005

EXHIBIT 2

Membership Standards Page 5 of 5

Standard 12: No provider network, or portion thereof, shall be rented or otherwise made available to a National Competitor if the Licensed Marks or Names are used in any way with such network.

A provider network may be rented or otherwise made available, provided there is no use of the Licensed Marks or Names with respect to the network being rented.

Standard 13: Each Plan shall operate in a manner to reasonably: 1) protect the security and confidentiality of Personally Identifiable Information (PII) and Protected Health Information (PHI); 2) protect the Brands from reputational damage; and 3) cooperate with BCBSA and other Plans if a data security incident or data breach occurs.

Amended as of June 18, 2015

EXHIBIT 3

**GUIDELINES WITH RESPECT TO USE OF
LICENSED NAME AND MARKS IN CONNECTION WITH NATIONAL ACCOUNTS**

Page 1 of 3

1. The strength of the Blue Cross/Blue Cross National Accounts mechanism, and the continued provision of cost effective, quality health care benefits to National Accounts, are predicated on locally managed provider networks coordinated on a national scale in a manner consistent with effective service to National Account customers and consistent with the preservation of the integrity of the Blue Cross/Blue Shield system and the Licensed Marks. These guidelines shall be interpreted in keeping with such ends.

2. A National Account is an entity with employee and/or retiree locations in more than one Plan's Service Area. Unless otherwise agreed, a National Account is deemed located in the Service Area in which the corporate headquarters of the National Account is located. A local plant, office or division headquarters of an entity may be deemed a separate National Account when that local plant, office or division headquarters 1) has employee locations in more than one Service Area, and 2) has independent health benefit decision-making authority for the employees working at such local plant, office or division headquarters and for employees working at other locations outside the Service Area. In such a case, the local plant, office or division headquarters is a National Account that is deemed located in the Service Area in which such local plant, office or division headquarters is located. The Control Plan of a National Account is the Plan in whose Service Area the National Account is located. A participating ("Par") Plan is a Plan in whose Service Area the National Account has employee and/or retiree locations, but in which the National Account is not located. In the event that a National Account parent company consolidates health benefit-decision making for itself and its wholly-owned subsidiary companies, the parent company and the subsidiary companies shall be considered one National Account. The Control Plan for such a National Account shall be the Plan in whose Service Area the parent company headquarters is located.

3. The National Account Guidelines enunciated herein below shall be applicable only with respect to the business of new National Accounts acquired after January 1, 1991.

4. Control Plans shall utilize National Account identification cards complying with then currently effective BCBSA graphic standards in connection with all National Accounts business to facilitate administration thereof, to minimize subscriber and provider confusion, and to reflect a commitment to cooperation among Plans.

Amended as of June 12, 2003

EXHIBIT 3 Page 2 of 3

5. Disputes among Plans and/or BCBSA as to the interpretation or implementation of these Guidelines or as to other National Accounts issues shall be submitted to mediation and mandatory dispute resolution as provided in the License Agreement. For two years from the effective date of the License Agreement, however, such disputes shall be subject to mediation only, with the results of such mediation to be collected and reported in order to establish more definitive operating parameters for National Accounts business and to serve as ground rules for future binding dispute resolution.

6. The Control Plan may use the BlueCard Program (as defined by IPPC) to deliver benefits to employees and non-Medicare eligible retirees in a Participating Plan's service area if an alternative arrangement with the Participating Plan cannot be negotiated. The Participating Plan's minimum servicing requirement for those employees and non-Medicare retirees in its service area is to deliver benefits using the BlueCard Program. Account delivery is subject to the policies, provisions and procedures of the BlueCard Program.

7. For provider payments in a Participating Plan's area (on non-BlueCard claims), payment to the provider may be made by the Participating Plan or the Control Plan at the Participating Plan's option. If the Participating Plan elects to pay the provider, it may not withhold payment of a claim verified by the Control Plan or its designated processor, and payment must be in conformity with service criteria established by the Board of Directors of BCBSA (or an authorized committee thereof) to assure prompt payment, good service and minimum confusion with providers and subscribers. The Control Plan, at the Participating Plan's request, will also assure that measures are taken to protect the confidentiality of the data pertaining to provider reimbursement levels and profiles.

Amended as of June 14, 1996

EXHIBIT 3 Page 3 of 3

8. The Control Plan, in its financial agreements with a National Account, is expected to reasonably reflect the aggregate amount of differentials passed along to the Control Plan by all Participating Plans in a National Account.

9. Other than in contracting with health care providers or soliciting such contracts in areas contiguous to a Plan's Service Area in order to serve its subscribers or those of its licensed Controlled Affiliate residing or working in its Service Area, a Control Plan may not use the Licensed Marks and/or Name, as a tag line or otherwise, to negotiate directly with providers outside its Service Area.

Amended as of March 13, 2003

EXHIBIT 4

GOVERNMENT PROGRAMS AND CERTAIN OTHER USES

Page 1 of 14

1. A Plan and its licensed Controlled Affiliate may use the Licensed Marks and Name in bidding on and executing a contract to serve a Government Program, and in thereafter communicating with the Government concerning the Program. With respect, however, to such contracts entered into after the 1st day of January, 1991, the Licensed Marks and Name will not be used in communications or transactions with beneficiaries or providers in the Government Program located outside a Plan's Service Area, unless the Plan can demonstrate to the satisfaction of BCBSA's governing body that such a restriction on use of the Licensed Marks and Name will jeopardize its ability to procure the contract for the Government Program. As to both existing and future contracts for Government Programs, Plans will discontinue use of the Licensed Marks and Name as to beneficiaries and Providers outside their Service Area as expeditiously as circumstances reasonably permit. Effective January 1, 1995, except as provided in the first sentence above, all use by a Plan of the Licensed Marks and Name in Government Programs outside of the Plan's Service Area shall be discontinued. Incidental communications outside a Plan's Service Area with resident or former resident beneficiaries of the Plan, and other categories of necessary incidental communications approved by BCBSA, are not prohibited. For purposes of this Paragraph 1, the term "Government Programs" shall mean Medicare Part A, Medicare Part B and other non-risk government programs.

2. In connection with activity otherwise in furtherance of the License Agreement, a Plan and its Controlled Affiliates that are licensed to use the Licensed Marks and Name in its Service Area pursuant to the Controlled Affiliate License Agreements authorized in clauses a) through c) of Paragraph 2 of the Plan's License Agreement with BCBSA may use the Licensed Marks and Name outside the Plan's Service Area in the following circumstances which are deemed legitimate and necessary and not likely to cause consumer confusion:

2.1 Common Business Communications

a. sending letterhead, envelopes, and similar items solely for administrative purposes (e.g., not for purposes of marketing, advertising, promoting, selling or soliciting the sale of health care plans and related services);

b. distributing business cards other than in marketing and selling;

c. advertising in publications or electronic media solely to persons for employment;

Amended as of June 19, 2014

2.2 Marketing Spillover

a. advertising in print, electronic or other media which serve, as a substantial market, the Service Area of the Plan or licensed Controlled Affiliate, provided that no Plan or Controlled Affiliate may advertise outside its Service Area on the national broadcast and cable networks and that advertisements in national print media are limited to the smallest regional edition encompassing the Service Area;

b. advertising by direct mail where the addressee's zip code plus 4 includes, at least in part, the Plan's Service Area or that of a licensed Controlled Affiliate;

2.3 Provider Contracting

a. contracting with health care providers or soliciting such contracts in areas contiguous to the Plan's Service Area in order to serve its subscribers or those of such licensed Controlled Affiliates residing or working in its service area;

b. issuing a small sign containing the legal name or trade name of the Plan or such licensed Controlled Affiliates for display by a provider to identify the latter as a participating provider of the Plan or Controlled Affiliate;

c. negotiating rates with a health care provider for services to a specific member, provided that all of the following conditions are met:

(1) the health care provider does not have a contract, applicable to the services rendered or to be rendered, with the Licensee (or any of the Licensees in the case of overlapping Service Areas) in whose Service Area the health care provider is located; and

(2) the Plan or Controlled Affiliate reasonably determines that the member did/does not have a reasonable opportunity to access a participating provider whose contract applies to the services rendered or to be rendered; and

(3) at least one of the following circumstances exists:

Amended as of June 19, 2014

EXHIBIT 4

(i) the member received emergency services and the Plan or Controlled Affiliate knows or reasonably anticipates that the charges on the claim will meet or exceed $5,000; or

(ii) a provider, in consultation pre- or post- treatment with the Plan or Controlled Affiliate, makes/made a treatment recommendation or referral to a non-par provider or to a par provider whose contract does not apply to the services to be rendered; or

(iii) the member inadvertently accessed a non-par provider or non-contracted services in the course of receiving services from a par provider (e.g., the member sees a non-par consulting specialist in a participating hospital); and

(4) the Licensee (and in the case of overlapping Service Areas, all of the Licensees) in whose Service Area the health care provider is located consent(s) in advance.

d. contracting with a pharmacy management organization ("Pharmacy Intermediary") to gain access to a national or regional pharmacy network to provide self-administered prescription drugs to deliver a pharmacy benefit for all of the Plan's or licensed Controlled Affiliate's members nationwide, provided, however, that the Pharmacy Intermediary may not use the Licensed Marks or Name in contracting with the pharmacy providers in such network;

Amended as of June 19, 2014

EXHIBIT 4
Page 4 of 14

e. contracting with the corporate owner of a national or regional retail pharmacy chain to gain access to the pharmacies in the chain to provide self-administered prescription drugs to deliver a pharmacy benefit for all of the Plan's or licensed Controlled Affiliate's members nationwide, provided that (1) the Plan and the Controlled Affiliate may not contract directly with pharmacists or pharmacy stores outside the Plan's Service Area, and (2) neither the Plan's or the Controlled Affiliate's name nor the Licensed Marks or Name may be posted or otherwise displayed at or by any pharmacy store outside the Plan's Service Area;

f. contracting with a dental management organization ("Dental Intermediary") to gain access to a national or regional dental network to deliver a routine dental benefit for all of the Plan's or licensed Controlled Affiliate's members nationwide, provided, however, that the Dental Intermediary may not use the Licensed Marks or Name in contracting with the dental providers in such network;

g. contracting with a vision management organization ("Vision Intermediary") to gain access to a national or regional vision network to deliver a routine vision benefit for all of the Plan's or licensed Controlled Affiliate's members nationwide, provided, however, that the Vision Intermediary may not use the Licensed Marks or Name in contracting with the vision providers in such network;

h. contracting with an independent clinical laboratory for analysis and clinical assessment of specimens that are collected within the Plan's Service Area;

i. contracting with a durable medical equipment or home medical equipment company for durable medical equipment and supplies and home medical equipment and supplies that are shipped to a location within the Plan's Service Area;

j. contracting with a specialty pharmaceutical company for non-routine biological therapeutics that are ordered by a health care professional located within the Plan's Service Area;

---

k. contracting with a company that operates provider sites in the Plan's Service Area, provided that the contract is solely for
services rendered at a site (e.g., hospital, mobile van) that is within the Plan's Service Area;

l. contracting with a company that makes health care professionals available in the Plan's Service Area (e.g., traveling home health nurse), provided that the contract is solely for services rendered by health care professionals who are located within the Plan's Service Area.

2.4 Services to National Accounts

a. in conjunction with contracting with a National Account as Control
Licensee or Alternate Control Licensee (as those terms are defined in the Inter-Plan Programs Policies and Provisions ("IP Policies")) to offer Blue-branded Health Coverage to the National Account, offering Blue-branded Health and Wellness Programs to all members of the National Account, including members who have not enrolled in the Blue-branded Health Coverage ("non-Blue Health Coverage members"), provided that:

(i) the Plan and/or licensed Controlled Affiliate has no contact or interaction with providers outside of the Plan's Service Area, except as specifically provided in the IP Policies and in 2.4 (b); and

(ii) if in accordance with IP Policies another Licensee is soliciting or servicing under the Brands a local plant, office or division of the account that is outside of the Plan's Service Area, the Plan and/or licensed Controlled Affiliate may not offer Blue-branded Health and Wellness Programs to any employees working at such local plant, office or division without the consent of such other Licensee; and

(iii) if the Plan and/or licensed Controlled Affiliate provides an information card to the non-Blue Health Coverage members, the card may not display the Symbols in the masthead, must contain a prominent disclosure conveying that it is not a health insurance card, and otherwise must be designed so that it is dissimilar to a Blue member identification card.

Amended as of March 26, 2015

For purposes of this subparagraph a, the following definitions apply:

"Health and Wellness Program" shall mean a program that includes at least one of the following elements or a related element:

– Health Risk Assessment and/or Preventive Screenings
– Exercise and Fitness Programs
– Health and Wellness Events (e.g., attendance at a health fair, a 5K walk)
– Nutrition and Weight Management
– Health Education (e.g., smoking cessation classes)
– Prenatal and Parenting Education
– Disease or Chronic Condition Management

The above listing is intended to represent examples of the types of programs that may be offered, and other programs, including those offered through different media such as the internet or telephonically, may also be deemed Health and Wellness programs.

"Health Coverage" shall mean providing or administering medical, surgical, hospital, major medical, or catastrophic coverage, or any HMO, PPO, POS or other managed care plan for the foregoing services.

2.4 Services to National Accounts (continued)

b. as part of a Health and Wellness Program that is otherwise compliant with Brand Regulation 4.11.4(a), contracting with a health and wellness organization to gain access to providers to deliver a discrete health and wellness event ("Event") held at a National Account's worksite outside of the Licensee's Service Area, provided that:

(i) the services delivered at the Event are limited to fingerstick screenings for cholesterol and glucose, seasonal flu immunizations, blood pressure measurements, body mass index measurements, and other routine screenings, immunizations and measurements; and

(ii) neither such services nor their costs are applied as claims against any benefit plan; and

(iii) the Event is presented during one or more limited periods during a benefit year and is available to all employees at the worksite.

Amended as of June 19, 2014

c. in conjunction with contracting with a National Account as Control Licensee or Alternate Control Licensee to offer Blue-branded Health Coverage to the National Account, performing the Eligibility and Enrollment functions of HR administration for all benefit plans offered by the National Account to its members, including benefit plans that are not underwritten or administered by the Plan, provided that:

(i) in performing such functions, the Plan and/or licensed Controlled Affiliate does not use the Brands in any communications with health care providers outside of the Plan's Service Area, and otherwise limits its use of the Brands outside of the Service Area to communications with the account's members, the other benefit plan providers with which the account has contracted and other reasonably necessary communications to perform such functions; and

(ii) if in accordance with IP Policies another Licensee is soliciting or servicing under the Brands a local plant, office or division of the account that is outside of the Plan's Service Area, the Plan and/or licensed Controlled Affiliate may not perform Eligibility and Enrollment functions for employees working at such local plant, office or division without the consent of such other Licensee;

For purposes of this subparagraph b, the following definitions apply: "Health Coverage" has the meaning set forth in subparagraph 2.4.a.

Amended as of March 26, 2015

EXHIBIT 4 Page 8 of 14

"Eligibility" means services that manage the account's eligibility data and determine or process determinations relating to eligibility for benefit plans offered by the account to its employees, including such services as:

- monitoring and auditing data to ensure that only entitled individuals are enrolled in each such benefit plan;
- review of eligibility documentation (e.g. marriage licenses, birth certificates, student status verification letters, employment records);
- identification of key member segments such as over-age dependents, part-time employees, employees reaching certain milestones (e.g. Medicare-eligible, retirees);
- termination of coverage for those individuals found to be ineligible for coverage under a benefit plan, and, if applicable, generation of a COBRA event; and
- management of "hour-banking" for union environments in which union members can bank hours to remain eligible for benefits.

"Enrollment" means services that enroll eligible individuals and their spouses/dependents or terminate or change their enrollment in the account's benefit plans on an ongoing basis and during open enrollment periods, including such services as:

- the coordination of each step in open enrollment process from project planning and system set-up to the generation of confirmation statements;
- ongoing enrollment support for new hires and changes due to life events and work status adjustments;
- evidence of insurability (EOI) administration for life and disability coverage;
- transmission of eligibility/enrollment information to the account's benefit plan providers;
- review and reconciliation of error reports received from the account's benefit plan providers; and
- transmission of information to the account's payroll system (e.g., benefit deductions, employee demographic data).

Amended as of November 18, 2010

EXHIBIT 4 Page 9 of 14

2.5 Knowledge Sharing

a. submitting scholarly articles authored or co-authored by the Plan or Controlled Affiliate or its respective employees for publication in peer-reviewed journals;

b. permitting an internal representative of the Licensee (e.g., officer, employee) to speak or present at a conference or symposium outside of the Licensee's Service Area regarding either (i) healthcare financing, administration, delivery or policy, or (ii) topics within the representative's functional discipline or expertise at the Licensee, for which the event sponsor will issue communications to promote, administer, and/or recap the event that will identify the Licensee's representative as a participant. The communications outside of the Licensee's Service Area that mention the Licensee's representative shall be limited to materials and digital media provided to attendees, on-site signage, advertising in relevant trade publications, direct mail and email to attendees and prospective attendees, and the sponsor's website. Participation in any conference or symposium outside of the Licensee's Service Area may not be for the purpose of marketing or selling products or services.

If the Licensee's representative wishes to use the Brands in any manner, including use in his/her title, when participating as a speaker or presenter outside of the Licensee's Service Area about a topic that is not related to healthcare financing, administration, delivery, or policy, or to topics within the representative's functional discipline or expertise at the Licensee, the Licensee must notify BCBSA and receive prior approval from BCBSA before participating;

Amended as of March 26, 2015

EXHIBIT 4

2.6 Other Uses

a. entering into a license agreement between and among BCBSA, the Plan and a debit card issuer located outside the Plan's Service Area, and entering into a corresponding operating agreement or agreements, in order to offer a debit card bearing the Licensed Marks and Name to eligible persons as defined by the aforementioned license agreement;

b. appearing in communications issued by an independent third party to recognize outstanding performance of the Plan or Controlled Affiliate or a member of the Plan's or Controlled Affiliate's senior management as part of an established program of the third party for which the Plan has provided information to be considered for the recognition, provided that such use complies with regulations of general application specifically prescribed by BCBSA from time to time;

c. to identify itself as being a joint sponsor of an event, program or activity along with other Plans or such Plans' licensed Controlled Affiliates, provided that such use complies with regulations of general application specifically prescribed by BCBSA from time to time;

d. hosting meetings or events (collectively, "events") in Washington, D.C. related to policy and business issues in the Licensee's Service Area, or hosting events in conjunction with the assemblies or conventions of national political parties. Such events may not involve marketing or selling products or services. Use of the Brands outside the Licensee's Service Area in connection with such events shall be limited to materials and digital media provided to attendees and prospective attendees and onsite signage. For any such events in Washington, D.C. that are open to attendees other than government officials or their staffs, or are briefings open to all Congressional staff, or are otherwise likely to receive media coverage, the Licensee is required to provide advance notice to BCBSA. For events hosted outside of Washington, D.C. in conjunction with the assemblies or conventions of national political parties, the Licensee is required to provide advance notice to BCBSA and to the local Plan;

Amended as of March 26, 2015

---

e. permitting an affiliate that is not licensed to use the Licensed Marks to identify its corporate relationship with the Plan, provided that such use complies with regulations of general application specifically prescribed by BCBSA from time to time.

3. In connection with activity otherwise in furtherance of the License Agreement, a Controlled Affiliate that is licensed to use the Licensed Marks and Name pursuant to a Controlled Affiliate License Agreement authorized in clauses d) or e) of Paragraph 2 of the Plan's License Agreement with BCBSA may use the Licensed Marks and Name outside the Region (as that term is defined in such respective Controlled Affiliate License Agreements) in the following circumstances which are deemed legitimate and necessary and not likely to cause consumer confusion:

a. sending letterhead, envelopes, and similar items solely for administrative purposes (e.g., not for purposes of marketing, advertising, promoting, selling or soliciting the sale of health care plans and related services);

b. distributing business cards other than in marketing and selling;

c. contracting with health care providers or soliciting such contracts in areas contiguous to the Region in order to serve its subscribers residing in the Region, provided that the Controlled Affiliate may not use the names of any of its Controlling Plans in connection with such contracting unless the provider is located in a geographic area that is also contiguous to such Controlling Plan's Service Area;

d. issuing a small sign containing the legal name or trade name of the Controlled Affiliate for display by a provider to identify the latter as a participating provider of the Controlled Affiliate, provided that the Controlled Affiliate may not use the names of any of its Controlling Plans on such signs unless the provider is located in a geographic area that is also contiguous to such Controlling Plan's Service Area;

e. advertising in publications or electronic media solely to persons for employment;

Amended as of June 19, 2014

EXHIBIT 4
Page 12 of 14

f. advertising in print, electronic or other media which serve, as a substantial market, the Region, provided that the Controlled Affiliate may not advertise outside its Region on the national broadcast and cable networks and that advertisements in national print media are limited to the smallest regional edition encompassing the Region, and provided further that any such advertising by the Controlled Affiliate may not reference the name of any of its Controlling Plans unless the respective Controlling Plan is authorized under paragraph 2 of this Exhibit 4 to advertise in such media;

g. advertising by direct mail where the addressee's zip code plus 4 includes, at least in part, the Region, provided that such advertising by the Controlled Affiliate may not reference the name of any of its Controlling Plans unless the respective Controlling Plan is authorized under paragraph 2 of this Exhibit 4 to send direct mail to such zip code plus 4.

h. [Intentionally left blank, pending review by the Inter-Plan Programs Committee of the applicability of the case management rule to such Controlled Affiliates.]

i. contracting with a pharmacy management organization ("Pharmacy Intermediary") to gain access to a national or regional pharmacy network to provide self-administered prescription drugs to deliver a pharmacy benefit for the Controlled Affiliate's regional Medicare Advantage PPO or regional Medicare Part D Prescription Drug members enrolled under the Licensed Marks pursuant to such respective Controlled Affiliate License Agreements, provided, however, that the Pharmacy Intermediary may not use the Licensed Marks or Name in contracting with the pharmacy providers in such network;

j. contracting with the corporate owner of a national or regional retail pharmacy chain to gain access to the pharmacies in the chain to provide self-administered prescription drugs to deliver a pharmacy benefit to the Controlled Affiliate's regional Medicare Advantage PPO or regional Medicare Part D Prescription Drug members enrolled under the Licensed Marks pursuant to such respective

EXHIBIT 4

Controlled Affiliate License Agreements, provided that (1) the Controlled Affiliate may not contract directly with pharmacists or pharmacy stores outside the Region, and (2) neither the Controlled Affiliate's name nor the Licensed Marks or Name may be posted or otherwise displayed at or by any pharmacy store outside the Region;

k. contracting with a dental management organization ("Dental Intermediary") to gain access to a national or regional dental network to deliver a routine dental benefit for the Controlled Affiliate's regional Medicare Advantage PPO members enrolled under the Licensed Marks pursuant to such Controlled Affiliate License Agreement, provided, however, that the Dental Intermediary may not use the Licensed Marks or Name in contracting with the dental providers in such network;

l. contracting with a vision management organization ("Vision Intermediary") to gain access to a national or regional vision network to deliver a routine vision benefit for the Controlled Affiliate's regional Medicare Advantage members enrolled under the Licensed Marks pursuant to such Controlled Affiliate License Agreement, provided, however, that the Vision Intermediary may not use the Licensed Marks or Name in contracting with the vision providers in such network;

m. contracting with an independent clinical laboratory for analysis and clinical assessment of specimens that are collected within the Controlled Affiliate's Region;

n. contracting with a durable medical equipment or home medical equipment company for durable medical equipment and supplies and home medical equipment and supplies that are shipped to a location within the Controlled Affiliate's Region;

o. contracting with a specialty pharmaceutical company for non-routine biological therapeutics that are ordered by a health care professional located within the Region;

p. contracting with a company that operates provider sites in the Region, provided that the contract is solely for services rendered at a site (e.g., hospital, mobile van) that is within the Region;

q. contracting with a company that makes health care professionals

available in the Region (e.g., traveling home health nurse), provided that the contract is solely for services rendered by health

care professionals who are located within the Region.

4. BCBSA shall retain the right to use the Licensed Marks in conjunction with the Federal Employee Program and with any other national offering made to federal employees pursuant to the Federal Employees Health Benefits Program (FEHBP), including the right to license such use to its vendors, but only in the following manner.

   a. the Licensed Marks may only be used by BCBSA with the term "Federal Employee Program", "Federal", "FEP", or similar language identifying the program as a benefit program for federal employees;

   b. the Licensed Marks may not be used by BCBSA with the name(s) of a specific Plan or Plans and;

   c. any use by BCBSA in conjunction with a new national FEHBP program proposed after the enactment of this amendment will require the approval of the BCBSA Board of Directors.

5. Where required by applicable state or local law or regulation, a Plan or its licensed Controlled Affiliate may submit documents that contain the Brands to, and file forms that contain the Brands with, state or local regulators in a state not included in its Service Area, provided that it gives reasonable advance notice to the local Plan of its intent to submit such documents or file such forms. Notwithstanding, in no event may a Plan or its licensed Controlled Affiliate use the Brands to register, or to obtain or maintain a license, a certificate of authority, or an equivalent document authorizing it to act as a risk-bearing entity or third party administrator in a state not included in its Service Area. If the local Plan advises BCBSA that it believes its License Agreement has been or would be violated by any submission or filing, BCBSA shall determine whether such submission or filing is required by state or local law or regulation and violates the License Agreement, subject to the Plan's or licensed Controlled Affiliate's rights to obtain an independent review of such determination under Paragraph 9(a) and Exhibit 5 of its License Agreement or Paragraph 8 of the Controlled Affiliate License. For purposes of this paragraph, "local Plan" is defined as each Plan whose Service Area includes all or part of the state in which the foregoing applicable state or local law or regulation has been enacted.

Amended as of March 26, 2015

EXHIBIT 5 Page 1 of 23

MEDIATION AND MANDATORY DISPUTE RESOLUTION (MMDR) RULES

The Blue Cross and Blue Shield Plans ("Plans") and the Blue Cross Blue Shield Association ("BCBSA") recognize and acknowledge that the Blue Cross and Blue Shield system is a unique nonprofit and for-profit system offering cost effective health care financing and services. The Plans and BCBSA desire to utilize Mediation and Mandatory Dispute Resolution ("MMDR") to avoid expensive and time-consuming litigation that may otherwise occur in the federal and state judicial systems. Even MMDR should be viewed, however, as methods of last resort, all other procedures for dispute resolution having failed. Except as otherwise provided in the License Agreements, the Plans, their Controlled Affiliates and BCBSA agree to submit all disputes to MMDR pursuant to these Rules and in lieu of litigation.

1. Initiation of Proceedings

A. Pre-MMDR Efforts

Before filing a Complaint to invoke the MMDR process, the CEO of a complaining party, or his/her designated representative, shall undertake good faith efforts with the other side(s) to try to resolve any dispute.

B. Complaint

To commence a proceeding, the complaining party (or parties) shall provide by certified mail, return receipt requested, a written Complaint to the BCBSA Corporate Secretary (which shall also constitute service on BCBSA if it is a respondent) and to any Plan(s) and/or Controlled Affiliate(s) named therein. The Complaint shall contain:

i. identification of the complaining party (or parties) requesting the proceeding;

ii. identification of the respondent(s);

iii. identification of any other persons or entities who are interested in a resolution of the dispute;

iv. a full statement describing the nature of the dispute;

v. identification of all of the issues that are being submitted for resolution;

Amended as of November 21, 1996

vi. the remedy sought;

vii. a statement as to whether the complaining party (or parties) elect(s) first to pursue Mediation;

viii. any request, if applicable, that the matter be handled on an expedited basis and the reasons therefor; and

ix. a statement signed by the CEO of the complaining party affirming that the CEO has undertaken efforts, or has directed efforts to be undertaken, to resolve the dispute before resorting to the MMDR process.

The complaining party (or parties) shall file and serve with the Complaint copies of all documents which the party (or parties) intend(s) to offer at the Arbitration Hearing and a statement identifying the witnesses the party (or parties) intend(s) to present at the Hearing, along with a summary of each witness' expected testimony.

C. Answer

Within twenty (20) days after receipt of the Complaint, each respondent shall serve on BCBSA and on the complaining party (or parties);

i. a full Answer to the aforesaid Complaint;

ii. a statement of any Counterclaims against the complaining party (or parties), providing with respect thereto the information specified in Paragraph 1.B., above;

iii. a statement as to whether the respondent elects to first pursue Mediation; and

iv. any request, if applicable, that the matter be handled on an expedited basis and the reasons therefor.

The respondent(s) shall file and serve with the Answer or by the date of the Initial Conference set forth in Paragraph 3.C., below, copies of all documents which the respondent(s) intend(s) to offer at the Arbitration Hearing and a statement identifying the witnesses the party (or parties) intend(s) to present at the Hearing, along with a summary of each witness' expected testimony.

Amended as of September 20, 2007

D. Reply To Counterclaim

Within ten (10) days after receipt of any Counterclaim, the complaining party (or parties) shall serve on BCBSA and on the responding party (or parties), a Reply to the Counterclaim. Such Reply must provide the same information required by Paragraph 1.C., above.

2. Mediation

To facilitate the mediation of disputes between or among BCBSA, the Plans and/or their Controlled Affiliates, the BCBSA Board has provided for Mediation under these Rules. Mediation may be pursued in lieu of or in an effort to obviate the Mandatory Dispute Resolution process, and all parties are strongly urged, but not required, to exhaust the mediation procedure provided for herein. In the event any party refuses to proceed with Mediation, the parties shall proceed immediately to Mandatory Dispute Resolution, as provided in Section 3.

A. Selection of Mediators

If all parties agree to pursue Mediation, they shall promptly attempt to agree upon: (i) the number of mediators desired, not to exceed three mediators; and (ii) the selection of experienced mediator(s) from an independent entity to mediate all disputes set forth in the Complaint and Answer (and Counterclaim and Reply, if any). In the event the parties are unable to agree upon the selection or number of mediators, both within five (5) days of the service of the Answer or Reply to Counterclaim, whichever is later, the BCBSA Corporate Secretary shall immediately refer the matter to a nationally recognized professional ADR organization (such as CPR or JAMS) for mediation by a single mediator to be selected by the ADR organization.

B. Binding Decision

Before the Mediation Hearing described below, the BCBSA Corporate Secretary shall contact the parties to determine whether they wish to be bound by any recommendation of the selected mediator(s) for resolution of the disputes. If all wish to be bound, the Corporate Secretary will send appropriate documentation to them for their signatures before the Mediation Hearing begins.

Amended as of September 20, 2007

C. Mediation Procedure

The Mediator(s) shall apply the mediation procedures and processes provided for herein (not the rules of the ADR organization with which they are affiliated) and shall promptly advise the parties of a scheduled Mediation Hearing date. Unless a party requests an expedited procedure, or unless all parties to the proceeding agree to one or more extensions of time, the Mediation Hearing set forth below shall be completed within forty (40) days of BCBSA's receipt of the Complaint. The selected mediator(s), unless the parties otherwise agree, shall adhere to the following procedure:

i. Each party must be represented by its CEO or other representative who has been delegated full authority to resolve the dispute. However, parties may send additional representatives as they see fit.

ii. Each party will be given one-half hour to present its case, beginning with the complaining party (or parties), followed by the other party or parties. The parties are free to structure their presentations as they see fit, using oral statements or direct examination of witnesses. However, neither cross-examination nor questioning of opposing representatives will be permitted. At the close of each presentation, the selected mediator(s) will be given an opportunity to ask questions of the presenters and witnesses. All parties must be present throughout the Mediation Hearing. The selected mediator(s) may extend the time allowed for each party's presentation at the Mediation Hearing. The selected mediator(s) may meet in executive session, outside the presence of the parties, or may meet with the parties separately, to discuss the controversy.

iii. After the close of the presentations, the parties will attempt to negotiate a settlement of the dispute. If the parties desire, the selected mediator(s), or any one or more of the selected mediators, will sit in on the negotiations.

Amended as of September 20, 2007

iv. After the close of the presentations, the selected mediator(s) may meet privately to agree upon a recommendation for resolution of the dispute which would be submitted to the parties for their consideration and approval. If the parties have previously agreed to be bound by the results of this procedure, this recommendation shall be binding upon the parties.

v. The purpose of the Mediation Hearing is to assist the parties to settle their grievances short of mandatory dispute resolution. As a result, the Mediation Hearing has been designed to be as informal as possible. Rules of evidence shall not apply. There will be no transcript of the proceedings, and no party may make a tape recording of the Mediation Hearing.

vi. In order to facilitate a free and open discussion, the Mediation proceeding shall remain confidential. A "Stipulation to Confidentiality" which prohibits future use of settlement offers, all position papers or other statements furnished to the selected mediator(s), and decisions or recommendations in any Mediation proceeding shall be executed by each party.

vii. Upon request of the selected mediator(s), or one of the parties, BCBSA staff may also submit documentation at any time during the proceedings.

D. Notice of Termination of Mediation

If the Mediation cannot be completed within the prescribed or agreed time period due to the lack of cooperation of any party, as determined by the selected mediator(s), or if the Mediation does not result in a final resolution of all disputes at the Mediation Hearing or within ten (10) days after the Mediation Hearing, any party or any one of the selected mediators shall so notify the BCBSA Corporate Secretary, who shall promptly issue a Notice of Termination of Mediation to all parties, to the selected mediator(s), and to the MDR Administrator. Such notice shall serve to bring the Mediation to an end and to initiate Mandatory Dispute Resolution. Upon agreement of all parties and the mediator(s), the Mediation process may continue at the same time the MDR process is invoked. In such case, the Notice of Termination of Mediation described above serves to initiate the MDR proceeding, but does not terminate mediation proceedings, which may proceed simultaneous with the MDR proceeding.

Amended as of September 20, 2007

3. Mandatory Dispute Resolution (MDR)

If any party elects not to first pursue Mediation, or if a Notice of Termination of Mediation is issued as set forth in Paragraph 2.D., above, then the unresolved disputes set forth in any Complaint and Answer (and Counterclaim and Reply, if any) shall be subject to mandatory binding arbitration (herein referred to as "MDR").

A. MDR Administrator

The Administrator for purposes of Mandatory Arbitration shall be an independent nationally recognized entity such as CPR or JAMS, specializing in alternative dispute resolution. In the event the parties pursued Mediation with CPR, JAMS or a similar organization, that organization also shall serve as the MDR Administrator, unless all parties notify the BCBSA Corporate Secretary in writing within two (2) days of receiving the Notice of Termination of Mediation that they wish to pursue MDR with another nationally recognized organization serving as MDR Administrator.

In the event the parties (i) did not pursue Mediation, (ii) pursued mediation with a Mediator not affiliated with an ADR organization that offers a panel of arbitrators, or (iii) all parties that pursued Mediation notified the BCBSA Corporate Secretary that they wish to have an MDR Administrator that is different from the organization with which their mediator was affiliated, they shall promptly attempt to agree on a nationally recognized ADR entity that supplies a panel of arbitrators. If they reach such agreement within five (5) days of the Notice of Termination of Mediation or receipt of the Answer or Reply to Counterclaim (whichever is later), the parties shall promptly inform the BCBSA Corporate Secretary of their agreed upon ADR organization. In the event the parties are unable to reach agreement on an MDR Administrator within that timeframe, the BCBSA Corporate Secretary shall immediately refer the matter to CPR, JAMS or a similar organization for MDR.

Any person who served as a Mediator shall not serve as an arbitrator for the same or similar dispute for purposes of MDR.

B. Rules for MDR

The rules controlling all aspects of MDR shall be exclusively those provided for herein. The rules promulgated or otherwise used by the MDR Administrator organization shall not apply.

Amended as of September 20, 2007

C. Initial Conference

Within seven (7) days after a Notice of Termination has issued or the matter has otherwise been referred to an MDR Administrator, or within five (5) days after the time for filing and serving the Answer or Reply to any Counterclaim (whichever is later) if the parties elect first not to mediate, the parties shall confer with the Administrator to discuss selecting a dispute resolution panel ("the Panel"). This conference (the "Initial Conference") may be by telephone. The parties are encouraged to agree to the composition of the Panel and to present that agreement to the Administrator at the Initial Conference. If the parties do not agree on the composition of the Panel by the time of the Initial Conference, or by any extension thereof agreed to by all parties and the Administrator, then the Panel Selection Process set forth in subparagraph D, below, shall be followed.

D. Panel Selection Process

The Administrator shall designate, prior to the Initial Conference, at least seven potential arbitrators. Each party shall be permitted to strike any designee for cause and the Administrator shall determine the sufficiency thereof in its sole discretion. The Administrator will designate a replacement for any designee so stricken. Each party shall then be permitted one peremptory strike from the list of designees. The Administrator shall set the dates for exercising all strikes, which shall be set to encourage the prompt selection of arbitrators.

After the parties exercise any designee strikes for cause and their peremptory strike against any designee of their choice, the parties shall each rank the remaining panel members in order of preference and provide the Administrator, without serving on any other party, their ranked list. The Administrator shall not disclose any party's ranked list to members of the panel or to other parties.

From the remaining designees, and after considering opportunities to maximize, so far as possible, the collectively stated arbitrator preferences provided by the parties on their ranked lists, the Administrator shall select a three member Panel. The Panel Selection Process shall be completed no later than ten (10) days after the Initial Conference.

Each Arbitrator shall be compensated at his or her normal hourly rate or, in the absence of an established rate, at a reasonable hourly rate to be promptly fixed by the Administrator for all time spent in connection with the proceedings and shall be reimbursed for any travel and other reasonable expenses.

Amended as of September 20, 2007

E. Duties Of The Arbitrators

The Panel shall promptly designate a Presiding Arbitrator for the purposes reflected below, but shall retain the power to review and modify any ruling or other action of said Presiding Arbitrator. Each Arbitrator shall be an independent Arbitrator, shall be governed by the Code of Ethics for Arbitrators in Commercial Disputes and shall at or prior to the commencement of any Arbitration Hearing take an oath to that effect. Each Arbitrator shall promptly disclose in writing to the Panel and to the parties any circumstances, whenever arising, that might cause doubt as to such Arbitrator's compliance, or ability to comply, with said Code of Ethics, and, absent resignation by such Arbitrator, the remaining Arbitrators shall determine in their sole discretion whether the circumstances so disclosed constitute grounds for disqualification and for replacement. With respect to such circumstances arising or coming to the attention of a party after an Arbitrator's selection, a party may likewise request the Arbitrator's resignation or a determination as to disqualification by the remaining Arbitrators. With respect to a sole Arbitrator, the determination as to disqualification shall be made by the Administrator.

There shall be no ex parte communication between the parties or their counsel and any member of the Panel.

F. Panel's Jurisdiction And Authority

The Panel's jurisdiction and authority shall extend to all disputes between or among the Plans, their Controlled Affiliates, and/or BCBSA, except for those disputes excepted from these MMDR procedures as set forth in the License Agreements.

With the exception of punitive or treble damages, the Panel shall have full authority to award the relief it deems appropriate to resolve the parties' disputes, including monetary awards and injunctions, mandatory or prohibitory. The Panel has no authority to award punitive or treble damages except that the Panel may allocate or assess responsibility for punitive or treble damages assessed by another tribunal. Subject to the above limitations, the Panel may, by way of example, but not of limitation:

Amended as of September 20, 2007

i. interpret or construe the meaning of any terms, phrase or provision in any license between BCBSA and a Plan or a Controlled Affiliate relating to the use of the BLUE CROSS® or BLUE SHIELD® service marks.

ii. determine whether BCBSA, a Plan or a Controlled Affiliate has violated the terms or conditions of any license between the BCBSA and a Plan or a Controlled Affiliate relating to the use of the BLUE CROSS® or BLUE SHIELD® service marks.

iii. decide challenges as to its own jurisdiction.

iv. issue such orders for interim relief as it deems appropriate pending Hearing and Award in any Arbitration.

It is understood that the Panel is expected to resolve issues based on governing principles of law, preserving to the maximum extent legally possible the continued integrity of the Licensed Marks and the BLUE CROSS/BLUE SHIELD system. The Panel shall apply federal law to all issues which, if asserted in the United States District Court, would give rise to federal question jurisdiction, 28 U.S.C. § 1331. The Panel shall apply Illinois law to all issues involving interpretation, performance or construction of any License Agreement or Controlled Affiliate License Agreement unless the agreement otherwise provides. As to other issues, the Panel shall choose the applicable law based on conflicts of law principles of the State of Illinois.

G. Administrative Conference

Within five (5) days of the Panel being selected, the Presiding Arbitrator shall confer with the parties and the other members of the Panel and shall schedule, in writing, a conference in which the parties and the Panel shall participate (the "Administrative Conference"). The Administrative Conference shall take place no later than fifteen (15) days after the Panel is selected. At the Administrative Conference the parties and the Panel shall discuss the scheduling of the Arbitration Hearing and any other matter appropriate to be considered, including but not limited to: any written discovery in the form of requests for production of documents or requests to admit facts; the identity of any witness whose deposition a party may desire and a showing of exceptional good cause for the taking of any such deposition; the desirability of bifurcation or other separation of the issues; the need for and the type of record of conferences and hearings, including the need for transcripts; the need for expert witnesses and

how expert testimony should be presented; the appropriateness of motions to dismiss and/or for full or partial summary judgment; consideration of stipulations; the desirability of presenting any direct testimony in writing; and the necessity for any on-site inspection by the Panel. If the parties agree, the Administrative Conference may be by telephone.

H. Discovery

i. ***Requests for Production of Documents***: All requests for the production of documents must be served no later than five (5) days after the date of the Initial Conference. Within twenty (20) days after receipt of a request for production of documents, a party shall (a) serve responses and objections to the request, (b) produce all responsive, non-privileged documents to the requesting party, and (c) to the extent any responsive documents are withheld on the grounds of attorney-client privilege or work product, produce a log identifying such documents in the manner specified in Fed. R. Civ. P. 26(b)(5). If, after reviewing a privilege log, the requesting party believes attorney-client privilege or work product protection was improperly claimed by the producing party with respect to any document, the requesting party may ask the Presiding Arbitrator to conduct an in-camera inspection of the same. With respect to documentary and other discovery produced in any MDR proceeding by BCBSA, the fact that a party's CEO or other senior officers may serve on the BCBSA Board of Directors, BCBSA Board Committees or other BCBSA work groups, task forces and the like, shall not be a basis for defeating an otherwise valid claim of attorney-client privilege or work product protection over such documentary or other discovery materials by BCBSA.

ii. ***Requests for Admissions***: Requests for Admissions may be served up to twenty-one (21) days prior to the discovery cut-off set by the Presiding Arbitrator. A party served with Requests For Admissions must respond within twenty (20) days of receipt of said request. The good faith use of and response to Requests for Admissions is encouraged, and the Panel shall have full discretion, with reference to the Federal Rules of Civil Procedure, in awarding appropriate sanctions with respect to abuse of the procedure.

Amended as of September 20, 2007

---

iii. Depositions*:* As a general rule, the parties will not be permitted to take party or non-party deposition testimony for discovery purposes. The Presiding Arbitrator, in his or her sole discretion, shall have the authority to permit a party to take such deposition testimony upon a showing of exceptional good cause. The parties will be permitted to take de bene esse deposition[1] testimony to the fullest extent permitted by law of any witness who cannot be compelled to testify at the Arbitration Hearing. No deposition, for discovery purposes or otherwise, shall exceed three (3) hours, excluding objections and colloquy of counsel. Depositions may be recorded in any manner recognized by the Federal Rules of Civil Procedure and the parties shall specify in each notice of deposition or request for permission to take deposition testimony the manner in which such deposition shall be recorded.

iv. Expert witness(es): If a party intends to present the testimony of an expert witness during the oral hearing, it shall provide all other parties with a written statement setting forth the information required to be provided by Fed. R. Civ. P. 26(a)(2) (B) ten (10) days prior to the discovery cut-off set by the Presiding Arbitrator. If a party intends to present the testimony of a rebuttal expert witness during the Arbitration Hearing, it shall provide all other parties with a written statement setting forth the information required to be provided by Fed. R. Civ. P. 26(a)(2)(B) within twenty (20) days after the date on which the written statement of the expert witness whose testimony is to be rebutted was produced.

v. Discovery cut-off*:* The Presiding Arbitrator shall determine the date on which the discovery period will end, but the discovery period shall not exceed thirty (30) days from the date of the Administrative Conference without the agreement of all parties.

Amended as of September 20, 2007

---

[1]As used in these Rules, "de bene esse deposition" means a deposition that is not taken for discovery purposes, but is taken for the purpose of reading part or all of the deposition transcript into the record at the Arbitration Hearing, to the extent permitted by the Panel, because the witness cannot be compelled to testify at the Arbitration Hearing or has exercised a right provided under these Rules to provide deposition testimony in lieu of testimony at the Arbitration Hearing.

vi. Additional discovery: Any additional discovery will be at the discretion of the Presiding Arbitrator.

vii. Discovery Disputes*:* Any discovery disputes shall be raised by motion to the Presiding Arbitrator, who is authorized to resolve all such disputes, and whose resolution will be binding on the parties unless modified by the Arbitration Panel. Prior to raising any discovery dispute with the Presiding Arbitrator, the parties shall meet and confer, telephonically or in person, in an attempt to resolve or narrow the dispute. If a party refuses to comply with a decision resolving a discovery dispute, the Panel, in keeping with Fed. R. Civ. P. 37, may refuse to allow that party to support or oppose designated claims or defenses, prohibit that party from introducing designated matters into evidence or, in extreme cases, decide an issue submitted for resolution adversely to that party.

viii. ***Extensions****:* The time for responding to discovery requests may be extended by the Presiding Arbitrator for good and sufficient cause shown. Any request for such an extension shall be made in writing.

I. Panel Suggested Settlement/Mediation

At any point during the proceedings, the Panel at the request of any party or on its own initiative, may suggest that the parties explore settlement and that they do so at or before the conclusion of the Arbitration Hearing, and the Panel shall give such assistance in settlement negotiations as the parties may request and the Panel may deem appropriate. Alternatively, the Panel may direct the parties to endeavor to mediate their disputes as provided above, or to explore a mini-trial proceeding, or to have an independent party render a neutral evaluation of the parties' respective positions. The Panel shall enter such sanctions as it deems appropriate with respect to any party failing to pursue in good faith such Mediation or other alternate dispute resolution methods.

Amended as of September 20, 2007

J. Subpoenas on Third Parties

Pursuant to, and consistent with, the Federal Arbitration Act, 9 U.S.C. § 9 *et seq*., and subject to Paragraph 3.G(iii) above, a party may request the issuance of a subpoena on any third party, including but not limited to any third party Blue Plan or any officer, employee or director of a third party Blue Plan, to compel deposition testimony or the production of documents, and, if good and sufficient cause is shown, the Panel shall issue such a subpoena.

K. Arbitration Hearing

An Arbitration Hearing will be held within thirty (30) days after the Administrative Conference if no discovery is taken, or within thirty (30) days after the close of discovery, unless all parties and the Panel agree to extend the Arbitration Hearing date, or unless the parties agree in writing to waive the Arbitration Hearing. The parties may mutually agree on the location of the Arbitration Hearing. If the parties fail to agree, the Arbitration Hearing shall be held in Chicago, Illinois, or at such other location determined by the Presiding Arbitrator to be most convenient to the participants. The Panel will determine the date(s) and time(s) of the Arbitration Hearing(s) after consultation with all parties and shall provide reasonable notice thereof to all parties or their representatives.

L. Arbitration Hearing Memoranda

Twenty (20) days prior to the Arbitration Hearing, each party shall submit to the other party (or parties) and to the Panel an Arbitration Hearing Memorandum which sets forth the applicable law and any argument as to any relevant issue. The Arbitration Hearing Memorandum will supplement, and not repeat, the allegations, information and documents contained in or with the Complaint, Answer, Counterclaim and Reply, if any. Ten (10) days prior to the Arbitration Hearing, each party shall submit to each other party a list of all expert and fact witnesses (but not including rebuttal fact witness) that such party intends to have testify at the Arbitration Hearing and a brief summary of the testimony each such witness is expected to give. In addition, no later than five (5) days prior to the Arbitration, each party may submit to each other party and to the Panel a Response Arbitration Hearing Memorandum which sets forth any response to another party's Arbitration Hearing Memorandum.

Amended as of September 20, 2007

M. Notice For Testimony

Ten (10) days prior to the Arbitration Hearing, any party may serve a Notice on any other party (or parties) requesting the attendance at the Arbitration Hearing of any officer, employee or director of the other party (or parties) for the purpose of providing noncumulative testimony. If a party fails to produce one of its officers, employees or directors whose noncumulative testimony during the Arbitration Hearing is reasonably requested by an adverse party, the Panel may refuse to allow that party to support or oppose designated claims or defenses, prohibit that party from introducing designated matters into evidence or, in extreme cases, decide an issue submitted for mandatory dispute resolution adversely to that party; provided, however, that a party may refuse to produce a director to testify if, within two (2) days of receiving a notice requesting the attendance of such director at the Arbitration Hearing, the party agrees to make the director available for a de bene esse deposition at a mutually convenient time at any location within fifty (50) miles of the director's primary residence chosen by the party requesting the director's testimony. This Rule may not be used for the purpose of burdening or harassing any party, and the Presiding Arbitrator may impose such orders as are appropriate so as to prevent or remedy any such burden or harassment.

Pursuant to, and consistent with, the Federal Arbitration Act, 9 U.S.C. § 9 *et seq.*, twenty (20) days or more prior to the Arbitration Hearing, a party may request the issuance of a subpoena on any third party, including but not limited to any third party Blue Plan, BCBSA or any officer, employee or director of a third party Blue Plan or BCBSA for the purpose of providing noncummulative testimony at the Arbitration Hearing, and, if good and sufficient cause is shown, the Panel shall issue such a subpoena; provided however, that a director of a third party Blue Plan or BCBSA may refuse to testify if, within two (2) days of receiving a subpoena requesting the attendance of such director at the Arbitration Hearing, the director agrees to make him/herself available for a de bene esse deposition at a mutually convenient time at any location within fifty (50) miles of the director's primary residence chosen by the party requesting the director's testimony. Each Blue Plan agrees to waive, on its own behalf and on behalf of its directors and officers, any objection it otherwise might have to any such subpoena based on service, venue or extraterritoriality.

Amended as of September 20, 2007

EXHIBIT 5

Page 15 of 23

N. Arbitration Hearing Procedures

i. ***Attendance at Arbitration Hearing***: Any person having a direct interest in the proceeding is entitled to attend the Arbitration Hearing. The Presiding Arbitrator shall otherwise have the power to require the exclusion of any witness, other than a party or other essential person, during the testimony of any other witness. It shall be discretionary with the Presiding Arbitrator to determine the propriety of the attendance of any other person.

ii. ***Confidentiality***: The Panel and all parties shall maintain the privacy of the Arbitration Proceeding. The parties and the Panel shall treat the Arbitration Hearing and any discovery or other proceedings or events related thereto, including any award resulting therefrom, as confidential except as otherwise necessary in connection with a judicial challenge to or enforcement of an award or unless otherwise required by law.

iii. ***Stenographic Record***: Any party, or if the parties do not object, the Panel, may request that a stenographic or other record be made of any Arbitration Hearing or portion thereof. The costs of the recording and/or of preparing the transcript shall be borne by the requesting party and by any party who receives a copy thereof. If the Panel requests a recording and/or a transcript, the costs thereof shall be borne equally by the parties.

iv. ***Oaths***: The Panel may require witnesses to testify under oath or affirmation administered by any duly qualified person and, if requested by any party, shall do so.

v. ***Order of Arbitration Hearing***: An Arbitration Hearing shall be opened by the recording of the date, time, and place of the Arbitration Hearing, and the presence of the Panel, the parties, and their representatives, if any. The Panel may, at the beginning of the Arbitration Hearing, ask for statements clarifying the issues involved.

Amended as of September 20, 2007

EXHIBIT 5

Unless otherwise agreed, the complaining party (or parties) shall then present evidence to support their claim(s). The respondent(s) shall then present evidence supporting their defenses and Counterclaims, if any. The complaining party (or parties) shall then present evidence supporting defenses to the Counterclaims, if any, and rebuttal.

Witnesses for each party shall submit to questions by adverse parties and/or the Panel.

The Panel has the discretion to vary these procedures, but shall afford a full and equal opportunity to all parties for the presentation of any material and relevant evidence.

vi. ***Evidence***: The parties may offer such evidence as is relevant and material to the dispute and shall produce such evidence as the Panel may deem necessary to an understanding and resolution of the dispute. Unless good cause is shown, as determined by the Panel or agreed to by all other parties, no party shall be permitted to offer evidence at the Arbitration Hearing which was not disclosed prior to the Arbitration Hearing by that party. The Panel may receive and consider the

evidence of witnesses by affidavit upon such terms as the Panel deems appropriate.

The Panel shall be the judge of the relevance and materiality of the evidence offered, and conformity to legal rules of evidence, other than enforcement of the attorney-client privilege and the work product protection, shall not be necessary. The Federal Rules of Evidence shall be considered by the Panel in conducting the Arbitration Hearing but those rules shall not be controlling. All evidence shall be taken in the presence of the Panel and all of the parties, except where any party is in default or has waived the right to be present.

Settlement offers by any party in connection with Mediation or MDR proceedings, decisions or recommendations of the selected mediators, and a party's position papers or statements furnished to the selected mediators shall not be admissible evidence or considered by the Panel without the consent of all parties.

vii. ***Closing of Arbitration Hearing***: The Presiding Arbitrator shall specifically inquire of all parties whether they have any further proofs to offer or witnesses to be heard. Upon receiving negative replies or if he or she is satisfied that the record is complete, the Presiding Arbitrator shall declare the Arbitration Hearing closed with an appropriate notation made on the record. Subject to being reopened as provided below, the time within which the Panel is required to make the award shall commence to run, in the absence of contrary agreement by the parties, upon the closing of the Arbitration Hearing.

With respect to complex disputes, the Panel may, in its sole discretion, defer the closing of the Arbitration Hearing for a period of up to thirty (30) days after the presentation of proofs in order to permit the parties to submit post-hearing briefs and argument, as the Panel deems appropriate, prior to making an award.

For good cause, the Arbitration Hearing may be reopened for up to thirty (30) days on the Panel's initiative, or upon application of a party, at any time before the award is made

O. Awards

An Award must be in writing and shall be made promptly by the Panel and, unless otherwise agreed by the parties or specified by law, no later than thirty (30) days from the date of closing the Arbitration Hearing. If all parties so request, the Award shall contain findings of fact and conclusions of law. The Award, and all other rulings and determinations by the Panel, may be by a majority vote.

Parties shall accept as legal delivery of the Award the placing of the Award or a true copy thereof in the mail addressed to a party or its representative at its last known address or personal service of the Award on a party or its representative.

Awards are binding only on the parties to the Arbitration and are not binding on any non-parties to the Arbitration and may not be used or cited as precedent in any other proceeding.

Amended as of September 20, 2007

After the expiration of twenty (20) days from initial delivery, the Award (with corrections, if any) shall be final and binding on the parties, and the parties shall undertake to carry out the Award without delay.

Proceedings to confirm, modify or vacate an Award shall be conducted in conformity with and controlled by the Federal Arbitration Act. 9 U.S.C. § 1, *et seq*.

P. Return of Documents

Within sixty (60) days after the Award and the conclusion of any judicial proceedings with respect thereto, each party and the Panel shall return any documents produced by any other party, including all copies thereof. If a party receives a discovery request in any other proceeding which would require it to produce any documents produced to it by any other party in a proceeding hereunder, it shall not produce such documents without first notifying the producing party and giving said party reasonable time to respond, if appropriate, to the discovery request.

4. Miscellaneous

A. Expedited Procedures

Any party to a Mediation may direct a request for an expedited Mediation Hearing to the Chairman of the Mediation Committee, to the selected Mediators, and to all other parties at any time. The Chairman of the Mediation Committee, or at his or her direction, the then selected Mediators, shall grant any request which is supported by good and sufficient reasons. If such a request is granted, the Mediation shall be completed within as short a period as practicable, as determined by the Chairman of the Mediation Committee or, at his or her direction, the then selected Mediators.

Any party to an Arbitration may direct a request for expedited proceedings to the Administrator, to the Panel, and to all other parties at any time. The Administrator, or the Presiding Arbitrator if the Panel has been selected, shall grant any such request which is supported by good and sufficient reasons. If such a request is granted, the Arbitration shall be completed within as short a time as practicable, as determined by the Administrator and/or the Presiding Arbitrator.

Amended as of September 20, 2007

B. Temporary or Preliminary Injunctive Relief

Any party may seek temporary or preliminary injunctive relief with the filing of a Complaint or at any time thereafter. If such relief is sought prior to the time that an Arbitration Panel has been selected, then the Administrator shall select a single Arbitrator who is a lawyer who has no interest in the subject matter of the dispute, and no connection to any of the parties, to hear and determine the request for temporary or preliminary injunction. If such relief is sought after the time that an Arbitration Panel has been selected, then the Arbitration Panel will hear and determine the request. The request for temporary or preliminary injunctive relief will be determined with reference to the temporary or preliminary injunction standards set forth in Fed. R. Civ. P. 65.

C. Defaults and Proceedings in the Absence of a Party

Whenever a party fails to comply with the MDR Rules in a manner deemed material by the Panel, the Panel shall fix a reasonable time for compliance and, if the party does not comply within said period, the Panel may enter an Order of default or afford such other relief as it deems appropriate. Arbitration may proceed in the event of a default or in the absence of any party who, after due notice, fails to be present or fails to obtain an extension. An Award shall not be made solely on the default or absence of a party, but the Panel shall require the party who is present to submit such evidence as the Panel may require for the making of findings, determinations, conclusions, and Awards.

D. Notice

Each party shall be deemed to have consented that any papers, notices, or process necessary or proper for the initiation or continuation of a proceeding under these rules or for any court action in connection therewith may be served on a party by mail addressed to the party or its representative at its last known address or by personal service, in or outside the state where the MDR proceeding is to be held.

The Corporate Secretary and the parties may also use facsimile transmission, telex, telegram, or other written forms of electronic communication to give the notices required by these rules.

E. Expenses

The expenses of witnesses shall be paid by the party causing or requesting the appearance of such witnesses. All expenses of the MDR proceeding, including compensation, required travel and other reasonable expenses of the Panel, and the cost of any proof produced at the direct request of the Panel, shall be borne equally by the parties and shall be paid periodically on a timely basis, unless they agree otherwise or unless the Panel in the Award assesses such expenses, or any part thereof against any party (or parties). In exceptional cases, the Panel may award reasonable attorneys' fees as an item of expense, and the Panel shall promptly determine the amount of such fees based on affidavits or such other proofs as the Panel deems sufficient.

F. Disqualification or Disability of A Panel Member

In the event that any Arbitrator of a Panel with more than one Arbitrator should become disqualified, resign, die, or refuse or be unable to perform or discharge his or her duties after the commencement of MDR but prior to the rendition of an Award, and the parties are unable to agree upon a replacement, the remaining Panel member(s):

i. shall designate a replacement, subject to the right of any party to challenge such replacement for cause.

ii. shall decide the extent to which previously held hearings shall be repeated.

If the remaining Panel members consider the proceedings to have progressed to a stage as to make replacement impracticable, the parties may agree, as an alternative to the recommencement of the Mandatory Dispute Resolution process, to resolution of the dispute by the remaining Panel members.

In the event that a single Arbitrator should become disqualified, resign, die, or refuse or be unable to perform or discharge his or her duties after the commencement of MDR but prior to the rendition of an Award, and the parties are unable to agree upon a replacement, the Administrator shall appoint a successor, subject to the right of any party to challenge such successor for cause, and the successor shall decide the extent to which previously held proceedings shall be repeated.

G. Extensions of Time

Subject to the provisions of Paragraph 3.H.(viii.), any time limit set forth in these Rules may be extended upon agreement of the parties and approval of: (1) the Mediator if the proceeding is then in Mediation; (2) the Administrator if the proceeding is in Arbitration, but no Arbitration Panel has been selected; or (3) the Arbitration Panel, if the proceeding is in Arbitration and the Arbitration Panel has been selected.

H. Intervention

The Plans, their Controlled Affiliates, and BCBSA, to the extent subject to MMDR pursuant to their License Agreements, shall have the right to move to intervene in any pending Arbitration. A written motion for intervention shall be made to: (1) the Administrator, if the proceeding is in Arbitration, but no Arbitration Panel has been selected; or (2) the Arbitration Panel, if the proceeding is in Arbitration and the Arbitration Panel has been selected. The written motion for intervention shall be delivered to the BCBSA Corporate Secretary (which shall also constitute service on the BCBSA if it is a respondent) and to any Plan(s) and/or Controlled Affiliate(s) which are parties to the proceeding. Any party to the proceeding can submit written objections to the motion to intervene. The motion for intervention shall be granted upon good cause shown. Intervention also may be allowed by stipulation of the parties to the Arbitration proceeding. Intervention shall be allowed upon such terms as the Arbitration Panel decides.

I. BCBSA Assistance in Resolution of Disputes

The resources and personnel of the BCBSA may be requested by any member Plan at any time to try to resolve disputes with another Plan.

J. Neutral Evaluation

The parties can voluntarily agree at any time to have an independent party render a neutral evaluation of the parties' respective positions.

Amended as of September 20, 2007

EXHIBIT 5

Page 22 of 23

K. Recovery of Attorney Fees and Expenses

i. Motions to Compel

Nothwithstanding any other provisions of these Rules, any Party subject to the License Agreements (for purposes of this Section K and all of its subsections only hereinafter referred to collectively and individually as a "Party") that initiates a court action or administrative proceeding solely to compel adherence to these Rules shall not be determined to have violated these Rules by initiating such action or proceeding.

ii Recovery of Fees, Expenses and Costs

The Arbitration Panel may, in its sole discretion, award a Party its reasonable attorneys' fees, expenses and costs associated with a filing to compel adherence to these Rules and/or reasonable attorneys' fees, expenses and costs incurred in responding to an action filed in violation of these Rules; provided, however, that neither fees, expenses, nor costs shall be awarded by the Arbitration Panel if the Party from which the award is sought can demonstrate to the Arbitration panel, in its sole discretion, that it did not violate these Rules or that it had reasonable grounds for believing that its action did not violate these Rules.

iii Requests for Reimbursement

For purposes of this Section K, any Party may request reimbursement of fees, expenses and/or costs by submitting said request in writing to the Arbitration Panel at any time before an award is delivered pursuant Paragraph to 3.O above with a copy to the Party from which reimbursement is sought, explaining why it is entitled to such reimbursement. The Party from which reimbursement is sought shall have twenty (20) days to submit a response to such request to the Arbitration Panel with a copy to the Party seeking reimbursement.

Amended as of September 20, 2007

L. Calculation of Time and Deadlines

In computing any period of time prescribed or allowed under these rules, the day of the act or event from which the designated period of time begins to run shall not be included. The last day of the period so computed shall be included, unless it is a Saturday, a Sunday, or a legal holiday, in which event the period runs until the end of the next day which is not one of the aforementioned days. When the period of time prescribed is less than six (6) days, intermediate Saturdays, Sundays and legal holidays shall be excluded in the computation. As used in this rule, "legal holiday" includes New Year's Day, Martin Luther King, Jr. Day, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans Day, Thanksgiving Day, Christmas Day and any other day appointed as a holiday by the President or the Congress of the United States.

Amended as of September 20, 2007

Exhibit 10.11

BLUE SHIELD LICENSE AGREEMENT
(Includes revisions, if any, adopted by Member Plans through their November 18, 2016 meeting)

This agreement by and between Blue Cross and Blue Shield Association ("BCBSA") and The Blue Shield Plan, known as_____ (the "Plan").

Preamble

WHEREAS, the Plan and/or its predecessor(s) in interest (collectively the "Plan") had the right to use the BLUE SHIELD and BLUE SHIELD Design service marks (collectively the "Licensed Marks") for health care plans in its service area, which was essentially local in nature;

WHEREAS, the Plan was desirous of assuring nationwide protection of the Licensed Marks, maintaining uniform quality controls among Plans, facilitating the provision of cost effective health care services to the public and otherwise benefiting the public;

WHEREAS, to better attain such ends, the Plan and the predecessor of BCBSA e1ecuted the Agreement(s) Relating to the Collective Service Mark "Blue Shield"; and

WHEREAS, BCBSA and the Plan desire to supercede said Agreement(s) to reflect their current practices and to assure the continued integrity of the Licensed Marks and of the BLUE SHIELD system;

9 7 W, THERE27 RE, in consideration of the foregoing and the mutual agreements hereinafter set forth and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties agree as followsx

Agreement

N BCBSA hereby grants to the Plan, upon the terms and conditions of this License Agreement (FAgreement: or FPrimary License Agreement: , the right to use BLUE SHOELD in its trade and/or corporate name (the "Licensed 9 ame"), and the right to use the Licensed Marks, in the sale, marketing and administration of health care plans and related services in the Service Area set forth and defined in paragraph " below. As used herein, health care plans and related services shall include acting as a nonprofit health care plan, a for"profit health care plan, or mutual health insurer operating on a not"for"profit or for"profit basis, under state law; financing access to health care services; when working with a bank that holds the relevant license to use the Licensed 9 ame and Marks, offeringx(i) ta1"favored savings accounts for medical e1penses and means for accessing such accounts, such as debit cards or checks, that are provided solely to support access to such ta1"favored savings accounts, all pursuant to such license, or (ii) prepaid rewards cards that are provided for completion of a wellness program, all pursuant to such license; providing health care management and administration; administering, but not underwriting, non"health portions of Worker5s Compensation insurance; delivering health care services, e1cept hospital services (as defined in the - uidelines to Membership Standards Applicable to Regular Members); and performing the Eligibility and Enrollment functions of HR administration for all benefit plans offered by a group account to its members, including benefit plans not provided by the Plan, provided that the Plan has contracted to provide Health Coverage under the Licensed Marks to the account (as the terms FHealth Coverage,: FEligibility: and FEnrollment: are defined in E1hibit ' , Paragraph Gt.).

G The Plan may use the Licensed Marks and 9 ame in connection with the offering ofxi) health care plans and related services in the Service Area through Controlled Affiliates, provided that each such Controlled Affiliate is separately licensed to use the Licensed Marks and 9 ame under the terms and conditions contained in the Agreement attached as E1hibit Nhereto (the "Controlled Affiliate License Agreement"); and ii) insurance coverages offered by life insurers under the applicable law in the Service Area, other than those which the Plan may offer in its own name, provided through Controlled Affiliates, provided that each such Controlled Affiliate is separately licensed to use the Licensed Marks and 9 ame under the terms and conditions contained in the Agreement attached as E1hibit NA hereto (the "Controlled Affiliate License Agreement Applicable to Life 0nsurance Companies") or the Agreement attached as E1hibit NANhereto (the FControlled Affiliate Trademark License Agreement for Life and Disability 0nsurance Products:) and further provided that the offering of such services does not and will not dilute or tarnish the unique value of the Licensed Marks and 9 ame; and iii) administration and underwriting of Workers5Compensation 0nsurance Controlled Affiliates, provided that each such Controlled Affiliate is separately licensed to use the Licensed Marks and 9 ame under the terms and conditions contained in the Agreement attached as E1hibit Nhereto (the FControlled Affiliate License.:); and iv) regional Medicare Advantage PP7 Products in cooperation with one or more other Plans through 4ointly"held Controlled Affiliates, provided that each such Controlled Affiliate is separately licensed to use the Licensed Marks and 9 ame under the terms and conditions contained in the Agreement attached as E1hibit NB hereto (the FControlled Affiliate License Agreement Applicable to Regional Medicare Advantage PP7 Products:); and v) regional Medicare Part D Prescription Drug Plan products in cooperation with one or more other Plans through 4ointly"held Controlled Affiliates, provided that each such Controlled Affiliate is separately licensed to use the Licensed Marks and 9 ame under the terms and conditions contained in the Agreement attached as E1hibit NC hereto (the FControlled Affiliate License Agreement Applicable to Regional Medicare Part D Prescription Drug Plan Products:). As used herein, a Controlled Affiliate is defined as an entity organiIed and operated in such a manner that it is sub4ect to the bona fide control of a Plan or Plans and, if the entity meets the standards of Paragraph Ga.B but not Paragraph Ga.A, the entity, its owners, and persons authority to select or appoint members or board members, other than a Plan or Plans, have received written approval of BCBSA. Absent written approval by BCBSA of an alternative method of control, bona fide control shall have the meaning set forth in

Paragraphs Ga. and Gb.

Ga. With respect to the Controlled Affiliate Licenses authoriIed in clauses

i)through iii) of Paragraph G; bona fide control shall mean that a Plan (the FSponsoring Plan:) authoriIed to use the Licensed Marks in the Service Area of the Controlled Affiliate pursuant to this Primary License Agreement with BCBSA must havex

A. The legal authority, directly or indirectly through wholly"owned subsidiariesx(a) to select members of the Controlled Affiliatejs governing body having more than "z' voting control thereof; (b) to e1ercise control over the policy and operations of the Controlled Affiliate; (c) to prevent any change in the articles of incorporation, bylaws or other establishing or governing documents of the Controlled Affiliate with which the Sponsoring Plan do not concur. Gn addition, the Sponsoring Plan directly or indirectly through wholly"owned subsidiaries shall own more than "z' of any for"profit Controlled Affiliate, provided that in instances where the Sponsoring Plan formed a publicly traded Controlled Affiliate Licensee and such publicly traded Controlled Affiliate Licensee owns and controls other Controlled Affiliate Licensees, the Sponsoring Plan directly or indirectly shall own and control more than "z' of any Controlled Affiliate that is indirectly owned and controlled by the publicly traded Controlled Affiliate Licensee; or

B. The legal authority directly or indirectly through wholly"owned subsidiaries (a) to select members of the Controlled Affiliatejs governing body having not less than "z' voting control thereof; (b) to prevent any change in the articles of incorporation, bylaws or other establishing or governing documents of the Controlled Affiliate with which the Sponsoring Plan do not concur; (c) to e1ercise control over the policy and operations of the Controlled Affiliate at least equal to that e1ercised by persons or entities (4bintly or individually) other than the Sponsoring Plan. 9 otwithstanding anything to the contrary in (a) through (c) hereof, the Controlled Affiliate5s establishing or governing documents must also require written approval by the Sponsoring Plan before the Controlled Affiliate canx

N Change its legal and/or trade name;

G Change the geographic area in which it operates;

0. Change any of the types of businesses in which it engages;

'. Create, or become liable for by way of guarantee, any indebtedness, other than indebtedness arising in the ordinary course of business;

". Sell any assets, e1cept for sales in the ordinary course of business or sales of equipment no longer useful or being replaced;

% Make any loans or advances e1cept in the ordinary course of business;

Amended as of March 26, 2015

3. Enter into any arrangement or agreement with any party directly or indirectly affiliated with any of the owners of the Controlled Affiliate or persons or entities with the authority to select or appoint members or board members of the Controlled Affiliate, other than the Sponsoring Plan or other Plans (e1cluding owners of stock holdings of under "' in a publicly traded Controlled Affiliate);

6. Conduct any business other than under the Licensed Marks and 9 ame;

8. Take any action that the Sponsoring Plan or BCBSA reasonably believes will adversely affect the Licensed Marks or 9 ames.

0n addition, the Sponsoring Plan directly or indirectly through wholly owned subsidiaries shall own at least "z' of any for" profit Controlled Affiliate, provided that in instances where the Sponsoring Plan formed a publicly traded Controlled Affiliate Licensee and such publicly traded Controlled Affiliate Licensee owns and controls other Controlled Affiliate Licensees, the Sponsoring Plan directly or indirectly shall own and control at least "z' of any Controlled Affiliate that is indirectly owned and controlled by the publicly traded Controlled Affiliate Licensee; or

C. With respect to a Controlled Affiliate that is Nzz' controlled by Plans including the Sponsoring Plan and which offers solely Medicaid products and services, the legal authority together with such other Plans (a) to select all members of the Controlled Affiliate5s governing body; (b) to prevent any change in the articles of incorporation, bylaws, or other establishing or governing documents of the Controlled Affiliate; (c) to e1ercise control over the policy and operations of the Controlled Affiliate. 0n addition, the Sponsoring Plan and such other Plans shall own Nzz' of any for"profit Controlled Affiliate, with the Sponsoring Plan and such other Plans each having an ownership interest. Such Nzz' control and ownership by Plans shall be direct or, if indirect, solely through affiliates that are licensed to use marks owned by BCBSA. 2urther, the Sponsoring Plan and such other Plans shall e1ecute the FAddendum to Controlled Affiliate License: attached as E1hibit B"Nto E1hibit N attached hereto; or

D. With respect to a Controlled Affiliate that is Nzz' controlled by a Sponsoring Plan which on a Blue"branded basis, offers solely a Basic Medicare Part D Prescription Drug product, the legal authority (a) to select all members of the Controlled Affiliate5s governing body; (b) to prevent any change in the articles of incorporation, bylaws or other establishing or governing documents of the Controlled Affiliate; (c) to e1ercise control over the policy and operations of the Controlled Affiliate. 0n addition, the Sponsoring Plan shall own Nzz' of

Amended as of March 17, 2016

any for’profit Controlled Affiliate. Such Nzz' control and ownership by the Plan shall be direct or, if indirect, solely through affiliates that are licensed to use marks owned by BCBSA. 2urther, the Sponsoring Plan and Participating Plan as defined on the Controlled Affiliate License Agreement shall e1ecute the FAddendum to Controlled Affiliate License: attached as E1hibit B”Gto E1hibit Nattached hereto.

Gb. With respect to the Controlled Affiliate License Agreements authoriIed in clauses iv) and v) of Paragraph G; bona fide control shall mean that the Controlled Affiliate is organiIed and operated in such a manner that it meets the following requirementsx

A. The Controlled Affiliate is owned or controlled by two or more Plans authoriIed to use the Licensed Marks pursuant to this License

Amended as of March 26, 2015

Agreement with BCBSA (for purposes of this subparagraph A. through subparagraph C., the FControlling Plans:); and

B. Each Controlling Plan is authoriIed pursuant to this Agreement to use the Licensed Marks in a geographic area in the Region (as that term is defined in such Controlled Affiliate License Agreements) and every geographic area in the Region is so licensed to at least one of the Controlling Plans; and

C. The Controlling Plans must have the legal authority directly or indirectly through wholly"owned subsidiaries (a) to select members of the Controlled Affiliate5s governing body having not less than Nzz' voting control thereof; (b) to prevent any change in the articles of incorporation, bylaws or other establishing or governing documents of the Controlled Affiliate with which the Controlling Plans do not concur; and (c) to e1ercise control over the policy and operations of the Controlled Affiliate. 9 otwithstanding anything to the contrary in (a) through (c) of this subparagraph E., the Controlled Affiliate5s establishing or governing documents must also require written approval by each of the Controlling Plans before the Controlled Affiliate canx

N Change its legal and/or trade names;

G Change the geographic area in which it operates (e1cept such approval shall not be required with respect to business of the Controlled Affiliate conducted under the Licensed Marks within the Service Area of one of the Controlling Plans pursuant to a separate controlled affiliate license agreement with BCBSA sponsored by such Controlling Plan);

Amended as of March 26, 2015

---

0. Change any of the type(s) of businesses in which it engages (e1cept such approval shall not be required with respect to business of the Controlled Affiliate conducted under the Licensed Marks within the Service Area of one of the Controlling Plans pursuant to a separate controlled affiliate license agreement with BCBSA sponsored by such Controlling Plan);

’ . Take any action that any Controlling Plan or BCBSA reasonably believes will adversely affect the Licensed Marks and 9 ame.

0n addition, the Controlling Plans directly or indirectly through wholly” owned subsidiaries shall own Nzz' of any for”profit Controlled Affiliate.

---

0. With respect to a Controlled Affiliate that is not licensed to use the Licensed Marks and 9 ame, the Plan may, in communications that contain the Licensed Marks or 9 ame, indicate its corporate relationship to the Affiliate and permit such Affiliate to indicate its corporate relationship to the Plan, solely in the circumstances, style and manner specified by BCBSA from time'to'time in regulations of general application consistent with the avoidance of confusion or mistake or the dilution or tarnishment of the Licensed Marks and 9 ame. 9 o rights are hereby created in any Controlled Affiliate to use the Licensed Marks or 9 ame in its own name or otherwise.

'. The Plan recogniIes the importance of a comprehensive national network of independent BCBSA licensees which are committed to strengthening the Licensed Marks and 9 ame. The Plan further recogniIes that its actions within its Service Area may affect the value of the Licensed Marks and 9 ame nationwide. The Plan agrees (a) to maintain in good standing its membership in BCBSA; (b) promptly to pay its dues to BCBSA, said dues to represent the royalties for this License Agreement; (c) materially to comply with all applicable laws; (d) to comply with the Membership Standards Applicable to Regular Members of BCBSA, a current copy of which is attached as E1hibit Ghereto; and (e) reasonably to permit BCBSA, upon a written, good faith request and during reasonable business hours, to inspect the Planjs books and records necessary to ascertain compliance herewith. As to other Plans and third parties, BCBSA shall maintain the confidentiality of all documents and information furnished by the Plan pursuant hereto, or pursuant to the Membership Standards, and clearly designated by the Plan as containing proprietary information of the Plan.

". The rights hereby granted are e1clusive to the Plan within the geographical area(s) served by the Plan on June 0z, N83G and/or as to which the Plan has been granted a subsequent license, which is hereby defined as the "Service Area," e1cept that BCBSA reserves the right to use the Licensed Marks in said Service Area, and e1cept to the e1tent that said Service Area may overlap areas served by one or more other licensed Blue Shield Plans as of said date or subsequent license, as to which overlapping areas the rights hereby granted are none1clusive as to such other Plan or Plans only.

Amended as of June 19, 2014

% E1cept as e1pressly provided by BCBSA with respect to 9 ational Accounts, - overnment Programs and certain other necessary and collateral uses, the current rules and regulations governing which are attached as E1hibit 0 and E1hibit ' hereto, and are contained in other documents referenced herein, or as e1pressly provided herein, the Plan may not use the Licensed Marks and 9 ame outside the Service Area or in connection with other goods and services, nor may the Plan use the Licensed Marks or 9 ame in a manner which is intended to transfer in the Service Area the goodwill associated therewith to another mark or name. 9 othing herein shall be construed to prevent the Plan from engaging in lawful activity anywhere under other marks and names not confusingly similar to the Licensed Marks and 9 ame, provided that engaging in such activity does and will not dilute or tarnish the unique value of the Licensed Marks and 9 ame. 0n addition to any and all remedies available hereunder, BCBSA may impose monetary fines on the Plan for the Plan5s use of the Licensed Marks and 9 ames outside the Service Area, and provided that the procedure used in imposing a fine is consistent with procedures specifically prescribed by BCBSA from time to time in regulations of general application. 0n the case of regional Medicare Advantage PP7 and regional Medicare Part D Prescription Drug Plan products offered by consenting and participating Plans in a region that includes the Service Areas, or portions thereof, of more than one Plan, such fine may be imposed 4bintly on the consenting and participating Plans for use of the Licensed Marks and 9 ame in any geographic area of the region in which a Plan having e1clusive rights to the Licensed Marks and 9 ame does not consent to and participate in such offering, provided that the basis for imposition of such fine is consistent with rules specifically prescribed by BCBSA from time to time in regulations of general application.

3. The Plan agrees that it will display the Licensed Marks and 9 ame only in such form, style and manner as shall be specifically prescribed by BCBSA from time"to"time in regulations of general application in order to prevent impairment of the distinctiveness of the Licensed Marks and 9 ame and the goodwill pertaining thereto. The Plan shall cause to appear on all materials on or in connection with which the Licensed Marks or 9 ame are used such legends, markings and notices as BCBSA may reasonably request in order to give appropriate notice of service mark or other proprietary rights therein or pertaining thereto.

6. BCBSA agrees thatx(a) it will not grant any other license effective during the term of this License Agreement for the use of the Licensed Marks or 9 ame which is inconsistent with the rights granted to the Plan hereunder; and (b) it will not itself use the Licensed Marks in derogation of the rights of the Plan or in a manner to deprive the Plan of the full benefits of this License Agreement, provided that BCBSA shall have the right to use the Licensed Marks in con4unction with any national offering under the 2ederal Employees Health Benefits Program in the manner set forth in E1hibit ', Paragraph ' (including subparagraphs) to this License Agreement. The Plan agrees that it will not attack the title of BCBSA in and to the Licensed Marks or 9 ame or attack the validity of the Licensed Marks or of this License Agreement. The Plan further agrees that all use by it of the Licensed Marks and 9 ame or any similar mark or name shall inure to the benefit of BCBSA, and the Plan shall cooperate with BCBSA in effectuating the assignment to BCBSA of any service mark or trademark registrations of the Licensed Marks or any similar mark or name held by the Plan or a Controlled Affiliate of the Plan, all or any portion of which registration consists of the Licensed Marks.

Amended as of November 16, 2006

8. (a). Should the Plan fail to comply with the provisions of paragraphs G" , % 3 and/or NG; and not cure such failure within thirty (0z) days of receiving written notice thereof (or commence curing such failure within such thirty day period and continue diligent efforts to complete the curing of such failure if such curing cannot reasonably be completed within such thirty day period), BCBSA shall have the right to issue a notice that the Plan is in a state of noncompliance. E1cept as to the termination of a Planjs License Agreement or the merger of two or more Plans, disputes as to noncompliance, and all other disputes between or among BCBSA, the Plan, other Plans and/or Controlled Affiliates, shall be submitted promptly to mediation and mandatory dispute resolution pursuant to the rules and regulations of BCBSA, a current copy of which is attached as E1hibit " hereto, and shall be timely presented and resolved. The mandatory dispute resolution panel shall have authority to issue orders for specific performance and assess monetary penalties. G" a state of noncompliance as aforesaid is undisputed by the Plan or is found to e1ist by a mandatory dispute resolution panel and is uncured as provided above, BCBSA shall have the right to seek 4udicial enforcement of the License Agreement. E1cept, however, as provided in paragraphs 8(d)(iii), N"(a)(i)"(viii), and N"(a)(1) below, no Planjs license to use the Licensed Marks and 9 ame may be finally terminated for any reason without the affirmative vote of three" fourths of the Plans and three"fourths of the total then current weighted vote of all the Plans.

(b). 9 otwithstanding any other provision of this License Agreement, a Planjs license to use the Licensed Marks and 9 ame may be forthwith terminated by the affirmative vote of three"fourths of the Plans and three"fourths of the total then current weighted vote of all the Plans at a special meeting e1pressly called by BCBSA for the purpose on ten (Nz) days written notice to the Plan advising of the specific matters at issue and granting the Plan an opportunity to be heard and to present its response to Member Plans forx(i) failure to comply with any minimum capital or liquidity requirement under the Membership Standard on 2inancial Responsibility; or (ii) impending financial insolvency; or (iii) the pendency of any action instituted against the Plan seeking its dissolution or liquidation or its assets or seeking appointment of a trustee, interim trustee, receiver or other custodian for any of its property or business or seeking the declaration or establishment of a trust for any of its property of business, unless this License Agreement has been earlier terminated under paragraph N"(a); or (iv) such other reason as is determined in good faith immediately and irreparably to threaten the integrity and reputation of BCBSA, the Plans and/or the Licensed Marks.

Amended as of March 16, 2006

(c). To the e1tent not otherwise provided therein, neitherx(i) the Membership Standards Applicable to Regular Members of BCBSA; nor (ii) the rules and regulations governing - overnment Programs and certain other uses; nor (iii) the rules and regulations governing mediation and mandatory dispute resolution, may be amended unless and until each such amendment is first adopted by the affirmative vote of three"fourths of the Plans and of three"fourths of the total then current weighted vote of all the Plans. The rules and regulations governing 9 ational Accounts and other national programs required by the Membership Standards Applicable to Regular Members of BCBSA (E1hibit G) are contained, in addition to those set forth in E1hibit 0, in the following documents, as amended from time to timex(N) the 0ter"Plan Programs Policies and Provisions; (G) 0ter"Plan Medicare Advantage Program Policies and Provisions. The voting requirements specified in rules and regulations governing such national programs may not be amended unless and until each such amendment is first adopted by the affirmative vote of three"fourths of the Plans and of three"fourths of the total then current weighted vote of all the Plans.

(d). The Plan may operate as a for"profit company on the following conditionsx

(i) The Plan shall discharge all responsibilities which it has to the Association and to other Plans by virtue of this Agreement and the Planjs membership in BCBSA.

(ii) The Plan shall not use the licensed Marks and 9 ame, or any derivative thereof, as part of its legal name or any symbol used to identify the Plan in any securities market. The Plan shall use the Licensed Marks and 9 ame as part of its trade name within its service area for the sale, marketing and administration of health care and related services in the service area.

(iii) The Planjs license to use the Licensed Marks and 9 ame shall automatically terminate effectivex(a) thirty days after the Plan knows, or there is an SEC filing indicating that, any 0nstitutional 0nvestor, has become the Beneficial 7 wner of securities representing Nz' or more of the voting power of the Plan (FE1cess 0nstitutional Voter:), unless such E1cess 0nstitutional Voter shall cease to be an E1cess 0nstitutional Voter prior to such automatic termination becoming effective; (b) thirty days after the Plan knows, or there is an SEC filing indicating that, any 9 oninstitutional 0nvestor has become the Beneficial 7 wner of securities representing "' or more of the voting power of the Plan (FE1cess 9 oninstitutional Voter:) unless such E1cess 9 oninstitutional Voter shall cease to be an E1cess 9 oninstitutional Voter prior to such automatic termination becoming effective; (c) thirty days after the Plan knows, or there is an SEC filing indicating that, any Person has become the Beneficial 7 wner of Gz' or more of the Plan5s then outstanding common stock or other equity securities which (either by themselves or in combination) represent an ownership interest of Gz' or more pursuant to determinations made under paragraph 8(d)(iv) below (FE1cess 7 wner:), unless such E1cess 7 wner shall cease to be an E1cess 7 wner prior to such automatic termination becoming effective; (d) ten business days after individuals who at the time the Plan went public constituted the Board of Directors of the Plan (together with any new directors whose election to the Board was approved by a vote of G/0 of the directors then still in office who were directors at the time the Plan went public or whose election or nomination was previously so approved) (the "Continuing Directors") cease for any reason to constitute a ma4ority of the Board of Directors; or (e) ten business days after the Plan consolidates with or merges with or into any person or conveys, assigns, transfers or sells all or substantially all of its assets to any person other than a merger in which the Plan is the surviving entity and immediately after which merger, no person is an E1cess 0nstitutional Voter, an E1cess 9 oninstitutional Voter or an E1cess 7 wnerxprovided that, if requested by the affected Plan in a writing received by BCBSA prior to such automatic termination

Amended as of September 17, 1997

---

becoming effective, the provisions of this paragraph 8(d)(iii) may be waived, in whole or in part, upon the affirmative vote of a ma4ority of the disinterested Plans and a ma4ority of the total then current weighted vote of the disinterested Plans. Any waiver so granted may be conditioned upon such additional requirements (including but not limited to imposing new and independent grounds for termination of this License) as shall be approved by the affirmative vote of a ma4ority of the disinterested Plans and a ma4ority of the total then current weighted vote of the disinterested Plans. If a timely waiver request is received, no automatic termination shall become effective until the later of(N) the conclusion of the applicable time period specified in paragraphs 8(d)(iii)(a)"(d) above, or (G) the conclusion of the first Member Plan meeting after receipt of such a waiver request.

In the event that the Planjs license to use the Licensed Marks and 9 ame is terminated pursuant to this Paragraph 8(d)(iii), the license may be reinstated in BCBSA5s sole discretion if, within 0z days of the date of such termination, the Plan demonstrates that the Person referred to in clause (a), (b) or (c) of the preceding paragraph is no longer an E1cess 0nstitutional Voter, an E1cess 9 oninstitutional Voter or an E1cess 7 wner.

(iv) The Plan shall not issue any class or series of security other than (i) shares of common stock having identical terms or options or derivatives of such common stock, (ii) non"voting, non"convertible debt securities or (iii) such other securities as the Plan may approve, provided that BCBSA receives notice at least thirty days prior to the issuance of such securities, including a description of the terms for such securities, and BCBSA shall have the authority to determine how such other securities will be counted in determining whether any Person is an E1cess 0nstitutional Voter, E1cess 9 oninstitutional Voter or an E1cess 7 wner.

(v) 2or purposes of paragraph 8(d)(iii), the following definitions shall applyx

(a) "Affiliate" and "Associate" shall have the respective meanings ascribed to such terms in Rule NGb"Gof the - eneral Rules and Regulations under the Securities E1change Act of N80', as amended and in effect on 9 ovember N3, N880 (the "E1change Act").

(b) A Person shall be deemed the "Beneficial 7 wner" of and shall be deemed to "beneficially own" any securitiesx

Amended as of September 17, 1997

(i) which such Person or any of such

Personjs Affiliates or Associates beneficially owns, directly or indirectly;

(ii) which such Person or any of such Personjs Affiliates or Associates has (A) the right to acquire (whether such right is e1ercisable immediately or only after the passage of time) pursuant to any agreement, arrangement or understanding, or upon the e1ercise of conversion rights, e1change rights, warrants or options, or otherwise; or (B) the right to vote pursuant to any agreement, arrangement or understanding; provided, however, that a Person shall not be deemed the Beneficial 7 wner of, or to beneficially own, any security if the agreement, arrangement or understanding to vote such security (N) arises solely from a revocable pro1y or consent given to such Person in response to a public pro1y or consent solicitation made pursuant to, and in accordance with, the applicable rules and regulations promulgated under the E1change Act and (G) is not also then reportable on Schedule N0D under the E1change Act (or any comparable or successor report); or

(iii) which are beneficially owned, directly or indirectly, by any other Person (or any Affiliate or Associate thereof) with which such Person (or any of such Personjs Affiliates or Associates) has any agreement, arrangement or understanding (other than customary agreements with and between underwriters and selling group members with respect to a bona fide public offering of securities) relating to the acquisition, holding, voting (e1cept to the e1tent contemplated by the proviso to (b)(ii)(B) above) or disposing of any securities of the Plan.

9 otwithstanding anything in this definition of Beneficial 7 wnership to the contrary, the phrase "then outstanding," when used with reference to a Personjs Beneficial 7 wnership of securities of the Plan, shall mean the number of such securities then issued and outstanding together with the number of such securities not then actually issued and outstanding which such Person would be deemed to own beneficially hereunder.

(c) A Person shall be deemed an F0nstitutional 0nvestor: if (but only if) such Person (i) is an entity or group identified in the SEC5s Rule N0d'N(b)(N)(ii) as constituted on June N, N883, and (ii) every filing made by such Person with the SEC under Regulation N0D'- (or any successor Regulation) with respect to such Person5s Beneficial 7 wnership of Plan securities shall have contained a certification identical to the one required by item Nz of SEC Schedule N0- as constituted on June N, N883.

(d) F9 oninstitutional 0nvestor: means any Person who is not an 0nstitutional 0nvestor.

(e) Person" shall mean any individual, firm, partnership, corporation, trust, association, 4oint venture or other entity, and shall include any successor (by merger or otherwise) of such entity.

Amended as of September 17, 1997

Nz. This License Agreement shall remain in effectx(a) until terminated as provided herein; or (b) until this and all such other License Agreements are terminated by the affirmative vote of three"fourths of the Plans and three"fourths of the total then current weighted vote of all the Plans; (c) until terminated by the Plan upon eighteen (N6) months written notice to BCBSA or upon a shorter notice period approved by BCBSA in writing at its sole discretion.

NN E1cept as otherwise provided in paragraph N' below or by the affirmative vote of three"fourths of the Plans and three"fourths of the total then current weighted vote of all the Plans, or unless this and all such other License Agreements are simultaneously terminated by force of law, the termination of this License Agreement for any reason whatsoever shall cause the reversion to BCBSA of all rights in and to the Licensed Marks and 9 ame, and the Plan agrees that it will promptly discontinue all use of the Licensed Marks and 9 ame, will not use them thereafter, and will promptly, upon written notice from BCBSA, change its corporate name so as to eliminate the Licensed 9 ame therefrom.

NG The license hereby granted to Plan to use the Licensed Marks and 9 ame is and shall be personal to the Plan so licensed and shall not be assignable by any act of the Plan, directly or indirectly, without the written consent of BCBSA. Said license shall not be assignable by operation of law, nor shall Plan mortgage or part with possession or control of this license or any right hereunder, and the Plan shall have no right to grant any sublicense to use the Licensed Marks and 9 ame.

N0. BCBSA shall maintain appropriate service mark registrations of the Licensed Marks and BCBSA shall take such lawful steps and proceedings as may be necessary or proper to prevent use of the Licensed Marks by any person who is not authoriIed to use the same. Any actions or proceedings undertaken by BCBSA under the provisions of this paragraph shall be at BCBSAjs sole cost and e1pense. BCBSA shall have the sole right to determine whether or not any legal action shall be taken on account of unauthoriIed use of the Licensed Marks, such right not to be unreasonably e1ercised. The Plan shall report any unlawful usage of the Licensed Marks to BCBSA in writing and agrees, free of charge, to cooperate fully with BCBSAjs program of enforcing and protecting the service mark rights, trade name rights and other rights in the Licensed Marks.

N' . The Plan hereby agrees to save, defend, indemnify and hold BCBSA And any other Plan(s) harmless from and against all claims, damages, liabilities and Costs of every kind, nature and description which may arise as a result of the activitie of the Plan or of any hospital, medical group, clinic or other provider of health services that is owned or controlled directly or indirectly by Plan. BCBSA hereby agrees tosave, defend, indemnify and hold the Plan and any other Plan(s) harmless from and against all claims, damages, liabilities and costs of every kind, nature and description which may arise e1clusively and directly as a result of the activities of BCBSA.

Amended as of June 21, 2012

N‘. (a). This Agreement shall automatically terminate upon the occurrence of any of the following eventsx(i) a voluntary petition shall be filed by the Plan or by BCBSA seeking bankruptcy, reorganiI ation, arrangement with creditors or other relief under the bankruptcy laws of the United States or any other law governing insolvency or debtor relief, or (ii) an involuntary petition or proceeding shall be filed against the Plan or BCBSA seeking bankruptcy, reorganiI ation, arrangement with creditors or other relief under the bankruptcy laws of the United States or any other law governing insolvency or debtor relief and such petition or proceeding is consented to or acquiesced in by the Plan or BCBSA or is not dismissed within si1ty (%z) days of the date upon which the petition or other document commencing the proceeding is served upon the Plan or BCBSA respectively, or (iii) an order for relief is entered against the Plan or BCBSA in any case under the bankruptcy laws of the United States, or the Plan or BCBSA is ad4udged bankrupt or insolvent (as that term is defined in the Uniform Commercial Code as enacted in the state of 0linois) by any court of competent 4urisdiction, or (iv) the Plan or BCBSA makes a general assignment of its assets for the benefit of creditors, or (v) any government or any government official, office, agency, branch, or unit assumes control of the Plan or delinquency proceedings (voluntary or involuntary) are instituted, or (vi) an action is brought by the Plan or BCBSA seeking its dissolution or liquidation of its assets or seeking the appointment of a trustee, interim trustee, receiver or other custodian for any of its property or business, or (vii) an action is instituted by any governmental entity or officer against the Plan or BCBSA seeking its dissolution or liquidation of its assets or seeking appointment of a trustee, interim trustee, receiver or other custodian for any of its property or business and such action is consented to or acquiesced in by the Plan or BCBSA or is not dismissed within one hundred thirty (N0z) days of the date upon which the pleading or other document commencing the action is served upon the Plan or BCBSA respectively, provided that if the action is stayed or its prosecution is en4oined, the one hundred thirty (N0z) day period is tolled for the duration of the stay or in4unction, and provided further, that the Association5s Board of Directors may toll or e1tend the N0z day period at any time prior to its e1piration, or (viii) a trustee, interim trustee, receiver or other custodian for any of the Planjs or BCBSAjs property or business is appointed, or the Plan or BCBSA is ordered dissolved or liquidated, or (i1) the Plan shall fail to pay its dues and shall not cure such failure within thirty (0z) days of receiving written notice thereof, or (1) if, due to regulatory action, the Plan together with any applicable Controlled Affiliate becomes unable to do business using the 9 ames and Marks in any State or portion thereof included in its Service Area, provided thatx(i) automatic termination shall not occur prior to the e1haustion by any such Plan of its rights to appeal or challenge such regulatory action; and (ii) in the event the Plan is licensed to do business using the 9 ames and Marks in multiple States or portions of States, the termination of its License Agreement shall be solely limited to the State(s) or portions thereof in which the regulatory action applies. By not appealing or challenging such regulatory action within the time prescribed by law or regulation, and in any event no later than NGz days after such action is taken, a Plan shall be deemed to have e1hausted its rights to appeal or challenge, and automatic termination shall proceed.

9 otwithstanding any other provision of this Agreement, a declaration or a request for declaration of the e1istence of a trust over any of the Plan5s or BCBSA5s property or business shall not in itself be deemed to constitute or seek appointment of a trustee, interim trustee, receiver or other custodian for purposes of subparagraphs N‘(a)(vii) and (viii) of this Agreement.

Amended as of September 14, 2004

(b). BCBSA, or the Plans (as provided and in addition to the rights conferred in Paragraph N‘(b) above), may terminate this Agreement immediately upon written notice upon the occurrence of either of the following eventsx(a) the Plan or BCBSA becomes insolvent (as that term is defined in the Uniform Commercial Code enacted in the state of Illinois), or (b) any final judgment against the Plan or BCBSA remains unsatisfied or unbonded of record for a period of sixty (60) days or longer.

(c). If this License Agreement is terminated as to BCBSA for any reason stated in subparagraphs N‘(a) and (b) above, the ownership of the Licensed Marks shall revert to each of the Plans.

(d). Upon termination of this License Agreement or any Controlled Affiliate License Agreement of a Larger Controlled Affiliate, as defined in Exhibit Nto this License Agreement, the following conditions shall apply, except that, in the event of a partial termination of this Agreement pursuant to Paragraph N‘ (a)(1)(ii) of this Agreement, the notices, national account listing, payment and audit right listed below shall be applicable solely with respect to the geographic area for which the Plan’s license to use the Licensed Names and Marks is terminatedx

(i) The terminated entity shall send a notice through the U.S. mails, with first class postage affixed, to all individual and group customers, providers, brokers and agents of products or services sold, marketed, underwritten or administered by the terminated entity or its Controlled Affiliates under the Licensed Marks and Name. The form and content of the notice shall be specified by BCBSA and shall, at a minimum, notify the recipient of the termination of the license, the consequences thereof, and instructions for obtaining alternate products or services licensed by BCBSA, subject to any conflicting state law and state regulatory requirements. This notice shall be mailed within N‘ days after termination or, if termination is pursuant to paragraph N‘(d) of this Agreement, within N‘ days after the written notice to BCBSA described in paragraph N‘(d).

(ii) The terminated entity shall deliver to BCBSA within five days of a request by BCBSA a listing of national accounts in which the terminated entity is involved (in a Control, Participating or Servicing capacity), identifying the national account and the terminated entity’s role therein. For those accounts where the terminated entity is the Control Plan, the Plan must also indicate the Participating and Servicing Plans in the national account syndicate.

Amended as of June 16, 2005

(iii) Unless the cause of termination is an event stated in paragraph N‘(a) or (b) above respecting BCBSA, the Plan and its Licensed Controlled Affiliates shall be 4bintly liable for payment to BCBSA of an amount equal to the Re’Establishment 2ee (described below) multiplied by the number of Licensed Enrollees of the terminated entity and its Licensed Controlled Affiliates; provided that if any other Plan is permitted by BCBSA to use marks or names licensed by BCBSA in the Service Area established by this Agreement, the Re’Establishment 2ee shall be multiplied by a fraction, the numerator of which is the number of Licensed Enrollees of the terminated entity and its Licensed Controlled Affiliates and the denominator of which is the total number of Licensed Enrollees in the Service Area. The Re’Establishment 2ee shall be inde1ed to a base fee of $6z. The Re’Establishment 2ee through December 0N, Gzz“ shall be $6z. The Re’Establishment 2ee for calendar years after December 0N, Gzz“ shall be ad4usted on January Nof each calendar year up to and including January N, GzNz and shall be the base fee multiplied by Nzz' plus the cumulative percentage increase or decrease in the Plans5 gross administrative e1pense (standard BCBSA definition) per Licensed Enrollee since December 0N, Gzz’ . The ad4ustment shall end on January N, GzNN, at which time the Re’Establishment 2ee shall be fi1ed at the then”current amount and no longer automatically ad4usted. 2or e1ample, if the Plans5 gross administrative e1pense per Licensed Enrollee was $G36.%z, $G6“.zz and $G8z.zz for calendar year end Gzz’ , Gzz“ and Gzz%, respectively, the January N, Gzz3 Re’Establishment 2ee would be $60.G3 (Nzz' of the base fee plus $N6’ for calendar year Gzz“ and $N’ 0 for calendar year Gzz%). Licensed Enrollee means each and every person and covered dependent who is enrolled as an individual or member of a group receiving products or services sold, marketed or administered under marks or names licensed by BCBSA as determined at the earlier of (a) the end of the last fiscal year of the terminated entity which ended prior to termination or (b) the fiscal year which ended before any transactions causing the termination began. 9 otwithstanding the foregoing, the amount payable pursuant to this subparagraph (d)(iii) shall be due only

Amended as of June 16, 2005

---

to the e1tent that, in BCBSAjs opinion, it does not cause the net worth of the Plan to fall below Nzz' of the Health Risk"Based Capital formula or its equivalent under any successor formula, as set forth in the applicable financial responsibility standards established by BCBSA (provided such equivalent is approved for purposes of this sub paragraph by the affirmative vote of three"fourths of the Plans and three"fourths of the total then current weighted vote of all the Plans), measured as of the date of termination and ad4usted for the value of any transactions not made in the ordinary course of business. This payment shall not be due in connection with transactions e1clusively by or among Plan or their affiliates, including reorganiIations, combinations or mergers, where the BCBSA Board of Directors determines that the license termination does not result in a material diminution in the number of Licensed Enrollees or the e1tent of their coverage. At least "z' of the Re"Establishment 2ee shall be awarded to the Plan (or Plans) that receive the new license(s) for the service area(s) at issue; provided, however, that such award shall not become due or payable until all disputes, if any, regarding the amount of and BCBSA5s right to such Re"Establishment 2ee have been finally resolved; and provided further that the award shall be based on the final amount actually received by BCBSA. The Board of Directors shall adopt a resolution which it may amend from time to time that shall govern BCBSA5s use of its portion of the award. 0n the event that the terminated entity5s license is reinstated by BCBSA or is deemed to have remained in effect without interruption by a court of competent 4urisdiction, BCBSA shall reimburse the Plan (and/or its Licensed Controlled Affiliates, as the case may be) for payments made under this subparagraph only to the e1tent that such payments e1ceed the amounts due to BCBSA pursuant to subparagraph N"(d)(vi) and any costs associated with reestablishing the Service Area, including any payments made by BCBSA to a Plan or Plans (or their Licensed Controlled Affiliates) for purposes of replacing the terminated entity.

(iv) The terminated entity shall comply with all financial settlement procedures set forth in BCBSA5s License Termination Contingency Plan, as amended from time to time and shall work diligently and in good faith with

Amended as of June 16, 2005

BCBSA, any Alternative Control Licensee or Replacement Licensee and any e1isting or potential new account for Blue"branded products and services to minimiI e the disruption of termination, and honor, to the fullest e1tent possible, the desire of accounts to continue to receive or obtain Blue"branded products and services through a new Licensee (FTransition:). Such diligence and good faith on the part of the terminated entity shall include, but not be limited tox(a) working cooperatively with BCBSA to protect the 9 ames and Marks from potential harm; (b) cooperating with BCBSA5s use of the 9 ames and Marks in the terminated entity5s former service area during the termination and Transition; (c) transmitting, upon the request of an e1isting Blue account or of BCBSA with consent and on behalf of an e1isting Blue account, all member and account"data relating to the 2ederal Employee Program to BCBSA, and all member and account data relating to other programs to an Alternative Control Licensee or Replacement Licensee; (d) working with BCBSA and the Alternative Control or Replacement Licensee with respect to potential new Blue accounts headquartered in the terminated entity5s former service area; (e) continuing to service Blue accounts during the Transition; (f) continuing to comply with 9 ational Programs, 2ederal Employee Program and 9 ASC7 policies and procedures and all voluntary BCBSA programs, policies and performance standards, such as Away 2rom Home Care, including being responsible for payment of all penalties for non" compliance duly levied in conformity with the License Agreements, Membership Standards, or the 2ederal Employee Program agreements, that may arise during the Transition; (g) maintaining and providing access to its provider networks, as defined by 2ederal Employee Program agreements and 9 ational Account Program Policies and Provisions, and O1ter"Plan Programs Policies and Provisions, and making those networks and discounts available to members and providers who participate in 9 ational Programs and the 2ederal Employee Program during the Transition; (h) maintaining its technical connections and processing capabilities during the Transition; and (i) working diligently to conclude all financial settlements and account reconciliations as negotiated in the termination transition agreement.

Amended as of November 16, 2006

(v) 9 otwithstanding any other provision in this Agreement,
BCBSA shall have the right, with the approval of its Board of Directors, to assess additional fines against the terminated entity during the Transition in the event it fails to maintain and provide access to provider networks as defined by 2ederal Employee Program agreements, 9 ational Account Program Policies and Provisions, and 0ther Plans Programs Policies and Provisions, and/or pass on applicable discounts. Such fines shall be in addition to any other assessments, fees or liquidated damages payable herein, or under e1isting policies and programs and shall be imposed to make whole BCBSA and/or the Plans. Terminated entity shall pay any such fines to BCBSA no later than 0z days after they are approved by the Board of Directors.

(vi) BCBSA shall have the right to e1amine and audit and/or hire at terminated entity5s e1pense a third"party auditor to e1amine and audit the books and records of the terminated entity and its Licensed Controlled Affiliates to verify compliance with the terms and requirements of this paragraph N‘(d).

(vii) Subsequent to termination of this Agreement, the terminated entity and its affiliates, agents, and employees shall have an ongoing and continuing obligation to protect all BCBSA and Blue Licensee data that was acquired or accessed during the period this Agreement was in force, including but not limited to all confidential processes, pricing, provider, discount and other strategic and competitively sensitive information (FBlue 0nformation:) from disclosure, and shall not, either alone or with another entity, disclose such Blue 0nformation or use it in any manner to compete without the e1press written permission of BCBSA.

(viii) As to a breach of N‘ (d) (i), (ii), (iii), (iv), (vi), or (vii) the parties agree that the obligations are immediately enforceable in a court of competent 4urisdiction. As to a breach of N‘ (d) (i), (ii), (iv), (vi), or (vii) by the Plan, the parties agree there is no adequate remedy at law and BCBSA is entitled to obtain specific performance.

Amended as of November 16, 2006

(i1) On the event that the terminated entity's license is reinstated by BCBSA or is deemed to have remained in effect without interruption by a court of competent jurisdiction, the Plan and its Licensed Controlled Affiliates shall be jointly liable for reimbursing BCBSA the reasonable costs incurred by BCBSA in connection with the termination and the reinstatement or court action, and any associated legal proceedings, including but not limited toxoutside legal fees, consulting fees, public relations fees, advertising costs, and costs incurred to develop, lease or establish an interim provider network. Any amount due to BCBSA under this subparagraph may be waived in whole or in part by the BCBSA Board of Directors in its sole discretion.

(e). BCBSA shall be entitled to enjoin the Plan or any related party in a court of competent jurisdiction from entry into any transaction which would result in a termination of this License Agreement unless the License Agreement has been terminated pursuant to paragraph IV. (d) of this Agreement upon the required six (6) month written notice.

(f). BCBSA acknowledges that it is not the owner of assets of the Plan.

Amended as of June 16, 2006

N%. This Agreement supersedes any and all other agreements between the parties with respect to the sub4ect matter herein, and contains all of the covenants and agreements of the parties as to the licensing of the Licensed Marks and 9 ame. This Agreement may be amended only by the affirmative vote of three"fourths of the Plans and three"fourths of the total then current weighted vote of all the Plans as officially recorded by the BCBSA Corporate Secretary.

N3. If any provision or any part of any provision of this Agreement is 4udicially declared unlawful, each and every other provision, or any part of any provision, shall continue in full force and effect notwithstanding such 4udicial declaration.

N6. 9 o waiver by BCBSA or the Plan of any breach or default in performance on the part of BCBSA or the Plan or any other licensee of any of the terms, covenants or conditions of this Agreement shall constitute a waiver of any subsequent breach or default in performance of said terms, covenants or conditions.

N8a. All notices provided for hereunder shall be in writing and shall be sent in duplicate by regular mail to BCBSA or the Plan at the address currently published for each by BCBSA and shall be marked respectively to the attention of the President and, if any, the - eneral Counsel, of BCBSA or the Plan.

№b E1cept as provided in paragraphs 8(b), 8(d)(iii), №‘(a), and №‘(b) above, this Agreement may be terminated for a breach only upon at least 0z days5 written notice to the Plan advising of the specific matters at issue and granting the Plan an opportunity to be heard and to present its response to the Member Plans.

№c 2or all provisions of this Agreement referring to voting, the term ‘Plans5 shall mean all entities licensed under the Blue Cross License Agreement and/or the Blue Shield License Agreement, and in all votes of the Plans under this Agreement the Plans shall vote together. 2or weighted votes of the Plans, the Plan shall have a number of votes equal to the number of weighted votes (if any) that it holds as a Blue Cross Plan plus the number of weighted votes (if any) that it holds as a Blue Shield Plan. 2or all other votes of the Plans, the Plan shall have one vote. 2or all questions requiring an affirmative three”fourths weighted vote of the Plans, the requirement shall be deemed satisfied with a lesser weighted vote unless the greater ofx(i) %“Gor more of the Plans (rounded to the nearest whole number, with z.“ or multiples thereof being rounded to the ne1t higher whole number) fail to cast weighted votes in favor of the question; or (ii) three (0) of the Plans fail to cast weighted votes in favor of the question. 9 otwithstanding the foregoing provision, if there are thirty”nine (08) Plans, the requirement of an affirmative three” fourths weighted vote shall be deemed satisfied with a lesser weighted vote unless four (’) or more Plans fail to cast weighted votes in favor of the question.

Amended as of June 16, 2006

Gz. 9 othing herein contained shall be construed to constitute the parties hereto as partners or 4oint venturers, or either as the agent of the other, and Plan shall have no right to bind or obligate BCBSA in any way, nor shall it represent that it has any right to do so. BCBSA shall have no liability to third parties with respect to any aspect of the business, activities, operations, products, or services of the Plan.

GN This Agreement shall be governed, construed and interpreted in accordance with the laws of the State of Olinois.

O9 WCT9 ESS WHERE7 2, the parties have caused this License Agreement to be e1ecuted, effective as of the date of last signature written below.

EXHIBIT 1

BLUE SHIELD
CONTROLLED AFFILIATE LICENSE AGREEMENT
(Includes revisions adopted by Member Plans through their June 16, 2016 meeting)

This Agreement by and among Blue Cross and Blue Shield Association ("BCBSA") and_____ (FControlled Affiliate"), a Controlled Affiliate of the Blue Shield Plan, known as_____ ("Plan" or FSponsoring Plan:), which is also a Party signatory hereto.

WHEREAS, BCBSA is the owner of the BLUE SHOELD and BLUE SHOELD Design service marks;

WHEREAS, Plan and Controlled Affiliate desire that the latter be entitled to use the BLUE SHOELD and BLUE SHOELD Design service marks (collectively the "Licensed Marks") as service marks and be entitled to use the term BLUE SHOELD in a trade name ("Licensed 9 ame");

9 7 W THERE27 RE, in consideration of the foregoing and the mutual agreements hereinafter set forth and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereby agree as followsx

1. GRANT OF LICENSE

Sub4ect to the terms and conditions of this Agreement, BCBSA hereby grants to Controlled Affiliate the right to use the Licensed Marks and 9 ame in connection with, and only in connection withx(i) health care plans and related services, as defined in BCBSAjs License Agreement with Plan, and administering the non"health portion of workers5 compensation insurance, and (ii) underwriting the indemnity portion of workers5 compensation insurance, provided that Controlled Affiliate5s total premium revenue comprises less than N‘ percent of the Sponsoring Plan5s net subscription revenue.

This grant of rights is non"e1clusive and is limited to the Service Area served by the Plan. Sub4ect to Paragraph 0A(0) of this Agreement, Controlled Affiliate may use the Licensed Marks and 9 ame in its legal name on the following conditionsx(i) the legal name must be approved in advance, in writing, by BCBSA; (ii) Controlled Affiliate shall not do business outside the Service Area under any name or mark; and (iii) Controlled Affiliate shall not use the Licensed Marks and 9 ame, or any derivative thereof, as part of any name or symbol used to identify itself in any securities market, unless such Controlled Affiliate is a not"for"profit company which may use the Licensed Marks and 9 ame, or an approved derivative therefor, to identify itself in debt securities markets. Controlled Affiliate may use the Licensed Marks and 9 ame in its Trade 9 ame only with the prior, written, consent of BCBSA.

Amended as of March 26, 2015

2. QUALITY CONTROL

A. Controlled Affiliate agrees to use the Licensed Marks and 9 ame only in connection with the licensed services and further agrees to be bound by the conditions regarding quality control shown in attached E1hibit A as they may be amended by BCBSA from time"to"time.

B. Controlled Affiliate agrees to comply with all applicable federal, state and local laws.

C. Controlled Affiliate agrees that it will provide on an annual basis (or more often if reasonably required by Plan or by BCBSA) a report or reports to Plan and BCBSA demonstrating Controlled Affiliatejs compliance with the requirements of this Agreement including but not limited to the quality control provisions of this paragraph and the attached E1hibit A.

D. Controlled Affiliate agrees that Plan and/or BCBSA may, from time"to"time, upon reasonable notice, review and inspect the manner and method of Controlled Affiliatejs rendering of service and use of the Licensed Marks and 9 ame.

E. As used herein, a Controlled Affiliate is defined as an entity organiIed and operated in such a manner, that the Sponsoring Plan hasx

(N) The legal authority directly or indirectly through wholly"owned subsidiariesx

(a) to select members of the Controlled Affiliate5s governing body having not less than "z' voting control thereof; and

(b) to prevent any change in the articles of incorporation, bylaws or other establishing or governing documents of the Controlled Affiliate with which the Sponsoring Plan does not concur; and

(c) to e1ercise control over the policy and operations of the Controlled Affiliate at least equal to that e1ercised by persons or entities (4bintly or individually) other than the Sponsoring Plan; and

9 otwithstanding anything to the contrary in (a) through (c) hereof, the Controlled Affiliate5s establishing or governing documents must also require written approval by the Sponsoring Plan before the Controlled Affiliate canx

(i) change its legal and/or trade names;

(ii) change the geographic area in which it operates;

(iii) change any of the type(s) of businesses in which it engages;

Amended as of September 19, 2014

(iv) create, or become liable for by way of guarantee, any indebtedness, other than indebtedness arising in the ordinary course of business;

(v) sell any assets, e1cept for sales in the ordinary course of business or sales of equipment no longer useful or being replaced;

(vi) make any loans or advances e1cept in the ordinary course of business;

(vii) enter into any arrangement or agreement with any party directly or indirectly affiliated with any of the owners or persons or entities with the authority to select or appoint members or board members of the Controlled Affiliate, other than the Sponsoring Plan or other Plans (e1cluding owners of stock holdings of under "' in a publicly traded Controlled Affiliate);

(viii) conduct any business other than under the Licensed Marks and 9 ame;

(i1) take any action that Sponsoring Plan or BCBSA reasonably believes will adversely affect the Licensed Marks and 9 ame.

0n addition, the Sponsoring Plan directly or indirectly through wholly owned subsidiaries shall own at least "z' of any for"profit Controlled Affiliate, provided that in instances where the Sponsoring Plan formed a publicly traded Controlled Affiliate Licensee and such publicly traded Controlled Affiliate Licensee owns and controls other Controlled Affiliate Licensees, the Sponsoring Plan directly or indirectly shall own and control at least "z' of any Controlled Affiliate that is indirectly owned and controlled by the publicly traded Controlled Affiliate Licensee.

7 r

(G) The legal authority directly or indirectly through wholly"owned subsidiaries;

(a) to select members of the Controlled Affiliate5s governing body having more than "z' voting control thereof and tox

(b) to prevent any change in the articles of incorporation, bylaws or other establishing or governing documents of the Controlled Affiliate with which the Sponsoring Plan do not concur; and

c) to e1ercise control over the policy and operations of the Controlled Affiliate.

Amended as of March 26, 2015

In addition, the Sponsoring Plan directly or indirectly through wholly-owned subsidiaries shall own more than "z' of any for-profit Controlled Affiliate, provided that in instances where the Sponsoring Plan formed a publicly traded Controlled Affiliate Licensee and such publicly traded Controlled Affiliate Licensee owns and controls other Controlled Affiliate Licensees, the Sponsoring Plan directly or indirectly shall own and control more than "z' of any Controlled Affiliate that is indirectly owned and controlled by the publicly traded Controlled Affiliate Licensee.

7 r

(0) With respect to a Controlled Affiliate that is Nzz' controlled by Plans including the Sponsoring Plan and which offers solely Medicaid products and services, the legal authority together with such other Plansx

(a) to select all members of the Controlled Affiliate5s governing body; and

(b) to prevent any change in the articles of incorporation, bylaws or other establishing or governing documents of the Controlled Affiliate; and

(c) to e1ercise control over the policy and operations of the Controlled Affiliate.

In addition, the Sponsoring Plan and such other Plans shall own Nzz' of any for-profit Controlled Affiliate, with the Sponsoring Plan and such other Plans each having an ownership interest. Such control and ownership by Plans must be direct or, if indirect, solely through affiliates that are licensed to use marks owned by BCBSA. 2urther, the Sponsoring Plan and such other Plans shall e1ecute the Addendum to Controlled Affiliate License Agreement attached hereto as E1hibit B"N

7 r

(') With respect to a Controlled Affiliate that is Nzz' controlled by a Sponsoring Plan which on a Blue-branded basis offers solely a Basic Medicare Part D Prescription Drug product, the legal authorityx

(a) to select all members of the Controlled Affiliate5s governing body; and

(b) to prevent any change in the articles of incorporation, bylaws or other establishing or governing documents of the Controlled Affiliate; and

(c) to e1ercise control over the policy and operations of the Controlled Affiliate.

In addition, the Sponsoring Plan shall own Nzz' of any for-profit Controlled Affiliate. Such Nzz' control and ownership by Sponsoring Plan must be direct or, if indirect, solely through affiliates that are licensed to use marks owned by BCBSA, 2urther, the Participating Plan as defined in E1hibit B"Gand the Sponsoring Plan shall e1ecute the Addendum to Controlled Affiliate License Agreement attached hereto as E1hibit B"G

Amended March 17, 2016

3. FOR-PROFIT, PUBLICLY TRADED LICENSEES

A. The Controlled Affiliate may operate as a for"profit publicly traded company on the following conditionsx

(N) The Controlled Affiliate shall discharge all responsibilities which it has to the Association and to other Plans by virtue of this Agreement.

(G) The Controlled Affiliate shall provide 8z days advance written notice to BCBSA prior to the initial filing with the SEC.

(0) The Controlled Affiliate shall not use the Licensed Marks and 9 ame, or any derivative thereof, as part of its legal name or any symbol used to identify the Controlled Affiliate in any securities market. The Controlled Affiliate shall use the Licensed Marks and 9 ame as part of its trade name within its service area for the sale, marketing and administration of health care and related services in the service area.

Amended as of March 26, 2015

(’) The Controlled Affiliate5s license to use the Licensed Marks and 9 ame
shall automatically terminate effectivex(a) thirty days after the Controlled Affiliate knows, or there is an SEC filing indicating that, any 0nstitutional 0nvestor, has become the Beneficial 7 wner of securities representing N2' or more of the voting power of the Controlled Affiliate (FE1cess 0nstitutional Voter:), unless such E1cess 0nstitutional Voter shall cease to be an E1cess 0nstitutional Voter prior to such automatic termination becoming effective; (b) thirty days after the Controlled Affiliate knows, or there is an SEC filing indicating that, any 9 oninstitutional 0nvestor, other than a Plan or Plans or Controlled Affiliate licensee or licensees has become the Beneficial 7 wner of securities representing “' or more of the voting power of the Controlled Affiliate (FE1cess 9 oninstitutional Voter:) unless such E1cess 9 oninstitutional Voter shall cease to be an E1cess 9 oninstitutional Voter prior to such automatic termination becoming effective; (c) thirty days after the Controlled Affiliate knows, or there is an SEC filing indicating that, any Person has become the Beneficial 7 wner, other than a Plan or Plans or Controlled Affiliate licensee or licensees, of G2' or more of the Controlled Affiliate5s then outstanding common stock or other equity securities which (either by themselves or in combination) represent an ownership interest of G2' or more pursuant to determinations made under Paragraph 0A(’) below (FE1cess 7 wner:), unless such E1cess 7 wner shall cease to be an E1cess 7 wner prior to such automatic termination becoming effective; (d) ten business days after individuals who at the time the Controlled Affiliate went public constituted the Board of Directors of the Controlled Affiliate (together with any new directors whose election to the Board was approved by a vote of G70 of the directors then still in office who were directors at the time the Controlled Affiliate went public or whose election or nomination was previously so approved) (the FContinuing Directors:) cease for any reason to constitute a ma4ority of the Board of Directors; or (e) ten business days after the Controlled Affiliate consolidates with or merges with or into any person or conveys, assigns, transfers or sells all or substantially all of its assets to any person other than a merger in which the Sponsoring Plan is the surviving entity and immediately after which merger, no person is an E1cess 0nstitutional Voter, an E1cess 9 oninstitutional Voter or an E1cess 7 wnerxprovided that, if requested by the affected Controlled Affiliate in a writing received by BCBSA prior to such automatic termination becoming effective, the provision of this paragraph 0A(’) may be waived, in whole or in part, upon the affirmative vote of a ma4ority of the disinterested Plans and a ma4ority of the total then current weighted vote of the disinterested Plans. Any waiver so granted may be conditioned upon such additional requirements (including but not limited to imposing new and independent grounds for termination of this License) as shall be approved by the affirmative vote of a ma4ority of the disinterested Plans and a ma4ority of the total then current weighted vote of the disinterested Plans. G0f a timely waiver request is received, no automatic termination shall become effective until the later ofx(N) the conclusion of the applicable time period specified in paragraphs 0A(’)(a)”(d) above, or (G) the conclusion of the first Member Plan meeting after receipt of such a waiver request.

Amended as of March 26, 2015

0n the event that the Controlled Affiliate5s license, or any other license, to use the Licensed Marks and 9 ame is terminated pursuant to Paragraph 0A('), the license may be reinstated in BCBSA5s sole discretion if, within 0z days of the date of such termination, the Controlled Affiliate demonstrates that the Person referred to in clause (a), (b) or (c) of the preceding paragraph is no longer an E1cess 0nstitutional Voter, an E1cess 9 oninstitutional Voter or an E1cess 7 wner.

(") The Controlled Affiliate shall not issue any class or series of security other than (i) shares of common stock having identical terms or options or derivatives of such common stock, (ii) non"voting, non"convertible debt securities, or (iii) such other securities as the Controlled Affiliate may approve, provided that BCBSA receives notice at least thirty days prior to the issuance of such securities, including a description of the terms for such securities, and BCBSA shall have the authority to determine how such other securities will be counted in determining whether any Person is an E1cess 0nstitutional Voter, E1cess 9 oninstitutional Voter or an E1cess 7 wner.

(%) 2or purposes of paragraph 0(A) above, the following definitions shall applyx

(i) FAffiliate: and FAssociate: shall have the respective meanings ascribed to such terms in Rule NGb"Gof the - eneral Rules and Regulations under the Securities E1change Act of N80', as amended and in effect on 9 ovember N3, N880 (the FE1change Act:).

(ii) A Person shall be deemed the FBeneficial 7 wner: of and shall be deemed to Fbeneficially own: any securitiesx

(N) which such Person or any of such Person5s Affiliates or Associates beneficially owns, directly or indirectly;

(G) which such Person or any of such Person5s Affiliates or Associates has (A) the right to acquire (whether such right is e1ercisable immediately or only after the passage of time) pursuant to any agreement, arrangement or understanding, or upon the e1ercise of conversion rights, e1change rights, warrants or options, or otherwise; or (B) the right to vote pursuant to any agreement, arrangement or understanding; provided, however, that a Person shall not be deemed the Beneficial 7 wner of, or to beneficially own, any security if the agreement, arrangement or understanding to vote such security (N) arises solely from a revocable pro1y or consent given to such Person in response to a public pro1y or consent solicitation made pursuant to, and in accordance with, the applicable rules and regulations promulgated under the E1change Act and (G) is not also then reportable on Schedule N0D under the E1change Act (or any comparable or successor report); or

Amended as of March 26, 2015

(0) which are beneficially owned, directly or indirectly, by any other Person (or any Affiliate or Associate thereof) with which such Person (or any of such Person5s Affiliates or Associates) has any agreement, arrangement or understanding (other than customary agreements with and between underwriters and selling group members with respect to a bona fide public offering of securities) relating to the acquisition, holding, voting (e1cept to the e1tent contemplated by the proviso to (ii)C(B) above) or disposing of any securities of the Controlled Affiliate.

9 otwithstanding anything in this definition of Beneficial 7 wnership to the contrary, the phrase Fthen outstanding: , when used with reference to a Person5s Beneficial 7 wnership of securities of the Controlled Affiliate, shall mean the number of such securities then issued and outstanding together with the number of such securities not then actually issued and outstanding which such Person would be deemed to own beneficially hereunder.

(iii) A Person shall be deemed an F0nstitutional 0nvestor: if (but only if) such Person (i) is an entity or group identified in the SEC5s Rule N0d”N(b)(N)(ii) as constituted on June N, N883, and (ii) every filing made by such Person with the SEC under Regulation N0D”- (or any successor Regulation) with respect to such Person5s Beneficial 7 wnership of Plan securities shall have contained a certification identical to the one required by item Nof SEC Schedule N0- as constituted on June N, N883.

(iv) F9 oninstitutional 0nvestor: means any Person who is not an 0nstitutional 0nvestor.

(v) FPerson: shall mean any individual, firm, partnership, corporation, trust, association, 4oint venture or other entity, and shall include any successor (by merger or otherwise) of such entity.

4. <u>SERVICE MARK USE</u>

A. Controlled Affiliate recogniIes the importance of a comprehensive national network of independent BCBSA licensees which are committed to strengthening the Licensed Marks and 9 ame. The Controlled Affiliate further recogniIes that its actions within its Service Area may affect the value of the Licensed Marks and 9 ame nationwide.

B. Controlled Affiliate shall at all times make proper service mark use of the Licensed Marks and 9 ame, including but not limited to use of such symbols or words as BCBSA shall specify to protect the Licensed Marks and 9 ame and shall comply with such rules (generally applicable to Controlled Affiliates licensed to use the Licensed

Amended as of March 26, 2015

Marks and 9 ame) relative to service mark use, as are issued from time"to"time by BCBSA. Controlled Affiliate recogniIes and agrees that all use of the Licensed Marks and 9 ame by Controlled Affiliate shall inure to the benefit of BCBSA.

C. Controlled Affiliate may not directly or indirectly use the Licensed Marks and 9 ame in a manner that transfers or is intended to transfer in the Service Area the goodwill associated therewith to another mark or name, nor may Controlled Affiliate engage in activity that may dilute or tarnish the unique value of the Licensed Marks and 9 ame.

D. Of Controlled Affiliate meets the standards of Œ(N) but not Œ(G) above and any of Controlled Affiliatejs advertising or promotional material is reasonably determined by BCBSA and/or the Plan to be in contravention of rules and regulations governing the use of the Licensed Marks and 9 ame, Controlled Affiliate shall for ninety (8z) days thereafter obtain prior approval from BCBSA of advertising and promotional efforts using the Licensed Marks and 9 ame, approval or disapproval thereof to be forthcoming within five (") business days of receipt of same by BCBSA or its designee. On all advertising and promotional efforts, Controlled Affiliate shall observe the Service Area limitations applicable to Plan.

E. 9 otwithstanding any other provision in the Plan5s License Agreement with BCBSA or in this Agreement, Controlled Affiliate shall use its best efforts to promote and build the value of the Licensed Marks and 9 ame.

5. SUBLICENSING AND ASSIGNMENT

Controlled Affiliate shall not, directly or indirectly, sublicense, transfer, hypothecate, sell, encumber or mortgage, by operation of law or otherwise, the rights granted hereunder and any such act shall be voidable at the sole option of Plan or BCBSA. This Agreement and all rights and duties hereunder are personal to Controlled Affiliate.

6. INFRINGEMENT

Controlled Affiliate shall promptly notify Plan and Plan shall promptly notify BCBSA of any suspected acts of infringement, unfair competition or passing off that may occur in relation to the Licensed Marks and 9 ame. Controlled Affiliate shall not be entitled to require Plan or BCBSA to take any actions or institute any proceedings to prevent infringement, unfair competition or passing off by third parties. Controlled Affiliate agrees to render to Plan and BCBSA, without charge, all reasonable assistance in connection with any matter pertaining to the protection of the Licensed Marks and 9 ame by BCBSA.

Amended as of September 19, 2014

7. LIABILITY INDEMNIFICATION

Controlled Affiliate and Plan hereby agree to save, defend, indemnify and hold BCBSA harmless from and against all claims, damages, liabilities and costs of every kind, nature and description (e1cept those arising solely as a result of BCBSAjs negligence) that may arise as a result of or related tox(i) Controlled Affiliatejs rendering of services under the Licensed Marks and 9 ame; or (ii) the activities of any hospital, medical group, clinic or other provider of health services that is owned or controlled directly or indirectly by Plan or Controlled Affiliate.

8. LICENSE TERM

A. E1cept as otherwise provided herein, the license granted by this Agreement shall remain in effect for a period of one (N) year and shall be automatically e1tended for additional one (N) year periods unless terminated pursuant to the provisions herein.

B. This Agreement and all of Controlled Affiliatejs rights hereunder shall immediately terminate without any further action by any party or entity in the event thatx(i) the Plan ceases to be authoriIed to use the Licensed Marks and 9 ame; or (ii) pursuant to Paragraph N‘(a)(1) of the Blue Cross License Agreement the Plan ceases to be authoriIed to use the Licensed 9 ames and Marks in the geographic area served by the Controlled Affiliate provided, however, that if the Controlled Affiliate is serving more than one State or portions thereof, the termination of this Agreement shall be limited to the State(s) or portions thereof in which the Plan5s license to use the Licensed Marks and 9 ames is terminated. By not appealing or challenging such regulatory action within the time prescribed by law or regulation, and in any event no later than NCz days after such action is taken, a Plan shall be deemed to have e1hausted its rights to appeal or challenge, and automatic termination shall proceed.

C. 9 otwithstanding any other provision of this Agreement, this license to use the Licensed Marks and 9 ame may be forthwith terminated by the Plan or the
affirmative vote of the ma4ority of the Board of Directors of BCBSA present and voting at a special meeting e1pressly called by BCBSA for the purpose on ten (Nz) days written notice to the Plan advising of the specific matters at issue and granting the Plan an opportunity to be heard and to present its response to the Board forx(N) failure to comply with any applicable minimum capital or liquidity requirement under the quality control standards of this Agreement; or (G) failure to comply with the "7 rganiIation and - overnance" quality control standard of this Agreement; or (0) impending financial insolvency; or (’) for a Smaller Controlled Affiliate (as defined in E1hibit A), failure to comply with any of the applicable requirements of Standards G; 0, ’ , “ or 3 of attached E1hibit A; or (“) the pendency of any action instituted against the Controlled Affiliate seeking its dissolution or liquidation of its assets or seeking appointment of a trustee, interim trustee, receiver or other custodian for any of its property or business or seeking the declaration or establishment of a trust for any of its property or business, unless this Controlled Affiliate License Agreement has been earlier terminated under paragraph

Amended as of March 26, 2015

6(E); or (%) failure by a Controlled Affiliate that meets the standards of GE(N) but not GE(G) above to obtain BCBSAjs written consent to a change in the identity of any owner, in the e1tent of ownership, or in the identity of any person or entity with the authority to select or appoint members or board members, provided that as to publicly traded Controlled Affiliates this provision shall apply only if the change affects a person or entity that owns at least "' of the Controlled Affiliatejs stock before or after the change; or (3) such other reason as is determined in good faith immediately and irreparably to threaten the integrity and reputation of BCBSA, the Plans, any other licensee including Controlled Affiliate and/or the Licensed Marks and 9 ame.

D. E1cept as otherwise provided in Paragraphs 6(B), 6(C) or 6(E) herein, should Controlled Affiliate fail to comply with the provisions of this Agreement and not cure such failure within thirty (0z) days of receiving written notice thereof (or commence a cure within such thirty day period and continue diligent efforts to complete the cure if such curing cannot reasonably be completed within such thirty day period) BCBSA or the Plan shall have the right to issue a notice that the Controlled Affiliate is in a state of noncompliance. Of a state of noncompliance as aforesaid is undisputed by the Controlled Affiliate or is found to e1ist by a mandatory dispute resolution panel and is uncured as provided above, BCBSA shall have the right to seek 4udicial enforcement of the Agreement or to issue a notice of termination thereof. 9 otwithstanding any other provisions of this Agreement, any disputes as to the termination of this License pursuant to Paragraphs 6(B), 6(C) or 6(E) of this Agreement shall not be sub4ect to mediation and mandatory dispute resolution. All other disputes between BCBSA, the Plan and/or Controlled Affiliate shall be submitted promptly to mediation and mandatory dispute resolution. The mandatory dispute resolution panel shall have authority to issue orders for specific performance and assess monetary penalties. E1cept, however, as provided in Paragraphs 6(B) and 6(E) of this Agreement, this license to use the Licensed Marks and 9 ame may not be finally terminated for any reason without the affirmative vote of a ma4ority of the present and voting members of the Board of Directors of BCBSA.

E. This Agreement and all of Controlled Affiliatejs rights hereunder shall immediately terminate without any further action by any party or entity in the event thatx

(N) Controlled Affiliate shall no longer comply with item G(E) above;

(G) Appropriate dues, royalties and other payments for Controlled Affiliate pursuant to paragraph Nz hereof, which are the royalties for this License Agreement, are more than si1ty (%z) days in arrears to BCBSA; or

(0) Any of the following events occurx(i) a voluntary petition shall be filed by Controlled Affiliate seeking bankruptcy, reorganiIation, arrangement with creditors or other relief under the bankruptcy laws of the United States or any other law governing insolvency or debtor relief, or (ii) an involuntary petition or proceeding shall be filed against Controlled Affiliate seeking bankruptcy, reorganiIation, arrangement with creditors or other relief under the bankruptcy laws of the United States or any other law governing insolvency or debtor relief and such petition or proceeding is consented to or acquiesced in by Controlled Affiliate or is not dismissed within si1ty (%z) days of

Amended as of March 26, 2015

the date upon which the petition or other document commencing the proceeding is served upon the Controlled Affiliate, or (iii) an order for relief is entered against Controlled Affiliate in any case under the bankruptcy laws of the United States, or Controlled Affiliate is ad4udged bankrupt or insolvent as those terms are defined in the Uniform Commercial Code as enacted in the State of 0llinois by any court of competent 4urisdiction, or (iv) Controlled Affiliate makes a general assignment of its assets for the benefit of creditors, or (v) any government or any government official, office, agency, branch, or unit assumes control of Controlled Affiliate or delinquency proceedings (voluntary or involuntary) are instituted, or (vi) an action is brought by Controlled Affiliate seeking its dissolution or liquidation of its assets or seeking the appointment of a trustee, interim trustee, receiver or other custodian for any of its property or business, or (vii) an action is instituted by any governmental entity or officer against Controlled Affiliate seeking its dissolution or liquidation of its assets or seeking the appointment of a trustee, interim trustee, receiver or other custodian for any of its property or business and such action is consented to or acquiesced in by Controlled Affiliate or is not dismissed within one hundred thirty (N0z) days of the date upon which the pleading or other document commencing the action is served upon the Controlled Affiliate, provided that if the action is stayed or its prosecution is en4oined, the one hundred thirty (N0z) day period is tolled for the duration of the stay or in4unction, and provided further, that the Association5s Board of Directors may toll or e1tend the N0z day period at any time prior to its e1piration, or (viii) a trustee, interim trustee, receiver or other custodian for any of Controlled Affiliatejs property or business is appointed or the Controlled Affiliate is ordered dissolved or liquidated. 9 otwithstanding any other provision of this Agreement, a declaration or a request for declaration of the e1istence of a trust over any of the Controlled Affiliate5s property or business shall not in itself be deemed to constitute or seek appointment of a trustee, interim trustee, receiver or other custodian for purposes of subparagraphs 6(E)(0)(vii) and (viii) of this Agreement.

(’) The for”profit, publicly traded Controlled Affiliate is terminated pursuant to Paragraph 0A(’) of this Agreement. 0n which case, the licenses of any controlled Affiliates directly or indirectly owned by the terminated for profit, publicly traded Controlled Affiliate also shall immediately terminate as provided for in paragraph 0A(’) of this Agreement

2. Upon termination of this Agreement for cause or otherwise, Controlled Affiliate agrees that it shall immediately discontinue all use of the Licensed Marks and 9 ame, including any use in its trade name.

- . Upon termination of this Agreement, Controlled Affiliate shall immediately notify all of its customers that it is no longer a licensee of BCBSA and, if directed by the Association5s Board of Directors, shall provide instruction on how the customer can contact BCBSA or a designated licensee to obtain further information on securing coverage. The notification required by this paragraph shall be in writing and in a form approved by BCBSA. The BCBSA shall have the right to audit the terminated entityjs books and records to verify compliance with this paragraph.

Amended as of March 26, 2015

H. On the event this Agreement terminates pursuant to 6(b) hereof, or in the event the Controlled Affiliate is a Larger Controlled Affiliate (as defined in E1hibit A), upon termination of this Agreement, the provisions of Paragraph 6.- . shall not apply and the following provisions shall apply, e1cept that, in the event of a partial termination of this Agreement pursuant to Paragraph 6(B)(ii) of this Agreement, the notices, national account listing, payment, and audit right listed below shall be applicable solely with respect to the geographic area for which the Plan5s license to use the Licensed 9 ames and Marks is terminatedx

(N) The Controlled Affiliate shall send a notice through the U.S. mails, with first class postage affi1ed, to all individual and group customers, providers, brokers and agents of products or services sold, marketed, underwritten or administered by the Controlled Affiliate under the Licensed Marks and 9 ame. The form and content of the notice shall be specified by BCBSA and shall, at a minimum, notify the recipient of the termination of the license, the consequences thereof, and instructions for obtaining alternate products or services licensed by BCBSA, sub4ect to any conflicting state law and state regulatory requirements. This notice shall be mailed within N‘ days after termination.

(G) The Controlled Affiliate shall deliver to BCBSA within five days of a request by BCBSA a listing of national accounts in which the Controlled Affiliate is involved (in a control, participating or servicing capacity), identifying the national account and the Controlled Affiliate5s role therein.

(0) Unless the cause of termination is an event respecting BCBSA stated in paragraph N‘(a) or (b) of the Plan5s license agreement with BCBSA to use the Licensed Marks and 9 ame, the Controlled Affiliate, the Plan, and any other Licensed Controlled Affiliates of the Plan shall be 4ointly liable for payment to BCBSA of an amount equal to the Re”Establishment 2ee (described below) multiplied by the number of Licensed Enrollees of the Controlled Affiliate; provided that if any other Plan is permitted by BCBSA to use marks or names licensed by BCBSA in the Service Area established by this Agreement, the Re” Establishment 2ee shall be multiplied by a fraction, the numerator of which is the number of Licensed Enrollees of the Controlled Affiliate, the Plan, and any other Licensed Controlled Affiliates and the denominator of which is the total number of Licensed Enrollees in the Service Area.

The Re”Establishment 2ee shall be inde1ed to a base fee of $6z. The Re”Establishment 2ee through December 0N, Gzz“ shall be $6z. The Re”Establishment 2ee for calendar years after December 0N, Gzz“ shall be ad4usted on January No of each calendar year up to and including January N, GzNz and shall be the base fee multiplied by Nzz' plus the cumulative percentage increase or decrease in the Plans5 gross administrative e1pense (standard BCBSA definition) per Licensed Enrollee since December 0N, Gzz’ . The ad4ustment shall end on January N, GzNN, at which time the Re”Establishment 2ee shall be fi1ed at the then”current amount and no longer automatically ad4usted. 2or e1ample, if the Plans5 gross administrative e1pense per Licensed Enrollee was $G36.%z, $G6“.zz and $G8z.zz for calendar year end Gzz’ , Gzz“ and Gzz%, respectively, the January N, Gzz3 Re”Establishment 2ee would be $60.G3 (Nzz' of base fee plus $N6’ for calendar

Amended as of March 26, 2015

year Gzz“ and $N’ 0 for calendar year Gzz%. Licensed Enrollee means each and every person and covered dependent who is enrolled as an individual or member of a group receiving products or services sold, marketed or administered under marks or names licensed by BCBSA as determined at the earlier of (i) the end of the last fiscal year of the terminated entity which ended prior to termination or (ii) the fiscal year which ended before any transactions causing the termination began. 9 otwithstanding the foregoing, the amount payable pursuant to this subparagraph H. (0) shall be due only to the e1tent that, in BCBSA5s opinion, it does not cause the net worth of the Controlled Affiliate, the Plan or any other Licensed Controlled Affiliates of the Plan to fall below N›zz' of the Health Risk’Based Capital formula, or its equivalent under any successor formula, as set forth in the applicable financial responsibility standards established by BCBSA (provided such equivalent is approved for purposes of this sub paragraph by the affirmative vote of three” fourths of the Plans and three”fourths of the total then current weighted vote of all the Plans); measured as of the date of termination, and ad4usted for the value of any transactions not made in the ordinary course of business. This payment shall not be due in connection with transactions e1clusively by or among Plans or their affiliates, including reorganiIations, combinations or mergers, where the BCBSA Board of Directors determines that the license termination does not result in a material diminution in the number of Licensed Enrollees or the e1tent of their coverage. At least “z' of the Re’Establishment 2ee shall be awarded to the Plan (or Plans) that receive the new license(s) for the service area(s) at issue; provided, however, that such award shall not become due or payable until all disputes, if any, regarding the amount of and BCBSA5s right to such Re’Establishment 2ee have been finally resolved; and provided further that the award shall be based on the final amount actually received by BCBSA. The Board of Directors shall adopt a resolution which it may amend from time to time that shall govern BCBSA5s use of its portion of the award. 0n the event that the Controlled Affiliate5s license is reinstated by BCBSA or is deemed to have remained in effect without interruption by a court of competent 4urisdiction, BCBSA shall reimburse the Controlled Affiliate (and/or the Plan or its other Licensed Controlled Affiliates, as the case may be) for payments made under this subparagraph 6.H.(0) only to the e1tent that such payments e1ceed the amounts due to BCBSA pursuant to paragraph 6.M. and any cost associated with reestablishing the Service Area, including any payments made by BCBSA to a Plan or Plans (or their Licensed Controlled Affiliates) for purposes of replacing the Controlled Affiliate.

(’) BCBSA shall have the right to e1amine and audit and/or hire at terminated entity5s e1pense a third party auditor to e1amine and audit the books and records of the Controlled Affiliate, the Plan, and any other Licensed Controlled Affiliates of the Plan to verify compliance with this paragraph 6.H.

(“) Subsequent to termination of this Agreement, the terminated entity and its affiliates, agents, and employees shall have an ongoing and continuing obligation to protect all BCBSA and Blue Licensee data that was acquired or accessed during the period this Agreement was in force, including but not limited to all confidential processes, pricing, provider, discount and other strategic and competitively sensitive information (FBlue 0nformation:) from disclosure, and shall not, either alone or with another entity, disclose such Blue 0nformation or use it in any manner to compete without the e1press written permission of BCBSA.

Amended as of March 26, 2015

(%) As to a breach of 6.H.(N), (G), (0), (') or (") the parties agree that the obligations are immediately enforceable in a court of competent 4urisdiction. As to a breach of 6.H.(N), (G) or (') by the Controlled Affiliate, the parties agree there is no adequate remedy at law and BCBSA is entitled to obtain specific performance.

O This Agreement shall remain in effect until terminated by the Controlled Affiliate or the Plan upon not less than eighteen (N6) months written notice to the Association or upon a shorter notice period approved by BCBSA in writing at its sole discretion, or until terminated as otherwise provided herein. The Plan5s right to terminate without cause upon such notice is unfettered and may be e1ercised in the Plan5s sole discretion.

J. On the event the Controlled Affiliate is a Smaller Controlled Affiliate (as defined in E1hibit A), the Controlled Affiliate agrees to be 4ointly liable for the amount described in H.0.and M. hereof upon termination of the BCBSA license agreement of any Larger Controlled Affiliate of the Plan.

K. BCBSA shall be entitled to en4oin the Controlled Affiliate or any related party in a court of competent 4urisdiction from entry into any transaction which would result in a termination of this Agreement unless the Plan5s license from BCBSA to use the Licensed Marks and 9 ames has been terminated pursuant to Nz(d) of the Plan5s license agreement upon the required N6 months written notice.

L. BCBSA acknowledges that it is not the owner of assets of the Controlled Affiliate.

M. On the event that the Plan has more than "z percent voting control of the Controlled Affiliate under Paragraph C(E)(G) above and is a Larger Controlled Affiliate (as defined in E1hibit A), then the vote called for in Paragraphs 6(C) and 6(D) above shall require the affirmative vote of three"fourths of the Plans and three"fourths of the total then current weighted vote of all the Plans.

9 . On the event this Agreement terminates and is subsequently reinstated by BCBSA or is deemed to have remained in effect without interruption by a court of competent 4urisdiction, the Controlled Affiliate, the Plan, and any other Licensed Controlled Affiliates of the Plan shall be 4ointly liable for reimbursing BCBSA the reasonable costs incurred by BCBSA in connection with the termination and the reinstatement or court action, and any associated legal proceedings, including but not limited toxoutside legal fees, consulting fees, public relations fees, advertising costs, and costs incurred to develop, lease or establish an interim provider network. Any amount due to BCBSA under this subparagraph may be waived in whole or in part by the BCBSA Board of Directors in its sole discretion.

Amended as of March 26, 2015

9. DISPUTE RESOLUTION

The parties agree that any disputes between them or between or among either of them and one or more Plans or Controlled Affiliates of Plans that use in any manner the Blue Shield and Blue Shield Marks and 9 ame are sub4ect to the Mediation and Mandatory Dispute Resolution process attached to and made a part of Planjs License from BCBSA to use the Licensed Marks and 9 ame as E1hibit " as amended from time"to"time, which documents are incorporated herein by reference as though fully set forth herein.

10. LICENSE FEE

Controlled Affiliate will pay to BCBSA a fee for this License determined pursuant to the formula(s) set forth in E1hibit C.

11. JOINT VENTURE

9 othing contained in the Agreement shall be construed as creating a 4oint venture, partnership, agency or employment relationship between Plan and Controlled Affiliate or between either and BCBSA.

12. NOTICES AND CORRESPONDENCE

9 otices regarding the sub4ect matter of this Agreement or breach or termination thereof shall be in writing and shall be addressed in duplicate to the last known address of each other party, marked respectively to the attention of its President and, if any, its - eneral Counsel.

13. COMPLETE AGREEMENT

This Agreement contains the complete understandings of the parties in relation to the sub4ect matter hereof. This Agreement may only be amended by the affirmative vote of three"fourths of the Plans and three"fourths of the total then current weighted vote of all the Plans as officially recorded by the BCBSA Corporate Secretary.

14. SEVERABILITY

O f any term of this Agreement is held to be unlawful by a court of competent 4urisdiction, such findings shall in no way affect the remaining obligations of the parties hereunder and the court may substitute a lawful term or condition for any unlawful term or condition so long as the effect of such substitution is to provide the parties with the benefits of this Agreement.

Amended as March 26, 2015

15. NONWAIVER

9 o waiver by BCBSA of any breach or default in performance on the part of Controlled Affiliate or any other licensee of any of the terms, covenants or conditions of this Agreement shall constitute a waiver of any subsequent breach or default in performance of said terms, covenants or conditions.

15A. VOTING

2or all provisions of this Agreement referring to voting, the term 'Plans5shall mean all entities licensed under the Blue Cross License Agreement and/or the Blue Shield License Agreement, and in all votes of the Plans under this Agreement the Plans shall vote together. 2or weighted votes of the Plans, the Plan shall have a number of votes equal to the number of weighted votes (if any) that it holds as a Blue Cross Plan plus the number of weighted votes (if any) that it holds as a Blue Shield Plan. 2or all other votes of the Plans, the Plan shall have one vote. 2or all questions requiring an affirmative three"fourths weighted vote of the Plans, the requirement shall be deemed satisfied with a lesser weighted vote unless the greater ofx(i) %"Gor more of the Plans (rounded to the nearest whole number, with z." or multiples thereof being rounded to the ne1t higher whole number) fail to cast weighted votes in favor of the question; or (ii) three (0) of the Plans fail to cast weighted votes in favor of the question. 9 otwithstanding the foregoing provision, if there are thirty"hine (08) Plans, the requirement of an affirmative three"fourths weighted vote shall be deemed satisfied with a lesser weighted vote unless four (') or more Plans fail to cast weighted votes in favor of the question.

Standard 1 - Organization and Governance

NA.)The Standard for more than "z' Plan control isx

A Controlled Affiliate shall be organiIed and operated in such a manner that a Plan authoriIed to use the Licensed Marks in the Service Area of the Controlled Affiliate pursuant to the separate Primary License Agreement with BCBSA, Sponsoring Plan:), has the legal authority, directly or indirectly through wholly"owned subsidiariesxN) to select members of the Controlled Affiliate5s governing body having more than "z' voting control thereof; and G) to prevent any change in the articles of incorporation, bylaws or other establishing or governing documents of the Controlled Affiliate with which the Sponsoring Plan do not concur; and 0) to e1ercise control over the policy and operations of the Controlled Affiliate. G)n addition, the Sponsoring Plan directly or indirectly through wholly"owned subsidiaries shall own more than "z' of any for"profit Controlled Affiliate.

NB.)The Standard for "z' Plan control isx

A Controlled Affiliate shall be organiIed and operated in such a manner that a Plan authoriIed to use the Licensed Marks in the Service Area of the Controlled Affiliate pursuant to the separate Primary License Agreement with BCBSA, has the legal authority, directly or indirectly through wholly"owned subsidiariesx

N) to select members of the Controlled Affiliate5s governing body having not less than "z' voting control thereof; and

G) to prevent any change in the articles of incorporation, bylaws or other establishing or governing documents of the Controlled Affiliate with which the Sponsoring Plan do not concur; and

0) to e1ercise control over the policy and operations of the Controlled Affiliate at least equal to that e1ercised by persons or entities (4bintly or individually) other than the Sponsoring Plan.

Amended September 19, 2014

EXHIBIT A (continued)

9 otwithstanding anything to the contrary in N) through 0) hereof, the Controlled Affiliate5s establishing or governing documents must also require written approval by the Sponsoring Plan before the Controlled Affiliate canx

- change the geographic area in which it operates
- change its legal and/or trade names
- change any of the types of businesses in which it engages
- create, or become liable for by way of guarantee, any indebtedness, other than indebtedness arising in the ordinary course of business
- sell any assets, e1cept for sales in the ordinary course of business or sales of equipment no longer useful or being replaced
- make any loans or advances e1cept in the ordinary course of business
- enter into any arrangement or agreement with any party directly or indirectly affiliated with any of the owners or persons or entities with the authority to select or appoint members or board members of the Controlled Affiliate, other than the Sponsoring Plan or other Plans (e1cluding owners of stock holdings of under "' in a publicly traded Controlled Affiliate)
- conduct any business other than under the Licensed Marks and 9 ame
- take any action that the Sponsoring Plan or BCBSA reasonably believes will adversely affect the Licensed Marks and 9 ame.

0n addition, the Sponsoring Plan directly or indirectly through wholly"owned subsidiaries shall own at least "z' of any for"profit Controlled Affiliate.

NC.) The Standard for a Controlled Affiliate that offers solely Medicaid products and service and hasNzz' Plan control but less than "z' Sponsoring Plan Controlx

A Controlled Affiliate shall be organiIed and operated in such a manner that (i) it offers solely Medicaid products and services; and (ii) a Plan authoriIed to use the Licensed Marks in the Service Area of the Controlled Affiliate pursuant to the separate Primary License Agreement with BCBSA (the FSponsoring Plan,) has the legal authority together with 7 ther Plansx

Amended September 19, 2014

N) to select all members of the Controlled Affiliate5s governing body; and

G) to prevent any change in the articles of incorporation, bylaws, or other establishing or governing documents of the Controlled Affiliate; and

0) to e1ercise control over the policy and operations of the Controlled Affiliate.

On addition, the Sponsoring Plan and such other Plans shall own Nzz' of any for"profit Controlled Affiliate, with the Sponsoring Plan and such other Plans each having an ownership interest. Such Nzz' control and ownership by Plans shall be direct or, if indirect, solely through affiliates that are licensed to use marks owned by BCBSA. 2urther, the Sponsoring Plan and such other Plans shall e1ecute the Addendum to Controlled Affiliate License.

ND). The Standard for a Controlled Affiliate that on a Blue"branded basis, only offers a Basic Medicare Part D Prescription Drug product and has Nzz' Plan control isx

A Controlled Affiliate shall be organiIed and operated in such a manner that (i) on a Blue"branded basis, it only offers a Basic Medicare Part D Prescription Drug product; and (ii) the Sponsoring Plan has the legal authorityx

N) to select all members of the Controlled Affiliate5s governing body; and

G) to prevent any change in the articles of incorporation, bylaws or other establishing or governing documents of the Controlled Affiliate; and

0) to e1ercise control over the policy and operations of the Controlled Affiliate.

On addition, the Sponsoring Plan shall own Nzz' of any for"profit Controlled Affiliate. Such Nzz' control and ownership by Sponsoring Plan must be direct or, if indirect, solely through affiliates that are licensed to use marks owned by BCBSA.

2urther, the Sponsoring Plan and Participating Plan shall e1ecute the Addendum to Controlled Affiliate License.

Amended March 17, 2016

EXHIBIT A (continued)

Standard 2 - Financial Responsibility

A Controlled Affiliate shall be operated in a manner that provides reasonable financial assurance that it can fulfill all of its contractual obligations to its customers. Of a risk"assuming Controlled Affiliate ceases operations for any reason, Blue Cross and/or Blue Cross Plan coverage will be offered to all Controlled Affiliate subscribers without e1clusions, limitations or conditions based on health status. Of a nonrisk"assuming Controlled Affiliate ceases operations for any reason, Sponsoring Plan will provide for services to its customers. The requirements of the preceding two sentences shall apply to all lines of business unless a line of business is specially e1empted from the requirement(s) by the BCBSA Board of Directors.

Standard 3 - State Licensure/Certification

0A.) The Standard for a Controlled Affiliate that employs, owns or contracts on a substantially e1clusive basis for medical services isx

A Controlled Affiliate shall maintain unimpaired licensure or certification for its medical care providers to operate under applicable state laws.

0B.) The Standard for a Controlled Affiliate that does not employ, own or contract on a substantially e1clusive basis for medical services isx

A Controlled Affiliate shall maintain unimpaired licensure or certification to operate under applicable state laws.

Standard 4 - Certain Disclosures

A Controlled Affiliate shall make adequate disclosure in contracting with third parties and in disseminating public statements of N) the structure of the Blue Cross and Blue Shield System; and G) the independent nature of every licensee; and 0) the Controlled Affiliatejs financial condition.

Amended as of September 19, 2014

EXHIBIT A (continued)

Standard 5 - Reports and Records for Certain Smaller Controlled Affiliates

2or a smaller Controlled Affiliate that does not underwrite the indemnity portion of workers5compensation insurance, the Standard isx

A Controlled Affiliate and/or its Sponsoring licensed Plan shall furnish, on a timely and accurate basis, reports and records relating to these Standards and the License Agreements between BCBSA and Controlled Affiliate.

Standard 6 - Other Standards for Larger Controlled Affiliates Standards %(A) "(Q that follow apply to larger Controlled

Affiliates. Standard %(A)xBoard of Directors

A Controlled Affiliate - overning Board shall act in the interest of its Corporation in providing cost"effective health care services to its customers. A Controlled Affiliate shall maintain a governing Board, which shall control the Controlled Affiliate, composed of a ma4ority of persons other than providers of health care services, who shall be known as public members. A public member shall not be an employee of or have a financial interest in a health care provider, nor be a member of a profession which provides health care services.

Standard %(B)xResponsiveness to Customers

A Controlled Affiliate shall be operated in a manner responsive to customer needs and requirements.

Standard %(C)xParticipation in 9 ational Programs

A Controlled Affiliate shall effectively and efficiently participate in each national program as from time to time may be adopted by the Member Plans for the purposes of providing portability of membership between the licensees and ease of claims processing for customers receiving benefits outside of the Controlled Affiliatejs Service Area.

Amended as of September 19, 2014

EXHIBIT A (continued)

Such programs are applicable to licensees, and includex

N BlueCard Program;

G Inter'Plan Teleprocessing System (ITS);

0. 9 ational Account Programs;

'. Business Associate Agreement for Blue Cross and Blue Shield Licensees, effective April N, Gzz0; and
". Inter'Plan Medicare Advantage Program.

Standard %(D)x2inancial Performance Requirements

In addition to requirements under the national programs listed in Standard %(CxParticipation in 9 ational Programs, a Controlled Affiliate shall take such action as required to ensure its financial performance in programs and contracts of an inter'licensee nature or where BCBSA is a party.

Standard %(E)xCooperation with Plan Performance Response Process

A Controlled Affiliate shall cooperate with BCBSAjs Board of Directors and its Brand Enhancement & Protection Committee in the administration of the Plan Performance Response Process and in addressing Controlled Affiliate performance problems identified thereunder.

Standard %(2)xIndependent 2inancial Rating

A Controlled Affiliate shall obtain a rating of its financial strength from an independent rating agency approved by BCBSAjs Board of Directors for such purpose.

Standard %(-)xLocal and 9 ational Best Efforts

9 otwithstanding any other provision in the Plan5s License Agreement with BCBSA or in this License Agreement, during each year, a Controlled Affiliate shall use its best efforts to promote and build the value of the Blue Shield Mark.

ADDENDUM TO CONTROLLED AFFILIATE LICENSE

This Addendum is made to that certain Blue Shield Controlled Affiliate License Agreement e1ecuted by and among Blue Cross and Blue Shield Association

(FLicensor:), _____ (FControlled Affiliate Licensee:)

and_____ (FSponsoring Plan:)

dated the _____ day of_____ , _____ (FAgreement:). The parties to this Addendum are Licensor, Controlled Affiliate Licensee, Sponsoring Plan, and the undersigned other Plans (‘7 ther Plans:). This Addendum is made and shall be deemed effective as of the date of the Agreement.

WHEREAS, the Sponsoring Plan asserts that it can serve the Medicaid market in its Service Area more efficiently and with less risk through a Medicaid enterprise 4bintly owned and controlled with other Plans than through a wholly owned and controlled Medicaid enterprise;

WHEREAS, in such circumstance Controlled Affiliate License Standard NC. permits the licensing of a Controlled Affiliate that is less than “z' owned and controlled by the Sponsoring Plan but which is Nzz' owned and controlled by Plans including the Sponsoring Plan, sub4ect to certain conditions;

WHEREAS, one such condition is that the Sponsoring Plan and all such other owning and controlling Plans enter into this Addendum.;

9 7 W THERE27 RE, for good and valuable consideration, including the promises and covenants set forth herein, the parties agree as followsx

N The Sponsoring Plan shall participate operationally in Controlled Affiliate5s business that is conducted under the Licensed Marks. The parties understand that participation may take many forms, one of which should be providing a network of providers in the Service Area of the Controlled Affiliate for the Medicaid services being offered under the Agreement and being involved in network development and provider relations.

G Each of the 7 ther Plans agrees that (i) it will cooperate fully with the Sponsoring Plan and BCBSA as needed to enable Sponsoring Plan and Controlled Affiliate Licensee to meet their obligations to Licensor under the Agreement and all associated rules and regulations of Licensor, including the Brand Regulations, (ii) it will not take any action, either individually or

Amended March 17, 2016

0. 4bintly with any of the 7 ther Plans, that would cause Sponsoring Plan or Controlled Affiliate Licensee to violate the Agreement, and (iii) it will not fail to take any action, either individually or 4bintly with any of the 7 ther Plans, where such failure would cause Sponsoring Plan or Controlled Affiliate Licensee to violate the Agreement.

’ . Each of the 7 ther Plans acknowledges that it has reviewed the Agreement and understands that Sponsoring Plan has the right to terminate the Agreement without cause upon notice as provided in Paragraph 3 of the Agreement, and that such right is unfettered and may be e1ercised by Sponsoring Plan in its sole discretion.

ADDENDUM TO CONTROLLED AFFILIATE LICENSE TO BE EXECUTED BY CONTROLLED AFFILIATES LICENSED UNDER CONTROLLED AFFILIATE LICENSE STANDARD 1D.

ADDENDUM TO CONTROLLED AFFILIATE LICENSE

This Addendum is made to that certain Blue Shield Controlled Affiliate License Agreement e1ecuted by and among Blue Cross and Blue Shield Association (FLicensor:),_____(FControlled Affiliate Licensee:), _____(FSponsoring Plan:) and _____ (FParticipating Plan:) dated the _____ day of _____, _____ (FAgreement:).

WHEREAS, the Participating Plan is defined as the Plan that holds the Primary License with BCBSA to use the Service Marks in the Service Area where the Controlled Affiliate will use the Service Marks;

WHEREAS, the Participating Plan asserts that it can offer a lower cost Basic Medicare Part D Prescription Drug Plan product more efficiently in the Participating Plan5s Service Area through the Controlled Affiliate Licensee;

WHEREAS, the Controlled Affiliate shall only use the Service Marks inside of the Participating Plan(s) Service Area sub4ect to each Participating Plan signing a separate Addendum;

WHEREAS, in such circumstance Controlled Affiliate License Standard ND permits the licensing of a Controlled Affiliate that is Nzz' owned and controlled by a Sponsoring Plan, sub4ect to certain conditions;

WHEREAS, one such condition is that the Sponsoring Plan, Controlled Affiliate and the Participating Plan enter into this Addendum;

9 7 W THERE27 RE, for good and valuable consideration, including the promises and covenants set forth herein, the parties agree as followsx

N The Participating Plan shall participate in Controlled Affiliate5s business that is conducted under the Licensed Marks. The parties understand that the Participating Plan shall conduct sales support and marketing of the Controlled Affiliate5s Basic Medicare Part D Prescription Drug Plan product offered in the Participating Plan5s Service Area. Any other form of participation shall require BCBSA5s written approval.

G Participating Plan agrees that (i) it will cooperate fully with the Sponsoring Plan and BCBSA as needed to enable Sponsoring Plan and

Controlled Affiliate Licensee to meet their obligations to Licensor under the Agreement and all associated rules and regulations of Licensor, including the Brand Regulations, (ii) it will not take any action that would cause Sponsoring Plan or Controlled Affiliate Licensee to violate the Agreement, and (iii) it will not fail to take any action, either individually or 4bintly with the Sponsoring Plan or Controlled Affiliate Licensee, where such failure would cause Sponsoring Plan or Controlled Affiliate Licensee to violate the Agreement.

0. The Controlled Affiliate Licensee shall only use the Licensed Marks authoriIed by the Participating Plan in connection with the Basic Medicare Part D Prescription Drug Plan product offered in the Participating Plan5s Service Area.

’. The Sponsoring Plan and Controlled Affiliate acknowledge that it has reviewed the Agreement and understands that Participating Plan has the right to terminate this Agreementx(i) immediately upon the e1piration or termination of the Plan Participation Agreement by and between Participating Plan and Controlled Affiliate upon written notice to the Sponsoring Plan, Controlled Affiliate Licensee and Licensor, or (ii) without cause upon N6 months written notice to the Sponsoring Plan, Controlled Affiliate Licensee and Licensor, and that such right is unfettered and may be e1ercised by Participating Plan in its sole discretion. 0n the event that Participating Plan and Controlled Affiliate fail to e1ecute the Plan Participation Agreement by_____(Date), Participating Plan may terminate this Agreement immediately upon notice to Sponsoring Plan, Controlled Affiliate Licensee and Licensor.

“. This Agreement and all of Controlled Affiliate Licenseejs rights hereunder shall immediately terminate without any further action by any party or entity in the event that the Sponsoring Plan or Participating Plan ceases to be authoriIed to use the Licensed Marks and 9 ame.

CONTROLLED AFFILIATE LICENSE AGREEMENT APPLICABLE TO LIFE INSURANCE COMPANIES

(Includes revisions adopted by Member Plans through their November 18, 2016 meeting)

This agreement by and among Blue Cross and Blue Shield Association ("BCBSA")_____ ("Controlled Affiliate"), a Controlled Affiliate of the Blue Shield Plan(s), known as _____ ("Plan").

WHEREAS, BCBSA is the owner of the BLUE SHOELD and BLUE SHOELD Design service marks;

WHEREAS, the Plan and the Controlled Affiliate desire that the latter be entitled to use the BLUE SHOELD and BLUE SHOELD Design service marks (collectively the "Licensed Marks") as service marks and be entitled to use the term BLUE SHOELD in a trade name ("Licensed 9 ame");

9 7 W, THERE27 RE, in consideration of the foregoing and the mutual agreements hereinafter set forth and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereby agree as followsx

1. GRANT OF LICENSE

Sub4ect to the terms and conditions of this Agreement, BCBSA hereby grants to the Controlled Affiliate the e1clusive right to use the licensed Marks and 9 ames in connection with and only in connection with those life insurance and related services authoriIed by applicable state law, other than health care plans and related services (as defined in the Planjs License Agreements with BCBSA) which services are not separately licensed to Controlled Affiliate by BCBSA, in the Service Area served by the Plan, e1cept that BCBSA reserves the right to use the Licensed Marks and 9 ame in said Service Area, and e1cept to the e1tent that said Service Area may overlap the area or areas served by one or more other licensed Blue Shield Plans as of the date of this License as to which overlapping areas the rights hereby granted are non"e1clusive as to such other Plan or Plans and their respective Licensed Controlled Affiliates only. Controlled Affiliate cannot use the Licensed Marks or 9 ame outside the Service Area or in its legal or trade name; provided, however, that if and only for so long as Controlled Affiliate also holds a Blue Shield Affiliate License Agreement applicable to health care plans and related services, Controlled Affiliate may use the Licensed Marks and 9 ame in its legal and trade name according to the terms of such license agreement.

Amended as of June 12, 2003

2. QUALITY CONTROL

A. Controlled Affiliate agrees to use the Licensed Marks and 9 ame only in relation to the sale, marketing and rendering of authoriI ed products and further agrees to be bound by the conditions regarding quality control shown in E1hibit A as it may be amended by BCBSA from time"to"time.

B. Controlled Affiliate agrees that Plan and/or BCBSA may, from time"to"time, upon reasonable notice, review and inspect the manner and method of Controlled Affiliatejs rendering of service and use of the Licensed Marks and 9 ame.

C. Controlled Affiliate agrees that it will provide on an annual basis (or more often if reasonably required by Plan or by BCBSA) a report to Plan and BCBSA demonstrating Controlled Affiliatejs compliance with the requirements of this Agreement including but not limited to the quality control provisions of E1hibit A.

D. As used herein, a Controlled Affiliate is defined as an entity organiI ed and operated in such a manner that it is sub4ect to the bona fide control of a Plan or Plans. Absent written approval by BCBSA of an alternative method of control, bona fide control shall mean the legal authority, directly or indirectly through wholly"owned subsidiariesx(a) to select members of the Controlled Affiliatejs governing body having not less than "N voting control thereof; (b) to e1ercise operational control with respect to the governance thereof; and (c) to prevent any change in its articles of incorporation, bylaws or other governing documents deemed inappropriate. On addition, a Plan or Plans shall own at least "N of any for"profit Controlled Affiliate. If the Controlled Affiliate is a mutual company, the Plan or its designee(s) shall have and maintain, in lieu of the requirements of items (a) and (c) above, pro1ies representing "N of the votes at any meeting of the policyholders and shall demonstrate that there is no reason to believe this such pro1ies shall be revoked by sufficient policyholders to reduce such percentage below "N .

3. SERVICE MARK USE

Controlled Affiliate shall at all times make proper service mark use of the Licensed Marks, including but not limited to use of such symbols or words as BCBSA shall specify to protect the Licensed Marks, and shall comply with such rules (applicable to all Controlled Affiliates licensed to use the Marks) relative to service mark use, as are issued from time"to"time by BCBSA. If there is any public reference to the affiliation between the Plan and the Controlled Affiliate, all of the Controlled Affiliatejs licensed services in the Service Area of the Plan shall be rendered under the Licensed Marks. Controlled Affiliate recogniI es and agrees that all use of the Licensed Marks by Controlled Affiliate shall inure to the benefit of BCBSA.

4. SUBLICENSING AND ASSIGNMENT

Controlled Affiliate shall not sublicense, transfer, hypothecate, sell, encumber or mortgage, by operation of law or otherwise, the rights granted hereunder and any such act shall be voidable at the option of Plan or BCBSA. This Agreement and all rights and duties hereunder are personal to Controlled Affiliate.

5. INFRINGEMENTS

Controlled Affiliate shall promptly notify Plan and BCBSA of any suspected acts of infringement, unfair competition or passing off which may occur in relation to the Licensed Marks. Controlled Affiliate shall not be entitled to require Plan or BCBSA to take any actions or institute any proceedings to prevent infringement, unfair competition or passing off by third parties. Controlled Affiliate agrees to render to Plan and BCBSA, free of charge, all reasonable assistance in connection with any matter pertaining to the protection of the Licensed Marks by BCBSA.

6. LIABILITY INDEMNIFICATION

Controlled Affiliate hereby agrees to save, defend, indemnify and hold Plan and BCBSA harmless from and against all claims, damages, liabilities and costs of every kind, nature and description which may arise as a result of Controlled Affiliatejs rendering of health care services under the Licensed Marks.

7. LICENSE TERM

The license granted by this Agreement shall remain in effect for a period of one (N) year and shall be automatically e1tended for additional one (N) year periods upon evidence satisfactory to the Plan and BCBSA that Controlled Affiliate meets the then applicable quality control standards, unless one of the parties hereto notifies the other party of the termination hereof at least si1ty (%z) days prior to e1piration of any license period.

This Agreement may be terminated by the Plan or by BCBSA for cause at any time provided that Controlled Affiliate has been given a reasonable opportunity to cure and shall not effect such a cure within thirty (0z) days of receiving written notice of the intent to terminate (or commence a cure within such thirty day period and continue diligent efforts to complete the cure if such curing cannot reasonably be completed within such thirty day period). By way of e1ample and not for purposes of limitation, Controlled Affiliatejs failure to abide by the quality control provisions of Paragraph G; above, shall be considered a proper ground for cancellation of this Agreement.

This Agreement and all of Controlled Affiliate5s rights hereunder shall immediately terminate without any further action by any party or entity in the event thatx

A. Controlled Affiliate shall no longer comply with Standard 9 o. N(7 rganiIation and - overnance) of E1hibit A or, following an opportunity to cure, with the remaining quality control provisions of E1hibit A, as it may be amended from time"to"time; or

B. Plan ceases to be authoriIed to use the Licensed Marks; or

C. Appropriate dues for Controlled Affiliate pursuant to item 6 hereof, which are the royalties for this License Agreement are more than si1ty (%z) days in arrears to BCBSA.

Upon termination of this Agreement for cause or otherwise, Controlled Affiliate agrees that it shall immediately discontinue all use of the Licensed Marks including any use in its trade name.

On the event of any disagreement between Plan and BCBSA as to whether grounds e1ist for termination or as to any other term or condition hereof, the decision of BCBSA shall control, sub4ect to provisions for mediation or mandatory dispute resolution in effect between the parties.

Upon termination of this Agreement, Licensed Controlled Affiliate shall immediately notify all of its customers that it is no longer a licensee of the Blue Cross and Blue Shield Association and provide instruction on how the customer can contact the Blue Cross and Blue Shield Association or a designated licensee to obtain further information on securing coverage. The written notification required by this paragraph shall be in writing and in a form approved by the Association. The Association shall have the right to audit the terminated entityjs books and records to verify compliance with this paragraph.

8. DUES

Controlled Affiliate will pay to BCBSA a fee for this license in accordance with the following formulax

- An annual fee of five thousand dollars ($",zzz) per license, plus
- .z"' of gross revenue per year from branded group products, plus
- ."' of gross revenue per year from branded individual products plus
- .N' of gross revenue per year from branded individual annuity products.

The foregoing percentages shall be reduced by one-half where both a BLUE CR7 SSX and BLUE SHIELDX license are issued to the same entity. In the event that any License period is greater or less than one (1) year, any amounts due shall be prorated. Royalties under this formula will be calculated, billed and paid in arrears.

Plan will promptly and timely transmit to BCBSA all dues owed by Controlled Affiliate as determined by the above formula and if Plan shall fail to do so, Controlled Affiliate shall pay such dues directly.

9. JOINT VENTURE

Nothing contained in this Agreement shall be construed as creating a joint venture, partnership, agency or employment relationship between Plan and Controlled Affiliate or between either and BCBSA.

9A. VOTING

For all provisions of this Agreement referring to voting, the term 'Plans' shall mean all entities licensed under the Blue Cross License Agreement and/or the Blue Shield License Agreement, and in all votes of the Plans under this Agreement the Plans shall vote together. For weighted votes of the Plans, the Plan shall have a number of votes equal to the number of weighted votes (if any) that it holds as a Blue Cross Plan plus the number of weighted votes (if any) that it holds as a Blue Shield Plan. For all other votes of the Plans, the Plan shall have one vote. For all questions requiring an affirmative three-fourths weighted vote of the Plans, the requirement shall be deemed satisfied with a lesser weighted vote unless the greater of (i) 5% or more of the Plans (rounded to the nearest whole number, with .5 or multiples thereof being rounded to the next higher whole number) fail to cast weighted votes in favor of the question; or (ii) three (3) of the Plans fail to cast weighted votes in favor of the question. Notwithstanding the foregoing provision, if there are thirty-nine (39) Plans, the requirement of an affirmative three-fourths weighted vote shall be deemed satisfied with a lesser weighted vote unless four (4) or more Plans fail to cast weighted votes in favor of the question.

10. NOTICES AND CORRESPONDENCE

Notices regarding the subject matter of this Agreement or breach or termination thereof shall be in writing and shall be addressed in duplicate to the last known address of each other party, marked respectively to the attention of its President and, if any, its General Counsel.

Amended as of November 20, 1997

11. COMPLETE AGREEMENT

This Agreement contains the complete understandings of the parties in relation to the subject matter hereof. This Agreement may only be amended by a writing executed by all parties.

12. SEVERABILITY

If any term of this Agreement is held to be unlawful by a court of competent jurisdiction, such finding shall in no way effect the remaining obligations of the parties hereunder and the court may substitute a lawful term or condition for any unlawful term or condition so long as the effect of such substitution is to provide the parties with the benefits of this Agreement.

13. NONWAIVER

No waiver by BCBSA of any breach or default in performance on the part of the Controlled Affiliate or any other licensee of any of the terms, covenants or conditions of this Agreement shall constitute a waiver of any subsequent breach or default in performance of said terms, covenants or conditions.

14. GOVERNING LAW

This Agreement shall be governed by, and construed and interpreted in accordance with, the laws of the State of Illinois.

Amended as of June 16, 2005

Ø9 WCT9 ESS WHERE7 2, the parties have caused this License Agreement to be e1ecuted, effective as of the date of last signature written below.

PREAMBLE

The standards for licensing Life Oisurance Companies (Life and Health Oisurance companies, as defined by state statute) are established by BCBSA and are sub4ect to change from time"to"time upon the affirmative vote of three"fourths (0/') of the Plans and three"fourths (0/') of the total weighted vote of all Plans. Each Licensed Plan is required to use a standard controlled affiliate license form provided by BCBSA and to cooperate fully in assuring that the licensed Life Oisurance Company maintains compliance with the license standards.

An organiIation meeting the following standards shall be eligible for a license to use the Licensed Marks within the service area of its sponsoring Licensed Plan to the e1tent and the manner authoriIed under the Controlled Affiliate License applicable to Life Oisurance Companies and the principal license to the Plan.

Standard 1 - Organization and Governance

The LO0C shall be organiIed and operated in such a manner that it is controlled by a licensed Plan or Plans which have, directly or indirectlyxN) not less than "N of the voting control of the LO0C; and G) the legal ability to prevent any change in the articles of incorporation, bylaws or other establishing or governing documents of the LO0C with which it does not concur; and 0) operational control of the LO0C.

Of the LO0C is a mutual company, the Plan or its designee(s) shall have and maintain, in lieu of the requirements of items Nand Gabove, pro1ies representing at least "N of the votes at any policyholder meeting and shall demonstrate that there is no reason to believe such pro1ies shall be revoked by sufficient policyholders to reduce such percentage below "N .

Standard 2 - State Licensure

The LO0C must maintain unimpaired licensure or certificate of authority to operate under applicable state laws as a life and health insurance company in each state in which the LO0C does business.

Standard 3 - Records and Examination

The LO0C and its sponsoring licensed Plan(s) shall maintain and furnish, on a timely and accurate basis, such records and reports regarding the LO0C as may be required in order to establish compliance with the license agreement.

EXHIBIT A
C7 9 TR7 LLED A22O1LOATE LO0CE9 SE STA9 DARDS
LO2E O9 SURA9 CE C7 MPA9 O0ES
Page Gof G

LO0C and its sponsoring licensed Plan(s) shall permit BCBSA to e1amine the
affairs of the LO0C and shall agree that BCBSAjs board may submit a written report to the chief e1ecutive officer(s) and the board(s) of directors of the sponsoring Plan(s).

Standard 4 - Mediation

The LO0C and its sponsoring Plan(s) shall agree to use the then"current BCBSA mediation and mandatory dispute resolution processes, in lieu of a legal action between or among another licensed controlled affiliate, a licensed Plan or BCBSA.

Standard 5 - Financial Responsibility

The LO0C shall maintain adequate financial resources to protect its customers and meet its business obligations.

Standard 6 - Cooperation with Affiliate License Performance Response Process Protocol

The LO0C and its Sponsoring Plan(s) shall cooperate with BCBSA5s Board of Directors and its Brand Enhancement & Protection Committee in the
administration of the Affiliate License Performance Response Process Protocol (ALPRPP) and in addressing LO0C compliance problems identified thereunder.

CONTROLLED AFFILIATE
TRADEMARK LICENSE AGREEMENT
FOR LIFE AND DISABILTY INSURANCE PRODUCTS

This Agreement by and among Blue Cross and Blue Shield Association ("BCBSA") and _____ , (FLife and Disability Controlled Affiliate:) which is a company offering life and disability insurance products owned and controlled by , , _____ (individually, FSponsoring Plan: and when referred to collectively, FSponsoring Plans:).

Whereas, BCBSA is the owner of the BLUE CR7 SS and BLUE SHOELD word and design service marks and any derivatives thereof (FLicensed Marks:);

Whereas, each Sponsoring Plan is licensed separately by BCBSA to use one or more of the Licensed Marks in a particular Service Area;

Whereas, the Sponsoring Plans and the Life and Disability Controlled Affiliate desire that the latter be entitled to use the appropriate Licensed Marks in connection with life and disability insurance products in some or all of such Sponsoring Plans5 Service Areas and in the Service Areas of other Regular Member Plans, as defined in the BCBSA By'laws, (FBlue Plans:) consistent with the terms of this Agreement.

9 7 W, THERE27 RE, in consideration of the foregoing and the mutual agreements hereinafter set forth and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereby agree as followsx

1. GRANT OF LICENSE

A. Sub4ect to the terms and conditions of this Agreement, BCBSA hereby grants to the Life and Disability Controlled Affiliate the limited right to use the Licensed Marks in connection with and only in connection with the following life and disability insurance products authoriIed by state lawx(N) - roupxTerm Life, Long Term Disability, Whole Life, Benefit Life, Universal Life; (G) 0ndividualxTerm Life, Whole Life, Dependent Life, Spouse Life; (0) 7 therxDisability 0ncome, Short Term Disability, Long Term Disability, 0ncome Replacement; and (') such other life and disability products approved by BCBSA in writing (FLicensed Products:) in the Service Areas served by the Sponsoring Plans or in the Service Area or Areas of one or more other licensed Blue Plans, provided that such Blue Plans have consented to such use as authoriIed by this Agreement. Life and Disability Controlled Affiliate may not use the Licensed Marks in its legal or trade name.

B. 9 otwithstanding that the license granted to Life and Disability Controlled Affiliate is a license to use all of the Licensed Marks, Life and Disability Controlled Affiliate may only use those of the Licensed Marks in the Service Area of a Sponsoring Plan or other consenting Blue Plan as described below that such Plan is authoriIed to use as a Blue Plan pursuant to its separate license agreements with BCBSA.

C. Life and Disability Controlled Affiliate may use the Licensed Marks in the Service Areas of Sponsoring Plans or in the Service Area of a Blue Plan that is not a signatory to this Agreement only after such Sponsoring Plan(s) or non" signatory Blue Plan consents to such use by e1ecuting a written consent in substantially the same form as the Consent Agreement attached as E1hibit B.

D. The following provisions apply with respect to Consent Agreements once such agreements have been fully and properly e1ecutedx

(N) All sales, marketing and advertising materials developed by and proposed for use by Life and Disability Controlled Affiliate in the Service Area of Sponsoring Plan or consenting Blue Plan (hereinafter, such consenting Sponsoring Plan or consenting Blue Plan collectively referred to FConsenting Plan(s):) must clearly identify the Consenting Plan (for e1ample, a statement on such materials that reads FThis product is offered with the cooperation of Blue Cross and/or Blue Shield of]- eography®);

(G) To the e1tent the Consenting Plan has separate divisions or other Affiliates that use the Licensed Marks in distinct geographic areas within its Service Area, consent obtained under this Agreement may be limited to one or more of such specific geographic areas as specified by the Consenting Plan in its signed Consent Agreement. 2or purposes of this entire Agreement, all references to the Service Area of a Sponsoring Plan, Blue Plan or Consenting Plan may include the entire Service Area or a distinct geographic area within such Service Area as specified in this Section ND (G);

(0) Where BCBSA has licensed two or more Blue Plans to use the same Licensed Marks in the same Service Area, in addition to the requirements set forth in Section D (N) above, the sales, marketing and advertising materials referenced in such section above must be communicated to the Consenting Plan5s e1isting and prospective accounts through or with the approval of such Consenting Plan, and the personnel of such Consenting Plan must actively participate in all sales and marketing activities conducted by Life and Disability Controlled Affiliate in the same Service Area, including participating in meetings (whether in"person or via telephone, video or internet conference) with both e1isting and prospective accounts of the Consenting Plan;

(’) Life and Disability Controlled Affiliate shall be entitled to use in a Service Area only those Licensed Marks that the Consenting Plan has been granted by BCBSA the license to use under its Blue Plan license agreements (for e1ample, if a Consenting Plan is licensed to use only the Blue Cross Marks in its Service Area, the materials used by Life and Disability Controlled Affiliate in that Service Area may only contain or reference the Blue Cross Marks and not the Blue Shield Marks).

(“) Of a Consent Agreement is terminated, Life and Disability Controlled Affiliate shall, unless BCBSA and the Consenting Plan agree in their sole discretion to a phase out in writing, immediately (i) cease all use of the Licensed Marks, including in connection with any and all sales and marketing of the Licensed Products in the Service Area where consent has been terminated, and (ii) notify its customers that it is no longer a licensee and provide instruction on how the customer can contact BCBSA or a designated licensee to obtain further information on securing coverage. The notification required by this paragraph shall be in writing and in form approved by BCBSA.

2. QUALITY CONTROL

A. Life and Disability Controlled Affiliate agrees to use the Licensed Marks only in relation to the sale, marketing and administration of the Licensed Products and further agrees to be bound by the conditions regarding quality control shown in E1hibit A and the - uidelines to Administer the
Standards for Trademark License Agreement for Life and Disability Insurance Products attached thereto.

B. Life and Disability Controlled Affiliate agrees that BCBSA may, from time”to”time, upon reasonable notice, review and inspect the manner and method of Life and Disability Controlled Affiliatejs rendering of service and use of the Licensed Marks.

C. Life and Disability Controlled Affiliate agrees that it will provide on an annual basis (or more often if reasonably required by BCBSA) a report to BCBSA demonstrating Life and Disability Controlled Affiliatejs compliance with the requirements of this Agreement including but not limited to the quality control provisions of E1hibit A.

D. As used herein, a Life and Disability Controlled Affiliate is defined asxAn entity organiIed and operated in such a manner that it is Nzz' owned and controlled by Sponsoring Plans. Absent written approval by BCBSA of an alternative method of control, control shall mean the legal authority, directly or indirectly through wholly”owned subsidiariesx(a) to select members of the Life and Disability Controlled Affiliatejs governing body having not less than Nzz' voting control thereof; (b) to e1ercise operational control with respect to the governance

thereof; and (c) to prevent any change in its articles of incorporation, bylaws or other governing documents deemed inappropriate. In addition, a Sponsoring Plan or Plans shall own at least Nzz' of any for profit Life and Disability Controlled Affiliate.

3. SERVICE MARK USE

Life and Disability Controlled Affiliate shall at all times make proper service mark use of the Licensed Marks and shall ensure all uses of the Licensed Marks comply with the BCBSA Brand Regulations, as amended by BCBSA from time to time. Life and Disability Controlled Affiliate recognizes and agrees that all use of the Licensed Marks by Life and Disability Controlled Affiliate shall inure to the benefit of BCBSA.

4. SUBLICENSING AND ASSIGNMENT

The license hereby granted to Life and Disability Controlled Affiliate to use the Licensed Marks is and shall be personal to Life and Disability Controlled Affiliate and shall not be assignable by any act of the Life and Disability Controlled Affiliate, directly or indirectly, without the written consent of BCBSA. Said license shall not be assignable by operation of law, nor shall Life and Disability Controlled Affiliate mortgage or part with possession or control of this license or any right hereunder, and the Life and Disability Controlled Affiliate shall have no right to grant any sublicense to use the Licensed Marks.

5. INFRINGEMENTS

Life and Disability Controlled Affiliate shall promptly notify BCBSA of any suspected acts of infringement, unfair competition or passing off which may occur in relation to the Licensed Marks. Life and Disability Controlled Affiliate shall not be entitled to require BCBSA to take any actions or institute any proceedings to prevent infringement, unfair competition or passing off by third parties. Life and Disability Controlled Affiliate agrees to render to BCBSA, free of charge, all reasonable assistance in connection with any matter pertaining to the protection of the Licensed Marks by BCBSA. BCBSA shall have sole control of the defense and resolution of any claim of infringement brought or threatened by others.

6. LIABILITY INDEMNIFICATION

Life and Disability Controlled Affiliate hereby agrees to save, defend, indemnify and hold BCBSA harmless from and against all claims, damages, liabilities and costs of every kind, nature and description which may arise as a result of Life and Disability Controlled Affiliatejs conduct.

7. LICENSE TERM

A. The license granted by this Agreement shall remain in effect for a period of one (N) year and shall be automatically e1tended for additional one (N) year periods, unless either BCBSA or Life and Disability Controlled Affiliate notifies the other party in writing of the termination hereof at least si1ty (%z) days prior to e1piration of any license period.

B. This Agreement may be terminated by BCBSA for cause at any time provided that Life and Disability Controlled Affiliate has been given a reasonable opportunity to cure and shall not effect such a cure within thirty (0z) days of receiving written notice of the intent to terminate (or commence a cure within such thirty day period and continue diligent efforts to complete the cure if such curing cannot reasonably be completed within such thirty day period). By way of e1ample and not for purposes of limitation, Life and Disability Controlled Affiliatejs failure to abide by the conditions regarding use of the Licensed Marks set forth in Section Nof this Agreement or the quality control provisions of Section G(other than with respect to Section GD which is sub4ect to immediate termination as stated in Section 3 C (N) below) shall be considered proper grounds for termination of this Agreement.

C. This Agreement and all of Life and Disability Controlled Affiliatejs rights hereunder shall immediately terminate without any further action by any party or entity in the event thatx

(N) Life and Disability Controlled Affiliate shall no longer comply with Section GD (or Standard 9 o. N (7 rganiIation and - overnance) of E1hibit A); or

(G) Any Sponsoring Plan ceases to be authoriIed to use the Licensed Marks; or

(0) Appropriate fees for Life and Disability Controlled Affiliate pursuant to Section 6 of this Agreement are more than si1ty (%z) days in arrears to BCBSA.

Upon termination of this Agreement for cause or otherwise, Life and Disability Controlled Affiliate agrees that it shall immediately discontinue all use of the Licensed Marks.

0n the event of any disagreement between Life and Disability Controlled Affiliate and BCBSA as to whether grounds e1ist for termination or as to any other term or condition hereof, the decision of BCBSA shall control, sub4ect to provisions for mediation or mandatory dispute resolution in effect between the parties.

Upon termination of this Agreement, Licensed Life and Disability Controlled Affiliate shall immediately notify all of its customers that it is no longer a licensee of BCBSA and provide instruction on how the customer can contact BCBSA or a designated licensee to obtain further information on securing coverage. The notification required by this paragraph shall be in writing and in a form approved by BCBSA. BCBSA shall have the right to audit the terminated entityjs books and records to verify compliance with this paragraph.

8. ROYALTIES

Life and Disability Controlled Affiliate will pay to BCBSA a fee for this license in accordance with the following formulax

- An annual fee of five thousand dollars ($“,zzz) per license, plus
- .z“' of gross revenue per year from group products sold under the Licensed Marks, plus
- .“' of gross revenue per year from individual products sold under the Licensed Marks

On the event that any license period is greater or less than one (N) year, any amounts due shall be prorated. Royalties under this formula will be calculated, billed and paid in arrears.

Life and Disability Controlled Affiliate will promptly and timely transmit to BCBSA all fees owed by Life and Disability Controlled Affiliate as determined by the above formula.

9. JOINT VENTURE

9 othing contained in this Agreement shall be construed as creating a 4oint venture, partnership, agency or employment relationship between any Sponsoring Plan and Life and Disability Controlled Affiliate or between among them and/or BCBSA.

10. VOTING

2or all provisions of this Agreement referring to voting, the term ‘Plans5 shall mean all entities licensed under the Blue Cross License Agreement and/or the Blue Shield License Agreement, and in all votes of the Plans under this Agreement the Plans shall vote together. 2or weighted votes of the Plans, the Plan shall have a number of votes equal to the number of weighted votes (if any) that it holds as a Blue Cross Plan plus the number of weighted votes (if any) that it holds as a Blue Shield Plan. 2or all other votes of the Plans, the

Plan shall have one vote. 2or all questions requiring an affirmative three"fourths weighted vote of the Plans, the requirement shall be deemed satisfied with a lesser weighted vote unless the greater ofx(i) %"Gor more of the Plans (rounded to the nearest whole number, with z." or multiples thereof being rounded to the ne1t higher whole number) fail to cast weighted votes in favor of the question; or (ii) three (0) of the Plans fail to cast weighted votes in favor of the question. 9 otwithstanding the foregoing provision, if there are thirty"nine (08) Plans, the requirement of an affirmative three"fourths weighted vote shall be deemed satisfied with a lesser weighted vote unless four (') or more Plans fail to cast weighted votes in favor of the question.

11. NOTICES AND CORRESPONDENCE

9 otices regarding the sub4ect matter of this Agreement or breach or termination thereof shall be in writing and shall be addressed in duplicate to the last known address of each other party, marked respectively to the attention of its President and, if any, its - eneral Counsel.

12. COMPLETE AGREEMENT

This Agreement contains the complete understandings of the parties in relation to the sub4ect matter hereof. This Agreement may only be amended byx(a) a writing signed by all parties; or (b) a writing approved by the affirmative vote of three" fourths of the Blue Plans and three"fourths of the total then current weighted vote of all the Blue Plans as officially recorded by the BCBSA Corporate Secretary. Upon such adoption by the Blue Plans, this Agreement and all other Trademark License Agreements for Life and Disability 0nsurance Products then in effect shall simultaneously be amended.

13. SEVERABILITY

0f any term of this Agreement is held to be unlawful by a court of competent 4urisdiction, such finding shall in no way affect the remaining obligations of the parties hereunder and the court may substitute a lawful term or condition for any unlawful term or condition so long as the effect of such substitution is to provide the parties with the benefits of this Agreement.

14. NONWAIVER

9 o waiver by BCBSA of any breach or default in performance on the part of the Life and Disability Controlled Affiliate or any other licensee of any of the terms, covenants or conditions of this Agreement shall constitute a waiver of any subsequent breach or default in performance of said terms, covenants or conditions.

15. GOVERNING LAW

This Agreement shall be governed by, and construed and interpreted in accordance with, the laws of the State of 01inois.

Ø WCT9 ESS WHERE7 2, the parties have caused this License Agreement to be e1ecuted, effective as of the date of last signature written below.

EXHIBIT A

LICENSE STANDARDS APPLICABLE TO TRADEMARK LICENSE AGREEMENT FOR LIFE AND DISABILITY INSURANCE PRODUCTS Page 1 of 2

Standard 1 - Organization and Governance

Any Life and Disability Controlled Affiliate licensed under the Trademark License Agreement for Life and Disability Insurance Products (Flicensee:) shall be organiIed and operated in such a manner that it is an entity organiIed and operated in such a manner that it is Nzz' owned and controlled by Sponsoring Plans. Absent written approval by BCBSA of an alternative method of control, control shall mean the legal authority, directly or indirectly through wholly"owned subsidiariesx(a) to select members of the Life and Disability Controlled Affiliatejs governing body having not less than Nzz' voting control thereof; (b) to e1ercise operational control with respect to the governance thereof; and (c) to prevent any change in its articles of incorporation, bylaws or other governing documents deemed inappropriate. In addition, a Sponsoring Plan or Plans shall own at least Nzz' of any for profit Life and Disability Controlled Affiliate.

Standard 2 - State Licensure

The licensee must maintain unimpaired licensure or certificate of authority to operate under applicable state laws as a life company in each state in which the licensee does business.

Standard 3 - Records and Examination

The licensee shall maintain and furnish, on a timely and accurate basis, such records and reports regarding the licensee as may be required in order to establish compliance with the Agreement. The licensee shall permit BCBSA to e1amine the affairs of the licensee and shall agree that BCBSAjs board may submit a written report to the chief e1ecutive officer(s) and the board(s) of directors of the Sponsoring Plan(s).

Standard 4 - Mediation

The licensee, its Sponsoring Plan(s) and all consenting Blue Plans shall agree to use the then"current BCBSA mediation and mandatory dispute resolution processes, in lieu of a legal action between or among another licensed Life and Disability Controlled Affiliate, a Sponsoring Plan and or consenting Blue Plan or BCBSA.

EXHIBIT A
LICENSE STANDARDS APPLICABLE TO TRADEMARK LICENSE AGREEMENT FOR LIFE AND DISABILITY INSURANCE PRODUCTS Page 2 of 2

Standard 5 - Financial Responsibility

The licensee shall maintain adequate financial resources to protect its customers and meet its business obligations.

Standard 6 - Cooperation with BCBSA Governance

The licensee shall cooperate with BCBSA's Board of Directors and its Brand Enhancement & Protection Committee in the administration of and in addressing licensee compliance problems that may be identified in connection with the operation or administration of the Trademark License Agreement for Life and Disability Insurance Products.

EXHIBIT B

CONSENT AGREEMENT

This Consent Agreement is made and entered into by and among the undersigned Blue Plan, and_____ (FLife and Disability Controlled Affiliate:), and the Blue Cross and Blue Shield Association (FBCBSA:) and shall be deemed effective on_____ (FEffective Date:).

Whereas, BCBSA owns the Blue Cross and Blue Shield word and design service marks and any derivative mark thereof (the FBrands:);

Whereas, the undersigned Blue Plan is licensed to use one or more of the Brands within a specific geographic area (FService Area:);

Whereas Life and Disability Controlled Affiliate is licensed by BCBSA to use one or more of the Brands to offer life and disability insurance products (FProducts:) as defined and authoriIed in the Trademark License Agreement for Life and Disability Insurance Products (FLife and Disability License Agreement:);

Whereas neither the Blue Plan nor its affiliates offer the Products under any of the Brands in such Blue Plan5s Service Area or portion thereof where Blue Plan has consented to sale of the Products by Life and Disability Controlled Affiliate; and

Whereas BCBSA and the undersigned Blue Plan desire to consent to Life and Disability Controlled Affiliate5s use of the Brands in Blue Plan5s Service Area consistent with the terms of the Life and Disability License Agreement and this Consent Agreement.

9 ow, therefore, in consideration of the obligations and conditions stated in this Agreement, Blue Plan, Life and Disability Controlled Affiliate and BCBSA agree as followsx

N Life and Disability Controlled Affiliate may market, sell, administer and underwrite the Products in Blue Plan5s Service Area under the Brands licensed to Blue Plan in such Service Area sub4ect to the terms of this Consent Agreement, the Life and Disability License Agreement and Blue Plan5s license agreement(s) with BCBSA. Life and Disability Controlled Affiliate5s rights under the Brands to offer the Products under the Brands are limited to offering the Products only under the Brand(s) licensed to the consenting Blue Plan.

G Life and Disability Controlled Affiliate shall work with the undersigned Blue Plan to develop a written sales and marketing agreement that identifies the relationship between it and Blue Plan for the sales,

marketing and customer service for the Products. The term of the sales and marketing agreement shall be the same as the term of this Consent Agreement.

0. All sales, marketing and advertising materials developed by and proposed for use by Life and Disability Controlled Affiliate in a consenting Blue Plan5s Service Area must clearly identify the consenting Blue Plan (for e1ample, a statement on such materials that reads FThis product is offered with the cooperation of Blue Cross and/or Blue Shield of]- eography®);

’ . Life and Disability Controlled Affiliate may use the Brands to sell the Products in the following Service Area or portion thereof as designated by Blue Planx

_____

“. Of two or more Blue Plans to use the same Licensed Marks in the same Service Area, Life and Disability Controlled Affiliate shall work with the consenting Blue Plan in the following mannerx(a) the sales, marketing and advertising materials must be communicated to the consenting Blue Plan5s e1isting and prospective accounts through or with the approval of such Blue Plan, and (b) the personnel of such Blue Plan must actively participate in all sales and marketing activities conducted by Life and Disability Controlled Affiliate in the same Service Area, including participating in meetings (whether in”person or via telephone, video or internet conference) with both e1isting and prospective accounts of the consenting Blue Plan;

% Life and Disability Controlled Affiliate shall be entitled to use in a Service Area only those Licensed Marks that the consenting Blue Plan has been granted by BCBSA the license to use under its license agreement (for e1ample, if a consenting Blue Plan is licensed to use only the Blue Cross Marks in its Service Area, the materials used by Life and Disability Controlled Affiliate in that Service Area may only contain or reference the Blue Cross Marks and not the Blue Shield Marks).

3. Of this Consent Agreement is terminated, Life and Disability Controlled Affiliate shall, unless each BCBSA and the Blue Plan agree in their sole discretion to a phase out in writing, immediately (i) cease all use of the Licensed Marks, including in connection with any and all sales and marketing of the Licensed Products in the Service Area where consent has been terminated, and (ii) notify its customers that it is no longer a licensee of BCBSA and provide instruction on how the customer can contact BCBSA or a designated licensee to obtain further information on securing coverage. The notification required by this paragraph shall be in writing and in form approved by BCBSA.

6. The term of this Consent Agreement shall be one year from the Effective Date. Unless either Blue Plan or Life and Disability Controlled Affiliate provides the other party with written notice of its desire not to renew this Consent Agreement at least %z days prior to e1piration of the term or any e1tended term or unless terminated as provided in Paragraph 8 below, this Consent Agreement shall automatically renew for subsequent one year periods.

8. This Consent Agreement may be terminated as followsx

A. Upon mutual written consent of Life and Disability Controlled Affiliate and Blue Plan;

B. By Blue Plan or Life and Disability Controlled Affiliate upon %z days advance written notice to the non" terminating party and BCBSA; or

C. By Blue Plan immediately if Life and Disability Controlled Affiliate does not comply with this Consent Agreement or the sales protocol agreement.

Nz. This Consent Agreement shall automatically terminate if Blue Plan5s primary licensee agreement terminates for any reason or if the Life and Disability License Agreement terminates for any reason.

BLUE SHIELD
CONTROLLED AFFILIATE LICENSE AGREEMENT
APPLICABLE TO REGIONAL MEDICARE ADVANTAGE PPO PRODUCTS
(Adopted by Member Plans at their November 18, 2016)

This Agreement by and among Blue Cross and Blue Shield Association ("BCBSA") and_____ (FControlled Affiliate"), a Controlled Affiliate of the Blue Cross Plan(s), known as_____ ("Controlling Plans"), each of which is also a Party signatory hereto.

WHEREAS, BCBSA is the owner of the BLUE SHOELD and BLUE SHOELD Design service marks;

WHEREAS, under the Medicare ModerniIation Act, companies may apply to and be awarded a contract by the Centers for Medicare and Medicaid Services (FCMS:) to offer Medicare Advantage PP7 products in geographic regions designated by CMS (hereafter Fregional MAPP7 products:).

WHEREAS, some of the CMS"designated regions include the Service Areas, or portions thereof, of more than one Plan.

WHEREAS, the Controlling Plans and Controlled Affiliate desire that the latter be entitled to use the BLUE SHOELD and BLUE SHOELD Design service marks (collectively the "Licensed Marks") as service marks and be entitled to use the term BLUE SHOELD in a trade name ("Licensed 9 ame") to offer regional MAPP7 products in a region that includes the Service Areas, or portions thereof, of more than one Controlling Plan;

9 7 W THERE27 RE, in consideration of the foregoing and the mutual agreements hereinafter set forth and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereby agree as followsx

1. GRANT OF LICENSE

Sub4ect to the terms and conditions of this Agreement, BCBSA hereby grants to Controlled Affiliate the right to use the Licensed Marks and 9 ame in connection with, and only in connection with the sale, marketing and administration of regional MAPP7 products and related services.

This grant of rights is non"e1clusive and is limited to the following statesx _____ (the FRegion:). Controlled Affiliate may use the Licensed

Marks and 9 ame in its legal name on the following conditionsx(i) the legal name must be approved in advance, in writing, by BCBSA; (ii) Controlled Affiliate shall not do business outside the Region under any name or mark e1cept business conducted in the Service Area of a Controlling Plan provided that Controlled Affiliate is separately licensed by BCBSA to use the Licensed Marks and 9 ame in connection with health care plans and related services in the Service Area of such Controlling Plan; and (iii) Controlled Affiliate shall not use the Licensed Marks and 9 ame, or any derivative thereof, as part of any name or symbol used to identify itself in any securities market. Controlled Affiliate may use the Licensed Marks and 9 ame in its Trade 9 ame only with the prior, written, consent of BCBSA.

2. QUALITY CONTROL

A. Controlled Affiliate agrees to use the Licensed Marks and 9 ame only in connection with the licensed services and further agrees to be bound by the conditions regarding quality control shown in attached E1hibit A as they may be amended by BCBSA from time"to"time.

B. Controlled Affiliate agrees to comply with all applicable federal, state and local laws.

C. Controlled Affiliate agrees that it will provide on an annual basis (or more often if reasonably required by the Controlling Plans or by BCBSA) a report or reports to the Controlling Plans and BCBSA demonstrating Controlled Affiliatejs compliance with the requirements of this Agreement including but not limited to the quality control provisions of this paragraph and the attached E1hibit A.

D. Controlled Affiliate agrees that the Controlling Plans and/or BCBSA may, from time"to"time, upon reasonable notice, review and inspect the manner and method of Controlled Affiliatejs rendering of service and use of the Licensed Marks and 9 ame.

E. As used herein, a Controlled Affiliate is defined as an entity organiIed and operated in such a manner, that it meets the following requirementsx

(N) Controlled Affiliate is owned or controlled by two or more Controlling Plans;

(G) Each Controlling Plan is authoriIed pursuant to a separate Blue Shield License Agreement to use the Licensed Marks in a geographic area in the Region and every geographic area in the Region is so licensed to at least one of the Controlling Plans; and

(0) The Controlling Plans must have the legal authority directly or indirectly through wholly”owned subsidiariesx

(a) to select members of the Controlled Affiliate5s governing body having not less than Nzz' voting control thereof;

(b) to prevent any change in the articles of incorporation, bylaws or other establishing or governing documents of the Controlled Affiliate with which the Controlling Plans do not concur;

(c) to e1ercise control over the policy and operations of the Controlled Affiliate; and

9 otwithstanding anything to the contrary in (a) through (c) hereof, the Controlled Affiliate5s establishing or governing documents must also require written approval by each of the Controlling Plans before the Controlled Affiliate canx

(i) change its legal and/or trade names;

(ii) change the geographic area in which it operates (e1cept such approval shall not be required with respect to business of the Controlled Affiliate conducted under the Licensed Marks within the Service Area of one of the Controlling Plans pursuant to a separate controlled affiliate license agreement with BCBSA sponsored by such Controlling Plan);

(iii) change any of the type(s) of businesses in which it engages (e1cept such approval shall not be required with respect to business of the Controlled Affiliate conducted under the Licensed Marks within the Service Area of one of the Controlling Plans pursuant to a separate controlled affiliate license agreement with BCBSA sponsored by such Controlling Plan);

(iv) take any action that any Controlling Plan or BCBSA reasonably believes will adversely affect the Licensed Marks and 9 ame.

0n addition, the Controlling Plans directly or indirectly through wholly owned subsidiaries shall own Nzz' of any for”profit Controlled Affiliate.

3. SERVICE MARK USE

A. Controlled Affiliate recogniIes the importance of a comprehensive national network of independent BCBSA licensees which are committed to strengthening the Licensed Marks and 9 ame. The Controlled Affiliate further recogniIes that its actions within the Region may affect the value of the Licensed Marks and 9 ame nationwide.

B. Controlled Affiliate shall at all times make proper service mark use of the Licensed Marks and 9 ame, including but not limited to use of such symbols or words as BCBSA shall specify to protect the Licensed Marks and 9 ame and shall comply with such rules (generally applicable to Controlled Affiliates licensed to use the Licensed Marks and 9 ame) relative to service mark use, as are issued from time'to'time by BCBSA. Controlled Affiliate recogniIes and agrees that all use of the Licensed Marks and 9 ame by Controlled Affiliate shall inure to the benefit of BCBSA.

C. Controlled Affiliate may not directly or indirectly use the Licensed Marks and 9 ame in a manner that transfers or is intended to transfer in the Region the goodwill associated therewith to another mark or name, nor may Controlled Affiliate engage in activity that may dilute or tarnish the unique value of the Licensed Marks and 9 ame.

D. Controlled Affiliate shall use its best efforts to promote and build the value of the Licensed Marks and 9 ame in connection with the sale, marketing and administration of regional MAPP7 products and related services.

4. SUBLICENSING AND ASSIGNMENT

Controlled Affiliate shall not, directly or indirectly, sublicense, transfer, hypothecate, sell, encumber or mortgage, by operation of law or otherwise, the rights granted hereunder and any such act shall be voidable at the sole option of any Controlling Plan or BCBSA. This Agreement and all rights and duties hereunder are personal to Controlled Affiliate.

5. INFRINGEMENT

Controlled Affiliate shall promptly notify the Controlling Plans and the Controlling Plans shall promptly notify BCBSA of any suspected acts of infringement, unfair competition or passing off that may occur in relation to the Licensed Marks and 9 ame. Controlled Affiliate shall not be entitled to require the Controlling Plans or BCBSA to take any actions or institute any proceedings to prevent infringement, unfair competition or passing off by third parties. Controlled Affiliate agrees to render to the Controlling Plans and BCBSA, without charge, all reasonable assistance in connection with any matter pertaining to the protection of the Licensed Marks and 9 ame by BCBSA.

6. LIABILITY INDEMNIFICATION

Controlled Affiliate and the Controlling Plans hereby agree to save, defend, indemnify and hold BCBSA harmless from and against all claims, damages, liabilities and costs of every kind, nature and description (e1cept those arising solely as a result of BCBSAjs negligence) that may arise as a result of or related to Controlled Affiliatejs rendering of services under the Licensed Marks and 9 ame.

7. LICENSE TERM

A. E1cept as otherwise provided herein, the license granted by this Agreement shall remain in effect for a period of one (N) year and shall be automatically e1tended for additional one (N) year periods unless terminated pursuant to the provisions herein.

B. This Agreement and all of Controlled Affiliatejs rights hereunder shall immediately terminate without any further action by any party or entity in the event thatx(i) any one of the Controlling Plans ceases to be authoriIed to use the Licensed Marks and 9 ame; or (ii) pursuant to Paragraph N‘(a)(1) of the Blue Shield License Agreement any one of the Controlling Plans ceases to be authoriIed to use the Licensed 9 ames and Marks in the Region.

C. 9 otwithstanding any other provision of this Agreement, this license to use the Licensed Marks and 9 ame may be forthwith terminated by the Controlling Plans or the affirmative vote of the ma4ority of the Board of Directors of BCBSA present and voting at a special meeting e1pressly called by BCBSA for the purpose on ten (Nz) days written notice to the Controlling Plans advising of the specific matters at issue and granting the Controlling Plans an opportunity to be heard and to present their response to the Board forx(N) failure to comply with any applicable minimum capital or liquidity requirement under the quality control standards of this Agreement; or (G) failure to comply with the "7 rganiIation and - overnance" quality control standard of this Agreement; or (0) impending financial insolvency; or (’) failure to comply with any of the applicable requirements of Standards G; 0, ’ , or “ of attached E1hibit A; or (“) the pendency of any action instituted against the
Controlled Affiliate seeking its dissolution or liquidation of its assets or seeking

appointment of a trustee, interim trustee, receiver or other custodian for any of its property or business or seeking the declaration or establishment of a trust for any of its property or business, unless this Controlled Affiliate License Agreement has been earlier terminated under paragraph 3(E); or (%) such other reason as is determined in good faith immediately and irreparably to threaten the integrity and reputation of BCBSA, the Plans (including the Controlling Plans), any other licensee including Controlled Affiliate and/or the Licensed Marks and 9 ame.

D. E1cept as otherwise provided in Paragraphs 3(B), 3(C) or 3(E) herein, should Controlled Affiliate fail to comply with the provisions of this Agreement and not cure such failure within thirty (0z) days of receiving written notice thereof (or commence a cure within such thirty day period and continue diligent efforts to complete the cure if such curing cannot reasonably be completed within such thirty day period) BCBSA or the Controlling Plans shall have the right to issue a notice that the Controlled Affiliate is in a state of noncompliance. Of a state of noncompliance as aforesaid is undisputed by the Controlled Affiliate or is found to e1ist by a mandatory dispute resolution panel and is uncured as provided above, BCBSA shall have the right to seek 4udicial enforcement of the Agreement or to issue a notice of termination thereof. 9 otwithstanding any other provisions of this Agreement, any disputes as to the termination of this License pursuant to Paragraphs 3(B), 3(C) or 3(E) of this Agreement shall not be sub4ect to mediation and mandatory dispute resolution. All other disputes between or among BCBSA, any of the Controlling Plans and/or Controlled Affiliate shall be submitted promptly to mediation and mandatory dispute resolution. The mandatory dispute resolution panel shall have authority to issue orders for specific performance and assess monetary penalties. E1cept, however, as provided in Paragraphs 3(B) and 3(E) of this Agreement, this license to use the Licensed Marks and 9 ame may not be finally terminated for any reason without the affirmative vote of a ma4ority of the present and voting members of the Board of Directors of BCBSA.

E. This Agreement and all of Controlled Affiliatejs rights hereunder shall immediately terminate without any further action by any party or entity in the event thatx

(N) Controlled Affiliate shall no longer comply with item G(E) above;

(G) Appropriate dues, royalties and other payments for Controlled Affiliate pursuant to paragraph 8 hereof, which are the royalties for this License Agreement, are more than si1ty (%z) days in arrears to BCBSA; or

(0) Any of the following events occurx(i) a voluntary petition shall be filed by Controlled Affiliate seeking bankruptcy, reorganiIation, arrangement with creditors or other relief under the bankruptcy laws of the United States or any other law governing insolvency or debtor relief, or (ii) an involuntary petition or proceeding shall be filed against Controlled Affiliate seeking bankruptcy, reorganiIation, arrangement with creditors or other relief under the bankruptcy laws of the United States or any other law governing insolvency or debtor relief and such petition or

proceeding is consented to or acquiesced in by Controlled Affiliate or is not dismissed within si1ty (%z) days of the date upon which the petition or other document commencing the proceeding is served upon the Controlled Affiliate, or (iii) an order for relief is entered against Controlled Affiliate in any case under the bankruptcy laws of the United States, or Controlled Affiliate is ad4udged bankrupt or insolvent as those terms are defined in the Uniform Commercial Code as enacted in the State of 0linois by any court of competent 4urisdiction, or (iv) Controlled Affiliate makes a general assignment of its assets for the benefit of creditors, or (v) any government or any government official, office, agency, branch, or unit assumes control of Controlled Affiliate or delinquency proceedings (voluntary or involuntary) are instituted, or (vi) an action is brought by Controlled Affiliate seeking its dissolution or liquidation of its assets or seeking the appointment of a trustee, interim trustee, receiver or other custodian for any of its property or business, or (vii) an action is instituted by any governmental entity or officer against Controlled Affiliate seeking its dissolution or liquidation of its assets or seeking the appointment of a trustee, interim trustee, receiver or other custodian for any of its property or business and such action is consented to or acquiesced in by Controlled Affiliate or is not dismissed within one hundred thirty (N0z) days of the date upon which the pleading or other document commencing the action is served upon the Controlled Affiliate, provided that if the action is stayed or its prosecution is en4oined, the one hundred thirty (N0z) day period is tolled for the duration of the stay or in4unction, and provided further, that the Association5s Board of Directors may toll or e1tend the N0z day period at any time prior to its e1piration, or (viii) a trustee, interim trustee, receiver or other custodian for any of Controlled Affiliatejs property or business is appointed or the Controlled Affiliate is ordered dissolved or liquidated. 9 otwithstanding any other provision of this Agreement, a declaration or a request for declaration of the e1istence of a trust over any of the Controlled Affiliate5s property or business shall not in itself be deemed to constitute or seek appointment of a trustee, interim trustee, receiver or other custodian for purposes of subparagraphs 3(E)(0)(vii) and (viii) of this Agreement.

2. Upon termination of this Agreement for cause or otherwise, Controlled Affiliate agrees that it shall immediately discontinue all use of the Licensed Marks and 9 ame, including any use in its trade name, e1cept to the e1tent that it continues to be authoriIed to use the Licensed Marks within the Service Area of one of the Controlling Plans pursuant to a separate controlled affiliate license agreement with BCBSA sponsored by such Controlling Plan.

- . Upon termination of this Agreement, Controlled Affiliate shall immediately notify all of its customers to whom it provides products or services under the Licensed Marks pursuant to this Agreement that it is no longer a licensee of BCBSA and, if directed by the Association5s Board of Directors, shall provide instruction on how the customer can contact BCBSA or a designated licensee to obtain further information on securing coverage. The notification required by this paragraph shall be in writing and in a form approved by BCBSA. The BCBSA shall

have the right to audit the terminated entityjs books and records to verify compliance with this paragraph.

H. On the event this Agreement terminates pursuant to 3(B) hereof, upon termination of this Agreement the provisions of Paragraph 3(-) shall not apply and the following provisions shall apply, e1cept that, in the event that Controlled Affiliate is separately licensed by BCBSA to use the Licensed Marks in the Service Area of a Controlling Plan and termination of this Agreement is due to a partial termination of such Controlling Plan5s license pursuant to Paragraph N‘(a)(1)(ii) of the Blue Shield License Agreement, the notices, national account listing, payment, and audit right listed below shall be applicable solely with respect to the Region and the geographic area for which the Controlling Plan5s license to use the Licensed 9 ames and Marks is terminatedx

(N) The Controlled Affiliate shall send a notice through the U.S. mails, with first class postage affi1ed, to all individual and group customers, providers, brokers and agents of products or services sold, marketed, underwritten or administered by the Controlled Affiliate under the Licensed Marks and 9 ame. The form and content of the notice shall be specified by BCBSA and shall, at a minimum, notify the recipient of the termination of the license, the consequences thereof, and instructions for obtaining alternate products or services licensed by BCBSA. This notice shall be mailed within N‘ days after termination.

(G) The Controlled Affiliate shall deliver to BCBSA within five days of a request by BCBSA a listing of national accounts in which the Controlled Affiliate is involved (in a control, participating or servicing capacity), identifying the national account and the Controlled Affiliate5s role therein.

(0) Unless the cause of termination is an event respecting BCBSA stated in paragraph N‘(a) or (b) of the Plan5s license agreement with BCBSA to use the Licensed Marks and 9 ame, the Controlled Affiliate, the Controlling Plans, and any other Licensed Controlled Affiliates of the Controlling Plans shall be 4intly liable for payment to BCBSA of an amount equal to $G‘ multiplied by the number of Licensed Enrollees of the Controlled Affiliate; provided that if any Plan other than a Controlling Plan is permitted by BCBSA to use marks or names licensed by BCBSA in a geographic area in the Region, the payment for Licensed Enrollees in such geographic area shall be multiplied by a fraction, the numerator of which is the number of Licensed Enrollees of the Controlled Affiliate, the Controlling Plans, and any other Licensed Controlled Affiliates of the Controlling Plans in such geographic area and the denominator of which is the total number of Licensed Enrollees in such geographic area. Licensed Enrollee means each and every person and covered dependent who is enrolled as an individual or member of a group receiving products or services sold, marketed or administered under marks or names licensed by BCBSA as determined at the earlier of (i) the end of the last fiscal year of the terminated entity which ended prior to termination or (ii) the fiscal year which ended before any transactions causing the termination began. 9 otwithstanding the

foregoing, the amount payable pursuant to this subparagraph H. (0) shall be due only to the e1tent that, in BCBSA5s opinion, it does not cause the net worth of the Controlled Affiliate, the Controlling Plans or any other Licensed Controlled Affiliates of the Controlling Plans to fall below Nzz' of the Health Risk'Based Capital formula, or its equivalent under any successor formula, as set forth in the applicable financial responsibility standards established by BCBSA (provided such equivalent is approved for purposes of this subparagraph by the affirmative vote of three'fourths of the Plans and three'fourths of the total then current weighted vote of all the Plans); measured as of the date of termination, and ad4usted for the value of any transactions not made in the ordinary course of business. This payment shall not be due in connection with transactions e1clusively by or among Plans (including the Controlling Plans) or their affiliates, including reorganiIations, combinations or mergers, where the BCBSA Board of Directors determines that the license termination does not result in a material diminution in the number of Licensed Enrollees or the e1tent of their coverage. O0 the event that the Controlled Affiliate5s license is reinstated by BCBSA or is deemed to have remained in effect without interruption by a court of competent 4urisdiction, BCBSA shall reimburse the Controlled Affiliate (and/or the Controlling Plans or their other Licensed Controlled Affiliates, as the case may be) for payments made under this subparagraph 3.H.(0) only to the e1tent that such payments e1ceed the amounts due to BCBSA pursuant to paragraph 3.K. and any costs associated with reestablishing the terminated Controlling Plan5s Service Area or the Region, including any payments made by BCBSA to a Plan or Plans (including the other Controlling Plans), or their Licensed Controlled Affiliates, for purposes of replacing the Controlled Affiliate.

(') BCBSA shall have the right to audit the books and records of the Controlled Affiliate, the Controlling Plans, and any other Licensed Controlled Affiliates of the Controlling Plans to verify compliance with this paragraph 3.H.

(“) As to a breach of 3.H.(N), (G), (0) or ('), the parties agree that the obligations are immediately enforceable in a court of competent 4urisdiction. As to a breach of 3.H.(N), (G) or (') by the Controlled Affiliate, the parties agree there is no adequate remedy at law and BCBSA is entitled to obtain specific performance.

O BCBSA shall be entitled to en4oin the Controlled Affiliate or any related party in a court of competent 4urisdiction from entry into any transaction which would result in a termination of this Agreement unless a Controlling Plan5s license from BCBSA to use the Licensed Marks and 9 ames has been terminated pursuant to Nz(d) of such Controlling Plan5s license agreement upon the required %0month written notice.

J. BCBSA acknowledges that it is not the owner of assets of the Controlled Affiliate.

K. O0 the event this Agreement terminates and is subsequently reinstated by BCBSA or is deemed to have remained in effect without interruption by a court of competent 4urisdiction, the Controlled Affiliate, the Controlling Plans, and any other

Licensed Controlled Affiliates of the Controlling Plans shall be 4oint liable for reimbursing BCBSA the reasonable costs incurred by BCBSA in connection with the termination and the reinstatement or court action, and any associated legal proceedings, including but not limited toxoutside legal fees, consulting fees, public relations fees, advertising costs, and costs incurred to develop, lease or establish an interim provider network. Any amount due to BCBSA under this subparagraph may be waived in whole or in part by the BCBSA Board of Directors in its sole discretion.

8. DISPUTE RESOLUTION

The parties agree that any disputes between or among them or between or among any of them and one or more Plans or Controlled Affiliates of Plans that use in any manner the Blue Shield and Blue Shield Marks and 9 ame are sub4ect to the

Mediation and Mandatory Dispute Resolution process attached to and made a part of each Controlling Plan5s License from BCBSA to use the Licensed Marks and 9 ame as E1hibit " as amended from time"to"time, which documents are incorporated herein by reference as though fully set forth herein.

9. LICENSE FEE

Controlled Affiliate will pay to BCBSA a fee for this License determined pursuant to the formula(s) set forth in E1hibit B.

10. JOINT VENTURE

9 othing contained in this Agreement shall be construed as creating a 4oint venture, partnership, agency or employment relationship between the Controlling Plans and Controlled Affiliate or between either and BCBSA.

11. NOTICES AND CORRESPONDENCE

9 otices regarding the sub4ect matter of this Agreement or breach or termination thereof shall be in writing and shall be addressed in duplicate to the last known address of each other party, marked respectively to the attention of its President and, if any, its - eneral Counsel.

12. COMPLETE AGREEMENT

This Agreement contains the complete understandings of the parties in relation to the sub4ect matter hereof. This Agreement may only be amended by the affirmative vote of three"fourths of the Plans and three"fourths of the total then current weighted vote of all the Plans as officially recorded by the BCBSA Corporate Secretary.

13. SEVERABILITY

Of any term of this Agreement is held to be unlawful by a court of competent 4urisdiction, such findings shall in no way affect the remaining obligations of the parties hereunder and the court may substitute a lawful term or condition for any unlawful term or condition so long as the effect of such substitution is to provide the parties with the benefits of this Agreement.

14. NONWAIVER

9 o waiver by BCBSA of any breach or default in performance on the part of Controlled Affiliate or any other licensee of any of the terms, covenants or conditions of this Agreement shall constitute a waiver of any subsequent breach or default in performance of said terms, covenants or conditions.

14A. VOTING

2or all provisions of this Agreement referring to voting, the term 'Plans5shall mean all entities licensed under the Blue Cross License Agreement and/or the Blue Shield License Agreement, and in all votes of the Plans under this Agreement the Plans shall vote together. 2or weighted votes of the Plans, the Plan shall have a number of votes equal to the number of weighted votes (if any) that it holds as a Blue Cross Plan plus the number of weighted votes (if any) that it holds as a Blue Shield Plan. 2or all other votes of the Plans, the Plan shall have one vote. 2or all questions requiring an affirmative three"fourths weighted vote of the Plans, the requirement shall be deemed satisfied with a lesser weighted vote unless the greater ofx(i) %"Gor more of the Plans (rounded to the nearest whole number, with z." or multiples thereof being rounded to the ne1t higher whole number) fail to cast weighted votes in favor of the question; or (ii) three (0) of the Plans fail to cast weighted votes in favor of the question. 9 otwithstanding the foregoing provision, if there are thirty"nine (08) Plans, the requirement of an affirmative three"fourths weighted vote shall be deemed satisfied with a lesser weighted vote unless four (') or more Plans fail to cast weighted votes in favor of the question.

15. GOVERNING LAW

This Agreement shall be governed by, and construed and interpreted in accordance with, the laws of the State of 0linois.

16. HEADINGS

The headings inserted in this agreement are for convenience only and shall have no bearing on the interpretation hereof.

Ø WCT9 ESS WHERE7 2, the parties have caused this License Agreement to be e1ecuted and effective as of the date of last signature written below.

EXHIBIT A

CONTROLLED AFFILIATE LICENSE STANDARDS APPLICABLE TO REGIONAL MEDICARE ADVANTAGE PPO PRODUCTS
November 2016

PREAMBLE

The standards for licensing Controlled Affiliates for Medicare Advantage PP7 Products are established by BCBSA and are sub4ect to change from time"to"time upon the affirmative vote of three"fourths (0/') of the Plans and three"fourths (0/') of the total weighted vote. Each Controlling Plan is required to use a standard Controlled Affiliate license form provided by BCBSA and to cooperate fully in assuring that the licensed Controlled Affiliate maintains compliance with the license standards.

Standard 1 - Organization and Governance

A Controlled Affiliate is defined as an entity organiIed and operated in such a manner, that it meets the following requirementsx

(N) Controlled Affiliate is owned or controlled by two or more Controlling Plans;

(G) Each Controlling Plan is authoriIed pursuant to a separate Blue Shield License Agreement to use the Licensed Marks in a geographic area in the Region and every geographic area in the Region is so licensed to at least one of the Controlling Plans; and

(0) The Controlling Plans must have the legal authority directly or indirectly through wholly"owned subsidiariesx

(a) to select members of the Controlled Affiliate5s governing body having not less than Nzz' voting control thereof;

(b) prevent any change in the articles of incorporation, bylaws or other establishing or governing documents of the Controlled Affiliate with which the Controlling Plans do not concur;

(c) e1ercise control over the policy and operations of the Controlled Affiliate; and

EXHIBIT A (continued)

9 otwithstanding anything to the contrary in (a) through (c) hereof, the Controlled Affiliate5s establishing or governing documents must also require written approval by each of the Controlling Plans before the Controlled Affiliate canx

(i) change its legal and/or trade names;

(ii) change the geographic area in which it operates (e1cept such approval shall not be required with respect to business of the Controlled Affiliate conducted under the Licensed Marks within the Service Area of one of the Controlling Plans pursuant to a separate controlled affiliate license agreement with BCBSA sponsored by such Controlling Plan);

(iii) change any of the type(s) of businesses in which it engages (e1cept such approval shall not be required with respect to business of the Controlled Affiliate conducted under the Licensed Marks within the Service Area of one of the Controlling Plans pursuant to a separate controlled affiliate license agreement with BCBSA sponsored by such Controlling Plan);

(iv) take any action that any Controlling Plan or BCBSA reasonably believes will adversely affect the Licensed Marks and 9 ame.

Oa addition, the Controlling Plans directly or indirectly through wholly"owned subsidiaries shall own Nzz' of any for"profit Controlled Affiliate.

Standard 2 - Financial Responsibility

A Controlled Affiliate shall be operated in a manner that provides reasonable financial assurance that it can fulfill all of its contractual obligations to its customers.

Standard 3 - State Licensure/Certification

A Controlled Affiliate shall maintain appropriate and unimpaired licensure and certifications.

EXHIBIT A (continued)

Standard 4 - Certain Disclosures

A Controlled Affiliate shall make adequate disclosure in contracting with third parties and in disseminating public statements ofx

a. the structure of the Blue Cross and Blue Shield System; and
b. the independent nature of every licensee.

Standard 5 - Reports and Records for Controlled Affiliates

A Controlled Affiliate and/or its Controlling Plans shall furnish, on a timely and accurate basis, reports and records relating to these Standards and the License Agreements between BCBSA and Controlled Affiliate.

Standard 6 - Best Efforts

During each year, a Controlled Affiliate shall use its best efforts to promote and build the value of the Blue Shield Marks.

Standard 7 - Participation in Certain National Programs

A Controlled Affiliate shall effectively and efficiently participate in certain national programs from time to time as may be adopted by Member Plans for the purposes of providing ease of claims processing for customers receiving benefits outside of the Controlled Affiliate5s service area.

9 ational program requirements includex

a. Oter'Plan Teleprocessing System (OTS); and

b. Oter'Plan Medicare Advantage Program.

Standard 8 - Participation in Master Business Associate Agreement

Controlled Affiliates shall comply with the terms of the Business Associate Agreement for Blue Cross and Blue Shield Licensees to the e1tent they perform the functions of a business associate or subcontractor to a business associate, as defined by the Business Associate Agreement.

Amended as of November 15, 2007

EXHIBIT B

**ROYALTY FORMULA FOR SECTION 9 OF THE
CONTROLLED AFFILIATE LICENSE AGREEMENTS
APPLICABLE TO REGIONAL MEDICARE ADVANTAGE PPO PRODUCTS**

Controlled Affiliate will pay BCBSA a fee for this license in accordance with the following formulax

An amount equal to its pro rata share of each Controlling Plan dues payable to BCBSA computed with the addition of the Controlled Affiliatejs members using the Marks on regional MAPP7 products and related services as reported on the Quarterly Enrollment Report with BCBSA. The payment by each Controlling Plan of its dues to BCBSA, including that portion described in this paragraph, will satisfy the requirement of this paragraph, and no separate payment will be necessary.

Amended as of June 14, 2007

E1hibit NC

BLUE SHIELD
CONTROLLED AFFILIATE LICENSE AGREEMENT
APPLICABLE TO REGIONAL MEDICARE PART D PRESCRIPTION DRUG PLAN PRODUCTS
(Adopted by Member Plans at their November 18, 2016 meeting)

This Agreement by and among Blue Cross and Blue Shield Association ("BCBSA") and_____ (FControlled Affiliate"), a Controlled Affiliate of the Blue Cross Plan(s), known as_____ ("Controlling Plans"), each of which is also a Party signatory hereto.

WHEREAS, BCBSA is the owner of the BLUE SHOELD and BLUE SHOELD Design service marks;

WHEREAS, under the Medicare ModerniIation Act, companies may apply to and be awarded a contract by the Centers for Medicare and Medicaid Services (FCMS:) to offer Medicare Part D Prescription Drug Plan products in geographic regions designated by CMS (hereafter Fregional PDP products:).

WHEREAS, some of the CMS"designated regions include the Service Areas, or portions thereof, of more than one Plan.

WHEREAS, the Controlling Plans and Controlled Affiliate desire that the latter be entitled to use the BLUE SHOELD and BLUE SHOELD Design service marks (collectively the "Licensed Marks") as service marks and be entitled to use the term BLUE SHOELD in a trade name ("Licensed 9 ame") to offer regional PDP products in a region that includes the Service Areas, or portions thereof, of more than one Controlling Plan;

9 7 W THERE27 RE, in consideration of the foregoing and the mutual agreements hereinafter set forth and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereby agree as followsx

1. GRANT OF LICENSE

Sub4ect to the terms and conditions of this Agreement, BCBSA hereby grants to Controlled Affiliate the right to use the Licensed Marks and 9 ame in connection with, and only in connection with the sale, marketing and administration of regional PDP products and related services.

This grant of rights is non"e1clusive and is limited to the following statesx _____ (the FRegion:). Controlled Affiliate may use the Licensed

Marks and 9 ame in its legal name on the following conditionsx(i) the legal name must be approved in advance, in writing, by BCBSA; (ii) Controlled Affiliate shall not do business outside the Region under any name or mark e1cept business conducted in the Service Area of a Controlling Plan provided that Controlled Affiliate is separately licensed by BCBSA to use the Licensed Marks and 9 ame in connection with health care plans and related services in the Service Area of such Controlling Plan; and (iii) Controlled Affiliate shall not use the Licensed Marks and 9 ame, or any derivative thereof, as part of any name or symbol used to identify itself in any securities market. Controlled Affiliate may use the Licensed Marks and 9 ame in its Trade 9 ame only with the prior, written, consent of BCBSA.

2. QUALITY CONTROL

A. Controlled Affiliate agrees to use the Licensed Marks and 9 ame only in connection with the licensed services and further agrees to be bound by the conditions regarding quality control shown in attached E1hibit A as they may be amended by BCBSA from time"to"time.

B. Controlled Affiliate agrees to comply with all applicable federal, state and local laws.

C. Controlled Affiliate agrees that it will provide on an annual basis (or more often if reasonably required by the Controlling Plans or by BCBSA) a report or reports to the Controlling Plans and BCBSA demonstrating Controlled Affiliatejs compliance with the requirements of this Agreement including but not limited to the quality control provisions of this paragraph and the attached E1hibit A.

D. Controlled Affiliate agrees that the Controlling Plans and/or BCBSA may, from time"to"time, upon reasonable notice, review and inspect the manner and method of Controlled Affiliatejs rendering of service and use of the Licensed Marks and 9 ame.

E. As used herein, a Controlled Affiliate is defined as an entity organiIed and operated in such a manner, that it meets the following requirementsx

(N) Controlled Affiliate is owned or controlled by two or more Controlling Plans;

(G) Each Controlling Plan is authoriIed pursuant to a separate Blue Shield License Agreement to use the Licensed Marks in a geographic area in the Region and every geographic area in the Region is so licensed to at least one of the Controlling Plans; and

(0) The Controlling Plans must have the legal authority directly or indirectly through wholly”owned subsidiariesx

(a) to select members of the Controlled Affiliate5s governing body having not less than Nzz' voting control thereof;

(b) to prevent any change in the articles of incorporation, bylaws or other establishing or governing documents of the Controlled Affiliate with which the Controlling Plans do not concur;

(c) to e1ercise control over the policy and operations of the Controlled Affiliate; and

9 otwithstanding anything to the contrary in (a) through (c) hereof, the Controlled Affiliate5s establishing or governing documents must also require written approval by each of the Controlling Plans before the Controlled Affiliate canx

(i) change its legal and/or trade names;

(ii) change the geographic area in which it operates (e1cept such approval shall not be required with respect to business of the Controlled Affiliate conducted under the Licensed Marks within the Service Area of one of the Controlling Plans pursuant to a separate controlled affiliate license agreement with BCBSA sponsored by such Controlling Plan);

(iii) change any of the type(s) of businesses in which it engages (e1cept such approval shall not be required with respect to business of the Controlled Affiliate conducted under the Licensed Marks within the Service Area of one of the Controlling Plans pursuant to a separate controlled affiliate license agreement with BCBSA sponsored by such Controlling Plan);

(iv) take any action that any Controlling Plan or BCBSA reasonably believes will adversely affect the Licensed Marks and 9 ame.

0n addition, the Controlling Plans directly or indirectly through wholly owned subsidiaries shall own Nzz' of any for”profit Controlled Affiliate.

3. SERVICE MARK USE

A. Controlled Affiliate recognizes the importance of a comprehensive national network of independent BCBSA licensees which are committed to strengthening the Licensed Marks and Name. The Controlled Affiliate further recognizes that its actions within the Region may affect the value of the Licensed Marks and Name nationwide.

B. Controlled Affiliate shall at all times make proper service mark use of the Licensed Marks and Name, including but not limited to use of such symbols or words as BCBSA shall specify to protect the Licensed Marks and Name and shall comply with such rules (generally applicable to Controlled Affiliates licensed to use the Licensed Marks and Name) relative to service mark use, as are issued from time to time by BCBSA. Controlled Affiliate recognizes and agrees that all use of the Licensed Marks and Name by Controlled Affiliate shall inure to the benefit of BCBSA.

C. Controlled Affiliate may not directly or indirectly use the Licensed Marks and Name in a manner that transfers or is intended to transfer in the Region the goodwill associated therewith to another mark or name, nor may Controlled Affiliate engage in activity that may dilute or tarnish the unique value of the Licensed Marks and Name.

D. Controlled Affiliate shall use its best efforts to promote and build the value of the Licensed Marks and Name in connection with the sale, marketing and administration of regional PDP products and related services.

4. SUBLICENSING AND ASSIGNMENT

Controlled Affiliate shall not, directly or indirectly, sublicense, transfer, hypothecate, sell, encumber or mortgage, by operation of law or otherwise, the rights granted hereunder and any such act shall be voidable at the sole option of any Controlling Plan or BCBSA. This Agreement and all rights and duties hereunder are personal to Controlled Affiliate.

5. INFRINGEMENT

Controlled Affiliate shall promptly notify the Controlling Plans and the Controlling Plans shall promptly notify BCBSA of any suspected acts of infringement, unfair competition or passing off that may occur in relation to the Licensed Marks and Name. Controlled Affiliate shall not be entitled to require the Controlling Plans or BCBSA to take any actions or institute any proceedings to prevent infringement, unfair competition or passing off by third parties. Controlled Affiliate agrees to render to the Controlling Plans and BCBSA, without charge, all reasonable assistance in connection with any matter pertaining to the protection of the Licensed Marks and Name by BCBSA.

6. LIABILITY INDEMNIFICATION

Controlled Affiliate and the Controlling Plans hereby agree to save, defend, indemnify and hold BCBSA harmless from and against all claims, damages, liabilities and costs of every kind, nature and description (e1cept those arising solely as a result of BCBSAjs negligence) that may arise as a result of or related to Controlled Affiliatejs rendering of services under the Licensed Marks and 9 ame.

7. LICENSE TERM

A. E1cept as otherwise provided herein, the license granted by this Agreement shall remain in effect for a period of one (N) year and shall be automatically e1tended for additional one (N) year periods unless terminated pursuant to the provisions herein.

B. This Agreement and all of Controlled Affiliatejs rights hereunder shall immediately terminate without any further action by any party or entity in the event thatx(i) any one of the Controlling Plans ceases to be authoriIed to use the Licensed Marks and 9 ame; or (ii) pursuant to Paragraph N‘(a)(1) of the Blue Shield License Agreement any one of the Controlling Plans ceases to be authoriIed to use the Licensed 9 ames and Marks in the Region.

C. 9 otwithstanding any other provision of this Agreement, this license to use the Licensed Marks and 9 ame may be forthwith terminated by the Controlling Plans or the affirmative vote of the ma4ority of the Board of Directors of BCBSA present and voting at a special meeting e1pressly called by BCBSA for the purpose on ten (Nz) days written notice to the Controlling Plans advising of the specific matters at issue and granting the Controlling Plans an opportunity to be heard and to present their response to the Board forx(N) failure to comply with any applicable minimum capital or liquidity requirement under the quality control standards of this Agreement; or (G) failure to comply with the "7 rganiIation and - overnance" quality control standard of this Agreement; or (0) impending financial insolvency; or (’) failure to comply with any of the applicable requirements of Standards G, 0, ’ , or “ of attached E1hibit A; or (“) the pendency of any action instituted against the Controlled Affiliate seeking its dissolution or liquidation of its assets or seeking appointment of a trustee, interim trustee, receiver or other custodian for any of its property or business or seeking the declaration or establishment of a trust for any of its property or business, unless this Controlled Affiliate License Agreement has been earlier terminated under paragraph 3(E); or (%) such other reason as is determined in good faith immediately and irreparably to threaten the integrity and reputation of BCBSA, the Plans (including the Controlling Plans), any other licensee including Controlled Affiliate and/or the Licensed Marks and 9 ame.

D. E1cept as otherwise provided in Paragraphs 3(B), 3(C) or 3(E) herein, should Controlled Affiliate fail to comply with the provisions of this Agreement and not cure such failure within thirty (0z) days of receiving written notice thereof (or commence a cure within such thirty day period and continue diligent efforts to

complete the cure if such curing cannot reasonably be completed within such thirty day period) BCBSA or the Controlling Plans shall have the right to issue a notice that the Controlled Affiliate is in a state of noncompliance. Of a state of noncompliance as aforesaid is undisputed by the Controlled Affiliate or is found to e1ist by a mandatory dispute resolution panel and is uncured as provided above, BCBSA shall have the right to seek 4udicial enforcement of the Agreement or to issue a notice of termination thereof. 9 otwithstanding any other provisions of this Agreement, any disputes as to the termination of this License pursuant to Paragraphs 3(B), 3(C) or 3(E) of this Agreement shall not be sub4ect to mediation and mandatory dispute resolution. All other disputes between or among BCBSA, any of the Controlling Plans and/or Controlled Affiliate shall be submitted promptly to mediation and mandatory dispute resolution. The mandatory dispute resolution panel shall have authority to issue orders for specific performance and assess monetary penalties. E1cept, however, as provided in Paragraphs 3(B) and 3(E) of this Agreement, this license to use the Licensed Marks and 9 ame may not be finally terminated for any reason without the affirmative vote of a ma4ority of the present and voting members of the Board of Directors of BCBSA.

E. This Agreement and all of Controlled Affiliatejs rights hereunder shall immediately terminate without any further action by any party or entity in the event thatx

(N) Controlled Affiliate shall no longer comply with item G(E) above;

(G) Appropriate dues, royalties and other payments for Controlled Affiliate pursuant to paragraph 8 hereof, which are the royalties for this License Agreement, are more than si1ty (%z) days in arrears to BCBSA; or

(0) Any of the following events occurx(i) a voluntary petition shall be filed by Controlled Affiliate seeking bankruptcy, reorganiIation, arrangement with creditors or other relief under the bankruptcy laws of the United States or any other law governing insolvency or debtor relief, or (ii) an involuntary petition or proceeding shall be filed against Controlled Affiliate seeking bankruptcy, reorganiIation, arrangement with creditors or other relief under the bankruptcy laws of the United States or any other law governing insolvency or debtor relief and such petition or proceeding is consented to or acquiesced in by Controlled Affiliate or is not dismissed within si1ty (%z) days of the date upon which the petition or other document commencing the proceeding is served upon the Controlled Affiliate, or (iii) an order for relief is entered against Controlled Affiliate in any case under the bankruptcy laws of the United States, or Controlled Affiliate is ad4udged bankrupt or insolvent as those terms are defined in the Uniform Commercial Code as enacted in the State of 0llinois by any court of competent 4urisdiction, or (iv) Controlled Affiliate makes a general assignment of its assets for the benefit of creditors, or (v) any government or any government official, office, agency, branch, or unit assumes control of Controlled Affiliate or delinquency proceedings (voluntary or involuntary) are instituted, or (vi) an action is brought by Controlled Affiliate seeking its dissolution or liquidation of its assets or seeking the appointment of a trustee, interim

trustee, receiver or other custodian for any of its property or business, or (vii) an action is instituted by any governmental entity or officer against Controlled Affiliate seeking its dissolution or liquidation of its assets or seeking the appointment of a trustee, interim trustee, receiver or other custodian for any of its property or business and such action is consented to or acquiesced in by Controlled Affiliate or is not dismissed within one hundred thirty (N0z) days of the date upon which the pleading or other document commencing the action is served upon the Controlled Affiliate, provided that if the action is stayed or its prosecution is en4oined, the one hundred thirty (N0z) day period is tolled for the duration of the stay or in4unction, and provided further, that the Association5s Board of Directors may toll or e1tend the N0z day period at any time prior to its e1piration, or (viii) a trustee, interim trustee, receiver or other custodian for any of Controlled Affiliatejs property or business is appointed or the Controlled Affiliate is ordered dissolved or liquidated. 9 otwithstanding any other provision of this Agreement, a declaration or a request for declaration of the e1istence of a trust over any of the Controlled Affiliate5s property or business shall not in itself be deemed to constitute or seek appointment of a trustee, interim trustee, receiver or other custodian for purposes of subparagraphs 3(E)(0)(vii) and (viii) of this Agreement.

2. Upon termination of this Agreement for cause or otherwise, Controlled Affiliate agrees that it shall immediately discontinue all use of the Licensed Marks and 9 ame, including any use in its trade name, e1cept to the e1tent that it continues to be authoriIed to use the Licensed Marks within the Service Area of one of the Controlling Plans pursuant to a separate controlled affiliate license agreement with BCBSA sponsored by such Controlling Plan.

- . Upon termination of this Agreement, Controlled Affiliate shall immediately notify all of its customers to whom it provides products or services under the Licensed Marks pursuant to this Agreement that it is no longer a licensee of BCBSA and, if directed by the Association5s Board of Directors, shall provide instruction on how the customer can contact BCBSA or a designated licensee to obtain further information on securing coverage. The notification required by this paragraph shall be in writing and in a form approved by BCBSA. The BCBSA shall have the right to audit the terminated entityjs books and records to verify compliance with this paragraph.

H. 0n the event this Agreement terminates pursuant to 3(B) hereof, upon termination of this Agreement the provisions of Paragraph 3(-) shall not apply and the following provisions shall apply, e1cept that, in the event that Controlled Affiliate is separately licensed by BCBSA to use the Licensed Marks in the Service Area of a Controlling Plan and termination of this Agreement is due to a partial termination of such Controlling Plan5s license pursuant to Paragraph N‘(a)(1)(ii) of the Blue Shield License Agreement, the notices, national account listing, payment, and audit right listed below shall be applicable solely with respect to the Region and the geographic area for which the Controlling Plan5s license to use the Licensed 9 ames and Marks is terminatedx

(N) The Controlled Affiliate shall send a notice through the U.S. mails, with first class postage affi1ed, to all individual and group customers, providers, brokers and agents of products or services sold, marketed, underwritten or administered by the Controlled Affiliate under the Licensed Marks and 9 ame. The form and content of the notice shall be specified by BCBSA and shall, at a minimum, notify the recipient of the termination of the license, the consequences thereof, and instructions for obtaining alternate products or services licensed by BCBSA. This notice shall be mailed within N‘ days after termination.

(G) The Controlled Affiliate shall deliver to BCBSA within five days of a request by BCBSA a listing of national accounts in which the Controlled Affiliate is involved (in a control, participating or servicing capacity), identifying the national account and the Controlled Affiliate5s role therein.

(0) Unless the cause of termination is an event respecting BCBSA stated in paragraph N‘(a) or (b) of the Plan5s license agreement with BCBSA to use the Licensed Marks and 9 ame, the Controlled Affiliate, the Controlling Plans, and any other Licensed Controlled Affiliates of the Controlling Plans shall be 4bintly liable for payment to BCBSA of an amount equal to $G‘ multiplied by the number of Licensed Enrollees of the Controlled Affiliate; provided that if any Plan other than a Controlling Plan is permitted by BCBSA to use marks or names licensed by BCBSA in a geographic area in the Region, the payment for Licensed Enrollees in such geographic area shall be multiplied by a fraction, the numerator of which is the number of Licensed Enrollees of the Controlled Affiliate, the Controlling Plans, and any other Licensed Controlled Affiliates of the Controlling Plans in such geographic area and the denominator of which is the total number of Licensed Enrollees in such geographic area. Licensed Enrollee means each and every person and covered dependent who is enrolled as an individual or member of a group receiving products or services sold, marketed or administered under marks or names licensed by BCBSA as determined at the earlier of (i) the end of the last fiscal year of the terminated entity which ended prior to termination or (ii) the fiscal year which ended before any transactions causing the termination began. 9 otwithstanding the foregoing, the amount payable pursuant to this subparagraph H. (0) shall be due only to the e1tent that, in BCBSA5s opinion, it does not cause the net worth of the Controlled Affiliate, the Controlling Plans or any other Licensed Controlled Affiliates of the Controlling Plans to fall below Nzz' of the Health Risk”Based Capital formula, or its equivalent under any successor formula, as set forth in the applicable financial responsibility standards established by BCBSA (provided such equivalent is approved for purposes of this subparagraph by the affirmative vote of three”fourths of the Plans and three”fourths of the total then current weighted vote of all the Plans); measured as of the date of termination, and ad4usted for the value of any transactions not made in the ordinary course of business. This payment shall not be due in connection with transactions e1clusively by or among Plans (including the Controlling Plans) or their affiliates, including reorganiIations, combinations or mergers, where the BCBSA Board of Directors determines that the license

termination does not result in a material diminution in the number of Licensed Enrollees or the e1tent of their coverage. On the event that the Controlled Affiliate5s license is reinstated by BCBSA or is deemed to have remained in effect without interruption by a court of competent 4urisdiction, BCBSA shall reimburse the Controlled Affiliate (and/or the Controlling Plans or their other Licensed Controlled Affiliates, as the case may be) for payments made under this subparagraph 3.H.(0) only to the e1tent that such payments e1ceed the amounts due to BCBSA pursuant to paragraph 3.K. and any costs associated with reestablishing the terminated Controlling Plan5s Service Area or the Region, including any payments made by BCBSA to a Plan or Plans (including the other Controlling Plans), or their Licensed Controlled Affiliates, for purposes of replacing the Controlled Affiliate.

(’) BCBSA shall have the right to audit the books and records of the Controlled Affiliate, the Controlling Plans, and any other Licensed Controlled Affiliates of the Controlling Plans to verify compliance with this paragraph 3.H.

(“) As to a breach of 3.H.(N), (G), (0) or (’), the parties agree that the obligations are immediately enforceable in a court of competent 4urisdiction. As to a breach of 3.H.(N), (G) or (’) by the Controlled Affiliate, the parties agree there is no adequate remedy at law and BCBSA is entitled to obtain specific performance.

O BCBSA shall be entitled to en4oin the Controlled Affiliate or any related party in a court of competent 4urisdiction from entry into any transaction which would result in a termination of this Agreement unless a Controlling Plan5s license from BCBSA to use the Licensed Marks and 9 ames has been terminated pursuant to N2(d) of such Controlling Plan5s license agreement upon the required %month written notice.

J. BCBSA acknowledges that it is not the owner of assets of the Controlled Affiliate.

K. On the event this Agreement terminates and is subsequently reinstated by BCBSA or is deemed to have remained in effect without interruption by a court of competent 4urisdiction, the Controlled Affiliate, the Controlling Plans, and any other Licensed Controlled Affiliates of the Controlling Plans shall be 4ointly liable for reimbursing BCBSA the reasonable costs incurred by BCBSA in connection with the termination and the reinstatement or court action, and any associated legal proceedings, including but not limited toxoutside legal fees, consulting fees, public relations fees, advertising costs, and costs incurred to develop, lease or establish an interim provider network. Any amount due to BCBSA under this subparagraph may be waived in whole or in part by the BCBSA Board of Directors in its sole discretion.

8. DISPUTE RESOLUTION

The parties agree that any disputes between or among them or between or among any of them and one or more Plans or Controlled Affiliates of Plans that use in any manner the Blue Shield and Blue Shield Marks and 9 ame are sub4ect to the Mediation and Mandatory Dispute Resolution process attached to and made a part of each Controlling Plan5s License from BCBSA to use the Licensed Marks and 9 ame as E1hibit " as amended from time"to"time, which documents are incorporated herein by reference as though fully set forth herein.

9. LICENSE FEE

Controlled Affiliate will pay to BCBSA a fee for this License determined pursuant to the formula(s) set forth in E1hibit B.

10. JOINT VENTURE

9 othing contained in this Agreement shall be construed as creating a 4oint venture, partnership, agency or employment relationship between the Controlling Plans and Controlled Affiliate or between either and BCBSA.

11. NOTICES AND CORRESPONDENCE

9 otices regarding the sub4ect matter of this Agreement or breach or termination thereof shall be in writing and shall be addressed in duplicate to the last known address of each other party, marked respectively to the attention of its President and, if any, its - eneral Counsel.

12. COMPLETE AGREEMENT

This Agreement contains the complete understandings of the parties in relation to the sub4ect matter hereof. This Agreement may only be amended by the affirmative vote of three"fourths of the Plans and three"fourths of the total then current weighted vote of all the Plans as officially recorded by the BCBSA Corporate Secretary.

13. SEVERABILITY

O f any term of this Agreement is held to be unlawful by a court of competent 4urisdiction, such findings shall in no way affect the remaining obligations of the parties hereunder and the court may substitute a lawful term or condition for any unlawful term or condition so long as the effect of such substitution is to provide the parties with the benefits of this Agreement.

14. NONWAIVER

9 o waiver by BCBSA of any breach or default in performance on the part of Controlled Affiliate or any other licensee of any of the terms, covenants or conditions of this Agreement shall constitute a waiver of any subsequent breach or default in performance of said terms, covenants or conditions.

14A. VOTING

2or all provisions of this Agreement referring to voting, the term 'Plans5shall mean all entities licensed under the Blue Cross License Agreement and/or the Blue Shield License Agreement, and in all votes of the Plans under this Agreement the Plans shall vote together. 2or weighted votes of the Plans, the Plan shall have a number of votes equal to the number of weighted votes (if any) that it holds as a Blue Cross Plan plus the number of weighted votes (if any) that it holds as a Blue Shield Plan. 2or all other votes of the Plans, the Plan shall have one vote. 2or all questions requiring an affirmative three"fourths weighted vote of the Plans, the requirement shall be deemed satisfied with a lesser weighted vote unless the greater ofx(i) %"Gor more of the Plans (rounded to the nearest whole number, with z." or multiples thereof being rounded to the ne1t higher whole number) fail to cast weighted votes in favor of the question; or (ii) three (0) of the Plans fail to cast weighted votes in favor of the question. 9 otwithstanding the foregoing provision, if there are thirty"nine (08) Plans, the requirement of an affirmative three"fourths weighted vote shall be deemed satisfied with a lesser weighted vote unless four (') or more Plans fail to cast weighted votes in favor of the question.

15. GOVERNING LAW

This Agreement shall be governed by, and construed and interpreted in accordance with, the laws of the State of 0linois.

16. HEADINGS

The headings inserted in this agreement are for convenience only and shall have no bearing on the interpretation hereof.

Ø WCT9 ESS WHERE7 2, the parties have caused this License Agreement to be e1ecuted and effective as of the date of last signature written below.

CONTROLLED AFFILIATE LICENSE STANDARDS APPLICABLE TO REGIONAL MEDICARE PART D PRESCRIPTION DRUG PLAN PRODUCTS November 2016

PREAMBLE

The standards for licensing Controlled Affiliates for Medicare Part D Prescription Drug Plan Products are established by BCBSA and are sub4ect to change from time"to"time upon the affirmative vote of three"fourths (0/') of the Plans and three"fourths (0/') of the total weighted vote. Each Controlling Plan is required to use a standard Controlled Affiliate license form provided by BCBSA and to cooperate fully in assuring that the licensed Controlled Affiliate maintains compliance with the license standards.

Standard 1 - Organization and Governance

A Controlled Affiliate is defined as an entity organiIed and operated in such a manner, that it meets the following requirementsx

(N) Controlled Affiliate is owned or controlled by two or more Controlling Plans;

(G) Each Controlling Plan is authoriIed pursuant to a separate Blue Shield License Agreement to use the Licensed Marks in a geographic area in the Region and every geographic area in the Region is so licensed to at least one of the Controlling Plans; and

(0) The Controlling Plans must have the legal authority directly or indirectly through wholly"owned subsidiariesx

(a) to select members of the Controlled Affiliate5s governing body having not less than Nzz' voting control thereof;

(b) prevent any change in the articles of incorporation, bylaws or other establishing or governing documents of the Controlled Affiliate with which the Controlling Plans do not concur;

(c) e1ercise control over the policy and operations of the Controlled Affiliate; and

EXHIBIT A (continued)

9 otwithstanding anything to the contrary in (a) through (c) hereof, the Controlled Affiliate5s establishing or governing documents must also require written approval by each of the Controlling Plans before the Controlled Affiliate canx

(i) change its legal and/or trade names;

(ii) change the geographic area in which it operates (e1cept such approval shall not be required with respect to business of the Controlled Affiliate conducted under the Licensed Marks within the Service Area of one of the Controlling Plans pursuant to a separate controlled affiliate license agreement with BCBSA sponsored by such Controlling Plan);

(iii) change any of the type(s) of businesses in which it engages (e1cept such approval shall not be required with respect to business of the Controlled Affiliate conducted under the Licensed Marks within the Service Area of one of the Controlling Plans pursuant to a separate controlled affiliate license agreement with BCBSA sponsored by such Controlling Plan);

(iv) take any action that any Controlling Plan or BCBSA reasonably believes will adversely affect the Licensed Marks and 9 ame.

0n addition, the Controlling Plans directly or indirectly through wholly"owned subsidiaries shall own Nzz' of any for"profit Controlled Affiliate.

Standard 2 - Financial Responsibility

A Controlled Affiliate shall be operated in a manner that provides reasonable financial assurance that it can fulfill all of its contractual obligations to its customers.

Standard 3 - State Licensure/Certification

A Controlled Affiliate shall maintain appropriate and unimpaired licensure and certifications.

EXHIBIT A (continued)

Standard 4 - Certain Disclosures

A Controlled Affiliate shall make adequate disclosure in contracting with third parties and in disseminating public statements ofx

a. the structure of the Blue Cross and Blue Shield System; and
b. the independent nature of every licensee.

Standard 5 - Reports and Records for Controlled Affiliates

A Controlled Affiliate and/or its Controlling Plans shall furnish, on a timely and accurate basis, reports and records relating to these Standards and the License Agreements between BCBSA and Controlled Affiliate.

Standard 6 - Best Efforts

During each year, a Controlled Affiliate shall use its best efforts to promote and build the value of the Blue Shield Marks.

Standard 7 - Participation in Master Business Associate Agreement

Controlled Affiliates shall comply with the terms of the Business Associate Agreement for Blue Cross and Blue Shield Licensees to the e1tent they perform the functions of a business associate or subcontractor to a business associate, as defined by the Business Associate Agreement.

EXHIBIT B

**ROYALTY FORMULA FOR SECTION 9 OF THE
CONTROLLED AFFILIATE LICENSE AGREEMENTS
APPLICABLE TO REGIONAL MEDICARE PART D PRESCRIPTION DRUG PLAN PRODUCTS**

Controlled Affiliate will pay BCBSA a fee for this license in accordance with the following formulax

An amount equal to its pro rata share of each Controlling Plan dues payable to BCBSA computed with the addition of the Controlled Affiliatejs members using the Marks on regional PDP products and related services as reported on the Quarterly Enrollment Report with BCBSA. The payment by each Controlling Plan of its dues to BCBSA, including that portion described in this paragraph, will satisfy the requirement of this paragraph, and no separate payment will be necessary.

Amended as of June 14, 2007

EXHIBIT 2

Membership Standards Page Nof "

Preamble

The Membership Standards apply to all organiIations seeking to become or to continue as Regular Members of the Blue Cross and Blue Shield Association. Any organiIation seeking to become a Regular Member must be found to be in substantial compliance with all Membership Standards at the time membership is granted and the organiIation must be found to be in substantial compliance with all Membership Standards for a period of two (G) years preceding the date of its application. G Membership is sought by an entity which controls or is controlled by one or more Plans, such compliance shall be determined on the basis of compliance by such Plan or Plans.

The Regular Member Plans shall have authority to interpret these Standards.

A Regular Member Plan that operates as a FShell Holding Company: is defined as an entity that assumes no underwriting risk and has less than N of the consolidated enterprise assets (e1cludes investments in subsidiaries) and less than "' of the consolidated enterprise net general and administrative e1penses.

A Regular Member Plan that operates as a FHybrid Holding Company: is defined as an entity that assumes no underwriting risk and has either more than N of the consolidated enterprise assets (e1cludes investments in subsidiaries) or more than "' of the consolidated enterprise net general and administrative e1penses.

Standard Nx A Plan shall maintain a governing Board, which shall control the Plan and ensure that the Plan follows appropriate practices of corporate governance. A Planjs Board shall not be controlled by any special interest group, shall make an annual determination that a ma4ority of its directors are independent, and shall act in the best interest of its Corporation and its customers. The Board shall be composed of a ma4ority of persons other than providers of health care services, who shall be known as public members. A public member shall not be an employee of or have a financial interest in a health care provider, nor be a member of a profession which provides health care services.

Amended as of March 15, 2007

EXHIBIT 2
Membership Standards

Membership Standards Page 0 of "

E. Quarterly Enrollment Report, Quarterly Member Touchpoint Measures Ordel (MTM) through NG0NGzNN, and Semiannual MTM Ordel starting NNGzNGand thereafter.

- 2or purposes of MTM reporting only, a Plan shall file a separate MTM report for each - eographic Market.

Standard 0x A Plan shall be operated in a manner that provides reasonable financial assurance that it can fulfill its contractual obligations to its customers.

Standard ' x A Plan shall be operated in a manner responsive to customer needs and requirements.

Standard "x A Plan shall effectively and efficiently participate in each national program as from time to time may be adopted by the Member Plans for the purposes of providing portability of membership between the Plans and ease of claims processing for customers receiving benefits outside of the Planjs Service Area.

Such programs are applicable to Blue Cross and Blue Shield Plans, and includex

A. Oter'Plan Teleprocessing System (OTS);
B. BlueCard Program;
C. 9 ational Account Programs;
D. Business Associate Agreement for Blue Cross and Blue Shield Licensees, effective April N', Ozz0; and
E. Oter'Plan Medicare Advantage Program.

Amended as of November 21, 2014

EXHIBIT 2

Membership Standards Page ' of "

Standard %x 0n addition to requirements under the national programs listed in Standard "xParticipation in 9 ational Programs, a Plan shall take such action as required to ensure its financial performance in programs and contracts of an inter'Plan nature or where the Association is a party.

Standard 3x A Plan shall make adequate disclosure in contracting with third parties and in disseminating public statements of (i) the structure of the Blue Cross and Blue Shield System, (ii) the independent nature of every Plan, and (iii) the Planjs financial condition.

Standard 6x A Plan shall cooperate with the Associationjs Board of Directors and its Brand Enhancement & Protection Committee in the administration of the Plan Performance Response Process and in addressing Plan performance problems identified thereunder.

Standard 8x A Plan shall obtain a rating of its financial strength from an independent rating agency approved by the Associationjs Board of Directors for such purpose.

Standard Nzx 9 otwithstanding any other provision in this License Agreement, during each year, a Plan and its Controlled Affiliate(s) engaged in providing licensable services (e1cluding Life 0nsurance and Charitable 2oundation Services) shall use their best efforts to promote and build the value of the Blue Shield Marks.

Standard NNx 9 either a Plan nor any Larger Controlled Affiliate shall cause or permit an entity other than a Plan or a Licensed Controlled Affiliate thereof to obtain control of the Plan or Larger Controlled Affiliate or to acquire a substantial portion of its assets related to licensable services.

Amended as of June 16, 2005

EXHIBIT 2

Membership Standards Page " of "

Standard NGx 9 o provider network, or portion thereof, shall be rented or otherwise made available to a 9 ational Competitor if the Licensed Marks or 9 ames are used in any way with such network.

A provider network may be rented or otherwise made available, provided there is no use of the Licensed Marks or 9 ames with respect to the network being rented.

Standard N0x Each Plan shall operate in a manner to reasonablyxN) protect the security and confidentiality of Personally 0dentifiable 0nformation (P00) and Protected Health 0nformation (PHO; G) protect the Brands from reputational damage; and 0) cooperate with BCBSA and other Plans if a data security incident or data breach occurs.

Amended as of June 18, 2015

EXHIBIT 3

**GUIDELINES WITH RESPECT TO USE OF
LICENSED NAME AND MARKS IN CONNECTION WITH NATIONAL ACCOUNTS**

Page Nof 0

N The strength of the Blue Cross/Blue Shield 9 ational Accounts mechanism, and the continued provision of cost effective, quality health care benefits to 9 ational Accounts, are predicated on locally managed provider networks coordinated on a national scale in a manner consistent with effective service to 9 ational Account customers and consistent with the preservation of the integrity of the Blue Cross/Blue Shield system and the Licensed Marks. These guidelines shall be interpreted in keeping with such ends.

G A 9 ational Account is an entity with employee and/or retiree locations in more than one Planjs Service Area. Unless otherwise agreed, a 9 ational Account is deemed located in the Service Area in which the corporate headquarters of the 9 ational Account is located. A local plant, office or division headquarters of an entity may be deemed a separate 9 ational Account when that local plant, office or division headquarters N) has employee locations in more than one Service Area, and G) has independent health benefit decision"making authority for the employees working at such local plant, office or division headquarters and for employees working at other locations outside the Service Area. On such a case, the local plant, office or division headquarters is a 9 ational Account that is deemed located in the Service Area in which such local plant, office or division headquarters is located. The Control Plan of a 9 ational Account is the Plan in whose Service Area the 9 ational Account is located. A participating ("Par") Plan is a Plan in whose Service Area the 9 ational Account has employee and/or retiree locations, but in which the 9 ational Account is not located. On the event that a 9 ational Account parent company consolidates health benefit"decision making for itself and its wholly"owned subsidiary companies, the parent company and the subsidiary companies shall be considered one 9 ational Account. The Control Plan for such a 9 ational Account shall be the Plan in whose Service Area the parent company headquarters is located.

0. The 9 ational Account - uidelines enunciated herein below shall be applicable only with respect to the business of new 9 ational Accounts acquired after January N, N88N

'. Control Plans shall utiliIe 9 ational Account identification cards complying with
then currently effective BCBSA graphic standards in connection with all 9 ational Accounts business to facilitate administration thereof, to minimiIe subscriber and provider confusion, and to reflect a commitment to cooperation among Plans.

Amended as of June 12, 2003

Exhibit 3 Page Gof 0

“. Disputes among Plans and/or BCBSA as to the interpretation or implementation of these - uidelines or as to other 9 ational Accounts issues shall be submitted to mediation and mandatory dispute resolution as provided in the License Agreement. 2or two years from the effective date of the License Agreement, however, such disputes shall be sub4ect to mediation only, with the results of such mediation to be collected and reported in order to establish more definitive operating parameters for 9 ational Accounts business and to serve as ground rules for future binding dispute resolution.

% The Control Plan may use the BlueCard Program (as defined by OPPC) to deliver benefits to employees and non’Medicare eligible retirees in a Participating Plan5s service area if an alternative arrangement with the Participating Plan cannot be negotiated. The Participating Plan5s minimum servicing requirement for those employees and non’Medicare retirees in its service area is to deliver benefits using the BlueCard Program. Account delivery is sub4ect to the policies, provisions and procedures of the BlueCard Program.

3. 2or provider payments in a Participating Plan5s area (on non’BlueCard claims), payment to the provider may be made by the Participating Plan or the Control Plan at the Participating Planjs option. Of the Participating Plan elects to pay the provider, it may not withhold payment of a claim verified by the Control Plan or its designated processor, and payment must be in conformity with service criteria established by the Board of Directors of BCBSA (or an authoriIed committee thereof) to assure prompt payment, good service and minimum confusion with providers and subscribers. The Control Plan, at the Participating Planjs request, will also assure that measures are taken to protect the confidentiality of the data pertaining to provider reimbursement levels and profiles.

Amended as of June 14, 1996

Exhibit 3 Page 0 of 0

6. The Control Plan, in its financial agreements with a 9 ational Account, is e1pected to reasonably reflect the aggregate amount of differentials passed along to the Control Plan by all Participating Plans in a 9 ational Account.

8. 7 ther than in contracting with health care providers or soliciting such contracts in areas contiguous to a Planjs Service Area in order to serve its subscribers or those of its licensed Controlled Affiliate residing or working in its Service Area, a Control Plan may not use the Licensed Marks and/or 9 ame, as a tag line or otherwise, to negotiate directly with providers outside its Service Area.

Amended as of March 13, 2003

EXHIBIT 4

GOVERNMENT PROGRAMS AND CERTAIN OTHER USES

Page Nof N'

N A Plan and its licensed Controlled Affiliate may use the Licensed Marks and 9 ame in bidding on and e1ecuting a contract to serve a - overnment Program, and in thereafter communicating with the - overnment concerning the Program. With respect, however, to such contracts entered into after the N-st day of January, N88N, the Licensed Marks and 9 ame will not be used in communications or transactions with beneficiaries or providers in the - overnment Program located outside a Planjs Service Area, unless the Plan can demonstrate to the satisfaction of BCBSAjs governing body that such a restriction on use of the Licensed Marks and 9 ame will 4eopardiIe its ability to procure the contract for the - overnment Program. As to both e1isting and future contracts for - overnment Programs, Plans will discontinue use of the Licensed Marks and 9 ame as to beneficiaries and Providers outside their Service Area as e1peditiously as circumstances reasonably permit. Effective January N, N88", e1cept as provided in the first sentence above, all use by a Plan of the Licensed Marks and 9 ame in - overnment Programs outside of the Planjs Service Area shall be discontinued. 0ncidental communications outside a Planjs Service Area with resident or former resident beneficiaries of the Plan, and other categories of necessary incidental communications approved by BCBSA, are not prohibited. 2or purposes of this Paragraph N, the term F- overnment Programs: shall mean Medicare Part A, Medicare Part B and other non'risk government programs.

G 0n connection with activity otherwise in furtherance of the License Agreement, a Plan and its Controlled Affiliates that are licensed to use the Licensed Marks and 9 ame in its Service Area pursuant to the Controlled Affiliate License Agreements authoriIed in clauses a) through c) of Paragraph Gof the Plan5s License Agreement with BCBSA may use the Licensed Marks and 9 ame outside the Plan5s Service Area in the following circumstances which are deemed legitimate and necessary and not likely to cause consumer confusionx

GN Common Business Communications

a. sending letterhead, envelopes, and similar items solely for administrative purposes (e.g., not for purposes of marketing, advertising, promoting, selling or soliciting the sale of health care plans and related services);

b. distributing business cards other than in marketing and selling;

c. advertising in publications or electronic media solely to persons for employment;

Amended as of June 19, 2014

EXHIBIT 4 Page Gof N

GG Marketing Spillover

a. advertising in print, electronic or other media which serve, as a substantial market, the Service Area of the Plan or licensed Controlled Affiliate, provided that no Plan or Controlled Affiliate may advertise outside its Service Area on the national broadcast and cable networks and that advertisements in national print media are limited to the smallest regional edition encompassing the Service Area;

b. advertising by direct mail where the addresseejs I ip code plus ' includes, at least in part, the Planjs Service Area or that of a licensed Controlled Affiliate;

G0 Provider Contracting

a. contracting with health care providers or soliciting such contracts in areas contiguous to the Planjs Service Area in order to serve its subscribers or those of such licensed Controlled Affiliates residing or working in its service area;

b. issuing a small sign containing the legal name or trade name of the Plan or such licensed Controlled Affiliates for display by a provider to identify the latter as a participating provider of the Plan or Controlled Affiliate;

c. negotiating rates with a health care provider for services to a specific member, provided that all of the following conditions are metx

(N) the health care provider does not have a contract, applicable to the services rendered or to be rendered, with the Licensee (or any of the Licensees in the case of overlapping Service Areas) in whose Service Area the health care provider is located; and

(G) the Plan or Controlled Affiliate reasonably determines that the member did/does not have a reasonable opportunity to access a participating provider whose contract applies to the services rendered or to be rendered; and

(0) at least one of the following circumstances e1istsx

Amended as of June 19, 2014

EXHIBIT 4

Page 0 of N

(i) the member received emergency services and the Plan or Controlled Affiliate knows or reasonably anticipates that the charges on the claim will meet or e1ceed $“,zzz; or

(ii) a provider, in consultation pre”or post”treatment with the Plan or Controlled Affiliate, makes/made a treatment recommendation or referral to a non”par provider or to a par provider whose contract does not apply to the services to be rendered; or

(iii) the member inadvertently accessed a non”par provider or non”contracted services in the course of receiving services from a par provider (e.g., the member sees a non”par consulting specialist in a participating hospital); and

(’) the Licensee (and in the case of overlapping Service Areas, all of the Licensees) in whose Service Area the health care provider is located consent(s) in advance.

d. contracting with a pharmacy management organiIation (FPharmacy 0ntermediary:) to gain access to a national or regional pharmacy network to provide self”administered prescription drugs to deliver a pharmacy benefit for all of the Plan5s or licensed Controlled Affiliate5s members nationwide, provided, however, that the Pharmacy 0ntermediary may not use the Licensed Marks or 9 ame in contracting with the pharmacy providers in such network;

Amended as of June 19, 2014

EXHIBIT 4

Page ’ of N’

e. contracting with the corporate owner of a national or regional retail pharmacy chain to gain access to the pharmacies in the chain to provide self’administered prescription drugs to deliver a pharmacy benefit for all of the Plan5s or licensed Controlled Affiliate5s members nationwide, provided that (N) the Plan and the Controlled Affiliate may not contract directly with pharmacists or pharmacy stores outside the Plan5s Service Area, and (G) neither the Plan5s or the Controlled Affiliate5s name nor the Licensed Marks or 9 ame may be posted or otherwise displayed at or by any pharmacy store outside the Plan5s Service Area;

f. contracting with a dental management organiIation (FDental 0ntermediary:) to gain access to a national or regional dental network to deliver a routine dental benefit for all of the Plan5s or licensed Controlled Affiliate5s members nationwide, provided, however, that the Dental 0ntermediary may not use the Licensed Marks or 9 ame in contracting with the dental providers in such network;

g. contracting with a vision management organiIation (FVision 0ntermediary:) to gain access to a national or regional vision network to deliver a routine vision benefit for all of the Plan5s or licensed Controlled Affiliate5s members nationwide, provided, however, that the Vision 0ntermediary may not use the Licensed Marks or 9 ame in contracting with the vision providers in such network;

h. contracting with an independent clinical laboratory for analysis and clinical assessment of specimens that are collected within the Plan5s Service Area;

i. contracting with a durable medical equipment or home medical equipment company for durable medical equipment and supplies and home medical equipment and supplies that are shipped to a location within the Plan5s Service Area;

4 contracting with a specialty pharmaceutical company for non’routine biological therapeutics that are ordered by a health care professional located within the Plan5s Service Area;

EXHIBIT 4 Page " of N'

k. contracting with a company that operates provider sites in the Plan5s Service Area, provided that the contract is solely for services rendered at a site (e.g., hospital, mobile van) that is within the Plan5s Service Area;

l. contracting with a company that makes health care professionals available in the Plan5s Service Area (e.g., traveling home health nurse), provided that the contract is solely for services rendered by health care professionals who are located within the Plan5s Service Area.

G' Services to 9 ational Accounts

a. in con4unction with contracting with a 9 ational Account as Control Licensee or Alternate Control Licensee (as those terms are defined in the Oter"Plan Programs Policies and Provisions (FOP Policies:)) to offer Blue"branded Health Coverage to the 9 ational Account, offering Blue"branded Health and Wellness Programs to all members of the 9 ational Account, including members who have not enrolled in the Blue" branded Health Coverage (Fnon"Blue Health Coverage members:), provided thatx

(i) the Plan and/or Licensed Controlled Affiliate has no contact or interaction with providers outside of the Plan5s Service Area, e1cept as specifically provided in the OP Policies and in G' (b); and

(ii) if in accordance with OP Policies another Licensee is soliciting or servicing under the Brands a local plant, office or division of the account that is outside of the Plan5s Service Area, the Plan and/or licensed Controlled Affiliate may not offer Blue"branded Health and Wellness Programs to any employees working at such local plant, office or division without the consent of such other Licensee; and

(iii) if the Plan and/or licensed Controlled Affiliate provides an information card to the non"Blue Health Coverage members, the card may not display the Symbols in the masthead, must contain a prominent disclosure conveying that it is not a health insurance card, and otherwise must be designed so that it is dissimilar to a Blue member identification card.

Amended as of March 26, 2015

EXHIBIT 4 Page %of N

2or purposes of this subparagraph a, the following definitions applyx

"Health and Wellness Program" shall mean a program that includes at least one of the following elements or a related elementx

– Health Risk Assessment and/or Preventive Screenings
– E1ercise and 2itness Programs
– Health and Wellness Events (e.g., attendance at a health fair, a "K walk)
– 9utrition and Weight Management
– Health Education (e.g., smoking cessation classes)
– Prenatal and Parenting Education
– Disease or Chronic Condition Management

The above listing is intended to represent e1amples of the types of programs that may be offered, and other programs, including those offered through different media such as the internet or telephonically, may also be deemed Health and Wellness programs.

"Health Coverage" shall mean providing or administering medical, surgical, hospital, ma4or medical, or catastrophic coverage, or any HM7 , PP7 , P7 S or other managed care plan for the foregoing services.

G' Services to 9ational Accounts (continued)

b. as part of a Health and Wellness Program that is otherwise compliant with Brand Regulation ' .NN' (a), contracting with a health and wellness organiIation to gain access to providers to deliver a discrete health and wellness event (FEvent:) held at a 9ational Account5s worksite outside of the Licensee5s Service Area, provided thatx

(i) the services delivered at the Event are limited to fingerstick screenings for cholesterol and glucose, seasonal flu immuniIations, blood pressure measurements, body mass inde1 measurements, and other routine screenings, immuniIations and measurements; and

(ii) neither such services nor their costs are applied as claims against any benefit plan; and

(iii) the Event is presented during one or more limited periods during a benefit year and is available to all employees at the worksite.

Amended as of March 26, 2015

c. in con4unction with contracting with a 9 ational Account as Control Licensee or Alternate Control Licensee to offer Blue"branded Health Coverage to the 9 ational Account, performing the Eligibility and Enrollment functions of HR administration for all benefit plans offered by the 9 ational Account to its members, including benefit plans that are not underwritten or administered by the Plan, provided thatx

(i) in performing such functions, the Plan and/or licensed Controlled Affiliate does not use the Brands in any communications with health care providers outside of the Plan5s Service Area, and otherwise limits its use of the Brands outside of the Service Area to communications with the account5s members, the other benefit plan providers with which the account has contracted and other reasonably necessary communications to perform such functions; and

(ii) if in accordance with O" Policies another Licensee is soliciting or servicing under the Brands a local plant, office or division of the account that is outside of the Plan5s Service Area, the Plan and/or licensed Controlled Affiliate may not perform Eligibility and Enrollment functions for employees working at such local plant, office or division without the consent of such other Licensee;

2or purposes of this subparagraph b, the following definitions applyxFHealth Coverage: has the meaning set forth in subparagraph

G" .a.

Amended as of March 26, 2015

EXHIBIT 4
Page 6 of N

FEligibility: means services that manage the account5s eligibility data and determine or process determinations relating to eligibility for benefit plans offered by the account to its employees, including such services asx

- monitoring and auditing data to ensure that only entitled individuals are enrolled in each such benefit plan;
- review of eligibility documentation (e.g. marriage licenses, birth certificates, student status verification letters, employment records);
- identification of key member segments such as over"age dependents, part"time employees, employees reaching certain milestones (e.g. Medicare"eligible, retirees);
- termination of coverage for those individuals found to be ineligible for coverage under a benefit plan, and, if applicable, generation of a C7 BRA event; and
- management of Fhour"banking: for union environments in which union members can bank hours to remain eligible for benefits.

FEnrollment: means services that enroll eligible individuals and their spouses/dependents or terminate or change their enrollment in the account5s benefit plans on an ongoing basis and during open enrollment periods, including such services asx

- the coordination of each step in open enrollment process from pro4ect planning and system set"up to the generation of confirmation statements;
- ongoing enrollment support for new hires and changes due to life events and work status ad4ustments;
- evidence of insurability (E7 O) administration for life and disability coverage;
- transmission of eligibility/enrollment information to the account5s benefit plan providers;
- review and reconciliation of error reports received from the account5s benefit plan providers; and
- transmission of information to the account5s payroll system (e.g., benefit deductions, employee demographic data).

Amended as of March 26, 2015

EXHIBIT 4 Page 8 of N

G“ Knowledge Sharing

a. submitting scholarly articles authored or co”authored by the Plan or Controlled Affiliate or its respective employees for publication in peer”reviewed 4ournals;

b. permitting an internal representative of the Licensee (e.g., officer, employee) to speak or present at a conference or symposium outside of the Licensee5s Service Area regarding either (i) healthcare financing, administration, delivery or policy, or (ii) topics within the representative5s functional discipline or e1pertise at the Licensee, for which the event sponsor will issue communications to promote, administer, and/or recap the event that will identify the Licensee5s representative as a participant. The communications outside of the Licensee5s Service Area that mention the Licensee5s representative shall be limited to materials and digital media provided to attendees, on”site signage, advertising in relevant trade publications, direct mail and email to attendees and prospective attendees, and the sponsor5s website, Participation in any conference or symposium outside of the Licensee5s Service Area may not be for the purpose of marketing or selling products or services.

Of the Licensee5s representative wishes to use the Brands in any manner, including use in his/her title, when participating as a speaker or presenter outside of the Licensee5s Service Area about a topic that is not related to healthcare financing, administration, delivery, or policy, or to topics within the representative5s functional discipline or e1pertise at the Licensee, the Licensee must notify BCBSA and receive prior approval from BCBSA before participating.

q. contracting with a company that makes health care professionals

available in the Region (e.g., traveling home health nurse), provided that the contract is solely for services rendered by health care professionals who are located within the Region.

'. BCBSA shall retain the right to use the Licensed Marks in con4unction with the 2ederal Employee Program and with any other national offering made to federal employees pursuant to the 2ederal Employees Health Benefits Program (2EHBP), including the right to license such use to its vendors, but only in the following manner.

a. the Licensed Marks may only be used by BCBSA with the term F2ederal Employee Program: , F2ederal: , F2EP: , or similar language identifying the program as a benefit program for federal employees;

b. the Licensed Marks may not be used by BCBSA with the name(s) of a specific Plan or Plans and;

c. any use by BCBSA in con4unction with a new national 2EHBP

program proposed after the enactment of this amendment will require the approval of the BCBSA Board of Directors.

". Where required by applicable state or local law or regulation, a Plan or its licensed Controlled Affiliate may submit documents that contain the Brands to, and file forms that contain the Brands with, state or local regulators in a state not included in its Service Area, provided that it gives reasonable advance notice to the local Plan of its intent to submit such documents or file such forms. 9 otwithstanding, in no event may a Plan or its licensed Controlled Affiliate use the Brands to register, or to obtain or maintain a license, a certificate of authority, or an equivalent document authoriI ing it to act as a risk'bearing entity or third party administrator in a state not included in its Service Area. Of the local Plan advises BCBSA that it believes its License Agreement has been or would be violated by any submission or filing, BCBSA shall determine whether such submission or filing is required by state or local law or regulation and violates the License Agreement, sub4ect to the Plan5s or licensed Controlled Affiliate5s rights to obtain an independent review of such determination under Paragraph 8(a) and E1hibit " of its License Agreement or Paragraph 6 of the Controlled Affiliate License. 2or purposes of this paragraph, Flocal Plan: is defined as each Plan whose Service Area includes all or part of the state in which the foregoing applicable state or local law or regulation has been enacted.

Amended as of March 26, 2015

EXHIBIT 5

Page Nof CO

MEDIATION AND MANDATORY DISPUTE RESOLUTION (MMDR) RULES

The Blue Cross and Blue Shield Plans ("Plans") and the Blue Cross Blue Shield Association ("BCBSA") recogniIe and acknowledge that the Blue Cross and Blue Shield system is a unique nonprofit and for"profit system offering cost effective health care financing and services. The Plans and BCBSA desire to utiliIe Mediation and Mandatory Dispute Resolution (FMMDR:) to avoid e1pensive and time"consuming litigation that may otherwise occur in the federal and state 4udicial systems. Even MMDR should be viewed, however, as methods of last resort, all other procedures for dispute resolution having failed. E1cept as otherwise provided in the License Agreements, the Plans, their Controlled Affiliates and BCBSA agree to submit all disputes to MMDR pursuant to these Rules and in lieu of litigation.

1. Initiation of Proceedings

A. Pre"MMDR Efforts

Before filing a Complaint to invoke the MMDR process, the CE7 of a complaining party, or his/her designated representative, shall undertake good faith efforts with the other side(s) to try to resolve any dispute.

B. Complaint

To commence a proceeding, the complaining party (or parties) shall provide by certified mail, return receipt requested, a written Complaint to the BCBSA Corporate Secretary (which shall also constitute service on BCBSA if it is a respondent) and to any Plan(s) and/or Controlled Affiliate(s) named therein. The Complaint shall containx

i. identification of the complaining party (or parties) requesting the proceeding;

ii. identification of the respondent(s);

iii. identification of any other persons or entities who are interested in a resolution of the dispute;

iv. a full statement describing the nature of the dispute;

v. identification of all of the issues that are being submitted for resolution;

Amended as of November 21, 1996

vi. the remedy sought;

vii. a statement as to whether the complaining party (or parties) elect(s) first to pursue Mediation;

viii. any request, if applicable, that the matter be handled on an e1pedited basis and the reasons therefor; and

i1. a statement signed by the CE7 of the complaining party affirming that the CE7 has undertaken efforts, or has directed efforts to be undertaken, to resolve the dispute before resorting to the MMDR process.

The complaining party (or parties) shall file and serve with the Complaint copies of all documents which the party (or parties) intend(s) to offer at the Arbitration Hearing and a statement identifying the witnesses the party (or parties) intend(s) to present at the Hearing, along with a summary of each witnessj e1pected testimony.

C. Answer

Within twenty (Gz) days after receipt of the Complaint, each respondent shall serve on BCBSA and on the complaining party (or parties)x

i. a full Answer to the aforesaid Complaint;

ii. a statement of any Counterclaims against the complaining party (or parties), providing with respect thereto the information specified in Paragraph NB., above;

iii. a statement as to whether the respondent elects to first pursue Mediation; and

iv. any request, if applicable, that the matter be handled on an e1pedited basis and the reasons therefor.

The respondent(s) shall file and serve with the Answer or by the date of the 0nitial Conference set forth in Paragraph 0.C., below, copies of all documents which the respondent(s) intend(s) to offer at the Arbitration Hearing and a statement identifying the witnesses the party (or parties) intend(s) to present at the Hearing, along with a summary of each witnessj e1pected testimony.

Amended as of September 20, 2007

EXHIBIT 5 Page 0 of C0

D. Reply To Counterclaim

Within ten (Nz) days after receipt of any Counterclaim, the complaining party (or parties) shall serve on BCBSA and on the responding party (or parties) a Reply to the Counterclaim. Such Reply must provide the same information required by Paragraph NC., above.

2. Mediation

To facilitate the mediation of disputes between or among BCBSA, the Plans and/or their Controlled Affiliates, the BCBSA Board has provided for Mediation under these Rules. Mediation may be pursued in lieu of or in an effort to obviate the Mandatory Dispute Resolution process, and all parties are strongly urged, but not required, to e1haust the mediation procedure provided for herein. C0 the event any party refuses to proceed with Mediation, the parties shall proceed immediately to Mandatory Dispute Resolution, as provided in Section 0.

A. Selection of Mediators

C0 all parties agree to pursue Mediation, they shall promptly attempt to agree uponx(i) the number of mediators desired, not to e1ceed three mediators; and (ii) the selection of e1perienced mediator(s) from an independent entity to mediate all disputes set forth in the Complaint and Answer (and Counterclaim and Reply, if any). C0 the event the parties are unable to agree upon the selection or number of mediators, both within five (“) days of the service of the Answer or Reply to Counterclaim, whichever is later, the BCBSA Corporate Secretary shall immediately refer the matter to a nationally recogniI ed professional ADR organiI ation (such as CPR or JAMS) for mediation by a single mediator to be selected by the ADR organiI ation.

B. Binding Decision

Before the Mediation Hearing described below, the BCBSA Corporate Secretary shall contact the parties to determine whether they wish to be bound by any recommendation of the selected mediator(s) for resolution of the disputes. C0 all wish to be bound, the Corporate Secretary will send appropriate documentation to them for their signatures before the Mediation Hearing begins.

Amended as of September 20, 2007

EXHIBIT 5 Page ’ of C0

C. Mediation Procedure

The Mediator(s) shall apply the mediation procedures and processes provided for herein (not the rules of the ADR organiIation with which they are affiliated) and shall promptly advise the parties of a scheduled Mediation Hearing date. Unless a party requests an e1pedited procedure, or unless all parties to the proceeding agree to one or more e1tensions of time, the Mediation Hearing set forth below shall be completed within forty (’ z) days of BCBSAjs receipt of the Complaint. The selected mediator(s), unless the parties otherwise agree, shall adhere to the following procedurex

i. Each party must be represented by its CE7 or other representative who has been delegated full authority to resolve the dispute. However, parties may send additional representatives as they see fit.

ii. Each party will be given one”half hour to present its case, beginning with the complaining party (or parties), followed by the other party or parties. The parties are free to structure their presentations as they see fit, using oral statements or direct e1amination of witnesses. However, neither cross”e1amination nor questioning of opposing representatives will be permitted. At the close of each presentation, the selected mediator(s) will be given an opportunity to ask questions of the presenters and witnesses. All parties must be present throughout the Mediation Hearing. The selected mediator(s) may e1tend the time allowed for each partyjs presentation at the Mediation Hearing. The selected mediator(s) may meet in e1ecutive session, outside the presence of the parties, or may meet with the parties separately, to discuss the controversy.

iii. After the close of the presentations, the parties will attempt to negotiate a settlement of the dispute. Of the parties desire, the selected mediators, or any one or more of the selected mediator(s), will sit in on the negotiations.

Amended as of September 20, 2007

iv. After the close of the presentations, the selected mediator(s) may meet privately to agree upon a recommendation for resolution of the dispute which would be submitted to the parties for their consideration and approval. Of the parties have previously agreed to be bound by the results of this procedure, this recommendation shall be binding upon the parties.

v. The purpose of the Mediation Hearing is to assist the parties to settle their grievances short of mandatory dispute resolution. As a result, the Mediation Hearing has been designed to be as informal as possible. Rules of evidence shall not apply. There will be no transcript of the proceedings, and no party may make a tape recording of the Mediation Hearing.

vi. On order to facilitate a free and open discussion, the Mediation proceeding shall remain confidential. A "Stipulation to Confidentiality" which prohibits future use of settlement offers, all position papers or other statements furnished to the selected mediator(s), and decisions or recommendations in any Mediation proceeding shall be e1ecuted by each party.

vii. Upon request of the selected mediator(s), or one of the parties, BCBSA staff may also submit documentation at any time during the proceedings.

D. 9 otice of Termination of Mediation

Of the Mediation cannot be completed within the prescribed or agreed time period due to the lack of cooperation of any party, as determined by the selected mediator(s), or if the Mediation does not result in a final resolution of all disputes at the Mediation Hearing or within ten (N2) days after the Mediation Hearing, any party or any one of the selected mediator(s) shall so notify the BCBSA Corporate Secretary, who shall promptly issue a 9 otice of Termination of Mediation to all parties, to the selected mediator(s), and to the MDR Administrator. Such notice shall serve to bring the Mediation to an end and to initiate Mandatory Dispute Resolution. Upon agreement of all parties and the mediator(s), the Mediation process may continue at the same time the MDR process is invoked. On such case, the 9 otice of Termination of Mediation described above serves to initiate the MDR proceeding, but does not terminate mediation proceedings, which may proceed simultaneous with the MDR proceeding.

Amended as of September 20, 2007

EXHIBIT 5 Page %of G0

3. Mandatory Dispute Resolution (MDR)

Of any party elects not to first pursue Mediation, or if a 9 otice of Termination of Mediation is issued as set forth in Paragraph GD., above, then the unresolved disputes set forth in any Complaint and Answer (and Counterclaim and Reply, if any) shall be sub4ect to mandatory binding arbitration (herein referred to as FMDR:).

A. MDR Administrator

The Administrator for purposes of Mandatory Arbitration shall be an independent nationally recogniIed entity such as CPR or JAMS, specialiIing in alternative dispute resolution. On the event the parties pursued Mediation with CPR, JAMS or a similar organiIation, that organiIation also shall serve as the MDR Administrator, unless all parties notify the BCBSA Corporate Secretary in writing within two (G) days of receiving the 9 otice of Termination of Mediation that they wish to pursue MDR with another nationally recogniIed organiIation serving as MDR Administrator.

On the event the parties (i) did not pursue Mediation, (ii) pursued mediation with a Mediator not affiliated with an ADR organiIation that offers a panel of arbitrators, or (iii) all parties that pursued Mediation notified the BCBSA Corporate Secretary that they wish to have an MDR Administrator that is different from the organiIation with which their mediator was affiliated, they shall promptly attempt to agree on a nationally recogniIed ADR entity that supplies a panel of arbitrators. Of they reach such agreement within five (“) days of the 9 otice of Termination of Mediation or receipt of the Answer or Reply to Counterclaim (whichever is later), the parties shall promptly inform the BCBSA Corporate Secretary of their agreed upon ADR organiIation. On the event the parties are unable to reach agreement on an MDR Administrator within that timeframe, the BCBSA Corporate Secretary shall immediately refer the matter to CPR, JAMS or a similar organiIation for MDR.

Any person who served as a Mediator shall not serve as an arbitrator for the same or similar dispute for purposes of MDR.

B. Rules for MDR

The rules controlling all aspects of MDR shall be e1clusively those provided for herein. The rules promulgated or otherwise used by the MDR Administrator organiIation shall not apply.

Amended as of September 20, 2007

EXHIBIT 5 Page 3 of CO

C. Qnitial Conference

Within seven (3) days after a 9 otice of Termination has issued, or the matter has otherwise been referred to an MDR Administrator, or within five (“) days after the time for filing and serving the Answer or Reply to any Counterclaim (whichever is later) if the parties elect first not to mediate, the parties shall confer with the Administrator to discuss selecting a dispute resolution panel ("the Panel"). This conference (the FQnitial Conference:) may be by telephone. The parties are encouraged to agree to the composition of the Panel and to present that agreement to the Administrator at the Qnitial Conference. Of the parties do not agree on the composition of the Panel by the time of the Qnitial Conference, or by any e1tension thereof agreed to by all parties and the Administrator, then the Panel Selection Process set forth in subparagraph D, below, shall be followed.

D. Panel Selection Process

The Administrator shall designate, prior to the Qnitial Conference, at least seven potential arbitrators. Each party shall be permitted to strike any designee for cause and the Administrator shall determine the sufficiency thereof in its sole discretion. The Administrator will designate a replacement for any designee so stricken. Each party shall then be permitted one peremptory strike from the list of designees. The Administrator shall set the dates for e1ercising all strikes, which shall be set to encourage the prompt selection of arbitrators.

After the parties e1ercise any designee strikes for cause and their peremptory strike against any designee of their choice, the parties shall each rank the remaining panel members in order of preference and provide the Administrator, without serving on any other party, their ranked list. The Administrator shall not disclose any party5s ranked list to members of the panel or to other parties.

2rom the remaining designees, and after considering opportunities to ma1imi1e, so far as possible, the collectively stated arbitrator preferences provided by the parties on their ranked lists, the Administrator shall select a three member Panel. The Panel Selection Process shall be completed no later than ten (Nz) days after the Qnitial Conference.

Each Arbitrator shall be compensated at his or her normal hourly rate or, in the absence of an established rate, at a reasonable hourly rate to be promptly fi1ed by the Administrator for all time spent in connection with the proceedings and shall be reimbursed for any travel and other reasonable e1penses.

Amended as of September 20, 2007

E. Duties 7 f The Arbitrators

The Panel shall promptly designate a Presiding Arbitrator for the purposes reflected below, but shall retain the power to review and modify any ruling or other action of said Presiding Arbitrator. Each Arbitrator shall be an independent Arbitrator, shall be governed by the Code of Ethics for Arbitrators in Commercial Disputes, and shall at or prior to the commencement of any Arbitration Hearing take an oath to that effect. Each Arbitrator shall promptly disclose in writing to the Panel and to the parties any circumstances, whenever arising, that might cause doubt as to such Arbitratorjs compliance, or ability to comply, with said Code of Ethics, and, absent resignation by such Arbitrator, the remaining Arbitrators shall determine in their sole discretion whether the circumstances so disclosed constitute grounds for disqualification and for replacement. With respect to such circumstances arising or coming to the attention of a party after an Arbitratorjs selection, a party may likewise request the Arbitratorjs resignation or a determination as to disqualification by the remaining Arbitrators. With respect to a sole Arbitrator, the determination as to disqualification shall be made by the Administrator.

There shall be no e1 parte communication between the parties or their counsel and any member of the Panel.

2. Paneljs Jurisdiction And Authority

The Paneljs 4urisdiction and authority shall e1tend to all disputes between or among the Plans, their Controlled Affiliates, and/or BCBSA, e1cept for those disputes e1cepted from these MMDR procedures as set forth in the License Agreements.

With the e1ception of punitive or treble damages, the Panel shall have full authority to award the relief it deems appropriate to resolve the partiesj disputes, including monetary awards and in4unctions, mandatory or prohibitory. The Panel has no authority to award punitive or treble damages e1cept that the Panel may allocate or assess responsibility for punitive or treble damages assessed by another tribunal. Sub4ect to the above limitations, the Panel may, by way of e1ample, but not of limitationx

Amended as of September 20, 2007

EXHIBIT 5 Page 8 of C0

i. interpret or construe the meaning of any terms, phrase or provision in any license between BCBSA and a Plan or a Controlled Affiliate relating to the use of the BLUE CR7 SSX or BLUE SHCELDX service marks.

ii. determine whether BCBSA, a Plan or a Controlled Affiliate has violated the terms or conditions of any license between the BCBSA and a Plan or a Controlled Affiliate relating to the use of the BLUE CR7 SSX or BLUE SHCELDX service marks.

iii. decide challenges as to its own 4urisdiction.

iv. issue such orders for interim relief as it deems appropriate pending Hearing and Award in any Arbitration.

C0is understood that the Panel is e1pected to resolve issues based on governing principles of law, preserving to the ma1imum e1tent legally possible the continued integrity of the Licensed Marks and the BLUE CR7 SS/BLUE SHCELD system. The Panel shall apply federal law to all issues which, if asserted in the United States District Court, would give rise to federal question 4urisdiction, C6 U.S.C. § N00N The Panel shall apply C0linois law to all issues involving interpretation, performance or construction of any License Agreement or Controlled Affiliate License Agreement unless the agreement otherwise provides. As to other issues, the Panel shall choose the applicable law based on conflicts of law principles of the State of C0linois.

- . Administrative Conference

Within five (“) days of the Panel being selected, the Presiding Arbitrator shall confer with the parties and the other members of the Panel and shall schedule, in writing, a conference in which the parties and the Panel shall participate (the FAdministrative Conference:). The Administrative Conference shall take place no later than fifteen (N‘) days after the Panel is selected. At the Administrative Conference the parties and the Panel shall discuss the scheduling of the Arbitration Hearing and any other matter appropriate to be considered, including but not limited toxany written discovery in the form of requests for production of documents or requests to admit facts; the identity of any witness whose deposition a party may desire and a showing of e1ceptional good cause for the taking

Amended as of September 20, 2007

of any such deposition; the desirability of bifurcation or other separation of the issues; the need for and the type of record of conferences and hearings, including the need for transcripts; the need for e1pert witnesses and how e1pert testimony should be presented; the appropriateness of motions to dismiss and/or for full or partial summary 4udgment; consideration of stipulations; the desirability of presenting any direct testimony in writing; and the necessity for any on"site inspection by the Panel. Of the parties agree, the Administrative Conference may be by telephone.

H. Discovery

i. ***Requests for Production of Documents***xAll requests for the production of documents must be served no later than five (") days after the date of the 0nitial Conference. Within twenty (Gz) days after receipt of a request for production of documents, a party shall (a) serve responses and ob4ections to the request, (b) produce all responsive, non"privileged documents to the requesting party, and (c) to the e1tent any responsive documents are withheld on the grounds of attorney"client privilege or work product, produce a log identifying such documents in the manner specified in 2ed. R. Civ. P. G?(b)("). Of, after reviewing a privilege log, the requesting party believes attorney"client privilege or work product protection was improperly claimed by the producing party with respect to any document, the requesting party may ask the Presiding Arbitrator to conduct an in"camera inspection of the same. With respect to documentary and other discovery produced in any MDR proceeding by BCBSA, the fact that a party5s CE7 or other senior officers may serve on the BCBSA Board of Directors, BCBSA Board Committees or other BCBSA work groups, task forces and the like, shall not be a basis for defeating an otherwise valid claim of attorney"client privilege or work product protection over such documentary or other discovery materials by BCBSA.

ii. ***Requests for Admissions***xRequests for Admissions may be served up to twenty"one (GN) days prior to the discovery cut"off set by the Presiding Arbitrator. A party served with Requests 2or Admissions must respond within twenty (Gz) days of receipt of said request. The good faith use of and response to Requests for Admissions is encouraged, and the Panel shall have full discretion, with reference to the 2ederal Rules of Civil Procedure, in awarding appropriate sanctions with respect to abuse of the procedure.

Amended as of September 20, 2007

EXHIBIT 5 Page NNof GO

iii. Depositions: As a general rule, the parties will not be permitted to take party or non"party deposition testimony for discovery

purposes. The Presiding Arbitrator, in his or her sole discretion, shall have the authority to permit a party to take such deposition testimony upon a showing of e1ceptional good cause. The parties will be permitted to take de bene esse deposition[N] testimony to the fullest e1tent permitted by law of any witness who cannot be compelled to testify at the Arbitration Hearing. 9 o deposition, for discovery purposes or otherwise, shall e1ceed three (0) hours, e1cluding ob4ections and colloquy of counsel. Depositions may be recorded in any manner recogniIed by the 2ederal Rules of Civil Procedure and the parties shall specify in each notice of deposition or request for permission to take deposition testimony the manner in which such deposition shall be recorded.

iv. Expert witness(es) xOf a party intends to present the testimony of an e1pert witness during the oral hearing, it shall provide all other parties with a written statement setting forth the information

required to be provided by 2ed. R. Civ. P. G%(a)(G)(B) ten (Nz) days prior to the discovery cut"off set by the Presiding Arbitrator. Of a party intends to present the testimony of a rebuttal e1pert witness during the Arbitration Hearing, it shall provide all other parties with a written statement setting forth the information required to be provided by 2ed. R. Civ. P. G%(a)(G)(B) within twenty (Gz) days after the date on which the written statement of the e1pert witness whose testimony is to be rebutted was produced.

v. Discovery cut-off*:* The Presiding Arbitrator shall determine the date on which the discovery period will end, but the discovery period shall not e1ceed thirty (0z) days from the date of the Administrative Conference without the agreement of all parties.

Amended as of September 20, 2007

[N] As used in these Rules, Fde bene esse deposition: means a deposition that is not taken for discovery purposes, but is taken for the purposes of reading part or all of the deposition transcript into the record at the Arbitration Hearing, to the e1tent permitted b the Panel, because the witness cannot be compelled to testify at the Arbitration Hearing or has e1ercised a right provided under these Rules to provide deposition testminoy in lieu of testimony at the Arbitration Hearing.

EXHIBIT 5

Page NGof C0

vi. ***Additional discovery***xAny additional discovery will be at the discretion of the Presiding Arbitrator.

vii. ***Discovery Disputes:*** Any discovery disputes shall be raised by motion to the Presiding Arbitrator, who is authoriIed to resolve all such disputes, and whose resolution will be binding on the parties unless modified by the Arbitration Panel. Prior to raising any discovery dispute with the Presiding Arbitrator, the parties shall meet and confer, telephonically or in person, in an attempt to resolve or narrow the dispute. Of a party refuses to comply with a decision resolving a discovery dispute, the Panel, in keeping with 2ed. R. Civ. P. 03, may refuse to allow that party to support or oppose designated claims or defenses, prohibit that party from introducing designated matters into evidence or, in e1treme cases, decide an issue submitted for resolution adversely to that party.

viii. ***Extensions:*** The time for responding to discovery requests may be e1tended by the Presiding Arbitrator for good and sufficient cause shown. Any request for such an e1tension shall be made in writing.

O Panel Suggested Settlement/Mediation

At any point during the proceedings, the Panel at the request of any party or on its own initiative, may suggest that the parties e1plore settlement and that they do so at or before the conclusion of the Arbitration Hearing, and the Panel shall give such assistance in settlement negotiations as the parties may request and the Panel may deem appropriate. Alternatively, the Panel may direct the parties to endeavor to mediate their disputes as provided above, or to e1plore a mini"trial proceeding, or to have an independent party render a neutral evaluation of the parties5respective positions. The Panel shall enter such sanctions as it deems appropriate with respect to any party failing to pursue in good faith such Mediation or other alternate dispute resolution methods.

Amended as of September 20, 2007

EXHIBIT 5 Page N0 of G0

J. Subpoenas on Third Parties

Pursuant to, and consistent with, the 2ederal Arbitration Act, 8 U.S.C. § 8 *et seq*., and sub4ect to Paragraph 0.- (iii) above, a party may request the issuance of a subpoena on any third party, including but not limited to any third party Blue Plan or any officer, employee or director of a third party Blue Plan, to compel deposition testimony or the production of documents, and, if good and sufficient cause is shown, the Panel shall issue such a subpoena.

K. Arbitration Hearing

An Arbitration Hearing will be held within thirty (0z) days after the Administrative Conference if no discovery is taken, or within thirty (0z) days after the close of discovery, unless all parties and the Panel agree to e1tend the Arbitration Hearing date, or unless the parties agree in writing to waive the Arbitration Hearing. The parties may mutually agree on the location of the Arbitration Hearing. 0f the parties fail to agree, the Arbitration Hearing shall be held in Chicago, 0llinois, or at such other location determined by the Presiding Arbitrator to be most convenient to the participants. The Panel will determine the date(s) and time(s) of the Arbitration Hearing(s) after consultation with all parties and shall provide reasonable notice thereof to all parties or their representatives.

L. Arbitration Hearing Memoranda

Twenty (Gz) days prior to the Arbitration Hearing, each party shall submit to the other party (or parties) and to the Panel an Arbitration Hearing Memorandum which sets forth the applicable law and any argument as to any relevant issue. The Arbitration Hearing Memorandum will supplement, and not repeat, the allegations, information and documents contained in or with the Complaint, Answer, Counterclaim and Reply, if any. Ten (Nz) days prior to the Arbitration Hearing, each party shall submit to each other party a list of all e1pert and fact witnesses (but not including rebuttal fact witness) that such party intends to have testify at the Arbitration Hearing and a brief summary of the testimony each such witness is e1pected to give. 0n addition, no later than five (“) days prior to the Arbitration, each party may submit to each other party and to the Panel a Response Arbitration Hearing Memorandum which sets forth any response to another partyjs Arbitration Hearing Memorandum.

Amended as of September 20, 2007

EXHIBIT 5 Page N of C0

M. 9 otice 2or Testimony

Ten (Nz) days prior to the Arbitration Hearing, any party may serve a 9 otice on any other party (or parties) requesting the attendance at the Arbitration Hearing of any officer, employee or director of the other party (or parties) for the purpose of providing noncumulative testimony. Of a party fails to produce one of its officers, employees or directors whose noncumulative testimony during the Arbitration Hearing is reasonably requested by an adverse party, the Panel may refuse to allow that party to support or oppose designated claims or defenses, prohibit that party from introducing designated matters into evidence or, in e1treme cases, decide an issue submitted for mandatory dispute resolution adversely to that party; provided, however, that a party may refuse to produce a director to testify if, within two (G) days of receiving a notice requesting the attendance of such director at the Arbitration Hearing, the party agrees to make the director available for a de bene esse deposition at a mutually convenient time at any location within fifty ("z) miles of the director5s primary residence chosen by the party requesting the director5s testimony. This Rule may not be used for the purpose of burdening or harassing any party, and the Presiding Arbitrator may impose such orders as are appropriate so as to prevent or remedy any such burden or harassment.

Pursuant to, and consistent with, the 2ederal Arbitration Act, 8 U.S.C. § 8 *et seq.*, twenty (Gz) days or more prior to the Arbitration Hearing, a party may request the issuance of a subpoena on any third party, including but not limited to any third party Blue Plan, BCBSA or any officer, employee or director of a third party Blue Plan or BCBSA for the purpose of providing noncumulative testimony at the Arbitration Hearing, and, if good and sufficient cause is shown, the Panel shall issue such a subpoena; provided however, that a director of a third party Blue Plan or BCBSA may refuse to testify if, within two (G) days of receiving a subpoena requesting the attendance of such director at the Arbitration Hearing, the director agrees to make him/herself available for a de bene esse deposition at a mutually convenient time at any location within fifty ("z) miles of the director5s primary residence chosen by the party requesting the director5s testimony. Each Blue Plan agrees to waive, on its own behalf and on behalf of its directors and officers, any ob4ection it otherwise might have to any such subpoena based on service, venue or e1traterritoriality.

Amended as of September 20, 2007

EXHIBIT 5 Page N‘ of C0

9 . Arbitration Hearing Procedures

i. ***Attendance at Arbitration Hearing***xAny person having a direct interest in the proceeding is entitled to attend the Arbitration Hearing. The Presiding Arbitrator shall otherwise have the power to require the e1clusion of any witness, other than a party or other essential person, during the testimony of any other witness. C0 shall be discretionary with the Presiding Arbitrator to determine the propriety of the attendance of any other person.

ii. ***Confidentiality***xThe Panel and all parties shall maintain the privacy of the Arbitration Proceeding. The parties and the Panel shall treat the Arbitration Hearing and any discovery or other proceedings or events related thereto, including any award resulting therefrom, as confidential e1cept as otherwise necessary in connection with a 4udicial challenge to or enforcement of an award or unless otherwise required by law.

iii. ***Stenographic Record***xAny party, or if the parties do not ob4ect, the Panel, may request that a stenographic or other record be made of any Arbitration Hearing or portion thereof. The costs of the recording and/or of preparing the transcript shall be borne by the requesting party and by any party who receives a copy thereof. C0 the Panel requests a recording and/or a transcript, the costs thereof shall be borne equally by the parties.

iv. ***Oaths***xThe Panel may require witnesses to testify under oath or affirmation administered by any duly qualified person and, if requested by any party, shall do so.

v. ***Order of Arbitration Hearing***xAn Arbitration Hearing shall be opened by the recording of the date, time, and place of the Arbitration Hearing, and the presence of the Panel, the parties, and their representatives, if any. The Panel may, at the beginning of the Arbitration Hearing, ask for statements clarifying the issues involved.

Amended as of September 20, 2007

EXHIBIT 5

Page №‰of Œ0

Unless otherwise agreed, the complaining party (or parties) shall then present evidence to support their claim(s). The respondent(s) shall then present evidence supporting their defenses and Counterclaims, if any. The complaining party (or parties) shall then present evidence supporting defenses to the Counterclaims, if any, and rebuttal.

Witnesses for each party shall submit to questions by adverse parties and/or the Panel.

The Panel has the discretion to vary these procedures, but shall afford a full and equal opportunity to all parties for the presentation of any material and relevant evidence.

vi. ***Evidence***xThe parties may offer such evidence as is relevant and material to the dispute and shall produce such evidence as the Panel may deem necessary to an understanding and resolution of the dispute. Unless good cause is shown, as determined by the Panel or agreed to by all other parties, no party shall be permitted to offer evidence at the Arbitration Hearing which was not disclosed prior to the Arbitration Hearing by that party. The Panel may receive and consider the evidence of witnesses by affidavit upon such terms as the Panel deems appropriate.

The Panel shall be the 4ıdge of the relevance and materiality of the evidence offered, and conformity to legal rules of evidence, other than enforcement of the attorney"client privilege and the work product protection, shall not be necessary. The 2ederal Rules of Evidence shall be considered by the Panel in conducting the Arbitration Hearing but those rules shall not be controlling. All evidence shall be taken in the presence of the Panel and all of the parties, e1cept where any party is in default or has waived the right to be present.

Settlement offers by any party in connection with Mediation or MDR proceedings, decisions or recommendations of the selected mediators, and a partyjs position papers or statements furnished to the selected mediators shall not be admissible evidence or considered by the Panel without the consent of all parties.

vii. ***Closing of Arbitration Hearing***xThe Presiding Arbitrator shall specifically inquire of all parties whether they have any further proofs to offer or witnesses to be heard. Upon receiving negative replies or if he or she is satisfied that the record is complete, the Presiding Arbitrator shall declare the Arbitration Hearing closed with an appropriate notation made on the record. Sub4ect to being reopened as provided below, the time within which the Panel is required to make the award shall commence to run, in the absence of contrary agreement by the parties, upon the closing of the Arbitration Hearing.

With respect to comple1 disputes, the Panel may, in its sole discretion, defer the closing of the Arbitration Hearing for a period of up to thirty (0z) days after the presentation of proofs in order to permit the parties to submit post" hearing briefs and argument, as the Panel deems appropriate, prior to making an award.

2or good cause, the Arbitration Hearing may be reopened for up to thirty (0z) days on the Paneljs initiative, or upon application of a party, at any time before the award is made

7 . Awards

An Award must be in writing and shall be made promptly by the Panel and, unless otherwise agreed by the parties or specified by law, no later than thirty (0z) days from the date of closing the Arbitration Hearing. Of all parties so request, the Award shall contain findings of fact and conclusions of law. The Award, and all other rulings and determinations by the Panel, may be by a ma4rity vote.

Parties shall accept as legal delivery of the Award the placing of the Award or a true copy thereof in the mail addressed to a party or its representative at its last known address or personal service of the Award on a party or its representative.

Awards are binding only on the parties to the Arbitration and are not binding on any non"parties to the Arbitration and may not be used or cited as precedent in any other proceeding.

Amended as of September 20, 2007

After the e1piration of twenty (Cz) days from initial delivery, the Award (with corrections, if any) shall be final and binding on the parties, and the parties shall undertake to carry out the Award without delay.

Proceedings to confirm, modify or vacate an Award shall be conducted in conformity with and controlled by the 2ederal Arbitration Act. 8 U.S.C. § N, *et seq*.

P. Return of Documents

Within si1ty (%z) days after the Award and the conclusion of any 4udicial proceedings with respect thereto, each party and the Panel shall return any documents produced by any other party, including all copies thereof. Of a party receives a discovery request in any other proceeding which would require it to produce any documents produced to it by any other party in a proceeding hereunder, it shall not produce such documents without first notifying the producing party and giving said party reasonable time to respond, if appropriate, to the discovery request.

4. Miscellaneous

A. E1pedited Procedures

Any party to a Mediation may direct a request for an e1pedited Mediation Hearing to the Chairman of the Mediation Committee, to the selected Mediators, and to all other parties at any time. The Chairman of the Mediation Committee, or at his or her direction, the then selected Mediators, shall grant any request which is supported by good and sufficient reasons. Of such a request is granted, the Mediation shall be completed within as short a period as practicable, as determined by the Chairman of the Mediation Committee or, at his or her direction, the then selected Mediators.

Any party to an Arbitration may direct a request for e1pedited proceedings to the Administrator, to the Panel, and to all other parties at any time. The Administrator, or the Presiding Arbitrator if the Panel has been selected, shall grant any such request which is supported by good and sufficient reasons. Of such a request is granted, the Arbitration shall be completed within as short a time as practicable, as determined by the Administrator and/or the Presiding Arbitrator.

B. Temporary or Preliminary O24unctive Relief

Any party may seek temporary or preliminary in4unctive relief with the filing of a Complaint or at any time thereafter. Of such relief is sought prior to the time that an Arbitration Panel has been selected, then the Administrator shall select a single Arbitrator who is a lawyer who has no interest in the sub4ect matter of the dispute, and no connection to any of the parties, to hear and determine the request for temporary or preliminary in4unction. Of such relief is sought after the time that an Arbitration Panel has been selected, then the Arbitration Panel will hear and determine the request. The request for temporary or preliminary in4unctive relief will be determined with reference to the temporary or preliminary in4unction standards set forth in 2ed. R. Civ. P. %‘.

C. Defaults and Proceedings in the Absence of a Party

Whenever a party fails to comply with the MDR Rules in a manner deemed material by the Panel, the Panel shall fi1 a reasonable time for compliance and, if the party does not comply within said period, the Panel may enter an 7 rder of default or afford such other relief as it deems appropriate. Arbitration may proceed in the event of a default or in the absence of any party who, after due notice, fails to be present or fails to obtain an e1tension. An Award shall not be made solely on the default or absence of a party, but the Panel shall require the party who is present to submit such evidence as the Panel may require for the making of findings, determinations, conclusions, and Awards.

D. 9 otice

Each party shall be deemed to have consented that any papers, notices, or process necessary or proper for the initiation or continuation of a proceeding under these rules or for any court action in connection therewith may be served on a party by mail addressed to the party or its representative at its last known address or by personal service, in or outside the state where the MDR proceeding is to be held.

The Corporate Secretary and the parties may also use facsimile transmission, tele1, telegram, or other written forms of electronic communication to give the notices required by these rules.

EXHIBIT 5 Page Gz of GD

E. E1penses

The e1penses of witnesses shall be paid by the party causing or requesting the appearance of such witnesses. All e1penses of the MDR proceeding, including compensation, required travel and other reasonable e1penses of the Panel, and the cost of any proof produced at the direct request of the Panel, shall be borne equally by the parties and shall be paid periodically on a timely basis, unless they agree otherwise or unless the Panel in the Award assesses such e1penses, or any part thereof against any party (or parties). On e1ceptional cases, the Panel may award reasonable attorneysj fees as an item of e1pense, and the Panel shall promptly determine the amount of such fees based on affidavits or such other proofs as the Panel deems sufficient.

2. Disqualification or Disability of A Panel Member

On the event that any Arbitrator of a Panel with more than one Arbitrator should become disqualified, resign, die, or refuse or be unable to perform or discharge his or her duties after the commencement of MDR but prior to the rendition of an Award, and the parties are unable to agree upon a replacement, the remaining Panel member(s)x

i. shall designate a replacement, sub4ect to the right of any party to challenge such replacement for cause.

ii. shall decide the e1tent to which previously held hearings shall be repeated.

If the remaining Panel members consider the proceedings to have progressed to a stage as to make replacement impracticable, the parties may agree, as an alternative to the recommencement of the Mandatory Dispute Resolution process, to resolution of the dispute by the remaining Panel members.

On the event that a single Arbitrator should become disqualified, resign, die, or refuse or be unable to perform or discharge his or her duties after the commencement of MDR but prior to the rendition of an Award, and the parties are unable to agree upon a replacement, the Administrator shall appoint a successor, sub4ect to the right of any party to challenge such successor for cause, and the successor shall decide the e1tent to which previously held proceedings shall be repeated.

- . E1tensions of Time

Sub4ect to the provisions of Paragraph 0.H.(viii), any time limit set forth in these Rules may be e1tended upon agreement of the parties and approval ofx(N) the Mediator if the proceeding is then in Mediation; (G) the Administrator if the proceeding is in Arbitration, but no Arbitration Panel has been selected; or (0) the Arbitration Panel, if the proceeding is in Arbitration and the Arbitration Panel has been selected.

H. 0ntervention

The Plans, their Controlled Affiliates, and BCBSA, to the e1tent sub4ect to MMDR pursuant to their License Agreements, shall have the right to move to intervene in any pending Arbitration. A written motion for intervention shall be made tox(N) the Administrator, if the proceeding is in Arbitration, but no Arbitration Panel has been selected; or (G) the Arbitration Panel, if the proceeding is in Arbitration and the Arbitration Panel has been selected. The written motion for intervention shall be delivered to the BCBSA Corporate Secretary (which shall also constitute service on the BCBSA if it is a respondent) and to any Plan(s) and/or Controlled Affiliate(s) which are parties to the proceeding. Any party to the proceeding can submit written ob4ections to the motion to intervene. The motion for intervention shall be granted upon good cause shown. 0ntervention also may be allowed by stipulation of the parties to the Arbitration proceeding. 0ntervention shall be allowed upon such terms as the Arbitration Panel decides.

O BCBSA Assistance 0n Resolution of Disputes

The resources and personnel of the BCBSA may be requested by any member Plan at any time to try to resolve disputes with another Plan.

J. 9 eutral Evaluation

The parties can voluntarily agree at any time to have an independent party render a neutral evaluation of the parties5respective positions.

Amended as of September 20, 2007

EXHIBIT 5 Page GGof GO

K. Recovery of Attorney 2ees and E1penses

i. Motions to Compel

9 othwithstanding any other provisions of these Rules, any Party sub4ect to the License Agreements (for purposes of this Section K and all of its subsections only hereinafter referred to collectively and individually as a FParty:) that initiates a court action or administrative proceeding solely to compel adherence to these Rules shall not be determined to have violated these Rules by initiating such action or proceeding.

ii Recovery of 2ees, E1penses and Costs

The Arbitration Panel may, in its sole discretion, award a Party its reasonable attorneys5 fees, e1penses and costs associated with a filing to compel adherence to these Rules and/or reasonable attorneys5 fees, e1penses and costs incurred in responding to an action filed in violation of these Rules; provided, however, that neither fees, e1penses, nor costs shall be awarded by the Arbitration Panel if the Party from which the award is sought can demonstrate to the Arbitration panel, in its sole discretion, that it did not violate these Rules or that it had reasonable grounds for believing that its action did not violate these Rules.

iii Requests for Reimbursement

2or purposes of this Section K, any Party may request reimbursement of fees, e1penses and/or costs by submitting said request in writing to the Arbitration Panel at any time before an award is delivered pursuant to Paragraph 0.7 above, with a copy to the Party from which reimbursement is sought, e1plaining why it is entitled to such reimbursement. The Party from which reimbursement is sought shall have twenty (Gz) days to submit a response to such request to the Arbitration Panel with a copy to the Party seeking reimbursement.

Amended as of September 20, 2007

EXHIBIT 5 Page CO of CO

L. Calculation of Time and Deadlines

On computing any period of time prescribed or allowed under these rules, the day of the act or event from which the designated period of time begins to run shall not be included. The last day of the period so computed shall be included, unless it is a Saturday, a Sunday, or a legal holiday, in which event the period runs until the end of the ne1t day which is not one of the aforementioned days. When the period of time prescribed is less than si1 (%) days, intermediate Saturdays, Sundays and legal holidays shall be e1cluded in the computation. As used in this rule, Flegal holiday: includes 9 ew Year5s Day, Martin Luther King, Jr. Day, Washington5s Birthday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans Day, Thanksgiving Day, Christmas Day and any other day appointed as a holiday by the President or the Congress of the United States.

CERTIFICATION PURSUANT TO
RULE 13a-14(a) AND RULE 15d-14(a) OF THE EXCHANGE ACT RULES,
AS ADOPTED PURSUANT TO
SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, Joseph R. Swedish, certify that:

1. I have reviewed this report on Form 10-K of Anthem, Inc.;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

   a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

   b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

   c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

   d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent function):

   a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

   b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

   a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

   b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

   c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

   d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent function):

   a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

   b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. ☑ Yes ☐ No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. ☐ Yes ☑ No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. ☑ Yes ☐ No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). ☑ Yes ☐ No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§229.405 of this chapter) is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K. ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☑ Accelerated filer ☐
Non-accelerated filer ☐ Smaller reporting company ☐
Emerging growth company ☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). ☐ Yes ☑ No

The aggregate market value of the registrant's common stock held by non-affiliates was approximately $65,262,991,789 as of June 30, 2018, based on the closing price of the common stock on the New York Stock Exchange. For purposes of this calculation, only executive officers and directors are deemed to be the affiliates of the registrant.

As of February 19, 2019, the registrant had 1,297,082,165 shares of common stock issued and outstanding.

DOCUMENTS INCORPORATED BY REFERENCE

The following materials are incorporated by reference into this Form 10-K:

Portions of the Annual Report to Stockholders for the fiscal year ended December 31, 2018 (the "Annual Report") are incorporated by reference in response to Items 1, 1A, 2 and 3 of Part I and Items 5, 6, 7, 7A, 8 and 9A of Part II, in each case to the extent described therein.

Information contained in the definitive proxy statement for CVS Health Corporation's 2019 Annual Meeting of Stockholders, to be filed on or about April 5, 2019 (the "Proxy Statement"), is incorporated by reference in response to Items 10 through 14 of Part III to the extent described therein.

TABLE OF CONTENTS

PART I

Item 1. Business

Overview

CVS Health Corporation, together with its subsidiaries (collectively, "CVS Health," the "Company," "we," "our" or "us"), is the nation's premier health innovation company helping people on their path to better health. Whether in one of its pharmacies or through its health services and plans, CVS Health is pioneering a bold new approach to total health by making quality care more affordable, accessible, simple and seamless. CVS Health is community-based and locally focused, engaging consumers with the care they need when and where they need it. The Company has more than 9,900 retail locations, approximately 1,100 walk-in medical clinics, a leading pharmacy benefits manager with approximately 92 million plan members, a dedicated senior pharmacy care business serving more than one million patients per year, expanding specialty pharmacy services, and a leading stand-alone Medicare Part D prescription drug plan. CVS Health also serves an estimated 38 million people through traditional, voluntary and consumer-directed health insurance products and related services, including rapidly expanding Medicare Advantage offerings. The Company believes its innovative health care model increases access to quality care, delivers better health outcomes and lowers overall health care costs.

On November 28, 2018 (the "Aetna Acquisition Date"), the Company acquired Aetna Inc. ("Aetna") for a combination of cash and CVS Health stock (the "Aetna Acquisition"). The Company acquired Aetna to help improve the consumer health care experience by combining Aetna's health care benefits products and services with CVS Health's more than 9,900 retail locations, approximately 1,100 walk-in medical clinics and integrated pharmacy capabilities with the goal of becoming the new, trusted front door to health care. Under the terms of the merger agreement, Aetna shareholders received $145.00 in cash and 0.8378 CVS Health shares for each Aetna share. The transaction valued Aetna at approximately $212 per share or approximately $70 billion. Including the assumption of Aetna's debt, the total value of the transaction was approximately $78 billion. The Company financed the cash portion of the purchase price through a combination of cash on hand and by issuing approximately $45.0 billion of new debt, including senior notes and term loans. For additional information, see Note 2 ''Acquisition of Aetna'' contained in the "Notes to Consolidated Financial Statements" in the Annual Report, which is incorporated by reference herein.

On October 10, 2018, the Company and Aetna entered into a consent decree with the United States Department of Justice (the "DOJ") that allowed the Company's proposed acquisition of Aetna to proceed, provided Aetna agreed to sell its individual standalone Medicare Part D prescription drug plans. As part of the agreement reached with the DOJ, Aetna entered into a purchase agreement with a subsidiary of WellCare Health Plans, Inc. ("WellCare") for the divestiture of Aetna's standalone Medicare Part D prescription drug plans effective December 31, 2018. On November 30, 2018, Aetna completed the sale of its standalone Medicare Part D prescription drug plans. Aetna's standalone Medicare Part D prescription drug plans had an aggregate of approximately 2.3 million members as of December 31, 2018. Aetna will provide administrative services to, and will retain the financial results of, the divested plans through 2019.

As a result of the Aetna Acquisition, the Company added the Health Care Benefits segment, which is the equivalent of the former Aetna Health Care segment. Certain aspects of Aetna's operations, including products for which the Company no longer solicits or accepts new customers, such as large case pensions and long-term care insurance products, are included in the Company's Corporate/Other segment. The Company now has four reportable segments: Pharmacy Services, Retail/LTC, Health Care Benefits and Corporate/Other.

Business Strategy

The combined company expects to transform the consumer health care experience and build healthier communities through a new innovative health care model that is local, easier to use, less expensive and puts consumers at the center of their care. The Company believes that improving the consumer's health care experience will improve consumer engagement with their health which will lead to improved health outcomes and lower total health care costs. The Company believes there are three imperatives to accomplishing this transformation: be local, make it simple and improve health. These imperatives also guide the Company's five key strategies for delivering medical cost savings for its customers: improve common chronic disease management, reduce unnecessary hospital readmissions, improve the

efficiency of the sites at which medical members receive care, optimize primary care delivery and improve the Company's complex chronic disease management capabilities.

Pharmacy Services Segment

The Pharmacy Services segment provides a full range of pharmacy benefit management ("PBM") solutions, including plan design offerings and administration, formulary management, retail pharmacy network management services, mail order pharmacy, specialty pharmacy and infusion services, Medicare Part D services, clinical services, disease management services and medical spend management. The Pharmacy Services segment's clients are primarily employers, insurance companies, unions, government employee groups, health plans, Medicare Part D prescription drug plans ("PDPs"), Medicaid managed care ("Managed Medicaid") plans, plans offered on public health insurance exchanges ("Public Exchanges") and private health insurance exchanges ("Private Exchanges" and together with Public Exchanges, "Insurance Exchanges"), other sponsors of health benefit plans and individuals throughout the United States. In addition, the Company is a national provider of drug benefits to eligible beneficiaries under the Medicare Part D prescription drug program. The Pharmacy Services segment operates retail specialty pharmacy stores, specialty mail order pharmacies, mail order dispensing pharmacies, compounding pharmacies and branches for infusion and enteral nutrition services. During the year ended December 31, 2018, the Company's PBM filled or managed approximately 1.9 billion prescriptions on a 30-day equivalent basis.

PBM Services

The Company dispenses prescription drugs directly through its mail order dispensing and specialty mail order pharmacies and through pharmacies in its retail network. All prescriptions processed by the Company are analyzed, processed and documented by the Company's proprietary prescription management systems. These systems provide essential features and functionality to allow a plan member to utilize their prescription drug benefits. These systems also streamline the process by which prescriptions are processed by staff and network pharmacists by enhancing review of various items through automation, including plan eligibility, early refills, duplicate dispensing, appropriateness of dosage, drug interactions or allergies, over-utilization and potential fraud.

Plan Design Offerings and Administration
The Company administers pharmacy benefit plans for clients who contract with it to facilitate prescription drug coverage and claims processing for their eligible plan members. The Company assists its PBM clients in designing pharmacy benefit plans that help improve health outcomes while minimizing the costs to the client. The Company also assists PBM clients in monitoring the effectiveness of their plans through frequent, informal communications, the use of proprietary software, as well as through formal annual, quarterly and sometimes monthly performance reviews.

The Company makes recommendations to help PBM clients design benefit plans that promote the use of lower cost, clinically appropriate drugs and helps its PBM clients control costs by recommending plan designs that encourage the use of generic equivalents of brand name drugs when such equivalents are available. Clients also have the option, through plan design, to further lower their pharmacy benefit plan costs by setting different member payment levels for different products on their drug lists or "formularies," which helps guide members to choose lower cost alternatives through appropriate financial incentives.

Formulary Management
The Company utilizes an independent panel of doctors, pharmacists and other medical experts, referred to as the CVS Caremark National Pharmacy and Therapeutics Committee, to review and approve the selection of drugs that meet the Company's standards of safety and efficacy for inclusion on one of the Company's template formularies. The Company's formularies provide recommended products in numerous drug classes to help ensure member access to clinically appropriate drugs with alternatives within a class under the client's pharmacy benefit plan, while helping to drive the lowest net cost for clients that select one of the Company's formularies. To help improve clinical outcomes for members and clients, the Company conducts ongoing, independent reviews of all drugs, including, but not limited to, those appearing on the formularies and generic equivalent products. Many of the Company's clients choose to adopt a template formulary offering as part of their plan design. Beginning in 2018, clients had new capabilities to offer real time benefits information for a member's specific plan design, provided digitally at the point of prescribing, at the pharmacy and directly to members.

Retail Pharmacy Network Management Services
The Company maintains a national network of more than 68,000 retail pharmacies, consisting of approximately 41,000 chain pharmacies (which includes CVS Pharmacy locations) and 27,000 independent pharmacies, in the United States,

including Puerto Rico, the District of Columbia, Guam and the United States Virgin Islands. When a customer fills a prescription in a retail pharmacy, the pharmacy sends prescription data electronically to the Company from the point-of-sale. This data interfaces with the Company's proprietary prescription management systems, which verify relevant plan member data and eligibility, while also performing a drug utilization review to help evaluate clinical appropriateness and safety and confirming that the pharmacy will receive payment for the prescription. The Company is also able to build client-specific pharmacy networks and

managed pharmacy network solutions to further drive savings for clients. These include a performance-based pharmacy network with approximately 30,000 stores that is anchored by CVS Pharmacy and Walgreens, along with up to 10,000 independent pharmacies across the United States. The performance-based network is designed to deliver unit cost savings and to improve clinical outcomes in order to help to lower overall health care costs for participating payors and their members.

Mail Order Pharmacy Services
The Pharmacy Services segment operates mail order dispensing pharmacies in the United States. Plan members or their prescribers submit prescriptions or refill requests, primarily for maintenance medications, to these pharmacies via mail, telephone, fax, e-prescribing or the Internet, and staff pharmacists review these prescriptions and refill requests with the assistance of the Company's prescription management systems. This review may involve communications with the prescriber and, with the prescriber's approval when required, can result in generic substitution, therapeutic interchange or other actions designed to help reduce cost and/or improve quality of treatment. The Company's mail order dispensing pharmacies have been awarded Mail Order Pharmacy accreditation from Utilization Review Accreditation Commission ("URAC"), a health care accrediting organization that establishes quality standards for the health care industry.

Specialty Pharmacy and Infusion Services
The Pharmacy Services segment operates specialty mail order pharmacies, retail specialty pharmacy stores and branches for infusion and enteral nutrition services in the United States. These specialty mail order pharmacies are used for delivery of advanced medications to individuals with chronic or genetic diseases and disorders. The Company's specialty mail order pharmacies also have been awarded Specialty Pharmacy accreditation from URAC. Substantially all of the Company's mail service specialty mail order pharmacies also have been accredited by the Joint Commission, which is an independent, not-for-profit organization that accredits and certifies health care programs and organizations in the United States.

Medicare Part D Services
The Company participates in the administration of the Medicare Part D prescription drug program through the provision of PBM services to those health plan clients and other clients that have qualified as a PDP or as a Medicare Advantage prescription drug plan and by offering Medicare Part D pharmacy benefits through its SilverScript subsidiary that is a PDP that has contracted with the United States Centers for Medicare & Medicaid Services ("CMS"). The Company also assists employer, union and other health plan clients that qualify for the retiree drug subsidy made available under Medicare Part D by collecting and submitting eligibility and/or drug cost data to CMS in order for such clients to obtain the subsidy and offers Medicare Part D pharmacy benefits to such clients' retirees through Employer Group Waiver Plans ("EGWPs") sponsored by SilverScript.

Clinical Services
The Company offers multiple clinical programs and services to help clients manage overall pharmacy and health care costs in a clinically appropriate manner. These programs are primarily designed to promote better health outcomes, and to help target inappropriate medication utilization and non-adherence to medication, each of which may result in adverse medical events that negatively affect member health and client pharmacy and medical spend. These programs include utilization management ("UM"), medication management, quality assurance, adherence and counseling programs to complement the client's plan design and clinical strategies. To help address the opioid epidemic, the Company introduced an industry-leading UM approach that limits to seven days the supply of opioids dispensed for certain acute prescriptions for patients who are new to therapy; limits the daily dosage of opioids dispensed based on the strength of the opioid; and requires the use of immediate-release formulations of opioids before extended-release opioids are dispensed. The Company's Pharmacy Advisor program facilitates pharmacist counseling, both face-to-face and over the telephone, to help participating plan members with certain chronic diseases, such as diabetes and cardiovascular conditions, to identify gaps in care, adhere to their prescribed medications and manage their health conditions. The Company also has digital connectivity that helps to lower drug costs for patients by providing expanded visibility to lower cost alternatives through enhanced analytics and data sharing.

Disease Management Programs
The Company's clinical programs and services utilize advanced protocols and offer clients convenience in working with health care providers ("providers") and other third parties. The Company's integrated disease management programs cover diseases such as rheumatoid arthritis, Parkinson's disease, seizure disorders and multiple sclerosis. The majority of these

integrated programs are accredited by the National Committee for Quality Assurance ("NCQA"), a private, not-for-profit organization that evaluates, accredits and certifies a wide range of health care organizations.

Medical Benefit Management
The Company's NovoLogix® online preauthorization tool helps identify and capture cost savings opportunities for specialty drugs billed under the medical benefit by identifying outliers to appropriate dosages and costs, and helps to ensure clinically appropriate use of specialty drugs.

Pharmacy Services Information Systems

The majority of the Pharmacy Services segment's clients have migrated to a single claim adjudication platform. This platform incorporates architecture that centralizes the data generated from filling mail order prescriptions, adjudicating retail pharmacy claims and delivering other solutions to PBM clients. The Health Engagement Engine® technology and proprietary clinical algorithms help connect the various parts of the enterprise and serve an essential role in cost management and health improvement. This capability transforms pharmacy data into actionable interventions at key points of care such as mail and specialty pharmacists to help provide quality care.

Pharmacy Services Clients

The Company's Pharmacy Services clients are primarily employers, insurance companies, unions, government employee groups, health plans, Medicare Part D plans, Managed Medicaid plans and plans offered on public and private health insurance exchanges, other sponsors of health benefit plans and individuals located throughout the United States. Pharmaceuticals are provided to eligible members in benefit plans maintained by clients and utilize the Company's information systems, among other things, to help perform safety checks, drug interaction screening and identify opportunities for generic substitution. Substantially all of the Pharmacy Services segment's revenue is generated from dispensing and managing prescription drugs to eligible members in benefit plans maintained by clients. In 2018, 2017 and 2016, revenues from Aetna accounted for approximately 9.8%, 12.3% and 11.7%, respectively, of the Company's consolidated total revenues. On the Aetna Acquisition Date, Aetna became a wholly-owned subsidiary of CVS Health. Subsequent to the Aetna Acquisition Date, revenues from Aetna will continue to be reported in the Pharmacy Services segment; however, these revenues are eliminated in the consolidated financial statements.

Pharmacy Services Seasonality

The majority of Pharmacy Services segment revenues are not seasonal in nature. However, quarterly earnings and operating cash flows are impacted by the Medicare Part D benefit design and changes in the composition of PDP membership. The Medicare Part D standard benefit design results in coverage that varies with a member's cumulative annual out-of-pocket costs. The benefit design generally results in employers or other entities that sponsor the Company's products ("plan sponsors") sharing a greater portion of the responsibility for total prescription drug costs in the early part of the year. As a result, the PDP pay percentage or benefit ratio generally decreases and operating income generally increases as the year progresses.

Pharmacy Services Competition

The Company believes the primary competitive factors in the pharmacy services industry include: (i) the ability to negotiate favorable discounts from drug manufacturers as well as to negotiate favorable discounts from, and access to, retail pharmacy networks; (ii) the ability to identify and apply effective cost management programs utilizing clinical strategies, including the development and utilization of preferred formularies; (iii) the ability to market PBM products and services; (iv) the commitment to provide flexible, clinically-oriented services to clients and be responsive to clients' needs; (v) the quality, scope and costs of products and services offered to clients and their members; and (vi) operational excellence in delivering services. The Pharmacy Services segment has a significant number of competitors (e.g., the Express Scripts business of Cigna Corporation, OptumRx, Prime Therapeutics, MedImpact and Humana) offering PBM services, including large, national PBM companies, PBMs owned by large national health plans and smaller standalone PBMs. References to competitors and other companies throughout this Annual Report on Form 10-K, including the information incorporated by reference herein, are for illustrative or comparison purposes only and do not indicate that these companies are the Company's or any segment's only competitors or closest competitors.

Retail/LTC Segment

The Retail/LTC segment sells prescription drugs and a wide assortment of general merchandise, including over-the-counter drugs, beauty products, cosmetics and personal care products, provides health care services through its MinuteClinic® walk-in medical clinics and conducts long-term care ("LTC") pharmacy operations, which distribute prescription drugs and provide related pharmacy consulting and other ancillary services to chronic care facilities and other care settings. Prior to January 2, 2018, the Retail/LTC segment also provided commercialization services under the name RxCrossroads®. The Company divested its RxCrossroads subsidiary on January 2, 2018. As of December 31, 2018, the

Retail/LTC segment operated more than 9,900 retail locations, over 1,100 MinuteClinic® locations as well as online retail pharmacy websites, LTC pharmacies and onsite pharmacies. During the year ended December 31, 2018, the Retail/LTC segment filled approximately 1.3 billion prescriptions

on a 30-day equivalent basis. In December 2018, the Company held approximately 26% of the United States retail pharmacy market.

Retail/LTC Products and Services

A typical retail store sells prescription drugs and a wide assortment of high-quality, nationally advertised brand name and proprietary brand merchandise. Front store categories include over-the-counter drugs, beauty products, cosmetics and personal care products. LTC operations include distribution of prescription drugs and related consulting and ancillary services. The Company purchases merchandise from numerous manufacturers and distributors. The Company believes that competitive sources are readily available for substantially all of the products carried in its retail stores and the loss of any one supplier would not likely have a material effect on the Retail/LTC segment. The Company's MinuteClinics offer a variety of health care services.

Retail/LTC revenues by major product group are as follows:

	Percentage of Revenues		
	2018	**2017**	**2016**
Pharmacy [(1)]	76.4%	75.0%	75.0%
Front store and other [(2)]	23.6%	25.0%	25.0%
	100.0%	100.0%	100.0%

(1) Pharmacy includes LTC sales and sales in pharmacies within Target Corporation stores.
(2) "Other" represents less than 5% of the "Front store and other" revenue category.

Pharmacy
Pharmacy revenues represented approximately three-fourths of Retail/LTC segment revenues in each of 2018, 2017 and 2016. The Company believes that retail pharmacy operations will continue to represent a critical part of the Company's business due to industry demographics, e.g., an aging American population consuming a greater number of prescription drugs, prescription drugs being used more often as the first line of defense for managing illness, the introduction of new pharmaceutical products, and Medicare Part D growth. The Company believes the retail pharmacy business benefits from investment in both people and technology, as well as innovative collaborations with health plans, PBMs and providers. Given the nature of prescriptions, consumers want their prescriptions filled accurately by professional pharmacists using the latest tools and technology, and ready when promised. Consumers also need medication management programs and better information to help them get the most out of their health care dollars. To assist consumers with these needs, the Company has introduced integrated pharmacy health care services that provide an earlier, easier and more effective approach to engaging consumers in behaviors that can help lower costs, improve health and save lives.

Front Store
Front store revenues reflect the Company's strategy of innovating with new and unique products and services, using innovative personalized marketing and adjusting the mix of merchandise to match customers' needs and preferences. A key component of the front store strategy is the ExtraCare® card program, which is one of the largest and most successful retail loyalty programs in the United States. The ExtraCare program allows the Company to balance marketing efforts so it can reward its best customers by providing them with automatic sale prices, customized coupons, ExtraBucks® rewards and other benefits. The Company continues to launch and enhance new and exclusive brands to create unmatched offerings in beauty products and deliver other unique product offerings, including a full range of high-quality CVS Health and other proprietary brand products that are only available through CVS stores. The Company currently carries approximately 7,000 CVS Health and proprietary brand products, which accounted for approximately 23% of front store revenues during 2018.

MinuteClinic
As of December 31, 2018, the Company operated approximately 1,100 MinuteClinic® locations in the United States. The clinics are staffed by nurse practitioners and physician assistants who utilize nationally established guidelines to deliver a variety of health care services. Payors value these clinics because they provide convenient, high-quality, cost-effective care, in many cases offering an attractive alternative to more expensive sites of care. As a result, visits paid for by

employers, health insurers or other third parties accounted for approximately 91% of MinuteClinic's total revenues in 2018. MinuteClinic is collaborating with the Pharmacy Services and Health Care Benefits segments to help meet the needs of CVS Caremark's client plan members and the Company's health plan members by offering programs that can improve member health and lower costs.

MinuteClinic is now affiliated with more than 75 major health systems and continues to build a platform that supports primary care.

Long-term Care Pharmacy Operations
The Retail/LTC segment provides LTC pharmacy services through the Omnicare business. Omnicare's customers consist of skilled nursing facilities, assisted living facilities, independent living communities, hospitals, correctional facilities, and other health care service providers. The Company provides pharmacy consulting, including monthly patient drug therapy evaluations, to assist in compliance with state and federal regulations and provide proprietary clinical and health management programs. It also provides pharmaceutical case management services for retirees, employees and dependents who have drug benefits under corporate-sponsored health care programs.

Onsite Pharmacies
The Company also operates a limited number of pharmacies located at client sites, which provide certain health plan members and customers with a convenient alternative for filling their prescriptions.

Retail Store Development

The addition of new retail locations has played, and will continue to play, a key role in the Company's continued growth and success. The Company's store development program focuses on three areas: entering new markets, adding stores within existing markets and relocating stores to more convenient sites. During 2018, the Company opened 145 new retail locations, relocated approximately 35 stores and closed approximately 30 locations. During the last five years, the Company opened approximately 900 new and relocated locations, and acquired approximately 1,825 locations, including the pharmacies acquired from Target Corporation ("Target") in 2015. The Company believes that continuing to grow its store base appropriately and locate retail stores in more accessible markets are essential components of competing effectively in the current health care environment. As a result, the Company believes that its store development program is an integral part of its ability to meet the needs of customers and maintain its leadership position in the retail pharmacy market given the changing health care landscape.

Retail/LTC Information Systems

The Company has continued to invest in information systems to enable it to deliver exceptional customer service, enhance safety and quality, and expand patient care services while lowering operating costs. The proprietary WeCARE Workflow supports pharmacy teams by prioritizing work to meet customer expectations, facilitating prescriber outreach, and seamlessly integrating clinical programs. This solution delivers improved efficiency and enhances the customer experience, as well as providing a framework to accommodate the evolution of pharmacy practice and the expansion of clinical programs. The Health Engagement Engine technology and proprietary clinical algorithms enable the Company to help identify opportunities for pharmacists to deliver face-to-face counseling regarding patient health and safety matters, including adherence issues, gaps in care and management of certain chronic health conditions. The Company's digital strategy is to empower the consumer to navigate their pharmacy experience and manage their condition through integrated online and mobile solutions that offer utility and convenience. The Company's LTC digital technology suite, Omniview®, improves the efficiency of customers' operations with tools that include executive dashboards, pre-admission pricing, electronic ordering of prescription refills, proof-of-delivery tracking, access to patient profiles, receipt and management of facility bills, and real-time validation of Medicare Part D coverage, among other capabilities.

Retail/LTC Customers

The success of the Retail/LTC segment's businesses is dependent upon the Company's ability to establish and maintain contractual relationships with pharmacy benefit managers and other payors on acceptable terms. Pharmacy benefit managers, managed care organizations, government funded health care programs, commercial employers and other third party payors accounted for 99.5% of the Retail/LTC segment's pharmacy revenues. No single Retail/LTC payor accounted for 10% or more of the Company's consolidated total revenues in 2018, 2017 or 2016.

Retail/LTC Seasonality

The majority of Retail/LTC segment revenues, particularly pharmacy revenues, generally are not seasonal in nature. However, front store revenues tend to be higher during the December holiday season. In addition, both pharmacy and front

store revenues are affected by the timing and severity of the cough, cold and flu season. Uncharacteristic or extreme weather conditions also can adversely affect consumer shopping patterns and Retail/LTC revenues, expenses and results of operations.

Retail/LTC Competition

The retail drugstore business is highly competitive. The Company believes that it competes principally on the basis of: (i) store location and convenience, (ii) customer service and satisfaction, (iii) product selection and variety, and (iv) price. In the markets it serves, the Company competes with other drugstore chains (e.g., Walgreens and Rite Aid), supermarkets, discount retailers (e.g., Wal-Mart), independent pharmacies, restrictive pharmacy networks, membership clubs, Internet companies, and retail health clinics (including urgent care centers), as well as mail order dispersing pharmacies.

LTC pharmacy services are highly regional or local in nature, and within a given geographic area of operation, highly competitive. The Company's largest LTC pharmacy competitor nationally is PharMerica. The Company also competes with numerous local and regional institutional pharmacies, pharmacies owned by long-term care facilities and local retail pharmacies. Some states have enacted "freedom of choice" or "any willing provider" requirements as part of their state Medicaid programs or in separate legislation, which may increase the competition that the Company faces in providing services to long-term care facility residents in these states.

References to competitors and other companies throughout this Annual Report on Form 10-K, including the information incorporated by reference herein, are for illustrative or comparison purposes only and do not indicate that these companies are the Company's or any segment's only competitors or closest competitors.

Health Care Benefits Segment

The Health Care Benefits segment is one of the nation's leading diversified health care benefits providers, serving an estimated 38 million people as of December 31, 2018. The Health Care Benefits segment has the information and resources to help members, in consultation with their health care professionals, make better informed decisions about their health care. The Health Care Benefits segment offers a broad range of traditional, voluntary and consumer-directed health insurance products and related services, including medical, pharmacy, dental, behavioral health, medical management capabilities, Medicare Advantage and Medicare Supplement plans, PDPs, Medicaid health care management services, workers' compensation administrative services and health information technology ("HIT") products and services. The Health Care Benefits segment's customers include employer groups, individuals, college students, part-time and hourly workers, health plans, health care providers, governmental units, government-sponsored plans, labor groups and expatriates.

Health Care Benefits Products and Services

The Company refers to insurance products (where it assumes all or a majority of the risk for medical and dental care costs) as "Insured" and administrative services contract products (where the plan sponsor assumes all or a majority of the risk of medical and dental care costs) as "ASC." Health Care Benefits products and services consist of the following:

- *Commercial Medical*: The Health Care Benefits segment offers point-of-service ("POS"), preferred provider organization ("PPO"), health maintenance organization ("HMO") and indemnity benefit ("Indemnity") plans. Commercial medical products also include health savings accounts ("HSAs") and consumer-directed health plans that combine traditional POS or PPO and/or dental coverage, subject to a deductible, with an accumulating benefit account (which may be funded by the plan sponsor and/or the member in the case of HSAs). Principal products and services are targeted specifically to large multi-site national, mid-sized and small employers, individual insureds and expatriates. The Company offers medical stop loss insurance coverage for certain employers who elect to self-insure their health benefits. Under this product, the Company assumes risk for costs associated with large individual claims and/or aggregate loss experience within an employer's plan above a pre-set annual threshold.
- *Government Medical*: In select geographies, the Health Care Benefits segment offers Medicare Advantage plans, Medicare Supplement plans and prescription drug coverage for Medicare beneficiaries; participates in Medicaid and subsidized Children's Health Insurance Programs ("CHIP"); and participates in demonstration projects for members who are eligible for both Medicare and Medicaid ("Duals"). These Government Medical products are further described below:
    - *Medicare Advantage and PDP:* Through annual contracts with CMS, the Company offers HMO and PPO products for eligible individuals in certain geographic areas through the Medicare Advantage program. Members typically receive enhanced benefits over traditional fee-for-service Medicare coverage ("Original

Medicare"), including reduced cost-sharing for preventive care, vision and other services. The Company offered network-based HMO and/or PPO plans in 1,317 counties in 40 states and Washington, D.C. in 2018. The Company has expanded to 1,416 counties in 45 states and Washington, D.C. for 2019. The Company is a national provider of drug benefits under the Medicare Part D prescription drug program to both individuals and EGWPs. All Medicare eligible individuals are eligible to participate in this voluntary prescription drug plan. Members typically receive

coverage for certain prescription drugs, usually subject to a deductible, co-insurance and/or co-payment. On November 30, 2018, Aetna completed the sale of all of its standalone Medicare Part D prescription drug plans to WellCare effective on December 31, 2018. Aetna will provide administrative services to, and retain the financial results of, the divested plans through 2019. For certain qualifying employer groups, the Company offers Medicare PPO products nationally. When combined with the Company's PDP product, these national PPO plans form an integrated national Insured Medicare product for employers that provides medical and pharmacy benefits.

- *Medicare Supplement:* For certain Medicare eligible members, the Company offers supplemental coverage for certain health care costs not covered by Original Medicare. The products included in the Medicare Supplement portfolio help to cover some of the gaps in Original Medicare, and include coverage for Medicare deductibles and coinsurance amounts. The Company offered a wide selection of Medicare Supplement products in 49 states and Washington, D.C. in 2018.
- *Medicaid and CHIP:* The Company offers health care management services to individuals eligible for Medicaid and CHIP under multi-year contracts with government agencies in various states that are subject to annual appropriations. CHIP are state-subsidized insurance programs that provide benefits for families with uninsured children. The Company offered these services on an Insured or ASC basis in 16 states in 2018.
- *Duals:* The Company provides health coverage to beneficiaries who are dually eligible for both Medicare and Medicaid coverage. These members must meet certain income and resource requirements in order to qualify for this coverage. The Company coordinates 100% of the care for these members and may provide them with additional services in order to manage their health care costs. During 2018, the Company offered services on an Insured basis to Duals in four states under demonstration projects.

- *Pharmacy*: The Company offers PBM services and specialty and home delivery pharmacy services. The Company also performs various PBM services for Aetna pharmacy customers consisting of: product development, Commercial formulary management, pharmacy rebate contracting and administration, sales and account management and precertification programs. The Pharmacy Services segment performs the administration of selected functions for retail pharmacy network contracting and claims administration; home delivery and specialty pharmacy order fulfillment and inventory purchasing and management; and certain administrative services. Other suppliers also provide certain PBM services.
- *Specialty*: The Health Care Benefits segment has a portfolio of additional health products and services that complement its medical products such as dental plans, behavioral health and employee assistance products, provider network access and vision products and workers' compensation administrative services.
- *Consumer Health Products and Services*: The Company has a portfolio of products and services aimed at creating a holistic and integrated approach to individual health and wellness. These products and services complement the Commercial Medical and Government Medical products and enable enhanced delivery to and experience for customers.

Health Care Benefits Provider Networks

The Company contracts with physicians, hospitals and other providers for services they provide to members. The Company uses a variety of techniques designed to help encourage appropriate utilization of medical services ("utilization") and maintain affordability of quality coverage. In addition to contracts with providers for negotiated rates of reimbursement, these techniques include creating risk sharing arrangements that align economic incentives with providers, the development and implementation of guidelines for the appropriate utilization of medical services and the provision of data to providers to enable them to improve health care quality. At December 31, 2018, the Company's underlying nationwide provider network had approximately 1.3 million participating providers, including over 697 thousand primary care and specialist physicians and approximately 5,700 hospitals. Other providers in the Company's provider networks also include laboratory, imaging, urgent care and other freestanding health facilities.

Health Care Benefits Quality Assessment

CMS uses a 5-star rating system to monitor Medicare health care and drug plans and ensure that they meet CMS's quality standards. CMS uses this rating system to provide Medicare beneficiaries with a tool that they can use to compare the overall quality of care and level of customer service of companies that provide Medicare health care and drug plans. The

rating system considers a variety of measures adopted by CMS, including quality of preventative services, chronic illness management and overall customer satisfaction. See “Health Care Benefits Pricing” below in this Item 1 for further discussion of star ratings. The Company seeks Health Plan accreditation for Aetna HMO plans from the NCQA. Health care plans seeking accreditation must pass a rigorous, comprehensive review and must annually report on their performance.

Aetna Life Insurance Company ("ALIC"), a wholly-owned subsidiary of the Company, has received nationwide NCQA PPO Health Plan accreditation. As of December 31, 2018, all of the Company's Commercial HMO and all of ALIC's PPO members who were eligible participated in HMOs or PPOs that are accredited by the NCQA.

The Company's provider selection and credentialing/re-credentialing policies and procedures are consistent with NCQA and URAC, as well as state and federal, requirements. In addition, the Company is certified under the NCQA Credentials Verification Organization ("CVO") certification program for all certification options and has URAC CVO accreditation.

Quality assessment programs for contracted providers who participate in the Company's networks begin with the initial review of health care practitioners. Practitioners' licenses and education are verified, and their work history is collected by the Company or in some cases by the practitioner's affiliated group or organization. The Company generally requires participating hospitals to be certified by CMS or accredited by the Joint Commission, the American Osteopathic Association, or Det Norske Veritas Healthcare.

The Company also offers quality and outcome measurement programs, quality improvement programs, and health care data analysis systems to providers and purchasers of health care services.

Health Care Benefits Information Systems

The Health Care Benefits segment currently operates and supports an end to end suite of information technology platforms to support member engagement, enrollment, health benefit administration, care management, service operations, financial reporting and analytics. The multiple platforms are supported by an integration layer to facilitate the transfer of real-time data. There is continued focus and investment in digital products to offer innovative solutions and a seamless experience to the Company's members through mobile and web channels. Capabilities available to members include digital wallet, provider search, cost transparency and behavioral monitoring. The Health Care Benefits segment care management solution supports the Company's clinicians with data and recommendations. The Company continues to scale its clinical platform and its local personalized care model. The Company aims to build an integrated 360 degree view of the member to ensure that it can guide them through their healthcare journey and provide them a high level of service. Through its analytics platform the Company is beginning to harness the power of data to help drive healthier outcomes and proactive care and enable consumers to take the next best action for their health.

Health Care Benefits Customers

Medical membership is dispersed throughout the United States, and the Company also serves medical members in certain countries outside the United States. See Note 17 ''Segment Reporting'' contained in the "Notes to Consolidated Financial Statements" in the Annual Report, which is incorporated by reference herein, for additional information on foreign customers. The Company offers a broad range of traditional, voluntary and consumer-directed health insurance products and related services, many of which are available nationwide. Depending on the product, the Company markets to a range of customers including employer groups, individuals, college students, part-time and hourly workers, health plans, providers, governmental units, government-sponsored plans, labor groups and expatriates.

The following table presents total medical membership by United States and other geographic region and funding arrangement at December 31, 2018:

In thousands	**Insured**	**ASC**	**Total**
Northeast	1,961	3,232	5,193
Southeast	1,752	2,886	4,638
Mid-America	1,632	2,530	4,162
West	1,618	4,510	6,128
Other	587	1,393	1,980
Total medical membership	7,550	14,551	22,101

For additional information on medical membership, see the caption “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Health Care Benefits Segment” in the Annual Report, which section is incorporated by reference herein.

The Company markets both Commercial Insured and ASC products and services primarily to employers that sponsor the Company's products for the benefit of their employees and their employees' dependents. Frequently, larger employers offer employees a choice among coverage options, from which the employee makes his or her selection during a designated annual open enrollment period. Typically, employers pay all of the monthly premiums to the Company and, through payroll deductions, obtain reimbursement from employees for a percentage of the premiums that is determined by each employer. Some Health Care Benefits products are sold directly to employees of employer groups on a fully employee-funded basis. In some cases, the Company bills the covered individual directly.

The Company offers Insured Medicare coverage on an individual basis as well as through employer groups to their retirees. Medicaid and CHIP members are enrolled on an individual basis. The Company also offers Insured health care coverage to members who are dually-eligible for both Medicare and Medicaid.

Health Care Benefits products are sold through the Company's sales personnel; through independent brokers, agents and consultants who assist in the production and servicing of business; and Private Exchanges. For large plan sponsors, independent consultants and brokers are frequently involved in employer health plan selection decisions and sales. In some instances, the Company may pay commissions, fees and other amounts to brokers, agents, consultants and sales representatives who place business with the Company. In certain cases, the customer pays the broker for services rendered, and the Company may facilitate that arrangement by collecting the funds from the customer and transmitting them to the broker. The Company supports marketing and sales efforts with an advertising program that may include television, radio, billboards, print media and social media, supplemented by market research and direct marketing efforts.

The United States federal government is a significant customer of the Health Care Benefits segment through contracts with CMS for coverage of Medicare-eligible individuals, federal employee-related benefit programs and Medicaid products and services. Other than the contracts with CMS, the Health Care Benefits segment is not dependent upon a single customer or a few customers the loss of which would have a significant effect on the earnings of the segment. The loss of business from any one, or a few, independent brokers or agents would not have a material adverse effect on the earnings of the Health Care Benefits segment. For additional information, see Note 17 ''Segment Reporting'' contained in the "Notes to Consolidated Financial Statements" in the Annual Report, which is incorporated by reference herein.

Health Care Benefits Pricing

For Commercial Insured plans, contracts containing the pricing and other terms of the relationship are generally established in advance of the policy period and typically have a duration of one year. Fees under ASC plans are generally fixed for a period of one year.

Generally, a fixed premium rate is determined at the beginning of the policy period for Commercial Insured plans. The Company typically cannot recover unanticipated increases in health care and other benefit costs in the current policy period; however, it may consider prior experience for a product in the aggregate or for a specific customer, among other factors, in determining premium rates for future policy periods. Where required by state laws, premium rates are filed and approved by state regulators prior to contract inception. Future results of operations could be adversely affected if the premium rates requested are not approved or are adjusted downward or their approval is delayed by state or federal regulators.

The Company has Medicare Advantage and PDP contracts with CMS to provide HMO, PPO and prescription drug coverage to Medicare beneficiaries in certain geographic areas. Under these annual contracts, CMS pays the Company a fixed capitation payment and/or a portion of the premium, both of which are based on membership and adjusted for demographic and health risk factors. CMS also considers inflation, changes in utilization patterns and average per capita fee-for-service Medicare costs in the calculation of the fixed capitation payment or premium. PDP contracts also provide a risk-sharing arrangement with CMS to limit the Company's exposure to unfavorable expenses or benefit from favorable expenses. Amounts payable to the Company under the Medicare arrangements are subject to annual revision by CMS, and the Company elects to participate in each Medicare service area or region on an annual basis. Premiums paid to the Company for Medicare products are subject to federal government reviews and audits, which can result, and have resulted, in retroactive and prospective premium adjustments and refunds to the government and/or members. In addition to payments received from CMS, some of Medicare Advantage products and all PDP products require a supplemental premium to be paid by the member or sponsoring employer. In some cases these supplemental premiums are adjusted

based on the member's income and asset levels. Compared to Commercial Medical products, Medicare contracts generate higher per member per month revenues and health care and other benefit costs.

The Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act (collectively, the "ACA") ties a portion of each Medicare Advantage plan's reimbursement to the plan's "star ratings." Since 2015, plans must have a star rating of four or higher (out of five) to qualify for a quality bonus in their basic premium rates. CMS released 2019

star ratings in October 2018. The 2019 star ratings will be used to determine which Medicare Advantage plans have ratings of four stars or higher and qualify for bonus payments in 2020. Based on membership at December 31, 2018, 79% of the Company's Medicare Advantage members were in plans with 2019 star ratings of at least 4.0 stars.

Rates for Medicare Supplement products are regulated at the state level and vary by state and plan.

Under Insured Medicaid contracts, state government agencies pay the Company fixed monthly rates per member that vary by state, line of business and demographics; and the Company arranges, pays for and manages the health care services provided to Medicaid beneficiaries. These rates are subject to change by each state, and, in some instances, provide for adjustment for health risk factors. CMS requires these rates to be actuarially sound. The Company also receives fees from customers where it provides services under ASC Medicaid contracts. ASC Medicaid contracts generally are for periods of more than one year, and certain of them contain performance incentives and limited financial risk sharing with respect to certain medical, financial and operational metrics. Under these arrangements, performance is evaluated annually, with associated financial incentive opportunities, and financial risk share obligations are typically limited to a percentage of the fees otherwise payable to the Company. Payments to the Company under Medicaid contracts are subject to the annual appropriation process in the applicable state.

Under Duals contracts, the rate setting process is generally established by CMS in partnership with the state government agency participating in the demonstration project. Both CMS and the state government agency may seek premium and other refunds under certain circumstances, including if the Company fails to comply with CMS regulations or other contractual requirements.

The Company offers HMO and consumer-directed medical and dental plans to federal employees under the Federal Employees Health Benefits ("FEHB") Program and the Federal Employees Dental and Vision Insurance Program. Premium rates and fees for those plans are subject to federal government review and audit, which can result, and have resulted, in retroactive and prospective premium and fee adjustments and refunds to the government and/or members.

Beginning in 2014, the ACA imposed significant new industry-wide fees, assessments and taxes, including an annual levy called the Health Insurer Fee (the "HIF"). In December 2015, the Consolidated Appropriation Act was enacted, which included a one year suspension of the HIF for 2017. In January 2018, the HIF was suspended for 2019. For additional information on the ACA fees, assessments and taxes, see Note 1 ''Significant Accounting Policies'' contained in the "Notes to Consolidated Financial Statements" in the Annual Report, which is incorporated by reference herein. The Company's goal is to collect in premiums and fees where possible, or solve for all of these ACA-related fees, assessments and taxes.

Health Care Benefits Seasonality

The majority of Health Care Benefits segment revenues are not seasonal in nature. However, the Health Care Benefits segment's quarterly operating income progression is impacted by (i) the seasonality of benefit costs which generally increase during the year as Insured members progress through their annual deductibles and out-of-pocket expense limits and (ii) the seasonality of operating expenses which are generally the highest during the fourth quarter due to increased marketing spending associated with Medicare annual enrollment. As a result, the Health Care Benefits segment's operating income generally is the highest in the first quarter of the year and lowest in the fourth quarter of the year.

Health Care Benefits Competition

The health care benefits industry is highly competitive, primarily due to a large number of for-profit and not-for-profit competitors, competitors' marketing and pricing and a proliferation of competing products, including new products that are continually being introduced into the marketplace. New entrants into the marketplace, as well as consolidation within the industry, have contributed to and are expected to intensify the competitive environment. In addition, the rapid pace of change as the industry evolves towards a consumer-focused retail marketplace, including Public and Private Exchanges, and the increased use of technology to interact with members, providers and customers, increase the risks currently faced from new entrants and disruptive actions by existing competitors compared to prior periods. References to competitors and other companies throughout this Annual Report on Form 10-K, including the information incorporated by reference

herein, are for illustrative or comparison purposes only and do not indicate that these companies are the Company's or any segment's only competitors or closest competitors.

The Company believes that the significant factors that distinguish competing health plans include the perceived overall quality (including accreditation status), quality of service, comprehensiveness of coverage, cost (including premium rates, provider discounts and member out-of-pocket costs), product design, financial stability and ratings, breadth and quality of

provider networks, ability to offer different provider network options, providers available in such networks, and quality of member support and care management programs. The Company believes that it is competitive on each of these factors. The Company's ability to increase the number of persons covered by its health plans or to increase Health Care Benefits segment revenues is affected by its ability to differentiate itself from its competitors on these factors. Competition may also affect the availability of services from health care providers, including primary care physicians, specialists and hospitals.

Insured products compete with local and regional health care benefits plans, health care benefits and other plans sponsored by other large commercial health care benefit insurance companies, health system owned health plans, new entrants into the marketplace and numerous for-profit and not-for-profit organizations operating under licenses from the Blue Cross and Blue Shield Association. The largest competitor in Medicare products is Original Medicare. Additional Health Care Benefits segment competitors include other types of medical and dental provider organizations, various specialty service providers (including PBM services providers), health care consultants, financial services companies, integrated health care delivery organizations (networks of providers who also coordinate administrative services for and assume insurance risk of their members), third party administrators ("TPAs"), HIT companies and, for certain plans, programs sponsored by the federal or state governments. Emerging competitors include start up health care benefits plans, technology companies, provider-owned health plans, new joint ventures (including not-for-profit joint ventures among firms from multiple industries), technology firms, financial services firms that are distributing competing products on their proprietary Private Exchanges, and consulting firms that are distributing competing products on their proprietary Private Exchanges, as well as non-traditional distributors such as retail companies. The Company's ability to increase the number of persons enrolled in Insured Commercial Medical products also is affected by the desire and ability of employers to self-fund their health coverage.

The Health Care Benefits segment's ASC plans compete primarily with other large commercial health care benefit companies, numerous for-profit and not-for-profit organizations operating under licenses from the Blue Cross and Blue Shield Association and TPAs.

The Health Care Benefits segment's international products compete with local, global and United States based health plans and commercial health care benefit insurance companies, many of whom have a longer operating history and better brand recognition and greater marketplace presence in one or more geographies.

The provider solutions and HIT marketplaces and products are evolving rapidly. The Company competes for provider solutions and HIT business with other large health plans and commercial health care benefit insurance companies as well as information technology companies and companies that specialize in provider solutions and HIT. Many information technology product competitors have longer operating histories, better brand recognition, greater marketplace presence and more experience in developing innovative products.

In addition to competitive pressures affecting the Company's ability to obtain new customers or retain existing customers, the Health Care Benefits segment's medical membership has been and may continue to be adversely affected by adverse and/or uncertain economic conditions and reductions in workforce by existing customers due to adverse and/or uncertain general economic conditions, especially in the United States and industries where such membership is concentrated.

Health Care Benefits Reinsurance

The Company currently has several reinsurance agreements with non-affiliated insurers that relate to Health Care Benefits insurance policies. The Company entered into these contracts to reduce the risk of catastrophic losses which in turn reduces capital and surplus requirements. The Company frequently evaluates reinsurance opportunities and refines its reinsurance and risk management strategies on a regular basis.

Corporate/Other Segment

The Company presents the remainder of its financial results in the Corporate/Other segment, which consists of:

•

Management and administrative expenses to support the overall operations of the Company, which include certain aspects of executive management and the corporate relations, legal, compliance, human resources, information technology and finance departments; and

- Products for which the Company no longer solicits or accepts new customers such as large case pensions and long-term care insurance products.

Generic Sourcing Venture

The Company and Cardinal Health, Inc. ("Cardinal") each have a 50% ownership in Red Oak Sourcing, LLC ("Red Oak"), a generic pharmaceutical sourcing entity. Under this arrangement, the Company and Cardinal contributed their sourcing and supply chain expertise to Red Oak and agreed to source and negotiate generic pharmaceutical supply contracts for both companies through Red Oak. Red Oak does not own or hold inventory on behalf of either company.

Working Capital Practices

The Company funds the growth of its businesses through a combination of cash flow from operations, commercial paper and other short-term borrowings, proceeds from sale-leaseback transactions and long-term borrowings. For additional information on the Company's working capital practices, see the caption "Management's Discussion and Analysis of Financial Condition and Results of Operations - Liquidity and Capital Resources" in the Annual Report, which section is incorporated by reference herein. The majority of the Retail/LTC segment non-pharmacy revenues are paid in cash, or with debit or credit cards. Managed care organizations, pharmacy benefit managers, government funded health care programs, commercial employers and other third party insurance programs, which represent the vast majority of the Company's consolidated pharmacy revenues, typically settle in less than 30 days. With the exception of the Medicare Part D services, described further below, the remainder of the Company's consolidated pharmacy revenues are paid in cash, or with debit or credit cards. Employer groups, individuals, college students, part-time and hourly workers, health plans, providers, governmental units, government-sponsored plans (with the exception of Medicare Part D services, which are described below), labor groups and expatriates, which represent the vast majority of Health Care Benefits segment revenues, typically settle in less than 30 days. As a provider of Medicare Part D services, the Company contracts annually with CMS. Utilization of services each plan year results in the accumulation of either a receivable from or a payable to CMS. The timing of settlement of the receivable or payable with CMS takes several quarters which impacts working capital from year to year.

Colleague Development

As of December 31, 2018, the Company employed approximately 295,000 colleagues in 50 states, the District of Columbia, Puerto Rico and a number of countries outside the United States. To deliver the highest levels of service to customers, the Company devotes considerable time and attention to its people and service standards. The Company emphasizes attracting and training knowledgeable, friendly and helpful associates to work in the organization.

Intellectual Property

The Company has registered and/or applied to register a variety of trademarks and service marks used throughout its businesses, as well as domain names, and relies on a combination of copyright, patent, trademark and trade secret laws, in addition to contractual restrictions, to establish and protect the Company's proprietary rights. The Company regards its intellectual property as having significant value in the Pharmacy Services, Retail/LTC and Health Care Benefits segments. The Company is not aware of any facts that could materially impact the continuing use of any of its intellectual property.

Government Regulation

Overview

The Company's operations are subject to comprehensive federal, state and local laws and regulations and comparable multiple levels of international regulation in the jurisdictions in which it does business. There also continues to be a heightened level of review and/or audit by federal, state and international regulators of the health and related benefits industry's business and reporting practices. In addition, many of the Company's PBM clients and the Company's payors in the Retail/LTC Segment, including insurers, Medicare Part D plans, Managed Medicaid plans and managed care organizations ("MCOs"), are themselves subject to extensive regulations that affect the design and implementation of prescription drug benefit plans that they sponsor. Similarly, the Company's LTC clients, such as skilled nursing facilities, are subject to government regulations, including many of the same government regulations to which the Company is subject.

The laws and rules governing the Company's businesses and interpretations of those laws and rules continue to expand and become more restrictive each year and are subject to frequent change. The application of these complex legal and regulatory requirements to the detailed operation of the Company's businesses creates areas of uncertainty. Further, there are numerous proposed health care laws and regulations at the federal, state and international levels, some of which could adversely affect the Company's businesses if they are enacted. The Company cannot predict whether pending or future federal or state legislation or

court proceedings, including future United States Congressional appropriations, will change various aspects of the industries in which it operates or the health care industry generally or the impact those changes will have on the Company's businesses, results of operations and/or cash flows, but the effects could be materially adverse. Any failure or alleged failure to comply with applicable laws and regulations as summarized below, or any adverse applications or interpretations of, or changes in, the laws and regulations affecting the Company and/or its businesses, could have a material adverse effect on the Company's results of operations, financial condition and/or cash flows. See Item 3, "Legal Proceedings" for further information.

The Company cannot give any assurances that its businesses, financial condition, results of operations and/or cash flows will not be materially adversely affected, or that it will not be required to materially change its business practices, based on: (i) future enactment of new health care or other laws or regulations; (ii) the interpretation or application of existing laws or regulations, including the laws and regulations described in this Government Regulation section, as they may relate to one or more of the Company's businesses, one or more of the industries in which it operates and/or the health care industry generally; (iii) pending or future federal or state governmental investigations of one or more of the Company's businesses, one or more of the industries in which it operates and/or the health care industry generally; (iv) pending or future government audits, investigations or enforcement actions against the Company; (v) adverse developments in any pending *qui tam* lawsuit against the Company, whether sealed or unsealed, or in any future *qui tam* lawsuit that may be filed against the Company; or (vi) adverse developments in other pending or future legal proceedings against the Company or affecting one or more of the industries in which it operates and/or the health care industry generally.

Laws and Regulations Related to Multiple Segments of the Company's Business

Laws Related to Reimbursement by Government Programs - The Company is subject to various federal and state laws concerning its submission of claims for reimbursement by Medicare, Medicaid and other federal and state government-sponsored health care programs. Potential sanctions for violating these laws include recoupment or reduction of government reimbursement amounts, civil penalties, treble damages, and exclusion from participation in government health care programs. Such laws include the federal False Claims Act (the "False Claims Act"), the federal anti-kickback statute, state false claims acts and anti-kickback statutes in most states, the federal "Stark Law" and related state laws. In particular, the False Claims Act prohibits intentionally submitting, conspiring to submit, or causing to be submitted, false claims, records, or statements to the federal government, or intentionally failing to return overpayments, in connection with reimbursement by federal government programs. In addition, any claim for government reimbursement also violates the False Claims Act where it results from a violation of the federal anti-kickback statute.

Both federal and state false claims laws permit private individuals to file qui tam or "whistleblower" lawsuits on behalf of the federal or state government. Participants in the health and related benefits industry, including the Company, frequently are subject to actions under the False Claims Act or similar state laws. The federal Stark Law generally prohibits physicians from referring Medicare or Medicaid beneficiaries for certain services, including outpatient prescription drugs, to any entity with which the physician, or an immediate family member of the physician, has a financial relationship. The Stark Law further prohibits the entity receiving a prohibited referral from presenting a claim for reimbursement by Medicare or Medicaid for services furnished pursuant to the prohibited referral. Various states have enacted similar laws.

The ACA - The ACA made broad-based changes to the United States health care system. If the ACA is not further amended, repealed or replaced, certain of its components will continue to be phased in until 2022. While the Company anticipates continued efforts in 2019 and beyond to invalidate, modify, repeal or replace the ACA, the Company expects aspects of the ACA to continue to significantly impact its business operations and results of operations, including pricing, medical benefit ratios ("MBRs") and the geographies in which the Company's products are available.

While most of the significant aspects of the ACA became effective during or prior to 2014, parts of the ACA continue to evolve through the promulgation of executive orders, regulations and guidance as well as ongoing litigation. Additional changes to the ACA and those regulations and guidance at the federal and/or state level are likely, and those changes are likely to be significant. Growing federal and state budgetary pressures make it more likely that any changes, including changes at the state level in response to changes to, or invalidation, repeal or replacement of, the ACA and/or changes in the funding levels and/or payment mechanisms of federally supported benefit programs, will be adverse to us. For example, if any elements of the ACA are invalidated or repealed at the federal level, the Company expects that some states

would seek to enact similar requirements, such as prohibiting pre-existing condition exclusions, prohibiting rescission of insurance coverage, requiring coverage for dependents up to age 26, requiring guaranteed renewability of insurance coverage and prohibiting lifetime limits on insurance coverage.

The expansion of health care coverage contemplated by the ACA is being funded in part by reductions to the reimbursements the Company and other health plans are paid by the federal government for Medicare members, among other sources. While not all-inclusive, the following are some of the key provisions of the ACA (assuming it continues to be implemented in its current form) that become effective on or after January 1, 2019. The Company continues to evaluate these provisions and the related regulations and regulatory guidance to determine the impact that they will have on its business operations and results of operations:

- The imposition on the Company and other health insurers, health plans and other market participants of significant fees, assessments and taxes, including an annual non-tax deductible industry-wide HIF that was $14.3 billion for 2018 and has been suspended for 2019. As currently enacted, the HIF will apply for 2020, be higher for 2020 than for 2018 and increase in 2021 and annually thereafter.
- A non-tax deductible 40% excise tax on employer-sponsored health care benefits above a certain threshold beginning in 2022.
- Reduced funding for Medicaid expansion, which began in 2017.

The ACA also specifies minimum medical loss ratios ("MLRs") for Commercial and Medicare Insured products, specifies features required to be included in Commercial benefit designs, limits Commercial individual and small group rating and pricing practices, encourages additional competition (including potential incentives for new market entrants) and significantly increases federal and state oversight of health plans, including regulations and processes that could delay or limit the Company's ability to appropriately increase its health plan premium rates. This in turn could adversely affect the Company's ability to continue to participate in certain product lines and/or geographies that it serves today.

Potential repeal of the ACA, ongoing legislative, regulatory and administrative policy changes to the ACA, the results of congressional and state level elections, the December 2018 U.S. District Court decision invalidating the ACA and other pending litigation challenging aspects of the law or funding for the law and federal budget negotiations continue to create uncertainty about the ultimate impact of the ACA. The pending litigation challenging the ACA includes challenges by various states of the federal government's decision to curtail payments related to the Cost-Sharing Subsidy Program. The time frame for conclusion and final outcome and ultimate impact of this litigation are uncertain. Given the inherent difficulty of foreseeing the nature and scope of future changes to the ACA and how states, businesses and individuals will respond to those changes, the Company cannot predict the impact on it of future changes to the ACA. It is reasonably possible that invalidation, repeal or replacement of or other changes to the ACA and/or states' responses to such changes, in the aggregate, could have a significant adverse effect on the Company's businesses, results of operations and cash flows.

Medicare Regulation - The Company's Medicare Advantage products compete directly with Original Medicare and Medicare Advantage products offered by other Medicare Advantage organizations and Medicare Supplement products offered by other insurers. The Company's Medicare PDP and Medicare Supplement products are products that Medicare beneficiaries who are enrolled in Original Medicare purchase to enhance their Original Medicare coverage.

The Company continues to expand the number of counties in which it offers Medicare products. The Company expects to further expand its Medicare service area and products in 2019 and is seeking to substantially grow its Medicare membership, revenue and results of operations over the next several years, including through growth in Medicare Supplement products. The anticipated organic expansion of the Medicare service area and Medicare products offered and the Medicare-related provisions of the ACA significantly increase the Company's exposure to funding and regulation of, and changes in government policy with respect to and/or funding or regulation of, the various Medicare programs in which the Company participates, including changes in the amounts payable to us under those programs and/or new reforms or surcharges on existing programs. For example, since the 2014 contract year, the ACA has required minimum MLRs for Medicare Advantage and Medicare Part D plans of 85%. If a Medicare Advantage or Medicare Part D contract pays minimum MLR rebates for three consecutive years, it will become ineligible to enroll new members. If a Medicare Advantage contract pays rebates for five consecutive years, it will be terminated by CMS.

The Company's Medicare Advantage and PDP products are heavily regulated by CMS. The regulations and contractual requirements applicable to the Company and other private participants in Medicare programs are complex, expensive to comply with and subject to change. For example, in the second quarter of 2014, CMS issued a final rule implementing the ACA requirements that Medicare Advantage and PDP plans report and refund to CMS overpayments that those plans

receive from CMS. The precise interpretation, impact and legality of this rule are not clear and are subject to pending litigation. Payments the Company receives from CMS for its Medicare Advantage and Part D businesses also are subject to risk adjustment based on the health status of the individuals enrolled. Elements of that risk adjustment mechanism continue to be challenged by the DOJ, the Office of Inspector General ("OIG") and CMS itself. Substantial changes in the risk adjustment mechanism, including changes

that result from enforcement or audit actions, could materially affect the fairness of the Company's Medicare reimbursement, require the Company to raise prices or reduce the benefits offered to Medicare beneficiaries, and potentially limit the Company's (and the industry's) participation in the Medicare program.

The Company has invested significant resources to comply with Medicare standards, and its Medicare compliance efforts will continue to require significant resources. CMS may seek premium and other refunds, prohibit the Company from continuing to market and/or enroll members in or refuse to passively enroll members in one or more of the Company's Medicare or Medicare-Medicaid demonstration (historically known as "dual eligible") plans, exclude us from participating in one or more Medicare, dual eligible or dual eligible special needs plan programs and/or institute other sanctions and/or civil monetary penalties against the Company if it fails to comply with CMS regulations or its Medicare contractual requirements. The Company's Medicare Supplement products are regulated at the state level.

CMS regularly audits the Company's performance to determine its compliance with CMS's regulations and its contracts with CMS and to assess the quality of services it provides to Medicare Advantage and PDP beneficiaries. For example, CMS currently conducts risk adjustment data validation ("RADV") audits of a subset of Medicare Advantage contracts for each contract year. Since 2013, CMS has selected certain of the Company's Medicare Advantage contracts for various years for RADV audit. The OIG also is auditing the Company's risk adjustment data and that of other companies, and the Company expects CMS and the OIG to continue auditing risk adjustment data. The Company also has received Civil Investigative Demands ("CIDs") from, and provided documents and information to, the Civil Division of the DOJ in connection with a current investigation of its patient chart review processes in connection with risk adjustment data submissions under Parts C and D of the Medicare program.

On October 26, 2018, CMS issued proposed rules related to, among other things, changes to the RADV audit methodology established by CMS in 2012, CMS projects that the changes to the RADV audit methodology would increase its recoveries from Medicare Advantage plans as a result of RADV audits. CMS has requested comments on the proposed rules, including whether the proposed RADV rule change should apply retroactively to audits of Medicare Advantage plans for contract year 2011 and forward. The Company is evaluating the potential adverse effect, which could be material, on the Company's results of operations, financial condition, and cash flows if the proposed RADV rule change were adopted as proposed. CMS also has announced its intent to use third party auditors to attain its ultimate goal of subjecting all Medicare Advantage contracts to either a comprehensive or a targeted RADV audit for each contract year.

A portion of each Medicare Advantage plan's reimbursement is tied to the plan's "star ratings." The star rating system considers a variety of measures adopted by CMS, including quality of preventative services, chronic illness management, compliance and overall customer satisfaction. Only Medicare Advantage plans with an overall star rating of four or more stars (out of five stars) are eligible for a quality bonus in their basic premium rates. As a result, the Company's Medicare Advantage plans' results of operations in 2019 and going forward will be significantly affected by their star ratings. The Company's star ratings and past performance scores are adversely affected by the compliance issues that arise each year in its Medicare operations. CMS released the Company's 2019 star ratings in October 2018. The Company's 2019 star ratings will be used to determine which of its Medicare Advantage plans have ratings of four stars or higher and qualify for bonus payments in 2020. Based on the Company's membership at December 31, 2018, 79% of its Medicare Advantage members were in plans with 2019 star ratings of at least 4.0 stars. CMS will release updated stars ratings in October 2019 that will be used to determine which Medicare Advantage plans have ratings of four stars or higher and qualify for bonus payments in 2021. CMS also gives PDPs star ratings which affect PDP's enrollment and result in contract termination if the PDP is rated less than three stars for three consecutive years. CMS continues to revise its star ratings system to make it harder to achieve four stars or more. Despite the Company's success in maintaining high star ratings and other quality measures for 2019 and the continuation of its improvement efforts, there can be no assurances that it will be successful in maintaining or improving its star ratings in future years. Accordingly, the Company's Medicare Advantage plans may not be eligible for full level quality bonuses, which could adversely affect the benefits such plans can offer, reduce membership and/or reduce profit margins.

Overall, the Company projects the benchmark payment rates in CMS's April 2018 final notice detailing final Medicare Advantage benchmark payment rates for 2019 (the "Final Notice") will increase funding for the Company's Medicare Advantage business, excluding the impact of coding trend, by approximately 2.5 percent in 2019 compared to 2018. This 2019 rate increase only partially offsets the challenge the Company faces from the impact of the increasing cost of medical

care (including prescription medications) and CMS local and national coverage decisions that require the Company to pay for services and supplies that are not factored into the Company's bids. The federal government may seek to impose restrictions on the configuration of pharmacy or other provider networks for Medicare Advantage and/or PDP plans, or otherwise restrict the ability of these plans to alter benefits, negotiate prices or establish other terms to improve affordability or maintain viability of products. The Company currently believes that the payments received and will receive in the near term are adequate to justify

the Company's continued participation in the Medicare Advantage and PDP programs, although there are economic and political pressures to continue to reduce spending on the program, and this outlook could change.

Going forward, the Company expects CMS, the OIG, the DOJ, other federal agencies and the United States Congress to continue to scrutinize closely each component of the Medicare program (including Medicare Advantage, PDP, demonstration projects such as Medicare-Medicaid plans and provider network access and adequacy), modify the terms and requirements of the program and possibly seek to recast or limit private insurers' role. It is not possible to predict the outcome of this Congressional or regulatory activity, any of which could adversely affect the Company.

Anti-Remuneration Laws - Federal law prohibits, among other things, an entity from knowingly and willfully offering, paying, soliciting or receiving, subject to certain exceptions and "safe harbors," any remuneration to induce the referral of individuals or the purchase, lease or order of items or services for which payment may be made under Medicare, Medicaid or certain other federal and state health care programs. A number of states have similar laws, some of which are not limited to services paid for with government funds. Sanctions for violating these federal and state anti-remuneration laws may include imprisonment, criminal and civil fines, and exclusion from participation in Medicare, Medicaid and other federal and state government-sponsored health care programs. Companies involved in public health care programs such as Medicare and/or Medicaid are required to maintain compliance programs to detect and deter fraud, waste and abuse, and are often the subject of fraud, waste and abuse investigations and audits. The Company has invested significant resources to comply with Medicare and Medicaid program standards. Ongoing vigorous law enforcement and the highly technical regulatory scheme mean that the Company's compliance efforts in this area will continue to require significant resources.

Antitrust and Unfair Competition - The Federal Trade Commission ("FTC") investigates and prosecutes practices that are "unfair trade practices" or "unfair methods of competition." Numerous lawsuits have been filed throughout the United States against pharmaceutical manufacturers, retail pharmacies and/or PBMs under various federal and state antitrust and unfair competition laws challenging, among other things: (i) brand name drug pricing and rebate practices of pharmaceutical manufacturers, (ii) the maintenance of retail or specialty pharmacy networks by PBMs, and (iii) various other business practices of PBMs and retail pharmacies. To the extent that the Company appears to have actual or potential market power in a relevant market or CVS Pharmacy, CVS Specialty or MinuteClinic plays a unique or expanded role in a PBM or Health Care Benefits segment product offering, the Company's business arrangements and uses of confidential information may be subject to heightened scrutiny from an anti-competitive perspective and possible challenge by state or federal regulators or private parties.

Privacy and Confidentiality Requirements - Many of the Company's activities involve the receipt, use and disclosure by the Company of personally identifiable information ("PII") as permitted in accordance with applicable federal and state privacy and data security laws, which require organizations to provide appropriate privacy and security safeguards for such information. In addition to PII, the Company uses and discloses de-identified data for analytical and other purposes when permitted. Additionally, there are industry standards for handling credit card data known as the Payment Card Industry Data Security Standard, which are a set of requirements designed to help ensure that entities that process, store or transmit credit card information maintain a secure environment. Certain states have incorporated these requirements into state laws or enacted other requirements relating to the use and/or disclosure of PII.

The federal Health Insurance Portability and Accountability Act of 1996 and the regulations issued thereunder (collectively, "HIPAA"), as further modified by the American Recovery and Reinvestment Act of 2009 ("ARRA") impose extensive requirements on the way in which health plans, health care providers, health care clearinghouses (known as "covered entities") and their business associates use, disclose and safeguard protected health information ("PHI"). Further, ARRA requires us and other covered entities to report any breaches of PHI to impacted individuals and to the United States Department of Health and Human Services ("HHS") and to notify the media in any states where 500 or more people are impacted by the unauthorized release or use of or access to PHI. Criminal penalties and civil sanctions may be imposed for failing to comply with HIPAA standards. The Health Information Technology for Economic and Clinical Health Act (the "HITECH Act"), enacted as part of ARRA, amended HIPAA to impose additional restrictions on third-party funded communications using PHI and the receipt of remuneration in exchange for PHI. The HITECH Act also extended HIPAA privacy and security requirements and penalties directly to business associates. HHS has begun to audit health plans, providers and other parties to enforce HIPAA compliance, including with respect to data security.

In addition to HIPAA, state health privacy laws apply to the extent they are more protective of individual privacy than is HIPAA, including laws that place stricter controls on the release of information relating to specific diseases or conditions and requirements to notify members of unauthorized release or use of or access to PHI. States also have adopted regulations to implement provisions of the Financial Modernization Act of 1999 (also known as the Gramm-Leach-Bliley Act ("GLBA")) which generally require insurers, including health insurers, to provide customers with notice regarding how their non-public

personal health and financial information is used and the opportunity to "opt out" of certain disclosures before the insurer shares such information with a non-affiliated third party. Like HIPAA, GLBA sets a "floor" standard, allowing states to adopt more stringent requirements governing privacy protection. Complying with additional state requirements requires us to make additional investments beyond those the Company has made to comply with HIPAA and GLBA.

The Cybersecurity Information Sharing Act of 2015 encourages organizations to share cyber threat indicators with the federal government and, among other things, directs HHS to develop a set of voluntary cybersecurity best practices for organizations in the health care industry. In addition, states have begun to enact more comprehensive privacy laws and regulations addressing consumer rights to data protection or transparency. States also are starting to issue regulations and proposed regulations specifically related to cybersecurity, such as the regulations issued by the New York Department of Financial Services. Complying with conflicting cybersecurity regulations, which may differ from state to state, requires significant resources. In addition, differing approaches to state privacy and/or cyber-security regulation and varying enforcement philosophies may materially and adversely affect the Company's ability to standardize its products and services across state lines. Widely-reported large scale commercial data breaches in the United States and abroad increase the likelihood that additional data security legislation will be considered by additional states. These legislative and regulatory developments will impact the design and operation of the Company's businesses, its privacy and security strategy and its web-based and mobile assets.

Finally, Public Exchanges are required to adhere to privacy and security standards with respect to PII, and to impose privacy and security standards that are at least as protective of PII as those the Public Exchange has implemented for itself or non-Public Exchange entities, which include insurers offering plans through the Public Exchanges and their designated downstream entities, including PBMs and other business associates. These standards may differ from, and be more stringent than, HIPAA.

Consumer Protection Laws - The federal government has many consumer protection laws, such as the Federal Trade Commission Act, the Federal Postal Service Act, the Consumer Product Safety Act and the FTC's Telemarketing Sales Rule. Most states also have similar consumer protection laws. In addition, the federal government and most states have adopted laws and/or regulations requiring places of public accommodation, health care services and other goods and services to be accessible to people with disabilities. These consumer protection and accessibility laws and regulations have been the basis for investigations, lawsuits and multistate settlements relating to, among other matters, the marketing of loyalty programs, and health care products and services, pricing accuracy, expired front store products, financial incentives provided by drug manufacturers to pharmacies in connection with therapeutic interchange programs, disclosures related to how personal data is used and protected and the accessibility of goods and services to people with disabilities. As a result of the Company's direct-to-consumer activities, including mobile and web-based solutions offered to members and to other consumers, the Company also is subject to federal and state regulations applicable to electronic communications and to other general consumer protection laws and regulations. For example, the California Consumer Privacy Act will become effective in 2020, and the Company expects additional federal and state regulation of consumer privacy protection to be enacted in 2019. The Company expects these new laws and regulations to impact the design of its products and services and the management and operation of its businesses and to increase its compliance costs.

Telemarketing and Other Outbound Contacts - Certain federal and state laws, such as the Telephone Consumer Protection Act, give the FTC, Federal Communications Commission and state attorneys general the ability to regulate, and bring enforcement actions relating to, telemarketing practices and certain automated outbound contacts such as phone calls, texts or emails. Under certain circumstances, these laws provide consumers with a private right of action. Violations of these laws could result in substantial statutory penalties and other sanctions.

Pharmacy and Professional Licensure and Regulation - The Company is subject to a variety of intersecting federal and state statutes and regulations that govern the wholesale distribution of drugs; operation of retail, specialty, infusion, LTC and mail order pharmacies; licensure of facilities and professionals, including pharmacists, technicians, nurses and other healthcare professionals; registration of facilities with the United States Drug Enforcement Administration ("DEA") and analogous state agencies that regulate controlled substances; packaging, storing, shipping and tracking of pharmaceuticals; repackaging of drug products; labeling, medication guides and other consumer disclosures; interactions with prescribers and health care professionals; compounding of prescription medications; dispensing of controlled and non-controlled substances; counseling of patients; transfers of prescriptions; advertisement of prescription products and pharmacy services; security; inventory control; recordkeeping; reporting to Boards of Pharmacy, the United States Food and Drug

Administration (“FDA”), the Consumer Product Safety Commission, the DEA and related state agencies; and other elements of pharmacy practice. Pharmacies are highly regulated and have contact with a wide variety of federal, state and local agencies, with various powers to investigate, inspect, audit or solicit information, including Boards of Pharmacy and Nursing, the DEA, the FDA, the United States Department of Justice, HHS and others. Many of these agencies have broad enforcement powers, conduct audits on a regular

basis, can impose substantial fines and penalties, and may revoke the license, registration or program enrollment of a facility or professional.

State Insurance, HMO and Insurance Holding Company Regulation - A number of states regulate affiliated groups of insurers and HMOs such as the Company under holding company statutes. These laws may, among other things, require prior regulatory approval of dividends and material intercompany transfers of assets and transactions between the regulated companies and their affiliates, including their parent holding companies. The Company expects the states in which its insurance and HMO subsidiaries are licensed to continue to expand their regulation of the corporate governance and internal control activities of its insurance companies and HMOs. Changes to state insurance, HMO and/or insurance holding company laws or regulations or changes to the interpretation of those laws or regulations, including due to regulators' increasing concerns regarding insurance company and/or HMO solvency due, among other things, to recent and expected payor insolvencies, could negatively affect the Company's businesses in various ways, including through increases in solvency fund assessments, requirements that the Company hold greater levels of capital and/or delays in approving dividends from regulated subsidiaries.

PBM offerings of prescription drug coverage under certain risk arrangements may be subject to laws and regulations in various states. Such laws may require that the party at risk become licensed as an insurer, establish reserves or otherwise demonstrate financial viability. Laws that may apply in such cases include insurance laws and laws governing MCOs and limited prepaid health service plans.

The states of domicile of the Company's regulated subsidiaries have statutory risk-based capital, or "RBC", requirements for health and other insurance companies and HMOs based on the RBC Model Act. These RBC requirements are intended to assess the capital adequacy of life and health insurers and HMOs, taking into account the risk characteristics of a company's investments and products. The RBC Model Act sets forth the formula for calculating RBC requirements, which are designed to take into account asset risks, insurance risks, interest rate risks and other relevant risks with respect to an individual company's business. In general, under these laws, an insurance company or HMO must submit a report of its RBC level to the insurance department or insurance commissioner of its state of domicile for each calendar year. At December 31, 2018, the RBC level of each of the Company's insurance and HMO subsidiaries was above the level that would require regulatory action.

For information regarding restrictions on certain payments of dividends or other distributions by the Company's HMO and insurance company subsidiaries, see Note 12 ''Shareholders' Equity'' contained in the "Notes to Consolidated Financial Statements" in the Annual Report, which is incorporated by reference herein.

The holding company laws for the states of domicile of certain of the Company's subsidiaries also restrict the ability of any person to obtain control of an insurance company or HMO without prior regulatory approval. Under those statutes, without such approval (or an exemption), no person may acquire any voting security of an insurance holding company (such as the Company's parent company, CVS Health Corporation) that controls an insurance company or HMO, or merge with such a holding company, if as a result of such transaction such person would control the insurance holding company. Control is generally defined as the direct or indirect power to direct or cause the direction of the management and policies of a person and is presumed to exist if a person directly or indirectly owns or controls 10% or more of the voting securities of another person.

Certain states have laws that prohibit submitting a false claim or making a false record or statement in order to secure reimbursement from an insurance company. These state laws vary, and violation of them may lead to the imposition of civil or criminal penalties.

Government Agreements and Mandates - The Company and/or its various affiliates are subject to certain consent decrees, settlement and other agreements, corrective action plans and corporate integrity agreements with various federal, state and local authorities relating to such matters as privacy practices, controlled substances, Medicare Part D prescription drug plans, expired products, environmental and safety matters, marketing and advertising practices, PBM, LTC and other pharmacy operations and various other business practices. Certain of these agreements contain ongoing reporting, monitoring and/or other compliance requirements for the Company. Failure to meet the Company's obligations under these agreements could result in civil or criminal remedies, financial penalties, administrative remedies, and/or exclusion from participation in federal health care programs.

Environmental and Safety Regulation - The Company's businesses are subject to various federal, state and local laws, regulations and other requirements pertaining to protection of the environment, public health and employee safety, including, for example, regulations governing the management of hazardous substances, the cleaning up of contaminated sites, and the maintenance of safe working conditions in the Company's stores, distribution centers and other facilities. Governmental agencies at the federal, state and local levels continue to focus on the retail and health care sectors' compliance with such laws

and regulations, and have at times pursued enforcement activities. Any failure to comply with these regulations could result in fines or other sanctions by government authorities.

ERISA Regulation - The Employee Retirement Income Security Act of 1974 ("ERISA"), provides for comprehensive federal regulation of certain employee pension and benefit plans, including private employer and union sponsored health plans and certain other plans that contract with us to provide PBM services. In general, the Company assists plan sponsors in the administration of their health benefit plans, including the prescription drug benefit portion of those plans, in accordance with the plan designs adopted by the plan sponsors. In addition, the Company may have fiduciary duties where it has specifically contracted with a plan sponsor to accept limited fiduciary responsibility, such as for the adjudication of initial prescription drug benefit claims and/or the appeals of denied claims under a plan. In addition to its fiduciary provisions, ERISA imposes civil and criminal liability on service providers to health plans and certain other persons if certain forms of illegal remuneration are made or received. These provisions of ERISA are broadly written and their application to specific business practices is often uncertain.

Some of the Company's health and related benefits and large case pensions products and services and related fees also are subject to potential issues raised by judicial interpretations relating to ERISA. Under those interpretations, together with United States Department of Labor ("DOL") regulations, the Company may have ERISA fiduciary duties with respect to PBM members and/or certain general account assets held under contracts that are not guaranteed benefit policies. As a result, certain transactions related to those general account assets are subject to conflict of interest and other restrictions, and the Company must provide certain disclosures to policyholders annually. The Company must comply with these restrictions or face substantial penalties.

In addition, ERISA generally preempts all state and local laws that relate to employee benefit plans, but the extent of the pre-emption continues to be reviewed by courts.

Other Legislative Initiatives and Regulatory Initiatives - The United States federal and state governments, as well as governments in other countries where the Company does business, continue to enact and seriously consider many broad-based legislative and regulatory proposals that have had a material impact on or could materially impact various aspects of the health care and related benefits system and the Company's businesses. For example:

- Under the Budget Control Act of 2011 and the American Taxpayer Relief Act of 2012 significant, automatic across-the-board budget cuts (known as sequestration) began in March 2013, including Medicare spending cuts of not more than 2% of total program costs per year through 2024. Significant uncertainty remains as to whether and how the United States Congress will proceed with actions that create additional federal revenue and/or with entitlement reform. The Company cannot predict future federal Medicare or federal or state Medicaid funding levels or the impact that future federal or state budget actions or entitlement program reform, if it occurs, will have on the Company's businesses, operations or results of operations, but the effects could be materially adverse, particularly on the Company's Medicare and/or Medicaid revenues, MBRs and results of operations.
- The European Union's ("EU's") General Data Protection Regulation ("GDPR") began to apply across the EU during 2018.
- Other significant legislative and/or regulatory measures which are or recently have been under consideration include the following:
    - Elimination of the payment of manufacturer's rebates on prescription drugs to PBMs, PDPs and Managed Medicaid organizations in connection with federally funded health care programs. In January 2019, HHS proposed regulations that would exclude such rebates from the safe harbor that currently is available for such payments under the federal anti-kickback statute.
    - Imposing requirements and restrictions on the design and/or administration of pharmacy benefits plans offered by the Company's and its clients' health plans and/or its PBM clients and/or the services the Company provides to those clients, including restricting or eliminating the use of formularies for prescription drugs; restricting the Company's ability to require members to obtain drugs through a home delivery or specialty pharmacy; restricting the Company's ability to place certain specialty or other drugs in the higher cost tiers of its pharmacy formularies; restricting the Company's ability to make changes to drug formularies and/or clinical programs; limiting or eliminating rebates on pharmaceuticals; requiring the use of up front purchase price discounts on pharmaceuticals in lieu of rebates; restricting the Company's ability to configure

its health plan and retail pharmacy networks; and restricting or eliminating the use of certain drug pricing methodologies.

- Increased federal or state government regulation of, or involvement in, the pricing and/or purchasing of drugs.

- Restricting the Company's ability to limit providers' participation in its networks and/or remove providers from its networks by imposing network adequacy requirements or otherwise (including in its Medicare and Commercial Health Care Benefits products).
- Imposing assessments on (or to be collected by) health plans or health carriers, which may or may not be passed onto their customers. These assessments may include assessments for insolvency, the uninsured, uncompensated care, Medicaid funding or defraying health care provider medical malpractice insurance costs.
- Mandating coverage by the Company and its clients' health plans for additional conditions and/or specified procedures, drugs or devices (for example, high cost pharmaceuticals, experimental pharmaceuticals and oral chemotherapy regimens).
- Regulating electronic connectivity.
- Mandating or regulating the disclosure of provider fee schedules and other data about the Company's payments to providers.
- Mandating or regulating disclosure of provider outcome and/or efficiency information.
- Prescribing or limiting members' financial responsibility for health care or other covered services they utilize.
- Assessing the medical device status of HIT products and/or solutions, mobile consumer wellness tools and clinical decision support tools, which may require compliance with FDA requirements in relation to some of these products, solutions and/or tools.
- Imposing payment levels for services rendered to the Company's members by providers who do not have contracts with the Company.
- Restricting the ability of employers and/or health plans to establish or impose member financial responsibility.
- Amending or supplementing ERISA to impose greater requirements on PBMs, the administration of employer-funded benefit plans or limit the scope of current ERISA pre-emption, which would among other things expose us and other health plans to expanded liability for punitive and other extra-contractual damages and additional state regulation.

It is uncertain whether the Company can counter the potential adverse effects of such potential legislation or regulation on its results of operations or cash flows, including whether it can recoup, through higher premium rates, expanded membership or other measures, the increased costs of mandated coverage or benefits, assessments, fees, taxes or other increased costs, including the cost of modifying its systems to implement any enacted legislation or regulations.

The Company's businesses also may be affected by other legislation and regulations. The Dodd-Frank Wall Street Reform and Consumer Protection Act (the "Financial Reform Act") creates incentives for whistleblowers to speak directly to the government rather than utilizing internal compliance programs and reduces the burden of proof under the Foreign Corrupt Practices Act of 1977 (the "FCPA"). There also are laws and regulations that set standards for the escheatment of funds to states.

Health savings accounts, health reimbursement arrangements and flexible spending accounts and certain of the tax, fee and subsidy provisions of the ACA also are regulated by the United States Department of the Treasury and the Internal Revenue Service.

The Company also may be adversely affected by court and regulatory decisions that expand or revise the interpretations of existing statutes and regulations or impose medical malpractice or bad faith liability. Federal and state courts continue to consider cases, and federal and state regulators continue to issue regulations and interpretations, addressing bad faith liability for denial of medical claims, the scope of ERISA's fiduciary duty requirements, the scope of the False Claims Act and the pre-emptive effect of ERISA on state laws.

Contract Audits - The Company is subject to audits of many of its contracts, including its PBM client contracts, its PBM rebate contracts, its PBM network contracts, its contracts relating to Medicare Advantage, and/or Medicare Part D, the agreements the Company's pharmacies enter into with other payors, its Medicaid contracts and its customer contracts.

Because some of the Company's contracts are with state or federal governments or with entities contracted with state or federal agencies, audits of these agreements are often regulated by the federal or state agencies responsible for administering federal or state benefits programs, including those which operate Medicaid fee for service plans, Managed Medicaid plans, Medicare Part D plans or Medicare Advantage organizations.

Federal Employee Health Benefits Program - The Company's subsidiaries contract with the Office of Personnel Management (the "OPM") to provide managed health care services under the FEHB program in their service areas. These contracts with the

OPM and applicable government regulations establish premium rating arrangements for this program. OPM regulations require that community-rated FEHB plans meet a FEHB program-specific MLR by plan code and market. Managing to these rules is complicated by the simultaneous application of the minimum MLR standards and associated premium rebate requirements of the ACA. The Company also has a contractual arrangement with carriers for the FEHB program, such as the BlueCross BlueShield Association, to provide pharmacy services to federal employees, postal workers, annuitants, and their dependents under the Government-wide Service Benefit Plan, as authorized by the FEHB Act and as part of the FEHB program. Additionally, the Company manages certain FEHB plans on a "cost-plus" basis. These arrangements subject the Company to certain aspects of FEHB Act, and other federal regulations, such as the FEHB Acquisition Regulation, that otherwise would not be applicable to the Company. The OPM also is auditing the Company and its other contractors to, among other things, verify that plans meet their applicable FEHB program-specific MLR and the premiums established under the OPM's Insured contracts and costs allocated pursuant to the OPM's cost-based contracts are in compliance with the requirements of the applicable FEHB program. The OPM may seek premium refunds or institute other sanctions against the Company if it fails to comply with the FEHB program requirements.

Disease Management Services Regulation - The Company provides disease management programs to health plan and PBM plan members for complex medical conditions and arranges for those members to receive disease management programs for common medical conditions. State laws regulate the practice of medicine, the practice of pharmacy and the practice of nursing. Clinicians engaged in a professional practice in connection with the provision of disease management services must satisfy applicable state licensing requirements and must act within their scope of practice.

Third Party Administration and Other State Licensure Laws - Many states have licensure or registration laws governing certain types of administrative organizations, such as PPOs, TPAs and companies that provide utilization review services. Several states also have licensure or registration laws governing the organizations that provide or administer consumer card programs (also known as cash card or discount card programs).

International Regulation - The Company currently has insurance licenses in several foreign jurisdictions and does business directly or through local affiliations in numerous countries around the world. The Company is taking steps to be able to continue to serve customers in the European Economic Area following the United Kingdom's pending exit from the EU ("Brexit"). However, the impact of Brexit on the Company's international business and results of operations is uncertain.

The Company's international operations are subject to different, and sometimes more stringent, legal and regulatory requirements, which vary widely by jurisdiction, including anti-corruption laws; economic sanctions laws; various privacy, insurance, tax, tariff and trade laws and regulations; corporate governance, privacy, data protection (including the EU's General Data Protection Regulation which began to apply across the EU during 2018), data mining, data transfer, labor and employment, intellectual property, consumer protection and investment laws and regulations; discriminatory licensing procedures; compulsory cessions of reinsurance; required localization of records and funds; higher premium and income taxes; limitations on dividends and repatriation of capital; and requirements for local participation in an insurer's ownership. In addition, the expansion of the Company's operations into foreign countries increases the Company's exposure to the anti-bribery, anti-corruption and anti-money laundering provisions of United States law, including the FCPA, and corresponding foreign laws, including the U.K. Bribery Act 2010 (the "UK Bribery Act").

Anti-Corruption Laws - The FCPA prohibits offering, promising or authorizing others to give anything of value to a foreign government official to obtain or retain business or otherwise secure a business advantage. The Company also is subject to applicable anti-corruption laws of the jurisdictions in which it operates. In many countries outside the United States, health care professionals are employed by the government. Therefore, the Company's dealings with them are subject to regulation under the FCPA. Violations of the FCPA and other anti-corruption laws may result in severe criminal and civil sanctions as well as other penalties, and the United States Securities and Exchange Commission (the "SEC") and the DOJ have increased their enforcement activities with respect to the FCPA. The UK Bribery Act is an anti-corruption law that is broader in scope than the FCPA and applies to all companies with a nexus to the United Kingdom. Disclosures of FCPA violations may be shared with the UK authorities, thus potentially exposing companies to liability and potential penalties in multiple jurisdictions. The Company has internal control policies and procedures and conducts training and compliance programs for its employees to deter prohibited practices. However, if the Company's employees or agents fail to comply with applicable laws governing its international operations, it may face investigations, prosecutions and other legal proceedings and actions which could result in civil penalties, administrative remedies and criminal sanctions.

Anti-Money Laundering Regulations - Certain lines of the Company's businesses are subject to Treasury anti-money laundering regulations. Those lines of business have implemented anti-money laundering policies designed to insure their

compliance with the regulations. The Company also may be subject to anti-money laundering laws in non-U.S. jurisdictions where it operates.

Office of Foreign Assets Control - The Company also is subject to regulation by OFAC. OFAC administers and enforces economic and trade sanctions based on United States foreign policy and national security goals against targeted foreign countries and regimes, terrorists, international narcotics traffickers, those engaged in activities related to the proliferation of weapons of mass destruction, and other threats to the national security, foreign policy or economy of the United States. In addition, the Company may be subject to similar regulations in the non-U.S. jurisdictions in which it operates.

Laws and Regulations Related to the Pharmacy Services Segment

In addition to the laws and regulations discussed above that may affect multiple segments of the Company's business, the Company is subject to federal, state and local statutes and regulations governing the operation of its Pharmacy Services segment specifically. Among these are the following:

PBM Laws and Regulation - Legislation seeking to regulate PBM activities in a comprehensive manner has been introduced or enacted in a number of states. This legislation could adversely affect the Company's ability to conduct business on commercially reasonable terms in states where the legislation is in effect. In addition, certain quasi-regulatory organizations, including the National Association of Boards of Pharmacy and the National Association of Insurance Commissioners ("NAIC") and the National Council of Insurance Legislators, have issued model regulations or may propose future regulations concerning PBMs and/or PBM activities. Similarly, credentialing organizations such as NCQA and URAC may establish voluntary standards regarding PBM, mail or specialty pharmacy activities. While the actions of these quasi-regulatory or standard-setting organizations do not have the force of law, they may influence states to adopt their requirements or recommendations and influence client requirements for PBM or specialty pharmacy services. Moreover, any standards established by these organizations could also impact the Company's health plan clients and/or the services provided to them and/or the Company's health plans.

The Company's PBM activities also are regulated directly and indirectly at the federal and state levels, including being subject to the False Claims Act and state false claims acts and federal and state anti-kickback laws. These laws and regulations govern, and proposed legislation and regulations may govern and/or further restrict, critical PBM practices, including disclosure, receipt and retention of rebates and other payments received from pharmaceutical manufacturers; use of, administration of and/or changes to drug formularies, maximum allowable cost ("MAC") list pricing, average wholesale prices ("AWPs") and/or clinical programs; the offering to plan sponsors of pricing that includes retail network "differential" or "spread" (i.e., a difference between the drug price charged to the plan sponsor by a PBM and the price paid by the PBM to the dispensing provider); disclosure of data to third parties; drug utilization management practices; the level of duty a PBM owes its customers; configuration of pharmacy networks; the operations of the Company's pharmacies (including audits of its pharmacies); disclosure of negotiated provider reimbursement rates; disclosure of fees associated with administrative service agreements and patient care programs that are attributable to members' drug utilization; and registration or licensing of PBMs. Failure by the Company or one of its PBM services suppliers to comply with these laws or regulations could result in material fines and/or sanctions and could have a material adverse effect on the Company's results of operations and/or cash flows.

PDPs and the Company's PBM service contracts, including those in which the Company assumes certain risks under performance guarantees or similar arrangements, are generally not subject to insurance regulation by the states. However, state departments of insurance are increasing their oversight of PBM activities due to legislation passing in several states requiring PBMs to register or obtain a license with the department. Rulemaking is either underway or has already taken place in a few states with the areas of focus on licensure requirements, pharmacy reimbursement for generics (MAC reimbursement) and pharmacy audits - most of which fall under the state insurance code.

Pharmacy Network Access Legislation - Medicare Part D and a majority of states now have some form of legislation affecting the Company's (and its health plans' and its health plan clients') ability to limit access to a pharmacy provider network or remove network providers. For example, certain "any willing provider" legislation may require the Company or its clients to admit a nonparticipating pharmacy if such pharmacy is willing and able to meet the plan's price and other applicable terms and conditions for network participation. These laws could negatively affect the services and economic benefits achievable through a limited pharmacy provider network. Also, a majority of states now have some form of

legislation affecting the Company's ability (and the Company's and its client health plans' ability) to conduct audits of network pharmacies regarding claims submitted to the Company for payment. These laws could negatively affect the Company's ability to recover overpayments of claims submitted by network pharmacies that the Company identifies through pharmacy audits.

Pharmacy Pricing Legislation - Several states have passed legislation regulating the Company's ability to manage and establish MACs for generic prescription drugs. MAC methodology is a common cost management practice used by private and public payors (including CMS) to pay pharmacies for dispensing generic prescription drugs. MAC prices specify the allowable reimbursement by a PBM for a particular strength and dosage of a generic drug that is available from multiple manufacturers but sold at different prices. State legislation can regulate the disclosure of MAC prices and MAC price methodologies, the kinds of drugs that a PBM can pay for at a MAC price, and the rights of pharmacies to appeal a MAC price established by a PBM. These laws could negatively affect the Company's ability to establish MAC prices for generic drugs.

Formulary and Plan Design Regulation - A number of government entities regulate the administration of prescription drug benefits. HHS regulates how Medicare Part D formularies are developed and administered, including requiring the inclusion of all drugs in certain classes and categories, subject to limited exceptions. Under the ACA, CMS imposes drug coverage requirements for health plans required to cover essential health benefits, including plans offered through federal or state Public Exchanges. Additionally, the NAIC and health care accreditation agencies like NCQA and URAC have developed model acts and standards for formulary development that are often incorporated into government requirements. Many states regulate the scope of prescription drug coverage, as well as the delivery channels to receive prescriptions, for insurers, MCOs and Medicaid managed care plans. The increasing government regulation of formularies could significantly affect the Company's ability to develop and administer formularies, networks and other plan design features on behalf of its insurer, MCO and other clients. Similarly, some states prohibit health plan sponsors from implementing certain restrictive design features. This regulation could limit or preclude (i) limited networks, (ii) a requirement to use particular providers, (iii) copayment differentials among providers and (iv) formulary tiering practices.

FDA Regulation - The FDA regulates the Company's compounding pharmacy and clinical research operations.

Laws and Regulations Related to the Retail/LTC Segment

In addition to the laws and regulations discussed above that may affect multiple segments of the Company's business, the Company is subject to federal, state and local statutes and regulations governing the operation of its Retail/LTC segment specifically. Among these are the following:

FDA Regulation - The FDA generally has authority to, among other things, regulate the manufacture, distribution, sale and labeling of many products sold through retail pharmacies, including prescription drugs, over-the-counter medications, medical devices (including mobile medical devices), cosmetics, dietary supplements and certain food items. The FDA regulates the Company's activities as a distributor of store brand products.

Retail Clinics - States regulate retail clinics operated by nurse practitioners or physician assistants through physician oversight, clinic and lab licensure requirements and the prohibition of the corporate practice of medicine. A number of states have implemented or proposed laws or regulations that impact certain components of retail clinic operations such as physician oversight, signage, third party contracting requirements, bathroom facilities, and scope of services. These laws and regulations may affect the operation and expansion of the Company's owned and managed retail clinics.

Other Laws - Other federal, state and local laws and regulations also impact the Company's retail operations, including laws and regulations governing the practice of optometry, the practice of audiology, the provision of dietician services and the sale of durable medical equipment, contact lenses, eyeglasses, hearing aids and alcohol.

Laws and Regulations Related to the Health Care Benefits Segment

Overview - Differing approaches to state insurance regulation and varying enforcement philosophies may materially and adversely affect the Company's ability to standardize its Health Care Benefits products and services across state lines. These laws and regulations, including the ACA, restrict how the Company conducts its business and result in additional burdens and costs to the Company. Significant areas of governmental regulation include premium rates and rating methodologies, underwriting rules and procedures, required benefits, sales and marketing activities, provider rates of payment, restrictions on health plans' ability to limit providers' participation in their networks and/or remove providers from their networks and financial condition (including reserves and minimum capital or risk based capital requirements). These laws and regulations are different in each jurisdiction and vary from product to product.

Each health insurer and HMO must file periodic financial and operating reports with the states in which it does business. In addition, health insurers and HMOs are subject to state examination and periodic license renewal. Applicable laws also restrict the ability of the Company's regulated subsidiaries to pay dividends, and certain dividends require prior regulatory approval. In

addition, some of the Company's businesses and related activities may be subject to PPO, managed care organization, utilization review or TPA-related licensure requirements and regulations. These licensure requirements and regulations differ from state to state, but may contain provider network, contracting, product and rate, financial and reporting requirements. There also are laws and regulations that set specific standards for the Company's delivery of services, payment of claims, fraud prevention, protection of consumer health information, and payment for covered benefits and services.

Required Regulatory Approvals - The Company must obtain and maintain regulatory approvals to price, market and administer many of its Health Care Benefits products. Supervisory agencies, including CMS, the Center for Consumer Information and Insurance Oversight and the DOL, as well as state health, insurance, managed care and Medicaid agencies and state boards of pharmacy have broad authority to take one or more of the following actions:

- Grant, suspend and revoke the Company's licenses to transact business;
- Suspend or exclude the Company from participation in government programs;
- Suspend or limit the Company's authority to market products;
- Regulate many aspects of the products and services the Company offers, including the pricing and underwriting of many of its products and services;
- Assess damages, fines and/or penalties;
- Terminate the Company's contract with the government agency and/or withhold payments from the government agency to the Company;
- Impose retroactive adjustments to premiums and require the Company to pay refunds to the government, customers and/or members;
- Restrict the Company's ability to conduct acquisitions or dispositions;
- Require the Company to maintain minimum capital levels in its subsidiaries and monitor its solvency and reserve adequacy;
- Regulate the Company's investment activities on the basis of quality, diversification and other quantitative criteria; and/or
- Exclude the Company's plans from participating in Public Exchanges if they are deemed to have a history of "unreasonable" premium rate increases or fail to meet other criteria set by HHS or the applicable state.

The Company's operations, current and past business practices, current and past contracts, and accounts and other books and records are subject to routine, regular and special investigations, audits, examinations and reviews by, and from time to time the Company receives subpoenas and other requests for information from, federal, state and international supervisory and enforcement agencies, attorneys general and other state, federal and international governmental authorities and legislators.

Commercial Product Pricing and Underwriting Restrictions - Pricing and underwriting regulation by states limits the Company's underwriting and rating practices and those of other health insurers, particularly for small employer groups, and varies by state. In general, these limitations apply to certain customer segments and limit the Company's ability to set prices for new or renewing groups, or both, based on specific characteristics of the group or the group's prior claim experience. In some states, these laws and regulations restrict the Company's ability to price for the risk it assumes and/or reflect reasonable costs in the Company's pricing.

The ACA expanded the premium rate review process by, among other things, requiring the Company's Commercial Insured rates to be reviewed for "reasonableness" at either the state or the federal level. HHS established a federal premium rate review process that generally applies to proposed premium rate increases equal to or exceeding a federally (or lower state) specified threshold. HHS's rate review process imposes additional public disclosure requirements as well as additional review on filings requesting premium rate increases equal to or exceeding this "reasonableness" threshold. These combined state and federal review requirements may prevent, further delay or otherwise affect the Company's ability to price for the risk it assumes, which could adversely affect its MBRs and results of operations, particularly during periods of increased utilization of medical services and/or medical cost trend or when such utilization and/or trend exceeds the Company's projections.

The ACA also specifies minimum MLRs of 85% for large group Commercial products and 80% for individual and small group Commercial products. Because the ACA minimum MLRs are structured as “floors” for many of their requirements, states have the latitude to enact more stringent rules governing its various restrictions. For Commercial products, states have and may adopt higher minimum MLR requirements, use more stringent definitions of “medical loss ratio,” incorporate minimum MLR requirements into prospective premium rate filings, require prior approval of premium rates or impose other requirements related to minimum MLR. Minimum MLR requirements and similar actions further limit the level of margin the Company can

earn in its Insured Commercial business while leaving the Company exposed to medical costs that are higher than those reflected in its pricing. The Company also may be subject to significant fines, penalties, premium refunds and litigation if it fails to comply with minimum MLR laws and regulations.

In addition, the Company requested significant increases in its premium rates in its Commercial small group Health Care Benefits business for 2019 and expects to continue to request significant increases in those rates for 2020 and beyond in order to adequately price for projected medical cost trends, required expansions of coverage and significant assessments, fees and taxes imposed by the federal and state governments, including the ACA. The Company's rates also must be adequate to reflect adverse selection in its products, particularly in small group Commercial products, which the Company expects to continue and potentially worsen in 2019. These significant rate increases heighten the risks of adverse public and regulatory action and adverse selection and the likelihood that the Company's requested premium rate increases will be denied, reduced or delayed, which could lead to operating margin compression.

Many of the laws and regulations governing the Company's pricing and underwriting practices also limit the differentials in premium rates insurers and other carriers may charge between new and renewal business, and/or between groups based on differing characteristics. They may also require that carriers disclose to customers the basis on which the carrier establishes new business and renewal premium rates and limit the ability of a carrier to terminate customers' coverage. In addition, HHS' rules on rates impose additional public disclosure requirements on any rate filings that exceed the "reasonableness" threshold and require additional review of those rates.

Medicaid Regulation - The Company is seeking to substantially grow its Medicaid, dual eligible and dual eligible special needs plan businesses over the next several years. As a result, the Company also is increasing its exposure to changes in government policy with respect to and/or regulation of the various Medicaid, dual eligible and dual eligible special needs plan programs in which the Company participates, including changes in the amounts payable to the Company under those programs.

Since 2017, Managed Medicaid products, including those the Company offers, are subject to a minimum MLR of 85%. A Medicaid managed care quality rating system and provider network adequacy requirements also apply to Medicaid products. Because the minimum MLR is structured as a "floor", states have the latitude to enact more stringent rules governing these various restrictions. For Managed Medicaid products, states may adopt higher minimum MLR requirements, use more stringent definitions of "medical loss ratio" or impose other requirements related to minimum MLR. Minimum MLR requirements and similar actions further limit the level of margin the Company can earn in its Insured Medicaid products while leaving the Company exposed to medical costs that are higher than those reflected in its pricing. The Company also may be subject to significant fines, penalties, premium refunds and litigation if it fails to comply with minimum MLR laws and regulations.

The impact of Medicaid expansion under the ACA is uncertain. The future of the ACA is uncertain, and states may opt out of the elements of the ACA requiring expansion of Medicaid coverage without losing their current federal Medicaid funding. To date, a number of states and the District of Columbia have expanded Medicaid coverage to the higher eligibility levels contemplated by the ACA. In addition, the election of new governors and/or state legislatures may impact states' previous decisions regarding Medicaid expansion. Proposals for substantial changes to federal funding of state Medicaid programs are likely to be considered in 2019 and beyond, including the possibility of converting federal Medicaid support to block grants and per capita caps on federal funding. Uncertainty regarding federal funding is causing and will continue to cause states to re-evaluate their Medicaid expansions and consider new assessments, fees and/or taxes on health plans. That re-evaluation may adversely affect Medicaid payment rates, the Company's revenues and its Medicaid membership in those states.

The economic aspects of the Medicaid, dual eligible and dual eligible special needs plan business vary from state to state and are subject to frequent change. Medicaid premiums are paid by each state and differ from state to state. The federal government and certain states also are considering proposals and legislation for Medicaid and dual eligible program reforms or redesigns, including restrictions on the collection of manufacturer's rebates on pharmaceuticals by Medicaid MCOs and their contracted PBMs, further program, population and/or geographic expansions of risk-based managed care, increasing beneficiary cost-sharing or payment levels, and changes to benefits, reimbursement, eligibility criteria, provider network adequacy requirements (including requiring the inclusion of specified high cost providers in the Company's networks) and program structure. In some states, current Medicaid and dual eligible funding and premium revenue may

not be adequate for the Company to continue program participation. The Company's Medicaid and dual eligible contracts with states (or sponsors of Medicaid managed care plans) are subject to cancellation by the state (or the sponsors of the managed care plans) after a short notice period without cause (for example, when a state discontinues a managed care program) or in the event of insufficient state funding.

The Company's Medicaid, dual eligible and dual eligible special needs plan products also are heavily regulated by CMS and state Medicaid agencies, which have the right to audit the Company's performance to determine compliance with CMS

contracts and regulations. The Company's Medicaid products, dual eligible products and CHIP contracts also are subject to complex federal and state regulations and oversight by state Medicaid agencies regarding the services provided to Medicaid enrollees, payment for those services, network requirements (including mandatory inclusion of specified high-cost providers), and other aspects of these programs, and by external review organizations which audit Medicaid plans on behalf of the state Medicaid agencies. The laws, regulations and contractual requirements applicable to the Company and other participants in Medicaid and dual eligible programs, including requirements that the Company submit encounter data to the applicable state agency, are extensive, complex and subject to change. The Company has invested significant resources to comply with these standards, and its Medicaid and dual eligible program compliance efforts will continue to require significant resources. CMS and/or state Medicaid agencies may fine the Company, withhold payments to the Company, seek premium and other refunds, terminate the Company's existing contracts, elect not to award the Company new contracts or not to renew the Company's existing contracts, prohibit the Company from continuing to market and/or enroll members in or refuse to automatically assign members to one or more of the Company's Medicaid or dual eligible products, exclude the Company from participating in one or more Medicaid or dual eligible programs and/or institute other sanctions and/or civil monetary penalties against the Company if it fails to comply with CMS or state regulations or contractual requirements.

The Company cannot predict whether pending or future federal or state legislation or court proceedings will change various aspects of the Medicaid program, nor can it predict the impact those changes will have on its business operations or results of operations, but the effects could be materially adverse.

State Workers' Compensation Laws - The Company's workers' compensation business includes the comparison of medical claims data against the applicable state's fee schedule pricing, including applicable regulations and clinical guidelines. State fee schedules, which typically represent the maximum reimbursement for medical services provided to the injured worker, differ by state and change as state laws and regulations are passed and/or amended. The Company's workers' compensation business also includes PBM and care management services, both of which are regulated at the state level. The Company's workers' compensation customers include insurance carriers and TPAs who also are regulated at the state level. The laws and regulations applicable to the Company and other participants in the workers' compensation business are extensive, complex and subject to change. The Company has invested significant resources to comply with these standards, and its workers' compensation compliance efforts will continue to require significant resources. The Company may be subject to significant fines, penalties and litigation if it fails to comply with those laws and regulations.

Federal and State Reporting - The Company is subject to extensive financial and business reporting requirements, including penalties for inaccuracies and/or omissions, at both the federal and state level. The Company's ability to comply with certain of these requirements depends on receipt of information from third parties that may not be readily available or reliably provided in all instances. The Company is and will continue to be required to modify its information systems, dedicate significant resources and incur significant expenses to comply with these requirements. However, the Company cannot eliminate the risks of unavailability of or errors in its reports.

Product Design and Administration and Sales Practices - State and/or federal regulatory scrutiny of health care benefit product design and administration and marketing and advertising practices, including the filing of insurance policy forms, the adequacy of provider networks, the accuracy of provider directories, and the adequacy of disclosure regarding products and their administration, is increasing as are the penalties being imposed for inappropriate practices. Medicare, Medicaid and dual eligible products and products offering more limited benefits in particular continue to attract increased regulatory scrutiny.

Guaranty Fund Assessments/Solvency Protection - Under guaranty fund laws existing in all states, insurers doing business in those states can be assessed (in most states up to prescribed limits) for certain obligations of insolvent insurance companies to policyholders and claimants. The life and health insurance guaranty associations in which the Company participates that operate under these laws respond to insolvencies of long-term care insurers as well as health insurers. The Company's assessments generally are based on a formula relating to its health care premiums in the state compared to the premiums of other insurers. Certain states allow assessments to be recovered over time as offsets to premium taxes. Some states have similar laws relating to HMOs and/or other payors such as not-for-profit consumer governed health plans established under the ACA. While historically the Company has ultimately recovered more than half of guaranty fund assessments through statutorily permitted premium tax offsets, significant increases in assessments could lead to legislative and/or regulatory actions that may limit future offsets.

Available Information

CVS Health Corporation was incorporated in Delaware in 1996. The corporate office is located at One CVS Drive, Woonsocket, Rhode Island 02895, telephone (401) 765-1500. The Company's common stock is listed on the New York Stock

Exchange under the trading symbol "CVS." General information about CVS Health is available through the Company's website at *http://www.cvshealth.com*. The Company's financial press releases and filings with the SEC are available free of charge within the Investors section of the Company's website at *http://www.cvshealth.com/investors*. In addition, the SEC maintains an internet site that contains reports, proxy and information statements and other information regarding issuers, such as the Company, that file electronically with the SEC. The address of that website is *http://www.sec.gov.* The information on or linked to the Company's website is neither a part of nor incorporated by reference in this Annual Report on Form 10-K or any of the Company's other SEC filings.

In accordance with guidance provided by the SEC regarding use by a company of its websites and social media channels as a means to disclose material information to investors and to comply with its disclosure obligations under Regulation FD, CVS Health Corporation (the "Registrant") hereby notifies investors, the media and other interested parties that it intends to continue to use its media and investor relations website (http://investors.cvshealth.com/) and its Twitter feed (@CVSHealthIR) to publish important information about the Registrant, including information that may be deemed material to investors. The list of social media channels that the Registrant uses may be updated on its media and investor relations website from time to time. The Registrant encourages investors, the media, and other interested parties to review the information the Registrant posts on its website and social media channels as described above, in addition to information announced by the Registrant through its SEC filings, press releases and public conference calls and webcasts.

Item 1A. Risk Factors

You should carefully consider each of the following risks and uncertainties and all of the other information set forth in this Annual Report on Form 10-K. These risks and uncertainties and other factors may affect forward-looking statements, including those we make in this Annual Report on Form 10-K or elsewhere, such as in news releases or investor or analyst calls, meetings or presentations. The risks and uncertainties described below are not the only ones we face. There can be no assurance that we have identified all the risks that affect us. Additional risks and uncertainties not presently known to us or that we currently believe to be immaterial also may adversely affect our businesses. Any of these risks or uncertainties could cause our actual results to differ materially from our expectations and the expected results discussed in our forward-looking statements. You should not consider past results to be an indication of future performance.

If any of the following risks or uncertainties develops into actual events or if the circumstances described in the risks or uncertainties occur or continue to occur, these events or circumstances could have a material adverse effect on our businesses, results of operations, cash flows and/or financial condition. In that case, our stock price could decline materially, among other effects on us. You should read the following section in conjunction with "Management's Discussion and Analysis of Financial Condition and Results of Operations" (which includes our "Cautionary Statement Concerning Forward-Looking Statements" at the end of such section) in the Annual Report, which is incorporated by reference herein, and our consolidated financial statements and the related notes.

Overarching Risks

Risks to our brand and reputation, the Aetna Acquisition, data governance risks, effectiveness of our talent management and alignment of talent to our business needs, and potential changes in public policy, laws and regulations present overarching risks to our enterprise in 2019 and beyond.

We expect to face significant business challenges and uncertainties in 2019. Risks to our brand and reputation, the Aetna Acquisition, data governance risks, effectiveness of our talent management and alignment of talent to our business needs, and potential changes in public policy, laws and regulations present overarching risks to our enterprise in 2019 and beyond. There can be no assurance regarding our ability to avoid harm to our brand and reputation, our ability to manage the risks inherent in the Aetna Acquisition or our data governance risks, our ability to manage and align our talent to our business needs or our ability to manage the risks presented by changes in public policy, laws or regulations. In addition, there can be no assurance that the Aetna Acquisition, United States government fiscal policy, changes to the United States health care system (including changes to the ACA, to drug reimbursement and/or drug pricing laws and regulations and/or to laws and regulations governing PBMs' interactions with government funded health care programs) or other unanticipated risks will not require us to revise the ways in which we conduct business, put us at risk of loss of business or materially adversely affect our businesses, cash flows, financial condition or results of operations.

Our brand and reputation are two of our most important assets; negative public perception of the industries in which we operate, or of our industries' or our practices, can adversely affect our businesses, results of operations, cash flows and prospects.

Reputational risk is inherent in many of the risks we face. The industries in which we operate regularly are negatively perceived by the public and subject to negative publicity, including as a result of adverse media coverage, litigation against us and other industry participants, the ongoing public debates over drug pricing, government involvement in drug pricing and purchasing, PBMs and the future of the ACA, governmental hearings and/or investigations and actual or perceived shortfalls regarding our industries' or our own products and/or business practices (including PBM operations, drug pricing, insurance coverage determinations and social media and other media relations activities). This risk may be increased as the federal government continues to consider increased involvement in drug reimbursement, pricing and/or purchasing and changes to the laws and regulations governing PBMs', PDPs' and/or Managed Medicaid organizations' interactions with government funded health care programs, and as states seek to maintain, replace or repeal elements of the ACA such as Public Exchanges and Medicaid expansion within increasingly challenging budget constraints. This risk also may be increased as we continue to offer products and services that make greater use of data and as our business model becomes more focused on delivering health care to consumers. Significant reductions or interruptions in funding for government health programs we serve also may lead us to reduce our exposure to these programs, which could adversely affect our brand and reputation.

Negative public perception and/or publicity of our industries in general, or of us or our key vendors, brokers or product distribution networks in particular, can further increase our costs of doing business and adversely affect our results of operations and our stock price by:

- Adversely affecting our brand and reputation;
- Adversely affecting our ability to market and sell our products and/or services and/or retain our existing customers and members;
- Requiring us to change our products and/or services;
- Reducing or restricting the compensation we can receive for our products and/or services; and/or
- Increasing or significantly changing the regulatory and legislative requirements with which we must comply.

Data governance failures can adversely affect our reputation, businesses and prospects. Our use and disclosure of members', customers' and other constituents' sensitive information is subject to complex regulations at multiple levels. We would be adversely affected if we or our business associates or other vendors fail to adequately protect members', customers' or other constituents' sensitive information.

Our information systems are critical to the operation of our businesses. We collect, process, maintain, retain, evaluate, utilize and distribute large amounts of personal health and financial information and other confidential and sensitive data about our customers, members and other constituents in the ordinary course of our businesses. Some of our information systems rely upon third party systems to accomplish these tasks. The use and disclosure of such information is regulated at the federal, state and international levels, and these laws, rules and regulations are subject to change and increased enforcement activity, such as the EU's GDPR which began to apply across the EU during 2018 and the audit program implemented by HHS under HIPAA. In some cases, such laws, rules and regulations also apply to our vendors and/or may hold us liable for any violations by our vendors. International laws, rules and regulations governing the use and disclosure of such information are generally more stringent than in the United States, and they vary from jurisdiction to jurisdiction. Noncompliance with any privacy or security laws or regulations, or any security breach, cyber-attack or cybersecurity breach, and any incident involving the theft, misappropriation, loss or other unauthorized disclosure of, or access to, sensitive or confidential member, customer or other constituent information, whether by us, by one of our vendors or by another third party, could require us to expend significant resources to remediate any damage, interrupt our operations and damage our brand and reputation, and could also result in investigations, regulatory enforcement actions, material fines and penalties, loss of customers, litigation or other actions which could have a material adverse effect on our brand, reputation, businesses, results of operations and cash flows.

Our businesses depend on our customers' and members' willingness to entrust us with their health related and other sensitive personal information. Events that adversely affect that trust, including inadequate disclosure to our members or customers of our uses of their information, failing to keep our information technology systems and our members', customers' and other constituents' sensitive information secure from significant attack, theft, damage, loss or unauthorized disclosure or access, whether as a result of our action or inaction or that of our business associates, vendors or other third parties, could adversely affect our brand and reputation, membership and results of operations and also can and/or has exposed us to mandatory disclosure to the media, litigation (including class action litigation), governmental investigations and enforcement proceedings,

material fines, penalties and/or remediation costs, and compensatory, special, punitive and statutory damages, consent orders, adverse actions against our licenses to do business and/or injunctive relief, any of which could adversely affect our businesses, cash flows, results of operations or financial condition. Large scale data breaches at other entities increase the challenge we and our vendors face in maintaining the security of our information technology systems and of our customers', members' and other constituents' sensitive information. There can be no assurance that additional such failures will not occur, or if any do occur, that we will detect them or that they can be sufficiently remediated.

We face significant competition in attracting and retaining talented employees. Further, managing succession for, and retention of, key executives is critical to our success, and our failure to do so could adversely affect our future performance.

Our ability to attract and retain qualified and experienced employees is essential to meet our current and future goals and objectives. There is no guarantee we will be able to attract and retain such employees or that competition among potential employers will not result in increased salaries or other benefits. If we are unable to retain existing employees or attract additional employees, or we experience an unexpected loss of leadership, we could experience a material adverse effect on our businesses and results of operations.

In addition, our failure to adequately plan for succession of senior management and other key management roles or the failure of key employees to successfully transition into new roles could have a material adverse effect on our businesses and results of operations. The succession plans we have in place and our employment arrangements with certain key executives do not guarantee the services of these executives will continue to be available to us.

We are subject to potential changes in public policy, laws and regulations, including reform of the United States health care system, that can adversely affect the markets for our products and services and our businesses, operations, results of operations, cash flows and prospects.

The political environment in which we operate remains uncertain. It is reasonably possible that our business operations and results of operations could be materially adversely affected by legislative, regulatory and public policy changes at the federal or state level, increased government involvement in drug reimbursement, pricing and/or purchasing, increased regulation of PBMs, changes to Medicare, Medicaid or the regulatory environment for health care benefits, including the ACA, changes to drug reimbursement and/or pricing laws and regulations, changes to the laws and regulations governing PBMs', PDPs' and/or Managed Medicaid organizations' interactions with government funded health care programs, changes to immigration policies and/or many other public policy initiatives. For example, in January 2019, HHS proposed regulations that would exclude from the current safe harbor under the federal anti-kickback statute manufacturer's rebates on prescription drugs paid to PBMs, PDPs and Managed Medicaid organizations in connection with federally funded health care programs. It is not possible to predict whether or when any such changes will occur or what form any such changes may take (including through the use of United States Presidential Executive Orders). Other significant changes to health care system legislation or regulation as well as changes with respect to tax and trade policies, tariffs and other government regulations affecting trade between the United States and other countries are also possible and could adversely affect us. If we fail to respond adequately to such changes, including by implementing strategic and operational initiatives, or do not do so as effectively as our competitors, our businesses, operations and results of operations may be materially adversely affected.

In addition to efforts to amend, repeal or replace the ACA and related regulations, we expect the federal and state governments to continue to enact and seriously consider many broad-based legislative and regulatory proposals that will or could materially impact various aspects of the health care and related benefits system and our businesses. Potential modification to the ACA, including changes in enforcement and/or funding that further destabilize the Public Exchanges, as well as significant changes to Medicaid funding could impact the number of Americans with health insurance and, consequently, prescription drug coverage. Further changes to federal health care laws, including the ACA, drug reimbursement and pricing laws and/or laws governing PBMs', PDPs' and/or Managed Medicaid organizations' interactions with government funded health care programs, are probable. We cannot predict the effect, if any, that new health care legislation, future changes to the ACA or the implementation or failure to implement the outstanding provisions of ACA, may have on our retail pharmacy, LTC pharmacy, specialty pharmacy, pharmacy services and/or Health Care Benefits operations and/or results of operations. The federal and many state governments also are considering

changes in the interpretation, enforcement and/or application of existing programs, laws and regulations, including changes to payments under and funding of Medicare and Medicaid programs.

In addition, much of the branded and generic drug product that we sell in our retail, mail and specialty pharmacies, and much of the other merchandise we sell, is manufactured in whole or in substantial part outside of the United States. In most cases, the products or merchandise are imported by others and sold to us. As a result, significant changes in tax or trade policies, tariffs or trade relations between the United States and other countries, such as the imposition of unilateral tariffs on imported products, could result in significant increases in our costs, restrict our access to suppliers, depress economic activity, and have a material

adverse effect on our businesses, cash flows and results of operations. In addition, other countries may change their business and trade policies and such changes, as well as any negative sentiments towards the United States in response to increased import tariffs and other changes in United States trade regulations, could adversely affect our businesses.

We cannot predict the enactment or content of new legislation and regulations or changes to existing laws or regulations or their enforcement, interpretation or application, or the effect they will have on our business operations or results of operations, which could be materially adverse. Even if we could predict such matters, it is not possible to eliminate the adverse impact of public policy changes that would fundamentally change the dynamics of one or more of the industries in which we operate. Examples of such change include: the federal or one or more state governments fundamentally restructuring or reducing the funding available for Medicare, Medicaid, dual eligible or dual eligible special needs plan programs, increasing its involvement in drug reimbursement, pricing and/or purchasing, changing the laws and regulations governing PBMs', PDPs' and/or Managed Medicaid organizations' interactions with government funded health care programs, changing the tax treatment of health or related benefits, or repealing or otherwise significantly altering the ACA. The likelihood of adverse changes remains high due to state and federal budgetary pressures, and our businesses and results of operations could be materially and adversely affected by such changes, even if we correctly predict their occurrence. For more information on these matters, see "Government Regulation" included in Item 1 of this Annual Report on Form 10-K.

Our enterprise strategy may not be an effective response to the changing dynamics in the industries in which we operate, or we may not be able to implement our strategy and related strategic projects.

Our strategy includes effectively investing our capital and human resources in appropriate strategic projects, current operations and acquisitions to transform our businesses in response to the changing dynamics in the industries in which we operate. Our strategic projects include, among other things: integrating the Aetna Acquisition; significant investments in human and technology resources to expand our consumer-oriented products and services; optimizing our business platforms; managing certain significant technology projects; further improving relations with manufacturers, suppliers and health care providers; negotiating contract changes with customers, manufacturers, suppliers and health care providers and implementing other business process improvements. Implementing our strategic initiatives will require significant investments of capital and human resources. Among other things, we will need to simultaneously acquire and develop new personnel, products and systems to serve existing and new customers with existing and new products and to enhance our existing customer service, information technology, control and compliance processes and systems. The future performance of our businesses will depend in large part on our ability to design and implement our strategic initiatives, some of which will occur over several years. If these initiatives do not achieve their objectives, our results of operations could be adversely affected.

Our enterprise strategy may not be an effective response to the changing dynamics in the industries in which we operate, and we may fail to recognize and position ourselves to capitalize upon market opportunities. We may not have sufficient advance notice and resources to develop and effectively implement an alternative strategy. If our existing competitors and/or new entrants (whether vertical, horizontal or online/digital/e-commerce) into one or more of our businesses create new disruptive business models and/or develop new offerings that customers, members and/or health care providers prefer to our offerings, we may lose customers, members and/or providers, and our results of operations, cash flows and/or prospects may be adversely affected. In addition, our results of operations, cash flows and/or prospects may be adversely affected by consolidation among the participants in the industries in which we operate and/or our customer base. Our businesses and results of operations could be materially and adversely affected by such changes, even if we correctly predict their occurrence.

Risks Related to Our Businesses

Efforts to reduce reimbursement levels and alter health care financing practices could adversely affect our businesses.

The continued efforts of HMOs, MCOs, PBMs, government entities, and other third party payors to reduce prescription drug costs and pharmacy reimbursement rates, as well as litigation and other legal proceedings relating to how drugs are priced, may adversely affect our profitability. In particular, increased utilization of generic drugs (which normally yield a higher gross profit rate than equivalent brand named drugs) has resulted in pressure to decrease reimbursement payments to retail, specialty, LTC and mail order pharmacies for generic drugs, causing a reduction in our margins on sales of

generic drugs. Historically, the effect of this trend on generic profitability has been mitigated by the introduction of new multi-source generic drugs as well as inflation on brand name drugs and by our efforts to negotiate reduced acquisition costs of generic drugs with manufacturers. However, in recent years, there has been significant consolidation within the generic manufacturing industry and in 2019 we expect fewer new multi-source generic drugs to be introduced and lower brand name drug inflation than in recent prior years, and it is possible that these and other external factors may enhance the ability of manufacturers to sustain or increase pricing of generic drugs and diminish our ability to negotiate reduced acquisition costs. Any inability to offset increased brand name or

generic prescription drug costs or to modify our activities to lessen the financial impact of such increased costs could have a significant adverse effect on our results of operations.

In addition, during the past several years, the United States health care industry has been subject to an increase in governmental regulation and audits at both the federal and state levels. Efforts to control health care costs, including prescription drug costs, are continuing at the federal and state government levels. Changing political, economic and regulatory influences may significantly affect health care financing and reimbursement practices. For example, we anticipate that federal and state governments will continue to review and assess alternative health care delivery systems, payment methodologies and operational requirements for health care providers, including LTC facilities and pharmacies, and participants in government funded health care programs. A change in the composition of pharmacy prescription volume toward programs offering lower reimbursement rates could adversely affect our profitability. Any action taken to repeal or replace all or significant parts of ACA also could adversely affect our profitability, though it is unclear at this time what the full effects of any such changes would be.

The ACA made several significant changes to Medicaid rebates and to reimbursement rates. One of these changes was to revise the definition of the Average Manufacturer Price, a pricing element common to most payment formulas, and the reimbursement formula for generic drugs. This change has adversely affected the reimbursements we receive when we dispense prescription drugs to Medicaid recipients. In addition, the ACA made other changes that affect the coverage and plan designs that are or will be provided by many of our health plan clients, including the requirement for health insurers to meet a minimum MLR to avoid having to pay rebates to enrollees. These ACA changes may not affect our businesses directly, but they could indirectly impact our services, business practices and/or results of operations.

Gross margins in the industries in which we operate may decline.

The PBM industry has been experiencing margin pressure as a result of competitive pressures and increased client demands for lower prices, increased revenue sharing, enhanced service offerings and/or higher service levels. In that regard, we maintain contractual relationships with generic drug manufacturers and brand name drug manufacturers that provide for purchase discounts and/or rebates on drugs dispensed by pharmacies in our retail network and by our specialty and mail order pharmacies (all or a portion of which may be passed on to clients). Manufacturer's rebates often depend on a PBM's ability to meet contractual market share or other requirements, including in some cases the placement of a manufacturer's products on the PBM's formularies. If we lose our relationship with one or more drug manufacturers, or if the discounts or rebates provided by drug manufacturers decline, our businesses and results of operations could be adversely affected. Further, competitive pressures in the PBM industry have resulted in our clients sharing in a larger portion of rebates and/or discounts received from drug manufacturers. Marketplace dynamics and regulatory changes also have impacted our ability to offer plan sponsors pricing that includes the use of retail "differential" or "spread", which could adversely affect our future profitability, and we expect these trends to continue. Further, changes in existing federal or state laws or regulations or the adoption of new laws or regulations relating to additional regulation of PBMs, drug pricing or purchasing, patent term extensions, purchase discount and/or rebate arrangements with drug manufacturers, or additional regulation of PBMs, formulary management or other PBM services could also reduce the discounts or rebates we receive. In addition, changes in federal or state laws or regulations or the adoption of new laws or regulations relating to claims processing and billing, including our ability to use MAC lists and collect transmission fees, could adversely affect our profitability.

Our retail pharmacy, specialty pharmacy and LTC pharmacy operations also have been affected by the margin pressures described above, including client demands for lower prices, generic pricing and network reimbursement pressure. In addition, as competition increases in the geographies in which we operate, including competition from new entrants, a significant increase in general pricing pressures could occur, and this could require us to reevaluate our pricing structures to remain competitive. A shift in the mix of our pharmacy prescription volume towards programs offering lower reimbursement rates could adversely affect our margins, including the ongoing shift in pharmacy mix towards 90-day prescriptions at retail and the ongoing shift in pharmacy mix towards Medicare Part D prescriptions. Finally, the margins of our LTC business are further affected by the increased efforts of health care payors to negotiate reduced or capitated pricing arrangements. These actions could also adversely affect the margins of our LTC business.

Our results of operations are affected by the health of the economy in general and in the geographies we serve.

Our businesses are affected by the United States economy and consumer confidence in general and in the geographies we serve, including various economic factors, inflation and changes in consumer purchasing power, preferences and/or spending patterns. It is possible that an unfavorable, uncertain or volatile economic environment will cause a decline in drug utilization, an increase in health care utilization and dampen demand for PBM services as well as consumer demand for products sold in our retail stores. Further, economic conditions including interest rate fluctuations, changes in capital market conditions and

regulatory changes may affect our ability to obtain necessary financing on acceptable terms, our ability to secure suitable store locations under acceptable terms and our ability to execute sale-leaseback transactions under acceptable terms. Adverse changes in the United States economy, consumer confidence and economic conditions could have an adverse effect on our businesses and financial results. This adverse effect could be further exacerbated by the increasing prevalence of high deductible health plans and health plan designs favoring co-insurance over co-payments as members and other consumers may decide to postpone, or not to seek, medical treatment which may lead them to incur more expensive medical treatment in the future and/or decrease our prescription volumes.

In addition, our Health Care Benefits membership remains concentrated in certain geographic areas in the United States and in certain industries. Unfavorable changes in health care or other benefit costs or reimbursement rates or increased competition in those geographic areas where our membership is concentrated could therefore have a disproportionately adverse effect on our Health Care Benefits results of operations. Our Health Care Benefits membership has been and may continue to be affected by workforce reductions by our customers due to adverse and/or uncertain general economic conditions, especially in the United States geographies and industries where our membership is concentrated. As a result, we may not be able to profitably grow and diversify our Health Care Benefits membership geographically, by product type or by customer industry, and our revenue and results of operations may be disproportionately affected by adverse changes affecting our customers.

We operate in a highly competitive business environment. Competitive and economic pressures may limit our ability to increase pricing to reflect higher costs or may force us to accept lower margins. If customers elect to self-insure, reduce benefits or adversely renegotiate or amend their agreements with us, our revenues and results of operations will be adversely affected. We may not be able to obtain appropriate pricing on new or renewal business.

Each of our businesses currently operates in a highly competitive and evolving business environment. We must compete successfully with existing competitors and new entrants, including strategic alliances and online, digital and e-commerce companies.

The competitive success of our retail pharmacy business, as well as our specialty pharmacy operations with third-party payors, is dependent on our ability to establish and maintain contractual relationships with PBMs and other payors on acceptable terms in an environment where some PBM clients are considering adopting narrow or restricted retail pharmacy networks. As a pharmacy retail business, we compete with other drugstore chains, supermarkets, online and other discount retailers, independent pharmacies, membership clubs, convenience stores and mass merchants, some of which are aggressively expanding into markets we serve. We also face competition from other retail health care clinics, as well as other mail order pharmacies and PBMs. Disruptive innovation by existing or new competitors could alter the competitive landscape in the future and require us to accurately identify and assess such changes and make timely and effective changes to our strategies and business model to compete effectively. Competition may also come from other sources in the future. Changes in market dynamics or the actions of competitors or manufacturers, including industry consolidation, the emergence of new competitors and strategic alliances, and decisions to exclude us from new narrow or restricted retail pharmacy networks, could materially and adversely affect our businesses, results of operations, cash flows and prospects.

We also could be adversely affected if we fail to identify or effectively respond to changes in market dynamics. For example, specialty pharmacy represents a significant and growing proportion of prescription drug spending in the United States, a significant portion of which is dispensed outside of traditional retail pharmacies. Because our specialty pharmacy operations focus on complex and high-cost medications that serve a relatively limited universe of patients, the future growth of this business depends to a significant extent upon expanding our ability to access key drugs and successfully penetrate key treatment categories.

The competitive success of our LTC pharmacy operations is dependent upon our ability to compete in each geographic region where we have operations. In the geographic regions we serve, we compete with PharMerica, our largest LTC pharmacy competitor, as well as with numerous local and regional institutional pharmacies, pharmacies owned by long-term care facilities and local retail pharmacies. Our LTC pharmacy customers consist of skilled nursing facilities, assisted living facilities, independent living communities, hospitals, correctional facilities, and other health care service providers. One of our growth opportunities is to increase our penetration rate in the assisted living segment, where residents can choose which pharmacy will provide them with prescription drugs. The ability of a resident of an assisted living facility to

select the pharmacy that supplies him or her with prescription drugs could adversely affect our business, financial condition and results of operations because there can be no assurance that such resident will select us.

The competitive success of our pharmacy services business is impacted by its ability to establish and maintain contractual relationships with network pharmacies in an environment where some PBM clients are considering adopting narrow or restricted retail pharmacy networks. Competitors in the PBM industry (e.g., the Express Scripts business of Cigna Corporation,

OptumRx, Prime Therapeutics, MedImpact and Humana), include large, national PBM companies, PBMs owned by large national health plans and smaller standalone PBMs. Competition also may come from other sources in the future. In addition, changes in the overall composition of our pharmacy networks, or reduced pharmacy access under our networks, could adversely affect our claims volume and/or our competitiveness generally.

Customer contracts in our Health Care Benefits segment are generally for a period of one year, and our customers have considerable flexibility in moving between us and our competitors. One of the key factors on which we compete for customers, especially in uncertain economic environments, is overall cost. We are therefore under pressure to contain premium price increases despite being faced with increasing health care and other benefit costs and increasing operating costs. If we are unable to increase our prices to reflect increasing costs, our profitability will be adversely affected. If we are unable to limit our price increases, we may lose members to competitors with more favorable pricing, adversely affecting our revenues and results of operations. In response to rising prices, our customers may elect to self-insure or to reduce benefits in order to limit increases in their benefit costs. Alternatively, our customers may purchase different types of products from us that are less profitable. Such elections may result in reduced membership in our more profitable Insured products and/or lower premiums for our Insured products, which may adversely affect our revenues and results of operations, although such elections also may reduce our health care and other benefit costs. In addition, our Medicare, Medicaid and CHIP products are subject to termination without cause, periodic re-bid, rate adjustment and program redesign, as customers seek to contain their benefit costs, particularly in an uncertain economy. These actions may adversely affect our membership, revenues and results of operations

Competitors in each of our businesses may offer services and pricing terms that we may not be willing or able to offer. For example, strong competition in the PBM marketplace has generated greater client demand for lower pricing, increased revenue sharing and enhanced product and service offerings. Unless we can demonstrate enhanced value to our clients through innovative product and service offerings, particularly in a rapidly changing health care industry, we may be unable to remain competitive.

We may lose clients and/or fail to win new business. If we fail to compete effectively in the geographies and product areas in which we operate, including maintaining or increasing membership in our Health Care Benefits segment, our results of operations, financial condition and cash flows could be materially and adversely affected.

Our PBM business generates revenues primarily by contracting with clients to provide prescription drugs and related health care services to plan members. PBM client contracts often have terms of approximately three years in duration, so approximately one third of a PBM's client base typically is subject to renewal each year. In some cases, however, PBM clients may negotiate a shorter or longer contract term or may require early or periodic renegotiation of pricing prior to expiration of a contract. Our clients are generally well informed and organized, can move between our competitors and often seek competing bids prior to expiration of their contracts. In addition, the reputational impact of a service-related incident could adversely affect our businesses. These factors, together with the impact of competitive pressures, could make it difficult for us to attract new clients, retain existing clients and cross-sell additional products and/or services. Further, the PBM industry has been affected by consolidation activity that may continue in the future. If one or more of our PBM clients is acquired by an entity that is not also our client, we may be unable to retain all or a portion of the acquired client's business. These circumstances, either individually or in the aggregate, could result in an adverse effect on our businesses and financial results. Therefore, we continually face challenges in competing for new PBM business and retaining or renewing our existing PBM business. With respect to our LTC pharmacy business, reimbursement from skilled nursing facilities for prescriptions we dispense is determined pursuant to our agreements with those skilled nursing facilities. The termination of these agreements generally terminates our ability to provide services to any of the residents of that facility, resulting in the loss of revenue from any source for those residents. There can be no assurance that we will be able to win new business or secure renewal business on terms as favorable to us as the present terms.

Additionally, with respect to our retail and LTC pharmacy businesses, reimbursement under Medicare Part D, as well as reimbursement from certain private third-party payors, is determined pursuant to agreements that we negotiate with those payors or their PBM representatives. The loss of those agreements, or a material change in the terms of those agreements, could adversely affect our results of operations and cash flows. In addition, restricted networks that exclude our retail or specialty pharmacies adversely affect those businesses.

The health care and related benefits industry is highly competitive, primarily due to a large number of for-profit and not-for-profit competitors, our competitors' marketing and pricing, and a proliferation of competing products, including new products that are continually being introduced into the marketplace. Our Health Care Benefits segment faces significant competition in all of the geographies and product areas in which it operates. New entrants into the marketplace, as well as consolidation within the industry, have contributed to and are expected to intensify the competitive environment. In addition, the rapid pace of change as the industry evolves towards a consumer-focused retail marketplace, including Insurance Exchanges, and the

increased use of technology to interact with members, providers and customers, increase the risks we currently face from new entrants and disruptive actions by existing competitors compared to prior periods.

Our Health Care Benefits segment competes on the basis of many factors, including perceived overall quality, quality of service, comprehensiveness of coverage, cost (including premium, provider discounts and member out-of-pocket costs), product design, financial stability and ratings, breadth and quality of provider networks, providers available in such networks, and quality of member support and care management programs. Our Health Care Benefits segment's competitors include, among others, UnitedHealth Group Incorporated, Anthem, Inc., Humana Inc., Cigna Corporation, WellCare Health Plans, Inc., Centene Corporation, Molina Healthcare, Inc., Kaiser Permanente, health system owned health plans and new entrants into the marketplace, and numerous for-profit and not-for-profit organizations operating under licenses from the Blue Cross and Blue Shield Association. The Health Care Benefits segment's largest competitor in its Medicare products is Original Medicare. Additional competitors in this segment's businesses include other types of medical and dental provider organizations, various specialty service providers (including PBM services providers), health care consultants, financial services companies, integrated health care delivery organizations (networks of providers who also coordinate administrative services for and assume insurance risk of their members), TPAs, HIT companies and, for certain plans, programs sponsored by the federal or state governments. Emerging competitors include start up health care benefit plans, provider-owned health plans, new joint ventures (including for-profit and not-for-profit joint ventures among firms from multiple industries), technology firms, financial services firms that are distributing competing products on their proprietary Private Exchanges, consulting firms that are distributing competing products on their proprietary Private Exchanges, as well as non-traditional distributors such as retail companies. In particular geographies, competitors may have greater capabilities, resources or membership; a more established reputation; superior supplier or health care professional pricing and contract terms; better business relationships; or other factors that give such competitors a competitive advantage. The Health Care Benefits segment competes for sales on Insurance Exchanges and is developing and expanding its Consumer Health Products and Services product and service offerings, where we face additional risks from existing and new competitors (including our vendors) who have lower cost structures, greater experience marketing to consumers and/or who target the higher margin portions of our business. Among the Health Care Benefits segment's international and HIT competitors, many have longer operating histories, better brand recognition and greater market presence in many of the areas in which the segment is seeking to expand and more experience at rapidly innovating products.

There can be no assurance that the Aetna Acquisition will not adversely affect any of our segments' respective abilities to attract new clients or retain existing clients or our ability to cross-sell additional products and/or services within any segment or between segments. If we do not compete effectively in the geographies and product areas in which we operate, our businesses, results of operations, financial condition and cash flows could be materially and adversely affected.

We are exposed to risks relating to the solvency of our customers and of other insurers.

If our customers' operating and financial performance deteriorates, or they are unable to make scheduled payments or obtain adequate financing, our customers may not be able to pay timely, or may delay payment of, amounts owed to us. Any inability of our customers to pay us for our products and services may adversely affect our businesses, financial condition and results of operations. In addition, both state and federal government sponsored payers, as a result of budget deficits or reductions, may suspend payments or seek to reduce their healthcare expenditures resulting in our customers delaying payments to us or renegotiating their contracts with us. Any delay or reduction in payments by such government sponsored payers may adversely affect our businesses, financial condition and results of operations.

We are subject to assessments under guaranty fund laws for obligations of insolvent insurance companies (such as the discounted estimated liability expense of $231 million pretax for our estimated share of future assessments for Penn Treaty Network America Insurance Company and one of its subsidiaries that Aetna recorded in the first quarter of 2017), HMOs, ACA co−ops and other payors to policyholders and claimants.

We face risks relating to the market availability, pricing, suppliers and safety profiles of prescription drugs that we purchase and sell.

We dispense significant volumes of brand-name and generic drugs from our retail, LTC, specialty and mail order pharmacies and through our PBM's network of retail pharmacies. When increased safety risk profiles or manufacturing or

other supply issues of specific drugs or classes of drugs occur, or drugs become subject to greater restrictions as controlled substances, physicians may cease writing prescriptions for these drugs or the utilization of these drugs may be otherwise reduced.

Additionally, adverse publicity regarding drugs with higher safety risk profiles may result in reduced consumer demand for such drugs. On occasion, products are withdrawn by their manufacturers or transition to over-the-counter products, which can

result in lower prescription utilization. In addition, future FDA rulings could restrict the supply or increase the cost of products sold to our customers. Our results of operations and cash flows may decline as a result of such regulatory rulings or market changes.

Further, we acquire a substantial amount of our mail and specialty pharmacies' prescription drug supply from a limited number of suppliers. Our agreements with these suppliers are often short-term and easily cancelable by either party without cause. In addition, these agreements may limit our ability to provide services for competing drugs during the term of the agreement and may allow the supplier to distribute through channels other than us. Certain of these agreements also allow pricing and other terms to be adjusted periodically for changing market conditions or required service levels. A termination or modification to any of these relationships could have a material adverse effect on our businesses, financial condition and results of operations. Moreover, many products distributed by our specialty pharmacy business are manufactured with ingredients that are susceptible to supply shortages. In some cases, we depend upon a single source of supply. Any such supply shortages or loss of any such single source of supply could adversely affect our results of operations and cash flows.

In addition, our suppliers are independent entities subject to their own operational and financial risks that are outside our control. If our current suppliers were to stop selling prescription drugs to us or delay delivery, including as a result of supply shortages, supplier production disruptions, supplier quality issues, closing or bankruptcies of our suppliers, or for other reasons, we may be unable to procure alternatives from other suppliers in a timely and efficient manner and on acceptable terms, or at all.

A disruption in our business operations could occur as a result of contamination of drugs, a failure to maintain necessary shipment and storage conditions, errors in mail order processing, the unavailability of prescription drugs provided by suppliers, labor disruptions or other unanticipated disruptions at our mail order dispensing pharmacy facilities, specialty pharmacy facilities, call centers, data centers or corporate facilities, among other factors. Such disruption could reduce our ability to process and dispense prescriptions and provide products and services to our customers.

If any products we distribute are in limited supply for significant periods of time, our financial condition and results of operations could be materially and adversely affected.

We face risks related to the frequency and rate of the introduction and pricing of generic drugs and brand name prescription drug products.

The profitability of our Retail/LTC and Pharmacy Services segments is dependent upon the utilization of prescription drug products. Utilization trends are affected by, among other factors, the introduction of new and successful prescription drugs as well as lower-priced generic alternatives to existing brand name products because we generally earn higher gross margins on the sale of generic alternatives than on brand name equivalents. In addition, inflation in the price of brand name drugs can affect utilization, particularly given the increase in high deductible health plans. Accordingly, our businesses and results of operations could be adversely affected by a slowdown or delay in the number or magnitude of new and successful prescription drugs and/or generic alternatives, as well as inflation in the price of brand name drugs. For example, we project that the operating income of our Pharmacy Services and Retail/LTC segments may be reduced in 2019 compared to 2018 due in part to fewer new multi-source generic drugs being introduced and lower brand name drug price inflation in 2019 than 2018.

Possible changes in industry pricing benchmarks and drug pricing generally can adversely affect our PBM business.

It is possible that the pharmaceutical industry or regulators may evaluate and/or develop an alternative pricing reference to replace AWP or Wholesale Acquisition Cost ("WAC"), which are the pricing references used for many of our PBM and LTC client contracts, drug purchase agreements, retail network contracts, specialty payor agreements and other contracts with third party payors in connection with the reimbursement of drug payments. In addition, many state Medicaid fee-for-service programs ("FFS Medicaid") have established pharmacy network payments on the basis of Actual Acquisition Cost ("AAC"). The use of an AAC basis in FFS Medicaid could have an impact on reimbursement practices in other commercial and government products. Future changes to the use of AWP, WAC or to other published pricing benchmarks used to establish drug pricing, including changes in the basis for calculating reimbursement by federal and state health programs and/or other payors, could impact the reimbursement we receive from Medicare and Medicaid programs, the

reimbursement we receive from our PBM clients and other payors and/or our ability to negotiate rebates and/or discounts with drug manufacturers, wholesalers, PBMs and retail pharmacies. A failure or inability to fully offset any increased prices or costs or to modify our operations to mitigate the impact of such increases could have a material adverse effect on our results of operations. Additionally, any future changes in drug prices could be significantly different than our projections. The effect of these possible changes on our businesses cannot be predicted at this time.

Product liability, product recall or personal injury issues could damage our reputation.

The products that we sell could become subject to contamination, product tampering, mislabeling, recall or other damage. In addition, errors in the dispensing and packaging of drugs and consuming drugs in a manner that is not prescribed could lead to serious injury or death. Product liability or personal injury claims may be asserted against us with respect to any of the drugs or other products we sell or services we provide. For example, we are a defendant in litigation proceedings relating to opioids and the sale of products containing talc. Our businesses involve the provision of professional services, including by pharmacists, physician assistants, nurses and nurse practitioners, that exposes us to professional liability claims. Should a product or other liability issue arise, the coverage limits under our insurance programs and the indemnification amounts available to us may not be adequate to protect us against claims. We also may not be able to maintain our existing levels of insurance on acceptable terms in the future. Damage to our reputation in the event of a product liability or personal injury issue or judgment against us or a product recall could have a significant adverse effect on our businesses, financial condition and results of operations.

We face challenges in growing our Medicare Advantage and Medicare Part D membership.

We are seeking to substantially grow our Medicare Advantage and Medicare Part D membership, revenue and results of operations in 2019 and over the next several years, including by significantly expanding our Medicare Advantage service area. The organic expansion of our Medicare Advantage service area is subject to the ability of CMS to process our requests for service area expansions and our ability to build cost competitive provider networks in the expanded service areas that meet applicable network adequacy requirements. CMS' decisions on our requests for service area expansions also may be affected adversely by compliance issues that arise each year in our Medicare operations. If we are not successful in expanding our Medicare Advantage service area, we may not be able to achieve our Medicare Advantage growth goals.

We face challenges in growing our Medicaid membership, and expanding our Medicaid membership exposes us to additional risks.

We are seeking to substantially grow our Medicaid, dual eligible and dual eligible special needs plan membership over the next several years. In many instances, to acquire and retain our government customers' business, we must bid against our competitors in a highly competitive environment. Winning bids often are challenged successfully by unsuccessful bidders. Our ability to maintain and grow membership, revenues and results of operations in our Medicaid products is dependent on our remaining competitive on price, performance and preparing successful bids. In cases where a successful bid is challenged, we incur defense costs and may incur unreimbursed implementation and other costs to meet contractual deadlines even if we ultimately lose the challenge.

If we are successful in expanding our Medicaid membership, we may increase our exposure to states that face budgetary pressures, hospitals and other providers that face revenue challenges associated with uncompensated care and pressures on our operating margins driven by the projected rapid growth in the size of and cost of care for the Medicaid eligible population.

A change in our Health Care Benefits product mix may adversely affect our profit margins.

Our Insured Health Care Benefits products that involve greater potential risk generally tend to be more profitable than our ASC products. Historically, smaller employer groups have been more likely to purchase Insured Health Care Benefits products because such purchasers are generally unable or unwilling to bear greater liability for health care expenditures, although recently even relatively small employers have moved to ASC products. We also serve government-sponsored programs, including Medicare and Medicaid, that are subject to competitive bids and regulatory requirements and have lower profit margins than the Insured Commercial products in our Health Care Benefits segment. Although our Health Care Benefits membership is projected to continue to shift towards Government products in 2019, the profitability of each of those products differs and may be less than the profitability of an Insured Commercial product. A shift of enrollees from more profitable products to less profitable products could have a material adverse effect on our results of operations.

We may not be able to accurately forecast health care and other benefit costs, which could adversely affect our Health Care Benefits segment's results of operations. There can be no assurance that the future health care and other benefit costs of our Insured Health Care Benefits products will not exceed our projections.

Premiums for our Insured Health Care Benefits products, which comprised 87% of our Health Care Benefits revenues for 2018, are priced in advance based on our forecasts of health care and other benefit costs during a fixed premium period, which is generally one year. These forecasts are typically developed several months before the fixed premium period begins, are influenced by historical data (and recent historical data in particular), are dependent on our ability to anticipate and detect medical cost trends and changes in our members' behavior and healthcare utilization patterns and require a significant degree of

judgment. For example, our revenue on Medicare policies is based on bids submitted in June of the year before the contract year. Cost increases in excess of our projections cannot be recovered in the fixed premium period through higher premiums. As a result, our profits are particularly sensitive to the accuracy of our forecasts and our ability to anticipate and detect medical cost trends. Even relatively small differences between predicted and actual health care and other benefit costs as a percentage of premium revenues can result in significant adverse changes in our results of operations.

Our health care and other benefit costs can be affected by external events that we cannot forecast or anticipate and over which we have little or no control, such as emerging changes in the economy and/or public policy, additional government mandated benefits or other regulatory changes, changes in our members' behavior and healthcare utilization patterns, changes in health care practices, new technologies, increases in the cost of prescription drugs, influenza related health care costs (which may be substantial and were higher than Aetna projected in 2017-2018), direct-to-consumer marketing by drug manufacturers, clusters of high cost cases, epidemics, pandemics, terrorist attacks or other man-made disasters, natural disasters or other events that materially increase utilization of medical and/or other covered services, including prescription drugs, as well as changes in provider billing practices. Our health care and other benefit costs also can be affected by changes in our business mix, product designs, contracts with providers, medical management, underwriting, rating and/or claims processing methods and processes, and our medical management initiatives may not deliver the reduction in utilization and/or medical cost trend that we project.

It is particularly difficult to accurately anticipate, detect, price, forecast, manage and reserve for medical cost trends and utilization of medical and/or other covered services during and following periods when such utilization and/or trends are below recent historical levels, during periods of changing economic conditions and employment levels and for products with substantial membership growth and/or turnover. For example, as of December 31, 2018, we held a premium deficiency reserve of $16 million for the 2019 coverage year related to our Medicaid products. We expect utilization to increase in 2019 when compared to 2018.

If health care and other benefit costs are higher than the levels reflected in our pricing or if we are not able to obtain appropriate pricing on new or renewal business, our prices will not reflect the risk we assume, and our results of operations will be adversely affected. If health care and other benefit costs are lower than we predict, our prices may be higher than those of our competitors, which may cause us to lose Health Care Benefits membership.

A number of factors, many of which are beyond our control, contribute to rising health care and other benefit costs. If we are unable to satisfactorily manage our health care and other benefit costs, our Health Care Benefits segment's results of operations and competitiveness will be adversely affected.

A number of factors contribute to rising health care and other benefit costs, including previously uninsured members entering the health care system, changes in members' behavior and healthcare utilization patterns, turnover in our membership, additional government mandated benefits or other regulatory changes, changes in the health status of our members, the aging of the population and other changing demographic characteristics, advances in medical technology, increases in the number and cost of prescription drugs (including specialty pharmacy drugs), direct-to-consumer marketing by drug manufacturers, the increasing influence of social media on our members' utilization and other behavior, changes in health care practices and inflation. In addition, government-imposed limitations on Medicare and Medicaid reimbursements to health plans and providers have caused the private sector to bear a greater share of increasing health care and other benefits costs over time, and future amendments or repeal or replacement of the ACA that increase the uninsured population may exacerbate this problem. Other factors that affect our health care and other benefit costs include changes as a result of the ACA, changes to the ACA and other changes in the regulatory environment, the evolution toward a consumer driven business model, changes in health care practices, general economic conditions (such as inflation and employment levels), new technologies, influenza related health care costs (which may be substantial and were higher than Aetna projected in 2017-2018), clusters of high-cost cases, epidemics or pandemics, health care provider and member fraud, and numerous other factors that are or may be beyond our control.

Our Health Care Benefits segment's results of operations and competitiveness depend in large part on our ability to appropriately manage future health care and other benefit costs through underwriting criteria, product design, provider network configuration, negotiation of favorable provider contracts and medical management programs. Our medical cost management programs may not be successful and may have a smaller impact on health care and benefit costs than we

expect. The factors described above may adversely affect our ability to predict and manage health care and other benefit costs, which can adversely affect our competitiveness and results of operations.

The reserves we hold for expected claims in our Insured Health Care Benefits products are based on estimates that involve an extensive degree of judgment and are inherently variable. Any reserve, including a premium deficiency reserve, may be

insufficient. If actual claims exceed our estimates, our results of operations could be materially adversely affected, and our ability to take timely corrective actions to limit future costs may be limited.

A large portion of health care claims are not submitted to us until after the end of the quarter in which services are rendered by providers to our members. Our reported health care costs payable for any particular period reflect our estimates of the ultimate cost of such claims as well as claims that have been reported to us but not yet paid. We also must estimate the amount of rebates payable under the ACA's, CMS's and OPM's minimum MLR rules and the amounts payable by us to, and receivable by us from, the United States federal government under the ACA's remaining premium stabilization program.

Our estimates of health care costs payable are based on a number of factors, including those derived from historical claim experience, but this estimation process also makes use of extensive judgment. Considerable variability is inherent in such estimates, and the accuracy of the estimates is highly sensitive to changes in medical claims submission and processing patterns and/or procedures, turnover and other changes in membership, changes in product mix, changes in the utilization of medical and/or other covered services, including prescription drugs, changes in medical cost trends, changes in our medical management practices and the introduction of new benefits and products. We estimate health care costs payable periodically, and any resulting adjustments, including premium deficiency reserves, are reflected in current-period results of operations within benefit costs. For example, as of December 31, 2018, we held a premium deficiency reserve of $16 million for the 2019 coverage year related to our Medicaid products. A worsening (or improvement) of health care cost trend rates or changes in claim payment patterns from those that we assumed in estimating health care costs payable as of December 31, 2018 would cause these estimates to change in the near term, and such a change could be material.

Furthermore, if we are not able to accurately and promptly anticipate and detect medical cost trends or accurately estimate the cost of incurred but not yet reported claims or reported claims that have not been paid, our ability to take timely corrective actions to limit future costs and reflect our current benefit cost experience in our pricing process may be limited, which would further exacerbate the extent of any adverse impact on our results of operations. These risks are particularly acute during and following periods when utilization of medical and/or other covered services and/or medical cost trends are below recent historical levels and in products where there is significant turnover in our membership each year, and such risks are further magnified by the ACA and other legislation and regulations that limit our ability to price for our projected and/or experienced increases in utilization and/or medical cost trends.

Extreme events, or the threat of extreme events, could materially increase our health care (including behavioral health) costs. We cannot predict whether or when any such events will occur.

Nuclear, biological or other attacks, whether as a result of war or terrorism, other man-made disasters, natural disasters, epidemics, pandemics and other extreme events can affect the United States economy in general, our industries and us specifically. In particular, such extreme events or the threat of such extreme events could result in significant health care (including behavioral health) costs, which would also be affected by the government's actions and the responsiveness of public health agencies and other insurers. In addition, our employees and those of our vendors are concentrated in certain large, metropolitan areas which may be particularly exposed to these events. Such events could adversely affect our businesses, cash flows and results of operations, and, in the event of extreme circumstances, our financial condition or viability, particularly if our responses to such events are less adequate than those of our competitors.

Changes in Public Policy and Other Legal and Regulatory Risks

Legislative and regulatory changes could create significant challenges to our Medicare Advantage and Medicare Part D revenues and results of operations, and proposed changes to these programs could create significant additional challenges. Entitlement program reform, if it occurs, could have a material adverse effect on our businesses, operations and/or results of operations.

Medicare Advantage payment rates to health plans have been cut over the last several years, with additional reductions to be phased in through 2019. CMS issued the Final Notice in April 2018. Overall, we project the benchmark rates in the Final Notice will increase funding for our Medicare Advantage business, excluding the impact of coding trend, by approximately 2.5 percent in 2019 compared to 2018. This 2019 rate increase only slightly offsets the challenge we face from the impact of the increasing cost of medical care (including prescription medications), the HIF and CMS local and

national coverage decisions that require us to pay for services and supplies that are not factored into our bids and creates continued pressure on the Medicare Advantage program and our Medicare Advantage results of operations. We cannot predict future Medicare funding levels, the impact of future federal budget actions or ensure that such changes or actions will not have an adverse effect on our Medicare results of operations.

In addition, the "star ratings" from CMS for our Medicare Advantage plans will continue to have a significant effect on our plans' results of operations. Since 2015, only Medicare Advantage plans with a star rating of four or higher (out of five) are eligible for a quality bonus in their basic premium rates. CMS continues to change its rating system to make achieving and maintaining a four or higher star rating more difficult. Our star ratings and past performance scores are adversely affected by the compliance issues that arise each year in our Medicare operations. If our star ratings fall below 4 for a significant portion of our Medicare Advantage membership or do not match the performance of our competitors or the star rating quality bonuses are reduced or eliminated, our revenues and results of operations may be significantly adversely affected.

Payments we receive from CMS for our Medicare Advantage and Part D businesses also are subject to risk adjustment based on the health status of the individuals we enroll. Elements of that risk adjustment mechanism continue to be challenged by the DOJ, the OIG and CMS itself. Substantial changes in the risk adjustment mechanism, including changes that result from enforcement or audit actions, could materially affect the fairness of our Medicare reimbursement, require us to raise prices or reduce the benefits we offer to Medicare beneficiaries, and potentially limit our (and the industry's) participation in the Medicare program.

Medicare Part D has resulted in increased utilization of prescription medications and puts pressure on our pharmacy gross margin rates due to regulatory and competitive pressures. Further, as a result of the ACA and changes to the retiree drug subsidy rules, clients of our PBM could decide to discontinue providing prescription drug benefits to their Medicare-eligible members. To the extent this phenomenon occurs, the adverse effects of increasing customer migration into Medicare Part D may outweigh the benefits we realize from growth of our Medicare Part D business. In addition, if the cost and complexity of Medicare Part D exceed management's expectations or prevent effective program implementation or administration; if changes to the regulations regarding how drug costs are reported for Medicare Part D are implemented in a manner that adversely affects the profitability of our Medicare Part D business; if changes to the applicable regulations impact our ability to retain fees from third parties including network pharmacies; if the government alters Medicare Part D program requirements or reduces funding because of the higher-than-anticipated cost to taxpayers of Medicare Part D or for other reasons; if the government mandates the use of point-of-sale manufacturer's rebates or up front drug pricing discounts, makes drug manufacturer's rebates illegal, or makes changes to how pharmacy pay-for-performance is calculated; or if reinsurance thresholds are reduced below their current levels, our Medicare Part D results of operations and our ability to expand our Medicare Part D business could be adversely affected.

More generally, our Medicare results of operations and our ability to expand our Medicare membership and revenues also could be adversely affected if we fail to design and maintain programs that are attractive to Medicare Advantage or Part D participants; if CMS imposes restrictions on our Medicare business as a result of audits or other regulatory actions; if we fail to successfully implement corrective actions or other remedial measures sufficient to prevent or remove any applicable restrictions that may be imposed by CMS; or if we are not successful in retaining enrollees, or winning contract renewals or new contracts under Medicare's competitive bidding process.

Federal funding for expanded Medicaid coverage began to decrease in 2017. This reduction is causing states to re-evaluate funding for their Medicaid expansions. That re-evaluation may adversely affect Medicaid payment rates, our Medicaid membership in those states, our revenues, our MBRs and our results of operations.

We may not be able to obtain adequate premium rate increases in our Insured Health Care Benefits products, which would have an adverse effect on our revenues, MBRs and results of operations and could magnify the adverse impact of increases in health care and other benefit costs and of ACA assessments, fees and taxes.

Premium rates for our Insured Health Care Benefits products generally must be filed with state insurance regulators and are subject to their approval, which creates risk for us in the current political and regulatory environment. The ACA generally requires a review by HHS in conjunction with state regulators of premium rate increases that exceed a federally specified threshold (or lower state-specific thresholds set by states determined by HHS to have adequate processes). Rate reviews can magnify the adverse impact on our operating margins and results of operations of increases in health care and other benefit costs, increased utilization of covered services, and ACA assessments, fees and taxes, by restricting our ability to reflect these increases and/or these assessments, fees and taxes in our pricing. The risk of increases in utilization of medical and/or other covered services and/or in health care and other benefit costs is particularly acute during and following periods when utilization has been below recent historical levels, during periods of changing economic

conditions and/or employment levels and in products where there is significant turnover in our membership each year. Further, our ability to reflect ACA assessments, fees and taxes in our Medicare rates is limited. Similarly, our ability to reflect them in our Medicaid and/or CHIP premium rates is limited due, among other things, to the budgetary pressures currently facing many state governments. This could magnify the adverse impact on our operating margins and results of operations of increases in utilization of medical and other covered services, health care and other benefit costs and/or medical cost trends that exceed our projections.

Since 2013, HHS has issued determinations to health plans that their rate increases were "unreasonable," and we continue to experience challenges to appropriate premium rate increases in certain states. Regulators or legislatures in a number of states have implemented or are considering limits on premium rate increases, either by enforcing existing legal requirements more stringently or proposing different regulatory standards. Regulators or legislatures in a number of states also have conducted hearings on proposed premium rate increases, which can result, in some instances have resulted, in substantial delays in implementing proposed rate increases even if they ultimately are approved. Our plans can be excluded from participating in small group Public Exchanges if they are deemed to have a history of "unreasonable" rate increases. We requested significant increases in our premium rates in our small group Commercial Health Care Benefits products for 2019 and expect to continue to request significant increases in those rates for 2020 and beyond in order to adequately price for projected medical cost trends, required expansions of coverage and significant assessments, fees and taxes imposed by the federal and state governments, including the ACA. Our rates also must be adequate to reflect the risk that our products will be selected by people with a higher risk profile or utilization rate than the pool of participants we anticipated when we established the pricing for the applicable products (also known as "adverse selection") in our products, particularly in small group products, which we expect to continue and potentially worsen in 2019 following the expiration of the ACA's risk corridor and reinsurance programs at the end of 2016. These significant rate increases heighten the risks of adverse public and regulatory reaction and adverse selection and the likelihood that our requested premium rate increases will be denied, reduced or delayed, which could lead to operating margin compression.

We anticipate continued regulatory and legislative action to increase regulation of premium rates in our Insured Health Care Benefits products. We may not be able to obtain rates that are actuarially justified or that are sufficient to make our policies profitable in any product line or geography. If we are unable to obtain adequate rates and/or rate increases, it could materially and adversely affect our operating margins and our ability to earn adequate returns on Insured Health Care Benefits business in one or more states or cause us to withdraw from certain geographies and/or products.

Minimum MLR rebate requirements limit the level of margin we can earn in our Insured Health Care Benefits products while leaving us exposed to higher than expected medical costs. Challenges to our minimum MLR rebate methodology and/or reports could adversely affect our results of operations.

The ACA requires us to pay minimum MLR rebates each year with respect to prior years. The ACA's minimum MLR rebate requirements limit the level of margin we can earn in our Commercial Insured and Medicare Insured businesses. CMS minimum MLR rebate regulations limit the level of margin we can earn in our Medicaid Insured business. Certain portions of our Health Care Benefits Medicaid and FEHB program business also are subject to minimum MLR rebate requirements in addition to but separate from those imposed by the ACA. Minimum MLR rebate requirements leave us exposed to medical costs that are higher than those reflected in our pricing. The process supporting the management and determination of the amount of MLR rebates payable is complex and requires judgment, and the minimum MLR reporting requirements are detailed. Federal and state auditors are challenging our Commercial Health Care Benefits business' compliance with the ACA's minimum MLR requirements as well as our FEHB plans' compliance with the OPM's FEHB program-specific minimum MLR requirements. Our Medicare and Medicaid contracts also are subject to minimum MLR audits. If a Medicare Advantage or Medicare Part D contract pays minimum MLR rebates for three consecutive years, it will become ineligible to enroll new members. If a Medicare Advantage or Medicare Part D contract pays such rebates for five consecutive years, it will be terminated by CMS. Additional challenges to our methodology and/or reports relating to minimum MLR and related rebates by federal and state regulators and private litigants are reasonably possible. The outcome of these audits and additional challenges could adversely affect our results of operations.

Our business activities are highly regulated. Our Pharmacy Services, Medicare Advantage, Medicare Part D, Medicaid, dual eligible, dual eligible special needs plan, small group and certain other products are subject to particularly extensive and complex regulations. If we fail to comply with applicable laws and regulations, we could be subject to significant adverse regulatory actions or suffer brand and reputational harm which may have a material adverse effect on our businesses. Compliance with existing and future laws, regulations and/or judicial decisions may reduce our profitability and limit our growth.

Our businesses are subject to extensive regulation and oversight by state, federal and international governmental authorities. The laws and regulations governing our operations and interpretations of those laws and regulations are increasing in number and complexity, change frequently and can be inconsistent or conflicting. In general, these laws and regulations are designed to benefit and protect customers, members and providers rather than us or our investors. In

addition, the governmental authorities that regulate our businesses have broad latitude to make, interpret and enforce the laws and regulations that govern us and continue to interpret and enforce those laws and regulations more strictly and more aggressively each year. In connection with the Aetna Acquisition, we also agreed to undertakings with certain state regulators that place various restrictions on certain of our businesses and the payment of dividends by certain of our subsidiaries.

Our Pharmacy Services products are subject to:

- The clinical quality, patient safety and other risks inherent in the dispensing, packaging and distribution of drugs and other health care products and services, including claims related to purported dispensing and other operational errors (any failure by us to adhere to the laws and regulations applicable to the dispensing of drugs could subject our Pharmacy Services businesses to civil and criminal penalties).
- Federal and state anti-kickback and other laws that govern our relationship with drug manufacturers, customers and consumers.
- Compliance requirements under ERISA, including fiduciary obligations in connection with the development and implementation of items such as drug formularies and preferred drug listings.
- Federal and state legislative proposals and/or regulatory activity that could adversely affect pharmacy benefit industry practices.

Our Health Care Benefits products are highly regulated, particularly those that serve Medicare, Medicaid, dual eligible, dual eligible special needs and small group Commercial customers and members. The laws and regulations governing participation in Medicare Advantage, Medicare Part D, Medicaid, dual eligible and dual eligible special needs plan programs are complex, are subject to interpretation and can expose us to penalties for non-compliance, including penalties under the False Claims Act and state false claims acts. In addition, the ACA may have expanded the jurisdiction of, and our exposure to, the False Claims Act to products that are sold on Public Exchanges or otherwise subject to the ACA. The scope of the practices and activities that are prohibited by federal and state false claims acts is the subject of pending litigation. Claims under federal and state false claims acts can be brought by the government or by private individuals on behalf of the government through a *qui tam* or "whistleblower" suit, and we are a defendant in a number of such proceedings. If we are convicted of fraud or other criminal conduct in the performance of a health program or if there is an adverse decision against us under the False Claims Act, we may be temporarily or permanently suspended from participating in government health care programs, including Medicare Advantage, Medicare Part D, Medicaid, dual eligible and dual eligible special needs plan programs, and we also may be required to pay significant fines and/or other monetary penalties.

If we fail to comply with laws and regulations that apply to government programs, we could be subject to criminal fines, civil penalties, premium refunds, prohibitions on marketing or active or passive enrollment of members, corrective actions, termination of our contracts or other sanctions which could have a material adverse effect on our ability to participate in Medicare Advantage, Medicare Part D, Medicaid, dual eligible, dual eligible special needs plan and other programs, cash flows, financial condition and results of operations.

Our businesses, profitability and growth also may be adversely affected by (i) judicial and regulatory decisions that change and/or expand the interpretations of existing statutes and regulations, impose medical or bad faith liability, increase our responsibilities under ERISA or the remedies available under ERISA, or reduce the scope of ERISA pre-emption of state law claims or (ii) other legislation and regulations.

If our compliance or other systems and processes fail or are deemed inadequate, we may suffer brand and reputational harm and become subject to regulatory actions or litigation which could adversely affect our businesses, results of operations, cash flows and/or financial condition.

Our businesses are subject to extensive and complex regulations, and many of our contracts with customers include detailed requirements. In order to be eligible to offer certain products or bid on certain contracts, we must demonstrate that we have robust systems in place to ensure that we comply with all applicable legal, regulatory and contractual requirements. These systems frequently are reviewed and audited by our customers and regulators. If our systems and processes designed to maintain compliance with applicable legal and contractual requirements, and to prevent and detect instances of, or the potential for, non-compliance fail or are deemed inadequate, we may suffer brand and reputational harm and be subject to regulatory actions, litigation and other proceedings which may result in damages, fines, suspension or loss of licensure, suspension or exclusion from participation in government programs and/or other penalties, any of which could adversely affect our businesses, cash flows, results of operations or financial condition.

Our litigation and regulatory risk profile are changing as a result of the Aetna Acquisition and as we offer new products and services and expand in business areas beyond our historical core businesses of Retail/LTC and Pharmacy Services.

Historically, we focused primarily on providing Retail/LTC and Pharmacy Services products and services. As a result of the Aetna Acquisition, we have significantly expanded our presence in Health Care Benefits products and services (including

products and services offered in multiple countries outside of the United States), which present a different litigation and regulatory risk profile than the products and services that we historically have offered.

The increased volume of business in areas beyond our historical core business and new products and services subject us to litigation and regulatory risks that are different from the risks of providing Retail/LTC and Pharmacy Services products and services and increase significantly our exposure to other risks.

We routinely are subject to litigation and other adverse legal proceedings, including class actions and qui tam actions. Many of these proceedings seek substantial damages which may not be covered by insurance. These proceedings may be costly to defend, result in changes in our business practices, harm our brand and reputation and adversely affect our businesses and results of operations.

Pharmacy services, retail pharmacy, LTC pharmacy and health care benefits are highly regulated and litigious industries. We are currently subject to various litigation matters, investigations, regulatory audits, inspections, government inquiries, and regulatory and other legal proceedings. Litigation, and particularly securities, collective or class action and *qui tam* litigation, is often expensive and disruptive. Certain of the lawsuits against us are or are purported to be class actions or *qui tam* actions. Litigation related to our provision of professional services in our pharmacies, specialty pharmacies, medical clinics and LTC facilities also has increased as we expand our services along the continuum of health care.

The majority of these proceedings relate to the conduct of our Retail/LTC, Pharmacy Services and Health Care Benefits operations and allege various violations of law. In addition, we operate in jurisdictions outside the United States, where contractual rights, tax positions and applicable regulations may be subject to interpretation or uncertainty to a greater degree than in the United States, and are therefore more likely to be subject to dispute by customers, members, governmental authorities and others. We are incurring expenses to resolve these proceedings. The outcome of litigation and other adverse legal proceedings is always uncertain, and outcomes that are not justifiable by the evidence or existing law or regulation can and do occur.

Litigation has been and may be brought against us by private individuals on behalf of the government through a *qui tam* or "whistleblower" suit. Under the provisions of the federal and various state false claims acts, private citizens may bring lawsuits alleging that a violation of the federal anti-kickback statute or similar laws has resulted in the submission of "false" claims to federal and/or state health care programs, including Medicare and Medicaid, and we are a defendant in a number of such proceedings. When a private individual brings a whistleblower suit, the defendant often will not be made aware of the suit for many months or even years, until the government commences its own investigation or determines whether it will intervene. Whistleblower suits have resulted in significant settlements between governmental agencies and health care companies. The significant incentives and protections provided under the Financial Reform Act increase the risk of whistleblower suits.

Many of the legal proceedings against us seek substantial damages (including non-economic or punitive damages and treble damages), and certain of these proceedings also seek changes in our business practices. While we currently have insurance coverage for some potential liabilities, other potential liabilities may not be covered by insurance, insurers may dispute coverage, or the amount of our insurance may not be enough to cover the damages awarded or costs incurred. In addition, some types of damages, like punitive damages, may not be covered by insurance, and in some jurisdictions the coverage of punitive damages is prohibited. Insurance coverage for all or some forms of liability may become unavailable or prohibitively expensive in the future.

We cannot predict the outcome of any of these matters, and the costs incurred may be substantial regardless of outcome. Litigation and other adverse legal proceedings could materially adversely affect our businesses or results of operations because of brand and reputational harm to us caused by such proceedings, the costs of defending such proceedings, the costs of settlement or judgments against us, or the changes in our operations that could result from such proceedings. See Item 3 of this Annual Report on Form 10-K for additional information.

We frequently are subject to regular and special governmental audits, investigations and reviews that could result in changes to our business practices and also could result in material refunds, fines, penalties, civil liabilities, criminal liabilities and other sanctions.

As one of the largest national retail and LTC pharmacy, pharmacy services and health care benefits providers, we frequently are subject to regular and special governmental market conduct and other audits, investigations and reviews by, and we receive subpoenas and other requests for information from, various federal and state agencies, regulatory authorities, attorneys general, committees, subcommittees and members of the United States Congress and other state, federal and international governmental authorities. For example, we have received CIDs from, and provided documents and information to, the Civil Division of the

DOJ in cooperation with a current investigation of our patient chart review processes in connection with risk adjustment data submissions under Parts C and D of the Medicare program. Several such audits, investigations and reviews currently are pending, some of which may be resolved in 2019, and the results of which may be adverse to us.

Federal and state governments have made investigating and prosecuting health care and other insurance fraud, waste and abuse a priority. Fraud, waste and abuse prohibitions encompass a wide range of activities, including kickbacks for referral of members, billing for unnecessary medical and/or other covered services, improper marketing and violations of patient privacy rights. The regulations and contractual requirements applicable to us and other industry participants are complex and subject to change, making it necessary for us to invest significant resources in complying with our regulatory and contractual requirements. Ongoing vigorous law enforcement and the highly technical regulatory scheme mean that our compliance efforts in this area will continue to require significant resources. In addition, our medical costs and the medical expenses of our Health Care Benefits ASC customers may be adversely affected if we do not prevent or detect fraudulent activity by providers and/or members.

Regular and special governmental audits, investigations and reviews by federal, state and international regulators could result in changes to our business practices, and also could result in significant or material premium refunds, fines, penalties, civil liabilities, criminal liabilities or other sanctions, including suspension or exclusion from participation in government programs and suspension or loss of licensure. Any of these audits, investigations or reviews could have a material adverse effect on our financial condition, results of operations or businesses or result in significant liabilities and negative publicity for our company. For example, since 2013, CMS has selected certain of the Company's Medicare Advantage contracts for various years for RADV audit. In addition, federal and state auditors are challenging our Commercial Health Care Benefits business' compliance with the ACA's minimum MLR requirements as well as our FEHB plans' compliance with OPM's FEHB program-specific minimum MLR requirements. Our Medicare and Medicaid contracts also are subject to minimum MLR audits. If a Medicare Advantage or Medicare Part D contract pays minimum MLR rebates for three consecutive years, it will become ineligible to enroll new members. If a Medicare Advantage or Medicare Part D contract pays such rebates for five consecutive years, it will be terminated by CMS.

We are subject to retroactive adjustments to and/or withholding of certain premiums and fees, including as a result of CMS RADV audits. We generally rely on health care providers to appropriately code claim submissions and document their medical records. If these records do not appropriately support our risk adjusted premiums, we may be required to refund premium payments to CMS and/or pay fines and penalties under the False Claims Act.

Premiums and/or fees for Medicare members, certain federal government employee groups and Medicaid beneficiaries are subject to retroactive adjustments and/or withholding by the federal and applicable state governments. Our business that is subject to the ACA, including amounts payable to us or payable by us under the ACA's premium stabilization programs and our risk adjustment and reinsurance data, also is subject to audit by governmental authorities. CMS regularly audits our performance to determine our compliance with CMS's regulations and our contracts with CMS and to assess the quality of the services we provide to our Medicare members.

CMS uses various payment mechanisms to allocate and adjust premium payments to our and other companies' Medicare plans by considering the applicable health status of Medicare members as supported by information prepared, maintained and provided by health care providers. We collect claim and encounter data from providers and generally rely on providers to appropriately code their submissions to us and document their medical records, including the diagnosis data submitted to us with claims. CMS pays increased premiums to Medicare Advantage plans and PDPs for members who have certain medical conditions identified with specific diagnosis codes.

Federal regulators review and audit the providers' medical records to determine whether those records support the related diagnosis codes that determine the members' health status and the resulting risk-adjusted premium payments to us. In that regard, CMS has instituted RADV audits of a subset of Medicare Advantage plans for various contract years, including certain of our plans for various contract years, to validate coding practices and supporting medical record documentation maintained by health care providers and the resulting risk adjusted premium payments to the plans. CMS may require us to refund premium payments if our risk adjusted premiums are not properly supported by medical record data. The OIG also is auditing our risk adjustment data and that of other companies, and we expect CMS and the OIG to continue auditing risk adjustment data. We also have received CIDs from, and provided documents and information to, the Civil

Division of the DOJ in connection with a current investigation of our patient chart review processes in connection with risk adjustment data submissions under Parts C and D of the Medicare program.

In 2012, CMS revised its audit methodology for RADV audits to determine refunds payable by Medicare Advantage plans for contract year 2011 and forward. Under the revised methodology, among other things, CMS will project the error rate identified

in the audit sample of approximately 200 members to all risk adjusted premium payments made under the contract being audited. For contract years prior to 2011, CMS did not project sample error rates to the entire contract. As a result, the revised methodology may increase our exposure to premium refunds to CMS based on incomplete medical records maintained by providers. On October 26, 2018, CMS issued proposed rules related to, among other things, changes to the RADV audit methodology established by CMS in 2012. CMS projects that the changes to the RADV audit methodology would increase its recoveries from Medicare Advantage plans as a result of RADV audits. CMS has requested comments on the proposed rules, including whether the proposed RADV rule change should apply retroactively to audits of Medicare Advantage plans for contract year 2011 and forward. We are evaluating the potential adverse effect, which could be material, on our results of operations, financial condition and cash flows if the proposed RADV rule change were adopted as proposed. CMS also has announced its intent to use third party auditors to attain its ultimate goal of subjecting all Medicare Advantage contracts to either a comprehensive or a targeted RADV audit for each contract year. We are currently unable to predict which of our Medicare Advantage contracts will be selected for future audit, the amounts of any retroactive refunds of, or prospective adjustments to, Medicare Advantage premium payments made to us, the effect of any such refunds or adjustments on the actuarial soundness of our Medicare Advantage bids, or whether any RADV audit findings would require us to change our method of estimating future premium revenue in future bid submissions to CMS or compromise premium assumptions made in our bids for prior contract years, the current contract year or future contract years.

If we fail to report and correct errors discovered through our own auditing procedures or during a CMS audit or otherwise fail to comply with the applicable laws and regulations, we could be subject to fines, civil monetary penalties or other sanctions, including fines and penalties under the False Claims Act, which could have a material adverse effect on our ability to participate in Medicare Advantage, Part D or other government programs, and on our financial condition, cash flows and results of operations.

CMS has issued a final rule implementing ACA requirements that Medicare Advantage and PDP plans report and refund to CMS overpayments that those plans receive from CMS. However, CMS's statements in formalized guidance regarding "overpayments" to Medicare Advantage plans appear to be inconsistent with CMS's prior RADV audit guidance. These statements appear to equate each Medicare Advantage risk adjustment data error with an "overpayment" without reconciliation to the principles underlying the fee for service adjustment comparison contemplated by CMS's RADV audit methodology. The precise interpretation, impact and legality of the final rule are not clear and are subject to pending litigation. If Medicare Advantage plans were not paid based on payment model principles that align with the requirements of the Social Security Act or such payments were not implemented correctly, it could have a material adverse effect on our results of operations, financial condition and/or cash flows.

Certain of our Medicaid contracts require the submission of complete and correct encounter data. The accurate and timely reporting of encounter data is increasingly important to the success of our Medicaid programs because more states are using encounter data to determine compliance with performance standards and, in part, to set premium rates. We have expended and may continue to expend additional effort and incur significant additional costs to collect accurate, or to correct inaccurate or incomplete, encounter data and have been and could be exposed to premium withholding, operating sanctions and financial fines and penalties for noncompliance. We have experienced challenges in obtaining complete and accurate encounter data due to difficulties with providers and third-party vendors submitting claims in a timely fashion in the proper format, and with state agencies in coordinating such submissions. As states increase their reliance on encounter data, these difficulties could affect the Medicaid premium rates we receive and how Medicaid membership is assigned to us, which could have a material adverse effect on our Medicaid results of operations and cash flows and/or our ability to bid for, and continue to participate in, certain Medicaid programs.

Any premium or fee refunds, adjustments or withholding or civil or criminal fines or penalties, or other sanctions, including restrictions on or changes in the way we do business, loss of licensure or exclusion from participation in government programs, resulting from regulatory audits or investigations, whether as a result of RADV, Public Exchange related, recovery audit program or other audits or investigations by CMS, the OIG, HHS, the DOJ or otherwise, including audits of our minimum MLR rebates, methodology and/or reports, could be material and could adversely affect our results of operations, financial condition and cash flows.

Programs funded in whole or in part by the U.S. federal government account for a significant portion of our revenues. The U.S. federal government and our other government customers may reduce funding for health care or other

programs, cancel or decline to renew contracts with us, or make changes that adversely affect the number of persons eligible for certain programs, the services provided to enrollees in such programs, our premiums and our administrative and health care and other benefit costs, any of which could have a material adverse effect on our businesses, results of operations and cash flows. In addition, an extended federal government shutdown or a delay by Congress in raising the federal government's debt ceiling could lead to a delay, reduction, suspension or cancellation of federal government spending and a

significant increase in interest rates that could, in turn, have a material adverse effect on our businesses, results of operations and cash flows.

Programs funded in whole or in part by the United States federal government account for a significant portion of our revenue, and we expect that percentage to increase. As our government funded businesses grow, our exposure to changes in federal and state government policy with respect to and/or regulation of the various government funded programs in which we participate also increases.

Our revenues from government funded programs, including our Medicare, Medicaid, dual eligible and dual eligible special needs plan businesses and our government customers in our Commercial business, are dependent on annual funding by the federal government and/or applicable state or local governments. Federal, state and local governments have the right to cancel or not to renew their contracts with us on short notice without cause or if funds are not available. Funding for these programs is dependent on many factors outside our control, including general economic conditions, continuing government efforts to contain health care costs and budgetary constraints at the federal or applicable state or local level and general political issues and priorities.

For example, CMS is transitioning the process of calculating Medicare members' risk scores from using diagnoses data from the Risk Adjustment Processing System, or RAPS, to using diagnoses data from the Encounter Data System, or EDS. The RAPS process requires Medicare Advantage plans to apply a filter logic based on CMS guidelines and only submit claims that satisfy those guidelines. For submissions through EDS, CMS requires Medicare Advantage plans to submit all encounter data, and CMS applies the risk adjustment filtering logic to determine the risk scores. For 2019, 25% of the risk score will be calculated from claims data submitted through EDS, up from 15% in 2018. For 2020, the EDS percentage will increase to 50%. The transition from RAPS to EDS could result in different risk scores from each dataset as a result of plan processing issues, CMS processing issues or filtering logic differences between RAPS and EDS and could have a material adverse effect on our results of operations, financial condition and/or cash flows.

In addition, while the ACA provided substantial federal funding for the expansion of the number of people who qualify to enroll in Medicaid beginning in 2014, that funding began to decrease in 2017, and the future of that funding is uncertain. As a result, in 2019, states are preparing for the adverse impact on their budgets and programs by seeking to reduce their Medicaid expenditures and/or changing the design of their Medicaid programs. These changes could have a material adverse effect on the revenues, medical benefit ratios and results operations of our Medicaid contracts and/or our ability to grow our Medicaid membership, revenues and results of operations.

Our government customers also determine the eligibility criteria, premium levels and other aspects of Medicare, Medicaid, dual eligible and dual eligible special needs plan programs that affect the number of persons enrolled in these programs, the services provided to enrollees under these programs, the conditions for participating in these programs and our administrative and health care and other benefit costs under these programs. For example, states may require participation on their Public Exchange as a condition to participating in their Medicaid or state employee health benefit programs and/or take program design actions that shift provider costs from state employee plans to Commercial and Medicare plans. In the past, determinations of this type have at times adversely affected our results of operations from and willingness to participate in such programs, and they may do so again in the future. If a government customer reduces premium levels or increases premiums by less than the increase in our costs (such as by not allowing us to recover ACA and other applicable fees, taxes and assessments), and we cannot offset the adverse impact of these actions with supplemental premiums and/or changes in benefit plans, then our businesses and results of operations could be adversely affected. In addition, if states allow certain programs to expire, reduce the number of firms with which they contract for Managed Medicaid services or choose to opt out of Medicaid expansion, we could experience reduced Medicaid enrollment or reduced Medicaid enrollment growth, which would adversely affect our businesses, revenues and results of operations.

The federal government's "debt ceiling", or the amount of debt the federal government is permitted to borrow to meet its legal obligations (including, among other things, interest on the national debt, Medicare and Medicaid premiums and contributions to the FEHB program), is limited by statute and can only be raised by an act of Congress.

During a federal government shutdown or if Congress does not raise the debt ceiling before the federal government's current obligations approach or exceed its cash on hand and incoming receipts, federal government spending may be subject to delay, reduction, suspension or cancellation, which may be prolonged. Over 30% of our Health Care Benefits

segment’s revenues are derived from health care coverage programs that are funded in whole or in part by the federal government, including the Medicare, Medicaid, dual eligible and dual eligible specials needs plan programs, CHIP and the FEHB program. When federal spending is delayed, suspended or curtailed, we continue to receive claims from providers providing services to beneficiaries of these programs, and we remain liable for, and are required to fund, such claims. A federal government shutdown or a failure to

timely raise the debt ceiling could have a material adverse effect on our businesses, results of operations, cash flows, brand and reputation and, in the case of a prolonged shutdown or failure to raise the debt ceiling, our financial condition.

If the United States defaults on its obligations due to a failure to timely raise the debt ceiling or otherwise, or its credit rating is downgraded by any of the credit rating agencies, interest rates could rise, financial markets could become volatile and/or the availability of credit (and short-term credit in particular) could be adversely affected, thereby increasing our borrowing costs, adversely affecting the value of our investment portfolio, and/or adversely affecting our ability to access the capital markets, which could have a material adverse effect on our results of operations, financial condition and cash flows and could adversely affect our liquidity.

Our results of operations may be adversely affected by changes in laws and policies governing employers and by union organizing activity.

The federal and certain state legislatures continue to consider and pass legislation that increases our costs of doing business, including increased minimum wages and requiring employers to provide paid sick leave. In addition, our employee related operating costs may be increased by union organizing activity. If we are unable to reflect these increased expenses in our pricing or otherwise modify our operations to mitigate the effects of such increases, our results of operations will be adversely affected.

Risks Related to Customer Perceptions of our Products and Services

We must develop and maintain a relevant omni-channel experience for our retail customers.

Our business has evolved from a retail store experience to interaction with customers across numerous channels, including in-store, online, mobile and social media, among others. Omni-channel retailing is rapidly evolving and we must keep pace with changing customer expectations and new developments by our competitors. Our customers are increasingly using mobile phones, tablets, computers and other devices to comparison shop, determine product availability and complete purchases through mobile commerce applications. As a result, the portion of total consumer expenditures with all retailers occurring online and through mobile commerce applications is increasing and the pace of this increase could accelerate. We must compete by offering a consistent and convenient shopping experience for our customers regardless of the ultimate sales channel and by investing in, providing and maintaining mobile commerce applications for our customers that have the right features and are reliable and easy to use. If we are unable to make, improve or develop relevant customer-facing technology in a timely manner that keeps pace with technological developments and dynamic customer expectations, our ability to compete and our results of operations could be materially and adversely affected. In addition, if our online activities or our other customer-facing technology systems do not function as designed, we may experience a loss of customer confidence, data security breaches, lost sales, or be exposed to fraudulent purchases, any of which could materially and adversely affect our business operations, reputation and results of operations.

We must maintain and improve our relationships with our retail and specialty pharmacy customers and increase the demand for our products and services, including proprietary brands. If we fail to develop new products, differentiate our products from those of our competitors or demonstrate the value of our products to our customers and members, our ability to retain or grow our customer base may be adversely affected.

The success of our businesses depends in part on customer loyalty, superior customer service and our ability to persuade customers to frequent our retail stores and online sites and to purchase products in additional categories and our proprietary brands. Failure to timely identify or effectively respond to changing consumer preferences and spending patterns, and evolving demographic mixes in our markets, an inability to expand the products being purchased by our clients and customers, or the failure or inability to obtain or offer particular categories of products could adversely affect our relationship with our customers and clients and the demand for our products and services and could result in excess inventories of products.

We offer our retail customers proprietary brand products that are available exclusively at our retail stores and through our online retail sites. The sale of proprietary products subjects us to unique risks including potential product liability risks, mandatory or voluntary product recalls, potential supply chain and distribution chain disruptions for raw materials and finished products, our ability to successfully protect our intellectual property rights and the rights of applicable third

parties, and other risks generally encountered by entities that source, market and sell private-label products. Any failure to adequately address some or all of these risks could have an adverse effect on our retail business, results of operations and financial condition. Additionally, an increase in the sales of our proprietary brands may adversely affect our sales of products owned by our suppliers which, consequently, could adversely impact certain of our supplier relationships. Our ability to locate qualified, economically stable suppliers who satisfy our requirements, and to acquire sufficient products in a timely and effective manner,

is critical to ensuring, among other things, that customer confidence is not diminished. Any failure to develop sourcing relationships with a broad and deep supplier base could adversely affect our financial performance and erode customer loyalty.

Our specialty pharmacy business focuses on complex and high-cost medications, many of which are made available by manufacturers to a limited number of pharmacies (so-called limited distribution drugs), that serve a relatively limited universe of patients. As a result, the future growth of our specialty pharmacy business is dependent largely upon expanding our base of drugs or penetration in certain treatment categories. Any contraction of our base of patients or reduction in demand for the prescriptions we currently dispense could have an adverse effect on our specialty pharmacy business, results of operations and cash flows.

We operate in rapidly evolving industries. Our customers generally, and our larger customers in particular, are well-informed and organized and, along with our individual customers, can easily move between us and our competitors. These factors require us to differentiate our products and solutions, anticipate changes in customer and consumer preferences, anticipate and effectively compete with the products and solutions of new and existing competitors and innovate and deliver new and existing products and solutions that demonstrate value to our customers and members, particularly in response to marketplace changes from public policy. Any failure to do so may adversely affect our ability to retain or grow customers and/or profitable medical membership, which can adversely affect our results of operations.

In order to be competitive in the increasingly consumer-oriented marketplace for our health care products and services, we will need to develop and deploy consumer-friendly products and services and make investments in consumer engagement, reduce our cost structure and compete successfully with new entrants into our businesses. If we are unsuccessful, our future growth and profitability may be adversely affected.

Historically, employers have been the most significant customers driving purchases of our Pharmacy Services and Health Care Benefits segments. However, decisions to buy our Pharmacy Services and Health Care Benefits products and services increasingly are made or influenced by consumers, either through direct purchasing (for example, Medicare Advantage plans and PDPs) or through Insurance Exchanges that allow individual choice. Similarly, consumers increasingly seek to access health care products and services locally and through other direct channels such as mobile devices and our websites. In response to this demand, we are expanding our consumer focus. To compete effectively in the consumer-driven marketplace, we will be required to develop or acquire new capabilities, attract new talent and develop new service and distribution relationships that respond to consumer needs and preferences.

We also will have to respond to pricing and other actions taken by existing competitors as well as potentially disruptive new entrants. Regulatory and participation requirements for Insurance Exchange-based plans tend to emphasize price and make competitive differentiation of our Health Care Benefits products and services based on other attributes more difficult. Price competition from existing and potentially new disruptive competitors in the industries in which each of our segments compete also continues to increase. Accordingly, we face competitive pricing pressures from existing and new competitors (including our vendors and others who may have lower cost structures than we do), and these pressures may reduce our operating margins or limit sales of our products and services. Our competitors may bring their consumer-oriented products and services to market more quickly, have greater experience marketing to consumers and/or may be targeting the higher margin portions of our businesses. These risks may be enhanced if employers shift to defined contribution health care benefits plans and make greater utilization of Private Exchanges or encourage their employees to purchase health insurance on the Public Exchanges. We can provide no assurance that we will be able to develop or operate successful or profitable consumer-oriented products and services, or that our Health Care Benefits segment will be able to compete successfully or profitably on Public Exchanges or Private Exchanges or benefit from any opportunities presented by Public Exchanges or Private Exchanges, or that we will be able to benefit from opportunities available to any of our segments in the industries in which we operate. If we do not develop and expand competitive and profitable consumer products, are not competitive in the industries in which we operate, or are unsuccessful in reducing our cost structure, our future growth and profitability may be adversely affected.

Risks Related to Our Relationships with Manufacturers, Providers, Suppliers and Vendors

Our results of operations may be adversely affected if we are unable to contract with manufacturers, providers, suppliers and vendors on competitive terms and develop and maintain attractive networks with high quality providers.

Our PBM business generates revenues primarily by contracting with clients to provide prescription drugs and related health care services to plan members. As a result, we are dependent on our relationships with prescription drug manufacturers and suppliers. We acquire a substantial amount of our mail order and specialty pharmacies' prescription drug supply from a limited number of suppliers. Our agreements with these suppliers often are short-term and easily cancelable by either party without cause. In addition, these agreements may limit our ability to provide services for competing drugs during the term of the

agreement and may allow the supplier to distribute through channels other than the Company. A termination or modification to any of these relationships could have a material adverse effect on our businesses, financial condition and results of operations.

We are seeking to enhance our health care provider networks by entering into joint ventures and other collaborative risk-sharing arrangements with health care providers. Providers' willingness to enter these arrangements with us depends upon, among other things, our ability to provide them with up to date quality of care data to support these value-based contracts. These arrangements are designed to give providers incentives to engage in population health management and optimize delivery of health care to our members. These arrangements also may allow us to expand into new geographies, target new customer groups, increase membership and reduce medical costs and, if we provide technology or other services to the relevant health system or provider organization, may contribute to our revenue and earnings from alternative sources. If such arrangements do not result in the lower medical costs that we project or if we fail to attract health care providers to such arrangements, or are less successful at implementing such arrangements than our competitors, our medical costs may not be competitive and may be higher than we project, our attractiveness to customers may be reduced, we may lose or be unable to grow membership, and our ability to profitably grow our business and/or our results of operations may be adversely affected.

While we believe joint ventures, ACOs and other non-traditional health care provider organizational structures present opportunities for us, the implementation of our joint ventures and other non-traditional structure strategies may not achieve the intended results, which could adversely affect our results of operations and cash flows. Among other things, joint ventures require us to maintain collaborative relationships with our counterparties, continue to gain access to provider rates that make the joint ventures economically sustainable and devote significant management time to the operation and management of the joint venture. We may not be able to achieve these objectives in one or more of our joint ventures, which could adversely affect our results of operations and cash flows.

If our service providers fail to meet their contractual obligations to us or to comply with applicable laws or regulations, we may be exposed to brand and reputational harm, litigation or regulatory action. This risk is particularly high in our Medicare, Medicaid, dual eligible and dual eligible special needs plan programs.

We contract with various third parties to perform certain functions and services and provide us with certain information technology systems. Our arrangements with these third parties may expose us to public scrutiny, adversely affect our brand and reputation, expose us to litigation or regulatory action, and otherwise make our operations vulnerable if we fail to adequately oversee, monitor and regulate their performance or if they fail to meet their contractual obligations to us or to comply with applicable laws or regulations. For example, certain of our vendors have been responsible for releases of sensitive information of our members and employees, which has caused us to incur additional expenses and given rise to litigation against us.

These risks are particularly high in our Medicare, Medicaid, dual eligible and dual eligible special needs plan programs, where third parties perform PBM, medical management and other member related services for us. Any failure of our or these third parties' prevention, detection or control systems related to regulatory compliance, compliance with our internal policies, data security and/or cybersecurity or any incident involving the theft, misappropriation, loss or other unauthorized disclosure of, or access to, members', customers' or other constituents' sensitive information could require us to expend significant resources to remediate any damage, interrupt our operations and adversely affect our brand and reputation and also expose us to whistleblower, class action and other litigation, other proceedings, prohibitions on marketing or active or passive enrollment of members, corrective actions, fines, sanctions and/or penalties, any of which could adversely affect our businesses, cash flows, results of operations and/or financial condition.

Continuing consolidation and integration among providers and other suppliers may increase our medical and other covered benefits costs, make it difficult for us to compete in certain geographies and create new competitors.

Hospitals and other providers and health systems continue to consolidate across the health care industry. While this consolidation could increase efficiency and has the potential to improve the delivery of health care services, it also reduces competition and the number of potential contracting parties in certain geographies. These health systems also are increasingly forming and considering forming health plans to directly offer health insurance in competition with us, a process that has been accelerated by the ACA. In addition, ACOs (including commercial and Medicaid-only ACOs

developed as a result of state Medicaid laws), practice management companies, consolidation among and by integrated health systems and other changes in the organizational structures that physicians, hospitals and other health care providers adopt continues to change the way these providers interact with us and the competitive landscape in which we operate. These changes may increase our medical and other covered benefits costs, may affect the way we price our products and services and estimate our medical and other covered benefits costs and may require us to change our operations, including by withdrawing from certain geographies where we do not have a significant presence across our businesses or are unable to collaborate or contract with providers on acceptable terms. Each of these changes may adversely affect our businesses and results of operations.

We may experience increased medical and other benefit costs, litigation risk and customer and member dissatisfaction when providers that do not have contracts with us render services to our Health Care Benefits members.

Some providers that render services to our Health Care Benefits members do not have contracts with us. In those cases, we do not have a pre-established understanding with these providers as to the amount of compensation that is due to them for services rendered to our members. In some states, the amount of compensation due to these nonparticipating providers is defined by law or regulation, but in most instances it is either not defined or it is established by a standard that is not clearly translatable into dollar terms. In such instances providers may believe that they are underpaid for their services and may either litigate or arbitrate their dispute with us or try to recover the difference between what we have paid them and the amount they charged us from our members, which may result in customer and member dissatisfaction. For example, on October 15, 2018, an arbitrator awarded certain claimant hospitals approximately $150 million in a proceeding relating to Aetna's out-of-network benefit payment and administration practices. Such disputes may cause us to pay higher medical or other benefit costs than we projected.

Risks Related to Our Operations

Customers, particularly large sophisticated customers, expect us to implement their contracts and onboard their employees and members efficiently and effectively. Failure to do so could adversely affect our reputation, businesses, results of operations, cash flows and prospects. If we or our vendors fail to provide our customers with quality service that meets their expectations, our ability to retain and grow our membership and customer base will be adversely affected.

Our ability to attract and retain customers and members is dependent upon providing cost effective, quality customer service operations (such as call center operations, PBM functions, retail pharmacy and LTC services, home delivery pharmacy prescription delivery, specialty pharmacy prescription delivery, claims processing, customer case installation and online access and tools) that meet or exceed our customers' and members' expectations. As we seek to reduce general and administrative expenses, we must balance the potential impact of cost-saving measures on our customer and other service and performance. If we misjudge the effects of such measures, customer and other service may be adversely affected. We depend on third parties for certain of our customer service, PBM and prescription delivery operations. If we or our vendors fail to provide service that meets our customers' and members' expectations, we may have difficulty retaining or profitable growing our customer base and/or membership, which can adversely affect our results of operations. For example, noncompliance with any privacy or security laws or regulations or any security breach involving one of our third party vendors could have a material adverse effect on our businesses, results of operations, brand and reputation.

We are subject to payment-related risks that could increase our operating costs, expose us to fraud or theft, subject us to potential liability and disrupt our business operations.

We accept payments using a variety of methods, including cash, checks, credit cards, debit cards, gift cards, mobile payments and potentially other technologies in the future. Acceptance of these payment methods subjects us to rules, regulations, contractual obligations and compliance requirements, including payment network rules and operating guidelines, data security standards and certification requirements, and rules governing electronic funds transfers. These requirements may change in the future, which could make compliance more difficult or costly. For certain payment options, including credit and debit cards, we pay interchange and other fees, which could increase periodically thereby raising our operating costs. We rely on third parties to provide payment processing services, including the processing of credit cards, debit cards, and various other forms of electronic payment. If these vendors are unable to provide these services to us, or if their systems are compromised, our operations could be disrupted. The payment methods that we offer also expose us to potential fraud and theft by persons seeking to obtain unauthorized access to, or exploit any weaknesses in, the payment systems we use. If we fail to abide by applicable rules or requirements, or if data relating to our payment systems is compromised due to a breach or misuse, we may be responsible for any costs incurred by payment card issuing banks and other third parties or subject to fines and higher transaction fees. In addition, our reputation and ability to accept certain types of payments could each be harmed resulting in reduced sales and adverse effects on our results of operations.

Our and our vendors' operations are subject to a variety of business continuity hazards and risks, any of which could interrupt our operations or otherwise adversely affect our performance and results of operations.

We and our vendors are subject to business continuity hazards and other risks, including natural disasters, utility and other mechanical failures, acts of war or terrorism, disruption of communications, data security and preservation, disruption of supply or distribution, safety regulation and labor difficulties. The occurrence of any of these or other events to the Company or our vendors might disrupt or shut down our operations or otherwise adversely affect our operations. We may also be subject to certain liability claims in the event of an injury or loss of life, or damage to property, resulting from such events. Although we

have developed procedures for crisis management and disaster recovery and business continuity plans and maintain insurance policies that we believe are customary and adequate for our size and industry, our insurance policies include limits and, as such, our coverage may be insufficient to protect against all potential hazards and risks incident to our businesses. In addition, our crisis management and disaster recovery procedures and business continuity plans may not be effective. Should any such hazards or risks occur, or should our insurance coverage be inadequate or unavailable, our businesses, financial condition and results of operations could be adversely affected.

We and our vendors have experienced cyber attacks. We can provide no assurance that we or our vendors will be able to detect, prevent or contain the effects of such attacks or other information security (including cybersecurity) risks or threats in the future.

We and our vendors have experienced and continue to experience a variety of cyber attacks, and we and our vendors expect to continue to experience cyber attacks going forward. Among other things, we and our vendors have experienced automated attempts to gain access to our public facing networks, brute force, SYN flood and distributed denial of service attacks, attempted malware infections, vulnerability scanning, ransomware attacks, spear-phishing campaigns, mass reconnaissance attempts, injection attempts, phishing, PHP injection and cross-site scripting. We also have seen an increase in attacks designed to obtain access to consumers' accounts using illegally obtained demographic information. Although the impact of such attacks has not been material to our operations or results of operations through December 31, 2018, we can provide no assurance that we or our vendors will be able to detect, prevent or contain the effects of such attacks or other information security (including cybersecurity) risks or threats in the future. As we expand our consumer-oriented products and services, increase the amount and types of data we acquire, generate and use, increase the amount of information we make available to members, consumers and providers on mobile devices, expand our use of vendors, expand internationally and expand our use of social media, our exposure to these data security and related cybersecurity risks, including the risk of undetected attacks, damage, loss or unauthorized disclosure or access to and/or disruption of our systems and the customer, member, provider, employee, ACO, joint venture, vendor and other third party information they contain, increases, and the cost of attempting to protect against these risks also increases.

Although we deploy a layered approach to address information security (including cybersecurity) threats and vulnerabilities that is designed to protect confidential information against data security breaches, a compromise of our information security controls or of those businesses with whom we interact, which results in confidential information being accessed, obtained, damaged, or used by unauthorized or improper persons, could harm our reputation and expose us to regulatory actions and claims from customers and clients, financial institutions, payment card associations and other persons, any of which could adversely affect our businesses, financial condition, and results of operations. Because the techniques used to obtain unauthorized access, disable or degrade service, or sabotage systems change frequently and may not immediately produce signs of intrusion, we may be unable to anticipate these techniques or to implement adequate preventative measures. Moreover, a data security breach could require that we expend significant resources related to our information systems and infrastructure, and could distract management and other key personnel from performing their primary operational duties. We also could be adversely affected by any significant disruption in the systems of third parties we interact with, including key payors and vendors.

The costs of attempting to protect against the foregoing risks and the costs of responding to a cyber-incident are significant. Large scale data breaches at other entities increase the challenge we and our vendors face in maintaining the security of our information technology systems and proprietary information and of our members' and customers' sensitive information. Following a cyber-incident, our and/or our vendors' remediation efforts may not be successful, and a cyber-incident could result in interruptions, delays or cessation of service, and loss of existing or potential customers and members. In addition, breaches of our and/or our vendors' security measures and the unauthorized dissemination of sensitive personal information or proprietary information or confidential information about us, our customers, our members or other third-parties, could expose our customers' and members' private information and our customers and members to the risk of financial or medical identity theft, or expose us or other third parties to a risk of loss or misuse of this information, and result in investigations, regulatory enforcement actions, material fines and penalties, loss of customers, litigation or other actions which could have a material adverse effect on our businesses, brand, reputation, cash flows and results of operations.

The failure or disruption of our information technology systems or the failure of our information technology infrastructure to support our businesses could adversely affect our reputation, businesses, results of operations and cash flows.

Our information systems are subject to damage or interruption from power outages, facility damage, computer and telecommunications failures, computer viruses, security breaches (including credit card or personally identifiable information breaches), cyber attacks, vandalism, catastrophic events and human error. If our information systems are damaged, fail to work properly or otherwise become unavailable, or if we are unable to successfully complete our planned consolidation of our PBM

claims adjudication platforms, we may incur substantial costs to repair or replace them, and may experience reputational damage, loss of critical information, customer disruption and interruptions or delays in our ability to perform essential functions and implement new and innovative services. In addition, compliance with changes in United States and foreign privacy and information security laws and standards may result in considerable expense due to increased investment in technology and the development of new operational processes.

Our business success and results of operations depend in part on effective information technology systems and on continuing to develop and implement improvements in technology. Pursuing multiple initiatives simultaneously could make this continued development and implementation significantly more challenging.

Many aspects of our operations are dependent on our information systems and the information collected, processed, stored, and handled by these systems. We rely heavily on our computer systems to manage our ordering, pricing, point-of-sale, pharmacy fulfillment, inventory replenishment, claims processing, ExtraCare customer loyalty program, finance and other processes. Throughout our operations, we receive, retain and transmit certain confidential information, including PII and PHI, that our customers and clients provide to purchase products or services, enroll in programs or services, register on our websites, interact with our personnel, or otherwise communicate with us. In addition, for these operations, we depend in part on the secure transmission of confidential information over public networks.

We have many different information and other technology systems supporting our businesses (including as a result of our acquisitions). Our businesses depend in large part on these systems to adequately price our products and services; accurately establish reserves, process claims and report results of operations; and interact with providers, employer plan sponsors, members and vendors in an efficient and uninterrupted fashion. In addition, recent trends toward greater consumer engagement in health care require new and enhanced technologies, including more sophisticated applications for mobile devices. Certain of our technology systems (including software) are older, legacy systems that are less flexible, less efficient and require a significant ongoing commitment of capital and human resources to maintain, protect and enhance them and to integrate them with our other systems. We must re-engineer and reduce the number of these systems to meet changing consumer and vendor preferences and needs, improve our productivity and reduce our operating expenses. We also need to develop or acquire new technology systems, contract with new vendors or modify certain of our existing systems to support the consumer-oriented products and services we are developing, operating and expanding and/or to meet current and developing industry and regulatory standards, including to keep pace with continuing changes in information processing technology and emerging cybersecurity risks and threats. If we fail to achieve these objectives, our ability to profitably grow our business and/or our results of operations may be adversely affected.

Our business strategy involves providing customers with differentiated, easy to use, secure products and solutions that use information to meet customer needs. The types of technology and levels of service that are acceptable to customers and members today will not necessarily be acceptable in the future, requiring us to anticipate and meet marketplace demands for technology. Our success therefore is dependent in large part on our ability, within the context of a limited budget of human resources and capital and our existing and future business relationships, to timely secure, integrate, develop, redesign and enhance our (or contract with vendors to provide) technology systems that support our business strategy initiatives and processes in a compliant, secure, and cost and resource efficient manner. Integration of our acquisitions increases these challenges, and we may not be successful in integrating various systems in a timely or cost-effective manner.

Information technology projects frequently are long-term in nature and may take longer to complete and cost more than we expect and may not deliver the benefits we project once they are complete. If we do not effectively and efficiently secure, manage, integrate and enhance our technology portfolio (including vendor sourced systems), we could, among other things, have problems determining health care and other benefit cost estimates and/or establishing appropriate pricing, meeting the needs of customers, providers and members, developing and expanding our consumer-oriented products and services or keeping pace with industry and regulatory standards, and our results of operations may be adversely affected.

Sales of our products and services are dependent on our ability to attract and motivate internal sales personnel and independent third-party brokers, consultants and agents. New distribution channels create new disintermediation risk. We may be subject to penalties or other regulatory actions as a result of the marketing practices of brokers and agents selling our products.

Our products are sold primarily through our sales personnel, who frequently work with independent brokers, consultants and agents who assist in the production and servicing of business. The independent brokers, consultants and agents generally are not dedicated to us exclusively and may frequently recommend and/or market health care benefits products of our competitors. Accordingly, we must compete intensely for their services and allegiance. Our sales could be adversely affected if we are unable to attract, retain or motivate sales personnel and third-party brokers, consultants and agents, or if we do not adequately

provide support, training and education to this sales network regarding our complex product portfolio, or if our sales strategy is not appropriately aligned across distribution channels. This risk is heightened as we develop, operate and expand our Consumer Health Products and Services products and services and our business model evolves to include a greater focus on consumers and direct-to-consumer sales, such as competing for sales on Insurance Exchanges.

New distribution channels for our products and services continue to emerge, including Private Exchanges operated by health care consultants and technology companies. These channels may make it more difficult for us to directly engage consumers and other customers in the selection and management of their health care benefits, in health care utilization and in the effective navigation of the health care system. We also may be challenged by new technologies and marketplace entrants that could interfere with our existing relationships with customers and health plan members in these areas.

In addition, there have been a number of investigations regarding the marketing practices of brokers and agents selling health care and other insurance products and the payments they receive. These investigations have resulted in enforcement actions against companies in our industry and brokers and agents marketing and selling those companies' products. For example, CMS and state departments of insurance have increased their scrutiny of the marketing practices of brokers and agents who market Medicare products. These investigations and enforcement actions could result in penalties and the imposition of corrective action plans and/or changes to industry practices, which could adversely affect our ability to market our products.

We also face other risks that could adversely affect our businesses, results of operations, financial condition and/or cash flows, which include:

- Failure of our corporate governance policies or procedures, for example significant financial decisions being made at an inappropriate level in our organization;
- Inappropriate application of accounting principles or a significant failure of internal control over financial reporting, which could lead to a restatement of our results of operations and/or a deterioration in the soundness and accuracy of our reported results of operations; and
- Failure to adequately manage our run-off businesses and/or our regulatory and financial exposure to businesses we have sold, including Aetna's divested standalone Medicare Part D, domestic group life insurance, group disability insurance and absence management businesses.

Financial Risks

Goodwill and other intangible assets could, in the future, become impaired.

As of December 31, 2018, we had $115.2 billion of goodwill and other intangible assets. During the year ended December 31, 2018, we took $6.1 billion of goodwill impairment charges related to our LTC reporting unit. Goodwill and indefinitely-lived intangible assets are subject to annual impairment reviews, or more frequent reviews if events or circumstances indicate that the carrying value may not be recoverable. When evaluating goodwill for potential impairment, we compare the fair value of our reporting units to their respective carrying amounts. We estimate the fair value of our reporting units using a combination of a discounted cash flow method and a market multiple method. If the carrying amount of a reporting unit exceeds its estimated fair value, a goodwill impairment loss is recognized in an amount equal to the excess to the extent of the goodwill balance. Estimated fair values could change if, for example, there are changes in the business climate, changes in the competitive environment, adverse legal or regulatory actions or developments, changes in capital structure, cost of debt, interest rates, capital expenditure levels, operating cash flows or market capitalization. Because of the significance of our goodwill and intangible assets, any future impairment of these assets could require material noncash charges to our results of operations, which could have a material adverse effect on our financial condition and results of operations.

We would be adversely affected if we do not effectively deploy our capital. Downgrades or potential downgrades in our credit ratings, should they occur, could adversely affect our brand and reputation, businesses, cash flows, financial condition and results of operations.

Our operations generate significant capital, and we have the ability to raise additional capital. The manner in which we deploy our capital, including investments in our businesses, our operations (such as information technology and other strategic and capital projects), dividends, acquisitions, share and/or debt repurchases, repayment of debt, reinsurance or other capital uses, impacts our financial strength, claims paying ability and credit ratings issued by recognized rating organizations. Credit ratings issued by nationally-recognized organizations are broadly distributed and generally used throughout our industries. Our ratings reflect each rating organization's opinion of our financial strength, operating performance and ability to meet our debt obligations or obligations to our insureds. We believe our credit ratings and the financial strength and claims paying ability of

our principal insurance and HMO subsidiaries are important factors in marketing our Health Care Benefits products to certain of our customers.

Each of the ratings organizations reviews our ratings periodically, and there can be no assurance that our current ratings will be maintained in the future. In connection with the completion of the Aetna Acquisition, each of Standard & Poor's, Moody's and Fitch downgraded certain of our debt, financial strength and/or other credit ratings. Downgrades in our ratings could adversely affect our businesses, cash flows, financial condition and results of operations.

Adverse conditions in the U.S. and global capital markets can significantly and adversely affect the value of our investments in debt and equity securities, mortgage loans, alternative investments and other investments, our results of operations and/or our financial condition.

The global capital markets, including credit markets, continue to experience volatility and uncertainty. As an insurer, we have a substantial investment portfolio that supports our policy liabilities and surplus and is comprised largely of debt securities of issuers located in the United States. As a result, the income we earn from our investment portfolio is largely driven by the level of interest rates in the United States, and to a lesser extent the international financial markets; and volatility, uncertainty and/or disruptions in the global capital markets, particularly the United States credit markets, and governments' monetary policy, particularly United States monetary policy, can significantly and adversely affect the value of our investment portfolio, our results of operations and/or our financial condition by:

- Significantly reducing the value and/or liquidity of the debt securities we hold in our investment portfolio and creating realized capital losses that reduce our results of operations and/or unrealized capital losses that reduce our shareholders' equity;
- Keeping interest rates low on high-quality short-term or medium-term debt securities (such as we have experienced during recent years) and thereby materially reducing our net investment income and results of operations as the proceeds from securities in our investment portfolio that mature or are otherwise disposed of continue to be reinvested in lower yielding securities;
- Reducing the fair values of our investments if interest rates rise;
- Causing non-performance or defaults on their obligations to us by third parties, including customers, issuers of securities in our investment portfolio, mortgage borrowers and/or reinsurance and/or derivatives counterparties;
- Making it more difficult to value certain of our investment securities, for example if trading becomes less frequent, which could lead to significant period-to-period changes in our estimates of the fair values of those securities and cause period-to-period volatility in our net income and shareholders' equity;
- Reducing our ability to issue short-term debt securities at attractive interest rates, thereby increasing our interest expense and decreasing our results of operations; and
- Reducing our ability to issue other securities.

Although we seek, within guidelines we deem appropriate, to match the duration of our assets and liabilities and to manage our credit and counterparty exposures, a failure adequately to do so could adversely affect our net income and our financial condition and, in extreme circumstances, our cash flows.

Risks Relating to Our Acquisition of Aetna

We have limited experience in the insurance and managed health care industry, which may hinder our ability to achieve our objectives as a combined company.

We have limited experience operating an insurance and managed health care business, and are relying in large part on the existing management of Aetna to continue to manage our Health Care Benefits business. However, there is no assurance that we will be able to continue to retain the services of such management. If we fail to retain the existing management of Aetna, our ability to realize the anticipated benefits of the transaction may be adversely affected.

The Aetna Acquisition may not be accretive, and may be dilutive, to our earnings per share, which may adversely affect our stock price.

Although we currently project that the Aetna Acquisition will result in a number of benefits, including that it will be accretive to our earnings per share, changes in the estimates we use for these projections and the impact of future events and conditions, some of which we do not control, could cause actual results to be lower than these projections. In addition, future events and

conditions could decrease or delay the accretion that is currently projected or could result in dilution. These events and conditions include adverse changes in market conditions, changes in the regulatory environment, additional transaction and integration-related costs and other factors such as the failure to realize some or all of the anticipated benefits of the Aetna Acquisition. Any dilution of, decrease in or delay of any accretion to, our earnings per share could cause our stock price to decline or grow at a reduced rate.

We may fail to successfully combine the businesses and operations of CVS Health and Aetna to realize the anticipated benefits and cost savings of the Aetna Acquisition within the anticipated timeframe or at all, which could adversely affect our stock price.

The success of the Aetna Acquisition will depend, in part, on our ability to realize the anticipated benefits and cost savings from combining the businesses of CVS Health and Aetna. Our ability to realize these anticipated benefits and cost savings is subject to certain risks, including:

- Our ability to successfully combine the businesses of CVS Health and Aetna;
- whether the combined businesses will perform as expected;
- the possibility that we paid more for Aetna than the value we will derive from the acquisition;
- the reduction of our cash available for operations and other uses and the incurrence of indebtedness to finance the acquisition; and
- the assumption of known and unknown liabilities of Aetna.

If we are not able to successfully combine the businesses of CVS Health and Aetna within the anticipated time frame, the anticipated cost savings and other benefits of the Aetna Acquisition may not be realized fully or may take longer to realize than expected, the combined businesses may not perform as expected, and our stock price may be adversely affected.

Until the completion of the Aetna Acquisition, we and Aetna operated independently, and there can be no assurances that our respective businesses can be integrated successfully. It is possible that the integration process could result in the loss of key CVS Health or Aetna employees, the disruption of either company's or both companies' ongoing businesses or in unexpected integration issues, higher than expected integration costs and an overall post-completion integration process that takes longer than originally anticipated. Specifically, issues that must be addressed in integrating the operations of CVS Health and Aetna in order to realize the anticipated benefits of the Aetna Acquisition so the combined business performs as expected include, among other things:

- combining the companies' separate operational, financial, reporting and corporate functions;
- integrating the companies' technologies, products and services;
- identifying and eliminating redundant and underperforming operations and assets;
- harmonizing the companies' operating practices, employee development, compensation and benefit programs, internal controls and other policies, procedures and processes;
- addressing possible differences in business backgrounds, corporate cultures and management philosophies;
- consolidating the companies' corporate, administrative and information technology infrastructure;
- coordinating sales, distribution and marketing efforts;
- managing the movement of certain businesses and positions to different locations;
- maintaining existing agreements with customers, providers and vendors and avoiding delays in entering into new agreements with prospective customers, providers and vendors;
- operating in industry sectors in which we and our current management may have little or no experience;
- coordinating geographically dispersed organizations;
- consolidating offices of CVS Health and Aetna that are currently in or near the same location; and
- effecting the actions that are required by regulatory approvals we obtained in connection with completing the Aetna Acquisition.

In addition, at times, the attention of certain members of our management and our resources will be focused on the integration of the businesses of the two companies and diverted from day-to-day business operations, which may adversely affect our businesses.

Our future results may be adversely impacted if we do not effectively manage our expanded operations following completion of the Aetna Acquisition.

Following completion of the Aetna Acquisition our business is significantly larger than the size of either CVS Health's or Aetna's respective pre-transaction businesses. The combined company's ability to successfully manage this expanded business will depend, in part, upon management's ability to implement an effective integration of the two companies and its ability to manage a combined business with significantly larger size and scope with the associated increased costs and complexity. There can be no assurances that the management of the combined company will be successful or that the combined company will realize the expected operating efficiencies, cost savings and other benefits currently anticipated from the Aetna Acquisition. If we are not able to fully realize the expected operating efficiencies, cost savings and other benefits anticipated from the Aetna Acquisition, or such benefits take longer to realize than expected, our combined businesses may not perform as expected and our stock price may be adversely affected.

We may have difficulty attracting, motivating and retaining executives and other key employees following completion of the Aetna Acquisition.

Our future success will depend in part on our ability to retain key executives and other employees of Aetna. Uncertainty about the effect of the Aetna Acquisition on CVS Health and Aetna employees may have an adverse effect on the combined company and consequently the combined business. This uncertainty may impair our ability to attract, retain and motivate key personnel. Employee retention may be particularly challenging during the integration process, as employees of CVS Health and Aetna may experience uncertainty about their future roles in the combined business.

Furthermore, if key employees of CVS Health or Aetna depart or are at risk of departing, including because of issues relating to the uncertainty and difficulty of integration, financial security or a desire not to remain as employees of the combined business, we may have to incur significant costs in retaining such individuals or in identifying, hiring and retaining replacements for departing employees and may lose significant expertise and talent relating to the business of Aetna, and our ability to realize the anticipated benefits of the Aetna Acquisition may be materially and adversely affected. Accordingly, no assurance can be given that we will be able to attract or retain key employees of Aetna to the same extent that Aetna was able to attract or retain employees in the past.

The Aetna integration process could disrupt our ongoing businesses and/or operations.

Parties with which we do business may experience uncertainty associated with the Aetna Acquisition and/or the post-closing integration process, including with respect to current or future business relationships with the combined business. Our business relationships (including business relationships of our Health Care Benefits segment) may be subject to disruption as customers, members, manufacturers, providers, vendors and others may attempt to negotiate changes in existing business relationships or consider entering into business relationships with parties other than the combined business. These disruptions could have a material adverse effect on the businesses, financial condition, results of operations or prospects of one or more of the combined company's businesses, including a material adverse effect on our ability to realize the anticipated benefits of the Aetna Acquisition.

Our indebtedness following completion of the Aetna Acquisition is substantially greater than our indebtedness on a stand-alone basis and greater than the combined indebtedness of CVS Health and Aetna existing prior to the announcement of the transaction. This increased level of indebtedness could adversely affect our business flexibility and increase our borrowing costs.

In order to complete the Aetna Acquisition, we incurred acquisition-related debt financing of approximately $45.0 billion and assumed Aetna's existing indebtedness with a fair value of approximately $8.1 billion. Our substantially increased indebtedness and higher debt-to-equity ratio following completion of the Aetna Acquisition in comparison to that of CVS Health prior to the Aetna Acquisition has the effect, among other things, of reducing our flexibility to respond to changing business and economic conditions and increases our interest expense compared to pre Aetna Acquisition periods. In addition, the amount of cash required to service our increased indebtedness levels and thus the demands on our cash resources are greater than the amount of cash flows required to service the indebtedness of CVS Health or Aetna individually prior to the Aetna Acquisition. The increased levels of indebtedness could also reduce funds available to fund our efforts to combine our business with Aetna and realize expected benefits of the Aetna Acquisition and/or engage in

investments in product development, capital expenditures, dividend payments, share repurchases and other activities and may create competitive disadvantages for us relative to other companies with lower debt levels.

We will continue to incur significant integration-related costs in connection with the Aetna Acquisition.

We expect to continue to incur significant non-recurring costs associated with combining the operations of CVS Health and Aetna. We expect to continue to incur significant integration-related costs related to formulating and implementing integration plans, including facilities and systems consolidation costs and employment-related costs. We continue to assess the magnitude of these costs, and additional unanticipated costs may be incurred in the integration of the two companies' businesses. We may not achieve the net benefit of such expenditures that we project associated with the elimination of duplicative costs, as well as the realization of other efficiencies related to the integration of our businesses in the near term, or at all. If we fail to realize the expected expense and other efficiencies we project, our results of operations, cash flows and stock price may be adversely affected.

Risks Related to Our Acquisitions, Joint Ventures and International Operations

We expect to continue to pursue acquisitions, joint ventures, strategic alliances and other inorganic growth opportunities, which may be unsuccessful, cause us to assume unanticipated liabilities, disrupt our existing businesses, be dilutive or lead us to assume significant debt, among other things.

We expect to continue to pursue acquisitions, joint ventures, strategic alliances and other inorganic growth opportunities as part of our growth strategy. In addition to integration risks, some other risks we face with respect to acquisitions and other inorganic growth strategies include:

- We frequently compete with other firms, some of which may have greater financial and other resources and a greater tolerance for risk, to acquire attractive companies;
- The acquired, alliance and/or joint venture businesses may not perform as projected;
- The goodwill or other intangible assets established as a result of our acquisitions may be incorrectly valued or may become non-recoverable;
- We may assume unanticipated liabilities, including those that were not disclosed to us or which we underestimated;
- The acquired businesses, or the pursuit of other inorganic growth strategies, could disrupt or compete with our existing businesses, distract management, result in the loss of key employees, divert resources, result in tax costs or inefficiencies and make it difficult to maintain our current business standards, controls, information technology systems, policies, procedures and performance;
- We may finance future acquisitions and other inorganic growth strategies by issuing common stock for some or all of the purchase price, which would dilute the ownership interests of our shareholders;
- We may incur significant debt in connection with acquisitions (whether to finance acquisitions or by assuming debt from the businesses we acquire);
- We may not have the expertise to manage and profitably grow the businesses we acquire, and we may need to rely on the retention of key personnel and other suppliers of businesses we acquire, which may be difficult or impossible to accomplish;
- We may enter into merger or purchase agreements but, due to reasons within or outside our control, fail to complete the related transactions, which could result in termination fees or other penalties that could be material, material disruptions to our businesses and operations and adversely affect our brand and reputation;
- In order to complete a proposed acquisition, we may be required to divest certain portions of our business;
- We may be involved in litigation related to mergers or acquisitions, including for matters which occurred prior to the applicable closing, which may be costly to defend and may result in adverse rulings against us that could be material; and
- The integration into our businesses of the businesses and entities we acquire may affect the way in which existing laws and regulations apply to us, including subjecting us to laws and regulations that did not previously apply to us.

We expect joint ventures to be an important part of our business model transformation and inorganic growth strategies. Joint ventures present risks that are different from acquisitions, including selection of appropriate joint venture parties, initial and ongoing governance of the joint venture, joint venture compliance activities (including compliance with applicable CMS requirements), growing the joint venture's business in a manner acceptable to all the parties, including

other providers in the networks that include joint ventures, maintaining positive relationships among the joint venture parties and the customers, and member and business disruption that may occur upon joint venture termination.

We may be unable to successfully integrate companies we acquire.

Upon the closing of any acquisition we complete, we will need to successfully integrate the products, services and related assets, as well as internal controls into our business operations. If an acquisition is consummated, the integration of the acquired business, its products, services and related assets into our company may also be complex and time-consuming and, if the integration is not fully successful, we may not achieve the anticipated benefits, operating and cost synergies or growth opportunities of an acquisition. Potential difficulties that may be encountered in the integration process include the following:

- Integrating personnel, operations and systems (including internal control environments and compliance policies), while maintaining focus on producing and delivering consistent, high quality products and services;
- Coordinating geographically dispersed organizations;
- Disruption of management's attention from our ongoing business operations;
- Retaining existing customers and attracting new customers; and
- Managing inefficiencies associated with integrating our operations.

An inability to realize the full extent of the anticipated benefits, operating and cost synergies, innovations and operations efficiencies or growth opportunities of an acquisition, as well as any delays or additional expenses encountered in the integration process, could have a material adverse effect on our businesses and results of operations. Furthermore, acquisitions, even if successfully integrated, may fail to further our business strategy as anticipated, expose us to increased competition or challenges with respect to our products, services or geographic markets, and expose us to additional liabilities associated with an acquired business including risks and liabilities associated with litigation involving the acquired business. Any one of these challenges or risks could impair our ability to realize any benefit from our acquisitions after we have expended resources on them.

As a result of our expanded international operations, we face political, legal and compliance, operational, regulatory, economic and other risks that we do not face or are more significant than in our domestic operations.

We significantly expanded our international operations as a result of the closing of the Aetna Acquisition in November 2018. As a result of our expanded international operations, we face political, legal, compliance, operational, regulatory, economic and other risks that we do not face or that are more significant than in our domestic operations. These risks vary widely by country and include varying regional and geopolitical business conditions and demands, government intervention and censorship, discriminatory regulation, nationalization or expropriation of assets and pricing constraints. Our international products need to meet country-specific customer and member preferences as well as country-specific legal requirements, including those related to licensing, privacy, data storage, location, protection and security.

Our international operations increase our exposure to, and require us to devote significant management resources to implement controls and systems to comply with, the privacy and data protection laws of non-U.S. jurisdictions and the anti-bribery, anti-corruption and anti-money laundering laws of the United States (including the FCPA) and the United Kingdom (including the UK Bribery Act) and similar laws in other jurisdictions. Implementing our compliance policies, internal controls and other systems upon our expansion into new countries and geographies may require the investment of considerable management time and management, financial and other resources over a number of years before any significant revenues or profits are generated. Violations of these laws and regulations could result in fines, criminal sanctions against us, our officers or employees, restrictions or outright prohibitions on the conduct of our business, and significant brand and reputational harm. We must regularly reassess the size, capability and location of our global infrastructure and make appropriate changes, and must have effective change management processes and internal controls in place to address changes in our businesses and operations. Our success depends, in part, on our ability to anticipate these risks and manage these difficulties, and the failure to do so could have a material adverse effect on our businesses, results of operations, financial condition, brand, reputation and/or long-term growth.

Our international operations require us to overcome logistical and other challenges based on differing languages, cultures, legal and regulatory schemes and time zones. Our international operations encounter labor laws, standards and customs that can be difficult and make employee relationships less flexible than in our domestic operations and expensive to

modify or terminate. In some countries we are required to, or choose to, operate with local business associates, which requires us to manage our relationships with these third parties and may reduce our operational flexibility and ability to quickly respond to business challenges.

In some countries we may be exposed to currency exchange controls or other restrictions that prevent us from transferring funds internationally or converting local currencies into U.S. dollars or other currencies. Fluctuations in foreign currency exchange rates may adversely affect our revenues, results of operations and cash flows from our international operations. Some of our operations are, and are increasingly likely to be, in emerging markets where these risks are heightened. Any measures we may implement to reduce the effect of volatile currencies and other risks on our international operations may not be effective.

Item 1B. Unresolved Staff Comments

There are no unresolved SEC Staff Comments.

Item 2. Properties

The Company's principal office is an owned building complex located in Woonsocket, Rhode Island, which totals approximately one million square feet. In addition, the Company leases corporate offices in Arizona, Illinois, Ohio, Pennsylvania, Texas, and Brazil.

Pharmacy Services Segment

As of December 31, 2018, the Pharmacy Services segment had the following properties:

- An owned mail service dispensing pharmacy located in Texas;
- Leased mail order dispensing pharmacies located in Hawaii, Illinois and Pennsylvania;
- Leased call centers located in California, Missouri, Pennsylvania, Tennessee and Texas;
- Approximately 40 leased on-site pharmacy stores, approximately 25 leased retail specialty pharmacy stores, approximately 20 specialty mail order pharmacies and approximately 90 branches for infusion and enteral services.

Retail/LTC Segment

As of December 31, 2018, the Retail/LTC segment had the following properties:

- Approximately 8,200 retail stores, of which approximately 4% were owned. Net selling space for retail stores was approximately 80.5 million square feet as of December 31, 2018. Approximately 25% of the store base was opened or significantly remodeled within the last five years;
- Approximately 1,700 retail pharmacies and approximately 80 clinics in Target stores;
- Nine owned distribution centers located in eight states and 13 leased distribution facilities located in twelve additional states and Brazil. The 22 distribution centers totaled approximately 10.4 million square feet as of December 31, 2018; and
- Six owned LTC pharmacies, approximately 150 leased LTC pharmacies in 46 states and one owned LTC repackaging facility.

In connection with certain business dispositions completed between 1991 and 1997, the Company continues to guarantee lease obligations for approximately 85 former stores. The Company is indemnified for these guarantee obligations by the respective purchasers. These guarantees generally remain in effect for the initial lease term and any extension thereof pursuant to a renewal option provided for in the lease prior to the time of the disposition. For additional information on these guarantees, see "Lease Guarantees" in Note 16 "Commitments and Contingencies" contained in the "Notes to Consolidated Financial Statements" in the Annual Report, which is incorporated by reference herein.

Health Care Benefits Segment

The Health Care Benefits segment's principal office is an owned building complex that is approximately 1.7 million square feet in size and is located in Hartford, Connecticut. The Health Care Benefits segment also owns or leases other space in the greater Hartford area, Maryland, Pennsylvania, and various field locations in the United States and several other countries.

Management believes that the Company's owned and leased facilities are suitable and adequate to meet the Company's anticipated needs. At the end of the existing lease terms, management believes the leases can be renewed or replaced by

alternative space. For additional information on the amount of rental obligations for the Company's leases, see Note 6 ''Leases'' contained in the "Notes to Consolidated Financial Statements" in the Annual Report, which is incorporated by reference herein.

Item 3. Legal Proceedings

I. Legal Proceedings

The information contained in Note 16 ''Commitments and Contingencies'' of the "Notes to Consolidated Financial Statements" in the Annual Report is incorporated by reference herein.

II. Environmental Matters

Item 103 of SEC Regulation S-K requires disclosure of environmental legal proceedings with a governmental authority if management reasonably believes that the proceedings involve potential monetary sanctions of $100,000 or more. The Company is in the process of negotiating with the New York State Department of Environmental Conservation to resolve claims of alleged historical noncompliance with hazardous waste regulations in connection with LTC pharmacies in the State of New York. These proceedings are not material to the Company's business or financial condition.

Item 4. Mine Safety Disclosures

Not applicable.

PART II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Market information

The Company's common stock is listed on the New York Stock Exchange under the symbol "CVS."

Holders of common stock

The information under the heading "Holders of Common Stock" in the Annual Report is incorporated by reference herein.

Dividends

The quarterly cash dividend declared by the Company's Board of Directors (the "Board") was $0.50 per share in 2018 and 2017.

CVS Health has paid cash dividends every quarter since becoming a public company. Future dividends will depend on the Company's earnings, capital requirements, financial condition and other factors considered relevant by the Board.

Issuer purchases of equity securities

The following share repurchase programs were authorized by the Board:

In billions			Remaining as of
Authorization Date		**Authorized**	**December 31, 2018**
November 2, 2016 ("2016 Repurchase Program")	$	15.0	$ 13.9
December 15, 2014 ("2014 Repurchase Program")		10.0	—

The share Repurchase Programs, each of which was effective immediately, permit the Company to effect repurchases from time to time through a combination of open market repurchases, privately negotiated transactions, accelerated share repurchase transactions, and/or other derivative transactions. The 2016 Repurchase Program can be modified or terminated by the Board at any time. During the three months ended December 31, 2018 the Company did not repurchase any shares of common stock.

See Note 12 ''Shareholders' Equity'' of the "Notes to Consolidated Financial Statements" in the Annual Report, which is incorporated by reference herein, for additional information regarding the Company's share repurchases.

Item 6. Selected Financial Data

The selected consolidated financial data of CVS Health Corporation as of and for the periods indicated in the five-year period ended December 31, 2018, have been derived from the consolidated financial statements of CVS Health Corporation and is incorporated herein by reference to the information contained in the Annual Report under the heading "Five-Year Financial Summary." The selected consolidated financial data should be read in conjunction with the consolidated financial statements and the audit reports of Ernst & Young LLP, which are incorporated by reference elsewhere in this Annual Report on Form 10-K.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

The information contained in "Management's Discussion and Analysis of Financial Condition and Results of Operations" in the Annual Report, which includes the "Cautionary Statement Concerning Forward-Looking Statements" at the end of such section, is incorporated by reference herein.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

The information contained in "Management's Discussion and Analysis of Financial Condition and Results of Operations — Quantitative and Qualitative Disclosures About Market Risk" in the Annual Report is incorporated by reference herein.

Item 8. Financial Statements and Supplementary Data

The information contained in "Consolidated Statements of Operations," "Consolidated Statements of Comprehensive Income (Loss)," "Consolidated Balance Sheets," "Consolidated Statements of Shareholders' Equity," "Consolidated Statements of Cash Flows," "Notes to Consolidated Financial Statements," and "Report of Independent Registered Public Accounting Firm" in the Annual Report, is incorporated by reference herein.

Item 9. Changes in and Disagreements With Accountants on Accounting and Financial Disclosure

None.

Item 9A. Controls and Procedures

Evaluation of disclosure controls and procedures

The Company's Chief Executive Officer and Chief Financial Officer, after evaluating the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rules 13a-15 (f) and 15d-15(f) under the Securities Exchange Act of 1934) as of December 31, 2018, have concluded that as of such date the Company's disclosure controls and procedures were adequate and effective at a reasonable assurance level and designed to ensure that material information relating to the Company and its consolidated subsidiaries would be made known to such officers on a timely basis.

Internal control over financial reporting

The "Management's Report on Internal Control Over Financial Reporting" and "Report of Independent Registered Public Accounting Firm" sections of the Annual Report are incorporated by reference herein. These sections contain management's report on the Company's internal control over financial reporting and the Independent Registered Public Accounting Firm's report with respect to the effectiveness the Company's internal control over financial reporting.

Changes in internal control over financial reporting

On November 28, 2018, the Company completed its acquisition of Aetna. In conducting its assessment of the effectiveness of the Company's internal control over financial reporting as of December 31, 2018, management has elected to exclude Aetna from that assessment, as permitted under SEC rules. The Company is in the process of integrating the historical internal control over financial reporting of Aetna with the rest of the Company. Aetna's

operations are included in the Company's 2018 consolidated financial statements for the period from November 28, 2018 to December 31, 2018 and represented 21% of the Company's consolidated total assets as of December 31, 2018 and 3% of the Company's consolidated total revenues for the year ended December 31, 2018.

Other than the foregoing, there has been no change in the Company's internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Rule 13a-15 or Rule 15d-15 that occurred during the fourth quarter ended December 31, 2018 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Item 9B. Other Information

No events have occurred during the fourth quarter ended December 31, 2018 that would require disclosure under this item.

PART III

Item 10. Directors, Executive Officers and Corporate Governance

The sections of the Proxy Statement under the captions "Committees of the Board," "Code of Conduct," "Audit Committee Report," "Biographies of our Incumbent Board Nominees," and "Section 16(a) Beneficial Ownership Reporting Compliance" are incorporated by reference herein.

Executive Officers of the Registrant

The following sets forth the name, age and biographical information for each of the Registrant's executive officers as of February 28, 2019. In each case the officer's term of office extends to the date of the board of directors meeting following the next annual meeting of stockholders of the Company. Previous positions and responsibilities held by each of the executive officers over the past five years or more are indicated below:

Lisa G. Bisaccia, age 62, Executive Vice President of CVS Health Corporation since March 2016 and Chief Human Resources Officer of CVS Health Corporation since January 2010; Senior Vice President of CVS Health Corporation from January 2010 through February 2016; Vice President, Human Resources of CVS Pharmacy, Inc. from September 2004 through December 2009. Ms. Bisaccia is also a member of the board of directors of Aramark, a leading global provider of food, facilities and uniform services.

Eva C. Boratto, age 52, Executive Vice President and Chief Financial Officer of CVS Health Corporation since November 2018; Executive Vice President - Controller and Chief Accounting Officer of CVS Health Corporation from March 2017 through November 2018; Senior Vice President - Controller and Chief Accounting Officer of CVS Health Corporation from July 2013 through February 2017; Senior Vice President of PBM Finance from July 2010 through June 2013.

Troyen A. Brennan, M.D., age 64, Executive Vice President and Chief Medical Officer of CVS Health Corporation since November 2008; Executive Vice President and Chief Medical Officer of Aetna Inc. from February 2006 through November 2008.

James D. Clark, age 54, Senior Vice President - Controller and Chief Accounting Officer of CVS Health Corporation since November 2018; Vice President - Finance and Accounting of CVS Pharmacy, Inc. from September 2009 through October 2018.

Joshua M. Flum, age 49, Executive Vice President, Enterprise Strategy and Digital since November 2018; Executive Vice President, Corporate Strategy and Business Development of CVS Pharmacy, Inc. from June 2016 through October 2018; Executive Vice President - Pharmacy Services of CVS Pharmacy, Inc. from March 2015 through May 2016; Senior Vice President of Retail Pharmacy of CVS Pharmacy, Inc. from December 2010 through February 2015. Mr. Flum is a member of the board of directors of CreditRiskMonitor.com, Inc., a company that facilitates the analysis of corporate financial risk, mostly in the context of the extension of trade credit from one business to another.

Kevin P. Hourican, age 45, Executive Vice President of CVS Health Corporation and President of CVS Pharmacy since April 2018; Executive Vice President - Retail Pharmacy and Supply Chain of CVS Pharmacy, Inc. from June 2016 through March 2018; Senior Vice President, Field Operations and Supply Chain of CVS Pharmacy, Inc. from June 2014 through May 2016; Senior Vice President, Field Operations of CVS Pharmacy, Inc. from June 2012 through May 2014.

Alan M. Lotvin, M.D., age 57, Executive Vice President - Transformation of CVS Health Corporation since June 2018; Executive Vice President - Specialty Pharmacy, CVS Caremark from November 2012 through May 2018.

Karen S. Lynch, age 56, Executive Vice President of CVS Health Corporation and President of Aetna since November 2018; President of Aetna from January 2015 to the present; Executive Vice President, Local and Regional Businesses of Aetna from February 2013 through December 2014; Executive Vice President, Head of Specialty Products of Aetna from July 2012 through January 2013. Ms. Lynch is a member of the board of directors of U.S. Bancorp, a banking and financial services company.

Larry J. Merlo, age 63, President and Chief Executive Officer of CVS Health Corporation since March 2011; President and Chief Operating Officer of CVS Health Corporation from May 2010 through March 2011; President of CVS Pharmacy from January 2007 through August 2011; Executive Vice President of CVS Health Corporation from January 2007 through May 2010; also a director of CVS Health Corporation since May 2010.

Thomas M. Moriarty, age 55, Executive Vice President and General Counsel of CVS Health Corporation since October 2012 and Chief Policy and External Affairs Officer since March 2017; Chief Strategy Officer from March 2014 through February 2017.

Derica W. Rice, age 54, Executive Vice President of CVS Health Corporation and President of CVS Caremark since March 2018; Executive Vice President of Global Services and Chief Financial Officer of Eli Lilly & Co. from May 2006 through December 2017. Mr. Rice was formerly a director of Target Corporation from September 2007 until January 2018, and is a candidate for election to the board of directors of The Walt Disney Company in March 2019.

Jonathan C. Roberts, age 63, Executive Vice President and Chief Operating Officer of CVS Health Corporation since March 2017; Executive Vice President of CVS Health Corporation and President of CVS Caremark from September 2012 through February 2017; Executive Vice President of CVS Health Corporation and Chief Operating Officer of CVS Caremark from October 2010 through August 2011.

Item 11. Executive Compensation

The sections of the Proxy Statement under the captions “Non-Employee Director Compensation” and “Executive Compensation and Related Matters,” including “Compensation Discussion and Analysis,” “Letter from the Management Planning and Development Committee,” “Compensation Committee Report” and “Executive Compensation Tables” are incorporated by reference herein.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

The sections of the Proxy Statement under the captions “Share Ownership of Directors and Certain Executive Officers” and “Share Ownership of Principal Stockholders” are incorporated by reference herein. Those sections contain information concerning security ownership of certain beneficial owners and management and related stockholder matters.

The following table summarizes information about the Company’s common stock that may be issued upon the exercise of options, warrants and rights under all of equity compensation plans as of December 31, 2018.

	Number of securities to be issued upon exercise of outstanding options, warrants and rights [1][2] (a)	Weighted average exercise price of outstanding options, warrants and rights (b)	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in first column) [1] (c)
Equity compensation plans approved by stockholders [3]	27,102	$ 77.51	25,927
Equity compensation plans not approved by stockholders [4][5]	5,136	43.01	31,633

Total	32,238	$ 75.04	57,560

(1) Shares in thousands.
(2) Consists of: (i) 18,597 shares of common stock underlying outstanding options, (ii) 1,435 shares of common stock issuable upon the exercise of outstanding stock appreciation rights ("SARs") and (iii) 12,206 shares of common stock issuable on the vesting of outstanding restricted stock units, deferred stock units and performance stock units, assuming target level performance in the case of performance stock units. The number of shares included with respect to

outstanding SARs is the number of shares of the Company's common stock that would have been issued had the SARs been exercised based on the closing price per share of the Company's common stock on December 31, 2018, as reported on the NYSE, which was $65.52.

(3) Consists of the CVS Health 2017 Incentive Compensation Plan.
(4) Consists of the Amended Aetna Inc. 2010 Stock Incentive Plan (the "Aetna Stock Plan").
(5) Amount in column (c) consists of the maximum number of shares of the Company's common stock available for future issuance under the Aetna Stock Plan as of December 31, 2018.

The Aetna Stock Plan was last approved by Aetna's shareholders at Aetna's 2017 Annual Meeting on May 19, 2017. The Company elected to continue to grant awards under the Aetna Stock Plan to employees of Aetna and its subsidiaries following the completion of the Aetna Acquisition. The Aetna Stock Plan is designed to promote the Company's interests and those of its stockholders and to further align the interests of stockholders and employees by tying awards to total return to stockholders, enabling plan participants to acquire additional equity interests in the Company and providing compensation opportunities dependent upon the Company's performance. The Aetna Stock Plan has not been submitted to the Company's stockholders and will expire on May 21, 2020.

Under the Aetna Stock Plan, eligible participants can be granted stock options to purchase shares of the Company's common stock, SARs, time vesting and/or performance vesting incentive stock or incentive units and other stock based awards. As of December 31, 2018, the maximum number of shares of the Company's common stock that may be issued under the awards outstanding under the Aetna Stock Plan was 5.1 million shares, subject to adjustment for corporate transactions and 31.6 million shares remained available for future awards. If an award under the Aetna Stock Plan is paid solely in cash, no shares are deducted from the number of shares available for issuance under the Aetna Stock Plan.

Item 13. Certain Relationships and Related Transactions, and Director Independence

The sections of the Proxy Statement under the captions "Independence Determinations for Directors" and "Related Person Transaction Policy" are incorporated by reference herein.

Item 14. Principal Accounting Fees and Services

The section of the Proxy Statement under the caption "Item 2: Ratification of Appointment of Independent Registered Public Accounting Firm" is incorporated by reference herein.

PART IV

Item 15. Exhibits, Financial Statement Schedules

The following documents are filed as part of this Annual Report on Form 10-K:

1. Financial Statements. The following financial statements, related notes and report are incorporated by reference from the Annual Report in Item 8 hereof:

Consolidated Statements of Operations for the Years Ended December 31, 2018, 2017 and 2016
Consolidated Statements of Comprehensive Income (Loss) for the Years Ended December 31, 2018, 2017 and 2016
Consolidated Balance Sheets as of December 31, 2018 and 2017
Consolidated Statements of Cash Flows for the Years Ended December 31, 2018, 2017 and 2016
Consolidated Statements of Shareholders' Equity for the Years Ended December 31, 2018, 2017 and 2016
Notes to Consolidated Financial Statements
Report of Independent Registered Public Accounting Firm

2. Financial Statement Schedules. All financial statement schedules are omitted because they are not applicable, not required under the instructions, or the information is included in the consolidated financial statements or related notes.

3. Exhibits. The exhibits listed in the "Index to Exhibits" in this Item 15 are filed or incorporated by reference as part of this Annual Report on Form 10-K. Exhibits marked with an asterisk (*) are management contracts or compensatory plans or arrangements. Exhibits other than those listed are omitted because they are not required to be listed or are not applicable. Pursuant to Item 601(b)(4)(iii) of Regulation S-K, the Registrant hereby agrees to furnish to the Securities and Exchange Commission a copy of any omitted instrument that is not required to be listed.

INDEX TO EXHIBITS

Exhibit	Description
2	**Plan of acquisition, reorganization, arrangement, liquidation or succession**

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes ☒ No ☐

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes ☐ No ☒

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports) and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☒ No ☐

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K. ☒

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b−2 of the Exchange Act.

Large accelerated filer ☒	Accelerated filer ☐
Non-accelerated filer ☐ (Do not check if a smaller reporting company)	Smaller reporting company ☐
	Emerging growth company ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes ☐ No ☒

The aggregate market value of the registrant's common stock held by non-affiliates was approximately $81,440,458,676 as of June 30, 2017, based on the closing price of the common stock on the New York Stock Exchange. For purposes of this calculation, only executive officers and directors are deemed to be the affiliates of the registrant.

As of February 9, 2018, the registrant had 1,014,532,157 shares of common stock issued and outstanding.

DOCUMENTS INCORPORATED BY REFERENCE

Filings made by companies with the Securities and Exchange Commission sometimes "incorporate information by reference." This means that the company is referring you to information that was previously filed or is to be filed with the SEC, and this information is considered to be part of the filing you are reading. The following materials are incorporated by reference into this Form 10-K:

Portions of our Annual Report to Stockholders for the fiscal year ended December 31, 2017 are incorporated by reference in our response to Items 7, 8 and 9 of Part II.

Information contained in our Proxy Statement for the 2018 Annual Meeting of Stockholders is incorporated by reference in our response to Items 10 through 14 of Part III.

PART I

Item 1. Business

Overview

CVS Health Corporation, together with its subsidiaries (collectively, "CVS Health," the "Company," "we," "our" or "us"), is a pharmacy innovation company helping people on their path to better health. At the forefront of a changing health care landscape, the Company has an unmatched suite of capabilities and the expertise needed to drive innovations that will help shape the future of health care.

We are currently the only integrated pharmacy health care company with the ability to impact consumers, payors, and providers with innovative, channel-agnostic solutions. We have a deep understanding of their diverse needs through our unique integrated model, and we are bringing them innovative solutions that help increase access to quality care, deliver better health outcomes and lower overall health care costs.

Through more than 9,800 retail locations, more than 1,100 walk-in health care clinics, a leading pharmacy benefits manager with more than 94 million plan members, a dedicated senior pharmacy care business serving more than one million patients per year, expanding specialty pharmacy services and a leading stand-alone Medicare Part D prescription drug plan, we enable people, businesses, and communities to manage health in more affordable, effective ways. We are delivering break-through products and services, from advising patients on their medications at our CVS Pharmacy® locations, to introducing unique programs to help control costs for our clients at CVS Caremark®, to innovating how care is delivered to our patients with complex conditions through CVS Specialty®, to improving pharmacy care for the senior community through Omnicare®, or by expanding access to high-quality, low-cost care at CVS MinuteClinic®.

We have three reportable segments: Pharmacy Services, Retail/LTC and Corporate.

Proposed Acquisition of Aetna

On December 3, 2017, we entered into a definitive merger agreement to acquire all of the outstanding shares of Aetna Inc. ("Aetna") for a combination of cash and stock (the "Aetna Acquisition"). Under the terms of the merger agreement, Aetna shareholders will receive $145.00 per share in cash and 0.8378 CVS Health shares for each Aetna share. The transaction values Aetna at approximately $207 per share or approximately $69 billion based on the Company's 5-day volume weighted average price ending December 1, 2017 of $74.21 per share. Including the assumption of Aetna's debt, the total value of the transaction is approximately $77 billion. The final purchase price will be determined based on the Company's stock price on the date of closing of the transaction.

The proposed acquisition is currently projected to close in the second half of 2018 and remains subject to approval by CVS Health and Aetna shareholders and customary closing conditions, including the expiration of the waiting period under the federal Hart-Scott-Rodino Antitrust Improvements Act of 1976 ("HSR Act") and approvals of state departments of insurance and U.S. and international regulators.

Pharmacy Services Segment

The Pharmacy Services Segment provides a full range of pharmacy benefit management ("PBM") solutions, as described more fully below, to clients consisting primarily of employers, insurance companies, unions, government employee groups, health plans, Medicare Part D plans, Managed Medicaid plans, plans offered on the public and private exchanges, other sponsors of health benefit plans and individuals throughout the United States. In addition, through our SilverScript Insurance Company ("SilverScript") subsidiary, we are a national provider of drug benefits to eligible beneficiaries under the federal government's Medicare Part D program. The Pharmacy Services Segment operates under the CVS Caremark Pharmacy Services, Caremark®, CVS Specialty®, AccordantCare™, SilverScript®, Wellpartner®, NovoLogix®, Coram®, Navarro® Health Services and ACS Pharmacy names. As of December 31, 2017, the Pharmacy Services Segment operated 23 retail specialty pharmacy stores, 18 specialty mail order pharmacies and four mail order dispensing pharmacies, and 83 branches for infusion and enteral services, including approximately 73 ambulatory infusion suites and three centers of excellence, located in 42 states, Puerto Rico and the District of Columbia. During the year ended December 31, 2017, our PBM filled or managed approximately 1.8 billion prescriptions on a 30-day equivalent basis.

Table of Contents

Pharmacy Services Business Strategy - Our pharmacy services business strategy centers on providing innovative tools and strategies, as well as quality client service, in order to help improve clinical outcomes for our clients' plan members while assisting them with better managing pharmacy and overall health care costs. Our goal is to produce superior results for our clients and their plan members by leveraging our expertise in core PBM services, including: plan design offerings and administration, formulary management, Medicare Part D services, mail order, specialty pharmacy and infusion services, retail pharmacy network management services, prescription management systems, clinical services, disease management services and medical spend management.

In addition, as a fully integrated pharmacy services company that helps clients improve quality and lower their pharmacy costs, we offer our clients and their plan members a variety of programs and tools, including plan design offerings, that benefit from our integrated systems and the ability of our almost 36,000 pharmacists, nurses, nurse practitioners and physician assistants to interact personally with the many plan members we serve. Through our multiple member touch points (retail stores, mail order, infusion, long-term care and specialty pharmacies, retail clinics, digital resources and cost management tools), we seek to engage plan members in behaviors that help lower cost and improve health care outcomes. Examples of these programs and services include: Maintenance Choice®, a program where eligible client plan members can elect to fill their maintenance prescriptions through delivery to their home or business or at our CVS Pharmacy retail stores for the same price as mail order; Pharmacy Advisor®, a program that facilitates face-to-face and telephone counseling by our pharmacists to help participating plan members with certain chronic diseases, such as diabetes and cardiovascular conditions, to identify gaps in care, adhere to their prescribed medications and manage their health conditions; enhanced disease management programs, such as our TransformCare™ offerings, that are targeted at managing chronic disease states; Specialty Connect®, our specialty pharmacy offering that integrates specialty mail and retail capabilities, providing members with disease-state specific counseling from our experienced specialty pharmacists and the convenience of picking up their prescriptions at their local CVS Pharmacy or having them delivered to their home or office and an ExtraCare® Health Card program that offers discounts to eligible plan members on certain over-the-counter health care products sold in our CVS Pharmacy stores. In addition, CVS MinuteClinic ("MinuteClinic") is an important and differentiated part of the enterprise that offers

certain capabilities to PBM clients and their members. For example, we offer plan-sponsored co-pay reductions to encourage use of MinuteClinic, thereby helping to reduce emergency room visits and to lower overall health care costs. We also partner with our health plan clients sponsoring patient-centered medical homes, biometric screenings for plan members, closing gaps in care, and onsite clinics at client corporate headquarters.

PBM Services - Our PBM solutions are described more fully below.

Plan Design Offerings and Administration - We administer pharmacy benefit plans for clients who contract with us to facilitate prescription coverage and claims processing for their eligible plan members. We assist our clients in designing pharmacy benefit plans that help improve health outcomes while minimizing the costs to the client. We also assist clients in monitoring the effectiveness of their plans through frequent, informal communications, their use of our proprietary software, as well as through formal annual, quarterly and sometimes monthly performance reviews.

We make recommendations to help clients design benefit plans that promote the use of the lower cost, clinically appropriate drugs. We help our clients control costs by recommending plan designs that encourage the use of generic equivalents of brand name drugs when such equivalents are available. Our clients also have the option, through plan design, to further lower their pharmacy benefit plan costs by setting different member payment levels for different products on their drug lists or "formularies," which helps guide members to choose lower cost alternatives through appropriate financial incentives.

Formulary Management - We utilize an independent panel of doctors, pharmacists and other medical experts, referred to as our CVS Caremark National Pharmacy and Therapeutics Committee, to review and approve the selection of drugs that meet our high standards of safety and efficacy for inclusion on one of our template formularies. Our formularies provide recommended products in numerous drug classes to help ensure member access to clinically appropriate drugs with alternatives within a class under the client's pharmacy benefit plan, while helping to drive the lowest net cost for our clients that select one of our formularies. To help improve clinical outcomes for members and clients, we conduct ongoing, independent reviews of all drugs, including, but not limited to, those appearing on the formularies and generic equivalent products. Many of our clients choose to adopt one of our template formulary offerings as part of their plan design. Beginning in 2018, clients will have new capabilities to offer real time benefits information for a member's specific plan design, provided digitally at the point of prescribing, at the pharmacy and directly to members.

Table of Contents

Medicare Part D Services - We participate in the administration of the drug benefit added to the Medicare program under Part D of the Medicare Prescription Drug, Improvement, and Modernization Act of 2003 ("MMA") through the provision of PBM services to those of our health plan clients and other clients that have qualified as a Medicare Part D prescription drug plans ("PDP") or as a Medicare Advantage prescription drug plan ("MA-PD") and by offering Medicare Part D pharmacy benefits through SilverScript, a PDP that has contracted with the United States Centers for Medicare and Medicaid Services ("CMS"). We also assist employer, union and other health plan clients that qualify for the retiree drug subsidy made available under the MMA by collecting and submitting eligibility and/or drug cost data to CMS in order for them

to obtain the subsidy and offer Medicare Part D pharmacy benefits to such clients' retirees through SilverScript-sponsored Employer Group Waiver Plans (“EGWPs”).

Mail Order Pharmacy - As of December 31, 2017, we operated four mail order dispensing pharmacies in the United States. Plan members or their prescribers submit prescriptions or refill requests, primarily for maintenance medications, to these pharmacies via mail, telephone, fax, e-prescribing or the Internet. We also operate a network of smaller mail order specialty pharmacies described below. Our staff pharmacists review mail order prescriptions and refill requests with the assistance of our prescription management systems. This review may involve communications with the prescriber and, with the prescriber’s approval when required, can result in generic substitution, therapeutic interchange or other actions designed to help reduce cost and/or improve quality of treatment. These pharmacies have been awarded Mail Order Pharmacy accreditation from Utilization Review Accreditation Commission (“URAC”), a Washington DC-based health care accrediting organization that establishes quality standards for the health care industry.

Specialty Pharmacy - Our specialty pharmacies support individuals who require complex and expensive drug therapies. As of December 31, 2017, our specialty pharmacy operations included 18 specialty mail order pharmacies located throughout the United States, including Puerto Rico, that are used for delivery of advanced medications to individuals with chronic or genetic diseases and disorders. These pharmacies have also been awarded Specialty Pharmacy accreditation from URAC. As of December 31, 2017, the Company operated a network of 23 retail specialty pharmacy stores, which operate under the CVS Pharmacy specialty services and Navarro® Health Services names. These stores average 1,100 square feet in size and sell prescription drugs and a limited assortment of front store items such as alternative medications, homeopathic remedies and vitamins. Our care management program, AccordantCare, is a differentiated clinical model that focuses on whole patient care, including comorbidity management. It embeds specially trained nurses into the CVS Specialty CareTeam for members who fill their specialty medications through CVS Specialty helping deliver better care and improved outcomes. Through our affiliate Coram LLC and its subsidiaries (collectively, “Coram”), one of the nation’s largest providers of comprehensive infusion services, we care for approximately 165,000 patients annually, providing specialty infusion and enteral nutrition services. Our Specialty Connect® offering integrates our specialty pharmacy mail and retail capabilities, providing members with disease-state specific counseling from our experienced specialty pharmacists and the convenience of picking-up their prescriptions at their local CVS Pharmacy, or having them delivered to their preferred address. Whether submitted through our specialty mail order pharmacy or at a CVS Pharmacy, all prescriptions are filled through our specialty mail order pharmacies, so all revenue from this specialty prescription services program is recorded within the Pharmacy Services Segment. Members then can choose to pick up their medication at their local CVS Pharmacy, or have it sent to their home through the mail. Specialty Connect is available where allowed by law. Innovative digital tools for specialty pharmacy provide a more accessible, connected, and personal health experience. Members can manage all their specialty medications in real-time using the CVS Specialty app and more than 60 percent have opted in to receive email and text messages including refill reminders and order status. Patients can also use secure messaging to contact their Specialty CareTeam with any questions. Additionally, with the acquisition of Omnicare, Inc. (“Omnicare”), we expanded our specialty pharmacy to include the specialty pharmacy operations of Omnicare which operates under the name ACS Pharmacy.

Retail Pharmacy Network Management - We maintain a national network of more than 68,000 retail pharmacies, consisting of approximately 41,000 chain pharmacies (which includes our CVS Pharmacy locations) and 27,000 independent pharmacies, in the United States, including Puerto Rico, the District of Columbia, Guam and the U.S. Virgin Islands. When a customer fills a prescription in a retail pharmacy, the pharmacy sends prescription data electronically to us from the point-of-sale. This data interfaces with our proprietary prescription management systems, which verify relevant plan member data and eligibility, while also performing a drug utilization review to help evaluate clinical appropriateness and safety and confirming that the pharmacy will receive payment for the prescription. We are also able to build client-specific networks and managed network solutions to further drive savings for our clients. These include a performance-based pharmacy network with approximately 30,000 stores that will be anchored by CVS

Pharmacy and Walgreens, along with up to 10,000 community-based, independently owned pharmacies across the United States. The network is designed to deliver unit cost savings and to improve clinical outcomes that will help to lower overall health

Table of Contents

care costs for participating payors and their members. This network will be available beginning March 2018 to eligible commercial and Medicaid clients.

Prescription Management Systems - We dispense prescription drugs both directly, through one of our mail order or specialty pharmacies, or through a network of retail pharmacies, described above. All prescriptions processed through our systems, whether they are filled through one of our mail order or specialty dispensing pharmacies or through a pharmacy in our retail network, are analyzed, processed and documented by our proprietary prescription management systems. These systems provide essential features and functionality to allow a plan member to use their prescription drug benefit. These systems also streamline the process by which prescriptions are processed by staff and network pharmacists, by enhancing review of various items through automation, including, but not limited to, plan eligibility, early refills, duplicate dispensing, appropriateness of dosage, drug interactions or allergies, over-utilization and potential fraud.

Clinical Services - We offer multiple clinical programs and services to help clients manage overall pharmacy and health care costs in a clinically appropriate manner. Our programs are primarily designed to promote good health outcomes, and to help target inappropriate utilization and non-adherence to medication, each of which may result in adverse medical events that negatively impact member health and client pharmacy and medical spend. In this regard, we offer various utilization management (“UM”), medication management, quality assurance, adherence and counseling programs to complement the client’s plan design and clinical strategies. To help address the opioid epidemic, we introduced an industry-leading UM approach that limits to seven days the supply of opioids dispensed for certain acute prescriptions for patients who are new to therapy; limits the daily dosage of opioids dispensed based on the strength of the opioid; and requires the use of immediate-release formulations of opioids before extended-release opioids are dispensed. To support improved adherence, our Pharmacy Advisor program facilitates pharmacist counseling, both face-to-face and over the telephone, to help participating plan members with certain chronic diseases, such as diabetes and cardiovascular conditions, to identify gaps in care, adhere to their prescribed medications and manage their health conditions. We also have digital connectivity that helps to lower drug costs for patients by providing expanded visibility to lower cost alternatives through enhanced analytics and data sharing.

Disease Management Programs - Our clinical services utilize advanced protocols and offer clients convenience in working with health care providers and other third parties. Our AccordantCare programs include integrated rare disease management programs, which cover diseases such as rheumatoid arthritis, Parkinson’s disease, seizure disorders and multiple sclerosis. The majority of these integrated programs are accredited by the National Committee for Quality Assurance (“NCQA”), a private, not-for-profit organization that evaluates, accredits and certifies a wide range of health care organizations. They have also been awarded Case Management accreditation from URAC.

Medical Benefit Management - We offer a technology platform, NovoLogix®, an online preauthorization tool that helps identify and capture cost savings opportunities for specialty drugs

billed under the medical benefit by identifying outliers to appropriate dosages and costs, and helps to ensure clinically appropriate use of these drugs.

Pharmacy Services Information Systems - We currently operate and support a small number of claim adjudication platforms to support our Pharmacy Services Segment. However, the majority of our clients have migrated to one platform. These information systems incorporate architecture that centralizes the data generated from filling mail order prescriptions, adjudicating retail pharmacy claims and delivering other solutions to our PBM clients. Our Health Engagement Engine® technology and proprietary clinical algorithms help connect the various parts of the enterprise and serves an essential role in cost management and health improvement. This capability responsibly transforms pharmacy data into actionable interventions at key points of care such as our mail and specialty pharmacists to help provide quality care, and our enterprise digital strategy and integrated digital offerings help patients seamlessly manage mail, specialty and retail prescriptions.

Pharmacy Services Clients - Our clients are primarily employers, insurance companies, unions, government employee groups, health plans, Medicare Part D plans, Managed Medicaid plans and plans offered on public and private exchanges, other sponsors of health benefit plans and individuals located throughout the United States. We provide pharmaceuticals to eligible members in benefit plans maintained by our clients and utilize our information systems, among other things, to help perform safety checks, drug interaction screening and identify opportunities for generic substitution. We generate substantially all of our Pharmacy Services Segment net revenue from dispensing and managing prescription drugs to eligible members in benefit plans maintained by our clients. In 2017, 2016 and 2015, net revenues from Aetna accounted for approximately 12.3%, 11.7% and 10.0%, respectively, of our consolidated net revenues.

Table of Contents

Pharmacy Services Seasonality - The majority of our Pharmacy Services Segment revenues are not seasonal in nature. However, our quarterly earnings and operating cash flows are impacted by the Medicare Part D benefit design and changes in the composition of our membership. The Medicare Part D standard benefit design results in coverage that varies with a member's cumulative annual out-of-pocket costs. The benefit design generally results in plan sponsors sharing a greater portion of the responsibility for total prescription drug costs in the early part of the year. As a result, the PDP pay percentage or benefit ratio generally decreases and operating profit generally increases as the year progresses.

Pharmacy Services Competition - We believe the primary competitive factors in the industry include: (i) the ability to negotiate favorable discounts from drug manufacturers as well as to negotiate favorable discounts from, and access to, retail pharmacy networks; (ii) the ability to identify and apply effective cost management programs utilizing clinical strategies including the development and utilization of preferred formularies; (iii) the ability to market PBM products and services; (iv) the commitment to provide flexible, clinically-oriented services to clients and be responsive to clients' needs; (v) the quality, scope and costs of products and services offered to clients and their members including satisfaction of experience; and (vi) operational excellence in delivering services. The Pharmacy Services Segment has a significant number of competitors (e.g., Express Scripts, OptumRx, Prime Therapeutics, MedImpact, and Humana) offering PBM services including large, national PBM companies, PBMs owned by large national health plans and smaller standalone PBMs.

Retail/LTC Segment

As of December 31, 2017, the Retail/LTC Segment included 9,803 retail locations (of which 8,060 were our stores that operated a pharmacy and 1,695 were our pharmacies located within Target Corporation ("Target") stores), our online retail pharmacy websites, CVS.com®, Navarro.com™ and Onofre.com.br™, 37 onsite pharmacy stores, our long-term care pharmacy operations and our retail health care clinics. The retail locations are in 49 states, the District of Columbia, Puerto Rico and Brazil, operating primarily under the CVS Pharmacy®, CVS®, CVS Pharmacy y más®, Longs Drugs®, Navarro Discount Pharmacy® and Drogaria Onofre™ names. Including the pharmacies within Target, we currently operate in all of the top 100 United States drugstore markets. Existing retail stores range in size from approximately 5,000 to 30,000 square feet, although most new stores range in size from approximately 11,000 to 15,000 square feet and typically include a drive-thru pharmacy. The pharmacies within Target stores range in size from approximately 450 to 1,100 square feet. During 2017, our Retail/LTC Segment filled approximately 1.2 billion prescriptions (counting 90-day prescriptions as three prescriptions), and we held approximately 23.6% of the United States retail pharmacy market.

Our acquisition of Omnicare broadened our base of pharmacy care to an additional dispensing channel, long-term care pharmacy. Omnicare's LTC operations include the distribution of pharmaceuticals, related pharmacy consulting and other ancillary services to chronic care facilities and other care settings. Omnicare also provided commercialization services under the name RxCrossroads until January 2, 2018, when we completed the sale of RxCrossroads. LTC is comprised of 145 spoke pharmacies that primarily handle new prescription orders, of which 30 are also hub pharmacies that use automation to support spoke pharmacies with refill prescriptions. LTC primarily operates under the Omnicare® and NeighborCare® names. With the addition of the LTC operations, we are continuing to enhance our service offerings to further address the needs of an aging population throughout the continuum of senior care.

Retail Pharmacy Business Strategy - Our integrated pharmacy services model has enhanced the ability of our retail pharmacy stores to expand customer access to care while helping to lower overall health care costs and improve health outcomes. In that regard, the role of our retail pharmacist is shifting from primarily dispensing prescriptions to also providing services, including flu vaccinations as well as face-to-face patient counseling with respect to adherence to drug therapies, closing gaps in care and recommending more cost effective drug therapies. We also provide a broad assortment of quality merchandise at competitive prices using a retail format that emphasizes service, innovation and convenience. One of the keys to our strategy is technology, which allows us to focus on constantly improving service and exploring ways to provide more personalized product offerings and services. We are continuing to leverage digital to empower our customers and patients by making the full breadth of health care and pharmacy services available to them anytime, anywhere. We are continuing to introduce digital tools to make it easier for people to save time and money and to live healthier lives. In 2017, we rolled out CVS Pay® nationwide, an end-to-end mobile payment solution that integrates payment, prescription pick-up and our ExtraCare® loyalty program into one spot at checkout. We believe that continuing to innovate with new and unique products and services, using innovative marketing and adjusting our mix of merchandise to match our customers' needs and preferences is very important to our ability to continue to improve customer satisfaction.

Retail/LTC Products and Services - A typical retail store sells prescription drugs and a wide assortment of high-quality, nationally advertised brand name and proprietary brand merchandise. Front store categories include over-the-counter drugs, beauty products and cosmetics, personal care products, convenience foods, photo finishing services, seasonal merchandise and greeting cards. The pharmacies within Target stores sell prescription drugs and over-the-counter drugs that are required to be held behind the counter. The LTC operations include distribution of pharmaceuticals and related consulting and ancillary services. We purchase our merchandise from numerous manufacturers and distributors. We believe that competitive sources are readily available for substantially all of the products we carry and the loss of any one supplier would not likely have a material effect on the business. Our clinics offer a variety of health care services by nurse practitioners and physician assistants.

Retail/LTC net revenues by major product group are as follows:

	Percentage of Net Revenues		
	2017	2016	2015
Pharmacy [(1)]	75.0 %	75.0 %	72.9 %
Front store and other [(2)]	25.0	25.0	27.1
	100.0 %	100.0 %	100.0 %

(1) Pharmacy includes LTC sales and sales in pharmacies within Target stores.
(2) "Other" represents less than 5% of the "Front store and other" net revenue category.

Pharmacy - Pharmacy revenues represented approximately three-fourths of the Retail Pharmacy Segment revenues in each of 2017, 2016 and 2015. We believe that our retail pharmacy operations will continue to represent a critical part of our business due to industry demographics, e.g., an aging American population consuming a greater number of prescription drugs, pharmaceuticals being used more often as the first line of defense for managing illness, the introduction of new pharmaceutical products, and Medicare Part D. We believe our retail pharmacy business benefits from our investment in both people and technology, as well as our innovative partnerships with health plans, PBMs and providers. Given the nature of prescriptions, people want their prescriptions filled accurately by professional pharmacists using the latest tools and technology, and ready when promised. Consumers need medication management programs and better information to help them get the most out of their health care dollars. To assist our customers with these needs, we have introduced integrated pharmacy health care services that provide an earlier, easier and more effective approach to engaging them in behaviors that can help lower costs, improve health, and save lives. Examples include: our Patient Care Initiative, an enhanced medication adherence program; Maintenance Choice®, a program where eligible client plan members can elect to fill their maintenance prescriptions through delivery to their home or business or at our CVS Pharmacy retail stores for the same price as mail order; Pharmacy Advisor®, our program that facilitates pharmacist counseling, both face-to-face and over the telephone, to help participating plan members with certain chronic diseases, such as diabetes and cardiovascular conditions, to identify gaps in care, adhere to their prescribed medications and manage their health conditions; Specialty Connect®, which integrates our specialty pharmacy mail and retail capabilities, providing members with disease-state specific counseling from our experienced specialty pharmacists and the convenience of picking-up their prescriptions at their local CVS Pharmacy, or having them delivered to their preferred address; ScriptSync®, a service that enables patients with multiple medications to pick up their eligible maintenance prescriptions in a single monthly CVS Pharmacy visit; ScriptPath™ Prescription Schedule, a new capability for CVS Pharmacy patients, who manage multiple prescription medications, which features all of a patient's current CVS Pharmacy prescription information in one place – including which medications the patient takes, when the patient should take them and how much of each medication should be taken in each dose; and HealthTag®, an integrated communications platform that can be leveraged to communicate healthcare opportunities to members that provides unmatched ability to reach and connect with members as well as industry-leading data integration to improve coordination of member care. Each of these are programs that demonstrate our ability to enhance the customer experience through our integrated enterprise products and services. Further evidencing our belief in the importance of pharmacy service is our continuing investment in technology, such as our Drug

Utilization Review system that helps check for harmful interactions between prescription drugs and patient identified over-the-counter products, vitamins and herbal remedies; RxConnect, our proprietary pharmacy system that integrates our product delivery and clinical workflows as well as advanced patient safety functionality such as drug utilization review; our prescription refill program, ReadyFill®; and our online retail businesses, CVS.com, Navarro.com and Onofre.com.br. Our Health Engagement Engine enables patient-specific opportunities to be prioritized and delivered at each key moment of care relevant to that specific patient. In December 2015, we expanded our pharmacy offering with the acquisition of the

Table of Contents

pharmacies within Target stores. We offer all the same pharmacy services available in our retail drugstores and online at our pharmacies within Target stores.

Front Store - Front store revenues benefited from our strategy to innovate with new and unique products and services, using innovative personalized marketing and adjusting our mix of merchandise to match our customers' needs and preferences. A key component of our front store strategy is our ExtraCare® card program, which is helping us continue to build our loyal customer base. The ExtraCare program is one of the largest and most successful retail loyalty programs in the United States. The ExtraCare program allows us to balance our marketing efforts so we can reward our best customers by providing them automatic sale prices, customized coupons, ExtraBucks® rewards and other benefits. We continue to launch and enhance new and exclusive brands to create unmatched offerings in beauty. Another component of our front store strategy is our unique product offerings, which include a full range of high-quality CVS Pharmacy® and proprietary brand products that are only available through CVS Pharmacy stores. We currently carry approximately 7,000 CVS Pharmacy and proprietary brand products, which accounted for approximately 23% of our front store revenues during 2017. These products include expanded offerings of healthy foods and vitamins. Furthermore, we are tailoring certain groups of stores, such as suburban area stores, to better meet the needs of our customers.

MinuteClinic - As of December 31, 2017, we operated 1,134 MinuteClinic® locations in 33 states and the District of Columbia, of which 1,050 were located in our retail pharmacy stores, and 79 were located in Target stores. We opened 15 new clinics during 2017. Our clinics are staffed by nurse practitioners and physician assistants who utilize nationally established guidelines to diagnose and treat minor health conditions, perform health screenings, monitor chronic conditions, provide wellness services and deliver vaccinations. Payors value our clinics because they provide convenient, high-quality, cost-effective care, in many cases offering an attractive alternative to more expensive sites of care. As a result, visits paid for by employers, health insurers or other third parties accounted for approximately 91% of MinuteClinic's total revenues in 2017. MinuteClinic is collaborating with our Pharmacy Services Segment to help meet the needs of CVS Caremark's client plan members by offering programs that can improve member health and lower costs. MinuteClinic is now affiliated with more than 75 major health systems and continues to build a platform that supports primary care.

Long-term Care - Through our Omnicare business, we provide the distribution of pharmaceuticals, related pharmacy consulting and other ancillary services to chronic care facilities and other care settings. Omnicare's customers consist of skilled nursing facilities, assisted living facilities, independent living communities, hospitals, correctional facilities, and other health care service providers. We provide pharmacy consulting, including monthly patient drug therapy evaluations, assist in compliance with state and federal regulations and provide proprietary clinical and health management programs. We also provide pharmaceutical case

management services for retirees, employees and dependents who have drug benefits under corporate-sponsored health care programs.

Onsite Pharmacies - We also operate a limited number of small pharmacies located at client sites, typically under the CarePlus®, CarePlus CVS Pharmacy® or CVS Pharmacy® name, which provide certain health plan members and customers with a convenient alternative for filling their prescriptions.

Retail Pharmacy Drugstore Development - The addition of new stores has played, and will continue to play, a key role in our continued growth and success. Our store development program focuses on three areas: entering new markets, adding stores within existing markets and relocating stores to more convenient sites. During 2017, we opened 175 new retail locations, relocated 30 stores and closed 81 locations. During the last five years, we opened approximately 1,000 new and relocated locations, and acquired 1,880 locations including the pharmacies acquired from Target. We believe that continuing to grow our store base and locating stores in more accessible markets are essential components to compete effectively in the current health care environment. As a result, we believe that our store development program is an integral part of our ability to maintain our leadership position given the changing health care landscape and to meet the increasing needs of our customers.

Retail/LTC Information Systems - We have continued to invest in information systems to enable us to deliver exceptional customer service, enhance safety and quality, and expand our patient care services while lowering operating costs. Our proprietary WeCARE Workflow supports our pharmacy teams by prioritizing work to meet customer expectations, facilitating prescriber outreach, and seamlessly integrating our clinical programs. This solution delivers improved efficiency and enhances the customer experience, as well as providing a framework to accommodate the evolution of pharmacy practice and the expansion of our clinical programs. Our Health Engagement Engine technology and proprietary clinical algorithms enable us to help identify opportunities for our pharmacists to deliver face-to-face

Table of Contents

counseling regarding patient health and safety matters, including adherence issues, gaps in care and management of certain chronic health conditions. Our digital strategy empowers the consumer to navigate their pharmacy experience and manage their condition through our on-line and mobile tools that offer utility and convenience. This includes the ability to schedule an appointment at MinuteClinic, get next-in line alerts or health reminders and appointment updates via text messages. Our integrated digital offerings help patients seamlessly manage retail, mail and specialty prescriptions dispensed by a CVS Pharmacy or LTC location and enhance front store personalization to drive value for customers. We continue to experience strong adoption of our digital solutions with our mobile app receiving critical acclaim for ease of use and our text message program experiencing significant growth. LTC's digital technology suite, Omniview®, improves the efficiency of customers' operations with tools that include executive dashboards, pre-admission pricing, electronic ordering of prescription refills, proof-of-delivery tracking, access to patient profiles, receipt and management of facility bills, and real-time validation of Medicare Part D coverage, among other capabilities.

Retail/LTC Customers - The success of our retail drugstore and LTC businesses is dependent upon our ability to establish and maintain contractual relationships with pharmacy benefit managers and other payors on acceptable terms. Pharmacy benefit managers, managed care organizations, government-funded health care programs, commercial employers and other third

party payors accounted for 99.2% of our 2017 pharmacy revenues. No single Retail/LTC payor accounts for 10% or more of our annual consolidated net revenues.

Retail/LTC Seasonality - The majority of our revenues, particularly pharmacy revenues, are generally not seasonal in nature. However, retail front store revenues tend to be higher during the December holiday season. In addition, both pharmacy and retail front store revenues are affected by the timing and severity of the cough, cold and flu season. For additional information, we refer you to "Risks related to the seasonality of our business" in Item 1A. Risk Factors.

Retail/LTC Competition - The retail drugstore business is highly competitive. We believe that we compete principally on the basis of: (i) store location and convenience, (ii) customer service and satisfaction, (iii) product selection and variety, and (iv) price. In the markets we serve, we compete with other drugstore chains (e.g., Walgreens and Rite Aid), supermarkets, discount retailers (e.g., Wal-Mart), independent pharmacies, restrictive pharmacy networks, membership clubs, Internet companies, and retail health clinics (including urgent care centers), as well as other mail order pharmacies.

LTC pharmaceutical services are highly regional or local in nature and within a given geographic area of operation, highly competitive. Our largest competitor nationally is PharMerica. We also compete with numerous local and regional institutional pharmacies, pharmacies owned by long-term care facilities and local retail pharmacies. Some states have enacted "freedom of choice" or "any willing provider" requirements as part of their state Medicaid programs or in separate legislation, which may increase the competition that we face in providing services to long-term care facility residents in these states.

Corporate Segment

Our Corporate Segment provides management and administrative services to support the overall operations of the Company. The Corporate Segment consists of certain aspects of our executive management, corporate relations, legal, compliance, human resources, information technology and finance departments.

Generic Sourcing Venture

The Company and Cardinal Health, Inc. ("Cardinal") each have a 50% ownership in Red Oak Sourcing, LLC ("Red Oak"), a generic pharmaceutical sourcing entity. Under this arrangement, the Company and Cardinal contributed their sourcing and supply chain expertise to Red Oak and agreed to source and negotiate generic pharmaceutical supply contracts for both companies through Red Oak; however, Red Oak does not own or hold inventory on behalf of either company.

Working Capital Practices

We fund the growth of our business through a combination of cash flow from operations, commercial paper and other short-term borrowings, proceeds from sale-leaseback transactions and long-term borrowings. For additional information on our working capital practices, we refer you to the caption "Management's Discussion and Analysis - Liquidity and Capital Resources" in our Annual Report to Stockholders for the year ended December 31, 2017, which section is

incorporated by reference herein. The majority of our non-pharmacy revenues are paid in cash, or with debit or credit cards. Managed care organizations, pharmacy benefit managers, government-funded health care programs, commercial employers and other third party insurance programs, which represent the vast majority of our consolidated pharmacy revenues, typically settle in less than 30 days. With the exception of our Medicare Part D services, the remainder of our consolidated pharmacy revenues are paid in cash, or with debit or credit cards. As a provider of Medicare Part D services, we contract annually with CMS. Utilization of services each plan year results in the accumulation of either a receivable from or a payable to CMS. The timing of settlement of the receivable or payable with CMS takes several quarters which impacts our working capital from year to year.

Colleague Development

As of December 31, 2017, we employed approximately 246,000 colleagues in 50 states, the District of Columbia, Puerto Rico and Brazil, which included approximately 36,000 pharmacists, nurses, nurse practitioners and physician assistants. The total included approximately 86,000 part-time colleagues who work less than 30 hours per week. To deliver the highest levels of service to our customers, we devote considerable time and attention to our people and service standards. We emphasize attracting and training knowledgeable, friendly and helpful associates to work in our organization.

Intellectual Property

We have registered and/or applied to register a variety of our trademarks and service marks used throughout our business, as well as domain names, and rely on a combination of copyright, patent, trademark and trade secret laws, in addition to contractual restrictions, to establish and protect our proprietary rights. We regard our intellectual property as having significant value in our Pharmacy Services and Retail/LTC segments. We are not aware of any facts that could materially impact our continuing use of any of our intellectual property.

Government Regulation

Overview - Much of our business is subject to federal and state laws and regulations. In addition, many of our PBM clients and our payors in the Retail/LTC Segment, including insurers, Medicare Part D plans, Managed Medicaid plans and managed care organizations ("MCOs"), are themselves subject to extensive regulations that affect the design and implementation of prescription drug benefit plans that they sponsor. Similarly, our LTC clients, such as skilled nursing facilities, are subject to government regulations, including many of the same government regulations to which we are subject. The application of these complex legal and regulatory requirements to the detailed operation of our business creates areas of uncertainty. Further, there are numerous proposed health care laws and regulations at the federal and state levels, some of which could adversely affect our business if they are enacted. We are unable to predict what federal or state legislation or regulatory initiatives may be enacted in the future relating to our business or the health care industry in general, or what effect any such legislation or regulations might have on our business. Any failure or alleged failure to comply with applicable laws and regulations as summarized below, or any adverse applications of, or changes in, the laws and regulations affecting our business, could have a material adverse effect on our operating results and/or financial condition. See Item 3, "Legal Proceedings" for further information.

Although we believe that we are in material compliance with existing laws and regulations applicable to our various business lines, we cannot give any assurances that our business, financial condition and results of operations will not be materially adversely affected, or that we will not be required to materially change our business practices, based on: (i) future enactment of new health care or other laws or regulations; (ii) the interpretation or application of existing laws or regulations, including the laws and regulations described in this Government Regulation section, as they may relate to our business, the pharmacy services, retail pharmacy, long-term care or retail clinic industry or to the health care industry generally; (iii) pending or future federal or state governmental investigations of our business or the pharmacy services, retail pharmacy, long-term care or retail clinic industry or of the health care industry generally; (iv) institution of

government enforcement actions against us; (v) adverse developments in any pending *qui tam* lawsuit against us, whether sealed or unsealed, or in any future *qui tam* lawsuit that may be filed against us; or (vi) adverse developments in other pending or future legal proceedings against us or affecting the pharmacy services, retail pharmacy, long-term care or retail clinic industry or the health care industry generally.

Table of Contents

Laws and Regulations Related to Each Operating Segment of Our Business

Laws Related to Reimbursement by Government Programs - We are subject to various state and federal laws concerning our submission of claims for reimbursement by Medicare, Medicaid and other government-sponsored health care programs. Potential sanctions for violating these laws include recoupment or reduction of government reimbursement amounts, civil penalties, multiples damages, and exclusion from participation in government health care programs. Such laws include the federal False Claims Act ("FCA"), the federal Anti-Kickback statute, various state false claims acts and anti-kickback statutes, the federal "Stark Law" and related state laws. In particular, the FCA prohibits intentionally submitting, conspiring to submit, or causing to be submitted, false claims, records, or statements to the federal government, or intentionally failing to return overpayments, in connection with reimbursement by federal government programs. As part of the Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act (collectively, "ACA"), the federal Anti-Kickback Statute was amended in 2010 to provide that any claim for government reimbursement violates the FCA where it results from a violation of the Anti-Kickback Statute. Most states have enacted false claims laws analogous to the FCA, and both federal and state false claims laws permit private individuals to file *qui tam* or "whistleblower" lawsuits on behalf of the federal or state government. Further, the federal Stark Law generally prohibits physicians from referring Medicare or Medicaid beneficiaries for certain services, including outpatient prescription drugs, to any entity with which the physician, or an immediate family member of the physician, has a financial relationship. The Stark Law further prohibits the entity receiving a prohibited referral from presenting a claim for reimbursement by Medicare or Medicaid for services furnished pursuant to the prohibited referral. Various states have enacted similar laws.

Anti-Remuneration Laws - Federal law prohibits, among other things, an entity from knowingly and willfully offering, paying, soliciting or receiving, subject to certain exceptions and "safe harbors," any remuneration to induce the referral of individuals or the purchase, lease or order of items or services for which payment may be made under Medicare, Medicaid or certain other federal health care programs. A number of states have similar laws, some of which are not limited to services paid for with government funds. Sanctions for violating these federal and state anti-remuneration laws may include imprisonment, criminal and civil fines, and exclusion from participation in Medicare, Medicaid and other government-sponsored health care programs.

Antitrust and Unfair Competition - The Federal Trade Commission ("FTC") has authority under Section 5 of the Federal Trade Commission Act ("FTCA") to investigate and prosecute practices that are "unfair trade practices" or "unfair methods of competition." Numerous lawsuits have been filed throughout the United States against pharmaceutical manufacturers, retail pharmacies and/or PBMs under various state and federal antitrust and unfair competition laws challenging, among other things: (i) brand drug pricing practices of pharmaceutical manufacturers, (ii) the maintenance of retail or specialty pharmacy networks by PBMs, and

(iii) various other business practices of PBMs and retail pharmacies. To the extent that we appear to have actual or potential market power in a relevant market or CVS Pharmacy or CVS Specialty plays a unique or expanded role in a PBM product offering, our business arrangements and uses of confidential information may be subject to heightened scrutiny from an anti-competitive perspective and possible challenge by state or federal regulators or private parties.

Privacy and Confidentiality Requirements - Many of our activities involve the receipt, use and disclosure by us of personally identifiable information ("PII") as permitted in accordance with applicable federal and state privacy and data security laws, which require organizations to provide appropriate privacy and security safeguards for such information. In addition to PII, we use and disclose de-identified data for analytical and other purposes when permitted. Additionally, there are industry standards for handling credit card data known as the Payment Card Industry Data Security Standard, which are a set of requirements designed to help ensure that entities that process, store or transmit credit card information maintain a secure environment. Certain states have recently incorporated these requirements into state laws.

The federal Health Insurance Portability and Accountability Act of 1996 and the regulations issued thereunder (collectively, "HIPAA") impose extensive requirements on the way in which health plans, health care providers, health care clearinghouses (known as "covered entities") and their business associates use, disclose and safeguard protected health information ("PHI"). Criminal penalties and civil sanctions may be imposed for failing to comply with HIPAA standards. The Health Information Technology for Economic and Clinical Health Act (the "HITECH Act"), enacted as part of the American Recovery and Reinvestment Act of 2009, amended HIPAA to impose additional restrictions on third-party funded communications using PHI and the receipt of remuneration in exchange for PHI. It also extended HIPAA privacy and security requirements and penalties directly to business associates. In addition to HIPAA, state health privacy laws apply to the extent they are more protective of individual privacy than is HIPAA.

Table of Contents

Finally, the Health Insurance Marketplaces (formerly known as the "exchanges") are required to adhere to privacy and security standards with respect to PII, and to impose privacy and security standards that are at least as protective of PII as those the Health Insurance Marketplace has implemented for itself or non-Health Insurance Marketplace entities, which include insurers offering plans through the Health Insurance Marketplaces and their designated downstream entities, including PBMs and other business associates. These standards may differ from, and be more stringent than, HIPAA.

Consumer Protection Laws - The federal government has many consumer protection laws, such as the FTCA, the Federal Postal Service Act and the FTC's Telemarketing Sales Rule. Most states also have similar consumer protection laws. These laws have been the basis for investigations, lawsuits and multi-state settlements relating to, among other matters, the marketing of loyalty programs and health care services, pricing accuracy, expired front store products, financial incentives provided by drug manufacturers to pharmacies in connection with therapeutic interchange programs and disclosures related to how personal data is used and protected.

Government Agreements and Mandates - The Company and/or its various affiliates are subject to certain consent decrees, settlement agreements, corrective action plans and corporate

integrity agreements with various federal, state and local authorities relating to such matters as privacy practices, controlled substances, Medicare Part D prescription drug plans, expired products, environmental and safety matters, marketing and advertising practices, PBM, long term care and pharmacy operations and various other business practices. These agreements may contain certain ongoing reporting, monitoring or other compliance requirements for the Company. Failure to meet the Company's obligations under these agreements could result in civil or criminal remedies, financial penalties, administrative remedies, and/or exclusion from participation in federal health care programs.

Environmental and Safety Regulation - Our business is subject to various federal, state and local laws, regulations and other requirements pertaining to protection of the environment, public health and employee safety, including, for example, regulations governing the management of hazardous substances, the cleaning up of contaminated sites, and the maintenance of safe working conditions in our stores, distribution centers and other facilities. Governmental agencies on the federal, state and local levels have, in recent years, increasingly focused on the retail and health care sectors' compliance with such laws and regulations, and have at times pursued enforcement activities. Any failure to comply with these regulations could result in fines or other sanctions by government authorities.

Health Reform Legislation - Passed in 2010, ACA affects virtually every aspect of health care in the country. In addition to establishing the framework for every individual to have health coverage, ACA enacted a number of significant health care reforms. Many of these reforms affect the coverage and plan designs that are provided by our health plan clients. As a result, these reforms impact a number of our services and business practices. Some significant ACA provisions are still being finalized (e.g., implementation of the excise tax on high-cost employer-sponsored health coverage has been delayed by Congress) and parts of ACA may still face potential Congressional changes, so the full impact of ACA on our Company is still uncertain.

Pharmacy and Professional Licensure and Regulation - We are subject to a variety of intersecting state and federal statutes and regulations that govern the wholesale distribution of drugs; operation of retail, specialty, infusion, LTC and mail order pharmacies; licensure of facilities and professionals, including pharmacists, technicians and nurses; registration of facilities with the United States Drug Enforcement Administration ("DEA") and analogous state agencies that regulate controlled substances; packaging, storing, shipping and tracking of pharmaceuticals; repackaging of drug products; labeling, medication guides and other consumer disclosures; interactions with prescribers and health care professionals; compounding of prescription medications; dispensing of controlled and non-controlled substances; counseling of patients; transfers of prescriptions; advertisement of prescription products and pharmacy services; security; inventory control; recordkeeping; reporting to Boards of Pharmacy, the United States Food and Drug Administration ("FDA"), the Consumer Product Safety Commission, the DEA and related state agencies; and other elements of pharmacy practice. Pharmacies are highly regulated and have contact with a wide variety of local, state and federal agencies, with various powers to investigate, inspect, audit or solicit information, including Boards of Pharmacy and Nursing, the DEA, the FDA, the United States Department of Justice, the United States Department of Health and Human Services ("HHS") and others. Many of these agencies have broad enforcement powers, conduct audits on a regular basis, can impose substantial fines and penalties, and may revoke the license, registration or program enrollment of a facility or professional.

Table of Contents

Telemarketing and Other Outbound Contacts - Certain federal and state laws, such as the Telephone Consumer Protection Act, give the FTC, Federal Communications Commission ("FCC") and state attorneys general the ability to regulate, and bring enforcement actions relating to, telemarketing practices and certain automated outbound contacts such as phone calls, texts or emails. Under certain circumstances, these laws may provide consumers with a private right of action. Violations of these laws could result in substantial statutory penalties and other sanctions.

Laws and Regulations Related to Our Pharmacy Services Segment

In addition to the laws and regulations discussed above that may affect our business as a whole, we are subject to federal, state and local statutes and regulations governing the operation of our Pharmacy Services Segment specifically. Among these are the following:

PBM Laws and Regulation - Legislation seeking to regulate PBM activities in a comprehensive manner has been introduced or enacted in a number of states. This legislation could adversely impact our ability to conduct business on commercially reasonable terms in states where the legislation is in effect.

In addition, certain quasi-regulatory organizations, including the National Association of Boards of Pharmacy and the National Association of Insurance Commissioners ("NAIC") have issued model regulations or may propose future regulations concerning PBMs and/or PBM activities. Similarly, credentialing organizations such as NCQA and URAC may establish voluntary standards regarding PBM, mail or specialty pharmacy activities. While the actions of these quasi-regulatory or standard-setting organizations do not have the force of law, they may influence states to adopt their requirements or recommendations and influence client requirements for PBM or specialty pharmacy services. Moreover, any standards established by these organizations could also impact our health plan clients and/or the services we provide to them.

Medicare Part D - The Medicare Part D program, which makes prescription drug coverage available to eligible Medicare beneficiaries through private insurers, regulates all aspects of the provision of Medicare drug coverage, including enrollment, formularies, pharmacy networks, marketing, and claims processing. The Medicare Part D program has undergone significant legislative and regulatory changes since its inception, and continues to attract a high degree of legislative and regulatory scrutiny. The applicable government rules and regulations continue to evolve. CMS has imposed restrictions and issued new requirements to protect Medicare Part D beneficiaries and has used its authority to sanction and impose civil monetary penalties on plans for non-compliance.

Network Access Legislation - Medicare Part D and a majority of states now have some form of legislation affecting the ability to limit access to a pharmacy provider network or remove network providers. For example, certain "any willing provider" legislation may require us or our clients to admit a non-participating pharmacy if such pharmacy is willing and able to meet the plan's price and other applicable terms and conditions for network participation. These laws could negatively impact the services and economic benefits achievable through a limited pharmacy provider network.

Also, a majority of states now have some form of legislation affecting our ability (and the health plans' ability) to conduct audits of network pharmacies regarding claims submitted to us for payment. These laws could negatively impact our ability to recover overpayments in health care payments stemming from pharmacy audits. Lastly, several states have passed legislation regulating our ability to manage and establish maximum allowable costs ("MAC") for generic prescription drugs. MAC methodology is a common cost management practice used by private and public payors (including CMS) to pay pharmacies for dispensing generic prescription drugs. MAC prices specify the allowable reimbursement by a PBM for a particular strength and dosage of a generic drug that is available from multiple manufacturers but sold at different prices. State legislation can regulate the disclosure of MAC prices and MAC price methodologies, the kinds of drugs that a PBM can pay at a MAC price, and the rights of pharmacies to appeal a MAC price established by a PBM. These laws could negatively impact our ability to establish MAC prices for generic drugs.

Contract Audits - We are subject to audits of many of our contracts, including our PBM client contracts, our PBM rebate contracts, our PBM network contracts, our contracts relating to Medicare Part D and the agreements our pharmacies enter into with other payors. Because some of our contracts are with state or federal governments or with entities contracted with state or federal agencies, audits of these agreements are often regulated by the federal or state agencies responsible for administering federal or state benefits programs, including those which operate Medicaid fee for service plans, Managed Medicaid plans, Medicare Part D plans or Medicare Advantage organizations.

Table of Contents

Federal Employee Health Benefits Program - We have a contractual arrangement with carriers for the Federal Employee Health Benefits ("FEHB") Program, such as the BlueCross BlueShield Association, to provide pharmacy services to federal employees, postal workers, annuitants, and their dependents under the Government-wide Service Benefit Plan, as authorized by the FEHB Act and as part of the FEHB Program. These arrangements subjects us to certain aspects of FEHB Act, and other federal regulations, such as the FEHB Acquisition Regulation, that otherwise are not applicable to us.

State Insurance Laws - PDPs and our PBM service contracts, including those in which we assume certain risks under performance guarantees or similar arrangements, are generally not subject to insurance regulation by the states. However, state departments of insurance are increasing their oversight of PBM activities due to legislation passing in several states requiring PBMs to register or obtain a license with the department. Rulemaking is either underway or has already taken place in a few states with the areas of focus on licensure requirements, pharmacy reimbursement for generics (MAC reimbursement) and pharmacy audits - most of which fall under the state insurance code. Additionally, some states have laws that prohibit submitting a false claim or making a false record or statement in order to secure reimbursement from an insurance company. These state laws vary, and violation of them may lead to the imposition of civil or criminal penalties.

As a PDP, SilverScript is subject to state insurance laws limited to licensure and solvency. In addition, PBM offerings of prescription drug coverage under certain risk arrangements may be subject to laws and regulations in various states. Such laws may require that the party at risk become licensed as an insurer, establish reserves or otherwise demonstrate financial viability. Laws that may apply in such cases include insurance laws and laws governing MCOs and limited prepaid health service plans.

ERISA Regulation - The Employee Retirement Income Security Act of 1974, as amended ("ERISA"), provides for comprehensive federal regulation of certain employee pension and benefit plans, including private employer and union sponsored health plans and certain other plans that contract with us to provide PBM services. In general, we assist plan sponsors in the administration of the prescription drug portion of their health benefit plans in accordance with the plan designs adopted by the plan sponsors. We do not believe that the conduct of our business subjects us to the fiduciary obligations of ERISA, except when we have specifically contracted with a plan sponsor to accept limited fiduciary responsibility, such as for the adjudication of initial prescription drug benefit claims and/or the appeals of denied claims under a plan, and with respect to the Contraceptive Coverage Mandate, one of the health reforms presently included in ACA.

In addition to its fiduciary provisions, ERISA imposes civil and criminal liability on service providers to health plans and certain other persons if certain forms of illegal remuneration are made or received. These provisions of ERISA are broadly written and their application to specific business practices is often uncertain.

Formulary and Plan Design Regulation - A number of government entities regulate the administration of prescription drug benefits. HHS regulates how Medicare Part D formularies are developed and administered, including requiring the inclusion of all drugs in certain classes and categories, subject to limited exceptions. Under ACA, CMS imposes drug coverage requirements for health plans required to cover essential health benefits, including plans offered through federal or state exchanges. Additionally, NAIC and health care accreditation agencies like NCQA and URAC have developed model acts and standards for formulary development that are often incorporated into government requirements. Many states regulate the scope of prescription drug coverage, as well as the delivery channels to receive such prescriptions, for insurers, MCOs and Medicaid managed care plans. The increasing government regulation of formularies could significantly affect our ability to develop and administer formularies, networks and other plan design features on behalf of our insurer, MCO and other clients. Similarly, some states prohibit health plan sponsors from implementing certain restrictive design features. This regulation could limit or preclude (i) limited networks, (ii) a requirement to use particular providers, (iii) copayment differentials among providers and (iv) formulary tiering practices.

Managed Care Reform - In addition to health reforms enacted by ACA, proposed legislation has been considered at the state level, and legislation has been enacted in several states, aimed primarily at providing additional rights and access to drugs to individuals enrolled in managed care plans. This legislation may impact the design and implementation of prescription drug benefit plans sponsored by our PBM health plan clients and/or the services we provide to them. Both the scope of the managed care reform proposals considered by state legislatures and reforms enacted by states to date vary greatly, and the scope of future legislation that may be enacted is uncertain.

Table of Contents

Disease Management Services Regulation - We provide disease management programs to PBM plan members for rare medical conditions and arrange for them to receive disease management programs for common medical conditions. State laws regulate the practice of medicine, the practice of pharmacy and the practice of nursing. Clinicians engaged in a professional practice in connection with the provision of disease management services must satisfy applicable state licensing requirements and must act within their scope of practice.

Third Party Administration and Other State Licensure Laws - Many states have licensure or registration laws governing certain types of administrative organizations, such as preferred provider organizations, third party administrators and companies that provide utilization review services. Several states also have licensure or registration laws governing the organizations that provide or administer consumer card programs (also known as cash card or discount card programs).

Laws and Regulations Related to Our Retail/LTC Segment

In addition to the laws and regulations discussed above that may affect our business as a whole, we are subject to federal, state and local statutes and regulations governing the operation of our Retail/LTC Segment specifically. Among these are the following:

Specific FDA Regulation - The FDA generally has authority to, among other things, regulate the manufacture, distribution, sale and labeling of many products sold through retail pharmacies, including prescription drugs, over-the-counter medications, medical devices (including mobile medical devices), cosmetics, dietary supplements and certain food items.

Retail Clinics - States regulate retail clinics operated by nurse practitioners or physician assistants through physician oversight, lab licensing and the prohibition of the corporate practice of medicine. A number of states have implemented or proposed laws or regulations that impact certain components of retail clinic operations such as physician oversight, signage, third party contracting requirements, bathroom facilities, and scope of services. These laws and regulations may affect the operation and expansion of our owned and managed retail clinics.

Available Information

CVS Health Corporation is a Delaware corporation. Our corporate office is located at One CVS Drive, Woonsocket, Rhode Island 02895, telephone (401) 765-1500. Our common stock is listed on the New York Stock Exchange under the trading symbol "CVS." General information about CVS Health is available through the Company's Web site at *http://www.cvshealth.com*. Our financial press releases and filings with the United States Securities and Exchange Commission ("SEC") are available free of charge within the Investors section of our Web site at *http://www.cvshealth.com/investors*. In addition, the SEC maintains an internet site that contains reports, proxy and information statements and other information regarding issuers, such as the Company, that file electronically with the SEC. The address of that Web site is *http://www.sec.gov*.

Item 1A. Risk Factors

Our business is subject to various industry, economic, regulatory and other risks and uncertainties. Our business, financial condition, results of operations, cash flows and prospects could be materially adversely affected by any one or more of the following risk factors and by additional risks and uncertainties not presently known to us or that we currently deem to be immaterial:

Risks of declining gross margins in the PBM, retail pharmacy and LTC pharmacy industries.

The PBM industry has been experiencing margin pressure as a result of competitive pressures and increased client demands for lower prices, increased revenue sharing, enhanced service offerings and/or higher service levels. In that regard, we maintain contractual relationships with generic pharmaceutical manufacturers and brand name pharmaceutical manufacturers that provide for purchase discounts and/or rebates on drugs dispensed by pharmacies in our retail network and by our specialty and mail order pharmacies (all or a portion of which may be passed on to clients). Manufacturer rebates often depend on a PBM's ability to meet contractual market share or other requirements, including in some cases the placement of a manufacturer's products on the PBM's formularies. If we lose our relationship with one

Table of Contents

or more pharmaceutical manufacturers, or if the discounts or rebates provided by pharmaceutical manufacturers decline, our business and financial results could be adversely affected. Further, competitive pressures in the PBM industry have resulted in our clients sharing in a larger portion of rebates and/or discounts received from pharmaceutical manufacturers. Market dynamics and regulatory changes have impacted our ability to offer plan sponsors pricing that includes the use of retail "differential" or "spread", which could negatively impact our future profitability. Further, changes in existing federal or state laws or regulations or the adoption of new laws or regulations relating to patent term extensions, purchase discount and rebate arrangements with pharmaceutical manufacturers, or to formulary management or other PBM services could also reduce the discounts or rebates we receive. In addition, changes in federal or state laws or regulations or the adoption of new laws or regulations relating to claims processing and billing, including our ability to use MAC lists and collect transmission fees, could adversely impact our profitability.

Our retail pharmacy, specialty pharmacy and LTC pharmacy operations have also been affected by the margin pressures described above, including client demands for lower prices, generic pricing and network reimbursement pressure. In addition, as competition increases in the markets in which we operate, a significant increase in general pricing pressures could occur, and this could require us to reevaluate our pricing structures to remain competitive. A shift in the mix of our pharmacy prescription volume towards programs offering lower reimbursement rates could adversely affect our margins, including the shift in pharmacy mix towards 90-day prescriptions at retail and the shift in pharmacy mix towards Medicare Part D prescriptions. Finally, the margins of our LTC business are further affected by the increased efforts of health care payors to negotiate reduced or capitated pricing arrangements. These actions could also adversely affect the margins of our LTC business.

Efforts to reduce reimbursement levels and alter health care financing practices.

The continued efforts of health maintenance organizations, managed care organizations, PBMs, government entities, and other third party payors to reduce prescription drug costs and pharmacy reimbursement rates, as well as litigation and other legal proceedings relating to how drugs are priced, may impact our profitability. In particular, increased utilization of generic pharmaceuticals (which normally yield a higher gross profit rate than equivalent brand named drugs) has resulted in pressure to decrease reimbursement payments to retail, specialty, LTC and mail order pharmacies for generic drugs, causing a reduction in the generic profit rate. Historically, the effect of this trend on generic profitability has been mitigated by our efforts to negotiate reduced acquisition costs of generic pharmaceuticals with manufacturers. However, in recent years, there has been significant consolidation within the generic manufacturing industry, and it is possible that this and other external factors may enhance the ability of manufacturers to sustain or increase pricing of generic pharmaceuticals and diminish our ability to negotiate reduced acquisition costs. Any inability to offset increased costs or to modify our activities to lessen the impact could have a significant adverse effect on our results of operations.

In addition, during the past several years, the United States health care industry has been subject to an increase in governmental regulation and audits at both the federal and state levels. Efforts to control health care costs, including prescription drug costs, are continuing at the federal and state government levels. Changing political, economic and regulatory influences may significantly affect health care financing and reimbursement practices. For example, we anticipate that federal and state governments will continue to review and assess alternative health care delivery systems, payment methodologies and operational requirements for health care providers, including LTC facilities and pharmacies. A change in the composition of pharmacy prescription volume toward programs offering lower reimbursement rates could negatively impact our profitability. Any action taken to repeal or replace all or significant parts of ACA could also impact our profitability, though it is unclear at this time what the full effects will be.

ACA made several significant changes to Medicaid rebates and to reimbursement. One of these changes was to revise the definition of the Average Manufacturer Price, a pricing element common to most payment formulas, and the reimbursement formula for multi-source (i.e., generic) drugs. This change has negatively affected our reimbursement. In addition, ACA made

other changes that affect the coverage and plan designs that are or will be provided by many of our health plan clients, including the requirement for health insurers to meet a minimum medical loss ratio to avoid having to pay rebates to enrollees. These ACA changes may not affect our business directly, but they could indirectly impact our services and/or business practices.

A highly competitive business environment.

Each of our retail pharmacy, LTC pharmacy, retail health clinic and pharmacy services operations currently operates in a highly competitive and evolving health care environment.

Table of Contents

The competitive success of our retail pharmacy business, as well as our specialty pharmacy operations with non-Caremark payors, is derived by their ability to establish and maintain contractual relationships with PBMs and other payors on acceptable terms in an environment where some PBM clients are considering adopting narrow or restricted retail pharmacy networks. As a pharmacy retail business, we compete with other drugstore chains, supermarkets, on-line and other discount retailers, independent pharmacies, membership clubs, convenience stores and mass merchants, some of which are aggressively expanding into markets we serve. We also face competition from other retail health clinics, as well as other mail order pharmacies and PBMs. Disruptive innovation by existing or new competitors could alter the competitive landscape in the future and require us to accurately identify and assess such changes and make timely and effective changes to our strategies and business model to compete effectively. Competition may also come from other sources in the future. Changes in market dynamics or the actions of competitors or manufacturers, including industry consolidation, the emergence of new competitors and strategic alliances, and the exclusion from new narrow or restricted networks, could materially and adversely impact us.

We could also be adversely affected if we fail to identify or effectively respond to changes in market dynamics. For example, specialty pharmacy represents a significant and growing proportion of prescription drug spending in the United States, a significant portion of which is dispensed outside of traditional retail pharmacies. Because our specialty pharmacy operations focuses on complex and high-cost medications that serve a relatively limited universe of patients, the future growth of this business depends to a significant extent upon expanding our ability to access key drugs and successfully penetrate key treatment categories.

The competitive success of our LTC pharmacy operations is dependent upon our ability to compete in each geographic region where we have operations. In the geographic regions we serve, we compete with PharMerica, our largest competitor, as well as with numerous local and regional institutional pharmacies, pharmacies owned by long-term care facilities and local retail pharmacies. Our long-term care customers consist of skilled nursing facilities, assisted living facilities, independent living communities, hospitals, correctional facilities, and other health care service providers. We believe that the assisted living segment, where residents can choose which pharmacy will provide them with pharmaceuticals, is projected to grow the most as a percentage of the total LTC sector over the near term. The ability of a resident of an assisted living facility to select the pharmacy that supplies him or her with pharmaceuticals could adversely affect our business, financial condition and results of operations because there can be no assurance that such resident will select us.

The competitive success of our pharmacy services business is impacted by its ability to establish and maintain contractual relationships with network pharmacies in an environment where some PBM clients are considering adopting narrow or restricted retail pharmacy networks. Competitors in the PBM industry (e.g., Express Scripts, OptumRx, Prime Therapeutics, MedImpact and Humana), include large, national PBM companies, PBMs owned by large national health plans and smaller standalone PBMs. Competition may also come from other sources in the future. In addition, changes in the overall composition of our pharmacy networks, or reduced pharmacy access under our networks, could adversely affect our claims volume and/or our competitiveness generally.

Competitors in each of our business areas may offer services and pricing terms that we may not be willing or able to offer. Strong competition in the PBM marketplace has generated greater client demand for lower pricing, increased revenue sharing and enhanced product and service offerings. Unless we can demonstrate enhanced value to our clients through innovative product and service offerings, particularly in a rapidly changing health care industry, we may be unable to remain competitive.

Changes in U.S. policy, laws and regulations, including reform of the United States health care system.

The results of the November 2016 elections continue to generate some uncertainty with respect to, and could result in, significant changes in legislation, regulation and government policy that could significantly impact our business and the health care and retail industries. While it is not possible to predict whether and when any such changes will occur or what form any such changes may take (including through the use of Executive Orders), specific proposals discussed by the Presidential Administration could have a material adverse effect on our business, liquidity and results of operations include, but are not limited to, immigration policies, the modification of ACA. Other significant changes to health care system legislation or regulation as well as changes with respect to tax and trade policies, tariffs and other government regulations affecting trade between the United States and other countries are also possible.

Table of Contents

Potential modification to ACA, significant changes to Medicaid funding or even significant destabilization of the Health Insurance Marketplaces could impact the number of Americans with health insurance and, consequently, prescription drug coverage. Further changes to ACA are possible and we cannot predict the effect, if any, on future changes to ACA, the implementation or failure to implement the outstanding provisions of ACA, or the enactment of new health care system legislation to replace current legislation may have on our retail pharmacy, LTC pharmacy, specialty pharmacy and pharmacy services operations.

In addition, much of the branded and generic drug product that we sell in our retail, mail and specialty pharmacies, and much of the other merchandise we sell, is manufactured in whole or in substantial part outside of the United States. In most cases, the products or merchandise are imported by others and sold to us. As a result, significant changes in tax or trade policies, tariffs or trade relations between the United States and other countries, such as the imposition of unilateral tariffs on imported products, could result in significant increases in our costs, restrict our access to suppliers, depress economic activity, and have a material impact on our business, liquidity and results of operations. In addition, other countries may change their business and trade policies and such changes, as well as any negative sentiments towards the United States in

response to increased import tariffs and other changes in U.S. trade regulations, could adversely affect our business.

Risks related to compliance with a broad and complex regulatory framework.

Our business is subject to numerous federal, state and local laws and regulations. See "Business - Government Regulation." In addition, during the past several years, the United States health care industry has been subject to an increase in governmental regulation and enforcement activity at both the federal and state levels. Further, uncertainties exist regarding the application of many of these legal requirements to our business. In addition, it is possible that certain provisions of the current health care reform legislation may be modified, repealed or otherwise invalidated. Changes in these laws and regulations and the related interpretations and enforcement practices may require extensive system and operating changes that may be difficult to implement. Untimely compliance or noncompliance with applicable laws and regulations could adversely affect the continued operation of our business, including, but not limited to: imposition of civil or criminal penalties; significant fines or monetary penalties; suspension or disgorgement of payments from government programs; loss of required government certifications or approvals; loss of authorizations to participate in or exclusion from government reimbursement programs, such as the Medicare and Medicaid programs; or loss of registrations or licensure. The regulations to which we are subject include, but are not limited to: the laws and regulations described in the Government Regulation section; accounting standards; financial disclosure; securities laws and regulations; federal anti-trust laws; tax laws and regulations and their possible reform; laws and regulations relating to the protection of the environment and health and safety matters, including those governing exposure to, and the management and disposal of, hazardous materials and wastes; and laws and regulations of the FTC, the FCC, and the Consumer Product Safety Commission, as well as state regulatory authorities, governing the sale, advertisement and promotion of products that we sell, such as Boards of Pharmacy. The FDA, DEA and various states regulate the distribution of pharmaceuticals and controlled substances. We are required to hold valid DEA and state-level registrations and licenses, meet various security and operating standards and comply with the federal and various states' controlled substances acts and their accompanying regulations governing the sale, marketing, packaging, holding and distribution of controlled substances. The DEA, FDA and state regulatory authorities have broad enforcement powers, including the ability to suspend our registrations and licenses, seize or recall products and impose significant criminal, civil and administrative sanctions for violations of these laws and regulations. In addition, our business interests outside of the United States are subject to the Foreign Corrupt Practices Act and other applicable domestic and international laws and regulations. We are also subject to the terms of various government agreements and mandates, including those described in the Government Regulation section. In that regard, our business, financial position and results of operations could be adversely affected by existing and new government legislative, regulatory action and enforcement activity, including, without limitation, any one or more of the following:

- federal and state laws and regulations concerning the submission of claims for reimbursement by Medicare, Medicaid and other government programs, whether at retail, mail, specialty or LTC;
- federal and state laws and regulations governing the purchase, distribution, tracking, management, compounding, dispensing and reimbursement of prescription drugs and related services, whether at retail, mail, specialty or LTC, and applicable registration or licensing requirements;
- heighted enforcement of controlled substances regulations;
- the effect of the expiration of patents covering brand name drugs and the introduction of generic products;

Table of Contents

- the frequency and rate of approvals by the FDA of new brand name and generic drugs, or of over-the-counter status for brand name drugs;
- rules and regulations issued pursuant to HIPAA and the HITECH Act; and other federal and state laws affecting the collection, use, disclosure and transmission of health or other personal information, such as federal laws on information privacy precipitated by concerns about information collection through the Internet, state security breach laws and state laws limiting the use and disclosure of prescriber information;
- health care fraud and abuse laws regulations;
- consumer protection laws affecting our health care services, our loyalty programs, our drug discount card programs, the products we sell, the informational calls we make and/or the marketing of our goods and services;
- federal, state and local environmental, health and safety laws and regulations applicable to our business, including the management of hazardous substances, storage and transportation of hazardous materials, and various recordkeeping disclosure and procedure requirements promulgated by the Occupational Safety and Health Administration that may apply to our operations;
- health care reform, managed care reform and plan design legislation;
- laws against the corporate practice of medicine;
- FDA regulation affecting the retail, LTC, specialty or PBM industry;
- government regulation of the development, administration, review and updating of formularies and drug lists including requirements and/or limitations around formulary tiering and patient cost sharing;
- state laws and regulations related to increased oversight of PBM activities by state departments of insurance pharmacy reimbursement for generics and pharmacy audits;
- drug pricing legislation, including “most favored nation” pricing;
- federal and state laws and regulations establishing or changing prompt payment requirements for payments to retail pharmacies;
- impact of network access legislation or regulations, including “any willing provider” laws, on our ability to manage pharmacy networks;
- ERISA and related regulations;
- administration of Medicare Part D, including legislative changes and/or CMS rulemaking and interpretation;
- Medicare and Medicaid regulations applicable to our business, in particular our LTC pharmacies and those of our client’s facilities;
- ongoing compliance with consent decrees, corporate integrity agreements, corrective action plans and other agreements with government agencies;
- insurance licensing and other insurance regulatory requirements applicable to offering Medicare Part D programs and services or other health care services; and
- direct regulation of pharmacies or PBMs by regulatory and quasi-regulatory bodies.

The possibility of client losses and/or the failure to win new business.

Our PBM business generates net revenues primarily by contracting with clients to provide prescription drugs and related health care services to plan members. PBM client contracts often have terms of approximately three years in duration, so approximately one third of a PBM’s client base typically is subject to renewal each year. In some cases, however, PBM clients may negotiate a shorter or longer contract term or may require early or periodic renegotiation of pricing prior to expiration of a contract. Our clients are generally well informed and organized, can move between our competitors and often seek competing bids prior to expiration of their contracts. In addition, the reputational impact of a service-related incident could negatively affect our business. These factors, together with the impact of competitive pressures, could make it difficult for us to attract new clients, retain existing clients and cross-sell additional services. Further, the PBM industry has been affected by consolidation activity that may continue in the

future. In the event one or more of our PBM clients is acquired by an entity that is not also our client, we may be unable to retain all or a portion of the acquired business. These circumstances, either individually or in the aggregate, could result in an adverse effect on our business and financial results. Therefore, we continually face challenges in competing for new PBM business and retaining or renewing our existing PBM business. With respect to our LTC business, reimbursement from skilled nursing facilities for prescriptions we dispense is determined pursuant to our agreements with those skilled nursing facilities. The termination of these agreements generally causes our ability to provide services to any of the residents of that facility to cease, resulting in the loss of revenue from any source for those residents. There can be no assurance that we will be able to win new business or secure renewal business on terms as favorable to us as the present terms.

Table of Contents

Additionally, with respect to our retail and LTC pharmacy businesses, reimbursement under Medicare Part D, as well as reimbursement from certain private third-party payors, is determined pursuant to agreements that we negotiate with those payors or their pharmacy benefit manager representatives. The loss of those agreements, or a material change in the terms of those agreements, could negatively impact the Company. In addition, restricted networks that exclude our retail or specialty pharmacies negatively impact those businesses.

Risks relating to the market availability, suppliers and safety profiles of prescription drugs that we purchase and sell.

We dispense significant volumes of brand-name and generic drugs from our retail, LTC, specialty and mail-order pharmacies and through our PBM's network of retail pharmacies. When increased safety risk profiles or manufacturing or other supply issues of specific drugs or classes of drugs occur, or drugs become subject to greater restrictions as controlled substances, physicians may cease writing prescriptions for these drugs or the utilization of these drugs may be otherwise reduced.

Additionally, adverse publicity regarding drugs with higher safety risk profiles may result in reduced consumer demand for such drugs. On occasion, products are withdrawn by their manufacturers or transition to over-the-counter products, which can result in lower prescription utilization. In addition, future FDA rulings could restrict the supply or increase the cost of products sold to our customers. Our volumes, net revenues, profitability and cash flows may decline as a result of such regulatory rulings or market changes.

Further, we acquire a substantial amount of our mail and specialty pharmacies' prescription drug supply from a limited number of suppliers. Our agreements with these suppliers are often short-term and easily cancelable by either party without cause. In addition, these agreements may limit our ability to provide services for competing drugs during the term of the agreement and may allow the supplier to distribute through channels other than ours. Certain of these agreements also allow pricing and other terms to be adjusted periodically for changing market conditions or required service levels. A termination or modification to any of these relationships could have a material adverse effect on our business, financial condition and results of operations. Moreover, many products distributed by our specialty pharmacy business are manufactured with ingredients that are susceptible to supply shortages. In some cases, we depend upon a single source of supply.

In addition, our suppliers are independent entities subject to their own operational and financial risks that are outside our control. If our current suppliers were to stop selling prescription drugs to us or delay delivery, including as a result of supply shortages, supplier production disruptions, supplier quality issues, closing or bankruptcies of our suppliers, or for other reasons, we may be unable to procure alternatives from other suppliers in a timely and efficient manner and on acceptable terms, or at all.

A disruption in our business operations could occur as a result of contamination of drugs, a failure to maintain necessary shipment and storage conditions, errors in mail order processing, the unavailability of prescription drugs provided by suppliers, labor disruptions or other unanticipated disruptions at our mail order facilities, call centers, data centers or corporate facilities, among other factors. Such disruption could reduce our ability to process and dispense prescriptions and provide products and services to our customers.

In the event any products we distribute are in limited supply for significant periods of time, our financial condition and results of operations could be materially and adversely affected.

Risks related to the frequency and rate of the introduction and pricing of generic drugs and brand name prescription products.

The profitability of our business is dependent upon the utilization of prescription drug products. Utilization trends are affected by, among other factors, the introduction of new and successful prescription pharmaceuticals as well as lower-priced generic alternatives to existing brand name products, as the sale of generic alternatives normally yield higher gross margins than brand name equivalents. In addition, inflation in the price of the brand name drugs can affect utilization, particularly given the increase in high deductible health plans. Accordingly, our business could be impacted by a slowdown or delay in the number or magnitude of new and successful prescription pharmaceuticals and/or generic alternatives, as well as the pricing of brand name drugs.

Table of Contents

The health of the economy in general and in the markets we serve.

Our business is affected by the economy and consumer confidence in general, including various economic factors, inflation and changes in consumer purchasing power, preferences and/or spending patterns. It is possible that an unfavorable, uncertain or volatile economic environment will cause a decline in drug and health care services utilization and dampen demand for pharmacy benefit management services as well as consumer demand for products sold in our retail stores. Further economic conditions including interest rate fluctuations, changes in capital market conditions and regulatory changes may affect our ability to obtain necessary financing on acceptable terms, our ability to secure suitable store locations under acceptable terms and our ability to execute sale-leaseback transactions under acceptable terms. These changes in conditions could result in an adverse effect on our business and financial results. This could be further exacerbated by the increasing prevalence of high deductible health plans and health plan designs favoring co-insurance over co-payments.

The failure or disruption of our information technology systems, our information security systems and our infrastructure to support our business and to protect the privacy and security of sensitive customer and business information.

Many aspects of our operations are dependent on our information systems and the information collected, processed, stored, and handled by these systems. We rely heavily on our computer systems to manage our ordering, pricing, point-of-sale, pharmacy fulfillment, inventory replenishment, claims processing, ExtraCare customer loyalty program, finance, human resource and other processes. Throughout our operations, we receive, retain and transmit certain confidential information, including PII that our customers and clients provide to purchase products or services, enroll in programs or services, register on our websites, interact with our personnel, or otherwise communicate with us. In addition, for these operations, we depend in part on the secure transmission of confidential information over public networks. Our information systems are subject to damage or interruption from power outages, facility damage, computer and telecommunications failures, computer viruses, security breaches including credit card or personally identifiable information breaches, coordinated cyber attacks, vandalism, catastrophic events and human error. Although we deploy a layered approach to address information security threats and vulnerabilities, including ones from a cyber security standpoint, designed to protect confidential information against data security breaches, a compromise of our information security controls or of those businesses with whom we interact, which results in confidential information being accessed, obtained, damaged, or used by unauthorized or improper persons, could harm our reputation and expose us to regulatory actions and claims from customers and clients, financial institutions, payment card associations and other persons, any of which could adversely affect our business, financial position, and results of operations. Because the techniques used to obtain unauthorized access, disable or degrade service, or sabotage systems change frequently and may not immediately produce signs of intrusion, we may be unable to anticipate these techniques or to implement adequate preventative measures. Moreover, a data security breach could require that we expend significant resources related to our information systems and infrastructure, and could distract management and other key personnel from performing their primary operational duties. We also could be adversely affected by any significant disruption in the systems of third parties we interact with, including key payors and vendors.

If our information systems are damaged, fail to work properly or otherwise become unavailable, or if we are unable to successfully complete our planned consolidation of our PBM claims adjudication platforms, we may incur substantial costs to repair or replace them, and may experience reputational damage, loss of critical information, customer disruption and interruptions or delays in our ability to perform essential functions and implement new and innovative services. In addition, compliance with changes in privacy and information security laws and standards may result in considerable expense due to increased investment in technology and the development of new operational processes.

Failure to adequately protect receipt and use of confidential health information concerning individuals.

Many aspects of our business involve the collection, transmission and use of an individual's protected health information or other sensitive personal information. In some cases, we also use aggregated and de-identified data as defined by HIPAA for analytical and research purposes, particularly data related to improving the quality of the care we provide. In other cases, we may provide de-identified data to pharmaceutical manufacturers and to third-party data aggregators where permitted by our contracts. These activities are subject to federal and state privacy and security laws and regulations and, in the future, may be subject to international regulatory requirements such as the General Data Protection Regulation, a new European Union privacy regulation that takes effect on May 25, 2018. At the federal level, HIPAA imposes extensive privacy and security requirements governing the transmission, use and disclosure of health

Table of Contents

information by all participants in the health care industry, whether directly as a covered entity or as a business associate. Our business encompasses both situations and includes our pharmacists, nurse practitioners and PBM operations. In addition, industry requirements, such as Generally Accepted Privacy Principles may be imposed on us by our contracts with our PBM clients or other customers. Many of our businesses are also subject to the Payment Card Industry Data Security Standard, which is a security standard mandated by the credit card industry for the purpose of protecting credit card account data. These increasingly complex laws, regulations and industry requirements are subject to change and compliance with them may result in significant expenses associated with increased operational and compliance costs, particularly as we continue to collect and retain large amounts of information. To the extent that either we or our vendors with whom we share information are found to be out of compliance with applicable laws and regulations or experience a data security breach, we could be subject to additional litigation, regulatory risks and reputational harm. For example, the privacy and security of the information we maintain may be compromised by the actions of outside parties, by employee errors or by malfeasance. Such risks may result in an unauthorized party obtaining access to our data systems thereby threatening the privacy of protected health information or other sensitive personal information we use and maintain. Failure to comply with federal or state statutes or regulations may result in criminal penalties and civil sanctions. In addition, failure to comply with our own privacy or security policies may result in sanctions by the FTC or other federal oversight agencies. Future regulations and legislation that severely restrict or prohibit our use of patient, member or customer identifiable or other information could limit our ability to use information critical to the operation of our business. Furthermore, if we violate a patient's privacy or are found to have violated any federal or state statute or regulation with regard to confidentiality or dissemination or use of PHI, we could be liable for significant damages, fines or penalties and suffer reputational harm, any one of which could have a material adverse effect on our business and results of operations.

Regulatory and business changes relating to our participation in Medicare Part D.

Medicare Part D has resulted in increased utilization and puts pressure on pharmacy gross margin rates due to regulatory and competitive pressures. Further, as a result of ACA and changes to the retiree drug subsidy rules, our PBM clients could decide to discontinue providing prescription drug benefits to their Medicare-eligible members. To the extent this occurs, the adverse effects of increasing customer migration into Medicare Part D may outweigh the benefits we realize from growth of our Medicare Part D business. In addition, if the cost and complexity of Medicare Part D exceed management's expectations or prevent effective program implementation or administration; if changes to the regulations regarding how drug costs are reported for Medicare Part D are implemented in a manner that impacts the profitability of our Medicare Part D business; if changes to the regulations impact our ability to retain fees from third parties including network pharmacies; if the government alters Medicare program requirements or reduces funding because of the higher-than-anticipated cost to taxpayers of Medicare Part D or for other reasons; if the government mandates the use of point-of-sale manufacturer rebates or makes changes to how pharmacy pay-for-performance is calculated; if Congress acts to reduce reinsurance thresholds from 80% to 20%; if we fail to design and maintain programs that are attractive to Medicare participants; if CMS imposes restrictions on our Medicare Part D business as a result of audits or other regulatory actions; if we fail to successfully implement corrective action or other remedial measures sufficient to prevent or remove any applicable restrictions that may be imposed by CMS; or if we are not successful in retaining enrollees, or winning contract renewals or new contracts under Medicare Part D's competitive bidding process, our Medicare Part D services and the ability to expand our Medicare Part D services could be negatively impacted.

Possible changes in industry pricing benchmarks and drug pricing generally.

It is possible that the pharmaceutical industry or regulators may evaluate and/or develop an alternative pricing reference to replace Average Wholesale Price ("AWP") or Wholesale Acquisition Cost ("WAC"), which are the pricing references used for many of our PBM and LTC client contracts, pharmaceutical purchase agreements, retail network contracts, specialty payor agreements and other contracts with third party payors in connection with the reimbursement of drug payments. In addition, many state Medicaid fee-for-service programs ("FFS Medicaid") have established pharmacy network payments on the basis of Actual Acquisition Cost ("AAC"). The use of an AAC basis in FFS Medicaid could have an impact in reimbursement practices in other commercial and government segments. Future changes to the use of AWP, WAC or to other published pricing benchmarks used to establish pharmaceutical pricing, including changes in the basis for calculating reimbursement by federal and state health programs and/or other payors, could impact the reimbursement we receive from Medicare and Medicaid programs, the reimbursement we receive from PBM clients and other payors and/or our ability to negotiate rebates and/or discounts with pharmaceutical manufacturers, wholesalers, PBMs and retail pharmacies. A failure or inability to fully offset any increased prices or costs or to modify our operations to mitigate the impact of such increases could have an adverse effect on our results of operations.

Table of Contents

Additionally, any future changes in drug prices could be significantly different than our projections. The effect of these possible changes on our business cannot be predicted at this time.

Product liability, product recall or personal injury issues could damage our reputation; failure to maintain adequate liability insurance coverage.

The products that we sell could become subject to contamination, product tampering, mislabeling, recall or other damage. In addition, errors in the dispensing and packaging of pharmaceuticals could lead to serious injury or death. Product liability or personal injury claims may be asserted against us with respect to any of the products or pharmaceuticals we sell or services we provide. Our business involves the provision of professional services including by pharmacists, nurses and nurse practitioners that exposes us to professional liability claims. Should a product or other liability issue arise, the coverage limits under our insurance programs and the indemnification amounts available to us may not be adequate to protect us against claims. We also may not be able to maintain this insurance on acceptable terms in the future. Damage to our reputation in the event of a product liability or personal injury issue or judgment against us or a product recall could have a significant adverse effect on our business, financial condition and results of operations.

Relationship with our retail and specialty pharmacy customers and the demand for our products and services, including propriety brands.

The success of our business depends in part on customer loyalty, superior customer service and our ability to persuade customers to frequent our retail stores and online sites and to purchase products in additional categories and our proprietary brands. Failure to timely identify or effectively respond to changing consumer preferences and spending patterns, and evolving demographic mixes in our markets, an inability to expand the products being purchased by our clients and customers, or the failure or inability to obtain or offer particular categories of products could negatively affect our relationship with our clients and customers and the demand for our products and services and could result in excess inventories of products.

We offer our retail customers proprietary brand products that are available exclusively at our retail stores and through our online retail sites. The sale of proprietary products subjects us to unique risks including potential product liability risks and mandatory or voluntary product recalls, potential supply chain and distribution chain disruptions for raw materials and finished products, our ability to successfully protect our intellectual property rights and the rights of applicable third parties, and other risks generally encountered by entities that source, market and sell private-label products. Any failure to adequately address some or all of these risks could have an adverse effect on our business, results of operations and financial condition. Additionally, an increase in the sales of our proprietary brands may negatively affect our sales of products owned by our suppliers which, consequently, could adversely impact certain of our supplier relationships. Our ability to locate qualified, economically stable suppliers who satisfy our requirements, and to acquire sufficient products in a timely and effective manner, is critical to ensuring, among other things, that customer confidence is not diminished. Any failure to develop sourcing relationships with a broad and deep supplier base could adversely affect our financial performance and erode customer loyalty.

Finally, our specialty pharmacy business focuses on complex and high-cost medications, many of which are made available by manufacturers to a limited number of pharmacies (so-called limited distribution drugs), that serve a relatively limited universe of patients. As a result, the future growth of our specialty pharmacy business is dependent largely upon expanding our base of drugs or penetration in certain treatment categories. Any contraction of our base of patients or reduction in demand for the prescriptions we currently dispense could have an adverse effect on our business, financial condition and results of operations.

Risks related to developing and maintaining a relevant omni-channel experience for our customers.

Our business has evolved from a retail store experience to interaction with customers across numerous channels, including in-store, online, mobile and social media, among others. Omni-channel retailing is rapidly evolving and we must keep pace with changing customer expectations and new developments by our competitors. Our customers are increasingly using computers, tablets, mobile phones, and other devices to comparison shop, determine product availability and complete purchases through mobile commerce applications. As a result, the portion of total consumer expenditures with all retailers occurring online and through mobile commerce applications is increasing and the pace of this increase could accelerate. We must compete by offering a consistent and convenient shopping experience for our customers regardless of the ultimate sales channel and by investing in, providing and maintaining mobile commerce

Table of Contents

applications for our customers that have the right features and are reliable and easy to use. If we are unable to make, improve, or develop relevant customer-facing technology in a timely manner that keeps pace with technological developments and dynamic customer expectations, our ability to compete and our results of operations could be materially and adversely affected. In addition, if our online activities or our other customer-facing technology systems do not function as designed, we may experience a loss of customer confidence, data security breaches, lost sales, or be exposed to fraudulent purchases, any of which could materially and adversely affect our business operations, reputation and results of operations.

We are subject to payment-related risks that could increase our operating costs, expose us to fraud or theft, subject us to potential liability and disrupt our business operations.

We accept payments using a variety of methods, including cash, checks, credit cards, debit cards, gift cards, mobile payments and potentially other technologies in the future. Acceptance of these payment methods subjects us to rules, regulations, contractual obligations and compliance requirements, including payment network rules and operating guidelines, data security standards and certification requirements, and rules governing electronic funds transfers. These requirements may change in the future, which could make compliance more difficult or costly. For certain payment options, including credit and debit cards, we pay interchange and other fees, which could increase periodically thereby raising our operating costs. We rely on third parties to provide payment processing services, including the processing of credit cards, debit cards, and various other forms of electronic payment. If these companies are unable to provide these services to us, or if their systems are compromised, our operations could be disrupted. The payment methods that we offer also expose us to potential fraud and theft by persons seeking to obtain unauthorized access to, or exploit any weaknesses in, the payment systems. If we fail to abide by applicable rules or requirements, or if data relating to our payment systems is compromised due to a breach or misuse, we may be responsible for any costs incurred by payment card issuing banks and other third parties or subject to fines and higher transaction fees. In addition, our reputation and ability to accept certain types of payments could each be harmed resulting in reduced sales and adverse effects on our results of operations.

Solvency of our customers.

In the event that our customers' operating and financial performance deteriorates, or they are unable to make scheduled payments or obtain adequate financing, our customers may not be able to pay timely, or may delay payment of, amounts owed to us. Any inability of our customers to pay us for our products and services may adversely affect our business, financial condition and results of operations. In addition, both state and federal government sponsored payers, as a result of budget deficits or reductions, may suspend payments or seek to reduce their healthcare expenditures resulting in our customers delaying payments to us or renegotiating their contracts with us. Any delay or reduction in payments by such government sponsored payers may adversely affect our business, financial condition and results of operations.

Our outstanding debt and associated payment obligations could significantly increase in the future if we incur additional debt and do not retire existing debt.

Our current debt service costs associated with our increased debt levels may negatively impact our ability to make important investments in our business and limit our flexibility to respond to industry changes and market conditions. In addition, our debt levels and related debt service obligations could make it more difficult or expensive for us to obtain financing for working capital, capital expenditures, acquisitions or other purposes in the future. These circumstances could have a material adverse effect on our business operations and financial condition.

Further, we may incur and assume significantly more debt in the future, including in connection with the Aetna Acquisition or other acquisitions, strategic investments or joint ventures. For example, in connection with the Aetna Acquisition, if it is completed, we expect to incur approximately, $45.0 billion of new indebtedness and assume approximately $8.2 billion of existing indebtedness of Aetna. If we do not retire our existing debt or debt we assume in acquisitions or other strategic transactions, the risks described above could increase. We also could be adversely impacted by any failure to renew or replace, on terms acceptable to us or at all, existing indebtedness when it expires, and by any failure to satisfy applicable covenants.

We may be unable to refinance existing indebtedness or otherwise access the capital markets for any reason, whether due to market conditions or otherwise. Our continued access to the capital markets, and the terms of such access, depend on multiple factors including the condition of debt capital markets, our operating performance, the amount of our

Table of Contents

indebtedness and debt service obligations and our credit ratings. Any disruptions or turmoil in the capital markets or any downgrade of our credit ratings could have a material adverse effect on our cost of funds, liquidity, competitive position and access to capital markets, which could materially and adversely affect our business operations, financial condition, and results of operations.

Our long-term debt obligations include covenants that limit our ability and the ability of our subsidiaries to secure indebtedness with a security interest on certain property or stock or engage in certain sale and leaseback transactions with respect to certain properties. In addition, our existing credit agreements require us to maintain a ratio of consolidated debt to total capitalization not to exceed specified levels. Our ability to comply with these restrictions and covenants may be affected by events beyond our control, and if we fail to comply with such restrictions or covenants, our outstanding indebtedness could be declared immediately due and payable. This could have a material adverse effect on our business operations and financial condition.

We may be unable to successfully integrate companies acquired by us.

Upon the closing of any acquisition we complete, we will need to successfully integrate the products, services and related assets, as well as internal controls into our business operations. If an acquisition is consummated, the integration of the acquired business, its products, services and related assets into our company may also be complex and time-consuming and, if the integration is not fully successful, we may not achieve the anticipated benefits, operating and cost synergies or growth opportunities of an acquisition. Potential difficulties that may be encountered in the integration process include the following:

- Integrating personnel, operations and systems, while maintaining focus on producing and delivering consistent, high quality products and services;
- Coordinating geographically dispersed organizations;
- Disruption of management’s attention from our ongoing business operations;
- Retaining existing customers and attracting new customers; and
- Managing inefficiencies associated with integrating our operations.

An inability to realize the full extent of the anticipated benefits, operating and cost synergies, innovations and operations efficiencies or growth opportunities of an acquisition, as well as any delays encountered in the integration process, could have a material adverse effect on our business and results of operation. Furthermore, these acquisitions, even if successfully integrated, may fail to further our business strategy as anticipated, expose us to increased competition or challenges with respect to our products, services or geographic markets, and expose us to additional liabilities associated with an acquired business including risks and liabilities associated with litigation involving the acquired business. Any one of these challenges or risks could impair our ability to realize any benefit from our acquisitions after we have expended resources on them.

Risks related to the seasonality of our business.

Although the majority of our revenues, particularly pharmacy revenues, are generally not seasonal in nature, front store revenues tend to be higher during the December holiday season. Uncharacteristic or extreme weather conditions can adversely impact consumer shopping patterns as well. This could lead to lost sales, as well as increased snow removal and other costs, thereby negatively affecting our short-term results of operations. In addition, both pharmacy and front store revenues are affected by the timing and severity of the cough, cold and flu season, which is susceptible to large fluctuations from year to year, and our quarterly earnings and

operating cash flows are impacted by the Medicare Part D benefit design and changes in the composition of our membership. See “Business - Pharmacy Services Seasonality.”

Our operations are subject to a variety of business continuity hazards and risks, any of which could interrupt operations or otherwise adversely affect our performance and results.

We are subject to business continuity hazards and other risks, including natural disasters, utility and other mechanical failures, acts of war or terrorism, disruption of communications, data security and preservation, disruption of supply or distribution, safety regulation and labor difficulties. The occurrence of any of these or other events might disrupt or shut down operations, or otherwise adversely impact our operations. We may also be subject to certain liability claims in the event of an injury or loss of life, or damage to property, resulting from such events. Although we have developed business continuity plans and maintain insurance policies that we believe are customary and adequate for our size and

Table of Contents

industry, our insurance policies include limits and, as such, our coverage may be insufficient to protect against all potential hazards and risks incident to our business. Should any such hazards or risks occur, or should our insurance coverage be inadequate or unavailable, our business financial condition and results of operations could be adversely affected.

Risks related to litigation and other legal proceedings.

Pharmacy services, retail pharmacy and LTC pharmacy are highly regulated and litigious industries. We are currently subject to various litigation matters, investigations, audits, inspections, government inquiries, and regulatory and legal proceedings. Litigation, and particularly securities and collective or class action litigation, is often expensive and disruptive. Further, under the *qui tam* or “whistleblower” provisions of the federal and various state false claims acts, private citizens may bring lawsuits alleging that a violation of the federal anti-kickback statute or similar laws has resulted in the submission of “false” claims to federal and/or state health care programs, including Medicare and Medicaid. Litigation related to our provision of professional services in our pharmacies, specialty pharmacies, clinics and LTC facilities has also increased as we expand our services along the continuum of health care. We cannot predict the outcome of any of these matters, and the costs incurred may be substantial regardless of outcome. Our business, financial condition and results of operations may be adversely affected, or we may be required to materially change our business practices, as a result of such proceedings. We refer you to Item 3, “Legal Proceedings” for additional information.

We face significant competition in attracting and retaining talented employees. Further, managing succession for, and retention of, key executives is critical to our success, and our failure to do so could have an adverse impact on our future performance.

Our ability to attract and retain qualified and experienced employees is essential to meet current and future goals and objectives and there is no guarantee we will be able to attract and retain such employees or that competition among potential employers will not result in increased salaries or other benefits. An inability to retain existing employees or attract additional employees, or an unexpected loss of leadership, could have a material adverse effect on our business and results of operations.

In addition, our failure to adequately plan for succession of senior management and other key management roles or the failure of key employees to successfully transition into new roles could have a material adverse effect on our business and results of operations. While we have succession plans in place and employment arrangements with certain key executives, these do not guarantee the services of these executives will continue to be available to us.

Goodwill and other intangible assets could, in the future, become impaired.

As of December 31, 2017, we had $52.1 billion of goodwill and other intangible assets. Goodwill and indefinitely-lived intangible assets are subject to annual impairment reviews, or more frequent reviews if events or circumstances indicate that the carrying value may not be recoverable. When evaluating goodwill for potential impairment, we first compare the fair value of our reporting units to their respective carrying amounts. We estimate the fair value of our reporting units using a combination of a discounted cash flow model and a comparable market multiple model. If the estimated fair value of the reporting unit is less than its carrying amount, an impairment loss calculation is prepared. The impairment loss calculation compares the fair value of a reporting unit to its carrying amount. If the carrying amount of the reporting unit exceeds the fair value, a goodwill impairment loss is recognized in an amount equal to the excess to the extent of the goodwill balance. Estimated fair values could change if, for example, there are changes in the business climate, changes in the competitive environment, adverse legal or regulatory actions or developments, changes in capital structure, cost of debt, interest rates, capital expenditure levels, operating cash flows, or market capitalization. Because of the significance of our goodwill and intangible assets, any future impairment of these assets could require material noncash charges to our results of operations, which could have a material adverse effect on our financial condition and results of operations.

The foregoing is not a comprehensive listing of all possible risks and there can be no assurance that we have correctly identified and appropriately assessed all factors affecting the business. As such, we refer you to “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” which includes our “Cautionary Statement Concerning Forward-Looking Statements” at the end of such section, of our Annual Report to Stockholders for the year ended December 31, 2017, which section is incorporated by reference herein.

Table of Contents

Aetna-Related Risk Factors In addition to the risk factors described above that could materially adversely affect our business, financial condition, results of operations, cash flows and prospects, the following risk factors, and additional risks not presently known to us or that we currently deem to be immaterial, could also materially adversely affect us and the Aetna Acquisition.

In order to complete the merger, we and Aetna must obtain certain governmental authorizations, and if such authorizations are not granted or are granted with conditions that become applicable to the parties, completion of the merger may be jeopardized or prevented or the anticipated benefits of the merger could be reduced.

Completion of the merger is conditioned upon the expiration or early termination of the waiting period relating to the merger under the HSR Act and certain other applicable laws or regulations and the required governmental authorizations having been obtained and being in full force and effect. Although we and Aetna have agreed in the merger agreement to use our reasonable best efforts, subject to certain limitations, to make certain governmental filings or obtain the

governmental authorizations required to complete the merger (the "required governmental authorizations"), as the case may be, there can be no assurance that the relevant waiting periods will expire or authorizations will be obtained and no assurance that the merger will be completed.

In addition, the governmental authorities from which these authorizations are required have broad discretion in administering the governing laws and regulations, and may take into account various facts and circumstances in their consideration of the merger, including other potential transactions in the health care industry or other industries. These governmental authorities may initiate proceedings seeking to prevent, or otherwise seek to prevent, the merger. As a condition to authorization of the merger or related transactions, these governmental authorities also may impose requirements, limitations or costs, require divestitures or place restrictions on the conduct of our business after completion of the merger. Under the terms of the merger agreement, we are not required, and Aetna is not permitted without our consent, to take any actions or agree to any terms or conditions in connection with (i) the expiration or early termination of the waiting period relating to the merger under the HSR Act, (ii) any other antitrust law or (iii) the required governmental authorizations, in each case if such action, term or condition would have, or would reasonably be expected to have, individually or in the aggregate, a regulatory material adverse effect on us or Aetna.

However, notwithstanding the provisions of the merger agreement, either we or Aetna could become subject to terms or conditions in connection with such waiting periods, laws or other authorizations (whether because such term or condition does not rise to the specified level of materiality or we otherwise consent to its imposition) the imposition of which could adversely affect our ability to integrate Aetna's operations with our operations, reduce the anticipated benefits of the merger or otherwise materially and adversely affect our business and results of operations after completion of the merger.

In addition to receipt of certain governmental authorizations, completion of the merger is subject to a number of other conditions, and if these conditions are not satisfied or waived, the merger will not be completed.

Our obligations and the obligations of Aetna to complete the merger are subject to satisfaction or waiver of a number of conditions in addition to receipt of certain governmental authorizations, including, among other conditions: (i) approval and adoption of the merger agreement by Aetna shareholders at an Aetna special meeting, (ii) approval of the stock issuance by our stockholders at the CVS Health special meeting, (iii) approval for the listing on the New York Stock Exchange of the shares of CVS Health common stock to be issued in the merger, (iv) absence of any applicable law or order that prohibits completion of the transaction, (v) accuracy of the representations and warranties made in the merger agreement by the other party, subject to certain materiality qualifications, (vi) performance in all material respects by the other party of the material obligations required to be performed by it at or prior to completion of the transaction, and (vii) the absence of a material adverse effect on the other party. There can be no assurance that the conditions to completion of the merger will be satisfied or waived or that the merger will be completed.

In addition, the CVS Health special meeting and the Aetna special meeting may take place before certain governmental authorizations have been obtained and, therefore, before the terms on which such governmental authorizations may be obtained, or the conditions to obtaining such governmental authorizations that may be imposed, are known. As a result, if CVS Health stockholders approve the stock issuance at the CVS Health special meeting, or Aetna shareholders approve and adopt the merger agreement at the Aetna special meeting, we and Aetna may make decisions after the respective meetings to waive a condition as to the receipt of certain governmental authorizations or to take certain

Table of Contents

actions required to obtain such governmental authorizations without seeking further stockholder or shareholder approval, as applicable, and such actions could have an adverse effect on the combined company.

After completion of the merger, we may fail to realize the anticipated benefits and cost savings of the merger, which could adversely affect the value of shares of our common stock.

The success of the merger will depend, in part, on our ability to realize the anticipated benefits and cost savings from combining the businesses of CVS Health and Aetna. Our ability to realize these anticipated benefits and cost savings is subject to certain risks, including:

- Our ability to successfully combine the businesses of CVS Health and Aetna;
- whether the combined businesses will perform as expected;
- the possibility that we paid more for Aetna than the value we will derive from the acquisition;
- the reduction of our cash available for operations and other uses and the incurrence of indebtedness to finance the acquisition; and
- the assumption of known and unknown liabilities of Aetna.

If we are not able to successfully combine the businesses of CVS Health and Aetna within the anticipated time frame, or at all, the anticipated cost savings and other benefits of the merger may not be realized fully or may take longer to realize than expected, the combined businesses may not perform as expected and the value of the shares of our common stock may be adversely affected.

We and Aetna have operated and, until completion of the merger will continue to operate, independently, and there can be no assurances that our respective businesses can be integrated successfully. It is possible that the integration process could result in the loss of key CVS Health or Aetna employees, the disruption of either company's or both companies' ongoing businesses or in unexpected integration issues, higher than expected integration costs and an overall post-completion integration process that takes longer than originally anticipated. Specifically, issues that must be addressed in integrating the operations of Aetna and CVS Health in order to realize the anticipated benefits of the merger so the combined business performs as expected include, among other things:

- combining the companies' separate operational, financial, reporting and corporate functions;
- integrating the companies' technologies, products and services;
- identifying and eliminating redundant and underperforming operations and assets;
- harmonizing the companies' operating practices, employee development, compensation and benefit programs, internal controls and other policies, procedures and processes;
- addressing possible differences in business backgrounds, corporate cultures and management philosophies;
- consolidating the companies' corporate, administrative and information technology infrastructure;
- coordinating sales, distribution and marketing efforts;
- managing the movement of certain businesses and positions to different locations;
- maintaining existing agreements with customers, providers and vendors and avoiding delays in entering into new agreements with prospective customers, providers and vendors;
- operating in industry sectors in which we and our current management may have little or no experience;
- coordinating geographically dispersed organizations;
-

consolidating offices of Aetna and CVS Health that are currently in or near the same location; and
- effecting potential actions that may be required in connection with obtaining regulatory approvals.

In addition, at times, the attention of certain members of each company's management and each company's resources may be focused on completion of the merger and the integration of the businesses of the two companies and diverted from day-to-day business operations, which may disrupt each company's ongoing business and the business of the combined company.

We have limited experience in the insurance and managed health care industry, which may hinder our ability to achieve the combined company's objectives.

We have limited experience operating an insurance and managed health care business, and will rely in large part on the existing management of Aetna to continue to manage the Aetna business following the merger. However, there is no

Table of Contents

assurance that we will be able to retain the services of such management. If we fail to retain the existing management of Aetna, our ability to realize the anticipated benefits of the transaction may be adversely affected.

We and Aetna may have difficulty attracting, motivating and retaining executives and other key employees in light of the merger.

As we will be operating in industry sectors for which our existing management team has little or no experience, our success after the transaction will depend in part on our ability to retain key executives and other employees of Aetna. Uncertainty about the effect of the merger on CVS Health and Aetna employees may have an adverse effect on each of us and Aetna separately and consequently the combined business. This uncertainty may impair our and/or Aetna's ability to attract, retain and motivate key personnel. Employee retention may be particularly challenging during the pendency of the merger, as employees of CVS Health and Aetna may experience uncertainty about their future roles in the combined business.

Additionally, Aetna's officers and employees may hold Aetna common shares, as well as Aetna stock appreciation rights, Aetna restricted stock units ("Aetna RSUs") and Aetna performance stock units ("Aetna PSUs") that are subject to accelerated vesting on a change in control, and, if the merger is completed, these officers and employees may be entitled to cash and/or the consideration payable under the merger agreement in respect of such Aetna common shares, stock appreciation rights, Aetna RSUs and Aetna PSUs. These payouts could also make retention of these officers and employees more difficult. Additionally, pursuant to employment agreements and/or other agreements or arrangements with Aetna, certain key employees of Aetna are entitled to receive severance payments upon a termination without cause and/or a resignation for "good reason" following completion of the merger. Under these agreements, certain key employees of Aetna potentially could resign from his or her employment following specified circumstances set forth in his or her applicable agreement, including an adverse change in his or her title, authority or responsibilities, compensation and benefits or primary office location.

Furthermore, if key employees of CVS Health or Aetna depart or are at risk of departing, including because of issues relating to the uncertainty and difficulty of integration, financial

security or a desire not to become employees of the combined business, we may have to incur significant costs in retaining such individuals or in identifying, hiring and retaining replacements for departing employees and may lose significant expertise and talent relating to the business of Aetna, and our ability to realize the anticipated benefits of the merger may be materially and adversely affected. Accordingly, no assurance can be given that we will be able to attract or retain key employees of Aetna to the same extent that Aetna has been able to attract or retain employees in the past.

Our and Aetna's business relationships may be subject to disruption due to uncertainty associated with the merger.

Parties with which we or Aetna do business may experience uncertainty associated with the merger, including with respect to current or future business relationships with us, Aetna or the combined business. Our and Aetna's business relationships may be subject to disruption as customers, providers, vendors and others may attempt to negotiate changes in existing business relationships or consider entering into business relationships with parties other than us, Aetna or the combined business. These disruptions could have a material adverse effect on the businesses, financial condition, results of operations or prospects of CVS Health, Aetna and/or the combined business, including a material adverse effect on our ability to realize the anticipated benefits of the merger. The risk and adverse effect of such disruptions could be exacerbated by a delay in completion of the merger or termination of the merger agreement.

The merger agreement contains provisions that may make it more difficult for us and Aetna to pursue alternatives to the merger.

The merger agreement contains provisions that make it more difficult for Aetna to sell its business to a party other than us, or for us to sell its business. These provisions include a general prohibition on each party soliciting any acquisition proposal. Further, there are only limited exceptions to each party's agreement that its board of directors will not withdraw or modify in a manner adverse to the other party the recommendation of its board of directors in favor of the approval and adoption of the merger agreement, in the case of Aetna, or the approval of the stock issuance, in our case, and the other party generally has a right to match any acquisition proposal that may be made. However, at any time prior to the approval and adoption of the merger agreement by Aetna shareholders, in the case of Aetna, or the approval of the stock issuance by CVS Health stockholders, in our case, such party's board of directors is permitted to take certain of

Table of Contents

these actions if it determines in good faith that the failure to take such action would be reasonably likely to be inconsistent with its fiduciary duties under applicable law.

While we believe these provisions are reasonable and not preclusive of other offers, these restrictions might discourage a third party that has an interest in acquiring all or a significant part of either Aetna or CVS Health from considering or proposing that acquisition, even if that party were prepared to pay consideration with a higher per-share value than the currently proposed merger consideration, in the case of Aetna, or that party were prepared to enter into an agreement that may be favorable to us or our stockholders, in our case. Furthermore, the termination fees described below may result in a potential competing acquirer proposing to pay a lower per-share price to acquire the applicable party than it might otherwise have proposed to pay because of the

added expense of the termination fee that may become payable by such party in certain circumstances.

Failure to complete the merger could negatively impact our stock price and our future business and financial results.

If the merger is not completed for any reason, including as a result of Aetna shareholders failing to approve and adopt the merger agreement or CVS Health stockholders failing to approve the stock issuance, our ongoing business may be materially and adversely affected and, without realizing any of the benefits of having completed the merger, we would be subject to a number of risks, including the following:

- we may experience negative reactions from the financial markets, including negative impacts on the trading price of our common stock and other securities, and from our customers, providers, vendors, regulators and employees;
- we may be required to pay Aetna a termination fee of $2.1 billion if the merger agreement is terminated under certain circumstances;
- we will be required to pay certain transaction expenses and other costs incurred in connection with the merger, whether or not the merger is completed;
- the merger agreement places certain restrictions on the conduct of our businesses prior to completion of the merger, and such restrictions, the waiver of which is subject to the consent of Aetna, may prevent us from making certain acquisitions, taking certain other specified actions or otherwise pursuing business opportunities during the pendency of the merger that we would have made, taken or pursued if these restrictions were not in place; and
- matters relating to the merger (including arranging permanent financing and integration planning) will require substantial commitments of time and resources by our management and the expenditure of significant funds in the form of fees and expenses, which would otherwise have been devoted to day-to-day operations and other opportunities that may have been beneficial to us as an independent company.

There can be no assurance that the risks described above will not materialize. If any of those risks materialize, they may materially and adversely affect our businesses, financial condition, financial results, ratings, stock prices and/or bond prices.

In addition, we could be subject to litigation related to any failure to complete the merger or related to any proceeding to specifically enforce our obligation to perform our obligations under the merger agreement. If the merger is not completed, these risks may materialize and may materially and adversely affect our businesses, financial condition, financial results, ratings, stock prices and/or bond prices.

We and Aetna may be targets of securities class action and derivative lawsuits which could result in substantial costs and may delay or prevent the merger from being completed.

Securities class action lawsuits and derivative lawsuits are often brought against public companies that have entered into merger agreements. Even if the lawsuits are without merit, defending against these claims can result in substantial costs and divert management time and resources. An adverse judgment could result in monetary damages, which could have a negative impact on our and Aetna's respective liquidity and financial condition. Additionally, if a plaintiff is successful in obtaining an injunction prohibiting completion of the merger, then that injunction may delay or prevent the merger from being completed, which may adversely affect our and Aetna's respective business, financial position and results of operation. Since the filing with the SEC of the preliminary joint proxy statement/prospectus relating to the proposed merger, a number of class action lawsuits in connection with the merger have been filed against us, Aetna and Aetna's

Table of Contents

directors and officers. Neither we nor Aetna presently believe that there is any merit to any such lawsuit. We and Aetna intend to defend them vigorously.

Our indebtedness following completion of the merger will be substantially greater than our indebtedness on a stand-alone basis and greater than the combined indebtedness of CVS Health and Aetna existing prior to the announcement of the transaction. This increased level of indebtedness could adversely affect our business flexibility, and increase our borrowing costs. Downgrades in our ratings could adversely affect our business, cash flows, financial condition and operating results.

In order to complete the merger, we expect to incur acquisition-related debt financing of approximately $45.0 billion and assume Aetna's existing indebtedness of approximately $8.2 billion. Our substantially increased indebtedness and higher debt-to-equity ratio following completion of the merger in comparison to that of CVS Health prior to the merger will have the effect, among other things, of reducing our flexibility to respond to changing business and economic conditions and will increase our borrowing costs. In addition, the amount of cash required to service our increased indebtedness levels and thus the demands on our cash resources will be greater than the amount of cash flows required to service the indebtedness of CVS Health or Aetna individually prior to the merger. The increased levels of indebtedness could also reduce funds available to fund our efforts to combine our business with Aetna and realize expected benefits of the merger and/or engage in investments in product development, capital expenditures, dividend payments, share repurchases and other activities and may create competitive disadvantages for us relative to other companies with lower debt levels.

In addition, our credit ratings impact the cost and availability of future borrowings, and, as a result, our cost of capital. Our ratings reflect each rating organization's opinion of our financial strength, operating performance and ability to meet our debt obligations or, following completion of the merger, obligations to the combined company's insureds. Each of the ratings organizations reviews our ratings periodically, and there can be no assurance that our current ratings will be maintained in the future. Following the announcement of the merger agreement, each of Standard & Poor's and Moody's placed certain of our debt, financial strength and other credit ratings under review for a possible downgrade. Following the announcement of the merger agreement, Standard & Poor's, A.M. Best and Fitch placed Aetna's debt, financial strength and other credit ratings under review with negative implications. Downgrades in our ratings could adversely affect our business, cash flows, financial condition and operating results. In addition, if the merger is completed and, in certain circumstances, Aetna's debt securities are rated below investment grade, this may constitute a change of control triggering event under the indentures governing such debt. Upon the occurrence of a change of control triggering event, Aetna, as the surviving corporation of the merger, would be required to offer to repurchase most of Aetna's outstanding notes at 101% of the principal amount thereof plus accrued and unpaid interest if any, to, but not including, the date of repurchase. However, it is possible that Aetna (or us) would not have sufficient funds at the time of the change of control triggering event to make the required repurchase of notes or that restrictions in other debt instruments would not allow such repurchases. We cannot provide any assurance that there will be sufficient funds available for Aetna (or us) to make any required repurchases of the notes upon a change of control triggering event.

We will incur significant transaction and integration-related costs in connection with the merger.

We expect to incur a number of non-recurring costs associated with the merger and combining the operations of the two companies. We will incur significant transaction costs related to the merger, including with respect to the financing for the cash consideration to be paid to Aetna

shareholders. We also will incur significant integration-related fees and costs related to formulating and implementing integration plans, including facilities and systems consolidation costs and employment-related costs. We continue to assess the magnitude of these costs, and additional unanticipated costs may be incurred in the merger and the integration of the two companies' businesses. Although we expect that the elimination of duplicative costs, as well as the realization of other efficiencies related to the integration of the businesses, should allow us to offset integration-related costs over time, this net benefit may not be achieved in the near term, or at all.

Table of Contents

The merger may not be accretive, and may be dilutive, to our earnings per share, which may negatively affect the market price of shares of our common stock.

We currently project that the merger will result in a number of benefits, including enhanced competitive positioning and a platform from which to accelerate growth, and that it will be accretive to earnings per share in the second full year after the close of the transaction. This projection is based on preliminary estimates that may materially change. In addition, future events and conditions could decrease or delay the accretion that is currently projected or could result in dilution, including adverse changes in market conditions, additional transaction and integration-related costs and other factors such as the failure to realize some or all of the anticipated benefits of the merger. Any dilution of, decrease in or delay of any accretion to, our earnings per share could cause the price of shares of our common stock to decline or grow at a reduced rate.

The future results of the combined company may be adversely impacted if the combined company does not effectively manage its expanded operations following completion of the merger.

Following completion of the merger, the size of the combined company's business will be significantly larger than the current size of either our or Aetna's respective businesses. The combined company's ability to successfully manage this expanded business will depend, in part, upon management's ability to implement an effective integration of the two companies and its ability to manage a combined business with significantly larger size and scope with the associated increased costs and complexity. There can be no assurances that the management of the combined company will be successful or that the combined company will realize the expected operating efficiencies, cost savings and other benefits currently anticipated from the merger.

Additional information concerning these risks, uncertainties and assumptions can be found in the section entitled "Risk Factors" beginning on page 62 of our preliminary joint proxy statement/prospectus filed February 9, 2018 with the SEC on Form S-4/A.

Item 1B. Unresolved Staff Comments

There are no unresolved SEC Staff Comments.

Item 2. Properties

We lease most of our stores under long-term leases that vary as to rental amounts, expiration dates, renewal options and other rental provisions. For additional information on the amount of our rental obligations for our leases, we refer you to Note 7 “Leases” in our Annual Report to Stockholders for the year ended December 31, 2017, which section is incorporated by reference herein.

As of December 31, 2017, we owned approximately 4% of our 8,108 retail stores. Net selling space for our retail stores was approximately 79.5 million square feet as of December 31, 2017. Approximately 20% of our store base was opened or significantly remodeled within the last five years.

We lease 1,695 retail pharmacies and 79 clinics in Target stores located in 47 states and the District of Columbia.

We own nine distribution centers located in Alabama, California, Hawaii, New York, Rhode Island, South Carolina, Tennessee and Texas and lease 13 additional distribution facilities located in Arizona, Florida, Indiana, Michigan, Missouri, New Jersey, Pennsylvania, Texas, Virginia and Brazil. The 22 distribution centers total approximately 10.4 million square feet as of December 31, 2017.

As of December 31, 2017, we owned six and leased 139 LTC pharmacies in 44 states and owned one LTC repackaging facility in Kentucky.

As of December 31, 2017, we owned one mail service dispensing pharmacy located in Texas and leased three additional mail order dispensing pharmacies located in Hawaii, Illinois and Pennsylvania; we leased call centers located in California, Missouri, Pennsylvania, Tennessee and Texas; we leased 37 onsite pharmacy stores and 23 specialty pharmacy stores, and leased 18 specialty mail order pharmacies; we leased 83 branches for infusion and enteral services, including approximately 73 ambulatory infusion suites and three centers of excellence.

Table of Contents

We own our corporate offices located in Woonsocket, Rhode Island, which totals approximately one million square feet. In addition, we lease corporate offices in Scottsdale, Arizona, Northbrook, Illinois, Cincinnati, Ohio, Monroeville, Pennsylvania, Irving, Texas, and Sao Paulo, Brazil.

In connection with certain business dispositions completed between 1991 and 1997, we continue to guarantee lease obligations for approximately 85 former stores. We are indemnified for these guarantee obligations by the respective purchasers. These guarantees generally remain in effect for the initial lease term and any extension thereof pursuant to a renewal option provided for in the lease prior to the time of the disposition. For additional information, we refer you to Note 12 “Commitments and Contingencies” in our Annual Report to Stockholders for the year ended December 31, 2017, which section is incorporated by reference herein.

Management believes that the Company’s owned and leased facilities are suitable and adequate to meet the Company’s anticipated needs. At the end of the existing lease terms, management believes the leases can be renewed or replaced by alternative space.

Table of Contents

The following is a breakdown by state, District of Columbia, Puerto Rico and Brazil of our retail stores, pharmacies and clinics in Target stores, LTC hub and spoke pharmacies, onsite pharmacy stores, specialty pharmacy stores, specialty mail order pharmacies, mail order dispensing pharmacies and branches and centers of excellence for infusion and enteral services as of December 31, 2017:

Item 3. Legal Proceedings

I. Legal Proceedings

We refer you to the Note 12 “Commitments and Contingencies” contained in the “Notes to the Consolidated Financial Statements” of our Annual Report to Stockholders for the year ended December 31, 2017, which section is incorporated by reference herein.

II. Environmental Matters

Item 103 of SEC Regulation S-K requires disclosure of certain environmental legal proceedings if management reasonably believes that the proceedings involve potential monetary sanctions of $100,000 or more. The Company is in the process of negotiating with the New York State Department of Environmental Conservation to resolve claims of alleged historical noncompliance with hazardous waste regulations in connection with long-term care pharmacies in the State of New York. These proceedings are not material to the Company's business or financial position.

Item 4. Mine Safety Disclosures

Not applicable.

Table of Contents

Executive Officers of the Registrant

Executive Officers of the Registrant

The following sets forth the name, age and biographical information for each of our executive officers as of February 14, 2018. In each case the officer's term of office extends to the date of the board of directors meeting following the next annual meeting of stockholders of the Company. Previous positions and responsibilities held by each of the executive officers over the past five years are indicated below:

Lisa G. Bisaccia, age 61, Executive Vice President of CVS Health Corporation since March 2016 and Chief Human Resources Officer of CVS Health Corporation since January 2010; Senior Vice President of CVS Health Corporation from January 2010 through February 2016; Vice President, Human Resources of CVS Pharmacy, Inc. from September 2004 through December 2009. Ms. Bisaccia is also a member of the Board of Directors of Aramark, a leading global provider of food, facilities and uniform services.

Eva C. Boratto, age 51, Executive Vice President - Controller and Chief Accounting Officer of CVS Health Corporation since March 2017; Senior Vice President - Controller and Chief Accounting Officer of CVS Health Corporation from July 2013 through February 2017; Senior Vice President of PBM Finance from July 2010 through June 2013; Vice President, U.S. Market Finance Leader of Merck & Co., Inc. from June 2009 through June 2010.

Troyen A. Brennan, M.D., age 63, Executive Vice President and Chief Medical Officer of CVS Health Corporation since November 2008; Executive Vice President and Chief Medical Officer of Aetna, Inc. from February 2006 through November 2008.

David M. Denton, age 52, Executive Vice President and Chief Financial Officer of CVS Health Corporation since January 2010; Senior Vice President and Controller and Chief Accounting Officer of CVS Health Corporation from March 2008 until December 2009; Senior Vice President, Financial Administration of CVS Health Corporation and CVS Pharmacy, Inc. from April 2007 to March 2008. Mr. Denton is also a member of the Board of Directors of Tapestry, Inc. (formerly known as Coach, Inc.), a leading retailer of premium bags and luxury accessories.

Larry J. Merlo, age 62, President and Chief Executive Officer of CVS Health Corporation since March 2011; President and Chief Operating Officer of CVS Health Corporation from May 2010 through March 2011; President of CVS Pharmacy from January 2007 through August 2011; Executive Vice President of CVS Health Corporation from January 2007 through May 2010; also a director of CVS Health Corporation since May 2010.

Thomas M. Moriarty, age 54, Executive Vice President and General Counsel of CVS Health Corporation since October 2012 and Chief Policy and External Affairs Officer since March 2017; Chief Strategy Officer from March 2014 through February 2017; General Counsel of Celgene Corporation, a global biopharmaceutical company, from May 2012 through September 2012; General Counsel and Corporate Secretary of Medco Health Solutions, Inc. ("Medco"), a pharmacy benefit management company, from March 2008 through April 2012; also President of Global Pharmaceutical Strategies of Medco from March 2011 through April 2012.

Jonathan C. Roberts, age 62, Executive Vice President and Chief Operating Officer of CVS Health Corporation since March 2017; Executive Vice President of CVS Health Corporation and President of CVS Caremark from September 2012 through February 2017; Executive Vice President of CVS Health Corporation and Chief Operating Officer of CVS Caremark from October 2010 through August 2011; Executive Vice President, Rx Purchasing, Pricing and Network Relations of CVS Health Corporation from January 2009 through October 2010.

Table of Contents

PART II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities.

Our common stock is listed on the New York Stock Exchange under the symbol "CVS." The table below sets forth the high and low closing prices of our common stock on the New York Stock Exchange Composite Tape and the quarterly cash dividends declared per share of common stock during the periods indicated.

	First Quarter	Second Quarter	Third Quarter	Fourth Quarter	Year
2017 High	$ 83.92	$ 82.79	$ 83.31	$ 80.91	$ 83.92
Low	$ 74.80	$ 75.95	$ 75.35	$ 66.80	$ 66.80
Cash dividends per common share	$ 0.50	$ 0.50	$ 0.50	$ 0.50	$ 2.00
2016 High	$ 104.05	$ 106.10	$ 98.06	$ 88.80	$106.10
Low	$ 89.65	$ 93.21	$ 88.99	$ 73.53	$ 73.53
Cash dividends per common share	$ 0.425	$ 0.425	$ 0.425	$ 0.425	$ 1.70

CVS Health has paid cash dividends every quarter since becoming a public company. Future dividend payments will depend on the Company's earnings, capital requirements, financial condition and other factors considered relevant by the Company's Board of Directors. As of February 9, 2018, there were 21,453 registered shareholders according to the records maintained by our transfer agent.

The following share repurchase programs were authorized by the Company's Board of Directors:

In billions Authorization Date	Authorized	Remaining as of December 31, 2017
November 2, 2016 ("2016 Repurchase Program")	$ 15.0	$ 13.9
December 15, 2014 ("2014 Repurchase Program")	10.0	—
December 17, 2013 ("2013 Repurchase Program")	6.0	—

The share Repurchase Programs, each of which was effective immediately, permit the Company to effect repurchases from time to time through a combination of open market repurchases, privately negotiated transactions, accelerated share repurchase ("ASR") transactions, and/or other derivative transactions. The 2016 Repurchase Program can be modified or terminated by the Board of Directors at any time.

Pursuant to the authorization under the 2014 Repurchase Program, in August 2016, the Company entered into two fixed dollar ASRs with Barclays Bank PLC ("Barclays") for a total of $3.6 billion. Upon payment of the $3.6 billion purchase price in January 2017, the Company received a number of shares of its common stock equal to 80% of the $3.6 billion notional amount of the ASRs or approximately 36.1 million shares, which were placed into treasury stock in January 2017. The ASRs were accounted for as an initial treasury stock transaction for $2.9 billion and a forward contract for $0.7 billion. In April 2017, the Company received 9.9 million shares of common stock, representing the remaining 20% of the $3.6 billion notional amount of the ASRs, thereby concluding the ASRs. The remaining 9.9 million shares of common stock delivered to the Company by Barclays were placed into treasury stock and the forward contract was reclassified from capital surplus to treasury stock in April 2017.

In the ASR transactions described above, the initial repurchase of the shares and delivery of the remainder of the shares to conclude the ASR, resulted in an immediate reduction of the outstanding shares used to calculate the weighted average common shares outstanding for basic and diluted earnings per share.

During the year ended December 31, 2017, the Company repurchased an aggregate of 55.4 million shares of common stock for approximately $4.4 billion under the 2014 and 2016 Repurchase Programs. As of December 31, 2017, there remained an aggregate of approximately $13.9 billion available for future repurchases under the 2016 Repurchase Program and the 2014 Repurchase Program was complete. During the fourth quarter of 2017, the Company suspended share repurchase activity in connection with the Aetna Acquisition.

(1) As of January 1, 2017, the Company adopted Accounting Standards Update ("ASU") 2017-07, *Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost*, which resulted in a retrospective reclassification of $28 million, $21 million, $23 million and $33 million of net benefit costs from operating expenses to other expense in the years ended December 31, 2016, 2015, 2014, and 2013, respectively.

Table of Contents

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

We refer you to "Management's Discussion and Analysis of Financial Condition and Results of Operations," which includes our "Cautionary Statement Concerning Forward-Looking Statements" at the end of such section of our Annual Report to Stockholders for the year ended December 31, 2017, which section is incorporated by reference herein.

Item 7A. Quantitative and Qualitative Disclosures about Market Risk

As of December 31, 2017, the Company had outstanding interest rate derivative instruments and believes that as of December 31, 2017, its exposure to interest rate risk (inherent in the

Company's debt portfolio) is not material. We refer you to Note 1 “Significant Accounting Policies” contained in the “Notes to the Consolidated Financial Statements” of our Annual Report to Stockholders for the year ended December 31, 2017, which section is incorporated by reference herein.

As of December 31, 2017, the Company did not have any foreign currency exchange rate or commodity derivative instruments in place and believes that as of December 31, 2017, its exposure to foreign currency exchange rate risk and commodity price risk is not material

Item 8. Financial Statements and Supplementary Data

We refer you to the “Consolidated Statements of Income,” “Consolidated Statements of Comprehensive Income,” “Consolidated Balance Sheets,” “Consolidated Statements of Shareholders’ Equity,” “Consolidated Statements of Cash Flows,” “Notes to Consolidated Financial Statements,” and “Report of Independent Registered Public Accounting Firm” of our Annual Report to Stockholders for the year ended December 31, 2017, which sections are incorporated by reference herein.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None.

Item 9A. Controls and Procedures

Evaluation of disclosure controls and procedures: The Company’s Chief Executive Officer and Chief Financial Officer, after evaluating the effectiveness of the design and operation of the Company’s disclosure controls and procedures (as defined in Rules 13a-15 (f) and 15d-15(f) under the Securities Exchange Act of 1934) as of December 31, 2017, have concluded that as of such date the Company’s disclosure controls and procedures were adequate and effective at a reasonable assurance level and designed to ensure that material information relating to the Company and its subsidiaries would be made known to such officers on a timely basis.

Internal control over financial reporting: We refer you to “Management’s Report on Internal Control Over Financial Reporting” and “Report of Independent Registered Public Accounting Firm” of our Annual Report to Stockholders for the fiscal year ended December 31, 2017, which are incorporated by reference herein, for management’s report on the Company’s internal control over financial reporting and the Independent Registered Public Accounting Firm’s report with respect to the effectiveness of internal control over financial reporting.

Changes in internal control over financial reporting: There have been no changes in our internal controls over financial reporting identified in connection with the evaluation required by paragraph (d) of Rule 13a-15 or Rule 15d-15 that occurred during the fourth quarter ended December 31, 2017 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Item 9B. Other Information

No events have occurred during the fourth quarter that would require disclosure under this item.

PART III

Item 10. Directors, Executive Officers and Corporate Governance

We refer you to our Proxy Statement for the 2018 Annual Meeting of Stockholders under the captions "Committees of the Board," "Code of Conduct," "Director Nominations," "Audit Committee Report," "Biographies of our Board Nominees," and "Section 16(a) Beneficial Ownership Reporting Compliance," which sections are incorporated by reference herein. Biographical information on our executive officers is contained in Part I of this Annual Report on Form 10-K.

Item 11. Executive Compensation

Securities registered pursuant to Section 12(b) of the Exchange Act:

Common Stock, par value $0.01 per share	**New York Stock Exchange**
Title of each class	Name of each exchange on which registered

Securities registered pursuant to Section 12(g) of the Exchange Act: **None**
Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes ☐ No ☒
Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes ☐ No ☒

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports) and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☒ No ☐

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K. ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer, or a smaller reporting company. See definition of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☒	Accelerated filer ☐
Non-accelerated filer ☐ (Do not check if a smaller reporting company)	Smaller reporting company ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes ☐ No ☒
The aggregate market value of the registrant's common stock held by non-affiliates was approximately $101,661,618,666 as of June 30, 2016, based on the closing price of the common stock on the New York Stock Exchange. For purposes of this calculation, only executive officers and directors are deemed to be the affiliates of the registrant.

As of February 3, 2017, the registrant had 1,025,699,605 shares of common stock issued and outstanding.

DOCUMENTS INCORPORATED BY REFERENCE

Filings made by companies with the Securities and Exchange Commission sometimes "incorporate information by reference." This means that the company is referring you to information that was previously filed or is to be filed with the SEC, and this information is considered to be part of the filing you are reading. The following materials are incorporated by reference into this Form 10-K:

- Portions of our Annual Report to Stockholders for the fiscal year ended December 31, 2016 are incorporated by reference in our response to Items 7, 8 and 9 of Part II.
- Information contained in our Proxy Statement for the 2017 Annual Meeting of Stockholders is incorporated by reference in our response to Items 10 through 14 of Part III.

TABLE OF CONTENTS

PART I

Item 1. Business

Overview

CVS Health Corporation, together with its subsidiaries (collectively "CVS Health," the "Company," "we," "our" or "us"), is a pharmacy innovation company helping people on their path to better health. At the forefront of a changing health care landscape, the Company has an unmatched suite of capabilities and the expertise needed to drive innovations that will help shape the future of health care.

We are currently the only integrated pharmacy health care company with the ability to impact consumers, payors, and providers with innovative, channel-agnostic solutions to complex challenges managing costs and care. We have a deep understanding of their diverse needs through our unique integrated model, and we are bringing them innovative solutions that help increase access to quality care, deliver better health outcomes and lower overall health care costs.

Through more than 9,700 retail locations, more than 1,100 walk-in health care clinics, a leading pharmacy benefits manager with nearly 90 million plan members, a dedicated senior pharmacy care business serving more than one million patients per year, expanding specialty pharmacy services and a leading stand-alone Medicare Part D prescription drug plan, we enable people, businesses, and communities to manage health in more affordable, effective ways. We are delivering break-through products and services, from advising patients on their medications at our CVS Pharmacy® locations, to introducing unique programs to help control costs for our clients at CVS Caremark®, to innovating how care is delivered to our patients with complex conditions through CVS Specialty™, to improving pharmacy care for the senior community through Omnicare®, or by expanding access to high-quality, low-cost care at CVS MinuteClinic®.

We have three reportable segments: Pharmacy Services, Retail/LTC and Corporate.

Pharmacy Services Segment

The Pharmacy Services Segment provides a full range of pharmacy benefit management ("PBM") solutions, as described more fully below, to our clients consisting primarily of employers, insurance companies, unions, government employee groups, health plans, Medicare Part D plans, Managed Medicaid plans, plans offered on the public and private exchanges, other sponsors of health benefit plans and individuals throughout the United States. In addition, through our SilverScript Insurance Company ("SilverScript") subsidiary, we are a national provider of drug benefits to eligible beneficiaries under the federal government's Medicare Part D program. The Pharmacy Services Segment operates under the CVS Caremark® Pharmacy Services, Caremark®, CVS Caremark®, CarePlus CVS Pharmacy™, CVS Specialty™, Accordant®, SilverScript®, NovoLogix®, Coram®, Navarro® Health Services and ACS Pharmacy names. As of December 31, 2016, the Pharmacy Services Segment operated 23 retail specialty pharmacy stores, 13 specialty mail order pharmacies and four mail order dispensing pharmacies, and 84 branches for infusion and enteral services, including approximately 73 ambulatory infusion suites and three centers of excellence, located in 41 states, Puerto Rico and the District of Columbia. During the year ended December 31, 2016, our PBM filled or managed approximately 1.2 billion prescriptions (which equates to 1.6 billion prescriptions when counting 90-day prescriptions as three prescriptions).

Pharmacy Services Business Strategy - Our business strategy centers on providing innovative tools and strategies, as well as quality client service in order to help improve clinical outcomes for our clients' health benefit plan members while assisting our clients and their plan members in better managing overall health care costs. Our goal is to produce superior results for our clients and their plan members by leveraging our expertise in core PBM services, including: plan design offerings and administration, formulary management, Medicare Part D services, mail order, specialty pharmacy and infusion services, retail pharmacy network management services, prescription management systems, clinical services, disease management services and medical spend management.

In addition, as a fully integrated pharmacy services company, we are able to offer our clients and their plan members a variety of programs and tools, including plan design offerings, that benefit from our integrated systems and the ability of our almost 36,000 pharmacists, nurses, nurse practitioners and physician assistants to interact personally with the many plan members. Through our multiple member touch points (retail stores, mail order, infusion, long-term care and specialty pharmacies, retail clinics, digital resources and cost management tools), we seek to engage plan members in behaviors that

help lower cost and improve health care outcomes. Examples of these programs and services include: Maintenance Choice®, a program where eligible client plan members can elect to fill their maintenance prescriptions at our CVS Pharmacy retail stores for the same price as mail order; Pharmacy Advisor®, a program that facilitates face-to-face and telephone counseling by our pharmacists to help participating plan members with certain chronic diseases, such as diabetes and cardiovascular conditions, to

identify gaps in care, adhere to their prescribed medications and manage their health conditions; compliance and persistency programs designed to help ensure that patients take their medications in the proper manner; enhanced disease management programs that are targeted at managing chronic disease states; Specialty Connect®, our integrated specialty pharmacy offering which integrates specialty mail and retail capabilities, providing members with disease-state specific counseling from our experienced specialty pharmacists and the choice to bring their specialty prescriptions to a CVS Pharmacy location or submit it through our specialty mail order pharmacies; and an ExtraCare® Health Card program which offers discounts to eligible plan members on certain over-the-counter health care products sold in our CVS Pharmacy stores. In addition, MinuteClinic® is an important and differentiated part of the enterprise that offers certain capabilities to PBM clients and their members. For example, we offer plan-sponsored co-pay reductions to encourage use of MinuteClinic, thereby helping to reduce emergency room visits and to lower overall health care costs. Other ways we are working with our clients include partnerships with health plan clients sponsoring patient centered medical homes, biometric screenings for plan members, closing gaps in care, and onsite clinics at client corporate headquarters.

PBM Services - Our PBM solutions are described more fully below.

Plan Design Offerings and Administration - Our clients sponsor pharmacy benefit plans that facilitate the ability of eligible members in these plans to receive prescribed medications. We assist our clients in designing pharmacy benefit plans that help minimize the costs to the client while helping improve health outcomes. We also administer these benefit plans selected by our clients and assist them in monitoring the effectiveness of these plans through frequent, informal communications, their use of our proprietary software, as well as through a formal annual client review.

We make recommendations to our clients helping them to design benefit plans promoting the use of the lower cost, clinically appropriate drugs. We help our clients control costs by recommending plan designs that encourage the use of generic equivalents of brand name drugs when such equivalents are available. Our clients also have the option, through plan design, to further lower their pharmacy benefit plan costs by setting different member payment levels for different products on their drug lists or “formularies”.

Formulary Management - We utilize an independent panel of doctors, pharmacists and other medical experts, referred to as our Pharmacy and Therapeutics Committee, to review and approve the selection of drugs that meet our high standards of safety and efficacy for inclusion on one of our template formularies. Our formularies provide recommended products in numerous drug classes to help ensure member access to clinically appropriate alternatives under the client’s pharmacy benefit plan, while helping to drive the lowest net cost for our clients that select one of our formularies. To help improve clinical outcomes for members and clients, we conduct ongoing, independent reviews of all drugs, including, but not limited to, those appearing on the formularies and generic equivalent products, as well as our clinical programs. Many of our clients choose to adopt one of our template formulary offerings as part of their plan design.

Medicare Part D Services - We participate in the administration of the drug benefit added to the Medicare program under Part D of the Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (“MMA”) through the provision of PBM services to those of our health plan clients and other clients that have qualified as a Medicare Part D prescription drug plans (“PDP”) or as a Medicare Advantage prescription drug plan (“MA-PD”) and by offering Medicare Part D pharmacy benefits through SilverScript, a PDP that has contracted with the United States Centers for Medicare and Medicaid Services (“CMS”). We also assist employer, union and other health plan clients that qualify for the retiree drug subsidy made available under the MMA by collecting and submitting eligibility and/or drug cost data to CMS in order for them to obtain the subsidy and offer Medicare Part D pharmacy benefits to such clients' retirees through SilverScript-sponsored Employer Group Waiver Plans (“EGWPs”).

Mail Order Pharmacy - As of December 31, 2016, we operated four mail order dispensing pharmacies in the United States. Plan members or their prescribers submit prescriptions or refill requests, primarily for maintenance medications, to these pharmacies via mail, telephone, fax, e-prescribing or the Internet. We also offer Maintenance Choice®, a program in which eligible client plan members in most states can elect to fill their maintenance prescriptions at our CVS Pharmacy retail stores for the same price as mail order, and operate a network of smaller mail order specialty pharmacies described below. Our staff pharmacists review mail order prescriptions and refill requests with the assistance of our prescription management systems. This review may involve communications with the prescriber and, with the prescriber’s approval when required, can result in generic substitution, therapeutic interchange or other actions designed to help reduce cost and/or improve quality of treatment. These pharmacies have been awarded Mail Order Pharmacy accreditation from

Utilization Review Accreditation Commission ("URAC"), a Washington DC-based health care accrediting organization that establishes quality standards for the health care industry.

Specialty Pharmacy - Our specialty pharmacies support individuals who require complex and expensive drug therapies. As of December 31, 2016, our specialty pharmacy operations included 13 specialty mail order pharmacies located throughout the United States that are used for delivery of advanced medications to individuals with chronic or genetic diseases and disorders. These pharmacies have also been awarded Specialty Pharmacy accreditation from URAC. As of December 31, 2016, the Company operated a network of 23 retail specialty pharmacy stores, which operate under the CarePlus CVS Pharmacy™ and Navarro® Health Services names. These stores average 1,100 square feet in size and sell prescription drugs and a limited assortment of front store items such as alternative medications, homeopathic remedies and vitamins. Through our affiliate Coram LLC and its subsidiaries (collectively, "Coram"), one of the nation's largest providers of comprehensive infusion services, we care for approximately 146,000 patients annually, providing specialty infusion and enteral nutrition services. Our Specialty Connect® product, which integrates our specialty pharmacy mail and retail capabilities, provides members with disease-state specific counseling from our experienced specialty pharmacists and the choice to bring their specialty prescriptions to a CVS Pharmacy location. Whether submitted through our specialty mail order pharmacy or at a CVS Pharmacy, all prescriptions are filled through our specialty mail order pharmacies, so all revenue from this specialty prescription services program is recorded within the Pharmacy Services Segment. Members then can choose to pick up their medication at their local CVS Pharmacy, except in three states that do not allow retail pick-up, or have it sent to their home through the mail. Additionally, with the acquisition of Omnicare, Inc. ("Omnicare"), we expanded our specialty pharmacy to include the specialty pharmacy operations of Omnicare which operates under the name ACS Pharmacy.

Retail Pharmacy Network Management - We maintain a national network of more than 68,000 retail pharmacies, consisting of approximately 41,000 chain pharmacies (which includes our CVS Pharmacy locations) and 27,000 independent pharmacies, in the United States, Puerto Rico, District of Columbia, Guam and the Virgin Islands. When a customer fills a prescription in a retail pharmacy, the pharmacy sends prescription data electronically to us from the point-of-sale. This data interfaces with our proprietary prescription management systems, which verify relevant plan member data and eligibility, while also performing a drug utilization review to help evaluate clinical appropriateness and safety and confirming that the pharmacy will receive payment for the prescription. We are also able to build client-specific networks and narrow networks to further drive savings for our clients.

Prescription Management Systems - We dispense prescription drugs both directly, through one of our mail order or specialty pharmacies, or through a network of retail pharmacies, described above. All prescriptions processed through our systems, whether they are filled through one of our mail order or specialty dispensing pharmacies or through a pharmacy in our retail network, are analyzed, processed and documented by our proprietary prescription management systems. These systems provide essential features and functionality to allow a plan member to use their prescription drug benefit. These systems also streamline the process by which prescriptions are processed by staff and network pharmacists, by enhancing review of various items through automation, including, but not limited to, plan eligibility, early refills, duplicate dispensing, appropriateness of dosage, drug interactions or allergies, over-utilization and potential fraud.

Clinical Services - We offer multiple clinical programs and services to help clients manage overall pharmacy and health care costs in a clinically appropriate manner. Our programs are primarily designed to promote good health outcomes, and to help target inappropriate utilization and non-adherence to medication, each of which may result in adverse medical events that negatively impact member health and client pharmacy and medical spend. In this regard, we offer various utilization management, medication management, quality assurance, adherence and counseling programs to complement the client's plan design and clinical strategies.

Disease Management Programs - Our clinical services utilize advanced protocols and offer clients convenience in working with health care providers and other third parties. Our Accordant® programs include integrated rare disease management programs, which cover diseases such as rheumatoid arthritis, Parkinson's disease, seizure disorders and multiple sclerosis. The majority of these integrated programs are accredited by the National Committee for Quality Assurance ("NCQA"), a private, not-for-profit organization that evaluates, accredits and certifies a wide range of health care organizations. They have also been awarded Case Management Accreditation from URAC.

Medical Pharmacy Management - We offer a technology platform, NovoLogix®, an online preauthorization tool that helps identify and capture cost savings opportunities for specialty drugs billed under the medical benefit by identifying outliers to appropriate dosages and costs, and helps to ensure appropriate clinical use of these drugs.

Pharmacy Services Information Systems - We currently operate and support a small number of claim adjudication platforms to support our Pharmacy Services Segment. However, the majority of our clients have migrated to one platform. These information systems incorporate architecture that centralizes the data generated from filling mail order prescriptions, adjudicating retail pharmacy claims and delivering other solutions to our PBM clients. Our Health Engagement Engine™ technology and proprietary clinical algorithms help enable our mail and specialty pharmacists provide quality care, and our

enterprise digital strategy and integrated digital offerings help patients seamlessly manage mail, specialty and retail prescriptions.

Pharmacy Services Clients - Our clients are primarily employers, insurance companies, unions, government employee groups, health plans, Medicare Part D plans, Managed Medicaid plans and plans offered on public and private exchanges, other sponsors of health benefit plans and individuals located throughout the United States. We provide pharmaceuticals to eligible members in benefit plans maintained by our clients and utilize our information systems, among other things, to help perform safety checks, drug interaction screening and identify opportunities for generic substitution. We generate substantially all of our Pharmacy Services Segment net revenue from dispensing and managing prescription drugs to eligible members in benefit plans maintained by our clients. In 2016, net revenues from Aetna accounted for approximately 11.2% of our consolidated net revenues. In 2015 and 2014, no single PBM client accounted for 10% or more of our consolidated net revenues.

Pharmacy Services Seasonality - The majority of our Pharmacy Services Segment revenues are not seasonal in nature. However, our quarterly earnings and operating cash flows are impacted by the Medicare Part D benefit design and changes in the composition of our membership. The Medicare Part D standard benefit design results in coverage that varies with a member's cumulative annual out-of-pocket costs. The benefit design generally results in plan sponsors sharing a greater portion of the responsibility for total prescription drug costs in the early part of the year. As a result, the PDP plan pay percentage or benefit ratio generally decreases and operating profit generally increases as the year progresses.

Pharmacy Services Competition - We believe the primary competitive factors in the industry include: (i) the ability to negotiate favorable discounts from drug manufacturers as well as to negotiate favorable discounts from, and access to, retail pharmacy networks; (ii) the ability to identify and apply effective cost management programs utilizing clinical strategies including the development and utilization of preferred formularies; (iii) the ability to market PBM products and services; (vii) the commitment to provide flexible, clinically-oriented services to clients and be responsive to clients' needs; and the quality, scope and costs of products and services offered to clients and their members, as well as operational excellence in delivering services. The Pharmacy Services Segment has a significant number of competitors offering PBM services including large, national PBM companies, PBMs owned by large national health plans and smaller standalone PBMs (e.g., Express Scripts, OptumRx, Humana, Prime Therapeutics and MedImpact).

Retail/LTC Segment

As of December 31, 2016, the Retail/LTC Segment included 9,709 retail locations (of which 7,980 were our stores that operated a pharmacy and 1,674 were our pharmacies located within Target Corporation ("Target") stores), our online retail pharmacy websites, CVS.com®, Navarro.com™ and Onofre.com.br™, 38 onsite pharmacy stores, our long-term care pharmacy operations and our retail health care clinics. The retail locations are in 49 states, the District of Columbia, Puerto Rico and Brazil operating primarily under the CVS Pharmacy®, CVS®, CVS Pharmacy y más®, Longs Drugs®, Navarro Discount Pharmacy® and Drogaria Onofre™ names. With the addition of the pharmacies of Target, we currently operate in all of the top 100 United States drugstore markets. The CVS Pharmacy retail drugstores sell prescription drugs and a wide assortment of over-the-counter and personal care products, beauty and cosmetic products, and general merchandise, which we refer to as "front store" products. The pharmacies within Target stores sell prescription drugs and over-the-counter drugs that are required to be held behind the counter. Existing retail stores range in size from approximately 5,000 to 30,000 square feet, although most new stores range in size from approximately 11,000 to 15,000 square feet and typically include a drive-thru pharmacy. The pharmacies within Target stores range in size from approximately 450 to 1,100 square feet. During 2016, our Retail/LTC Segment filled approximately 1.2 billion prescriptions (counting 90-day prescriptions as three prescriptions), and we held approximately 23.8% of the United States retail pharmacy market.

Our acquisition of Omnicare broadened our base of pharmacy care to an additional dispensing channel, long-term care pharmacy. Omnicare's long-term care ("LTC") operations include the distribution of pharmaceuticals, related pharmacy consulting and other ancillary services to chronic care facilities and other care settings. Omnicare also provides commercialization services under the name RxCrossroads®. LTC is comprised of 152 spoke pharmacies that primarily handle new prescription orders, of which 32 are also hub pharmacies that use automation to support spoke pharmacies with refill prescriptions. LTC primarily operates under the Omnicare® and NeighborCare® names. With the addition of the

LTC operations, we are continuing to enhance our service offerings to further address the needs of an aging population throughout the continuum of senior care.

Retail Pharmacy Business Strategy - Our integrated pharmacy services model has enhanced the ability of our retail pharmacy stores to expand customer access to care while helping to lower overall health care costs and improve health outcomes. In that regard, the role of our retail pharmacist is shifting from primarily dispensing prescriptions to also providing services, including flu vaccinations as well as face-to-face patient counseling with respect to adherence to drug therapies, closing gaps in care and

recommending more cost effective drug therapies. We also provide a broad assortment of quality merchandise at competitive prices using a retail format that emphasizes service, innovation and convenience. One of the keys to our strategy is technology, which allows us to focus on constantly improving service and exploring ways to provide more personalized product offerings and services. We are leveraging digital to empower our customers and patients by making the full breadth of health care and pharmacy services available to them anytime, anywhere. We are introducing digital tools to make it easier for people to save time and money and to live healthier lives. In 2016, we rolled out CVS Pay™ nationwide, an end-to-end mobile payment solution that integrates payment, prescription pick-up and our ExtraCare® loyalty program into one spot at checkout. We believe that continuing to innovate with new and unique products and services, using innovative marketing and adjusting our mix of merchandise to match our customers' needs and preferences is very important to our ability to continue to improve customer satisfaction.

Retail/LTC Products and Services - A typical retail store sells prescription drugs and a wide assortment of high-quality, nationally advertised brand name and proprietary brand merchandise. Front store categories include over-the-counter drugs, beauty products and cosmetics, personal care products, convenience foods, photo finishing services, seasonal merchandise and greeting cards. The pharmacies within Target stores sell prescription drugs and over-the-counter drugs that are required to be held behind the counter. The LTC operations include distribution of pharmaceuticals and related consulting and ancillary services. We purchase our merchandise from numerous manufacturers and distributors. We believe that competitive sources are readily available for substantially all of the products we carry and the loss of any one supplier would not likely have a material effect on the business. Our clinics offer a variety of health care services by nurse practitioners and physician assistants.

Retail/LTC net revenues by major product group are as follows:

	Percentage of Net Revenues[1]		
	2016	2015	2014
Prescription drugs[2]	75.0%	72.9%	70.7%
Over-the-counter and personal care	10.0	10.9	11.0
Beauty/cosmetics	4.2	4.5	4.7
General merchandise and other	10.8	11.7	13.6
	100.0%	100.0%	100.0%

(1) Percentages are estimates based on store point-of-sale data for the stores and revenue system data for sales outside the stores.
(2) In 2016 and 2015, prescription drugs include LTC sales and sales in pharmacies within Target stores.

Pharmacy - Pharmacy revenues represented more than two-thirds of Retail Pharmacy revenues in each of 2016, 2015 and 2014. We believe that our pharmacy operations will continue to represent a critical part of our business due to industry demographics, e.g., an aging American population consuming a greater number of prescription drugs, pharmaceuticals being used more often as the first line of defense for managing illness, the introduction of new pharmaceutical products, and Medicare Part D. We believe our pharmacy business benefits from our investment in both people and technology, as well as our innovative partnerships with health plans, PBMs and providers. Given the nature of prescriptions, people want their prescriptions filled accurately by professional pharmacists using the latest tools and technology, and ready when promised. Consumers need medication management programs and better information to help them get the most out of their health care dollars. To assist our customers with these needs, we have introduced integrated pharmacy health care services that provide an earlier, easier and more effective approach to engaging them in behaviors that can help lower costs, improve health, and save lives. Examples include: our Patient Care Initiative, an enhanced medication adherence program; Maintenance Choice®, a program where eligible client plan members can elect to fill their maintenance prescriptions at our retail pharmacy stores for the same price as mail order; Pharmacy Advisor®, our program that facilitates pharmacist counseling, both face-to-face and over the telephone, to help participating plan members with certain chronic diseases, such as diabetes and cardiovascular conditions, to identify gaps in care, adhere to their prescribed medications and manage their health conditions; Specialty Connect®, our integrated specialty pharmacy offering which integrates specialty mail and retail capabilities, providing members with disease-state specific counseling from our experienced specialty pharmacists and the choice to bring their specialty prescriptions to a CVS Pharmacy location or submit it through our specialty mail order pharmacies; as well as ScriptSync®, a service that enables patients with multiple medications to pick up their eligible maintenance prescriptions in a single monthly CVS Pharmacy visit. Maintenance

Choice, Pharmacy Advisor, Specialty Connect and ScriptSync are all programs that demonstrate our ability to enhance the customer experience through our integrated enterprise products and services. Further evidencing our belief in the importance of pharmacy service is our continuing investment in technology, such as our Drug Utilization Review system that helps check for harmful interactions between prescription drugs and patient identified over-the-counter products, vitamins and herbal remedies; RxConnect, our proprietary pharmacy system that integrates our product delivery and clinical workflows as well as advanced patient safety functionality such as drug utilization review; our prescription refill program, ReadyFill®; and our online retail businesses, CVS.com, Navarro.com and Onofre.com.br. In December 2015, we expanded our pharmacy offering with the

acquisition of the pharmacies within Target stores. Now that the system integration is complete, we will offer all the same pharmacy services available in our retail drugstores and online at our pharmacies within Target stores.

Front Store - Front store revenues benefited from our strategy to innovate with new and unique products and services, using innovative personalized marketing and adjusting our mix of merchandise to match our customers' needs and preferences. A key component of our front store strategy is our ExtraCare® card program, which is helping us continue to build our loyal customer base. The ExtraCare program is one of the largest and most successful retail loyalty programs in the United States. The ExtraCare program allows us to balance our marketing efforts so we can reward our best customers by providing them automatic sale prices, customized coupons, ExtraBucks® rewards and other benefits. We continue to launch and enhance new and exclusive brands to create unmatched offerings in beauty. Another component of our front store strategy is our unique product offerings, which include a full range of high-quality CVS Pharmacy® and proprietary brand products that are only available through CVS Pharmacy stores. We currently carry approximately 7,000 CVS Pharmacy and proprietary brand products, which accounted for approximately 22.6% of our front store revenues during 2016. These products include expanded offerings of healthy foods and vitamins. Furthermore, we are tailoring certain groups of stores, such as suburban area stores, to better meet the needs of our customers. This includes the launch of CVS Curbside in late 2016. Developed in partnership with industry leader Curbside, customers can use the CVS Pharmacy app to have front store purchases delivered to their car when they pull up to our store.

MinuteClinic - As of December 31, 2016, we operated 1,139 MinuteClinic® locations in 33 states and the District of Columbia, of which 1,053 were located in our retail pharmacy stores, 79 were located in Target stores and seven were located in corporate campuses or other locations. We opened seven new clinics during 2016. Our clinics are staffed by nurse practitioners and physician assistants who utilize nationally established guidelines to diagnose and treat minor health conditions, perform health screenings, monitor chronic conditions, provide wellness services and deliver vaccinations. Insurers value our clinics because they provide convenient, high-quality, cost-effective care, in many cases offering an attractive alternative to more expensive sites of care. As a result, visits paid for by employers, health insurers or other third parties accounted for approximately 91% of MinuteClinic's total revenues in 2016. MinuteClinic is collaborating with our Pharmacy Services Segment to help meet the needs of CVS Caremark's client plan members by offering programs that can improve member health and lower costs. MinuteClinic is now affiliated with more than 70 major health systems and continues to build a platform that supports primary care.

Long-term Care - Through our Omnicare business, we provide the distribution of pharmaceuticals, related pharmacy consulting and other ancillary services to chronic care facilities and other care settings. LTC's customers consist of skilled nursing facilities, assisted living facilities, independent living communities, hospitals, correctional facilities, and other health care service providers. We provide pharmacy consulting, including monthly patient drug therapy evaluations, assist in compliance with state and federal regulations and provide proprietary clinical and health management programs. We also provide pharmaceutical case management services for retirees, employees and dependents who have drug benefits under corporate-sponsored health care programs.

Onsite Pharmacies - We also operate a limited number of small pharmacies located at client sites, typically under the CarePlus®, CarePlus CVS Pharmacy™ or CVS Pharmacy® name, which provide certain health plan members and customers with a convenient alternative for filling their prescriptions.

Retail Pharmacy Drugstore Development - The addition of new stores has played, and will continue to play, a key role in our continued growth and success. Our store development program focuses on three areas: entering new markets, adding stores within existing markets and relocating stores to more convenient sites. During 2016, we opened 130 new and acquired retail stores, relocated 50 stores and closed 46 stores. During the last five years, we opened more than 1,100 new and relocated stores, and acquired 1,841 stores including the pharmacies acquired from Target. We believe that continuing to grow our store base and locating stores in more accessible markets are essential components to compete effectively in the current health care environment. As a result, we believe that our store development program is an integral part of our ability to maintain our leadership position given the changing health care landscape and to meet the increasing needs of our customers.

Retail/LTC Information Systems - We have continued to invest in information systems to enable us to deliver exceptional customer service, enhance safety and quality, and expand our patient care services while lowering operating costs. Leveraging our retail pharmacy fulfillment system, RxConnect and our proprietary WeCARE Workflow, supports

our pharmacy teams by prioritizing work to meet customer expectations, facilitating prescriber outreach, and seamlessly integrating our clinical programs. This solution delivers improved efficiency and enhances the customer experience, as well as providing a framework to accommodate the evolution of pharmacy practice and the expansion of our clinical programs. Our Health Engagement Engine™ technology and proprietary clinical algorithms enable us to help identify opportunities for our pharmacists to deliver face-to-face counseling regarding patient health and safety matters, including adherence issues, gaps in care and management

of certain chronic health conditions. Our digital strategy empowers the consumer to navigate their pharmacy experience and manage their condition through our on-line and mobile tools that offer utility and convenience. This includes the ability to schedule an appointment at MinuteClinic, get next-in line alerts or health reminders and appointment updates via text messages. Our integrated digital offerings help patients seamlessly manage retail, mail and specialty prescriptions dispensed by a CVS Pharmacy or long-term care location and enhance front store personalization to drive value for customers. We experienced strong adoption of our digital solutions with our mobile app receiving critical acclaim for ease of use and our text message program experiencing significant growth. LTC's Digital Technology suite, Omniview®, improves the efficiency of customers' operations with tools that include executive dashboards, pre-admission pricing, electronic ordering of prescription refills, proof-of-delivery tracking, access to patient profiles, receipt and management of facility bills, and real-time validation of Medicare Part D coverage, among other capabilities.

Retail/LTC Customers - The success of our retail drugstore and long-term care businesses is dependent upon our ability to establish and maintain contractual relationships with pharmacy benefit managers and other payors on acceptable terms. Pharmacy benefit managers, managed care organizations, government-funded health care programs, commercial employers and other third party payors accounted for 98.9% of our 2016 pharmacy revenues. No single Retail/LTC payor accounts for 10% or more of our annual consolidated net revenues.

Retail/LTC Seasonality - The majority of our revenues, particularly pharmacy revenues, are generally not seasonal in nature. However, retail front store revenues tend to be higher during the December holiday season. In addition, both pharmacy and retail front store revenues are affected by the timing and severity of the cough, cold and flu season. For additional information, we refer you to "Risks related to the seasonality of our business" in Item 1A. Risk Factors.

Retail/LTC Competition - The retail drugstore business is highly competitive. We believe that we compete principally on the basis of: (i) store location and convenience, (ii) customer service and satisfaction, (iii) product selection and variety, and (iv) price. In the markets we serve, we compete with other drugstore chains (e.g., Walgreens and Rite Aid), supermarkets, discount retailers (e.g., Wal-Mart), independent pharmacies, restrictive pharmacy networks, membership clubs, Internet companies, and retail health clinics (including urgent care centers), as well as other mail order pharmacies.

LTC pharmaceutical services are highly regional or local in nature and within a given geographic area of operation, highly competitive. Our largest competitor nationally is PharMerica. We also compete with numerous local and regional institutional pharmacies, pharmacies owned by long-term care facilities and local retail pharmacies. Some states have enacted "freedom of choice" or "any willing provider" requirements as part of their state medicaid programs or in separate legislation, which may increase the competition that we face in providing services to long-term care facility residents in these states.

Corporate Segment

Our Corporate Segment provides management and administrative services to support the overall operations of the Company. The Corporate Segment consists of certain aspects of our executive management, corporate relations, legal, compliance, human resources, information technology and finance departments.

Generic Sourcing Venture

In 2014, the Company and Cardinal Health, Inc. ("Cardinal") established Red Oak Sourcing, LLC ("Red Oak"), a generic pharmaceutical sourcing entity in which the Company and Cardinal each own 50%. Under this arrangement, the Company and Cardinal contributed their sourcing and supply chain expertise to Red Oak and agreed to source and negotiate generic pharmaceutical supply contracts for both companies through Red Oak; however, Red Oak does not own or hold inventory on behalf of either company.

Working Capital Practices

We fund the growth of our business through a combination of cash flow from operations, commercial paper and other short-term borrowings, proceeds from sale-leaseback transactions and long-term borrowings. For additional information on our working capital practices, we refer you to the caption "Management's Discussion and Analysis - Liquidity and Capital Resources" in our Annual Report to Stockholders for the year ended December 31, 2016, which section is

incorporated by reference herein. The majority of our non-pharmacy revenues are paid in cash, or with debit or credit cards. Managed care organizations, pharmacy benefit managers, government-funded health care programs, commercial employers and other third party insurance programs, which represent the vast majority of our consolidated pharmacy revenues, typically settle in less than 30 days. With the exception of our Medicare Part D services, the remainder of our consolidated pharmacy revenues are paid in cash, or with debit or credit cards. As a provider of Medicare Part D services, we contract annually with CMS. Utilization of

services each plan year results in the accumulation of either a receivable from or a payable to CMS. The timing of settlement of the receivable or payable with CMS may take several quarters which impacts our working capital from year to year.

Colleague Development

As of December 31, 2016, we employed approximately 250,000 colleagues, which included approximately 36,000 pharmacists, nurses, nurse practitioners and physician assistants. The total included approximately 92,000 part-time colleagues who work less than 30 hours per week. To deliver the highest levels of service to our customers, we devote considerable time and attention to our people and service standards. We emphasize attracting and training knowledgeable, friendly and helpful associates to work in our organization.

Intellectual Property

We have registered and/or applied to register a variety of our trademarks and service marks used throughout our business, as well as domain names, and rely on a combination of copyright, patent, trademark and trade secret laws, in addition to contractual restrictions, to establish and protect our proprietary rights. We regard our intellectual property as having significant value in our Pharmacy Services and Retail/LTC segments. We are not aware of any facts that could materially impact our continuing use of any of our intellectual property.

Government Regulation

Overview - Much of our business is subject to federal and state laws and regulations. In addition, many of our PBM clients and our payors in the Retail/LTC Segment, including insurers, Medicare Part D plans, Managed Medicaid plans and managed care organizations ("MCOs"), are themselves subject to extensive regulations that affect the design and implementation of prescription drug benefit plans that they sponsor. Similarly, our LTC clients, such as skilled nursing facilities, are subject to government regulations, including many of the same government regulations to which we are subject. The application of these complex legal and regulatory requirements to the detailed operation of our business creates areas of uncertainty. Further, there are numerous proposed health care laws and regulations at the federal and state levels, some of which could adversely affect our business if they are enacted. We are unable to predict what federal or state legislation or regulatory initiatives may be enacted in the future relating to our business or the health care industry in general, or what effect any such legislation or regulations might have on our business. Any failure or alleged failure to comply with applicable laws and regulations as summarized below, or any adverse applications of, or changes in, the laws and regulations affecting our business, could have a material adverse effect on our operating results and/or financial condition. See Item 3, "Legal Proceedings" for further information.

Although we believe that we are in material compliance with existing laws and regulations applicable to our various business lines, we cannot give any assurances that our business, financial condition and results of operations will not be materially adversely affected, or that we will not be required to materially change our business practices, based on: (i) future enactment of new health care or other laws or regulations; (ii) the interpretation or application of existing laws or regulations, including the laws and regulations described in this Government Regulation section, as they may relate to our business, the pharmacy services, retail pharmacy, long-term care or retail clinic industry or to the health care industry generally; (iii) pending or future federal or state governmental investigations of our business or the pharmacy services, retail pharmacy, long-term care or retail clinic industry or of the health care industry generally; (iv) institution of government enforcement actions against us; (v) adverse developments in any pending *qui tam* lawsuit against us, whether sealed or unsealed, or in any future *qui tam* lawsuit that may be filed against us; or (vi) adverse developments in other pending or future legal proceedings against us or affecting the pharmacy services, retail pharmacy, long-term care or retail clinic industry or the health care industry generally.

Laws and Regulations Related to Each Operating Segment of Our Business

Laws Related to Reimbursement by Government Programs - We are subject to various state and federal laws concerning our submission of claims for reimbursement by Medicare, Medicaid and other government-sponsored health care programs. Potential sanctions for violating these laws include recoupment or reduction of government reimbursement amounts, civil penalties, multiples damages, and exclusion from participation in government health care programs. Such

laws include the federal False Claims Act ("FCA"), the federal Anti-Kickback statute, various state false claims acts and anti-kickback statutes, the federal "Stark Law" and related state laws. In particular, the FCA prohibits intentionally submitting, conspiring to submit, or causing to be submitted, false claims, records, or statements to the federal government, or intentionally failing to return overpayments, in connection with reimbursement by federal government programs. As part of the Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act (collectively, "ACA"), the federal Anti-Kickback Statute was amended in 2010 to provide that any claim for government reimbursement violates the FCA where it results from a

violation of the Anti-Kickback Statute. Most states have enacted false claims laws analogous to the FCA, and both federal and state false claims laws permit private individuals to file *qui tam* or "whistleblower" lawsuits on behalf of the federal or state government. Further, the federal Stark Law generally prohibits physicians from referring Medicare or Medicaid beneficiaries for certain services, including outpatient prescription drugs, to any entity with which the physician, or an immediate family member of the physician, has a financial relationship. The Stark Law further prohibits the entity receiving a prohibited referral from presenting a claim for reimbursement by Medicare or Medicaid for services furnished pursuant to the prohibited referral. Various states have enacted similar laws.

The 21st Century Cures Act ("Cures Act"), enacted in December 2016, among other things shifted payment for Medicare Part B durable medical equipment ("DME") infused drugs from one pricing benchmark to another as of January 1, 2017. This change, depending upon the particular drug, is expected to cause both increases and decreases in reimbursement, although the overall impact is expected to be negative. In addition, the change in presidential administration has caused uncertainty regarding the implementation of the Cures Act, meaning that the full impact of this new law on the Company is uncertain.

Anti-Remuneration Laws - Federal law prohibits, among other things, an entity from knowingly and willfully offering, paying, soliciting or receiving, subject to certain exceptions and "safe harbors," any remuneration to induce the referral of individuals or the purchase, lease or order of items or services for which payment may be made under Medicare, Medicaid or certain other federal health care programs. A number of states have similar laws, some of which are not limited to services paid for with government funds. Sanctions for violating these federal and state anti-remuneration laws may include imprisonment, criminal and civil fines, and exclusion from participation in Medicare, Medicaid and other government-sponsored health care programs.

Antitrust and Unfair Competition - The Federal Trade Commission ("FTC") has authority under Section 5 of the Federal Trade Commission Act ("FTCA") to investigate and prosecute practices that are "unfair trade practices" or "unfair methods of competition." Numerous lawsuits have been filed throughout the United States against pharmaceutical manufacturers, retail pharmacies and/or PBMs under various state and federal antitrust and unfair competition laws challenging, among other things: (i) brand drug pricing practices of pharmaceutical manufacturers, (ii) the maintenance of retail or specialty pharmacy networks by PBMs, and (iii) various other business practices of PBMs and retail pharmacies. To the extent that we appear to have actual or potential market power in a relevant market or CVS Pharmacy or CVS Specialty plays a unique or expanded role in a PBM product offering, our business arrangements and uses of confidential information may be subject to heightened scrutiny from an anti-competitive perspective and possible challenge by state or federal regulators or private parties.

Privacy and Confidentiality Requirements - Many of our activities involve the receipt, use and disclosure by us of personally identifiable information ("PII") as permitted in accordance with applicable federal and state privacy and data security laws, which require organizations to provide appropriate privacy and security safeguards for such information. In addition to PII, we use and disclose de-identified data for analytical and other purposes when permitted. Additionally, there are industry standards for handling credit card data known as the Payment Card Industry Data Security Standard, which are a set of requirements designed to help ensure that entities that process, store or transmit credit card information maintain a secure environment. Certain states have recently incorporated these requirements into state laws.

The federal Health Insurance Portability and Accountability Act of 1996 and the regulations issued thereunder (collectively, "HIPAA") impose extensive requirements on the way in which health plans, health care providers, health care clearinghouses (known as "covered entities") and their business associates use, disclose and safeguard protected health information ("PHI"). Criminal penalties and civil sanctions may be imposed for failing to comply with HIPAA standards. The Health Information Technology for Economic and Clinical Health Act (the "HITECH Act"), enacted as part of the American Recovery and Reinvestment Act of 2009, amended HIPAA to impose additional restrictions on third-party funded communications using PHI and the receipt of remuneration in exchange for PHI. It also extended HIPAA privacy and security requirements and penalties directly to business associates. In addition to HIPAA, state health privacy laws apply to the extent they are more protective of individual privacy than is HIPAA.

Finally, the Health Insurance Marketplaces (formerly known as the "exchanges") are required to adhere to privacy and security standards with respect to PII, and to impose privacy and security standards that are at least as protective of PII as those the Health Insurance Marketplace has implemented for itself or non-Health Insurance Marketplace entities, which

include insurers offering plans through the Health Insurance Marketplaces and their designated downstream entities, including PBMs and other business associates. These standards may differ from, and be more stringent than, HIPAA.

Consumer Protection Laws - The federal government has many consumer protection laws, such as the FTCA, the Federal Postal Service Act and the FTC's Telemarketing Sales Rule. Most states also have similar consumer protection laws. These laws have been the basis for investigations, lawsuits and multi-state settlements relating to, among other matters, the marketing

of loyalty programs and health care services, pricing accuracy, expired front store products, financial incentives provided by drug manufacturers to pharmacies in connection with therapeutic interchange programs and disclosures related to how personal data is used and protected.

Government Agreements and Mandates - The Company and/or its various affiliates are subject to certain consent decrees, settlement agreements, corrective action plans and corporate integrity agreements with various federal, state and local authorities relating to such matters as privacy practices, controlled substances, Medicare Part D prescription drug plans, expired products, environmental and safety matters, marketing and advertising practices, PBM, long term care and pharmacy operations and various other business practices. These agreements may contain certain ongoing reporting, monitoring or other compliance requirements for the Company. Failure to meet the Company's obligations under these agreements could result in civil or criminal remedies, financial penalties, administrative remedies, and/or exclusion from participation in federal health care programs.

Environmental and Safety Regulation - Our business is subject to various federal, state and local laws, regulations and other requirements pertaining to protection of the environment, public health and employee safety, including, for example, regulations governing the management of hazardous substances, the cleaning up of contaminated sites, and the maintenance of safe working conditions in our stores, distribution centers and other facilities. Governmental agencies on the federal, state and local levels have, in recent years, increasingly focused on the retail and health care sectors' compliance with such laws and regulations, and have at times pursued enforcement activities. Any failure to comply with these regulations could result in fines or other sanctions by government authorities.

Health Reform Legislation - Passed in 2010, ACA affects virtually every aspect of health care in the country. In addition to establishing the framework for every individual to have health coverage, ACA enacted a number of significant health care reforms. Many of these reforms affect the coverage and plan designs that are provided by our health plan clients. As a result, these reforms impact a number of our services and business practices. Some significant ACA provisions are still being finalized (e.g., nondiscrimination in health programs and activities, excise tax on high-cost employer-sponsored health coverage) and all or parts of ACA may be repealed or replaced, so the full impact of ACA on our Company is still uncertain.

Pharmacy and Professional Licensure and Regulation - We are subject to a variety of intersecting state and federal statutes and regulations that govern the wholesale distribution of drugs; operation of retail, specialty, infusion, LTC and mail order pharmacies; licensure of facilities and professionals, including pharmacists, technicians and nurses; registration of facilities with the United States Drug Enforcement Administration ("DEA") and analogous state agencies that regulate controlled substances; packaging, storing, shipping and tracking of pharmaceuticals; repackaging of drug products; labeling, medication guides and other consumer disclosures; interactions with prescribers and health care professionals; compounding of prescription medications; dispensing of controlled and non-controlled substances; counseling of patients; transfers of prescriptions; advertisement of prescription products and pharmacy services; security; inventory control; recordkeeping; reporting to Boards of Pharmacy, the United States Food and Drug Administration ("FDA"), the Consumer Product Safety Commission, the DEA and related state agencies; and other elements of pharmacy practice. Pharmacies are highly regulated and have contact with a wide variety of local, state and federal agencies, with various powers to investigate, inspect, audit or solicit information, including Boards of Pharmacy and Nursing, the DEA, the FDA, the United States Department of Justice, the United States Department of Health and Human Services ("HHS") and others. Many of these agencies have broad enforcement powers, conduct audits on a regular basis, can impose substantial fines and penalties, and may revoke the license, registration or program enrollment of a facility or professional.

Telemarketing and Other Outbound Contacts - Certain federal and state laws, such as the Telephone Consumer Protection Act, give the FTC, Federal Communications Commission ("FCC") and state attorneys general the ability to regulate, and bring enforcement actions relating to, telemarketing practices and certain automated outbound contacts such as phone calls, texts or emails. Under certain circumstances, these laws may provide consumers with a private right of action. Violations of these laws could result in substantial statutory penalties and other sanctions.

Laws and Regulations Related to Our Pharmacy Services Segment

In addition to the laws and regulations discussed above that may affect our business as a whole, we are subject to federal, state and local statutes and regulations governing the operation of our Pharmacy Services Segment specifically. Among these are the following:

PBM Laws and Regulation - Legislation seeking to regulate PBM activities in a comprehensive manner has been introduced or enacted in a number of states. This legislation could adversely impact our ability to conduct business on commercially reasonable terms in states where the legislation is in effect.

In addition, certain quasi-regulatory organizations, including the National Association of Boards of Pharmacy and the National Association of Insurance Commissioners ("NAIC") have issued model regulations or may propose future regulations concerning PBMs and/or PBM activities. Similarly, credentialing organizations such as NCQA and URAC may establish voluntary standards regarding PBM, mail or specialty pharmacy activities. While the actions of these quasi-regulatory or standard-setting organizations do not have the force of law, they may influence states to adopt their requirements or recommendations and influence client requirements for PBM or specialty pharmacy services. Moreover, any standards established by these organizations could also impact our health plan clients and/or the services we provide to them.

Medicare Part D - The Medicare Part D program, which makes prescription drug coverage available to eligible Medicare beneficiaries through private insurers, regulates all aspects of the provision of Medicare drug coverage, including enrollment, formularies, pharmacy networks, marketing, and claims processing. The Medicare Part D program has undergone significant legislative and regulatory changes since its inception, and continues to attract a high degree of legislative and regulatory scrutiny. The applicable government rules and regulations continue to evolve. CMS has imposed restrictions and issued new requirements to protect Medicare Part D beneficiaries and has used its authority to sanction and impose civil monetary penalties on plans for non-compliance.

Network Access Legislation - Medicare Part D and a majority of states now have some form of legislation affecting the ability to limit access to a pharmacy provider network or remove network providers. For example, certain "any willing provider" legislation may require us or our clients to admit a non-participating pharmacy if such pharmacy is willing and able to meet the plan's price and other applicable terms and conditions for network participation. These laws could negatively impact the services and economic benefits achievable through a limited pharmacy provider network.

Also, a majority of states now have some form of legislation affecting our ability (and the health plans' ability) to conduct audits of network pharmacies regarding claims submitted to us for payment. These laws could negatively impact our ability to recover overpayments in health care payments stemming from pharmacy audits. Lastly, several states have passed legislation regulating our ability to manage and establish maximum allowable costs ("MAC") for generic prescription drugs. MAC methodology is a common cost management practice used by private and public payors (including CMS) to pay pharmacies for dispensing generic prescription drugs. MAC prices specify the allowable reimbursement by a PBM for a particular strength and dosage of a generic drug that is available from multiple manufacturers but sold at different prices. State legislation can regulate the disclosure of MAC prices and MAC price methodologies, the kinds of drugs that a PBM can pay at a MAC price, and the rights of pharmacies to appeal a MAC price established by a PBM. These laws could negatively impact our ability to establish MAC prices for generic drugs.

Contract Audits - We are subject to audits of many of our contracts, including our PBM client contracts, our PBM rebate contracts, our PBM network contracts, our contracts relating to Medicare Part D and the agreements our pharmacies enter into with other payors. Because some of our contracts are with state or federal governments or with entities contracted with state or federal agencies, audits of these agreements are often regulated by the federal or state agencies responsible for administering federal or state benefits programs, including those which operate Medicaid fee for service plans, Managed Medicaid plans, Medicare Part D plans or Medicare Advantage organizations.

Federal Employee Health Benefits Program - We have a contractual arrangement with carriers for the Federal Employee Health Benefits Program, such as the BlueCross BlueShield Association, to provide pharmacy services to federal employees, postal workers, annuitants, and their dependents under the Government-wide Service Benefit Plan, as authorized by the Federal Employees Health Benefits Act ("FEHBA") and as part of the Federal Employees Health

Benefits Program. These arrangements subjects us to certain aspects of FEHBA, and other federal regulations, such as the Federal Employees Health Benefits Acquisition Regulation, that otherwise are not applicable to us.

State Insurance Laws - PDPs and our PBM service contracts, including those in which we assume certain risks under performance guarantees or similar arrangements, are generally not subject to insurance regulation by the states. However, state

departments of insurance are increasing their oversight of PBM activities due to legislation passing in several states requiring PBMs to register or obtain a license with the department. Rulemaking is either underway or has already taken place in a few states with the areas of focus on licensure requirements, pharmacy reimbursement for generics (MAC reimbursement) and pharmacy audits - most of which fall under the state insurance code. Additionally, some states have laws that prohibit submitting a false claim or making a false record or statement in order to secure reimbursement from an insurance company. These state laws vary, and violation of them may lead to the imposition of civil or criminal penalties.

As a PDP, SilverScript is subject to state insurance laws limited to licensure and solvency. In addition, PBM offerings of prescription drug coverage under certain risk arrangements may be subject to laws and regulations in various states. Such laws may require that the party at risk become licensed as an insurer, establish reserves or otherwise demonstrate financial viability. Laws that may apply in such cases include insurance laws and laws governing MCOs and limited prepaid health service plans.

ERISA Regulation - The Employee Retirement Income Security Act of 1974, as amended ("ERISA"), provides for comprehensive federal regulation of certain employee pension and benefit plans, including private employer and union sponsored health plans and certain other plans that contract with us to provide PBM services. In general, we assist plan sponsors in the administration of the prescription drug portion of their health benefit plans in accordance with the plan designs adopted by the plan sponsors. We do not believe that the conduct of our business subjects us to the fiduciary obligations of ERISA, except when we have specifically contracted with a plan sponsor to accept limited fiduciary responsibility, such as for the adjudication of initial prescription drug benefit claims and/or the appeals of denied claims under a plan, and with respect to the Contraceptive Coverage Mandate, one of the health reforms presently included in ACA.

In addition to its fiduciary provisions, ERISA imposes civil and criminal liability on service providers to health plans and certain other persons if certain forms of illegal remuneration are made or received. These provisions of ERISA are broadly written and their application to specific business practices is often uncertain.

Formulary and Plan Design Regulation - A number of government entities regulate the administration of prescription drug benefits. HHS regulates how Medicare Part D formularies are developed and administered, including requiring the inclusion of all drugs in certain classes and categories, subject to limited exceptions. Under ACA, CMS imposes drug coverage requirements for health plans required to cover essential health benefits, including plans offered through federal or state exchanges. Additionally, NAIC and health care accreditation agencies like NCQA and URAC have developed model acts and standards for formulary development that are often incorporated into government requirements. Many states regulate the scope of prescription drug coverage, as well as the delivery channels to receive such prescriptions, for insurers, MCOs and Medicaid managed care plans. The increasing government regulation of formularies could significantly affect our ability to develop and administer formularies, networks and other plan design features on behalf of our insurer, MCO and other clients. Similarly, some states prohibit health plan sponsors from implementing certain restrictive design features. This regulation could limit or preclude (i) limited networks, (ii) a requirement to use particular providers, (iii) copayment differentials among providers and (iv) formulary tiering practices.

Managed Care Reform - In addition to health reforms enacted by ACA, proposed legislation has been considered at the state level, and legislation has been enacted in several states, aimed primarily at providing additional rights and access to drugs to individuals enrolled in managed care plans. This legislation may impact the design and implementation of prescription drug benefit plans sponsored by our PBM health plan clients and/or the services we provide to them. Both the scope of the managed care reform proposals considered by state legislatures and reforms enacted by states to date vary greatly, and the scope of future legislation that may be enacted is uncertain.

Disease Management Services Regulation - We provide disease management programs to PBM plan members for rare medical conditions and arrange for them to receive disease management programs for common medical conditions. State laws regulate the practice of medicine, the practice of pharmacy and the practice of nursing. Clinicians engaged in a professional practice in connection with the provision of disease management services must satisfy applicable state licensing requirements and must act within their scope of practice.

Third Party Administration and Other State Licensure Laws - Many states have licensure or registration laws governing certain types of administrative organizations, such as preferred provider organizations, third party

administrators and companies that provide utilization review services. Several states also have licensure or registration laws governing the organizations that provide or administer consumer card programs (also known as cash card or discount card programs).

Laws and Regulations Related to Our Retail/LTC Segment

In addition to the laws and regulations discussed above that may affect our business as a whole, we are subject to federal, state and local statutes and regulations governing the operation of our Retail/LTC Segment specifically. Among these are the following:

Specific FDA Regulation - The FDA generally has authority to, among other things, regulate the manufacture, distribution, sale and labeling of many products sold through retail pharmacies, including prescription drugs, over-the-counter medications, medical devices (including mobile medical devices), cosmetics, dietary supplements and certain food items.

Retail Clinics - States regulate retail clinics operated by nurse practitioners or physician assistants through physician oversight, lab licensing and the prohibition of the corporate practice of medicine. A number of states have implemented or proposed laws or regulations that impact certain components of retail clinic operations such as physician oversight, signage, third party contracting requirements, bathroom facilities, and scope of services. These laws and regulations may affect the operation and expansion of our owned and managed retail clinics.

Available Information

CVS Health Corporation is a Delaware corporation. Our corporate office is located at One CVS Drive, Woonsocket, Rhode Island 02895, telephone (401) 765-1500. Our common stock is listed on the New York Stock Exchange under the trading symbol "CVS." General information about CVS Health is available through the Company's Web site at *http://www.cvshealth.com*. Our financial press releases and filings with the United States Securities and Exchange Commission ("SEC") are available free of charge within the Investors section of our Web site at *http://www.cvshealth.com/investors*. In addition, the SEC maintains an internet site that contains reports, proxy and information statements and other information regarding issuers, such as the Company, that file electronically with the SEC. The address of that Web site is *http://www.sec.gov.*

Item 1A. Risk Factors

Our business is subject to various industry, economic, regulatory and other risks and uncertainties. Our business, financial condition, results of operations, cash flows and prospects could be materially adversely affected by any one or more of the following risk factors and by additional risks and uncertainties not presently known to us or that we currently deem to be immaterial:

Risks of declining gross margins in the PBM, retail pharmacy and LTC pharmacy industries.

The PBM industry has been experiencing margin pressure as a result of competitive pressures and increased client demands for lower prices, increased revenue sharing, enhanced service offerings and/or higher service levels. In that regard, we maintain contractual relationships with generic pharmaceutical manufacturers and brand name pharmaceutical manufacturers that provide for purchase discounts and/or rebates on drugs dispensed by pharmacies in our retail network and by our specialty and mail order pharmacies (all or a portion of which may be passed on to clients). Manufacturer rebates often depend on a PBM's ability to meet contractual market share or other requirements, including in some cases the placement of a manufacturer's products on the PBM's formularies. If we lose our relationship with one or more pharmaceutical manufacturers, or if the discounts or rebates provided by pharmaceutical manufacturers decline, our business and financial results could be adversely affected. Further, competitive pressures in the PBM industry have resulted in our clients sharing in a larger portion of rebates and/or discounts received from pharmaceutical manufacturers. Market dynamics and regulatory changes have impacted our ability to offer plan sponsors pricing that includes the use of retail "differential" or "spread", which could negatively impact our future profitability. Further, changes in existing federal or state laws or regulations or the adoption of new laws or regulations relating to patent term extensions, purchase discount and rebate arrangements with pharmaceutical manufacturers, or to formulary management or other PBM services could also reduce the discounts or rebates we receive. In addition, changes in federal or state laws or regulations or the adoption of new laws or regulations relating to claims processing and billing, including our ability to use MAC lists and collect transmission fees, could adversely impact our profitability.

Our retail pharmacy, specialty pharmacy and LTC pharmacy operations have also been affected by the margin pressures described above, including client demands for lower prices, generic pricing and network reimbursement pressure. In addition, as competition increases in the markets in which we operate, a significant increase in general pricing pressures could occur, and this could require us to reevaluate our pricing structures to remain competitive. A shift in the mix of our pharmacy prescription volume towards programs offering lower reimbursement rates could adversely affect our margins, including the shift in pharmacy mix towards 90-day prescriptions at retail and the shift in pharmacy mix towards Medicare Part D prescriptions.

Finally, the margins of our LTC business are further affected by the increased efforts of health care payors to negotiate reduced or capitated pricing arrangements. These actions could also adversely affect the margins of our LTC business.

Efforts to reduce reimbursement levels and alter health care financing practices.

The continued efforts of health maintenance organizations, managed care organizations, PBMs, government entities, and other third party payors to reduce prescription drug costs and pharmacy reimbursement rates, as well as litigation and other legal proceedings relating to how drugs are priced, may impact our profitability. In particular, increased utilization of generic pharmaceuticals (which normally yield a higher gross profit rate than equivalent brand named drugs) has resulted in pressure to decrease reimbursement payments to retail, specialty, LTC and mail order pharmacies for generic drugs, causing a reduction in the generic profit rate. Historically, the effect of this trend on generic profitability has been mitigated by our efforts to negotiate reduced acquisition costs of generic pharmaceuticals with manufacturers. However, in recent years, there has been significant consolidation within the generic manufacturing industry, and it is possible that this and other external factors may enhance the ability of manufacturers to sustain or increase pricing of generic pharmaceuticals and diminish our ability to negotiate reduced acquisition costs. Any inability to offset increased costs or to modify our activities to lessen the impact could have a significant adverse effect on our results of operations.

In addition, during the past several years, the United States health care industry has been subject to an increase in governmental regulation and audits at both the federal and state levels. Efforts to control health care costs, including prescription drug costs, are continuing at the federal and state government levels. Changing political, economic and regulatory influences may significantly affect health care financing and reimbursement practices. For example, we anticipate that federal and state governments will continue to review and assess alternative health care delivery systems, payment methodologies and operational requirements for health care providers, including LTC facilities and pharmacies. A change in the composition of pharmacy prescription volume toward programs offering lower reimbursement rates could negatively impact our profitability. Any action taken to repeal or replace all or significant parts of ACA could also impact our profitability, though it is unclear at this time what the full effects will be.

ACA made several significant changes to Medicaid rebates and to reimbursement. One of these changes was to revise the definition of the Average Manufacturer Price, a pricing element common to most payment formulas, and the reimbursement formula for multi-source (i.e., generic) drugs. This change has negatively affected our reimbursement. In addition, ACA made other changes that affect the coverage and plan designs that are or will be provided by many of our health plan clients, including the requirement for health insurers to meet a minimum medical loss ratio to avoid having to pay rebates to enrollees. These ACA changes may not affect our business directly, but they could indirectly impact our services and/or business practices.

A highly competitive business environment.

Each of our retail pharmacy, LTC pharmacy, retail health clinic and pharmacy services operations currently operates in a highly competitive and evolving health care environment.

The competitive success of our retail pharmacy business, as well as our specialty pharmacy operations with non-Caremark payors, is derived by their ability to establish and maintain contractual relationships with PBMs and other payors on acceptable terms in an environment where some PBM clients are considering adopting narrow or restricted retail pharmacy networks. As a pharmacy retail business, we compete with other drugstore chains, supermarkets, on-line and other discount retailers, independent pharmacies, membership clubs, convenience stores and mass merchants, some of which are aggressively expanding into markets we serve. We also face competition from other retail health clinics, as well as other mail order pharmacies and PBMs. Competition may also come from other sources in the future. Changes in market dynamics or the actions of competitors or manufacturers, including industry consolidation, the emergence of new competitors and strategic alliances, and the exclusion from new narrow or restricted networks, could materially and adversely impact us.

We could also be adversely affected if we fail to identify or effectively respond to changes in market dynamics. For example, specialty pharmacy represents a significant and growing proportion of prescription drug spending in the United States, a significant portion of which is dispensed outside of traditional retail pharmacies. Because our specialty pharmacy operations focuses on complex and high-cost medications that serve a relatively limited universe of patients, the future

growth of this business depends to a significant extent upon expanding our ability to access key drugs and successfully penetrate key treatment categories.

The competitive success of our LTC pharmacy operations is dependent upon our ability to compete in each geographic region where we have operations. In the geographic regions we serve, we compete with PharMerica Corporation, our largest

competitor, as well as with numerous local and regional institutional pharmacies, pharmacies owned by LTC facilities and local retail pharmacies.

The competitive success of our pharmacy services business is impacted by its ability to establish and maintain contractual relationships with network pharmacies in an environment where some PBM clients are considering adopting narrow or restricted retail pharmacy networks. Competitors in the PBM industry (e.g., Express Scripts, OptumRx, Prime Therapeutics, MedImpact and Humana), include large, national PBM companies, PBMs owned by large national health plans and smaller standalone PBMs. Competition may also come from other sources in the future. In addition, changes in the overall composition of our pharmacy networks, or reduced pharmacy access under our networks, could adversely affect our claims volume and/or our competitiveness generally.

Competitors in each of our business areas may offer services and pricing terms that we may not be willing or able to offer. Strong competition in the PBM marketplace has generated greater client demand for lower pricing, increased revenue sharing and enhanced product and service offerings. Unless we can demonstrate enhanced value to our clients through innovative product and service offerings, particularly in a rapidly changing health care industry, we may be unable to remain competitive.

Changes in U.S. policy, laws and regulations, including reform of the United States health care system.

The results of the November 2016 elections have generated uncertainty with respect to, and could result in, significant changes in legislation, regulation and government policy that could significantly impact our business and the health care and retail industries. While it is not possible to predict whether and when any such changes will occur or what form any such changes may take (including through the use of Executive Orders), specific proposals discussed during and after the election that could have a material adverse effect on our business, liquidity and results of operations include, but are not limited to, immigration policies, the repeal of all or part of ACA and other significant changes to health care system legislation as well as changes with respect to tax and trade policies, tariffs and other government regulations affecting trade between the United States and other countries.

The repeal of all or part of the ACA, significant changes to Medicaid funding or even significant destabilization of the Health Insurance Marketplaces could impact the number of Americans with health insurance and, consequently, prescription drug coverage. Even if ACA remains, significant provisions of ACA have not yet been finalized (e.g., nondiscrimination in health programs and activities, excise tax on high-cost employer-sponsored health coverage) and it is uncertain whether or in what form these provisions will be finalized. We cannot predict the effect, if any, a repeal of all or part of ACA, the implementation or failure to implement the outstanding provisions of ACA, or the enactment of new health care system legislation to replace current legislation may have on our retail pharmacy, LTC pharmacy and pharmacy services operations.

In addition, much of the branded and generic drug product that we sell in our retail, mail and specialty pharmacies, and much of the other merchandise we sell, is manufactured in whole or in substantial part outside of the United States. In most cases, the products or merchandise are imported by others and sold to us. As a result, significant changes in tax or trade policies, tariffs or trade relations between the United States and other countries, such as the disallowance of tax deductions for imported merchandise or the imposition of unilateral tariffs on imported products, could result in significant increases in our costs, restrict our access to suppliers, depress economic activity, and have a material impact on our business, liquidity and results of operations. In addition, other countries may change their business and trade policies and such changes as well as any negative sentiments towards the United States in response to increased import tariffs and other changes in U.S. trade regulations could adversely affect our business.

Finally, comprehensive tax reform is likely to be considered in the current political environment. We expect that tax reform, if enacted, could have a significant impact on the Company. Current proposals aim to lower the U.S. corporate tax rate from 35% to as low as 15% or 20%, but generally broaden the base to which the lower tax rate would apply. Many aspects of tax reform plans remain unknown though, and no proposed legislation has been filed. We cannot say with certainty if tax reform will be enacted, or how it would impact the Company.

Risks related to compliance with a broad and complex regulatory framework.

Our business is subject to numerous federal, state and local laws and regulations. See “Business - Government Regulation.” In addition, during the past several years, the United States health care industry has been subject to an increase in governmental regulation and enforcement activity at both the federal and state levels. Further, uncertainties exist regarding the application of many of these legal requirements to our business. In addition, it is possible that all, or certain provision of the current health care reform legislation may be modified, repealed or otherwise invalidated. Changes in these laws and regulations and the related interpretations and enforcement practices may require extensive system and operating changes that may be difficult to

implement. Untimely compliance or noncompliance with applicable laws and regulations could adversely affect the continued operation of our business, including, but not limited to: imposition of civil or criminal penalties; significant fines or monetary penalties; suspension or disgorgement of payments from government programs; loss of required government certifications or approvals; loss of authorizations to participate in or exclusion from government reimbursement programs, such as the Medicare and Medicaid programs; or loss of registrations or licensure. The regulations to which we are subject include, but are not limited to: the laws and regulations described in the Government Regulation section; accounting standards; financial disclosure; securities laws and regulations; federal anti-trust laws; tax laws and regulations and their possible reform; laws and regulations relating to the protection of the environment and health and safety matters, including those governing exposure to, and the management and disposal of, hazardous materials and wastes; and laws and regulations of the FTC, the FCC, and the Consumer Product Safety Commission, as well as state regulatory authorities, governing the sale, advertisement and promotion of products that we sell, such as Boards of Pharmacy. The FDA, DEA and various states regulate the distribution of pharmaceuticals and controlled substances. We are required to hold valid DEA and state-level registrations and licenses, meet various security and operating standards and comply with the federal and various states' controlled substances acts and their accompanying regulations governing the sale, marketing, packaging, holding and distribution of controlled substances. The DEA, FDA and state regulatory authorities have broad enforcement powers, including the ability to suspend our registrations and licenses, seize or recall products and impose significant criminal, civil and administrative sanctions for violations of these laws and regulations. In addition, our business interests outside of the United States are subject to the Foreign Corrupt Practices Act and other applicable domestic and international laws and regulations. We are also subject to the terms of various government agreements and mandates, including those described in the Government Regulation section. In that regard, our business, financial position and results of operations could be adversely affected by existing and new government legislative, regulatory action and enforcement activity, including, without limitation, any one or more of the following:

- federal and state laws and regulations concerning the submission of claims for reimbursement by Medicare, Medicaid and other government programs, whether at retail, mail, specialty or LTC;
- federal and state laws and regulations governing the purchase, distribution, tracking, management, compounding, dispensing and reimbursement of prescription drugs and related services, whether at retail, mail, specialty or LTC, and applicable registration or licensing requirements;
- heighted enforcement of controlled substances regulations;
- the effect of the expiration of patents covering brand name drugs and the introduction of generic products;
- the frequency and rate of approvals by the FDA of new brand name and generic drugs, or of over-the-counter status for brand name drugs;
- rules and regulations issued pursuant to HIPAA and the HITECH Act; and other federal and state laws affecting the collection, use, disclosure and transmission of health or other personal information, such as federal laws on information privacy precipitated by concerns about information collection through the Internet, state security breach laws and state laws limiting the use and disclosure of prescriber information;
- health care fraud and abuse laws regulations;
- consumer protection laws affecting our health care services, our loyalty programs, our drug discount card programs, the products we sell, the informational calls we make and/or the marketing of our goods and services;
- federal, state and local environmental, health and safety laws and regulations applicable to our business, including the management of hazardous substances, storage and transportation of hazardous materials, and various recordkeeping disclosure and procedure requirements promulgated by the Occupational Safety and Health Administration that may apply to our operations;
- health care reform, managed care reform and plan design legislation;
- laws against the corporate practice of medicine;
- FDA regulation affecting the retail, LTC, specialty or PBM industry;
- government regulation of the development, administration, review and updating of formularies and drug lists including requirements and/or limitations around formulary tiering and patient cost sharing;
- state laws and regulations related to increased oversight of PBM activities by state departments of insurance pharmacy reimbursement for generics and pharmacy audits;
- drug pricing legislation, including "most favored nation" pricing;
- federal and state laws and regulations establishing or changing prompt payment requirements for payments to retail pharmacies;

- impact of network access legislation or regulations, including "any willing provider" laws, on our ability to manage pharmacy networks;
- ERISA and related regulations;
- administration of Medicare Part D, including legislative changes and/or CMS rulemaking and interpretation;
- Medicare and Medicaid regulations applicable to our business, in particular our LTC pharmacies and those of our client's facilities;

- ongoing compliance with consent decrees, corporate integrity agreements, corrective action plans and other agreements with government agencies;
- insurance licensing and other insurance regulatory requirements applicable to offering Medicare Part D programs and services or other health care services; and
- direct regulation of pharmacies or PBMs by regulatory and quasi-regulatory bodies.

The possibility of client losses and/or the failure to win new business.

Our PBM business generates net revenues primarily by contracting with clients to provide prescription drugs and related health care services to plan members. PBM client contracts often have terms of approximately three years in duration, so approximately one third of a PBM's client base typically is subject to renewal each year. In some cases, however, PBM clients may negotiate a shorter or longer contract term or may require early or periodic renegotiation of pricing prior to expiration of a contract. Our clients are generally well informed and organized, can easily move between our competitors and often seek competing bids prior to expiration of their contracts. In addition, the reputational impact of a service-related incident could negatively affect our business. These factors, together with the impact of competitive pressures, could make it difficult for us to attract new clients, retain existing clients and cross-sell additional services. Further, the PBM industry has been affected by consolidation activity that may continue in the future. In the event one or more of our PBM clients is acquired by an entity that is not also our client, we may be unable to retain all or a portion of the acquired business. These circumstances, either individually or in the aggregate, could result in an adverse effect on our business and financial results. Therefore, we continually face challenges in competing for new PBM business and retaining or renewing our existing PBM business. With respect to our LTC business, reimbursement from skilled nursing facilities for prescriptions we dispense is determined pursuant to our agreements with those skilled nursing facilities. The termination of these agreements generally causes our ability to provide services to any of the residents of that facility to cease, resulting in the loss of revenue from any source for those residents. There can be no assurance that we will be able to win new business or secure renewal business on terms as favorable to us as the present terms.

Additionally, with respect to our retail and LTC pharmacy businesses, reimbursement under Medicare Part D, as well as reimbursement from certain private third-party payors, is determined pursuant to agreements that we negotiate with those payors or their pharmacy benefit manager representatives. The loss of those agreements, or a material change in the terms of those agreements, could negatively impact the Company. In addition, restricted networks that exclude our retail or specialty pharmacies negatively impact those businesses.

Risks related to the frequency and rate of the introduction and pricing of generic drugs and brand name prescription products.

The profitability of our business is dependent upon the utilization of prescription drug products. Utilization trends are affected by, among other factors, the introduction of new and successful prescription pharmaceuticals as well as lower-priced generic alternatives to existing brand name products, as the sale of generic alternatives normally yield higher gross margins than brand name equivalents. In addition, inflation in the price of the brand name drugs can affect utilization, particularly given the increase in high deductible health plans. Accordingly, our business could be impacted by a slowdown or delay in the number or magnitude of new and successful prescription pharmaceuticals and/or generic alternatives, as well as the pricing of brand name drugs.

The health of the economy in general and in the markets we serve.

Our business is affected by the economy and consumer confidence in general, including various economic factors, inflation and changes in consumer purchasing power, preferences and/or spending patterns. It is possible that an unfavorable, uncertain or volatile economic environment will cause a decline in drug and health care services utilization and dampen demand for pharmacy benefit management services as well as consumer demand for products sold in our retail stores. Further economic conditions including interest rate fluctuations, changes in capital market conditions and regulatory changes may affect our ability to obtain necessary financing on acceptable terms, our ability to secure suitable store locations under acceptable terms and our ability to execute sale-leaseback transactions under acceptable terms. These changes in conditions could result in an adverse effect on our business and financial results. This could be further exacerbated by the increasing prevalence of high deductible health plans and health plan designs favoring co-insurance over co-payments.

The failure or disruption of our information technology systems, our information security systems and our infrastructure to support our business and to protect the privacy and security of sensitive customer and business information.

Many aspects of our operations are dependent on our information systems and the information collected, processed, stored, and handled by these systems. We rely heavily on our computer systems to manage our ordering, pricing, point-of-sale, pharmacy fulfillment, inventory replenishment, claims processing, ExtraCare customer loyalty program, finance, human resource and other processes. Throughout our operations, we receive, retain and transmit certain confidential information, including PII that our customers and clients provide to purchase products or services, enroll in programs or services, register on our websites, interact with our personnel, or otherwise communicate with us. In addition, for these operations, we depend in part on the secure transmission of confidential information over public networks. Our information systems are subject to damage or interruption from power outages, facility damage, computer and telecommunications failures, computer viruses, security breaches including credit card or personally identifiable information breaches, coordinated cyber attacks, vandalism, catastrophic events and human error. Although we deploy a layered approach to address information security threats and vulnerabilities, including ones from a cyber security standpoint, designed to protect confidential information against data security breaches, a compromise of our information security controls or of those businesses with whom we interact, which results in confidential information being accessed, obtained, damaged, or used by unauthorized or improper persons, could harm our reputation and expose us to regulatory actions and claims from customers and clients, financial institutions, payment card associations and other persons, any of which could adversely affect our business, financial position, and results of operations. Because the techniques used to obtain unauthorized access, disable or degrade service, or sabotage systems change frequently and may not immediately produce signs of intrusion, we may be unable to anticipate these techniques or to implement adequate preventative measures. Moreover, a data security breach could require that we expend significant resources related to our information systems and infrastructure, and could distract management and other key personnel from performing their primary operational duties. We also could be adversely affected by any significant disruption in the systems of third parties we interact with, including key payors and vendors.

If our information systems are damaged, fail to work properly or otherwise become unavailable, or if we are unable to successfully complete our planned consolidation of our PBM claims adjudication platforms, we may incur substantial costs to repair or replace them, and may experience reputational damage, loss of critical information, customer disruption and interruptions or delays in our ability to perform essential functions and implement new and innovative services. In addition, compliance with changes in privacy and information security laws and standards may result in considerable expense due to increased investment in technology and the development of new operational processes.

Risks relating to the market availability, suppliers and safety profiles of prescription drugs that we purchase and sell.

We dispense significant volumes of brand-name and generic drugs from our retail, LTC, specialty and mail-order pharmacies and through our PBM's network of retail pharmacies. When increased safety risk profiles or manufacturing or other supply issues of specific drugs or classes of drugs occur, or drugs become subject to greater restrictions as controlled substances, physicians may cease writing prescriptions for these drugs or the utilization of these drugs may be otherwise reduced.

Additionally, adverse publicity regarding drugs with higher safety risk profiles may result in reduced consumer demand for such drugs. On occasion, products are withdrawn by their manufacturers or transition to over-the-counter products, which can result in lower prescription utilization. In addition, future FDA rulings could restrict the supply or increase the cost of products sold to our customers. Our volumes, net revenues, profitability and cash flows may decline as a result of such regulatory rulings or market changes.

Further, we acquire a substantial amount of our mail and specialty pharmacies' prescription drug supply from a limited number of suppliers. Our agreements with these suppliers are often short-term and easily cancelable by either party without cause. In addition, these agreements may limit our ability to provide services for competing drugs during the term of the agreement and may allow the supplier to distribute through channels other than ours. Certain of these agreements also allow pricing and other terms to be adjusted periodically for changing market conditions or required service levels. A termination or modification to any of these relationships could have a material adverse effect on our business, financial

condition and results of operations. Moreover, many products distributed by our specialty pharmacy business are manufactured with ingredients that are susceptible to supply shortages.

A disruption in our business operations could occur as a result of contamination of drugs, a failure to maintain necessary shipment and storage conditions, errors in mail order processing, the unavailability of prescription drugs provided by suppliers, labor disruptions or other unanticipated disruptions at our mail order facilities, call centers, data centers or corporate facilities, among other factors. Such disruption could reduce our ability to process and dispense prescriptions and provide products and services to our customers.

In the event any products we distribute are in limited supply for significant periods of time, our financial condition and results of operations could be materially and adversely affected.

Regulatory and business changes relating to our participation in Medicare Part D.

Medicare Part D has resulted in increased utilization and puts pressure on pharmacy gross margin rates due to regulatory and competitive pressures. Further, as a result of ACA and changes to the retiree drug subsidy rules, our PBM clients could decide to discontinue providing prescription drug benefits to their Medicare-eligible members. To the extent this occurs, the adverse effects of increasing customer migration into Medicare Part D may outweigh the benefits we realize from growth of our Medicare Part D business. In addition, if the cost and complexity of Medicare Part D exceed management's expectations or prevent effective program implementation or administration; if changes to the regulations regarding how drug costs are reported for Medicare Part D are implemented in a manner that impacts the profitability of our Medicare Part D business; if changes to the regulations impact our ability to retain fees from third parties including network pharmacies; if the government alters Medicare program requirements or reduces funding because of the higher-than-anticipated cost to taxpayers of Medicare Part D or for other reasons; if Congress acts to reduce reinsurance thresholds from 80% to 20%; if we fail to design and maintain programs that are attractive to Medicare participants; if CMS imposes restrictions on our Medicare Part D business as a result of audits or other regulatory actions; if we fail to successfully implement corrective action or other remedial measures sufficient to prevent or remove any applicable restrictions that may be imposed by CMS; or if we are not successful in retaining enrollees, or winning contract renewals or new contracts under Medicare Part D's competitive bidding process, our Medicare Part D services and the ability to expand our Medicare Part D services could be negatively impacted.

Possible changes in industry pricing benchmarks and drug pricing generally.

It is possible that the pharmaceutical industry or regulators may evaluate and/or develop an alternative pricing reference to replace Average Wholesale Price ("AWP") or Wholesale Acquisition Cost ("WAC"), which are the pricing references used for many of our PBM and LTC client contracts, pharmaceutical purchase agreements, retail network contracts, specialty payor agreements and other contracts with third party payors in connection with the reimbursement of drug payments. In addition, many state Medicaid fee-for-service programs ("FFS Medicaid") are expected to establish pharmacy network payments on the basis of Actual Acquisition Cost ("AAC") by April 1, 2017. This move to an AAC basis in FFS Medicaid could have an impact in reimbursement practices in other commercial and government segments. Future changes to the use of AWP, WAC or to other published pricing benchmarks used to establish pharmaceutical pricing, including changes in the basis for calculating reimbursement by federal and state health programs and/or other payors, could impact the reimbursement we receive from Medicare and Medicaid programs, the reimbursement we receive from PBM clients and other payors and/or our ability to negotiate rebates and/or discounts with pharmaceutical manufacturers, wholesalers, PBMs and retail pharmacies. A failure or inability to fully offset any increased prices or costs or to modify our operations to mitigate the impact of such increases could have an adverse effect on our results of operations. Additionally, any future changes in drug prices could be significantly different than our projections. The effect of these possible changes on our business cannot be predicted at this time.

Product liability, product recall or personal injury issues could damage our reputation; failure to maintain adequate liability insurance coverage.

The products that we sell could become subject to contamination, product tampering, mislabeling, recall or other damage. In addition, errors in the dispensing and packaging of pharmaceuticals could lead to serious injury or death. Product liability or personal injury claims may be asserted against us with respect to any of the products or pharmaceuticals we sell or services we provide. Our business involves the provision of professional services including by pharmacists, nurses and nurse practitioners that exposes us to professional liability claims. Should a product or other liability issue arise, the coverage limits under our insurance programs and the indemnification amounts available to us may not be adequate to protect us against claims. We also may not be able to maintain this insurance on acceptable terms in the future. Damage to our reputation in the event of a product liability or personal injury issue or judgment against us or a product recall could have a significant adverse effect on our business, financial condition and results of operations.

Relationship with our retail and specialty pharmacy customers and the demand for our products and services, including propriety brands.

The success of our business depends in part on customer loyalty, superior customer service and our ability to persuade customers to frequent our retail stores and online sites and to purchase products in additional categories and our proprietary brands. Failure to timely identify or effectively respond to changing consumer preferences and spending patterns, and evolving demographic mixes in our markets, an inability to expand the products being purchased by our clients and customers, or the

failure or inability to obtain or offer particular categories of products could negatively affect our relationship with our clients and customers and the demand for our products and services and could result in excess inventories of products.

We offer our retail customers proprietary brand products that are available exclusively at our retail stores and through our online retail sites. The sale of proprietary products subjects us to unique risks including potential product liability risks and mandatory or voluntary product recalls, potential supply chain and distribution chain disruptions for raw materials and finished products, our ability to successfully protect our intellectual property rights and the rights of applicable third parties, and other risks generally encountered by entities that source, market and sell private-label products. Any failure to adequately address some or all of these risks could have an adverse effect on our business, results of operations and financial condition. Additionally, an increase in the sales of our proprietary brands may negatively affect our sales of products owned by our suppliers which, consequently, could adversely impact certain of our supplier relationships. Our ability to locate qualified, economically stable suppliers who satisfy our requirements, and to acquire sufficient products in a timely and effective manner, is critical to ensuring, among other things, that customer confidence is not diminished. Any failure to develop sourcing relationships with a broad and deep supplier base could adversely affect our financial performance and erode customer loyalty.

Moreover, customer expectations and new technology advances from our competitors have required that our business evolve so that we are able to engage with our retail customers not only face-to-face in our stores but also online and via mobile and social media. Our customers are using computers, tablets, mobile phones and other electronic devices to shop in our stores and online, as well as to provide public reactions concerning each facet of our operation. If we fail to keep pace with dynamic customer expectations and new technology developments, our ability to compete and maintain customer loyalty could be adversely affected.

Finally, our specialty pharmacy business focuses on complex and high-cost medications, many of which are made available by manufacturers to a limited number of pharmacies (so-called limited distribution drugs), that serve a relatively limited universe of patients. As a result, the future growth of our specialty pharmacy business is dependent largely upon expanding our base of drugs or penetration in certain treatment categories. Any contraction of our base of patients or reduction in demand for the prescriptions we currently dispense could have an adverse effect on our business, financial condition and results of operations.

We are subject to payment-related risks that could increase our operating costs, expose us to fraud or theft, subject us to potential liability and disrupt our business operations.

We accept payments using a variety of methods, including cash, checks, credit cards, debit cards, gift cards, mobile payments and potentially other technologies in the future. Acceptance of these payment methods subjects us to rules, regulations, contractual obligations and compliance requirements, including payment network rules and operating guidelines, data security standards and certification requirements, and rules governing electronic funds transfers. These requirements may change in the future, which could make compliance more difficult or costly. For certain payment options, including credit and debit cards, we pay interchange and other fees, which could increase periodically thereby raising our operating costs. We rely on third parties to provide payment processing services, including the processing of credit cards, debit cards, and various other forms of electronic payment. If these companies are unable to provide these services to us, or if their systems are compromised, our operations could be disrupted. The payment methods that we offer also expose us to potential fraud and theft by persons seeking to obtain unauthorized access to, or exploit any weaknesses in, the payment systems. If we fail to abide by applicable rules or requirements, or if data relating to our payment systems is compromised due to a breach or misuse, we may be responsible for any costs incurred by payment card issuing banks and other third parties or subject to fines and higher transaction fees. In addition, our reputation and ability to accept certain types of payments could each be harmed resulting in reduced sales and adverse effects on our results of operations.

We may be unable to successfully integrate companies acquired by us.

Upon the closing of any acquisition we complete, we will need to successfully integrate the products, services and related assets, as well as internal controls into our business operations. If an acquisition is consummated, the integration of the acquired business, its products, services and related assets into our company may also be complex and time-consuming and, if the integration is not fully successful, we may not achieve the anticipated benefits, operating and cost synergies or

growth opportunities of an acquisition. Potential difficulties that may be encountered in the integration process include the following:

- Integrating personnel, operations and systems, while maintaining focus on producing and delivering consistent, high quality products and services;
- Coordinating geographically dispersed organizations;
- Disruption of management's attention from our ongoing business operations;
- Retaining existing customers and attracting new customers; and

- Managing inefficiencies associated with integrating our operations.

An inability to realize the full extent of the anticipated benefits, operating and cost synergies, innovations and operations efficiencies or growth opportunities of an acquisition, as well as any delays encountered in the integration process, could have a material adverse effect on our business and results of operation. Furthermore, these acquisitions, even if successfully integrated, may fail to further our business strategy as anticipated, expose us to increased competition or challenges with respect to our products, services or geographic markets, and expose us to additional liabilities associated with an acquired business including risks and liabilities associated with litigation involving the acquired business. Any one of these challenges or risks could impair our ability to realize any benefit from our acquisitions after we have expended resources on them.

Our outstanding debt and associated payment obligations could, among other things, limit our ability to make incremental investments in our business.

Our current debt service costs associated with our increased debt levels may dampen incremental investments in our business and limit our flexibility to respond to industry changes and market conditions. In addition, our debt level and related debt service obligations could make it more difficult or expensive for us to obtain any required future financing for working capital, capital expenditures, acquisitions or other purposes. Moreover, we may be unable to refinance existing indebtedness or otherwise access the capital markets for any reason, whether due to market conditions or otherwise. These circumstances could have a material adverse effect on our business operations and financial condition.

Risks related to the seasonality of our business.

Although the majority of our revenues, particularly pharmacy revenues, are generally not seasonal in nature, front store revenues tend to be higher during the December holiday season. Uncharacteristic or extreme weather conditions can adversely impact consumer shopping patterns as well. This could lead to lost sales, as well as increased snow removal and other costs, thereby negatively affecting our short-term results of operations. In addition, both pharmacy and front store revenues are affected by the timing and severity of the cough, cold and flu season, which is susceptible to large fluctuations from year to year, and our quarterly earnings and operating cash flows are impacted by the Medicare Part D benefit design and changes in the composition of our membership. See “Business - Pharmacy Services Seasonality.”

Risks related to litigation and other legal proceedings.

Pharmacy services, retail pharmacy and LTC pharmacy are highly regulated and litigious industries. We are currently subject to various litigation matters, investigations, audits, inspections, government inquiries, and regulatory and legal proceedings. Litigation, and particularly securities and collective or class action litigation, is often expensive and disruptive. Further, under the *qui tam* or “whistleblower” provisions of the federal and various state false claims acts, private citizens may bring lawsuits alleging that a violation of the federal anti-kickback statute or similar laws has resulted in the submission of “false” claims to federal and/or state health care programs, including Medicare and Medicaid. Litigation related to our provision of professional services in our pharmacies, specialty pharmacies, clinics and LTC facilities has also increased as we expand our services along the continuum of health care. We cannot predict the outcome of any of these matters, and the costs incurred may be substantial regardless of outcome. Our business, financial condition and results of operations may be adversely affected, or we may be required to materially change our business practices, as a result of such proceedings. We refer you to Item 3, “Legal Proceedings” for additional information.

The foregoing is not a comprehensive listing of all possible risks and there can be no assurance that we have correctly identified and appropriately assessed all factors affecting the business. As such, we refer you to “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” which includes our “Cautionary Statement Concerning Forward-Looking Statements” at the end of such section, of our Annual Report to Stockholders for the year ended December 31, 2016, which section is incorporated by reference herein.

Item 1B. Unresolved Staff Comments

There are no unresolved SEC Staff Comments.

Item 2. Properties

We lease most of our stores under long-term leases that vary as to rental amounts, expiration dates, renewal options and other rental provisions. For additional information on the amount of our rental obligations for our leases, we refer you to Note 6 “Leases” in our Annual Report to Stockholders for the year ended December 31, 2016, which section is incorporated by reference herein.

As of December 31, 2016, we owned approximately 5% of our 8,035 retail stores. Net selling space for our retail stores was approximately 79.2 million square feet as of December 31, 2016. Approximately 20% of our store base was opened or significantly remodeled within the last five years.

We lease 1,674 retail pharmacies and 79 clinics in Target stores located in 47 states and the District of Columbia.

We own nine distribution centers located in Alabama, California, Hawaii, New York, Rhode Island, South Carolina, Tennessee and Texas and lease 11 additional distribution facilities located in Arizona, Florida, Indiana, Michigan, New Jersey, Pennsylvania, Texas, Virginia and Brazil. The 20 distribution centers total approximately 9.6 million square feet as of December 31, 2016.

As of December 31, 2016, we owned five and leased 147 LTC pharmacies in 43 states and owned one LTC repackaging facility in Kentucky.

As of December 31, 2016, we owned one mail service dispensing pharmacy located in Texas and leased three additional mail order dispensing pharmacies located in Hawaii, Illinois and Pennsylvania; we leased call centers located in Missouri, Pennsylvania, Tennessee and Texas; we leased 38 onsite pharmacy stores and 23 specialty pharmacy stores, and leased 13 specialty mail order pharmacies; we leased 84 branches for infusion and enteral services, including approximately 73 ambulatory infusion suites and three centers of excellence.

We own our corporate offices located in Woonsocket, Rhode Island, which totals approximately one million square feet. In addition, we lease corporate offices in Scottsdale, Arizona, Northbrook, Illinois, Cincinnati, Ohio, Monroeville, Pennsylvania, Irving, Texas, and Sao Paulo, Brazil.

In connection with certain business dispositions completed between 1991 and 1997, we continue to guarantee lease obligations for approximately 87 former stores. We are indemnified for these guarantee obligations by the respective purchasers. These guarantees generally remain in effect for the initial lease term and any extension thereof pursuant to a renewal option provided for in the lease prior to the time of the disposition. For additional information, we refer you to Note 11 “Commitments and Contingencies” in our Annual Report to Stockholders for the year ended December 31, 2016, which section is incorporated by reference herein.

Management believes that the Company's owned and leased facilities are suitable and adequate to meet the Company’s anticipated needs. At the end of the existing lease terms, management believes the leases can be renewed or replaced by alternative space.

The following is a breakdown by state, District of Columbia, Puerto Rico and Brazil of our retail stores, pharmacies and clinics in Target stores, LTC hub and spoke pharmacies, onsite pharmacy stores, specialty pharmacy stores, specialty mail order pharmacies, mail order dispensing pharmacies and branches and centers of excellence for infusion and enteral services as of December 31, 2016:

Item 3. Legal Proceedings

I. Legal Proceedings

We refer you to the Note 11 “Commitments and Contingencies” contained in the “Notes to the Consolidated Financial Statements” of our Annual Report to Stockholders for the year ended December 31, 2016, which section is incorporated by reference herein.

II. Environmental Matters

Item 103 of SEC Regulation S-K requires disclosure of certain environmental legal proceedings if management reasonably believes that the proceedings involve potential monetary sanctions of $100,000 or more. The Company is in the process of negotiating with United States Environmental Protection Agency, Region 2 and the United States Department of Justice to resolve claims of alleged historical noncompliance with hazardous waste regulations in connection with three retail pharmacy locations in Puerto Rico. These proceedings are not material to the Company's business or financial position.

Item 4. Mine Safety Disclosures

Not applicable.

Executive Officers of the Registrant

Executive Officers of the Registrant

The following sets forth the name, age and biographical information for each of our executive officers as of February 9, 2017. In each case the officer's term of office extends to the date of the board of directors meeting following the next annual meeting of stockholders of the Company. Previous positions and responsibilities held by each of the executive officers over the past five years are indicated below:

Lisa G. Bisaccia, age 60, Executive Vice President of CVS Health Corporation since March 2015 and Chief Human Resources Officer of CVS Health Corporation since January 2010; Senior Vice President of CVS Health Corporation from January 2010 through February 2015; Vice President, Human Resources of CVS Pharmacy, Inc. from September 2004 through December 2009. Ms. Bisaccia is also a member of the Board of Directors of Aramark, a leading global provider of food, facilities and uniform services.

Eva C. Boratto, age 50, Senior Vice President - Controller and Chief Accounting Officer of CVS Health Corporation since July 2013; Senior Vice President of PBM Finance from July 2010 through June 2013; Vice President, U.S. Market Finance Leader of Merck & Co., Inc. from June 2009 through June 2010.

Troyen A. Brennan, M.D., age 62, Executive Vice President and Chief Medical Officer of CVS Health Corporation since November 2008; Executive Vice President and Chief Medical Officer of Aetna, Inc. from February 2006 through November 2008.

David M. Denton, age 51, Executive Vice President and Chief Financial Officer of CVS Health Corporation since January 2010; Senior Vice President and Controller/Chief Accounting Officer of CVS Health Corporation from March 2008 until December 2009; Senior Vice President, Financial Administration of CVS Health Corporation and CVS Pharmacy, Inc. from April 2007 to March 2008. Mr. Denton is also a member of the Board of Directors of Coach, Inc., a leading retailer of premium bags and luxury accessories.

Helena B. Foulkes, age 52, Executive Vice President of CVS Health Corporation and President of CVS Pharmacy since January 2014; Executive Vice President and Chief Health Care Strategy and Marketing Officer of CVS Health Corporation from March 2011 through December 2013; Executive Vice President and Chief Marketing Officer of CVS Health Corporation from January 2009 through February 2011. Ms. Foulkes is also a member of the Board of Directors of The Home Depot, Inc., a leading home improvement retailer.

Stephen J. Gold, age 57, Executive Vice President of CVS Health Corporation since March 2015 and Chief Information Officer of CVS Health Corporation since July 2012; Senior Vice President of CVS Health Corporation from July 2012 through February 2015; Senior Vice President and Chief Information Officer of Avaya, Inc. from May 2010 through June 2012; Executive Vice President, Chief Information Officer and Chief Technology Officer of GSI Commerce, Inc. from February 2005 through April 2010.

J. David Joyner, age 52, Executive Vice President of CVS Health Corporation since March 2011 and Executive Vice President of Sales and Account Services, CVS Caremark since March 2004.

Robert O. Kraft, age 46, Executive Vice President of CVS Health Corporation and President - Omnicare since August 2015; Senior Vice President and Chief Financial Officer of Omnicare from September 2012 through August 2015; Senior Vice President - Finance of Omnicare from November 2010 through September 2012; PricewaterhouseCoopers LLP from September 1992 to November 2010, where he was a partner. Mr. Kraft is also a member of the Board of Directors of Medpace Holdings, Inc. a global clinical contract research organization providing Phase I-IV clinical development services to the biotechnology, pharmaceutical and medical device industries.

Larry J. Merlo, age 61, President and Chief Executive Officer of CVS Health Corporation since March 2011; President and Chief Operating Officer of CVS Health Corporation from May 2010 through March 2011; President of CVS Pharmacy from January 2007 through August 2011; Executive Vice President of CVS Health Corporation from January 2007 through May 2010; also a director of CVS Health Corporation since May 2010.

Thomas M. Moriarty, age 53, Executive Vice President and General Counsel of CVS Health Corporation since October 2012 and Chief Strategy Officer since March 2014; General Counsel of Celgene Corporation, a global biopharmaceutical company, from May 2012 through September 2012; General Counsel and Corporate Secretary of Medco

Health Solutions, Inc. (“Medco”), a pharmacy benefit management company, from March 2008 through April 2012; also President of Global Pharmaceutical Strategies of Medco from March 2011 through April 2012; Senior Vice President, Pharmaceutical Strategies and Solutions of Medco from September 2007 through March 2011.

Jonathan C. Roberts, age 61, Executive Vice President of CVS Health Corporation and President of CVS Caremark since September 2012; Executive Vice President of CVS Health Corporation and Chief Operating Officer of CVS Caremark from October 2010 through August 2011; Executive Vice President, Rx Purchasing, Pricing and Network Relations of CVS Health Corporation from January 2009 through October 2010.

Andrew J. Sussman, M.D., age 51, Executive Vice President of CVS Health Corporation since March 2015, Associate Chief Medical Officer of CVS Health Corporation since March 2011 and President of CVS MinuteClinic since September 2009; Senior Vice President of CVS Health Corporation from March 2011 through March 2015; Executive Vice President and Chief Operating Officer of the University of Massachusetts Memorial Medical Center, the major teaching affiliate of UMass Medical School, from May 2004 through August 2009.

PART II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities.

Our common stock is listed on the New York Stock Exchange under the symbol "CVS." The table below sets forth the high and low closing prices of our common stock on the New York Stock Exchange Composite Tape and the quarterly cash dividends declared per share of common stock during the periods indicated.

		First Quarter	Second Quarter	Third Quarter	Fourth Quarter	Year
2016	High	$ 104.05	$ 106.10	$ 98.06	$ 88.80	$ 106.10
	Low	$ 89.65	$ 93.21	$ 88.99	$ 73.53	$ 73.53
	Cash dividends per common share	$ 0.425	$ 0.425	$ 0.425	$ 0.425	$ 1.70
2015	High	$ 104.56	$ 106.47	$ 113.45	$ 105.29	$ 113.45
	Low	$ 94.16	$ 98.74	$ 95.12	$ 91.56	$ 91.56
	Cash dividends per common share	$ 0.350	$ 0.350	$ 0.350	$ 0.350	$ 1.40

CVS Health has paid cash dividends every quarter since becoming a public company. Future dividend payments will depend on the Company's earnings, capital requirements, financial condition and other factors considered relevant by the Company's Board of Directors. As of February 3, 2017, there were 22,164 registered shareholders according to the records maintained by our transfer agent.

The following share repurchase programs were authorized by the Company's Board of Directors:

In billions Authorization Date	Authorized	Remaining
November 2, 2016 ("2016 Repurchase Program")	$ 15.0	$ 15.0
December 15, 2014 ("2014 Repurchase Program")	$ 10.0	$ 3.2
December 17, 2013 ("2013 Repurchase Program")	$ 6.0	$ —

The share Repurchase Programs, each of which was effective immediately, permit the Company to effect repurchases from time to time through a combination of open market repurchases, privately negotiated transactions, accelerated share repurchase ("ASR") transactions, and/or other derivative transactions. The 2016 and 2014 Repurchase Programs may be modified or terminated by the Board of Directors at any time.

Pursuant to the authorization under the 2014 Repurchase Program, effective August 29, 2016, the Company entered into two fixed dollar ASRs with Barclays Bank PLC ("Barclays") for a total of $3.6 billion. Upon payment of the $3.6 billion purchase price on January 6, 2017, the Company received a number of shares of its common stock equal to 80% of the $3.6 billion notional amount of the ASRs or approximately 36.1 million shares at a price of $80.34 per share, which were placed into treasury stock in January 2017. At the conclusion of the ASRs, the Company may receive additional shares equal to the remaining 20% of the $3.6 billion notional amount. The ultimate number of shares the Company may receive will fluctuate based on changes in the daily volume-weighted average price of the Company's stock over a period beginning on January 6, 2017 and ending on or before July 6, 2017. If the mean daily volume-weighted average price of the Company's common stock, less a discount (the "forward price"), during the ASRs falls below $80.34 per share, the Company will receive a higher number of shares from Barclays. If the forward price rises above $80.34 per share, the Company will either receive fewer shares from Barclays or, potentially have an obligation to Barclays which, at the Company's option, could be settled in additional cash or by issuing shares. Under the terms of the ASRs, the maximum number of shares that could be received or delivered is 90.1 million.

Pursuant to the authorization under the 2014 Repurchase Program, effective December 11, 2015, the Company entered into a $725 million fixed dollar ASR with Barclays. Upon payment of the $725 million purchase price on December 14, 2015, the Company received a number of shares of its common stock equal to 80% of the $725 million notional amount of

the ASR or approximately 6.2 million shares. The initial 6.2 million shares of common stock delivered to the Company by Barclays were placed into treasury stock in December 2015. The ASR was accounted for as an initial treasury stock transaction of $580 million and a forward contract of $145 million. The forward contract was classified as an equity instrument and was recorded

within capital surplus on the consolidated balance sheet. On January 28, 2016, the Company received 1.4 million shares of common stock, representing the remaining 20% of the $725 million notional amount of the ASR, thereby concluding the ASR. The remaining 1.4 million shares of common stock delivered to the Company by Barclays were placed into treasury stock in January 2016 and the forward contract was reclassified from capital surplus to treasury stock.

Pursuant to the authorization under the 2013 Repurchase Program, effective January 2, 2015, the Company entered into a $2.0 billion fixed dollar ASR agreement with J.P. Morgan Chase Bank ("JP Morgan"). Upon payment of the $2.0 billion purchase price on January 5, 2015, the Company received a number of shares of its common stock equal to 80% of the $2.0 billion notional amount of the ASR agreement or approximately 16.8 million shares, which were placed into treasury stock in January 2015. On May 1, 2015, the Company received approximately 3.1 million shares of common stock, representing the remaining 20% of the $2.0 billion notional amount of the ASR, thereby concluding the ASR. The remaining 3.1 million shares of common stock delivered to the Company by JP Morgan were placed into treasury stock in May 2015. The ASR was accounted for as an initial treasury stock transaction of $1.6 billion and a forward contract of $0.4 billion. The forward contract was classified as an equity instrument and was initially recorded within capital surplus on the consolidated balance sheet and was reclassified to treasury stock upon the settlement of the ASR in May 2015.

In the ASR transactions described above, the initial repurchase of the shares and delivery of the remainder of the shares to conclude the ASR, resulted in an immediate reduction of the outstanding shares used to calculate the weighted average common shares outstanding for basic and diluted earnings per share.

During the year ended December 31, 2016, the Company repurchased an aggregate of 47.5 million shares of common stock for approximately $4.5 billion under the 2014 Repurchase Program. As of December 31, 2016, there remained an aggregate of approximately $18.2 billion available for future repurchases under the 2016 and 2014 Repurchase Programs, $3.6 billion of which was used for the ASR effective January 6, 2017 described previously. As of December 31, 2015, the 2013 Repurchase Program was complete.

Fiscal Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs
October 1, 2016 through October 31, 2016	—	$ —	—	$ 3,691,002,299
November 1, 2016 through November 30, 2016	5,425,000	$ 75.11	5,425,000	$ 18,283,540,767
December 1, 2016 through December 31, 2016	700,000	$ 75.91	700,000	$ 18,230,407,177
	6,125,000		6,125,000	

Item 6. Selected Financial Data

The selected consolidated financial data of CVS Health Corporation as of and for the periods indicated in the five-year period ended December 31, 2016 have been derived from the consolidated financial statements of CVS Health Corporation. The selected consolidated financial data should be read in conjunction with the consolidated financial statements and the audit reports of Ernst & Young LLP, which are incorporated elsewhere herein.

(1) As of January 1, 2016, the Company early adopted Accounting Standard Update No. 2015-17, *Income Taxes* (Topic 740) issued by the Financial Accounting Standards Board in November 2015. The effect of the retrospective adoption on the Company's historical consolidated balance sheets is a reduction in current assets and deferred income taxes of $1.2 billion, $985 million, $902 million and $693 million as of December 31, 2015, 2014, 2013 and 2012, respectively.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

We refer you to "Management's Discussion and Analysis of Financial Condition and Results of Operations," which includes our "Cautionary Statement Concerning Forward-Looking Statements" at the end of such section of our Annual Report to Stockholders for the year ended December 31, 2016, which section is incorporated by reference herein.

Item 7A. Quantitative and Qualitative Disclosures about Market Risk

As of December 31, 2016, the Company did not have any interest rate, foreign currency exchange rate or commodity derivative instruments in place and believes that as of December 31, 2016 its exposure to interest rate risk (inherent in the Company's debt portfolio), foreign currency exchange rate risk and commodity price risk is not material.

Item 8. Financial Statements and Supplementary Data

We refer you to the "Consolidated Statements of Income," "Consolidated Statements of Comprehensive Income," "Consolidated Balance Sheets," "Consolidated Statements of Shareholders' Equity," "Consolidated Statements of Cash Flows," "Notes to Consolidated Financial Statements," and "Report of Independent Registered Public Accounting Firm" of our Annual Report to Stockholders for the year ended December 31, 2016, which sections are incorporated by reference herein.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None.

Item 9A. Controls and Procedures

Evaluation of disclosure controls and procedures: The Company's Chief Executive Officer and Chief Financial Officer, after evaluating the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rules 13a-15 (f) and 15d-15(f) under the Securities Exchange Act of 1934) as of December 31, 2016, have concluded that as of such date the Company's disclosure controls and procedures were adequate and effective at a reasonable assurance level and designed to ensure that material information relating to the Company and its subsidiaries would be made known to such officers on a timely basis.

Internal control over financial reporting: We refer you to "Management's Report on Internal Control Over Financial Reporting" and "Report of Independent Registered Public Accounting Firm" of our Annual Report to Stockholders for the fiscal year ended December 31, 2016, which are incorporated by reference herein, for management's report on the Company's internal control over financial reporting and the Independent Registered Public Accounting Firm's report with respect to the effectiveness of internal control over financial reporting.

Changes in internal control over financial reporting: On August 18, 2015, the Company completed its acquisition of Omnicare and on December 16, 2015, the Company completed its acquisition of the pharmacies and clinics of Target. During the three months ended December 31, 2016, the Company completed the process of integrating the applicable internal controls for each business into its internal control over financial reporting for the rest of the Company. Other than the foregoing, there have been no changes in our internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Securities Exchange Act Rule 13a-15 or Rule 15d-15 that occurred in the three months ended December 31, 2016 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Item 9B. Other Information

No events have occurred during the fourth quarter that would require disclosure under this item.

PART III

Item 10. Directors, Executive Officers and Corporate Governance

We refer you to our Proxy Statement for the 2017 Annual Meeting of Stockholders under the captions "Committees of the Board," "Code of Conduct," "Director Nominations," "Audit Committee Report," "Biographies of our Board Nominees," and "Section 16(a) Beneficial Ownership Reporting Compliance," which sections are incorporated by reference herein. Biographical information on our executive officers is contained in Part I of this Annual Report on Form 10-K.

Item 11. Executive Compensation

We refer you to our Proxy Statement for the 2017 Annual Meeting of Stockholders under the captions "Executive Compensation and Related Matters," including "Compensation Discussion & Analysis" and "Management Planning and Development Committee Report," which sections are incorporated by reference herein.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

We refer you to our Proxy Statement for the 2017 Annual Meeting of Stockholders under the captions "Share Ownership of Directors and Certain Executive Officers," and "Share Ownership of Principal Stockholders" which sections are incorporated by reference herein, for information concerning security ownership of certain beneficial owners and management and related stockholder matters.

The following table summarizes information about the Company's common stock that may be issued upon the exercise of options, warrants and rights under all of our equity compensation plans as of December 31, 2016.

	Number of securities to be issued upon exercise of outstanding options, warrants and rights[1]	Weighted average exercise price of outstanding options, warrants and rights	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in first column) [1]
Equity compensation plans approved by stockholders	23,275	$ 68.60	17,645
Equity compensation plans not approved by stockholders	—	—	—
Total	23,275	$ 68.60	17,645

(1) Shares in thousands.

Item 13. Certain Relationships and Related Transactions and Director Independence

We refer you to our Proxy Statement for the 2017 Annual Meeting of Stockholders under the caption "Independence Determinations for Directors" and "Certain Transactions with Directors and Officers," which sections are incorporated by reference herein.

Item 14. Principal Accountant Fees and Services

We refer you to our Proxy Statement for the 2017 Annual Meeting of Stockholders under the caption "Item 2: Ratification of Appointment of Independent Registered Public Accounting Firm," which section is incorporated by reference herein.

PART IV

Item 15. Exhibits and Financial Statement Schedules

A. Documents filed as part of this report:

1. Financial Statements:

The following financial statements are incorporated by reference from our Annual Report to Stockholders for the fiscal year ended December 31, 2016, as provided in Item 8 hereof:

2. Financial Statement Schedules

All financial statement schedules are omitted because they are not applicable, not required under the instructions, or the information is included in the consolidated financial statements or related notes.

B. Exhibits

Exhibits marked with an asterisk (*) are hereby incorporated by reference to exhibits or appendices previously filed by the Registrant as indicated in brackets following the description of the exhibit.

Exhibit	Description

None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. ☒ Yes ☐ No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. ☐ Yes ☒ No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. ☒ Yes ☐ No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). ☒ Yes ☐ No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§ 229.405 of this chapter) is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K. ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	☒	Accelerated filer	☐
Non-accelerated filer	☐ (Do not check if a smaller reporting company)	Smaller reporting company	☐
Emerging growth company	☐		

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 7(a)(2)(B) of the Securities Act. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). ☐ Yes ☒ No

The aggregate market value of the voting and non-voting common equity of the registrant held by non-affiliates based on the closing price for such common equity as reported on The NASDAQ Global Select Market on the last business day of the registrant's most recently completed second fiscal quarter (June 30, 2018) was $904.9 million.

As of February 22, 2019, there were outstanding 12,833,846 shares (excluding treasury shares of 4,973,552) of the registrant's Common Stock, $0.001 par value per share.

DOCUMENTS INCORPORATED BY REFERENCE

All or a portion of Items 10 through 14 in Part III of this Annual Report on Form 10-K are incorporated by reference to our definitive proxy statement on Schedule 14A for our 2019 stockholder meeting; provided that if such proxy statement is not filed on or before April 30, 2019, such information will be included in an amendment to this Annual Report on Form 10-K filed on or before such date.

TABLE OF CONTENTS

Part I

In this Annual Report on Form 10-K, the words the "Company", the "registrant", "we", "our", "us", "Providence" and similar terms refer to The Providence Service Corporation and, except as otherwise specified herein, to our subsidiaries. When such terms are used in reference to the Company's common stock, $0.001 par value per share (the "Common Stock"), and the Series A Convertible Preferred Stock, $0.001 par value per share (the "Preferred Stock"), they refer specifically to The Providence Service Corporation.

DISCLOSURE REGARDING FORWARD-LOOKING STATEMENTS

This Annual Report on Form 10-K contains certain statements that may be deemed "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), including statements related to the Company's strategies or expectations about revenues, liabilities, results of operations, cash flows, ability to fund operations, profitability, ability to meet financial covenants, contracts or market opportunities. The Company may also make forward-looking statements in other reports filed with the Securities and Exchange Commission (the "SEC"), in materials delivered to stockholders and in press releases. In addition, the Company's representatives may from time to time make oral forward-looking statements. In certain cases, you may identify forward looking-statements by words such as "may", "will", "should", "could", "expect", "plan", "project", "intend", "anticipate", "believe", "seek", "estimate", "predict", "potential", "target", "forecast", "likely", the negative of such terms or comparable terminology. In addition, statements that are not historical statements of fact should also be considered forward-looking statements. These forward-looking statements are based on the Company's current expectations, assumptions, estimates and projections about its business and industry, and involve risks, uncertainties and other factors that may cause actual events to be materially different from those expressed or implied by such forward-looking statements. These risks and uncertainties include, but are not limited to, the risks described under Item 1A in Part I of this Annual Report on Form 10-K.

You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date the statement was made. The Company is under no obligation to (and expressly disclaims any such obligation to) update any of the information in any forward-looking statement if such forward-looking statement later turns out to be inaccurate, whether as a result of new information, future events or otherwise.

Item 1. ***Business.***

Overview

The Providence Service Corporation ("we", the "Company" or "Providence") owns subsidiaries and investments primarily engaged in the provision of healthcare services in the United States. The Company's NET Services segment, which primarily operates under the brands LogistiCare and Circulation, is the largest manager of non-emergency medical transportation ("NET") programs for state governments and managed care organizations ("MCOs") in the United States. On September 21, 2018, we completed the acquisition of Circulation, Inc. ("Circulation"), which offers a full suite of logistics solutions to manage NET programs across all areas of healthcare, powered by its HIPAA-compliant digital platform. Circulation's technology expands LogistiCare's capabilities to manage transportation benefits, integrating all transportation capabilities and emphasizing member convenience and satisfaction.

The Company's Matrix Investment segment consists of a minority investment in CCHN Group Holdings, Inc. and its subsidiaries ("Matrix"), a nationwide provider of home and mobile-based healthcare services for health plans in the United States, including comprehensive health assessments ("CHAs"), quality gap closure visits, "level of service" needs assessments, and post-acute and chronic care management, providing such services through a network of community-based clinicians, and a fleet of mobile health clinics with advanced diagnostics capabilities. On October 19, 2016, affiliates of Frazier Healthcare Partners purchased a controlling equity interest in Matrix, with the Company retaining a non-controlling equity interest (the "Matrix Transaction"). Matrix's financial results prior to October 19, 2016 are presented as a discontinued operation.

The Company's Corporate and Other segment includes the Company's executive, accounting, finance, internal audit, tax, legal, public reporting, and corporate development functions, as well as the results of the Company's captive insurance company. On April 11, 2018, the Company announced an organizational consolidation plan to integrate substantially all activities and functions performed at the corporate holding company level into LogistiCare (the "Organizational Consolidation"). LogistiCare will retain its name and continue to be headquartered in Atlanta, GA, and the Company will

continue to be named The Providence Service Corporation and be listed on The NASDAQ Global Select Market ("NASDAQ") under the ticker symbol "PRSC". The Organizational Consolidation process involves transferring all job responsibilities previously performed by employees of the

holding company to LogistiCare and closing the current corporate offices in Stamford, Connecticut and Tucson, Arizona. The Organizational Consolidation is expected to be complete by the end of the second quarter of 2019.

On December 21, 2018, we completed the sale of substantially all of the operating subsidiaries of our Workforce Development Services ("WD Services") segment to Advanced Personnel Management Global Pty Ltd of Australia ("APM") and APM UK Holdings Limited, an affiliate of APM, except for the segment's employment services operations in Saudi Arabia (the "WD Services Sale"). Our contractual counterparties in Saudi Arabia, including an entity owned by the Saudi Arabian government, assumed these operations beginning January 1, 2019.

On June 11, 2018, the Company entered into a Share Purchase Agreement to sell Ingeus France, which was part of our WD Services segment, for a de minimis amount. The sale was effective on July 17, 2018, after court approval. The financial results of WD Services prior to December 21, 2018 are presented as discontinued operations.

The Company is a Delaware corporation formed in 1996 and headquartered in Stamford, Connecticut.

Business Strategies

The Company's mission is to provide effective and quality NET services and logistics and to create shareholder value by pursuing and implementing six key strategies.

Centers of Excellence Operations Alignment

In January 2019, we reorganized the operational structure of our NET Services segment in order to centralize and reduce the layers in core functions that form the most significant elements of our cost base and drive performance for our clients and the members and patients they serve. Our operational structure now includes six Centers of Excellence ("COEs"): Transportation Network, Call Center Operations, Client Services, Technology, Growth and Process Improvement. We implemented this operational strategy to enhance the visibility, flexibility and control we have over our operations. The Transportation Network COE is focused on increases to capacity and improvements to quality and improvements designed to reduce cost and enhance the member experience. Within our Call Center Operations, activities such as contact center workflow standardization, cross skilling, and intensive operations management are aimed at improving employee productivity. We believe the new model for Client Services will bring a closer focus on local operations as well as holistic approaches to our customers and client retention. Our Technology COE will be coordinated and focused on the support of operations and the systematic roll out of the Circulation technology platform. Growth will continue to focus our sales, marketing and business development teams on the generation and delivery of new business. Finally, our Process Improvement COE will continue to support all of our other COE's in the pursuit of effective and efficient operations. We believe this new structure makes our scale more nimble and provides us with a competitive advantage.

Technology Transformation

On September 21, 2018, we completed the acquisition of Circulation to revolutionize our technology development capability, add to our executive team, extend our business model, and open new market opportunities. We believe that this technology allows us to reduce transportation as a barrier to care and that through the deployment of our new technology we are able to extend the size of the market that we can serve. In order to achieve our target synergies and enhance our operations, we plan to roll out Circulation's technology as our core workflow platform over the next 36 months. We have 21 operations centers that we expect to convert to the Circulation platform. Our plan is to convert several call centers in 2019, beginning in the second quarter, with a target to convert all sites by the end of 2021. Technology roll outs include a substantial amount of change management and will require careful risk mitigation policies to ensure smooth transitions. Our change management process is a core strength deeply embedded in our organization and will support a major change in the way we operate today, driving significant efficiencies and enhancing the member experience benefits to our clients.

Client and Member Satisfaction

Transportation related to care is one of the most impactful experiences contributing to our clients' members' and patients' satisfaction during their care encounter. At the core of our operational and technology strategies is a focus on driving client and member satisfaction. Our COEs' operational structure allows us to develop locally tailored network solutions with a higher level of visibility. Greater access to real time information, enabled through our technology, provides us the ability to

shorten cycle times to identify and resolve client and member issues. We expect our clients to begin to realize benefits in the near term from our new organizational model and roll out of the Circulation technology platform.

Organic Growth

Across the healthcare market, we see an increasing understanding of the benefit of removing transportation as a barrier to care and a way to improve other determinants of health, such as access to food, shelter, socialization, and pharmacy. We believe that our scale, deep experience, operational strategy, and technology migration uniquely position us to address customer needs related to transportation of vulnerable populations. We approach sales, marketing and business development in a manner that is focused on driving market share in our core Medicaid market including states and MCOs, Medicare Advantage ("MA") plans, health systems and providers. Simultaneously, we target business development efforts with partners to enter new transportation markets, including the movement of home health providers, pharmacy delivery and beneficiaries of workers compensation. We expect there will be network effects as we serve more and more healthcare constituencies within a geography.

Inorganic Growth

We closely follow our core NET market and expansion markets mentioned above for tuck-in acquisition opportunities. We believe our experience, relationships in the industry, scale and executive team gives us the strongest position to be a consolidation platform in healthcare transportation. Our acquisition strategy may include an evaluation of new entrants, which may not be able to otherwise compete without the benefits of scale and experience, and closely-held businesses that may seek a new capital structure or sale to achieve liquidity for founders. With our balance sheet, strong team and track record, we believe we are a natural consolidator.

Smart Capital Allocation

The WD Services sale was a significant milestone in our strategy to focus our capital allocation priorities on the opportunities available to our NET Services segment. The NET Services segment has historically generated positive cash flows and our strong balance sheet provides us with optionality with respect to capital allocation and how we can best drive shareholder value. Our immediate focus in 2019 is to invest in our operations, including the roll-out of the Circulation technology to enhance client and member experience and drive operational efficiency. We will also continue to assess the opportunities for capital deployment in order to create value for shareholders, which may include dividends, share repurchases and/or acquisitions.

NET Services

Services offered. NET Services provides non-emergency transportation solutions to clients, including health systems, in 40 states and the District of Columbia. As of December 31, 2018, approximately 24.5 million individuals were eligible to receive our transportation services, and during 2018, NET Services managed approximately 52.6 million trips. NET Services accounts for all of our consolidated revenue from continuing operations going forward.

NET Services primarily contracts with state Medicaid programs and MCOs, including MA plans, (collectively "NET customers") for the coordination of their members' ("NET end-users") non-emergency transportation needs. NET end-users are typically Medicaid or Medicare eligible members, whose limited mobility or financial resources hinders their ability to access necessary healthcare and social services. We believe our transportation services enable access to care that not only improves the quality of life and health of the populations we serve, but also enables many of the individuals we serve to pursue independent living in their homes rather than in more expensive institutional care settings. In addition, studies have shown that missed medical appointments lessens patient compliance with clinical guidelines and leads to complications and expensive medical services. Through provider access to medical transportation, NET Services can save state Medicaid programs and MCOs significant amounts of money when used as part of a care management strategy for individuals with chronic illness. We believe we are uniquely positioned to partner with NET customers to provide these savings while improving the lives of the populations we serve.

NET Services program delivery is dependent upon a highly-integrated technology platform and business process as well as the management of a multifaceted network of subcontracted transportation providers. Our technology platform is purpose-built for the unique needs of our industry and is highly scalable, capable of supporting substantial growth in our clients' current and future membership base. In addition, our technology platform efficiently provides a broad interconnectivity among NET end-users, NET customers, and our network of transportation providers. We believe this technological capability and our industry experience uniquely position us as a future focal point in the evolving healthcare industry to introduce valuable

population insights. In 2016 and 2017, we introduced service offerings and new technological features for NET end-users to improve service levels, lower costs and build the foundation for additional data analytics capabilities. In 2018, we acquired Circulation to provide additional technological improvements through their digital transportation platform. Circulation's technology allows for on-demand ride scheduling, eligibility assessment, benefits management, ride assignment and dispatch, real time ride tracking, network management and analytics.

To fulfill the transportation needs of NET end-users, we apply our proprietary technology platform to an extensive network of approximately 4,500 transportation resources. This includes our in-network roster of fully contracted transportation providers who operate sedans, wheelchair equipped vehicles, multi-passenger vans and ambulances. Our system also utilizes partnerships with on-demand transportation network companies, mass transit entities, mileage reimbursement programs, taxis and county-based emergency medical service providers. To promote safety, quality, and compliance, our in-network transportation providers undergo an in-depth credentialing and education process.

Our transportation management services also include fraud, waste, and abuse prevention and utilization review programs designed to monitor that our transportation services are provided in compliance with Medicaid and Medicare program rules and remediate issues that are identified. Compliance controls include ongoing monitoring, auditing and remediation efforts, such as validating NET end-user eligibility for the requested date of service and employing a series of gatekeeping questions to verify that the treatment type is covered and the appropriate mode of transportation is assigned. We also conduct post-trip confirmations of attendance directly with the healthcare providers for certain repetitive trips and we employ field monitors to inspect transportation provider vehicles and observe some transports in real time. Our claims validation process generally limits payment to trips that are properly documented, have been authorized in advance, and are billed at the pre-trip estimated amount. Our claims process is increasingly digital, which provides more protection to member protected health information and reduces the impact on the environment. Transportation providers are able to submit their bills and supporting documentation through a secured web portal directly to LogistiCare.

Revenue and customers. In 2018, contracts with state Medicaid agencies and MCOs represented 52.9% and 47.1%, respectively, of NET Services' revenue. NET Services derived 12.6%, 13.8% and 13.1% of its revenue from a single state Medicaid agency for the years ended December 31, 2018, 2017 and 2016, respectively. The next four largest NET Services customers in the aggregate comprised 21.4%, 22.3% and 22.6% of NET Services' revenue for the years ended December 31, 2018, 2017 and 2016, respectively.

Contracts with state Medicaid agencies are typically for three to five years with multiple renewal options. Contracts with MCOs continue until terminated by either party upon reasonable notice (as determined in accordance with the contract), and allow for regular price adjustments based upon utilization and transportation cost. As of December 31, 2018, 13.2% of NET Services revenue was generated under state Medicaid contracts that are subject to renewal within the next 12 months. In 2018, NET Services renewed contracts representing 32.4% of its revenue in such year.

79.2% of NET Services' revenue in 2018 was generated under capitated contracts where we assume the responsibility of meeting the covered healthcare related transportation requirements of a specific population based on per-member per-month fees for the number of members in the customer's program. Revenue is recognized based on the population served during the period. Under certain capitated contracts, known as reconciliation contracts, partial payment is received as a prepayment during the month service is provided. These partial payments may be due back to the customer, or additional payments may be due to the Company, after each reconciliation period, based on a reconciliation of actual utilization and cost compared to the prepayment made. 20.8% of NET Services' revenue was generated under other types of fee arrangements, including administrative services only, fee for service and cost plus (collectively "FFS") and flat fee contracts, under which fees are generated based upon billing rates for specific services or defined membership populations.

Seasonality. While revenue is generally fixed, primarily as a result of the capitated nature of the majority of our contracts, service expense varies based on the utilization of our services. The quarterly operating income and cash flows of NET Services normally fluctuate as a result of seasonal variations in the business, principally due to lower transportation demand during the winter season and higher demand during the summer season.

Competition. We compete with a variety of national organizations that provide similar healthcare and social services related transportation, such as Medical Transportation Management, Southeastrans, Veyo, and Access2Care, as well as local and regional providers. Most local competitors seek to win contracts for specific counties or small geographic territories whereas we and other larger competitors seek to win contracts for an entire state or large regional area. We compete based upon a number of factors, including our nationwide network, technical expertise, experience, service capability, service quality, and price.

Matrix Investment

Our Matrix Investment is comprised of our interest in Matrix. Since the completion of the Matrix Transaction, the Company has had a non-controlling equity interest in Matrix. The Company and an affiliate of Frazier Healthcare Partners (the

"Frazier Subscriber"), which holds the controlling equity interest in Matrix, are party to the Second Amended and Restated Limited Liability Company Agreement (the "Operating Agreement") of Mercury Parent, LLC, the company through which the parties hold their equity interests in Matrix. The Operating Agreement sets forth certain terms and conditions regarding the ownership by the Company

and Frazier Subscriber of interests in Mercury Parent and their indirect ownership of common stock of Matrix, and provides for, among other things, certain liquidity and governance rights and other obligations and rights, in each case, on the terms and conditions contained therein.

At December 31, 2018, the Company owned a 43.6% non-controlling interest in Matrix. Prior to the closing of the Matrix Transaction, the financial results of Matrix were included in our Health Assessment Services ("HA Services") segment. The Company's proportionate share of Matrix's net assets and financial results for the period following the closing of the Matrix Transaction are presented using the equity method. The assets, liabilities and financial results of Matrix for the period prior to the closing of the Matrix Transaction are presented within discontinued operations. For additional information regarding the Matrix Transaction, see Note 23, *Discontinued Operations,* to our consolidated financial statements.

Services offered. Matrix offers in-home care optimization services for members, including CHAs, through a national network of community-based clinicians and a fleet of mobile health clinics with advanced diagnostics capabilities. As of December 31, 2018, Matrix utilized a national network of approximately 3,500 clinical providers, including 1,800 nurse practitioners ("NPs"), located across 48 states, to provide its services primarily to members of Medicare Advantage ("MA") health plans.

Matrix expanded its provider network and service offerings through two acquisitions in 2017 and 2018. In December 2017, Matrix grew its clinical provider network through its acquisition of LP Health Services, a provider of quality and wellness visits on behalf of Medicaid/Duals managed care plans across the U.S., for a purchase price of $3.6 million. In February 2018, Matrix completed its acquisition of HealthFair, a leading operator of mobile clinics which offer preventative health assessment and advanced diagnostic testing services, including laboratory, ultrasound, EKG and mammography testing, for a purchase price of $155 million. Although to date the results of HealthFair have been below our expectations, we still believe the combination of the two organizations provides health plan members with more convenient access to important care management and preventative health services.

Matrix primarily generates revenue from CHAs, which obtain a health plan member's information related to health status, social, environmental and medical risks and help the MA plans improve the accuracy of such information. Matrix also operates a care management offering which provides additional data analytics and chronic care management services.

Matrix's services are dependent upon its technology platform which integrates the clinical provider network, operations infrastructure, call centers and clients. Matrix's platform is designed for the unique needs of its industry, is highly scalable and can support substantial growth. We believe Matrix's network and platform position Matrix as a future focal point in the evolving healthcare industry in the introduction of both additional population insights and care management services. With data provided by its health plan clients, Matrix utilizes analytics to determine which members it can most effectively lower costs and improve outcomes through face-to-face engagements with clinicians. Each program is customized and is served by a comprehensive team of case managers, nurse practitioners, registered nurses, and trained call center colleagues.

Revenue, customers and clients. As of December 31, 2018, Matrix's customers included 65 health plans, including for-profit multi-state health plans and non-profit health plans that operate in only one state or several counties within one state. For the year ended December 31, 2018, Matrix's top five customers accounted for 66.3% of its revenue, as its largest customer accounted for 31.5% of its revenue and its second largest customer accounted for 21.2% of its revenue. Matrix enters into annual or multi-annual contracts with its customers under which it is paid on a per assessment basis. However, volumes are not guaranteed under contracts and customers may choose to utilize other third party providers or in-source capabilities. A significant customer has indicated it intends to in-source certain services, which may result in a decrease in volume for Matrix.

Seasonality. Matrix attempts to perform CHAs evenly throughout the year to efficiently utilize NP capacity, although the timing of performance is driven by client demand.

Competition. We believe that Matrix and Signify Health are the largest independent providers of CHAs to the health plan market. There are many smaller competitors, such as EMSI Healthcare Services, MedXM, which was acquired by Quest Diagnostics on February 1, 2018, and Inovalon. In addition, some health plans in-source CHA services. Matrix's chronic care management competitors include Landmark Healthcare, PopHealthCare and Optum.

Employees

As of December 31, 2018, we had approximately 4,000 employees. None of our employees are members of a union. We believe we have good relationships with our employees.

Regulatory Environment

Overview

Our NET Services and Matrix Investment segments (the "Healthcare Segments") are subject to numerous U.S. federal, state and local laws, regulations and agency guidance (collectively, "Laws"). These Laws significantly affect the way in which these segments operate various aspects of their businesses. Our Healthcare Segments must also comply with state and local licensing requirements, state and federal requirements for participation in Medicare and Medicaid, requirements for contracting with MA plans, and contractual requirements imposed upon them by the federal, state and local agencies and third-party commercial customers to which they provide services. Failure to follow the rules and requirements of these programs can significantly affect our Healthcare Segments' ability to be paid for the services they provide and be authorized to provide services on an ongoing basis.

The Medicare and Medicaid programs are governed by significant and complex Laws. Both Medicare and Medicaid are financed, at least in part, with federal funds. Therefore, any direct or indirect recipients of those funds are subject to federal fraud, waste and abuse Laws. In addition, there are federal privacy and security Laws that govern the healthcare industry. State Laws primarily pertain to the licensure of certain categories of healthcare professionals and providers and the state's interest in regulating the quality of healthcare in the state, regardless of the source of payment, but may also include state Laws pertaining to fraud, waste and abuse, privacy and security Laws, and the state's regulation of its Medicaid program. Federal and state regulatory laws that may affect our Healthcare Segments' businesses, include, but are not limited to the following:

- false and other improper claims or false statements Laws pertaining to reimbursement;
- the Health Insurance Portability and Accountability Act of 1996 ("HIPAA") and its privacy, security, breach notification and enforcement and code set regulations and guidance, along with evolving state Laws protecting patient privacy and requiring notifications of unauthorized access to, or use of, patient medical information;
- civil monetary penalties Law;
- anti-kickback Laws;
- the Stark Law and other self-referral, financial inducement, fee splitting, and patient brokering Laws;
- The Centers for Medicare and Medicaid Services ("CMS") regulations pertaining to Medicare as well as CMS releases applicable to the operation of MA plans, such as reimbursement rates, risk adjustment and data collection methodologies, adjustments to quality management measurements and other relevant factors; and
- state licensure laws.

A violation of certain of these Laws could result in civil and criminal damages and penalties, the refund of monies paid by government or private payors, our Healthcare Segments' exclusion from participation in federal healthcare payor programs, or the loss of our segments' license to conduct business within a particular state's boundaries.

Federal Law

Federal healthcare Laws apply in any case in which our Healthcare Segments are providing an item or service that is reimbursable or provide information to such segments' customers that results in reimbursement by a federal healthcare payor program to such segments or to them. The principal federal Laws that affect our Healthcare Segments' businesses include those that prohibit the filing of false or improper claims or other data with federal healthcare payor programs and those that prohibit unlawful inducements for the referral of business reimbursable under federal healthcare payor programs.

False and Other Improper Claims

Under the federal False Claims Act (31 U.S.C. §§ 3729-3733) and similar state Laws, the government may impose civil liability on our Healthcare Segments if they knowingly submit a false claim to the government or cause another to submit a false claim to the government, or knowingly make a false record or statement intended to get a false claim paid by the government. The False Claims Act defines a claim as a demand for money or property made directly to the government or to a contractor, grantee, or other recipient if the money is to be spent on the government's behalf or if the government will reimburse the contractor or grantee. Liability can be incurred for submitting (or causing another to submit) false claims with actual knowledge or for submitting false claims with reckless disregard or deliberate ignorance. Liability can also be incurred for knowingly making or using a false record or statement to receive payment from the federal government or for knowingly and improperly avoiding or decreasing an obligation to pay or transmit money or property to the government. Consequently, a

provider need not take an affirmative action to conceal or avoid an obligation to the government, but the mere retention of an overpayment from the government could lead to potential liability under the False Claims Act.

Many states also have similar false claims statutes. In addition, healthcare fraud is a priority of the U.S. Department of Justice ("DOJ"), the Department of Health and Human Services ("DHHS"), its program integrity contractors and its Office of Inspector General, the Federal Bureau of Investigation and state Attorneys General. These agencies have devoted a significant amount of resources to investigating healthcare fraud.

If our Healthcare Segments are ever found to have violated the False Claims Act, they could be required to make significant payments to the government (including damages and penalties in addition to the return of reimbursements previously collected) and could be excluded from participating in federal healthcare programs or providing services to entities which contract with those programs. Although our Healthcare Segments monitor their billing practices for compliance with applicable laws, such laws are very complex, and they might not be able to detect all errors or interpret such laws in a manner consistent with a court or an agency's interpretation. While the criminal statutes generally are reserved for instances evidencing fraudulent intent, the civil and administrative penalty statutes are being applied by the federal government in an increasingly broad range of circumstances. Examples of the types of activities giving rise to liability for filing false claims include billing for services not rendered, misrepresenting services rendered (i.e., miscoding), applications for duplicate reimbursement and providing false information that results in reimbursement or impacts reimbursement amounts. Additionally, the federal government takes the position that a pattern of claiming reimbursement for unnecessary services violates these statutes if the claimant should have known that the services were unnecessary. The federal government also takes the position that claiming reimbursement for services that are substandard is a violation of these statutes if the claimant should have known that the care was substandard. Criminal penalties also are available even in the case of claims filed with private insurers if the federal government shows that the claims constitute mail fraud or wire fraud or violate any of the federal criminal healthcare fraud statutes.

State Medicaid agencies and state Attorneys General also have authority to seek criminal or civil sanctions for fraud and abuse violations. In addition, private insurers may bring actions under state false claim laws. In certain circumstances, federal and state laws authorize private whistleblowers to bring false claim or "qui tam" suits on behalf of the government against providers and reward the whistleblower with a portion of any final recovery. In addition, the federal government has engaged a number of private audit organizations to assist it in tracking and recovering claims for healthcare services that may have been improperly submitted.

Governmental investigations and whistleblower "qui tam" suits against healthcare companies have increased significantly in recent years, and have resulted in substantial penalties and fines and exclusions of persons and entities from participating in government healthcare programs. For more information on the risks related to a failure to comply with applicable government coding and billing rules, see "Risk Factors—Regulatory Risks—Our Healthcare Segments could be subject to actions for false claims or recoupment of funds pursuant to certain audits if they do not comply with government coding and billing rules, which could have a material adverse impact on our segments' operating results."

Health Information Practices

Under HIPAA, DHHS issued rules to define and implement standards for the electronic transactions and code sets for the submission of transactions such as claims, and privacy and security of individually identifiable health information in whatever manner it is maintained.

The Final Rule on Enforcement of the HIPAA Administrative Simplification provisions, including the transaction standards, the security standards and the privacy rule, published by DHHS addresses, among other issues, DHHS's policies for determining violations and calculating civil monetary penalties, how DHHS will address the statutory limitations on the imposition of civil monetary penalties, and various procedural issues. The rule extends enforcement provisions currently applicable to the healthcare privacy regulations to other HIPAA standards, including security, transactions and the appropriate use of service code sets.

The Health Information Technology for Economic and Clinical Health Act ("HITECH"), enacted as part of the American Recovery and Reinvestment Act of 2009, extends certain of HIPAA's obligations to parties providing services to healthcare entities covered by HIPAA known as "business associates," imposes new notice of privacy breach reporting obligations, extends enforcement powers to state Attorneys General and amends the HIPAA privacy and security laws to strengthen the civil and criminal enforcement of HIPAA. HITECH establishes four categories of violations that reflect increasing levels of culpability, four corresponding tiers of penalty amounts that significantly increase the minimum penalty amount for each violation, and a maximum penalty amount of $1.5 million for all violations of an identical provision. With the additional HIPAA enforcement power under HITECH, the Office for Civil Rights of the DHHS and states are increasing their

investigations and enforcement of HIPAA compliance. Our Healthcare Segments have taken steps to ensure compliance with HIPAA and we are monitoring compliance on an ongoing basis.

Additionally, the HITECH Final Rule imposes various requirements on covered entities and business associates, and expands the definition of "business associates" to cover contractors of business associates. Even when our Healthcare Segments are not operating as covered entities, they may be deemed to be "business associates" for HIPAA rule purposes of such covered entities. Our Healthcare Segments monitor their compliance obligations under HIPAA as modified by HITECH, and implement operational and systems changes, associate training and education, conduct risk assessments and allocate resources as needed. Any noncompliance with HIPAA requirements could expose such segments to the criminal and increased civil penalties provided under HITECH and require them to incur significant costs in order to seek to comply with its requirements or to remediate potential issues that may arise.

Federal and State Anti-Kickback Laws

Federal law commonly known as the "Anti-Kickback Statute" prohibits the knowing and willful offer, solicitation, payment or receipt of anything of value (direct or indirect, overt or covert, in cash or in kind) which is intended to induce: the referral of an individual for a service for which payment may be made by Medicare, Medicaid or certain other federal healthcare programs; or the ordering, purchasing, leasing, or arranging for, or recommending the purchase, lease or order of, any service or item for which payment may be made by Medicare, Medicaid or certain other federal healthcare programs.

Interpretations of the Anti-Kickback Statute have been very broad and under current Law, courts and federal regulatory authorities have stated that the Anti-Kickback Statute is violated if even one purpose (as opposed to the sole or primary purpose) of the arrangement is to induce referrals. Even bona fide investment interests in a healthcare provider may be questioned under the Anti-Kickback Statute if the government concludes that the opportunity to invest was offered as an inducement for referrals.

This act is subject to numerous statutory and regulatory "safe harbors." Compliance with the requirements of a safe harbor offers defenses against Anti-Kickback Statute allegations. Failure of an arrangement to satisfy all of the requirements of a particular safe harbor does not mean that the arrangement is unlawful. However, it may mean that such an arrangement will be subject to scrutiny by the regulatory authorities.

Many states, including some where our Healthcare Segments do business, have adopted anti-kickback laws that are similar to the federal Anti-Kickback Statute. Some of these state laws are very closely patterned on the federal Anti-Kickback Statute; others, however, are broader and reach reimbursement by private payors. If our Healthcare Segments' activities were deemed to be inconsistent with state anti-kickback or illegal remuneration laws, they could face civil and criminal penalties or be barred from such activities, any of which could harm such segments' businesses.

If our Healthcare Segments' arrangements are found to violate the Anti-Kickback Statute or applicable state laws, these segments, along with their clients would be subject to civil and criminal penalties, and these segments' arrangements would not be legally enforceable, which could materially and adversely affect their business. For more information on the risks related to failure to comply with applicable anti-bribery and anti-corruption regulations, see "Risk Factors—Regulatory Risks—Our segments' business could be subject to civil penalties and loss of business if we fail to comply with applicable bribery, corruption and other regulations governing business with governments."

Federal and State Self-Referral Prohibitions

Our Healthcare Segments may be subject to federal and state statutes banning payments for referrals of patients and referrals by physicians to healthcare providers with whom the physicians have a financial relationship. Section 1877 of the Social Security Act, also known as the "Stark Law", prohibits physicians from making a "referral" for "designated health services" for Medicare (and in many cases Medicaid) patients from entities or facilities in which such physicians directly or indirectly hold a "financial relationship".

A financial relationship can take the form of a direct or indirect ownership, investment or compensation arrangement. A referral includes the request by a physician for, or ordering of, or the certifying or recertifying the need for, any designated health services.

Certain services that our Healthcare Segments provide may be identified as "designated health services" for purposes of the Stark Law. Such segments cannot provide assurance that future regulatory changes will not result in other services they provide becoming subject to the Stark Law's ownership, investment or compensation prohibitions in the future.

Many states, including some states where our Healthcare Segments do business, have adopted similar or broader prohibitions against payments that are intended to induce referrals of clients. Moreover, many states where such segments operate

have laws similar to the Stark Law prohibiting physician self-referrals. While our Healthcare Segments believe that they are operating in compliance with the Stark Law, there can be no guarantee that violations will not occur.

Healthcare Reform

On March 23, 2010, the President of the United States signed into law comprehensive health reform through the Patient Protection and Affordable Care Act (Pub. L. 11-148) ("PPACA"). On March 30, 2010, the President signed a reconciliation budget bill that included amendments to the PPACA (Pub. L. 11-152). These laws in combination form the "ACA" referred to herein. The changes to various aspects of the healthcare system in the ACA were far-reaching and included, among many others, substantial adjustments to Medicare reimbursement, establishment of individual mandates for healthcare coverage, extension of coverage to certain populations, expansion of Medicaid, restrictions on physician-owned hospitals, and increased efficiency and oversight provisions.

Some of the provisions of the ACA took effect immediately, while others will take effect later or will be phased in over time, ranging from a few months following approval to ten years. Due to the complexity of the ACA, it is likely that additional legislation will be considered and enacted. The ACA requires the promulgation of regulations that will likely have significant effects on the healthcare industry and third-party payors. Thus, the healthcare industry and our operations may be subjected to significant new statutory and regulatory requirements and contractual terms and conditions, and consequently to structural and operational changes and challenges.

The ACA also implemented significant changes to healthcare fraud and abuse laws that intensify the risks and consequences of enforcement actions. These included expansion of the False Claims Act by: (a) narrowing the public disclosure bar; and (b) explicitly stating that violations of the Anti-Kickback Statute trigger false claims liability. In addition, the ACA lessened the intent requirements under the Anti-Kickback Statute to provide that a person may violate the statute without knowledge or specific intent. The ACA also provided new funding and expanded powers to investigate fraud, including through expansion of the Medicare Recovery Audit Contractor ("RAC") program to Medicare Parts C and D and Medicaid and authorizing the suspension of Medicare and Medicaid payments to a provider of services pending an investigation of a credible allegation of fraud. Finally, the legislation created enhanced penalties for noncompliance, including increased criminal penalties and expansion of administrative penalties under Medicare and Medicaid. Collectively, such changes could have a material adverse impact on our Healthcare Segments' operations.

On January 20, 2017, the President of the United States issued an executive order that directed federal agencies to take steps to ensure the government's implementation of the ACA minimizes the burden on impacted parties (such as individuals and states). The underlying intent of the executive order was to take the first steps to repeal and replace the ACA. The executive order specifically instructed agencies to "waive, defer, grant exemptions from, or delay implementation of provisions" that place a "fiscal burden on any State" or that impose a "cost, fee, tax, penalty, or regulatory burden" on stakeholders including patients, providers, and insurers. The order stated that any changes should be made only to the extent "permitted by law" and should comply with the law governing administrative rule-making. The executive order did not, however, provide specifics on next steps or provisions that would be reexamined nor was it clear how the executive branch would be reconciled with Republican congressional efforts to repeal and replace the ACA or what portions of the ACA may continue in any replacement legislation. There are multiple pending legislative proposals to amend the ACA which, among other effects, could repeal all or parts of the ACA without replacing its extension of coverage to expansion populations. In addition, there are pending legislative proposals to materially restructure Medicaid and other government health care programs and there is litigation challenging, amongst other claims, the constitutionality of the ACA. Most recently, on December 14, 2018, a federal district court judge in Texas issued a widely anticipated opinion that struck down the entire ACA as unconstitutional. The judge ruled in favor of the plaintiffs by determining that the ACA's individual mandate is no longer a tax and is therefore an unconstitutional exercise of congressional authority. The judge also found that the individual mandate could not be severed from the rest of the ACA, rendering the entire ACA, not just the guaranteed issue and community rating provisions, unconstitutional. Sixteen states and the District of Columbia intervened as defendants in *Texas v. United States* to proffer a defense of the constitutionality of the ACA. The DOJ declined to defend the ACA on constitutional grounds. The intervenor defendant states have announced they will appeal the District Court's decision to the Fifth Circuit Court of Appeals. We are not able to predict the outcome of this matter nor are we able to predict the impact of a full or partial invalidation of the ACA.

In 2017, legislation was proposed in the U.S. Congress, but did not advance out of committee and was not passed, which would reduce or eliminate certain non-emergency medical transportation services provided by NET Services as a required Medicaid benefit. A similar proposal was made in 2018 by the President of the United States in a federal budget

proposal. If additional privatization initiatives are not proposed or enacted, or if previously enacted privatization initiatives are challenged, repealed or invalidated, there could be a material adverse impact on our segments' operating results.

Surveys and Audits

Our Healthcare Segments' programs are subject to periodic surveys by government authorities or their contractors to ensure compliance with various requirements. Regulators conducting periodic surveys often provide reports containing statements of deficiencies for alleged failures to comply with various regulatory requirements. In most cases, if a deficiency finding is made by a reviewing agency, our segments will work with the reviewing agency to agree upon the steps to be taken to bring our program into compliance with applicable regulatory requirements. In some cases, however, an agency may take a number of adverse actions against a program, including:

- the imposition of fines or penalties or the recoupment of amounts paid;
- temporary suspension of admission of new clients to our program's service;
- in extreme circumstances, exclusion from participation in Medicaid, Medicare or other programs;
- revocation of our license; or
- contract termination.

While our Healthcare Segments believe that our programs are in compliance with Medicare, Medicaid and other program certification requirements and state licensure requirements, failure to comply with these requirements could have a material adverse impact on such segments' businesses and their ability to enter into contracts with other agencies to provide services.

Billing/claims Reviews and Audits

Agencies and other third-party commercial payors periodically conduct pre-payment or post-payment medical reviews or other audits of our Healthcare Segments' claims or other audits in conjunction with their obligations to comply with the requirements of Medicare or Medicaid. In order to conduct these reviews, payors request documentation from our Healthcare Segments and then review that documentation to determine compliance with applicable rules and regulations, including the eligibility of clients to receive benefits, the appropriateness of the care provided to those clients, and the documentation of that care. Any determination that such segments have not complied with applicable rules and regulations could result in adjustment of payments or the incurrence of fines and penalties, or in situations of significant compliance failures review or non-renewal of related contracts.

Corporate Practice of Medicine and Fee Splitting

Some states in which our Healthcare Segments operate prohibit general business entities, such as these segments, from "practicing medicine," which definition varies from state to state and can include employing physicians, as well as engaging in fee-splitting arrangements with these healthcare providers. Among other things, our Healthcare Segments currently contract with and employ NPs to perform CHAs. We believe that such segments have structured their operations appropriately; however, they could be alleged or found to be in violation of some or all of these laws. If a state determines that some portion of our Healthcare Segments' businesses violate these laws, it may seek to have such segments discontinue or restructure those portions of their operations or subject them to increased costs, penalties, fines, certain license requirements or other measures. Any determination that such segments have acted improperly in this regard may result in liability to them. In addition, agreements between the corporation and the professional may be considered void and unenforceable.

Professional Licensure and Other Requirements

Many of our Healthcare Segments' employees are subject to federal and state laws and regulations governing the ethics and practice of their professions. For example, our mid-level practitioners (e.g., NPs) are subject to state laws requiring physician supervision and state laws governing mid-level scope of practice. As physicians' use of mid-level practitioners increases, state governing boards are implementing more robust regulations governing mid-levels and their scope of practice under physician supervision. Our Healthcare Segments' ability to provide mid-level practitioner services may be restricted by the enactment of new state laws governing mid-level scope of practice and by state agency interpretations and enforcement of such existing laws. In addition, services rendered by mid-level practitioners may not be reimbursed by payors at the same rates as payors may reimburse physicians for the same services. Lastly, professionals who are eligible to participate in Medicare and Medicaid as individual providers must not have been excluded from participation in government programs at any time. Our Healthcare Segments' ability to provide services depends upon the ability of their personnel to meet individual licensure and other requirements and maintain such licensure in good standing.

Additional Information

The Company's website at www.prscholdings.com provides access to its periodic reports, certain corporate governance documents, press releases, interim shareholder reports and links to its subsidiaries' websites. The Company makes available to the public on its website its annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Exchange Act, as soon as reasonably practicable after it electronically files such material with, or furnishes such material to, the SEC. Copies are also available, without charge, upon request to The Providence Service Corporation, 700 Canal Street, Third Floor, Stamford, CT 06902, (203) 307-2800, Attention: Corporate Secretary. The information contained on our website is not part of, and is not incorporated by reference in, this Annual Report on Form 10-K or any other report we file with or furnish to the SEC.

Item 1A. ***Risk Factors.***

You should consider and read carefully all of the risks and uncertainties described below, as well as other information included in this Annual Report on Form 10-K, including our consolidated financial statements and related notes. The risks described below are not the only ones facing us. The occurrence of any of the following risks or additional risks and uncertainties not presently known to us or that we currently believe to be immaterial could materially and adversely affect our business, financial condition and results of operations. This Annual Report on Form 10-K also contains forward-looking statements and estimates that involve risks and uncertainties. Our actual results could differ materially from those anticipated in any forward-looking statements as a result of specific factors, including the risks and uncertainties described below.

Risks Related to Our Business

There can be no assurance that our contracts will survive until the end of their stated terms, or that upon their expiration will be renewed or extended on satisfactory terms, if at all. Disruptions to, the early expiration of or the failure to renew our contracts could have a material adverse impact on our financial condition and results of operations.

Our NET Services contracts are subject to frequent renewal. For example, many of our state Medicaid contracts, which represented 52.9% of NET Services revenue for the year ended December 31, 2018, have terms ranging from three to five years and are typically subject to a competitive bidding process near the end of the term. NET Services also contracts with MCOs, which represented 47.1% of NET Services revenue for the year ended December 31, 2018. MCO contracts typically continue until terminated by either party upon reasonable notice (as determined in accordance with the contract). We cannot anticipate if, when or to what extent we will be successful in renewing our state Medicaid contracts or retaining our MCO contracts. As of December 31, 2018, 13.2% of NET Services revenue was generated under state Medicaid contracts that are subject to renewal within the next 12 months. Renewed contracts represented 32.4% of our NET Services revenue for the year ended December 31, 2018.

In addition, with respect to many of our state contracts, the payor may terminate the contract without cause, or for convenience, at will and without penalty to the payor, either immediately or upon the expiration of a short notice period in the event that, among other reasons, government appropriations supporting the programs serviced by the contract are reduced or eliminated.

We cannot anticipate if, when or to what extent a payor might terminate its contract with us prior to its expiration, or fail to renew or extend a contract with us. If we are unable to retain or renew our contracts, or replace lost contracts, on satisfactory terms our financial conditions and results of operations could be materially adversely affected. While we pursue new contract awards and also undertake efficiency measures, there can be no assurance that such measures will fully offset the impact of contracts that are not renewed or are canceled on our operating income and results of operations.

We obtain a significant portion of our business through responses to government requests for proposals and we may not be awarded contracts through this process in the future, or contracts we are awarded may not be profitable.

We obtain, and will continue to seek to obtain, a significant portion of our business from state government entities, which generally entails responding to a government request for proposals ("RFP"). To propose effectively, we must accurately estimate our cost structure for servicing a proposed contract, the time required to establish operations and submit the most attractive proposal with respect to both technical and price specifications. We must also assemble and submit a large volume of information within rigid and often short timetables. Our ability to respond successfully to RFPs will greatly affect our business. If we misinterpret bid requirements as to performance criteria or do not accurately estimate performance costs in a binding bid for an RFP, we will seek to correct such mistakes in the final contract. However, there can be no assurance that we will be able to modify the proposed contract and we may be required to perform under a contract that is not profitable.

If we fail to satisfy our contractual obligations, we could be liable for damages and financial penalties, which may place existing pledged performance and payment bonds at risk as well as harm our ability to keep our existing contracts or obtain new contracts and future bonds.

Our failure to comply with our contractual obligations could, in addition to providing grounds for immediate termination of the contract for cause, negatively impact our financial performance and damage our reputation, which, in turn, could have a material adverse effect on our ability to maintain current contracts or obtain new contracts. The termination of a contract for cause could, for instance, subject us to liabilities for excess costs incurred by a payor in obtaining similar services

from another source. In addition, our contracts require us to indemnify payors for our failure to meet standards of care, and some of them contain liquidated damages provisions and financial penalties that we must pay if we breach these contracts, which amounts could be material. For example, the service commitment under one of our contracts could subject us to penalties if we do not utilize the

minimum level of services specified in such agreement. The total future minimum commitment was $28.7 million as of December 31, 2018. To the extent our actual use is less than the minimum commitment for a specified period, we may be subject to significant expense, without the benefit of corresponding revenue.

Our failure to meet contractual obligations could also result in substantial actual and consequential financial damages.

Any acquisition or integration that we undertake could disrupt our business, not generate anticipated results, dilute stockholder value or have a material adverse impact on our operating results.

Our growth strategy involves the evaluation of potential entry into complementary markets and service lines through acquisition, particularly with opportunities that may leverage the advantages inherent in our large-scale technology-enabled operations and networks. We have made acquisitions and anticipate that we will continue to consider and pursue strategic acquisition opportunities the success of which depends in part on our ability to integrate an acquired company into our business operations. For example, we completed the acquisition of Circulation in September 2018 and will utilize Circulation's technology platform to service our legacy or new customers, which will result in a decrease in the usage of our existing technology. As a result of the technology evaluation, we decided to terminate the development of our legacy LCAD NextGen technology ("NextGen"), resulting in an impairment charge in the fourth quarter of 2018 of $13.5 million. While preliminary implementation is on track, the work to deploy the Circulation technology platform is ongoing, and subject to the scalability of Circulation's technology platform to process similar levels of transactions as LogistiCare. In addition, the digitization of claims processing on the Circulation platform may have unintended financial impacts related to claim costs and working capital. To the extent we are unable to successfully integrate the Circulation acquisition, our results of operations may be adversely affected and anticipated synergies may not be realized. Integration of any acquired companies will place significant demands on our management, systems, internal controls and financial and physical resources. This could require us to incur significant expense for, among other things, hiring additional qualified personnel, retaining professionals to assist in developing the appropriate control systems and expanding our information technology infrastructure. The nature of our business is such that qualified management personnel can be difficult to find. Our inability to manage growth effectively could have a material adverse effect on our financial results.

There can be no assurance that the companies acquired will generate income or incur expenses at the historical or projected levels on which we based our acquisition decisions, that we will be able to maintain or renew the acquired companies' contracts, that we will be able to realize operating and economic efficiencies upon integration of acquired companies or that the acquisitions will not adversely affect our results of operations or financial condition.

We expect to continually review opportunities to acquire other businesses that would complement our current services, expand our markets or otherwise offer prospects for growth. In connection with our acquisition strategy, we could issue stock that would dilute existing stockholders' percentage ownership, or we could incur or assume substantial debt or contingent liabilities. Acquisitions involve numerous risks, including, but not limited to, the following:

- challenges and unanticipated costs assimilating the acquired operations;
- known and unknown legal or financial liabilities associated with an acquisition;
- diversion of management's attention from our core businesses;
- adverse effects on existing business relationships with customers;
- entering markets in which we have limited or no experience;
- potential loss of key employees of purchased organizations;
- incurrence of excessive leverage in financing an acquisition;
- failure to maintain and renew contracts and other revenue streams of the acquired business;
- costs associated with litigation or other claims arising in connection with the acquired company;
- unanticipated operating, accounting or management difficulties in connection with an acquisition; and
- dilution to our earnings per share.

There can be no assurance that we will be successful in overcoming problems encountered in connection with any acquisition or integration and our inability to do so could disrupt our operations and adversely affect our business. Our failure to address these risks or other problems encountered in connection with past or future acquisitions and investments could cause us to fail to realize the anticipated benefits of such acquisitions or investments, incur unanticipated liabilities and harm our business generally.

We may be unable to realize the benefits of any strategic initiatives that are adopted by the Company.

From time to time we may launch strategic initiatives to enhance shareholder value. For example, on April 11, 2018, we announced our Organizational Consolidation, which is expected to be completed in the middle of 2019. While we expect the

Organizational Consolidation to generate annual savings upon completion, implementation of the process will negatively impact earnings. There can be no assurance that the Organizational Consolidation will be completed in a timely fashion or at all, or that it will generate the expected cost savings. In addition, part of the rationale for the acquisition of Circulation was the ability to utilize its technology platform to generate substantial cost savings. Such cost savings require the deployment of technology and substantial changes to existing business processes. There can be no assurance as to whether any other strategic initiatives will be adopted, and the outcome of any current or future strategic initiatives is uncertain, including the roll out of the Circulation technology platform across our LogistiCare business.

Our investments in any joint ventures and unconsolidated entities could be adversely affected by our lack of sole decision-making authority, our reliance on our joint venture partners' financial condition, any disputes that may arise between us and our joint venture partners and our exposure to potential losses from the actions of our joint venture partners.

We currently hold a non-controlling interest in Matrix, which constitutes 28.2% of our consolidated assets. We do not have unilateral power to direct the activities that most significantly impact such business' economic performance. Our future growth may depend, in part, on future similar arrangements, any of which could be material to our financial condition and results of operations. These arrangements involve risks not present with respect to our wholly-owned subsidiaries, which may negatively impact our financial condition and results of operations or make the arrangements less successful than anticipated, including the following:

- we may be unable to take actions that we believe are appropriate but are opposed by our joint venture partners under arrangements that require us to cede or share decision-making authority over major decisions affecting the ownership or operation of the joint venture and any property owned by the joint venture, such as the sale or financing of the business or the making of additional capital contributions for the benefit of the business;
- our joint venture partners may take actions that we oppose;
- we may be unable to sell or transfer our interest in a joint venture to a third party if we fail to obtain the prior consent of our joint venture partners;
- our joint venture partners may become bankrupt or fail to fund their share of required capital contributions, which could adversely impact the joint venture or increase our financial commitment to the joint venture;
- our joint venture partners may have business interests or goals with respect to a business that conflict with our business interests and goals, including with respect to the timing, terms and strategies for investment, which could increase the likelihood of disputes regarding the ownership, management or disposition of the business;
- disagreements with our joint venture partners could result in litigation or arbitration that increases our expenses, distracts our officers and directors, and disrupts the day-to-day operations of the business, including the delay of important decisions until the dispute is resolved; and
- we may suffer losses as a result of actions taken by our joint venture partners with respect to our joint venture investments.

We derive a significant amount of our revenues from a few payors, which puts our financial condition and results of operations at risk. Any changes in the funding, financial viability or our relationships with these payors could have a material adverse impact on our financial condition and results of operations.

We generate a significant amount of our revenue from a few payors under a small number of contracts. For example, for the years ended December 31, 2018, 2017 and 2016, we generated 51.4%, 52.4% and 51.7%, respectively, of our consolidated revenue from continuing operations from ten payors. Additionally, the top five payors represented, in the aggregate, 34.0%, 36.1% and 35.6%, respectively, of revenue from continuing operations for the years ended December 31, 2018, 2017 and 2016. Additionally, a single payor related to Matrix represented 31.5%, 30.9% and 27.8% of Matrix revenue for the years ended December 31, 2018, 2017 and 2016, respectively. The loss of, reduction in amounts generated by, or changes in methods or regulations governing payments for our services under these contracts could have a material adverse impact on our revenue and results of operations. In addition, any consolidation of any of our private payors could increase the impact that any such risks would have on our revenue and results of operations.

If we fail to estimate accurately the cost of performing certain contracts, we may experience reduced or negative margins.

During 2018, 2017 and 2016, 79.2%, 77.9% and 78.3% of our NET Services revenue, respectively, was generated under capitated contracts with the remainder generated through FFS and flat fee contracts. Under most of NET Services'

capitated contracts, we assume the responsibility of managing the needs of a specific geographic population by contracting out transportation services to local transportation companies on a per ride or per mile basis. We use “pricing models” to determine applicable contract rates, which take into account factors such as estimated utilization, state specific data, previous experience in the state or with similar services, the medically covered programs outlined in the contract, identified populations to be serviced, estimated volume,

estimated transportation provider rates and availability of mass transit. The amount of the fixed per-member, monthly fee is determined in the bidding process, but is predicated on actual historical transportation data for the subject geographic region as provided by the payor, actuarial work performed in-house as well as by third party actuarial firms and actuarial analysis provided by the payor. If the utilization of our services is more than we estimated, the contract may be less profitable than anticipated, or may not be profitable at all. Under our FFS contracts, we receive fees based on our interactions with government-sponsored clients. To earn a profit on these contracts, we must accurately estimate costs incurred in providing services. Our risk relating to these contracts is that our client population is not large enough to cover our fixed costs, such as rent and overhead. Our FFS contracts are not reimbursed on a cost basis and therefore, if we fail to estimate our costs accurately, we may experience reduced margins or losses on these contracts. Revenue under certain contracts may be adjusted prospectively if client volumes are below expectations. If we are unable to adjust our costs accordingly, our profitability may be negatively affected. In addition, certain contracts with state Medicaid agencies are renewable or extended at the state's option without an adjustment to pricing terms. If such renewed contracts require us to incur higher costs, including inflation or regulatory changes, than originally anticipated, our results of operations and financial condition may be adversely affected.

We may incur costs before receiving related revenues, which affect our liquidity.

When we are awarded a contract to provide services, we may incur expenses before we receive any contract payments. These expenses include leasing office space, purchasing office equipment, instituting information technology systems, development of supply chains and hiring personnel. As a result, in certain contracts where the payor does not fund program start-up costs, we may be required to make significant investments before receiving any related contract payments or payments sufficient to cover start-up costs. In addition, payments due to us from payors may be delayed due to billing cycles, which may adversely affect our liquidity. Moreover, any resulting mismatch in expenses and revenue could be exacerbated if we fail either to invoice the payor correctly or to collect our fee in a timely manner. Such amounts may exceed our available cash, and any resulting liquidity shortages may require additional financing, which may not be available on satisfactory terms, or at all. This could have a material adverse impact on our ongoing operations and our financial position.

Our business is subject to risks of litigation.

The services we provide are subject to lawsuits and claims. A substantial award payable by us could have a material adverse impact on our operations and cash flows, and could adversely affect our ability to continue to purchase appropriate liability insurance. We can be subject to claims for negligence or intentional misconduct (in addition to professional liability type claims) by an employee or a third party we engage to assist with the provision of services, including but not limited to claims arising out of accidents involving vehicle collisions, CHAs performed by Matrix, and various claims that could result from employees or contracted third parties driving to or from interactions with clients or while providing direct client services. We can be subject to employee-related claims such as wrongful discharge, discrimination or a violation of equal employment laws and permitting issues. While we attempt to insure against these types of claims, damages exceeding our insurance limits or outside our insurance coverage, such as a claim for fraud, certain wage and hour violations or punitive damages, could adversely affect our cash flow and financial condition.

We face risks related to attracting and retaining qualified employees and labor relations.

Our success depends, to a significant degree, on our ability to identify, attract, develop, motivate and retain highly qualified and experienced professionals who possess the skills and experience necessary to deliver high-quality services to our clients, with the continued contributions of our senior management being especially critical to our success. Our objective of providing the highest quality of service to our clients is a significant consideration when we evaluate the education, experience and qualifications of potential candidates for employment as direct care and administrative staff. A portion of our staff is professionals with requisite educational backgrounds and professional certifications. These employees are in great demand and are likely to remain a limited resource for the foreseeable future.

Our ability to attract and retain employees with the requisite experience and skills depends on several factors including, but not limited to, our ability to offer competitive wages, benefits and professional growth opportunities. While we have established programs to attract new employees and provide incentives to retain existing employees, particularly our senior management, we cannot assure you that we will be able to attract new employees or retain the services of our senior management or any other key employees in the future. Some of the companies with which we compete for experienced personnel may have greater financial, technical, political and marketing resources, name recognition and a larger number of clients and payors than we do, which may prove more attractive to employment candidates. The inability to attract and retain experienced personnel could have a material adverse effect on our business.

The performance of our business also depends on the talents and efforts of our highly skilled information technology professionals. For example, realization of the synergies related to our recent acquisition of Circulation relies heavily on our ability to deploy Circulation's technology platform across LogistiCare's existing operations, and competition for skilled information technology professionals can be intense. Our success depends on our ability to recruit, retain and motivate these individuals.

Effective succession planning is also important to our future success. If we fail to ensure the effective transfer of senior management knowledge and smooth transitions involving senior management, including the appointment of a permanent chief executive officer for the Company and the transition of several key management positions, resulting from the Organizational Consolidation, our ability to execute short and long-term strategic, financial and operating goals, as well as our business, financial condition and results of operations generally, could be adversely affected.

We may have difficulty successfully completing divestitures or exiting businesses.

As demonstrated most recently with the WD Services sale in 2018 and various other transactions involving WD Services, as well as the sale of a controlling interest in Matrix in 2016, we may dispose of all or a portion of our investments or exit businesses based on a variety of factors, including availability of alternative opportunities to deploy capital or otherwise maximize shareholder value as well as other strategic considerations. A divestiture or business termination could result in difficulties in the separation of operations, services, products and personnel, the diversion of management's attention, the disruption of our business and the potential loss of key employees and customers. A divestiture or business termination may be subject to the satisfaction of pre-closing conditions as well as to obtaining necessary regulatory approvals, which, if not satisfied or obtained, may prevent us from completing the disposition or business termination, whether or not the disposition or business termination has been publicly announced. A divestiture or business termination may also involve continued financial involvement in the divested assets and businesses, such as indemnities or other financial obligations, including continuing obligations to employees, in which the performance of the divested assets or businesses could impact our results of operations. Further, such divestitures may result in proceeds to us in an amount less than we expect or less than our assessment of the value of those assets. Any sale of our assets could result in a loss on divestiture. Any of the foregoing could adversely affect our financial condition and results of operations.

The indemnification provisions of acquisition and disposition agreements by which we have acquired or sold companies may result in liabilities.

We rely heavily on the representations and warranties and related indemnities provided to us by the sellers of acquired companies, including as they relate to creation, ownership and rights in intellectual property and compliance with laws and contractual requirements. However, the liability of the former owners is limited under the relevant acquisition agreements, and certain sellers may be unable to meet their indemnification responsibilities. Similarly, the purchasers of our divested operations may from time to time agree to indemnify us for operations of such businesses after the closing. We cannot be assured that any of these indemnification provisions will fully protect us, and as a result we may face unexpected liabilities that adversely affect our consolidated results of operations, financial condition and cash flows.

In addition, we have provided certain indemnifications in connection with the WD Services sale in 2018, the Matrix Transaction in 2016 and the Human Services Sale in 2015. To the extent we choose to divest other operations of our businesses in the future, we expect to provide certain indemnifications in connection with these divestitures. We may face liabilities in connection with these current or future indemnification obligations that may adversely affect our consolidated results of operations, financial condition and cash flows.

Our success depends on our ability to compete effectively in the marketplace.

We compete for clients and for contracts with a variety of organizations that offer similar services. Many organizations of varying sizes compete with us, including local not-for-profit organizations and community-based organizations, larger companies, organizations that currently provide or may begin to provide similar NET management services (including transportation network companies such as Uber and Lyft) and CHA providers. Some of these companies may have greater financial, technical, political, marketing, name recognition and other resources and a larger number of clients or payors than we do. In addition, some of these companies offer more services than we do. To remain competitive, we must provide superior services and performance on a cost-effective basis to our customers.

The market in which we operate is influenced by technological developments that affect cost-efficiency and quality of services, and the needs of our customers change and evolve regularly. Accordingly, our success depends on our ability to develop services that address these changing needs and to provide technology needed to deliver these services on a cost-effective basis. Our competitors may better utilize technology to change the way services in our industry are designed and delivered and they may be able to provide our customers with different or greater capabilities than we can provide, including better contract terms, technical

qualifications, price and availability of qualified professional personnel. In addition, new or disruptive technologies and methodologies by our competitors may make our services uncompetitive.

In conjunction with our ongoing efforts to improve cost-efficiency and the customer experience, in September 2018, we completed our acquisition of Circulation. We incurred costs associated with such acquisition and will also incur costs to implement the Circulation technology across LogistiCare's existing operations, but there is no guarantee that this will ultimately serve our business purposes or result in lower costs.

We have experienced, and expect to continue to experience, competition from new entrants into the markets in which we operate. Increased competition may result in pricing pressures, loss of or failure to gain market share or loss of or failure to gain clients or payors, any of which could have a material adverse effect on our operating results. Our business may also be adversely affected by the consolidation of competitors, which may result in increased pricing pressure or negotiating leverage with payors, or by the provision of our services by payors or clients directly, including through the acquisition of competitors.

We may be adversely affected by inadequacies in, or security breaches of, our information technology systems.

Our information technology systems are critically important to our operations and we must implement and maintain appropriate and sufficient infrastructure and systems to support growth and business processes. We provide services to individuals, including services that require us to maintain sensitive and personal client information, including information relating to their health, identification numbers and other identifying data. Therefore, our information technology systems store client information protected by numerous federal, state and foreign regulations. We also rely on our information technology systems (some of which are outsourced to third parties) to manage the data, communications and business processes for all other functions, including our marketing, sales, logistics, customer service, accounting and administrative functions. Further, our systems include interfaces to third-party stakeholders, often connected via the Internet. In addition, certain of our services or information related to our services are carried out or hosted within our customers' IT systems, and any failure or weaknesses in their IT systems may negatively impact our ability to deliver the services, for which we may not receive relief from contractual performance obligations or compensation for services provided. As a result of the data we maintain and third-party access, we are subject to increasing cybersecurity risks. The nature of our business, where services are often performed outside a secured location, adds additional risk.

If we do not allocate and effectively manage the resources necessary to build, sustain and protect an appropriate technology infrastructure, our business or financial results could be negatively impacted. Furthermore, computer hackers and data thieves are increasingly sophisticated and operate large scale and complex automated attacks and our information technology systems may be vulnerable to material security breaches (including the access to or acquisition of customer, employee or other confidential data), cyber-based attacks or other material system failures. Because the techniques used to obtain unauthorized access or sabotage systems change frequently and may be difficult to detect for long periods of time, we may be unable to implement adequate preventative measures sufficient to prevent a breach of our systems and protect sensitive data. Any breach of our data security could result in an unauthorized release or transfer of customer or employee information, or the loss of valuable business data or cause a disruption in our business. A failure to prevent, detect and respond in a timely manner to a major breach of our data security or to other cybersecurity threats could result in system disruption, business continuity issues or compromised data integrity. These events or any other failure to safeguard personal data could give rise to unwanted media attention, damage our reputation, damage our customer relationships and result in lost sales, fines or lawsuits. We may also be required to expend significant capital and other resources to protect against or respond to or alleviate problems caused by a security breach. If we are unable to prevent material failures, our operations may be impacted, and we may suffer other negative consequences such as reputational damage, litigation, remediation costs, a requirement not to operate our business until defects are remedied or penalties under various data privacy laws and regulations, any of which could detrimentally affect our business, financial condition and results of operations.

Failure to protect our client's privacy and confidential information could lead to legal liability, adversely affect our reputation and have a material adverse effect on our business, financial condition and results of operations.

We retain confidential information in our computer systems, including personal information about our customers, such as names, addresses, phone numbers, email addresses, identification numbers and payment account information. Malicious cyber- attacks to gain access to personal information affect many companies across various industries, including ours. Pursuant to federal and state laws, various government agencies have established rules protecting the privacy and security of personal information. In addition, most states have enacted laws, which vary significantly from jurisdiction to jurisdiction, to safeguard the privacy and security of personal information. An increasing number of states require that customers be notified if a security

breach results in the inappropriate disclosure of personally identifiable customer information. Any compromise of the security of our systems that results in the disclosure of personally identifiable customer or employee information or inadvertent disclosure of any clients' personal information could damage our reputation, deter people from using our services, expose us to litigation, increase regulatory

scrutiny and require us to incur significant technical, legal and other expenses. In addition, data breaches impacting other companies, such as our vendors, may allow cybercriminals to obtain personally identifiable information about our customers. Cybercriminals may then use this information to, among other things, attempt to gain unauthorized access to our customers' accounts, which could have a material adverse effect on our reputation, business and results of operations or financial condition.

Failure to maintain or to develop further reliable, efficient and secure information technology systems would be disruptive to our operations and diminish our ability to compete and grow our business successfully.

We are highly dependent on efficient and uninterrupted performance of our information technology and business systems. These systems quote, process and service our business, and perform financial functions necessary for pricing and service delivery. These systems must also be able to undergo periodic modifications and improvements without interruptions or untimely delays in service. Additionally, our ability to integrate our systems with those of our clients is critical to our success. Our information systems rely on the commitment of significant financial and managerial resources to maintain and enhance existing systems as well as develop and create new systems to keep pace with continuing changes in information processing technology or evolving industry and regulatory requirements. However, we still rely on manual processes and procedures, including accounting, reporting and consolidation processes that may result in errors and may not scale proportionately with our business growth.

A failure or delay to achieve improvements in our information technology platforms could interrupt certain processes or degrade business operations and could place us at a competitive disadvantage. If we are unable to implement appropriate systems, procedures and controls, we may not be able to successfully offer our services and grow our business and account for transactions in an appropriate and timely manner, which could have an adverse effect on our business, financial condition and results of operations.

Our results of operations will continue to fluctuate due to seasonality.

Our operating results and operating cash flows normally fluctuate as a result of seasonal variations in our business. Due to higher demand in the summer months and lower demand in the winter months, coupled with a primarily fixed revenue stream based on a per-member, per-month payment structure, we normally experience lower operating margins in the summer and higher operating margins in the winter.

Our reported financial results could suffer if there is an impairment of long-lived assets.

We are required under generally accepted accounting principles in the United States of America ("GAAP") to review the carrying value of long-lived assets to be used in operations whenever events or changes in circumstances indicate that the carrying amount of the assets may be impaired. Factors that may necessitate an impairment assessment include, among others, significant adverse changes in the extent or manner in which an asset is used, significant adverse changes in legal factors or the business climate that could affect the value of an asset or significant declines in the observable market value of an asset. Where the presence or occurrence of those events indicates that an asset may be impaired, we assess its recoverability by determining whether the carrying value of the asset exceeds the sum of the projected undiscounted cash flows expected to result from the use and eventual disposition of the assets over the remaining economic life of the asset. If such testing indicates the carrying value of the asset is not recoverable, we estimate the fair value of the asset using appropriate valuation methodologies, which would typically include an estimate of discounted cash flows. If the fair value of those assets is less than carrying value, we record an impairment loss equal to the excess of the carrying value over the estimated fair value. The use of different estimates or assumptions in determining the fair value of our intangible assets may result in different values for those assets, which could result in an impairment or, in the period in which an impairment is recognized, could result in a materially different impairment charge. For example, we recorded an asset impairment charge of $14.2 million in 2018 related to NextGen.

In addition, goodwill may be impaired if the estimated fair value of one or more of our reporting units is less than the carrying value of the respective reporting unit. As a result of our growth, in part through acquisitions, goodwill and other intangible assets represent a significant portion of our assets. For example, goodwill generated in relation to the acquisition of Circulation was $40.0 million. We perform an analysis on our goodwill balances to test for impairment on an annual basis. Interim impairment tests may also be required in advance of our annual impairment test if events occur or circumstances change that would more likely than not reduce the fair value, including goodwill, of one or more of our reporting units below the reporting unit's carrying value. Such circumstances could include but are not limited to: (1) loss of significant contracts, (2) a significant adverse change in legal factors or in the climate of our business, (3) unanticipated competition, (4) an adverse action or assessment by a regulator or (5) a significant decline in our stock price.

As of December 31, 2018, the carrying value of goodwill, intangibles and property and equipment, net was $135.2 million, $26.1 million and $23.0 million, respectively. We continue to monitor the carrying value of these long-lived assets. If future

conditions are different from management's estimates at the time of an acquisition or market conditions change subsequently, we may incur future charges for impairment of our goodwill or intangible assets, which could have a material adverse impact on our results of operations and financial position.

Our use of a reinsurance program and insurance programs to cover certain claims for losses suffered and costs or expenses incurred could negatively impact our business.

We reinsured a substantial portion of our automobile, general liability, professional liability and workers' compensation insurance policies through May 15, 2017. Upon renewal of the policies, we made the decision to no longer reinsure these risks, although we continue to resolve claims under the historical policy years. Through February 15, 2011, one of our subsidiaries also insured certain general liability, automobile liability, and automobile physical damage coverage for independent third-party transportation providers. In the event that actual reinsured losses increase unexpectedly and substantially exceed actuarially determined estimated reinsured losses under the program, the aggregate of such losses could materially increase our liability and adversely affect our financial condition, liquidity, cash flows and results of operations.

In addition, under our current insurance policies, we are subject to deductibles, and thus retain exposure within these limits. In the event that actual losses within our deductible limits increase unexpectedly and substantially exceed our expected losses, the aggregate of such losses could materially increase our liability and adversely affect our financial condition, liquidity, cash flows and results of operations.

As the availability to us of certain traditional insurance coverage diminishes or increases in cost, we will continue to evaluate the levels and types of insurance coverage we include in our reinsurance and self-insurance programs, as well as the deductible limits within our traditional insurance programs. Any increase to these reinsurance and self-insurance programs or increases in deductible limits increases our risk exposure and therefore increases the risk of a possible material adverse effect on our financial condition, liquidity, cash flows and results of operations.

Inaccurate, misleading or negative media coverage could damage our reputation and harm our ability to maintain or procure contracts.

There is sometimes media coverage regarding services that we or our competitors provide or contracts that we or our competitors are a party to. Inaccurate, misleading or negative media coverage about us could harm our reputation and, accordingly, our ability to maintain our existing contracts or procure new contracts.

Regulatory Risks

Our Healthcare Segments conduct business in a heavily regulated healthcare industry. Compliance with existing Laws is costly, and changes in Laws or violations of Laws may result in increased costs or sanctions that could reduce our segments' revenue and profitability.

The U.S. healthcare industry is subject to extensive federal and state Laws relating to, among other things:

- professional licensure;
- conduct of operations;
- addition of facilities, equipment and services, including certificates of need;
- coding and billing related to our services; and
- payment for services.

Both federal and state government agencies have increased coordinated civil and criminal enforcement efforts related to the healthcare industry. Regulations related to the healthcare industry are extremely complex and, in many instances, the industry does not have the benefit of significant regulatory or judicial interpretation of those laws. The Patient Protection and Affordable Care Act, as well as the anticipated attempts to repeal all or portions of those laws by the President and Congress, has also introduced some degree of regulatory uncertainty as the industry does not know how the changes it introduced or changes to it will affect many aspects of the industry. Medicare and Medicaid anti-fraud and abuse laws prohibit certain business practices and relationships related to items and services reimbursable under Medicare, Medicaid and other governmental healthcare programs, including the payment or receipt of remuneration to induce or arrange for referral of patients or recommendation for the provision of items or services covered by Medicare or Medicaid or any other federal or state healthcare program. Federal and state Laws prohibit the submission of false or fraudulent claims, including claims to obtain

reimbursement under Medicare and Medicaid. Our Healthcare Segments have implemented compliance policies to help assure their compliance with these regulations as they become effective; however, different interpretations or enforcement of these laws and regulations in the future could subject our practices to allegations

of impropriety or illegality or could require such segments to make changes in their facilities, equipment, personnel, services or the manner in which they conduct our business.

Changes in budgetary priorities of the government entities that fund the services our Healthcare Segments provide could result in our segments' loss of contracts or a decrease in amounts payable to them under their contracts.

Our Healthcare Segments' revenue is largely derived from contracts that are directly or indirectly paid or funded by government agencies. All of these contracts are subject to legislative appropriations and state or national budget approval, as well as changes to potential eligibility for services. The availability of funding under NET Services' contracts with state governments is dependent in part upon federal funding to states. Changes in Medicaid methodology may further reduce the availability of federal funds to states in which our Healthcare Segments provide services. The President of the United States and Congress have proposed various changes to the Medicaid program, including considering converting the Medicaid program to a block grant format or capping the federal contribution to state Medicaid programs to a fixed amount per beneficiary. CMS has invited states to submit requests for waivers to CMS that would allow states to reduce or eliminate the NET benefit for some populations. In response, several states have asked for and received temporary waivers of NET requirements for the Medicaid expansion or non-disabled adult population. In addition, in late 2018, DHHS published in the Unified Agenda its intention to revise the current regulations under which states are required to provide NET services for all Medicaid beneficiaries. The stated goal of this proposed rule is to provide states with greater flexibility as part of the administration's reform initiatives. It is possible that revised regulations could be issued in 2019 or 2020 making it optional for the states to provide NET services to certain populations. Such changes, individually or in the aggregate, could have a material adverse effect on our Healthcare Segments operations.

Among the alternative Medicaid funding approaches that states have explored are provider assessments as tools for leveraging increased Medicaid federal matching funds. Provider assessment plans generate additional federal matching funds to the states for Medicaid reimbursement purposes, and implementation of a provider assessment plan requires approval by CMS in order to qualify for federal matching funds. These plans usually take the form of a bed tax or a quality assessment fee, which were historically required to be imposed uniformly across classes of providers within the state, except that such taxes only applied to Medicaid health plans.

Changes to provider assessment opportunities, the Medicaid programs in states in which our Healthcare Segments operate or in the structure of the federal government's support for those programs can affect the amount of funds available in the programs our Healthcare Segments support. Because funding under our Healthcare Segments' contracts is dependent in part upon federal funding, such funding changes could have a significant effect upon such segments' businesses.

Currently, many of the U.S. states in which our segments operate are facing budgetary shortfalls or changes in budgetary priorities. While many of these states are dealing with budgetary concerns by shifting costs from institutional care to home and community based care such as we provide, there is no assurance that this trend will continue.

Consequently, a significant decline in government expenditures, shift of expenditures or funding away from programs that call for the types of services that we provide, or change in government contracting or funding policies could cause payors to terminate their contracts with our segments or reduce their expenditures under those contracts, either of which could have a negative impact on our segments' operating results.

Our Healthcare Segments are subject to regulations relating to privacy and security of patient and service user information. Failure to comply with privacy and security regulations could result in a material adverse impact on our segments' operating results.

There are numerous federal and state regulations addressing patient information privacy and security concerns. In particular, the federal regulations issued under HIPAA contain provisions that:

- protect individual privacy by limiting the uses and disclosures of patient information;
- require the implementation of security safeguards to ensure the confidentiality, integrity and availability of individually identifiable health information in electronic form; and
- prescribe specific transaction formats and data code sets for certain electronic healthcare transactions.

Compliance with state and federal laws and regulations is costly and requires our segment management to expend substantial time and resources which could negatively impact our segments' results of operations. Further, the HIPAA

regulations and state privacy laws expose our segments to increased regulatory risk, as the penalties associated with a failure to comply or with information security breaches, even if unintentional, could have a material adverse effect on our segments' results of operations.

Our Healthcare Segments could be subject to actions for false claims or recoupment of funds pursuant to certain audits if they do not comply with government coding and billing rules, which could have a material adverse impact on our segments' operating results.

If our Healthcare Segments fail to comply with federal and state documentation, coding and billing rules, our segments could be subject to criminal or civil penalties, loss of licenses and exclusion from the Medicare and Medicaid programs, which could have a material adverse impact on our segments' operating results. In billing for our segments' services to third-party payors, our segments must follow complex documentation, coding and billing rules. These rules are based on federal and state laws, rules and regulations, various government pronouncements, and industry practice. Failure to follow these rules could result in potential criminal or civil liability under the federal False Claims Act, under which extensive financial penalties can be imposed or under various state statutes which prohibit the submission of false claims for services covered. Compliance failure could further result in criminal liability under various federal and state criminal or civil statutes. Our segments may be subject to audits conducted by our clients or their proxies that may result in recoupment of funds. In addition, our segments' clients may be subject to certain audits that may result in recoupment of funds from our clients that may, in turn, implicate our segments' services. Our segments' businesses could be adversely affected in the event such an audit results in negative findings and recoupment from or penalties to their customers.

Our Healthcare Segments' contracts are subject to stringent claims and invoice processing regimes which vary depending on the customer and nature of the payment mechanism. Government entities may take the position that if a transport cannot be matched to a healthcare event, or is conducted inconsistently with contractual, regulatory or even policy requirements, payment for such transport may be recouped by such customer.

While our Healthcare Segments carefully and regularly review their documentation, coding and billing practices, the rules are frequently vague and confusing and they cannot assure that governmental investigators, private insurers or private whistleblowers will not challenge their practices. Such a challenge could result in a material adverse effect on our Healthcare Segments' financial position and results of operations.

Our Healthcare Segments' business could be subject to civil penalties and loss of business if we fail to comply with applicable bribery, corruption and other regulations governing business with governments.

Our Healthcare Segments are subject to the federal Anti-Kickback Statute, which prohibits the offer, payment, solicitation or receipt of any form of remuneration in return for referring, ordering, leasing, purchasing or arranging for or recommending the ordering, purchasing or leasing of items or services payable by a federally funded healthcare program. Any of our Healthcare Segments' financial relationships with healthcare providers will be potentially implicated by this statute to the extent Medicare or Medicaid referrals are implicated. Violations of the Anti-Kickback Statute could result in substantial civil or criminal penalties, including criminal fines of up to $100,000 per violation, imprisonment of up to ten years, civil penalties under the Civil Monetary Penalties Law of up to $100,000 per violation, plus three times the remuneration involved, civil penalties under the False Claims Act of up to $22,363 for each claim submitted, plus three times the amounts paid for such claims and exclusion from participation in the Medicaid and Medicare programs. Any such penalties could have a significant negative effect on our Healthcare Segments' operations. Furthermore, the exclusion, if applied to such segments, could result in significant reductions in our revenues, which could materially and adversely affect such segments' businesses, financial condition and results of their operations. In addition, many states have adopted laws similar to the federal Anti-Kickback Statute with similar penalties.

Our Healthcare Segments' businesses could be adversely affected by future legislative changes that hinder or reverse the privatization of non-emergency transportation services.

The market for certain of our Healthcare Segments' services depends largely on government sponsored programs. These programs can be modified or amended at any time. Moreover, part of our growth strategy includes aggressively pursuing opportunities created by government initiatives to privatize the delivery of non-emergency transportation services. In 2017, legislation was proposed in the U.S. Congress, but not passed, which would reduce or eliminate certain non-emergency medical transportation services provided by NET Services as a required Medicaid benefit. If additional privatization initiatives are not proposed or enacted, or if previously enacted privatization initiatives are challenged, repealed or invalidated, there could be a material adverse impact on our Healthcare Segments' operating results.

Changes to the regulatory landscape applicable to Matrix could have a material adverse effect on our results of operations and financial condition.

The CHA services industry is primarily regulated by federal and state healthcare Laws and the requirements of participation and reimbursement of the MA Program established by CMS. From time to time, CMS considers changes to regulatory guidelines

with respect to prospective CHAs or the risk adjusted payment system applicable to Matrix's Medicare Advantage plan customers. CMS could adopt new requirements or guidelines that may, for example, increase the costs associated with CHAs, limit the opportunities and settings available to administer CHAs, or otherwise change the risk adjusted payment system in a way that would adversely impact our business. Further, changes in or adoption of new state laws governing the scope of practice of mid-level practitioners, or more restrictive interpretations of such laws, may restrict Matrix's ability to provide services using nurse practitioners. Any such implementation of additional regulations on the CHA industry by CMS or other regulatory bodies or further regulation of mid-level practitioners could have a material adverse impact on Matrix's revenues and margins, which could have a material adverse impact on our consolidated results of operations.

If our Healthcare Segments fail to comply with physician self-referral laws, to the extent applicable to our operations, they could experience a significant loss of reimbursement revenue.

Our Healthcare Segments may be subject to federal and state statutes and regulations banning payments for referrals of patients and referrals by physicians to healthcare providers with whom the physicians have a financial relationship and billing for services provided pursuant to such referrals if any occur. Violation of these federal and state laws and regulations, to the extent applicable to our Healthcare Segments' operations, may result in prohibition of payment for services rendered, loss of licenses, fines, criminal penalties and exclusion from Medicaid and Medicare programs. To the extent such segments do maintain such financial relationships with physicians, they rely on certain exceptions to self-referral laws that they believe will be applicable to such arrangements. Any failure to comply with such exceptions could result in the penalties discussed above.

As government contractors, our segments are subject to an increased risk of litigation and other legal actions and liabilities.

As government contractors, our segments are subject to an increased risk of investigation, criminal prosecution, civil fraud, whistleblower lawsuits and other legal actions and liabilities that are not as frequently experienced by companies that do not provide government sponsored services. Companies providing government sponsored services can also become involved in public inquiries which can lead to negative media speculation or potential cancellation or termination of contracts. Further, government contract awards are frequently challenged by the losing bidders leading to delays in contract start dates, rebids, or even loss of a previously awarded contract.

Our Healthcare Segments' businesses are subject to licensing regulations and other regulatory provisions, including provisions governing surveys and audits. Changes to, or violations of, these regulations could negatively impact our Healthcare Segments' revenues.

In many of the locations where our segments operate, they are required by local laws to obtain and maintain licenses. The applicable state and local licensing requirements govern the services our segments provide, the credentials of staff, record keeping, treatment planning, client monitoring and supervision of staff. The failure to maintain these licenses or the loss of a license could have a material adverse impact on our segments' businesses and could prevent them from providing services to clients in a given jurisdiction. Our Healthcare Segments' contracts are subject to surveys or audit by their payors or their clients. Our segments are also subject to regulations that restrict their ability to contract directly with a government agency in certain situations. Such restrictions could affect our segments' ability to contract with certain payors and clients, and could have a material adverse impact on our segments' results of operations.

Our Healthcare Segments' contracts are subject to audit and modification by the payors with whom our Healthcare Segments contract, at their sole discretion.

Our Healthcare Segments' businesses depend on their ability to successfully perform under various government funded contracts. Under the terms of these contracts, payors, government agencies or their proxy contractors can review our segments' compliance or performance, as well as our segments' records and general business practices at any time, and may, in their discretion:

- suspend or prevent our segments from receiving new contracts or extending existing contracts because of violations or suspected violations of procurement laws or regulations;
- terminate or modify our segments' existing contracts;
- reduce the amount our segments are paid under our existing contracts; or
- audit and object to our segments' contract related fees.

Any increase in the number or scope of audits could increase our segments' expenses, and the audit process may disrupt the day-to-day operations of our segments' businesses and distract their management. If payors have significant audit findings, or if they make material modifications to our segments' contracts, it could have a material adverse impact on our segments' results of operations.

Our estimated income taxes could be materially different from income taxes that we ultimately pay.

We are subject to income taxation in both the U.S. and, due to our ownership of international entities prior to the WD Services sale, 10 foreign countries, including specific states or provinces where we operate. Our total income tax provision is a function of applicable local tax rates and the geographic mix of our income from continuing and discontinued operations before taxes, which is itself impacted by currency movements. Consequently, the isolated or combined effects of unfavorable movements in tax rates, geographic mix, or foreign exchange rates could reduce our after-tax income.

Our total income tax provision is based on our income and the tax laws in the various jurisdictions in which we operate. Significant judgment and estimation is required in determining our annual income tax expense and in evaluating our tax positions and related matters. In the ordinary course of our business, there are many transactions and calculations for which the ultimate tax determinations are uncertain or otherwise subject to interpretation. In addition, we make judgments regarding the applicability of tax treaties and the appropriate application of transfer pricing regulations. In the event one taxing jurisdiction disagrees with another taxing jurisdiction with respect to the amount or applicability of a particular type of tax, or the amount or availability of a particular type of tax refund or credit, we could experience temporary or permanent double taxation and increased professional fees to resolve such taxation matters.

Our determination of our income tax liability is always subject to review by applicable tax authorities, and we have been audited by various jurisdictions in prior years. Although we believe our income tax estimates and related determinations are reasonable and appropriate, relevant taxing authorities may disagree. The ultimate outcome of any such audits and reviews could be materially different from the estimates and determinations reflected in our historical income tax provisions and accruals. Any adverse outcome of any such audit or review could have an adverse effect on our financial condition and the results of our operations.

Risks Related to Our Indebtedness

Restrictive covenants in our Credit Agreement may limit our current and future operations, particularly our ability to respond to changes in our business or to pursue our business strategies.

The terms contained in the agreements that govern certain of our indebtedness, including our Amended and Restated Credit and Guaranty Agreement (as amended, supplemented, or modified, the "Credit Agreement"), and the agreements that govern any future indebtedness of ours, may include a number of restrictive covenants that impose significant operating and financial restrictions, including restrictions on our ability to take actions that we believe may be in our best interest. These agreements, among other things, limit our ability to:

- incur additional debt;
- provide guarantees in respect of obligations of other persons;
- issue redeemable stock and preferred stock;
- pay dividends or distributions or redeem or repurchase capital stock;
- make loans, investments and capital expenditures;
- enter into transactions with affiliates;
- create or incur liens;
- make distributions from our subsidiaries;
- sell assets and capital stock of our subsidiaries;
- make acquisitions; and
- consolidate or merge with or into, or sell substantially all of our assets to, another person.

A breach of the covenants or restrictions could result in a default under the applicable agreements that govern our indebtedness. Such default may preclude us from drawing from our senior secured credit facility (the "Credit Facility") or allow the creditors to accelerate the related debt and may result in the acceleration of any other debt that we may incur to which a cross acceleration or cross-default provision applies. In the event our lenders accelerate the repayment of our borrowings, we cannot assure that we and our subsidiaries would have sufficient assets to repay such indebtedness.

Loss of available financing or an inability to renew, repay or refinance our debt could have an adverse effect on our financial condition and results of operations.

At December 31, 2018, our available credit under the Credit Facility was $187.7 million. If our cash on hand is insufficient, or we are unable to generate sufficient cash flows in the future, to cover our cash flow and liquidity needs and service our debt, we may be required to seek additional sources of funds, including refinancing all or a portion of our existing or future debt,

incurring additional debt to maintain sufficient cash flow to fund our ongoing operating needs, pay interest and fund anticipated expenditures. In addition, the Credit Facility matures on August 2, 2019. There can be no assurance that any refinancing will be possible or that any additional financing could be obtained on acceptable terms. If we are unable to obtain additional financing, we may (i) be unable to satisfy our obligations under our outstanding indebtedness, (ii) be unable to pursue future business opportunities or fund acquisitions, (iii) find it more difficult to fund future operating costs, tax payments or general corporate expenditures and (iv) become vulnerable to adverse general economic, capital markets and industry conditions. Any of these circumstances could have a material adverse effect on our financial position, liquidity and results of operations.

We may incur substantial additional indebtedness in the future, which could impair our financial condition.

We may incur substantial additional indebtedness in the future to fund activities including but not limited to share repurchases, acquisitions, cash dividends and business expansion. Any existing and future indebtedness increases the risk that we may be unable to generate cash sufficient to pay amounts due in respect of such indebtedness. Future substantial indebtedness could have other important consequences on our business. For example, it could:

- make it more difficult for us to satisfy our obligations;
- make it more difficult to renew or enter into new contracts with existing and potential future clients;
- limit our ability to borrow additional amounts to fund working capital, capital expenditures, debt service requirements, execution of our business strategy or acquisitions and other purposes;
- require us to dedicate a substantial portion of our cash flow from operations to pay principal and interest on our debt, which would reduce the funds available to us for other purposes;
- restrict our ability to dispose of assets and use the proceeds from any such dispositions;
- restrict our ability to raise debt or equity capital to be used to repay other indebtedness when it becomes due;
- make us more vulnerable to adverse changes in general economic, industry and competitive conditions, as well as in government regulation and to our business;
- expose us to risks inherent in interest rate fluctuations because some of our borrowings are at variable rates of interest, which could result in higher interest expense in the event of increases in interest rates; and
- make it more difficult to satisfy our financial obligations.

Our ability to satisfy and manage our debt obligations depends on our ability to generate cash flow and on overall financial market conditions. To some extent, this is subject to prevailing economic and competitive conditions and to certain financial, business and other factors, many of which are beyond our control. Our business may not generate sufficient cash flow from operations to permit us to pay principal, premium, if any, or interest on our debt obligations. If we are unable to generate sufficient cash flow from operations to service our debt obligations and meet our other cash needs, we may be forced to reduce or delay capital expenditures, sell or curtail assets or operations, seek additional capital, or seek to restructure or refinance our indebtedness. If we must sell or curtail our assets or operations, it may negatively affect our ability to generate revenue.

Risks Related to Our Capital Stock

Our annual operating results and stock price may be volatile or may decline significantly regardless of our operating performance.

Our annual operating results and the market price for our Common Stock may fluctuate significantly in response to a number of factors, many of which we cannot control, including:

- changes in rates or coverage for services by payors;
- changes in Medicaid, Medicare or other U.S. federal or state rules, regulations or policies;
- market conditions or trends in our industry or the economy as a whole;
- increased competition in any of our segments, including through insourcing of services by our clients and new entrants to the market;
- other events or factors, including those resulting from war, incidents of terrorism, natural disasters or responses to these events;
- changes in tax law; and
- changes in accounting principles.

In addition, the stock markets, and in particular, NASDAQ, have experienced considerable price and volume fluctuations that have affected and continue to affect the market prices of equity securities of many companies. In the past,

stockholders have instituted securities class action litigation following periods of market volatility. If we become involved in securities litigation, we could incur substantial costs, and our resources and the attention of management could be diverted from our business.

The Company depends on its subsidiaries for cash to fund all of its operations and expenses, including to make future dividend payments, if any.

Our operations are conducted entirely through our subsidiaries and our ability to generate cash to fund all of our operations and expenses, to pay dividends or to meet any debt service obligations is highly dependent on the earnings and the receipt of funds from our subsidiaries via dividends or intercompany loans. We do not currently expect to declare or pay dividends on our Common Stock for the foreseeable future; however, to the extent that we determine in the future to pay dividends on our Common Stock, none of our subsidiaries will be obligated to make funds available to us for the payment of dividends. Further, the agreement governing our Credit Agreement significantly restricts the ability of our subsidiaries to pay dividends, make loans or otherwise transfer assets to us. In addition, Delaware law may impose requirements that may restrict our ability to pay dividends to holders of our Common Stock.

If securities or industry analysts do not publish research or publish misleading or unfavorable research about our business, our stock price and trading volume could decline.

The trading market for our Common Stock will depend in part on the research and reports that securities or industry analysts publish about us or our business. If one or more analysts downgrade our stock or publish misleading or unfavorable research about our business, our stock price would likely decline. If one or more of these analysts ceases coverage of our company or fails to publish reports on us regularly, demand for our stock could decrease, which could cause our stock price or trading volume to decline.

Future sales of shares by existing stockholders could cause our stock price to decline.

Sales of substantial amounts of our Common Stock in the public market, or the perception that these sales could occur, could cause the market price of our Common Stock to decline. As of February 22, 2019, we had 12,833,846 outstanding shares of Common Stock which are freely transferable without restriction or further registration under the Securities Act, unless held by or purchased by our "affiliates" as that term is defined in Rule 144 under the Securities Act. Shares of our Common Stock held by or purchased by our affiliates are restricted securities within the meaning of Rule 144 under the Securities Act, but will be eligible for resale subject to applicable volume, means of sale, holding period and other limitations of Rule 144 under the Securities Act.

As of December 31, 2018, shares of our Preferred Stock were convertible into 2,010,045 shares of Common Stock. On May 5, 2018, we filed a registration statement under the Securities Act relating to (i) 3,574,300 shares of Common Stock, consisting of 1,653,755 shares of Common Stock and 1,920,545 shares of Common Stock issuable upon the conversion of shares of Preferred Stock and (ii) 765,916 shares of Preferred Stock, for the sale by Coliseum Capital Co-Invest, L.P., Coliseum Capital Partners, L.P., Coliseum Capital Partners II, L.P. and Blackwell Partners, LLC - Series A (collectively, the "Coliseum Stockholders") of such securities, which was declared effective on June 15, 2018.

In August 2016, we filed a registration statement under the Securities Act to register additional shares of Common Stock to be issued under our equity compensation plans and, as a result, all shares of Common Stock acquired upon exercise of stock options granted under our plans will also be freely tradable under the Securities Act, unless purchased by our affiliates. As of December 31, 2018, there were stock options outstanding to purchase a total of 908,588 shares of our Common Stock and there were 52,131 shares of our Common Stock subject to restricted stock awards. In addition, 1,356,820 shares of our Common Stock are reserved for future issuances under the plan.

The terms of our Preferred Stock contain restrictive covenants that may impair our ability to conduct business and we may not be able to maintain compliance with the obligations under our outstanding Preferred Stock which could have a material adverse effect on our future results of operations and our stock price.

On February 11, 2015 and March 12, 2015, we issued $65.5 million and $15.8 million, respectively, of Preferred Stock. The terms of the Preferred Stock require us to pay mandatory quarterly dividends, either in cash or through an increase in the stated principal value of such stock. Our ability to satisfy and manage our obligations under our outstanding Preferred Stock depends, in part, on our ability to generate cash flow and on overall financial market conditions. Additionally, the terms of our Preferred Stock contain operating and financial covenants that limit management's discretion with respect to certain business matters. Among other things, these covenants, subject to certain limitations and exceptions, restrict our ability to incur additional debt, sell or otherwise dispose of our assets, make acquisitions, and merge or consolidate with other entities. As a

result of these covenants and restrictions, we may be limited in how we conduct our business, which could have a material adverse effect on our future results of operations and our stock price.

Future offerings of debt or equity securities that would rank senior to our Common Stock, may adversely affect the market price of our Common Stock.

If, in the future, we decide to issue debt or equity securities that rank senior to our Common Stock, it is likely that such securities will be governed by an indenture or other instrument containing covenants restricting our operating flexibility. Additionally, any convertible or exchangeable securities that we issue in the future may have rights, preferences and privileges more favorable than those of our Common Stock and may result in dilution to owners of our Common Stock. We and, indirectly, our stockholders, will bear the cost of issuing and servicing such securities. Because our decision to issue debt or equity securities in any future offering will depend on market conditions and other factors beyond our control, we cannot predict or estimate the amount, timing or nature of our future offerings. Thus, holders of our Common Stock will bear the risk of our future offerings reducing the market price of our Common Stock and diluting the value of their stock holdings in us.

Fulfilling our obligations incident to being a public company, including with respect to the requirements of and related rules under the Sarbanes-Oxley Act of 2002, is expensive and time-consuming, and any delays or difficulties in satisfying these obligations could have a material adverse effect on our future results of operations and our stock price.

We are subject to the reporting and corporate governance requirements, under the listing standards of NASDAQ and the Sarbanes-Oxley Act of 2002 (the "Sarbanes-Oxley Act"), that apply to issuers of listed equity, which impose certain significant compliance costs and obligations upon us. Being a publicly listed company requires a significant commitment of additional resources and management oversight resulting in increased operating costs. These requirements also place additional demands on our finance and accounting staff and on our financial accounting and information systems. Other expenses associated with being a public company include increases in auditing, accounting and legal fees and expenses, investor relations expenses, increased directors' fees and director and officer liability insurance costs, registrar and transfer agent fees and listing fees, as well as other expenses. As a public company, we are required, among other things, to define and expand the roles and the duties of our Board of Directors ("Board") and its committees and institute more comprehensive compliance and investor relations functions.

If we fail to maintain effective internal control over financial reporting in the future, the accuracy and timing of our financial reporting may be adversely affected. Preparing our consolidated financial statements involves a number of complex manual and automated processes, which are dependent upon individual data input or review and require significant management judgment. One or more of these elements may result in errors that may not be detected and could result in a material misstatement of our consolidated financial statements. If a material misstatement occurs in the future, we may fail to meet our future reporting obligations. For example, we may fail to file periodic reports in a timely manner or may need to restate our financial results, either of which may cause the price of our Common Stock to decline.

If the accounting estimates we make, and the assumptions on which we rely, in preparing our financial statements prove inaccurate, our actual results may be adversely affected.

Our financial statements have been prepared in accordance with GAAP. The preparation of these financial statements requires us to make estimates and judgments about, among other things, taxes, revenue recognition, contingent obligations, NET Services transportation expense, recoverability of long-lived assets and doubtful accounts. In addition, the implementation of ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606), which was effective for the Company beginning January 1, 2018, required a significant level of judgment and estimation. These estimates and judgments affect the reported amounts of our assets, liabilities, revenue and expenses, the amounts of charges accrued by us, and related disclosure of contingent assets and liabilities. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances and at the time they are made. If our estimates or the assumptions underlying them are not correct, we may need to accrue additional charges or reduce the value of assets that could adversely affect our results of operations, leading to a loss in investor confidence in our ability to manage our business and our stock price could decline.

Anti-takeover provisions in our second amended and restated certificate of incorporation and amended and restated by-laws could discourage, delay or prevent a change of control of our company and may affect the trading price of our Common Stock.

Our second amended and restated certificate of incorporation and amended and restated bylaws include a number of provisions that may be deemed to have anti-takeover effects, including provisions governing when and by whom special

meetings of our stockholders may be called, and provisions that may discourage, delay or prevent a change in our management or control over us that stockholders may consider favorable. In addition, in the event of certain change of control transactions, holders of Preferred Stock may be entitled under the governing certificate of designations to be paid both (i) the liquidation preference per share then in effect plus certain unpaid dividends and (ii) a pro rata portion of the transaction consideration on an as-converted

basis. As a result of these provisions, holders of our Common Stock may not receive the full benefit of any premium to the market price of our Common Stock offered by a bidder in a takeover context.

Even in the absence of a takeover attempt, the existence of these provisions may adversely affect the prevailing market price of our Common Stock if the provisions are viewed as discouraging takeover attempts in the future. Our second amended and restated certificate of incorporation and amended and restated by-laws may also make it difficult for stockholders to replace or remove our management. These provisions may facilitate management entrenchment that may delay, deter, render more difficult or prevent a change in our control, which may not be in the best interests of our stockholders.

We do not expect to pay dividends on our Common Stock and, consequently, your ability to achieve a return on your investment will depend on appreciation in the price of our Common Stock.

We currently do not expect to declare and pay dividends on our Common Stock for the foreseeable future. We currently intend to invest our future earnings, if any, to fund our growth, to develop our business, for working capital needs and for general corporate purposes. Therefore, you are not likely to receive any dividends on your Common Stock for the foreseeable future and the success of an investment in shares of our Common Stock will depend upon any future appreciation in their value. There is no guarantee that shares of our Common Stock will appreciate in value or even maintain the price at which stockholders have purchased their shares.

Item 1B. ***Unresolved Staff Comments.***

None.

Item 2. ***Properties.***

Our principal executive office is located in Stamford, Connecticut. As of February 22, 2019, we leased space in approximately 40 locations. The lease terms vary and we believe are generally at market rates. We believe that our properties are adequate for our current business needs, and believe that we can obtain adequate space, if needed, to meet our foreseeable business needs.

Item 3. ***Legal Proceedings.***

From time-to-time, we may become involved in legal proceedings arising in the ordinary course of our business. We cannot predict with certainty the potential for or outcome of any future litigation. Regardless of the outcome of any particular litigation and the merits of any particular claim, litigation can have a material adverse impact on our company due to, among other reasons, any injunctive relief granted which could inhibit our ability to operate our business, amounts paid as damages or in settlement of any such matter, diversion of management resources and defense costs.

On January 21, 2019, the United States District Court for the Southern District of Ohio unsealed a qui tam complaint, filed in December 2015, against Mobile Care Group, Inc., Mobile Care Group of Ohio, LLC, Mobile Care EMS & Transport, Inc. and LogistiCare Solutions, LLC ("LogistiCare") by the relators Brandee White, Laura Cunningham, and Jeffery Wisier (the "Relators") alleging violations of the federal False Claims Act by presenting claims for payment to government healthcare programs knowing that the prerequisites for such claims to be paid had not been met. The Relators seek to recover damages, fees and costs under the federal False Claims Act including treble damages, civil penalties and attorneys' fees. In addition, the Relators seek reinstatement to their jobs with the Mobile Care entities. None of the Relators was employed by LogistiCare. Prior to January 21, 2019, LogistiCare had no knowledge of the complaint. The federal government has declined to intervene against LogistiCare. The Company intends to defend the litigation vigorously and believes that the case will not have a material adverse effect on its business, financial condition or results of operations.

Item 4. ***Mine Safety Disclosures.***

Not applicable.

PART II

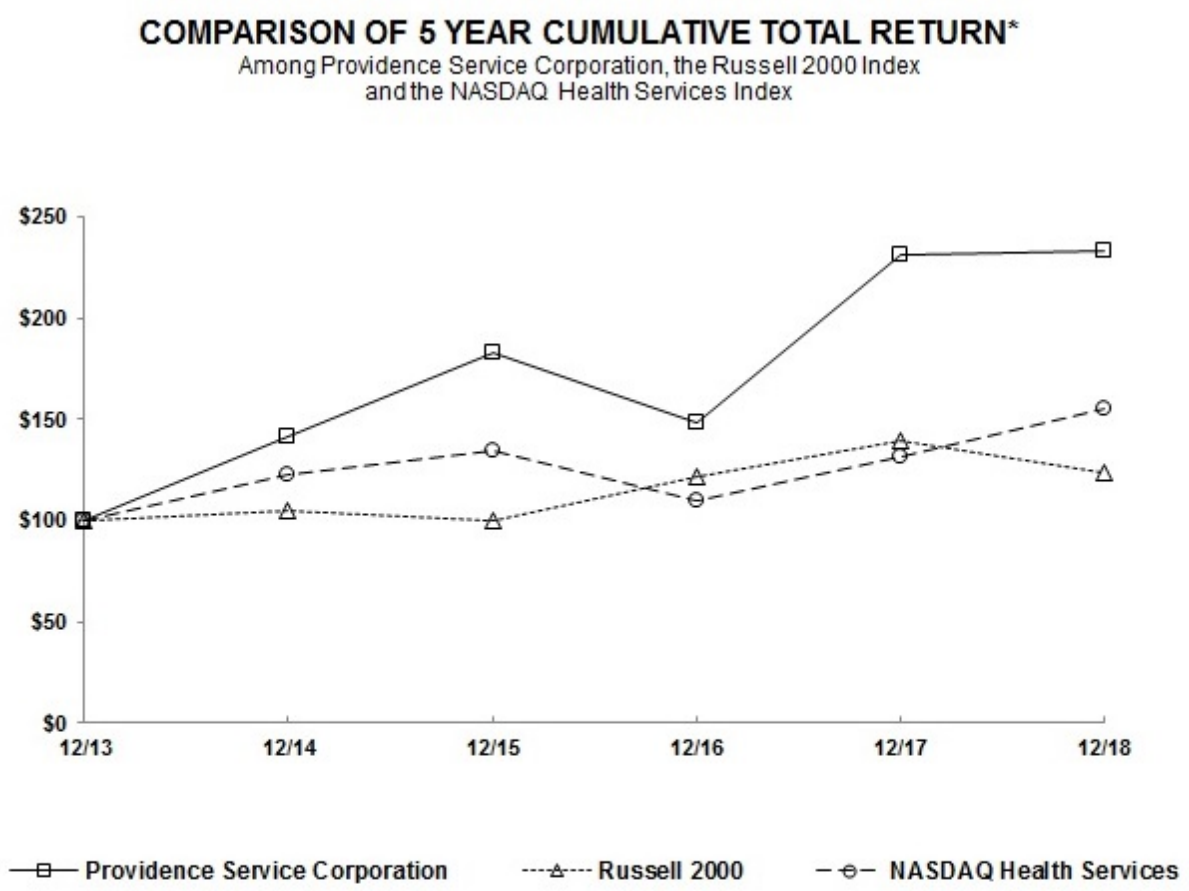
Item 5. ***Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities.***

Market for our Common Stock

Our Common Stock, our only class of common equity, has been quoted on NASDAQ under the symbol "PRSC" since August 19, 2003. Prior to that time there was no public market for our Common Stock. As of February 22, 2019, there were 26 holders of record of our Common Stock.

Stock Performance Graph

The following graph shows a comparison of the cumulative total return for our Common Stock, NASDAQ Health Services Index and Russell 2000 Index assuming an investment of $100 in each on December 31, 2013.



Dividends

We have not paid any cash dividends on our Common Stock and currently do not expect to pay dividends on our Common Stock. In addition, our ability to pay dividends on our Common Stock is limited by the terms of our Credit

Agreement and our Preferred Stock. The payment of future cash dividends, if any, will be reviewed periodically by the Board and will depend upon,

among other things, our financial condition, funds from operations, the level of our capital and development expenditures, any restrictions imposed by present or future debt or equity instruments, and changes in federal tax policies, if any.

Issuer Purchases of Equity Securities

Period	Total Number of Shares of Common Stock Purchased (1)	Average Price Paid per Share	Total Number of Shares of Common Stock Purchased as Part of Publicly Announced Program (2)	Maximum Dollar Value of Shares of Common Stock that May Yet Be Purchased Under Program (2) (in thousands)
Fourth quarter:				
October 1, 2018 to October 31, 2018	—	$ —	—	$ 81,177
November 1, 2018 to November 30, 2018	226	$ 67.66	—	$ 81,177
December 1, 2018 to December 31, 2018	968	$ 65.70	—	$ 81,177
Total	1,194	$ 66.07	—	

(1) Includes shares that were acquired from employees in connection with the settlement of income tax and related benefit withholding obligations arising from vesting in restricted stock awards.

(2) On October 26, 2016, our Board authorized a new repurchase program, under which the Company may repurchase up to $100.0 million in aggregate value of the Company's Common Stock during the twelve-month period following October 26, 2016. Through October 26, 2017, a total of 770,808 shares were purchased through this plan for $30.4 million, excluding commission payments.

On November 2, 2017, our Board approved the extension of the Company's prior stock repurchase program, authorizing the Company to engage in a repurchase program to repurchase up to $69.6 million (the amount remaining from the $100.0 million repurchase amount authorized in 2016) in aggregate value of our Common Stock through December 31, 2018. Subsequently, on March 29, 2018, the Board authorized an increase in the amount available for stock repurchases under the Company's existing stock repurchase program by $77.8 million, and extended the existing stock repurchase program through June 30, 2019. Purchases under the repurchase program may be made from time-to-time through a combination of open market repurchases (including Rule 10b5-1 plans), privately negotiated transactions, and accelerated share repurchase transactions, at the discretion of the Company's officers, and as permitted by securities laws, covenants under existing bank agreements, and other legal requirements. As of December 31, 2018, a total of 1,018,989 shares were purchased through the extended plan approved on November 2, 2017, for $66.3 million, excluding commission payments. For additional information, see Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations – Liquidity and Capital Resources".

Item 6. ***Selected Financial Data.***

We have derived the following selected financial data from the consolidated financial statements and related notes. The information set forth below is not necessarily indicative of future results. This information should be read in conjunction with our consolidated financial statements and the related notes, and Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations", all of which are included elsewhere in this Annual Report on Form 10-K.

Significant transactions which occurred during the periods presented include the acquisition of Ingeus effective May 30, 2014, which primarily comprised our WD Services segment; the investment in Mission Providence, a joint venture in Australia, which commenced operations in 2014 but was sold on September 29, 2017; our equity interest in Matrix effective October 19, 2016, which was originally acquired on October 23, 2014, comprised our HA Services segment through October 19, 2016; and the acquisition of Circulation effective September 21, 2018, which is included in our NET Services segment. The operations of HA Services, Human Services, which was sold effective November 1, 2015, and WD Services, which was sold effective December 21, 2018, have been presented as discontinued operations for all periods presented.

(1) General and administrative expense for the year ended December 31, 2018 includes $1.7 million in acquisition costs related to the acquisition of Circulation and $8.4 million in restructuring and related costs related to the Organizational Consolidation.

(2) In conjunction with the acquisition of Circulation and an analysis of the technology capabilities and scalability of the Circulation platform, we determined we would not continue the development of our NextGen technology. We also determined we would not place any of the developed NextGen technology into service, and recorded an asset impairment charge of $13.5 million related to our NET Services segment during the fourth quarter of 2018. In addition, we had previously recorded an impairment charge of $0.7 million during the second quarter of 2018 in relation to the decision to abandon specific development work intended to synchronize data across applications of the proprietary NextGen systems, based on the determination of an alternative method to accomplish this task.

(3) On September 21, 2018, we acquired all of the outstanding equity of Circulation. The purchase price was comprised of cash consideration of $45.1 million paid to Circulation's equity holders (including holders of vested Circulation stock options), other than Providence. Our initial investment in Circulation was $3.0 million. As a result of the transaction, the fair value of this pre-acquisition interest increased to $9.6 million, and thus we recognized a gain of $6.6 million.

(4) On December 21, 2018, we completed the sale of our WD Services segment. Included in (loss) income from discontinued operations, net of tax, for 2018 is a loss, net of tax, on the WD Services sale of $1.1 million. We additionally sold our Ingeus France operations, effective July 17, 2018 and recorded a loss on the sale of $0.7 million. We also incurred an impairment charge of $9.2 million for the adjustment of the carrying value of the assets and liabilities of Ingeus France to its estimated fair value when it was initially recorded as held for sale during 2018, which is included in (loss) income from discontinued operations, net of tax.

(5) Other income for the year ended December 31, 2017 includes the receipt of the Haverhill Litigation settlement of $5.4 million. See further information on the Haverhill Litigation in Note 20, *Commitments and Contingencies,* in the accompanying consolidated financial statements.

(6) (Loss) income from discontinued operations, net of tax, for the year ended December 31, 2017 includes a gain on sale of equity investment of $12.4 million related to the sale of the Company's equity interest in Mission Providence. The investment in Mission Providence was part of the WD Services segment.

(7) (Loss) income from discontinued operations, net of tax, for the years ended December 31, 2017 and 2016 include losses of $6.0 million and $5.6 million, respectively, related to potential indemnification claims for our historical Human Services segment.

(8) The year ended December 31, 2017 includes a net tax benefit of $15.9 million related to the enactment of the Tax Reform Act (as defined below) during the fourth quarter of 2017 due to the re-measurement of deferred tax liabilities by Providence as a result of the reduction in the U.S. corporate tax rate. Providence realized a benefit of $19.3 million,

partially offset by $3.4 million of increased tax expense resulting from additional equity in net gain of Matrix, due to Matrix's re-measurement of its deferred tax liabilities. In addition, the tax provision was adversely impacted by tax expense of $3.6 million related to the Company's 2015 Holding Company LTI Program (the "HoldCo LTIP"), for which expense was incurred for financial

reporting purposes, but no shares were issued due to the market condition of the award not being satisfied and thus no tax deduction was realized.

(9) On October 19, 2016, we completed the Matrix Transaction. Included in (loss) income from discontinued operations, net of tax, for 2016 is a gain on the transaction, net of tax, totaling $109.4 million. In conjunction with the completion of this transaction, we fully repaid the amounts outstanding on our term loans and Credit Facility in 2016.

(10) On November 1, 2015, we completed the sale of our Human Services segment. Included in (loss) income from discontinued operations, net of tax, for 2015 is a gain on the sale of the Human Services segment, net of tax, totaling $100.3 million.

(11) Equity in net (gain) loss of investees relates to Matrix, which became an equity investment upon the completion of the Matrix Transaction. We recorded $6.2 million in equity in net loss of investees and $13.4 million in equity in net gain of investees in 2018 and 2017, respectively. We recorded $1.8 million in equity in net loss of investees for the period of October 19, 2016 through December 31, 2016. The equity in net gain from Matrix for the year ended December 31, 2017 includes a benefit of $13.6 million related to the re-measurement of deferred tax liabilities arising from a lower U.S. corporate tax rate as a result of the Tax Reform Act. As a result of the increased equity income, Providence incurred higher tax expense of $3.4 million, which is reflected as a component of “Provision for income taxes” in the table above. The investment in Matrix at December 31, 2018 of $161.5 million is included in “Equity investments” in our consolidated balance sheet.

(12) 2014 includes $4.5 million of financing fees that were deferred and fully expensed within interest expense in the fourth quarter of 2014 in relation to bridge financing commitments and $3.0 million of third-party financing fees that are included in general and administrative expense.

Item 7. ***Management's Discussion and Analysis of Financial Condition and Results of Operations.***

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with Item 6. "Selected Financial Data" and our consolidated financial statements and related notes included in Item 8. "Financial Statements and Supplementary Data" of this report. This discussion and analysis contains forward-looking statements that involve risks, uncertainties and other factors that may cause actual results to differ materially from those projected in any forward-looking statements, as discussed in "Disclosure Regarding Forward-Looking Statements". These risks and uncertainties include but are not limited to those set forth in Item 1A. "Risk Factors".

Overview of Our Business

Please refer to *Item 1. "Business"* of this Annual Report on Form 10-K for a discussion of our services and corporate strategy.

We own subsidiaries and investments primarily engaged in the provision of healthcare services in the United States. Our NET Services segment, which primarily operates under the brands LogistiCare and Circulation, is the largest manager of NET programs for state governments and MCOs in the United States. On September 21, 2018, we completed the acquisition of Circulation, which offers a full suite of logistics solutions to manage NET programs across all areas of healthcare, powered by its HIPAA-compliant digital platform. Circulation's technology expands LogistiCare's capabilities to manage transportation benefits, integrating all transportation capabilities while proactively monitoring for fraud waste and abuse and emphasizing member convenience and satisfaction.

Our Matrix Investment segment consists of a minority investment in Matrix, a nationwide provider of home and mobile-based healthcare services for health plans in the United States, including CHAs, quality gap closure visits, "level of service" needs assessments, and post-acute and chronic care management, providing such services through a network of community-based clinicians and a fleet of mobile health clinics with advanced diagnostics capabilities.

Our Corporate and Other segment includes the Company's executive, accounting, finance, internal audit, tax, legal, public reporting, and corporate development functions, as well as the results of the Company's captive insurance company. On April 11, 2018, the Company announced the Organizational Consolidation. LogistiCare will retain its name and continue to be headquartered in Atlanta, GA, and the Company will continue to be named The Providence Service Corporation and be listed on NASDAQ under the ticker symbol "PRSC". The Organizational Consolidation is expected to be complete by the second quarter of 2019.

Business Outlook and Trends

Our performance is affected by a number of trends that drive the demand for our services. In particular, the markets in which we operate are exposed to various trends such as healthcare industry and demographic dynamics. Over the long term, we believe there are numerous factors that could affect growth within the industries in which we operate, including:

- an aging population, which will increase demand for healthcare services and transportation;
- a movement towards value-based versus fee for service care and budget pressure on governments, both of which may increase the use of private corporations to provide necessary and innovative services;
- increasing demand for in-home care provision, driven by cost pressures on traditional reimbursement models and technological advances enabling remote engagement;
- technological advancements, which may be utilized by us to improve service and lower costs, but also by others which may increase industry competitiveness; and
- proposals by the President of the United States and Congress to change the Medicaid program, including considering converting the Medicaid program to a block grant format or capping the federal contribution to state Medicaid programs to a fixed amount per beneficiary, and CMS' grant of waivers to states relative to the parameters of their Medicaid programs. Enactment of adverse legislation, regulation or agency guidance, or litigation challenges to ACA, state Medicaid programs, or other governmental programs may reduce the eligibility or demand for our services, our ability to conduct some or all of our business and/or reimbursement rates for services performed within our segments.

On December 21, 2018, the Company completed the WD Services Sale, except for the segment's employment services operations in Saudi Arabia. Our contractual counterparties in Saudi Arabia, including an entity owned by the Saudi Arabian government, assumed these operations beginning January 1, 2019. The total cash consideration from the sale was approximately $46.5 million, with the buyer retaining existing WD Services cash of $21.0 million. In addition to the purchase consideration, the

Company expects to be able to realize cash tax benefits of approximately $51.9 million as a result of the transaction, including approximately $34.3 million in tax refunds by the fourth quarter of 2019 in relation to its 2018 tax returns and loss carrybacks, which is inclusive of $0.6 million of tax that would have been otherwise due in the fourth quarter of 2018. The remaining cash tax benefit of $17.6 million is expected to be realized as an offset to tax payments over the following three years, based upon the Company's current estimate of taxable income. In addition, $1.1 million of benefits related to future capital loss is available, which amount was reserved as of December 31, 2018.

On September 21, 2018, the Company completed the acquisition of Circulation, which offers a full suite of logistics solutions to manage non-emergency transportation across all areas of healthcare, powered by its HIPAA-compliant digital platform. Circulation enables administration of transportation benefits, proactively monitors for fraud waste and abuse, and integrates all transportation capabilities, while emphasizing patient convenience and satisfaction. Circulation's proprietary platform simplifies ordering, improves reliability and efficiency, and reduces transportation spend. We believe the acquisition advances our central mission of reducing transportation as a barrier to healthcare, and will help deliver a differentiated user experience and provide a core technology and analytics platform that better positions us for growth. Following the acquisition and an analysis of the technology capabilities and scalability of the Circulation platform, we determined we will utilize the Circulation platform to service our legacy and new contracts, which resulted in an impairment charge of $13.5 million to NextGen. See further information on the impairment in Note 7, *Property and Equipment,* in the accompanying consolidated financial statements. Also, in connection with the acquisition of Circulation, the Company established a management incentive plan ("MIP"), whereby certain key employees of Circulation may be entitled to cash payments if certain financial measures are met based upon cumulative NET Services EBITDA; less the assumption of former Corporate and Other segment costs; less cumulative CAPEX ("MIP Financial Performance") for the performance period January 1, 2019 to December 31, 2021 as compared to the baseline, as determined by the Board. To the extent amounts are earned, the payout date is within 30 days following the finalization of the Company's audited financial statements for the fiscal year ending December 31, 2021. Payout is subject to the participant remaining employed by the Company through December 31, 2021. The amount that can be earned through the MIP ranges from $12.5 million to $237.5 million, based on a range of value of the MIP Financial Performance of $272.5 million to $395.5 million. As of December 31, 2018, the Company has accrued $1.4 million, reflected in "Other long-term liabilities" in the consolidated balance sheet, towards its estimate of the expected payout under the MIP.

On June 11, 2018, the Company entered into a Share Purchase Agreement to sell the shares of Ingeus France for a de minimis amount. The sale was effective on July 17, 2018, after court approval. As a result, an impairment charge of $9.2 million was recorded during the year ended December 31, 2018, and a loss, primarily related to the release of the effects of historic cumulative translation adjustments, of $0.7 million was recorded during the year ended December 31, 2018.

Revenues and Expenses

NET Services

NET Services primarily contracts with state Medicaid agencies and MCOs for the coordination of their members' non-emergency transportation needs. Most contracts are capitated, which means we are paid on a per-member, per-month basis for each eligible member. For most contracts, we arrange for transportation of members through our network of independent transportation providers, whereby we negotiate rates and remit payment to the transportation providers. However, for certain contracts, we assume no risk for the transportation network, credentialing and/or payments to these providers. For these contracts, we only provide administrative management services to support the customers' efforts to serve its clients.

Classification of Operating Expenses

Our "Service expense" line item includes the majority of the operating expenses of NET Services as well as our captive insurance company, with the exception of certain costs which are classified as "General and administrative expense". Service expense also excludes asset impairment charges and depreciation and amortization expenses. In the discussion below, we present the breakdown of service expense by the following major categories: purchased services, payroll and related costs, other operating expenses and stock-based compensation. Purchased services include the amounts we pay to third-party service providers and are typically dependent upon service volume. Payroll and related costs include all personnel costs of our segments. Other operating expenses include general overhead costs, excluding facilities and related charges, of our segments. Stock-based compensation represents the stock-based compensation expense associated with stock grants to employees of our segments.

Our “General and administrative expense” primarily includes the operating expenses of our corporate office, excluding depreciation and amortization, as well as acquisition related charges and facility related charges of NET Services.

Critical Accounting Policies and Estimates

Critical accounting policies and estimates are those that we believe are important in the preparation of our consolidated financial statements because they require that we use judgment and estimates in applying those policies. We prepare our consolidated financial statements and accompanying notes in accordance with GAAP. Preparation of the consolidated financial statements and accompanying notes requires that we make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities as of the date of the consolidated financial statements as well as revenue and expenses during the periods reported. We base our estimates on historical experience, where applicable, and other assumptions that we believe are reasonable under the circumstances. Actual results may differ from our estimates under different assumptions or conditions.

There are certain critical estimates that we believe require significant judgment in the preparation of our consolidated financial statements. We consider an accounting estimate to be critical if:

- it requires us to make an assumption because information was not available at the time or it included matters that were highly uncertain at the time the estimate is made; and
- changes in the estimate or different estimates that could have been selected may have had a material impact on our financial condition or results of operations.

For more information on each of these policies, see Note 2, *Significant Accounting Policies and Recent Accounting Pronouncements*, to our consolidated financial statements. We discuss information about the nature and rationale for our critical accounting estimates below.

Accrued Transportation Costs

We accrue the cost of transportation expense within NET Services based on request for services and the amount we expect to be billed by transportation providers, as we generally only pay transportation providers for completed trips based upon documentation submitted after services have been provided. The transportation accrual requires significant judgment, as the accrual is based upon contractual rates and mileage estimates, as well as an estimated rate for unknown cancellations, as members may have requested transportation but not notified us of cancellation. Based upon historical experience and contract terms, we estimate the amount of expense incurred for invoices which have not yet been submitted as of period end. Actual expense could be greater or less than the amounts estimated due to changes in member or transportation provider behavior.

Business Combinations

We assign the value of the consideration transferred to acquire a business to the tangible assets and identifiable intangible assets acquired and liabilities assumed on the basis of their fair values at the date of acquisition. Any excess purchase price paid over the fair value of the net tangible and intangible assets acquired is allocated to goodwill. When determining the fair values of assets acquired and liabilities assumed, management makes significant estimates and assumptions, especially with respect to intangible assets. Critical estimates in valuing certain intangible assets include but are not limited to future expected cash flows from customer relationships, developed technology and trade names, and discount rates. Management's estimates of fair value are based upon assumptions believed to be reasonable, but which are inherently uncertain and unpredictable. As a result, actual results may differ significantly from estimates.

Recoverability of Goodwill and Definite-Lived Intangible Assets

Goodwill. In accordance with ASC 350, *Intangibles-Goodwill and Other*, we review goodwill for impairment annually, or more frequently, if events and circumstances indicate that an asset may be impaired. Such circumstances could include, but are not limited to: (1) the loss or modification of significant contracts, (2) a significant adverse change in legal factors or in business climate, (3) unanticipated competition, (4) an adverse action or assessment by a regulator, or (5) a significant decline in the Company's stock price. We perform the annual goodwill impairment test for all reporting units as of October 1.

First, we perform qualitative assessments for each reporting unit to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If the qualitative assessment suggests that it is more likely than not that the fair value of a reporting unit is less than its carrying value amount, we then perform a quantitative assessment and compare the fair value of the reporting unit to its carrying value.

We adopted ASU No. 2017-04, *Intangibles-Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment* ("ASU 2017-04") effective April 1, 2017. ASU 2017-04 removes the requirement to compare the implied fair value of goodwill with its carrying amount as part of step two of the goodwill impairment test. Instead, if we deem it necessary to perform the quantitative goodwill impairment test in an annual or interim period, we recognize an impairment charge equal to the excess, if any, of a reporting unit's carrying amount over its fair value, not to exceed the total amount of goodwill allocated to the reporting unit.

Long-Lived Assets Including Intangibles. In accordance with ASC 360, *Property, Plant, and Equipment*, we review the carrying value of long-lived assets or groups of assets to be used in operations whenever events or changes in circumstances indicate that the carrying amount of the assets may be impaired. Factors that may necessitate an impairment assessment include, among others, significant adverse changes in the extent or manner in which an asset or group of assets is used, significant adverse changes in legal factors or the business climate that could affect the value of an asset or group of assets or significant declines in the observable market value of an asset or group of assets. The presence or occurrence of those events indicates that an asset or group of assets may be impaired. In those cases, we assess the recoverability of an asset or group of assets by determining whether the carrying value of the asset or group of assets exceeds the sum of the projected undiscounted cash flows expected to result from the use and eventual disposition of the assets over the remaining economic life of the asset or the primary asset in the group of assets. If such testing indicates the carrying value of the asset or group of assets is not recoverable, we estimate the fair value of the asset or group of assets using appropriate valuation methodologies, which would typically include an estimate of discounted cash flows. If the fair value of those assets or groups of assets is less than carrying value, we record an impairment loss equal to the excess of the carrying value over the estimated fair value.

The use of different estimates or assumptions in determining the fair value of our goodwill and intangible assets may result in different values for those assets, which could result in an impairment or, in the period in which an impairment is recognized, could result in a materially different impairment charge.

Income Taxes

We record income taxes under the liability method. Deferred tax assets and liabilities reflect our estimation of the future tax consequences of temporary differences between the carrying amounts of assets and liabilities for book and tax purposes. We determine deferred income taxes based on the differences in accounting methods and timing between financial statement and income tax reporting. Accordingly, we determine the deferred tax asset or liability for each temporary difference based on the enacted tax rates expected to be in effect when we realize the underlying items of income and expense. We consider many factors when assessing the likelihood of future realization of our deferred tax assets, including our recent earnings experience by jurisdiction, expectations of future taxable income, and the carryforward periods available to us for tax reporting purposes, as well as other relevant factors. We may establish a valuation allowance to reduce deferred tax assets to the amount we believe is more likely than not to be realized. Due to inherent complexities arising from the nature of our businesses, future changes in income tax law, tax sharing agreements or variances between our actual and anticipated operating results, we make certain judgments and estimates. Therefore, actual income taxes could materially vary from these estimates.

We record liabilities to address uncertain tax positions we have taken in previously filed tax returns or that we expect to take in a future tax return. The determination for required liabilities is based upon an analysis of each individual tax position, taking into consideration whether it is more likely than not that our tax position, based on technical merits, will be sustained upon examination. For those positions for which we conclude it is more likely than not it will be sustained, we recognize the largest amount of tax benefit that is greater than 50 percent likely of being realized upon ultimate settlement with the taxing authority. The difference between the amount recognized and the total tax position is recorded as a liability. The ultimate resolution of these tax positions may be greater or less than the liabilities recorded.

On December 22, 2017, the Tax Reform Act was enacted, which significantly changes U.S. tax law by, among other things, lowering corporate income tax rates, implementing a territorial tax system and imposing a repatriation tax on deemed repatriated earnings of foreign subsidiaries. The Tax Reform Act permanently reduces the U.S. corporate income tax rate from a maximum of 35% to a flat 21% rate, effective January 1, 2018. The Tax Reform Act also provides for a one-time deemed repatriation of post-1986 undistributed foreign subsidiary earnings and profits through the year ended December 31, 2017.

On December 22, 2017, the SEC staff issued Staff Accounting Bulletin No. 118 ("SAB 118") to address the application of GAAP in situations when a registrant does not have the necessary information available, prepared, or analyzed (including computations) in reasonable detail to complete the accounting for certain income tax effects of the Tax Reform Act. We recognized the provisional tax impacts related to deemed repatriated earnings and the benefit for the revaluation of deferred

tax assets and liabilities, and included these amounts in our consolidated financial statements for the year ended December 31, 2017. The financial

reporting impact of the Tax Reform Act was completed in the fourth quarter of 2018 and an additional benefit of $0.3 million was recorded.

Reinsurance and Self-Insurance Liabilities

We historically reinsured a substantial portion of our automobile, general and professional liability and workers' compensation costs under reinsurance programs through our wholly-owned subsidiary, Social Services Providers Captive Insurance Company ("SPCIC"), a licensed captive insurance company domiciled in the State of Arizona. In conjunction with the policy renewals on May 16, 2017, SPCIC did not renew the expiring policies. However, SPCIC continues to resolve claims under the historical policy years. In addition, under the current policies, the Company retains liability up to the policy deductibles. In addition, we maintain self-funded health insurance programs for employees with a stop-loss umbrella policy with a third-party insurer to limit the maximum potential liability for individual claims and for a maximum potential claim liability based on member enrollment. We utilize independent actuarial reports to determine the expected losses and in order to record the appropriate entries associated with our historical reinsurance programs, our retained exposure for the deductibles under our current policies, and self-funded health insurance programs. We regularly analyze our reserves for incurred but not reported claims, and for reported but not paid claims related to our reinsurance and self-funded insurance programs. We believe our reserves are adequate. However, significant judgment is involved in assessing these reserves such as evaluating historical paid claims, average lag times between the claims' incurred date, reported dates and paid dates, and the frequency and severity of claims. There may be differences between actual settlement amounts and recorded reserves and any resulting adjustments are recorded once a probable amount is known.

Revenue Recognition

NET Services provides non-emergency transportation services pursuant to contractual commitments over defined service delivery periods. For most contracts, NET Services arranges for transportation of members through its network of independent transportation providers, whereby it remits payment to the transportation providers. However, for certain contracts, NET Services only provides administrative management services to support the customers' efforts to serve its clients, and the amount of revenue recognized is based upon the management fee earned.

These contracts typically include single performance obligations under which NET Services stands ready to deliver management, fulfillment and record-keeping related to non-emergency transportation services. Transportation management services include, but are not limited to, fraud, waste, and abuse and utilization review programs as well as compliance controls. NET Services' performance obligations consist of a series of distinct services that are substantially the same and which are transferred to the customer in the same manner. In most cases, NET Services is the principal in its arrangements because it controls the services before transferring those services to the customer.

NET Services primarily uses the 'as invoiced' practical expedient to recognize revenue because it typically has the right to consideration from customers in an amount that corresponds directly with the value of its performance to date. This is consistent with NET Services' historical revenue recognition policy. NET Services recognizes revenue for some of its contracts that include variable consideration using a time-elapsed measure when the fees earned relate directly to services performed in the period. Because most contracts include termination for convenience clauses with required notice periods of less than one year, most NET Services contracts are deemed to be short-term in nature.

Some of NET Services' contracts include provisions whereby it must provide certain levels of service or face potential penalties or be required to refund fees paid by the customer. For those contracts, NET Services records a provision to reduce revenue to reflect the amount to which it expects it will ultimately be entitled.

Deferred Revenue

At times we may receive funding for certain services in advance of services being rendered. These amounts are reflected in the consolidated balance sheets as "Deferred revenue" until the services are rendered.

Stock-Based Compensation

Our primary forms of employee stock-based compensation are stock option awards and restricted stock awards, including certain awards which vest based upon performance conditions. We measure the value of stock option awards on the date of grant at fair value using the appropriate valuation techniques, including the Black-Scholes and Monte Carlo option-pricing models. We recognize the fair value as stock-based compensation expense on a straight-line basis over the requisite

service period, which is typically the vesting period. The pricing models require various highly judgmental assumptions including volatility and expected option term. If any of the assumptions used in the models change significantly, stock-based compensation expense may differ materially in the future from that recorded in the current period. We do not record stock-based compensation expense net of

estimated forfeitures and the tax effects of awards are treated as discrete items in the period in which tax windfalls or shortfalls occur. See additional discussion included in Note 2, *Significant Accounting Policies and Recent Accounting Pronouncements*, to our consolidated financial statements.

Our tax rate is subject to quarterly volatility from the effects of stock award exercises and vesting activities, including the adverse impact on our income tax provision for awards which result in a tax deduction less than the amount recorded for financial reporting purposes based upon the fair value of the award at the grant date.

Restructuring, Redundancy and Related Reorganization Costs

We accrue for severance and other employee separation costs when it is probable that benefits would be paid and the amounts are reasonably estimable. The amounts used in determining severance accruals are based on an estimate of the salaries and related benefit costs payable and are included in accrued expenses to the extent they have not been paid.

Results of Operations

Segment reporting. Our operations are organized and reviewed by management along our segment lines. We operate in one principal business segment, NET Services. Our investment in Matrix is also a reportable segment referred to as the "Matrix Investment". Segment results are based on how our chief operating decision maker manages our business, makes operating decisions and evaluates operating performance. The operating results of our principal business segment include revenue and expenses incurred by the segment, as well as an allocation of direct expenses incurred by our corporate division on behalf of the segment, which primarily relate to insurance and stock-based compensation allocations. Indirect expenses, including unallocated corporate functions and expenses, such as executive, accounting, finance, internal audit, tax, legal, public reporting, certain strategic and corporate development functions and the results of the Company's captive insurance company and elimination entries recorded in consolidation are reflected in "Corporate and Other".

Discontinued operations. During the periods presented, the Company completed the following transactions, which resulted in the presentation of the operations as Discontinued Operations.

- On November 1, 2015, the Company completed the sale of its Human Services segment. In addition to the results through the sale date, the Company has recorded additional expenses related to legal proceedings related to an indemnified legal matter.

- On October 19, 2016, affiliates of Frazier Healthcare Partners purchased a 53.2% equity interest in Matrix with Providence retaining a 46.8% equity interest at the time of the transaction. Prior to the closing of the Matrix Transaction, the financial results of Matrix were included in the Company's HA Services segment.

- On December 21, 2018, the Company completed the sale of substantially all of the operating subsidiaries of its WD Services segment to APM and APM UK Holdings Limited, an affiliate of APM, except for the segment's employment services operations in Saudi Arabia. The Company's contractual counterparties in Saudi Arabia, including an entity owned by the Saudi Arabian government, assumed these operations beginning January 1, 2019. Additionally, on June 11, 2018, the Company entered into a Share Purchase Agreement to sell Ingeus France for a de minimis amount. The sale was effective on July 17, 2018, after court approval.

Year ended December 31, 2018 compared to year ended December 31, 2017

The following table sets forth results of operations and the percentage of consolidated total revenues represented by items in our consolidated statements of operations for 2018 and 2017 (in thousands):

	Year ended December 31,			
	2018		2017	
	$	Percentage of Revenue	$	Percentage of Revenue
Service revenue, net	1,384,965	100.0 %	1,318,220	100.0 %
Operating expenses:				
Service expense	1,284,603	92.8 %	1,223,627	92.8 %
General and administrative expense	46,098	3.3 %	43,491	3.3 %
Asset impairment charge	14,175	1.0 %	—	— %
Depreciation and amortization	15,813	1.1 %	13,618	1.0 %
Total operating expenses	1,360,689	98.2 %	1,280,736	97.2 %
Operating income	24,276	1.8 %	37,484	2.8 %
Non-operating expense:				
Interest expense, net	1,783	0.1 %	1,204	0.1 %
Other income	—	— %	(5,363)	(0.4)%
Equity in net loss (gain) of investees	6,158	0.4 %	(13,445)	(1.0)%
Gain on remeasurement of cost method investment	(6,577)	(0.5)%	—	— %
Income from continuing operations before income taxes	22,912	1.7 %	55,088	4.2 %
Provision for income taxes	4,684	0.3 %	4,003	0.3 %
Income from continuing operations	18,228	1.3 %	51,085	3.9 %
(Loss) income from discontinued operations, net of tax	(37,053)	(2.7)%	2,735	0.2 %
Net (loss) income	(18,825)	(1.4)%	53,820	4.1 %
Net (income) loss from discontinued operations attributable to noncontrolling interest	(156)	— %	(451)	— %
Net (loss) income attributable to Providence	(18,981)	(1.4)%	53,369	4.0 %

Service revenue, net. Consolidated service revenue, net for 2018 increased $66.7 million, or 5.1%, compared to 2017 due to an increase in revenue of NET Services.

Total operating expenses. Consolidated operating expenses for 2018 increased $80.0 million, or 6.2%, compared to 2017. Operating expenses for 2018 compared to 2017 included an increase in expenses attributable to NET Services of $76.0 million and Corporate and Other of $4.0 million. NET Services' operating expenses include asset impairment charges of $14.2 million for 2018.

Operating income. Consolidated operating income for 2018 decreased $13.2 million compared to 2017 due to an increase in the operating loss for Corporate and Other of $4.0 million in 2018 as compared to 2017, and a decrease in operating income of NET Services in 2018 as compared to 2017 of $9.3 million.

Interest expense, net. Consolidated interest expense, net for 2018 increased $0.6 million, or 48.1%, compared to 2017, and remained consistent as a percentage of revenue. The increase was attributable to borrowings on the revolving line of credit during the second half of 2018 used to fund the Circulation acquisition, which were repaid as of December 31, 2018.

Other income. Other income in 2017 of $5.4 million represents the settlement received from the Haverhill Litigation.

Equity in net (gain) loss of investees. Our equity in net (gain) loss of investees for 2018 of $6.2 million represents equity in net loss for Matrix. Our equity in net gain of investees for 2017 of $13.4 million represents equity in net gain for Matrix. We began reporting Matrix as an equity investment effective October 19, 2016, upon the completion of the Matrix Transaction, and we record our ownership percentage of Matrix's profit or loss in net loss or gain of investees. Included in Matrix's 2018 full standalone net loss of $20.0 million (which is not consolidated with Providence's) are depreciation and amortization of $43.1 million, interest expense of $25.9 million, integration related costs of $6.5 million, equity compensation of $2.7 million, management fees paid to Matrix's shareholders of $4.9 million, merger and acquisition diligence related costs of $2.3 million and income tax benefit of $7.2 million. Included in Matrix's 2017 full standalone net income of $26.7 million (which is not consolidated with Providence's) are depreciation and amortization of $33.5 million, interest expense of $14.8 million, transaction bonuses and other transaction related costs of $3.5 million, equity compensation of $2.6 million, management fees paid to Matrix's shareholders of $2.3 million and income tax benefit of $29.6 million. Matrix's significant income tax benefit in 2017 primarily related to the re-measurement of deferred tax liabilities arising from a lower U.S. corporate tax rate as a result of the Tax Reform Act.

Gain on remeasurement of cost method investment. On September 21, 2018, we acquired all of the outstanding equity of Circulation. The purchase price was comprised of cash consideration of $45.1 million paid to Circulation's equity holders (including holders of vested Circulation stock options), other than Providence. Our initial investment in Circulation was $3.0 million. As a result of the transaction, the fair value of this pre-acquisition interest increased to $9.6 million, and thus we recognized a gain of $6.6 million.

Provision for income taxes. Our effective tax rate from continuing operations for 2018 was 20.4%. The effective tax rate was relatively consistent with the U.S. federal statutory rate of 21%, reflecting the benefit of stock option exercises and tax credits, partially offset by the impact of state income tax.

Our effective tax rate from continuing operations for 2017 was 7.3%. The effective tax rate was lower than the U.S. federal statutory rate of 35% primarily due to the impact of the Tax Reform Act. The tax provision includes a benefit of $15.9 million related to the enactment of the Tax Reform Act during the fourth quarter of 2017, consisting of a net tax benefit of $19.3 million from the re-measurement of deferred tax liabilities from the lower U.S. corporate tax rate, partially offset by additional tax expense of $3.4 million due to an increase in our equity in net gain of Matrix as a result of Matrix's re-measurement of deferred tax liabilities. In addition, the Company incurred tax expense of $3.6 million related to the HoldCo LTIP, for which expense was recorded for financial reporting purposes based upon fair value of the award at the grant date, but no shares were issued due to the market condition of the award not being satisfied. This tax expense was the result of the adoption of Accounting Standards Update No. 2016-09, *Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting* ("ASU 2016-09"), which subjects our tax rate to quarterly volatility from the effects of stock award exercises and vesting activities, including the adverse impact on our income tax provision for awards which result in a tax deduction less than the amount recorded for financial reporting purposes.

(Loss) income from discontinued operations, net of tax. (Loss) income from discontinued operations, net of tax, includes the activity of our former WD Services segment and our former Human Services segment. For 2018, the loss from discontinued operations, net of tax, for our former WD Services segment was of $37.0 million. Included in the loss was a loss on disposition, net of tax, of $1.8 million as well as an asset impairment charge of $9.2 million related to the sale of WD Services operations in France in the second quarter of 2018. For 2017, income from discontinued operations, net of tax for our WD Services segment was $8.7 million, which included a gain on sale of our equity interest in Mission Providence of $12.4 million.

For 2018, the loss from discontinued operations, net of tax for our Human Services segment was $0.1 million, which primarily reflects a reduction of the accrued settlement amount for indemnified legal matters, based on the final settlement agreement, offset by the related income tax impact. For 2017, the loss from discontinued operations, net of tax for our Human Services segment was $6.0 million, which primarily related to the accrual of a contingent liability of $9.0 million related to the settlement of indemnification claims and associated legal costs of $0.7 million, partially offset by a related tax benefit.

Net (income) loss from discontinued operations attributable to noncontrolling interests. Net (income) loss from discontinued operations attributable to noncontrolling interests primarily relates to a minority interest held by a third-party operating partner in our company servicing the offender rehabilitation contract in our historical WD Services segment.

Segment Results. The following analysis includes discussion of each of our segments.

NET Services

NET Services financial results are as follows for 2018 and 2017 (in thousands):

	Year Ended December 31,			
	2018		2017	
	$	Percentage of Revenue	$	Percentage of Revenue
Service revenue, net	1,384,965	100.0%	1,318,220	100.0%
Service expense	1,285,029	92.8%	1,227,426	93.1%
General and administrative expense	14,247	1.0%	11,779	0.9%
Asset impairment charge	14,175	1.0%	—	—%
Depreciation and amortization	15,026	1.1%	13,275	1.0%
Operating income	56,488	4.1%	65,740	5.0%

Service revenue, net. Service revenue, net for NET Services in 2018 increased $66.7 million, or 5.1%, compared to 2017. The increase was primarily related to the impact of new contracts, including managed care organization ("MCO") contracts in Illinois, Indiana, Oregon and New York and new state contracts in Texas and West Virginia, which contributed $112.8 million of revenue for 2018, as well as net increased revenue from existing contracts of $39.2 million, due to the net impact of membership and rate changes, including the impact of increased rates agreed after 2017 on certain contracts related to increased costs to serve the contracts, which was partially offset by the impact of a retroactive rate adjustment recorded in 2017 related to increased utilization activity under a significant contract. Revenue additionally increased $2.2 million due to revenue generated from Circulation in the fourth quarter of 2018. These increases were partially offset by the impact of contracts we no longer serve, including state contracts in New York and Connecticut, certain MCO contracts in Florida and Louisiana, and decreased membership in Virginia, which resulted in a decrease in revenue of $72.0 million. In addition, the adoption of ASC 606 resulted in a decrease in revenue of $15.5 million in 2018 as compared to revenue under the previous accounting standard, as one contract is now accounted for on a net basis.

Service expense. Service expense is comprised of the following for 2018 and 2017 (in thousands):

	Year Ended December 31,			
	2018		2017	
	$	Percentage of Revenue	$	Percentage of Revenue
Purchased services	1,055,278	76.2%	1,009,518	76.6%
Payroll and related costs	179,175	12.9%	165,666	12.6%
Other operating expenses	49,626	3.6%	51,720	3.9%
Stock-based compensation	950	0.1%	522	—%
Total service expense	1,285,029	92.8%	1,227,426	93.1%

Service expense for 2018 increased $57.6 million, or 4.7%, compared to 2017. The increase in service expense was primarily due to higher purchased services and payroll and related costs. Purchased services expense increased primarily as a result of new contracts, which was partially offset by the impact of terminated contracts. Purchased services as a percentage of revenue decreased from 76.6% in 2017 to 76.2% in 2018. This was due primarily to lower transportation costs on a per trip basis in certain geographies as a result of ongoing initiatives to better align the rates we pay to our transportation provider partners with local market conditions and the fees paid to us by our customers. Transportation costs on a per trip basis fluctuate from period to period.

Payroll and related costs as a percentage of revenue increased from 12.6% in 2017 to 12.9% in 2018 due to increased corporate staffing, temporary labor and increased health insurance expenses, as well as the impact from the acquisition of

Circulation. Other operating expenses decreased for 2018 as compared to 2017 primarily attributable to a decrease in costs targeted at operational improvement from $6.3 million in 2017 to $2.8 million in 2018. This decrease was partially offset by increased software and hardware maintenance costs associated with new technology initiatives.

General and administrative expense. General and administrative expenses in 2018 increased $2.5 million, or 21.0%, as compared to 2017, primarily due to $1.7 million of transaction expenses related to the acquisition of Circulation in 2018, as well as increased facility costs resulting from the overall growth of our operations.

Asset impairment charge. Following the acquisition of Circulation and an analysis of the technology capabilities and scalability of the Circulation platform, we determined we would not continue the development of NextGen. We also determined we would not place any of the developed NextGen into service and recorded an asset impairment charge of $13.5 million related to our NET Services segment during the fourth quarter of 2018. We had previously recorded an impairment charge of $0.7 million during the second quarter of 2018 in relation to the decision to abandon specific development work intended to synchronize data across applications of the proprietary NextGen system, based on the determination of an alternative method to accomplish this task.

Depreciation and amortization expense. Depreciation and amortization expenses increased $1.8 million compared to 2017, primarily due to the addition of long-lived assets relating to information technology projects, as well as amortization expense related to the intangible assets acquired with the Circulation acquisition. As a percentage of revenue, depreciation and amortization increased to 1.1% for 2018 from 1.0% for 2017.

Corporate and Other

Corporate and Other includes the headcount and professional service costs incurred at the Providence corporate level, our captive insurance company, and elimination entries to account for inter-segment transactions. Corporate and Other financial results are as follows for 2018 and 2017 (in thousands):

	Year Ended December 31,	
	2018	**2017**
	$	**$**
Service expense	(426)	(3,799)
General and administrative expense	31,851	31,712
Depreciation and amortization	787	343
Operating loss	(32,212)	(28,256)

Operating loss. Corporate and Other operating loss in 2018 increased by $4.0 million, or 14.0%, as compared to 2017. Included in "General and administrative expense" for 2018 are $8.4 million of expenses relating to the Organizational Consolidation, including retention, recruitment and accelerated stock-based compensation expenses. Additionally, included in "Depreciation and amortization" is $0.4 million of accelerated depreciation expense incurred in relation to the Organizational Consolidation. General and administrative expenses for 2018 also include an increase in legal and consulting costs over 2017. Included in both 2018 and 2017 is a reduction in insurance loss reserves in "Service expense" due to favorable claims history of our captive reinsurance program.

The operating loss included expense of less than $0.1 million and $2.4 million, respectively, of cash settled stock-based compensation for 2018 and 2017, primarily as a result of an increase in the Company's stock price in 2017 as compared to a decrease in 2018. The operating loss included $6.3 million and $7.1 million, respectively, of share settled stock-based compensation, excluding accelerated stock-based compensation expense related to the Organizational Consolidation, for 2018 and 2017. Share settled stock-based compensation expense for 2017 included stock-based compensation for the HoldCo LTIP of $4.7 million.

Costs associated with the resignation of James Lindstrom, a former Chief Executive Officer of the Company, during the year ended December 31, 2017 include cash compensation related items of $0.9 million, stock-based compensation of $0.7 million, and other costs of $0.2 million. These costs are recorded as part of "General and administrative expense".

Year ended December 31, 2017 compared to year ended December 31, 2016

The following table sets forth results of operations and the percentage of consolidated total revenues represented by items in our consolidated statements of operations for 2017 and 2016 (in thousands):

	Year ended December 31,			
	2017		2016	
	$	Percentage of Revenue	$	Percentage of Revenue
Service revenue, net	1,318,220	100.0 %	1,233,842	100.0%
Operating expenses:				
Service expense	1,223,627	92.8 %	1,131,963	91.7%
General and administrative expense	43,491	3.3 %	39,527	3.2%
Asset impairment charge	—	— %	1,415	0.1%
Depreciation and amortization	13,618	1.0 %	12,780	1.0%
Total operating expenses	1,280,736	97.2 %	1,185,685	96.1%
Operating income	37,484	2.8 %	48,157	3.9%
Non-operating expense:				
Interest expense, net	1,204	0.1 %	1,515	0.1%
Other income	(5,363)	(0.4)%	—	—%
Equity in net (gain) loss of investees	(13,445)	(1.0)%	1,789	0.1%
Income from continuing operations before income taxes	55,088	4.2 %	44,853	3.6%
Provision for income taxes	4,003	0.3 %	17,972	1.5%
Income from continuing operations	51,085	3.9 %	26,881	2.2%
Income from discontinued operations, net of tax	2,735	0.2 %	62,965	5.1%
Net income	53,820	4.1 %	89,846	7.3%
Net (income) loss from discontinued operations attributable to noncontrolling interest	(451)	— %	2,082	0.2%
Net income attributable to Providence	53,369	4.0 %	91,928	7.5%

Service revenue, net. Consolidated service revenue, net for 2017 increased $84.4 million, or 6.8%, compared to 2016 due to an increase in revenue of NET Services.

Total operating expenses. Consolidated operating expenses for 2017 increased $95.1 million, or 8.0%, compared to 2016. Operating expenses for 2017 compared to 2016 included an increase in expenses attributable to NET Services of $95.8 million, which was partially offset by a decrease at Corporate and Other of $0.7 million. 2016 operating expenses include an asset impairment charge of $1.4 million at Corporate and Other.

Operating income. Consolidated operating income for 2017 decreased $10.7 million compared to 2016 due to a decrease in operating income of NET Services in 2017 as compared to 2016 of $11.3 million, which was partially offset by a decrease in the operating loss for Corporate and Other of $0.6 million in 2017 as compared to 2016.

Interest expense, net. Consolidated interest expense, net for 2017 decreased $0.3 million compared to 2016, and remained constant as a 0.1% of revenue.

Other income. Other income in 2017 of $5.4 million represents the settlement received from the Haverhill Litigation.

Equity in net (gain) loss of investees. Our equity in net (gain) loss of investees for 2017 includes equity in net gain for Matrix of $13.4 million. Our equity in net loss of investees for 2016 includes equity in net loss for Matrix of $1.8 million. We

began reporting Matrix as an equity investment effective October 19, 2016, upon the completion of the Matrix Transaction, and we record our ownership percentage of Matrix's profit or loss in net loss or gain of investees. Included in Matrix's 2017 full standalone net income of $26.7 million (which is not consolidated with Providence's) are depreciation and amortization of $33.5 million, interest expense of $14.8 million, transaction bonuses and other transaction related costs of $3.5 million, equity compensation of $2.6 million, management fees paid to Matrix's shareholders of $2.3 million, merger and acquisition diligence related costs of $0.7 million and income tax benefit of $29.6 million. Matrix's significant income tax benefit in 2017 primarily related to the re-measurement of deferred tax liabilities arising from a lower U.S. corporate tax rate as a result of the Tax Reform Act. Included in Matrix's 2016 full standalone net loss of $4.2 million (which is not consolidated with Providence's) are depreciation and amortization of $6.4 million, interest expense of $2.9 million, transaction bonuses and other transaction related costs of $6.4 million, equity compensation of $0.4 million, management fees paid to Matrix's shareholders of $0.4 million and income tax benefit of $2.8 million.

Provision for income taxes. Our effective tax rate from continuing operations for 2017 was 7.3%. The effective tax rate was lower than the U.S. federal statutory rate of 35% primarily due to the impact of the Tax Reform Act. The tax provision includes a benefit of $15.9 million related to the enactment of the Tax Reform Act during the fourth quarter of 2017, consisting of a net tax benefit of $19.3 million from the re-measurement of deferred tax liabilities from the lower U.S. corporate tax rate, partially offset by additional tax expense of $3.4 million due to an increase in our equity in net gain of Matrix as a result of Matrix's re-measurement of deferred tax liabilities. In addition, the Company incurred tax expense of $3.6 million related to the HoldCo LTIP, for which expense was recorded for financial reporting purposes based upon fair value of the award at the grant date, but no shares were issued due to the market condition of the award not being satisfied. This tax expense was the result of the adoption of ASU 2016-09, which subjects our tax rate to quarterly volatility from the effects of stock award exercises and vesting activities, including the adverse impact on our income tax provision for awards which result in a tax deduction less than the amount recorded for financial reporting purposes.

Our effective tax rate from continuing operations for 2016 was 40.1%. The effective tax rate was higher than the U.S. federal statutory rate of 35% primarily due to the impact of state taxes.

Income from discontinued operations, net of tax. Income from discontinued operations, net of tax, includes the activity of our former WD Services segment, Human Services segment and our former HA Services segment, composed entirely of our 100% ownership in Matrix until the completion of the Matrix Transaction on October 19, 2016. See Note 23, *Discontinued Operations,* to our consolidated financial statements for additional information.

For 2017, income from discontinued operations, net of tax for our WD Services segment was $8.7 million, which included a gain on sale of our equity interest in Mission Providence of $12.4 million. For 2016, the loss from discontinued operations, net of tax for our WD Services segment was $45.8 million, which included an asset impairment charge of $19.6 million.

For 2017, loss from discontinued operations, net of tax for our Human Services segment was $6.0 million, which primarily related to the accrual of a contingent liability of $9.0 million related to the settlement of indemnification claims and associated legal costs of $0.7 million, partially offset by a related tax benefit. For 2016, the loss from discontinued operations, net of tax for our Human Services segment was $5.6 million, which included an accrual of $6.0 million with respect to potential indemnification claims, legal costs of $1.1 million related to these potential claims and transaction related expenses of $0.8 million, partially offset by a related tax benefit.

Income from discontinued operations, net of tax for our HA Services segment was $114.3 million for 2016, which included a gain on disposition, net of tax, of $109.4 million.

Net (income) loss from discontinued operations attributable to noncontrolling interests. Net (income) loss from discontinued operations attributable to noncontrolling interests primarily relates to a minority interest held by a third-party operating partner in our company servicing the offender rehabilitation contract in our historical WD Services segment.

Segment Results. The following analysis includes discussion of each of our segments.

NET Services

NET Services financial results are as follows for 2017 and 2016 (in thousands):

	Year Ended December 31,			
	2017		2016	
	$	Percentage of Revenue	$	Percentage of Revenue
Service revenue, net	1,318,220	100.0%	1,233,720	100.0%
Service expense	1,227,426	93.1%	1,132,857	91.8%
General and administrative expense	11,779	0.9%	11,406	0.9%
Depreciation and amortization	13,275	1.0%	12,375	1.0%
Operating income	65,740	5.0%	77,082	6.2%

Service revenue, net. Service revenue, net for NET Services in 2017 increased $84.5 million, or 6.8%, compared to 2016. The increase was related to net increased revenue from existing contracts, including successfully renewed contracts, of $82.5 million, due to the net impact of membership and rate changes. Included within net rate changes are the positive impacts of final agreements on rate adjustments related to existing contracts that experienced increased utilization in 2017 as well as the release of previously accrued revenue hold-backs based on certain contract performance requirements on a significant contract. Additionally, the impact of new contracts, including new MCO contracts in Florida and New York, contributed $93.8 million of revenue for 2017. These increases were partially offset by the $91.8 million impact on revenue of contracts we no longer serve, including a contract with the state of New York.

Service expense. Service expense is comprised of the following for 2017 and 2016 (in thousands):

	Year Ended December 31,			
	2017		2016	
	$	Percentage of Revenue	$	Percentage of Revenue
Purchased services	1,009,518	76.6%	927,321	75.2%
Payroll and related costs	165,666	12.6%	162,000	13.1%
Other operating expenses	51,720	3.9%	42,478	3.4%
Stock-based compensation	522	—%	1,058	0.1%
Total service expense	1,227,426	93.1%	1,132,857	91.8%

Service expense for 2017 increased $94.6 million, or 8.3%, compared to 2016. The increase in service expense was primarily attributable to the impact of new MCO contracts in California, Florida and New York. Purchased services as a percentage of revenue increased from 75.2% in 2016 to 76.6% in 2017 primarily attributable to an increase in utilization across multiple contracts. The higher utilization was in part driven by increased Medicaid reimbursement in New Jersey for certain medical services, increasing the demand for transportation services, and increased utilization across multiple MCOs in California. Additionally, due to milder winter weather conditions during the first quarter of 2017, we experienced above expected utilization; however, we experienced lower utilization for contracts in the third quarter of 2017 due in part to the impact of Hurricane Irma. The increase in purchased services as a percentage of revenue caused by increased utilization was partially offset by the successful implementation of initiatives aimed at lowering transportation costs on a per trip and per mile basis as well as the release of a reserve based upon the finalization of a contract amendment with a state customer.

Payroll and related costs as a percentage of revenue decreased from 13.1% in 2016 to 12.6% in 2017 due to efficiencies gained from multiple process improvement initiatives, including those aimed at lowering payroll expense across our reservation and operation center networks, as well as a decrease in chief executive officer compensation expense due to the transition of the chief executive officer position during 2017. Other operating expenses increased for 2017 as compared to 2016

primarily attributable to an incremental $4.1 million of value enhancement and related costs incurred for external resources used in the design and

implementation of NET Services member experience and value enhancement initiatives in 2017, as well as increased software and hardware maintenance costs associated with increased use of information technology.

General and administrative expense. General and administrative expense in 2017 increased $0.4 million, or 3.3%, as compared to 2016, due to increased facility costs resulting from the overall growth of our operations. As a percentage of revenue, general and administrative expense remained constant at 0.9%.

Depreciation and amortization expense. Depreciation and amortization expense increased $0.9 million primarily due to the addition of long-lived assets relating to information technology projects. As a percentage of revenue, depreciation and amortization remained constant at 1.0%.

Corporate and Other

Corporate and Other includes the headcount and professional service costs incurred at the holding company level, at our captive insurance company, and elimination entries to account for inter-segment transactions. Corporate and Other financial results are as follows for 2017 and 2016 (in thousands):

	Year Ended December 31,	
	2017	**2016**
	$	**$**
Service revenue, net	—	122
Service expense	(3,799)	(894)
General and administrative expense	31,712	28,121
Asset impairment charge	—	1,415
Depreciation and amortization	343	405
Operating loss	(28,256)	(28,925)

Operating loss. Corporate and Other operating loss in 2017 decreased by $0.6 million, or 2.3%, as compared to 2016 primarily due a reduction in insurance loss reserves of $3.5 million in 2017, versus $2.5 million in 2016, due to favorable claims history of our captive reinsurance programs, as well as decreased costs of the captive operations due to no longer writing new policies as of May 2017, which is included in "Service expense", decreased accounting, legal and professional fees included in "General and administrative expense", and decreased asset impairment charges, as $1.4 million was recorded in 2016 in relation to the sale of a building. These decreases were partially offset by an increase in cash settled stock-based compensation expense of $3.6 million, primarily as a result of an increase in the Company's stock price in 2017 as compared to a decrease in 2016, an increase in share settled stock-based compensation expense of $2.7 million, primarily related to an increase in expense for the HoldCo LTIP despite this program expiring with no shares due to any employees, expense for stock options issued to a former chief executive officer upon separation from the Company, and a benefit recorded in 2016 for performance based units, with no corresponding benefit in 2017.

General and administrative expense includes stock-based compensation for the HoldCo LTIP of $4.7 million and $3.3 million for 2017 and 2016, respectively. No shares were distributed under the HoldCo LTIP as the volume weighted average of Providence's stock price over the 90-day trading period ended on December 31, 2017 was less than $56.79. As such, as of December 31, 2017, we accelerated all remaining unrecognized compensation expense for the Holdco LTIP as there was no further requisite service period associated with the award resulting in an acceleration of expense of $1.1 million. General and administrative expense also includes $0.4 million and $1.6 million for 2017 and 2016, respectively, related to a shareholder lawsuit.

Costs associated with the resignation of James Lindstrom during the year ended December 31, 2017 include cash compensation related items of $0.9 million, stock-based compensation of $0.7 million, and other costs of $0.2 million. These costs are recorded as part of "General and administrative expense".

Seasonality

Our quarterly operating results and operating cash flows normally fluctuate due in part to seasonal factors, uneven demand for services and the timing of new contracts, which impact the amount of revenues earned and expenses incurred. NET Services

experiences fluctuations in demand during the summer and winter. Due to higher demand in the summer months, lower demand during the winter months, and a primarily fixed revenue stream based on a per-member, per-month payment structure, NET Services normally experiences lower operating margins during the summer season and higher operating margins during the winter.

Liquidity and Capital Resources

Short-term capital requirements consist primarily of recurring operating expenses, new contract start-up costs and costs associated with our Organizational Consolidation and other strategic initiatives. We expect to meet our cash requirements through available cash on hand, cash generated from NET Services, and borrowing capacity under our Credit Facility (as defined below).

Cash flow from operating activities was $7.9 million in 2018. Additionally, 2018 included $12.8 million in proceeds from the sale of our WD Services segment and cash outflows of $43.7 million related to the acquisition of Circulation, which are included in cash used in investing activities, and $12.4 million of proceeds from stock option exercises and cash outflows of $56.1 million for repurchases of common stock for treasury, which are included in cash used in financing activities. Our balance of cash, cash equivalents and restricted cash was $12.4 million and $101.6 million at December 31, 2018 and 2017, respectively, which includes cash of discontinued operations.

We had restricted cash of $4.4 million and $6.3 million at December 31, 2018 and 2017, respectively, primarily related to contractual obligations and activities of our captive insurance subsidiary. Given expiring policies under our captive insurance subsidiary were not renewed upon expiration in May 2017, we expect our restricted cash balances to decline over time. These restricted cash amounts are not included in our balance of cash and cash equivalents, although they are included in the cash, cash equivalents and restricted cash balance on the accompanying consolidated statements of cash flows, as a result of the adoption of Accounting Standards Update No. 2016-18, *Statement of Cash Flows (Topic 230): Restricted Cash,* as of January 1, 2018. At both December 31, 2018 and 2017, we had no amounts outstanding under our Credit Facility.

We may, from time to time, access capital markets to raise equity or debt financing for various business reasons, including acquisitions. We may also raise debt financing to fund future repurchases of our Common Stock. The timing, term, size, and pricing of any such financing will depend on investor interest and market conditions, and there can be no assurance that we will be able to obtain any such financing. During the second quarter of 2018, we extended the term of our Credit Facility to expire in August 2019, as further discussed below. At the end of the third quarter of 2018, we borrowed funds on our revolving credit facility to acquire Circulation. As of December 31, 2018, these amounts were fully repaid.

On March 29, 2018, the Company's Board of Directors amended our ongoing stock repurchase program to add an additional $77.8 million of capacity and extend the expiration date of the program from December 31, 2018 to June 30, 2019. As of December 31, 2018, the Company had approximately $81.2 million of share repurchase availability. During the year ended December 31, 2018, the Company repurchased 838,719 shares for $55.8 million.

The accompanying consolidated cash flow statement for all periods presented includes both continuing and discontinued operations. Discontinued operations include the activity of our historical WD Services, Human Services and HA Services segments. The loss from discontinued operations totaled $37.1 million for the year ended December 31, 2018, while income from discontinued operations totaled $2.7 million and $63.0 million for the years ended December 31, 2017 and 2016, respectively. For 2018, the loss from discontinued operations primarily related to the operating loss of our historical WD Services segment, as well as the loss, net of tax, of $1.8 million incurred on the disposition of subsidiaries within this segment. The significant income from discontinued operations during the year ended December 31, 2016 related to the gain on sale of our HA Services segment. Significant non-cash items of our discontinued operations included the following:

	2018	2017	2016
Depreciation	$ 6,711	$ 7,825	$ 11,799
Amortization	5,153	5,026	23,145
Asset impairment charge	9,203	—	19,588
Deferred income taxes	345	(3,940)	45,700

2018 cash flows compared to 2017

Operating activities. Cash provided by operating activities was $7.9 million for 2018, a decrease of $47.1 million compared with 2017. 2018 and 2017 cash flows from operations were driven by net loss of $18.8 million and net income $53.8 million,

respectively, non-cash adjustments to reconcile net income to net cash provided by operating activities of $67.1 million and negative $11.1 million, respectively, and changes in working capital of negative $40.3 million and positive $12.3 million, respectively.

The change in non-cash adjustments to reconcile net income to net cash provided by operating activities was due primarily to the impact of:

- the asset impairment charge incurred in 2018 of $23.4 million, of which $9.2 million is included in discontinued operations related to the sale of WD Services operations in France;
- the impact on deferred taxes and income taxes receivable as a result of the sale of substantially all of the operating subsidiaries in the WD Services segment in 2018 and as a result of the Tax Reform Act passed in 2017;
- the pre-tax loss on sale of subsidiaries of $53.7 million in 2018, which includes a non-cash reclass of $30.0 million from currency translation adjustment;
- the gain on remeasurement of our cost method investment in Circulation of $6.6 million in 2018;
- the gain on sale of Mission Providence of $12.4 million in 2017; and
- the impact of the change in equity in net (gain) loss of investees, which was a loss of $6.1 million in 2018 as compared to a gain of $12.1 million in 2017.

The change in working capital was primarily driven by the following:

- Accounts receivable generated a cash outflow in 2018 of $31.0 million as compared to an inflow of $5.7 million in 2017. The increase in cash outflow of $36.7 million was primarily attributable to NET Services due to the timing of collections from a limited number of payers, which was partially offset by $13.1 million of additional cash inflow from discontinued operations.
- Accounts payable and accrued expenses generated a cash outflow of $21.8 million in 2018, as compared to a cash outflow of $9.1 million in 2017. The increase in cash outflow of $12.7 million is primarily the result of the settlement of indemnified legal claims in 2018, of which $9.0 million was accrued for during 2017, which was partially offset by an increase in cash inflow from discontinued operations of $7.8 million and the impact of changes in the NET Services accrued contract payable balance.
- Accrued transportation costs of NET Services generated a cash inflow of $1.3 million in 2018, as compared to a cash inflow of $11.2 million in 2017. The decrease in cash inflow of $9.9 million is due primarily to the timing of payments to NET Services transportation providers.

Investing activities. Net cash used in investing activities of $45.3 million in 2018 increased by $38.3 million as compared to 2017. The increase was primarily attributable to the purchase of Circulation resulting in cash used for acquisition, net of cash acquired, of $43.7 million, which was partially offset by $12.8 million of proceeds on the sale of WD Services. Additionally, 2017 includes the impact of $15.6 million in proceeds from the sale of our equity investment in Mission Providence. During 2018, we also collected a note receivable for $3.1 million. Additionally in 2017, we made a cost method investment in Circulation for $3.0 million. There was also a decrease in the purchase of property and equipment of $2.4 million. 2018 and 2017 included purchases of property and equipment of $6.7 million and $4.5 million, respectively, by our discontinued operations.

Financing activities. Net cash used in financing activities of $51.6 million in 2018 increased $17.8 million as compared to 2017. During 2018, we repurchased $26.7 million more of our Common Stock than in 2017. In addition, there was an increase in proceeds from Common Stock issued pursuant to stock option exercises of $10.5 million.

2017 cash flows compared to 2016

Operating activities. Cash provided by operating activities was $55.0 million for 2017, an increase of $13.3 million compared with 2016. 2017 and 2016 cash flows from operations were driven by net income of $53.8 million and $89.8 million, respectively, non-cash adjustments to reconcile net income to net cash provided by operating activities of negative $11.1 million and negative $32.9 million, respectively, and changes in working capital of $12.3 million and negative $15.2 million, respectively.

The change in non-cash adjustments to reconcile net income to net cash provided by operating activities was due primarily to the impact of:

- the disposition of HA Services in 2016, resulting in decreased gain on sale of business, depreciation, amortization and deferred taxes in 2017 as compared to 2016;
- the asset impairment charge incurred in 2016 of $21.0 million, which is included in discontinued operations;

- the impact on deferred taxes as a result of the Tax Reform Act passed in 2017;
- the gain on sale of Mission Providence of $12.4 million in 2017, which is included in discontinued operations; and
- the impact of the change in equity in net (gain) loss of investees, which was a gain of $12.1 million in 2017 as compared to a loss of $10.3 million in 2016.

The change in working capital was primarily driven by the following:

- Accounts receivable generated a cash inflow in 2017 of $5.7 million as compared to an outflow of $19.3 million in 2016. The increase in cash inflow of $25.0 million was primarily attributable to NET Services due to the timing of collections as well as an outflow of $3.1 million of HA Services in 2016. These changes were partially offset by cash outflows in 2017 related to an increase in WD Services' receivables in Germany, Saudi Arabia, South Korea and the UK.
- Prepaid expenses and other generated a cash inflow of $15.5 million in 2017, as compared to a cash outflow of $4.1 million in 2016. The increase in cash inflow of $19.5 million was primarily attributable to a decrease in other receivables related to amounts receivable from insurance carriers in respect to certain claims paid by the Company, but reimbursable from the respective insurance carrier, decreased receivables related to our captive insurance company insurance policy rewrite, decreased prepaid value added taxes in the UK, decreased prepayments in WD Services in relation to certain contracts and changes in income tax payments.
- Accounts payable and accrued expenses generated a cash outflow of $9.1 million in 2017, as compared to a cash inflow of $33.4 million in 2016. The decrease in cash inflow of $42.4 million is due primarily to the impact of NET Services accrued contract payments of $21.5 million, as well as the disposition of HA Services, which generated a cash inflow of $10.6 million in 2016. Partially offsetting these impacts is the impact of the increase in the accrued settlement related to our former Human Services segment of $9.0 million during 2017 as compared to an increase of $6.0 million in 2016.
- Accrued transportation costs of NET Services generated a cash inflow of $11.2 million in 2017, as compared to a cash inflow of $8.7 million in 2016. The increase in cash inflow of $2.6 million is due primarily to the timing of payments to NET Services transportation providers and increased volume.
- Income taxes payable on sale of business for 2016 includes a cash outflow of $30.2 million related to the sale of our Human Services segment.

Investing activities. Net cash used in investing activities totaled $7.0 million in 2017, compared to cash provided by investing activities of $318.0 million in 2016. The change was primarily attributable to $371.6 million of proceeds on the Matrix Transaction recorded in 2016, which was partially offset by the impact of $15.6 million in proceeds from the sale of our equity investment in Mission Providence in 2017. Additionally in 2017, we made a cost method investment in Circulation for $3.0 million. There was also a decrease in funding of our equity investment in Mission Providence of $13.7 million and a decrease in the purchase of property and equipment of $21.3 million. 2017 and 2016 included purchases of property and equipment of $4.5 million and $29.0 million, respectively, by our discontinued operations.

Financing activities. Net cash used in financing activities of $33.8 million in 2017 decreased $343.0 million as compared to 2016. During 2016, there was a net repayment of debt of $305.0 million, primarily related to the repayment of debt upon the completion of the Matrix Transaction. Additionally, during 2017, we repurchased $41.0 million less of our Common Stock than in 2016. In addition, there was a decrease in proceeds from Common Stock issued pursuant to stock option exercises of $2.2 million.

Obligations and commitments

Current Credit Facility

We are party to the amended and restated credit and guaranty agreement, dated as of August 2, 2013 (as amended, the "Credit Agreement"), with Bank of America, N.A., as administrative agent, swing line lender and letter of credit issuer, and the other lenders party thereto. The Credit Agreement provides us with a $200.0 million revolving credit facility (the "Credit Facility"), including a sub-facility of $25.0 million for letters of credit. As of December 31, 2018, we had no borrowings and ten letters of credit in the amount of $12.3 million outstanding. At December 31, 2018, our available credit under the revolving credit facility was $187.7 million.

Under the Credit Agreement, the Company has an option to request an increase in the amount of the revolving credit facility or in a term loan facility from time to time (on substantially the same terms as apply to the existing facility) in an aggregate amount of up to $75.0 million with either additional commitments from lenders under the Credit Agreement at such time or new commitments from financial institutions acceptable to the administrative agent in its reasonable discretion, so long

as no default or event of default exists at the time of any such increase. The Company may not be able to access additional funds under this increase option as no lender is obligated to participate in any such increase under the Credit Facility. The Credit Agreement has a maturity date of August 2, 2019. See also "Risk Factors-Risks Related to our Indebtedness-Loss of available financing or an inability to renew, repay or refinance our debt could have an adverse effect on our financial condition and results of operations."

We may prepay any outstanding principal under the Credit Facility in whole or in part, at any time without premium or penalty, subject to reimbursement of the lenders' breakage and redeployment costs in connection with prepayments of London Interbank Offered Rate, or LIBOR, loans. The unutilized portion of the commitments under the Credit Facility may be irrevocably reduced or terminated by us at any time without penalty.

Interest on the outstanding principal amount of any loans accrues, at our election, at a per annum rate equal to LIBOR, plus an applicable margin or the base rate plus an applicable margin. The applicable margin ranges from 2.25% to 3.25% in the case of LIBOR loans and 1.25% to 2.25% in the case of the base rate loans, in each case, based on our consolidated leverage ratio as defined in the Credit Agreement. Interest on any loans is payable quarterly in arrears. In addition, we are obligated to pay a quarterly commitment fee based on a percentage of the unused portion of each lender's commitment under the Credit Facility and quarterly letter of credit fees based on a percentage of the maximum amount available to be drawn under each outstanding letter of credit. The commitment fee and letter of credit fee range from 0.25% to 0.50% and 2.25% to 3.25%, respectively, in each case, based on our consolidated leverage ratio.

The Credit Facility also requires us (subject to certain exceptions as set forth in the Amended and Restated Credit Agreement) to prepay the outstanding loans in an aggregate amount equal to 100% of the net cash proceeds received from certain asset dispositions, debt issuances, insurance and casualty awards and other extraordinary receipts.

Our obligations under the Credit Facility are guaranteed by all of our present and future domestic subsidiaries, excluding certain domestic subsidiaries, which includes our insurance captive. Our obligations under, and each guarantor's obligations under its guaranty of, the Credit Facility are secured by a first priority lien on substantially all of our respective assets, other than our equity investment in Matrix, including a pledge of 100% of the issued and outstanding stock of our domestic subsidiaries, excluding our insurance captive.

The Credit Agreement contains customary affirmative and negative covenants and events of default. The negative covenants include restrictions on our ability to, among other things, incur additional indebtedness, create liens, make investments, give guarantees, pay dividends, repurchase shares, sell assets, and merge and consolidate. We are subject to financial covenants, including consolidated net leverage and consolidated interest coverage covenants. The Company's consolidated net leverage ratio may not be greater than 3.00:1.00 as of the end of any fiscal quarter and the Company's consolidated interest coverage ratio may not be less than 3.00:1.00 as of the end of any fiscal quarter. We were in compliance with all covenants as of December 31, 2018.

Credit Facility Background

On August 2, 2013, we entered into the Credit Agreement with Bank of America, N.A., as administrative agent, swing line lender and letter of credit issuer, SunTrust Bank, as syndication agent, Merrill Lynch, Pierce, Fenner & Smith Incorporated and SunTrust Robinson Humphrey, Inc., as joint lead arrangers and joint book managers and other lenders party thereto. The Credit Agreement provided us with a senior secured credit facility, in aggregate principal amount of $225.0 million, comprised of a $60.0 million term loan facility and a $165.0 million revolving credit facility. The Credit Facility includes sublimits for swingline loans and letters of credit in amounts of up to $10.0 million and $25.0 million, respectively. On August 2, 2013, we borrowed the entire amount available under the term loan facility and $16.0 million under our revolving credit facility and used the proceeds thereof to refinance certain of our existing indebtedness.

On May 28, 2014, we entered into the first amendment to the Credit Agreement (the "First Amendment"). The First Amendment provided for, among other things, an increase in the aggregate amount of the Credit Facility from $165.0 million to $240.0 million and other modifications in connection with the consummation of the acquisition of Ingeus.

On October 23, 2014, we entered into the Second Amendment to the Credit Agreement (the "Second Amendment") to (i) add a new term loan tranche in aggregate principal amount of up to $250.0 million to partly finance the acquisition of Matrix and make certain other modifications in connection with the consummation of the acquisition of Matrix and (ii) add an excess cash flow mandatory prepayment provision.

On September 3, 2015, we entered into the Third Amendment to the Credit Agreement (the "Third Amendment"). Pursuant to the Third Amendment, the lenders under the Credit Agreement consented to Providence's sale of the Human Services segment

and certain other amendments to the terms of the Credit Agreement to reflect such consents.

On August 28, 2016, we entered into the Fourth Amendment and Consent (the "Fourth Amendment") to the Credit Agreement. In accordance with the Fourth Amendment, which provided for the lenders' consent to the Matrix Transaction, a portion of the net cash proceeds received by the Company in connection with the Matrix Transaction was applied to the prepayment of outstanding term loans and revolving loans. Additionally, effective following the repayment of the outstanding term loans in full on October 20, 2016, the Fourth Amendment further (i) reduced the aggregate revolving commitments under the Credit Agreement to $200.0 million, (ii) amended the consolidated net leverage ratio covenant such that the Company's consolidated net leverage ratio may not be greater than 3.00:1.00 as of the end of any fiscal quarter and (iii) replaced the existing consolidated fixed charge coverage ratio covenant with a covenant that the Company's consolidated interest coverage ratio may not be less than 3.00:1.00 as of the end of any fiscal quarter.

On June 7, 2018, we entered into the Fifth Amendment to the Credit Agreement (the "Fifth Amendment") which (i) extended the maturity date of the Credit Agreement to August 2, 2019 and (ii) amended certain covenants under the Credit Agreement to provide for greater operational, financial and strategic flexibility, including the implementation of the Organizational Consolidation.

We may from time to time incur additional indebtedness, obtain additional financing or refinance existing indebtedness, subject to market conditions and our financial condition.

Rights Offering

We completed a rights offering on February 5, 2015, allowing all of the Company's existing common stockholders the non-transferrable right to purchase their pro rata share of $65.5 million of Preferred Stock at a price equal to $100.00 per share (the "Rights Offering"). The Preferred Stock was convertible into shares of our Common Stock at a conversion price equal to $39.88, which was the closing price of our Common Stock on NASDAQ on October 22, 2014.

Stockholders exercised subscription rights to purchase 130,884 shares of the Company's Preferred Stock. Pursuant to the terms and conditions of the Standby Purchase Agreement between the Coliseum Stockholders and the Company, the remaining 524,116 shares of the Company's Preferred Stock were purchased by the Coliseum Stockholders at the $100.00 per share subscription price. The Coliseum Stockholders beneficially owned approximately 94% of our outstanding Preferred Stock after giving effect to the Rights Offering and the Standby Purchase Agreement. The Company received $65.5 million in aggregate gross proceeds from the consummation of the Rights Offering and Standby Purchase Agreement, which it used to repay the related party unsecured subordinated bridge note that was outstanding as of December 31, 2014.

Additionally, on March 12, 2015, the Coliseum Stockholders exercised their right to purchase an additional 150,000 shares of the Company's convertible preferred stock at a $105 per share subscription price.

We may pay a noncumulative cash dividend on each share of Preferred Stock, when, as and if declared by a committee of our Board, at the rate of 5.5% per annum on the liquidation preference then in effect. On or before the third business day immediately preceding each fiscal quarter, we determine our intention whether or not to pay a cash dividend with respect to that ensuing quarter and give notice of our intention to each holder of Preferred Stock as soon as practicable thereafter.

In the event we do not declare and pay a cash dividend, the liquidation preference will be increased to an amount equal to the liquidation preference in effect at the start of the applicable dividend period, plus an amount equal to such then applicable liquidation preference multiplied by 8.5% per annum, computed on the basis of a 365-day year and the actual number of days elapsed from the start of the applicable dividend period to the applicable date of determination.

Cash dividends are payable quarterly in arrears on January 1, April 1, July 1 and October 1 of each year, and, if declared, will begin to accrue on the first day of the applicable dividend period. Payment in kind ("PIK") dividends, if applicable, will accrue and be cumulative on the same schedule as set forth above for cash dividends and will also be compounded at the applicable annual rate on each applicable subsequent dividend date. PIK dividends are paid upon the occurrence of a liquidation event, conversion or redemption in accordance with the terms of the Preferred Stock. Cash dividends were declared each quarter for the years ended December 31, 2018 and 2017 and totaled $4.4 million each year. For information on the treatment of Preferred Stock in the event of a certain change of control transactions, see "Risk Factors–Risks Related to Our Capital Stock–Anti-takeover provisions in our second amended and restated certificate of incorporation and

amended and restated by-laws could discourage, delay or prevent a change of control of our company and may affect the trading price of our Common Stock."

Reinsurance and Self-Funded Insurance Programs

Reinsurance

We historically reinsured a substantial portion of our automobile, general and professional liability and workers' compensation costs under reinsurance programs primarily through our wholly-owned captive insurance subsidiary, Social Services Providers Captive Insurance Company, or SPCIC. As of May 16, 2017, SPCIC did not renew the expiring reinsurance policies. SPCIC will continue to resolve claims under the historical policy years.

At December 31, 2018, the cumulative reserve for expected losses since inception of these historical automobile, general and professional liability and workers' compensation reinsurance programs was $0.3 million, $0.8 million and $2.8 million, respectively. Based on an independent actuarial report, our expected losses related to workers' compensation, automobile and general and professional liability in excess of our liability under our associated historical reinsurance programs at December 31, 2018 was $6.6 million. We recorded a corresponding receivable from third-party insurers and liability at December 31, 2018 for these expected losses, which would be paid by third-party insurers to the extent losses are incurred.

Further, we had restricted cash of $4.4 million and $6.3 million at December 31, 2018 and December 31, 2017, respectively, which was primarily restricted to secure the reinsured claims losses under the historical automobile, general and professional liability and workers' compensation reinsurance programs.

Health Insurance

We offer our NET Services, U.S. based WD Services, and corporate employees an option to participate in self-funded health insurance programs. Additionally, we historically offered this option to our HA Services and Human Services segments' employees. During the year ended December 31, 2018, health claims were self-funded with a stop-loss umbrella policy with a third-party insurer to limit the maximum potential liability for individual claims generally to $300,000 per person, subject to an aggregating stop-loss limit of $400,000. In addition, the program has a total stop-loss limit for total claims, in order to limit our exposure to catastrophic claims.

Health insurance claims are paid as they are submitted to the plan administrator. We maintain accruals for claims that have been incurred but not yet reported to the plan administrator, and therefore, have not been paid. The incurred but not reported reserve is based on an established cap and current payment trends of health insurance claims. The liability for the self-funded health plan of $2.2 million as of December 31, 2018 and 2017, was recorded in "Reinsurance liability and related reserve" in our consolidated balance sheets.

We charge our employees a portion of the costs of our self-funded group health insurance programs. We determine this charge at the beginning of each plan year based upon historical and projected medical utilization data. Any difference between our projections and our actual experience is borne by us, up to the stop-loss limit. We estimate potential obligations for liabilities under this program to reserve what we believe to be a sufficient amount to cover liabilities based on our past experience. Any significant increase in the number of claims or costs associated with claims made under this program above what we reserve could have a material adverse effect on our financial results.

Contractual cash Obligations

The following is a summary of our future contractual cash obligations as of December 31, 2018:

	At December 31, 2018				
Contractual cash obligations (000's)	**Total**	**Less than 1 Year**	**1-3 Years**	**3-5 Years**	**After 5 Years**
Capital leases	$ 1,071	$ 718	$ 353	$ —	$ —
Interest (1)	445	445	—	—	—
Purchased services commitment (2)	35,231	13,805	21,419	7	—
Guarantees (3)	42,056	42,056	—	—	—
Letters of credit (3)	12,338	12,338	—	—	—
Operating leases (4)	27,039	8,825	11,046	5,568	1,600
Total	$ 118,180	$ 78,187	$ 32,818	$ 5,575	$ 1,600

(1) Future interest payments have been calculated at the current rates as of December 31, 2018.

(2) The purchased service commitment includes a commitment for transportation services. Our commitment amount represents the minimum obligation we have under this agreement. If the Company does not utilize the minimum level of services specified in the agreement, a penalty provision will apply. However, the minimum obligation is less than our projected use for these periods and payments may be more than the minimum obligation based on actual use.

(3) Guarantees and letters of credit ("LOCs") are commitments that represent funding responsibilities that may require our performance in the event of third-party demands or contingent events. Guarantees include surety bonds we provide to certain customers to protect against potential non-delivery of our non-emergency transportation services. Of the outstanding balance of our stand-by LOCs, $12.3 million directly reduces the amount available to us from our Credit Facility. The surety bonds and LOC amounts in the above table represent the amount of commitment expiration per period.

(4) The operating leases are for office space and related office equipment. We account for these leases on a monthly basis. Certain leases contain periodic rent escalation adjustments and renewal options.

Other than the items described above, we do not have any off-balance sheet arrangements as of December 31, 2018.

Stock repurchase programs

On November 4, 2015, our Board authorized us to engage in a repurchase program to repurchase up to $70.0 million in aggregate value of our Common Stock during the twelve-month period following November 4, 2015. This plan terminated on November 3, 2016. A total of 1,360,249 shares were purchased through this plan for $63.0 million, excluding commission payments.

On October 26, 2016, our Board authorized us to engage in a repurchase program to repurchase up to $100.0 million in aggregate value of our Common Stock during the twelve-month period following October 26, 2016. As of October 26, 2017, we spent $30.4 million, excluding commission payments, to purchase 770,808 shares of our Common Stock under this plan.

On November 2, 2017, the Board approved the extension of the Company's existing stock repurchase program, authorizing the Company to engage in a repurchase program to repurchase up to $69.6 million (the amount remaining from the $100.0 million repurchase amount authorized in 2016) in aggregate value of our Common Stock through December 31, 2018. Subsequently, on March 29, 2018, the Board authorized an increase in the amount available for stock repurchases under the Company's existing stock repurchase program by $77.8 million, and extended the existing stock repurchase program through June 30, 2019. As of December 31, 2018, 1,018,989 shares were purchased under this plan for $66.3 million, excluding commission payments, after it was extended on November 2, 2017.

Purchases under the repurchase program may be made from time-to-time through a combination of open market repurchases (including Rule 10b5-1 plans), privately negotiated transactions, and accelerated share repurchase transactions, at

the discretion of our officers, and as permitted by securities laws, covenants under existing bank agreements, and other legal requirements.

Off-balance sheet arrangements

As of December 31, 2018 and 2017, we did not have any relationships with unconsolidated entities or financial partnerships, such as entities referred to as structured finance or special purpose entities, which would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes.

New Accounting Pronouncements

The new accounting pronouncements that impact our business are included in Note 2, *Significant Accounting Policies and Recent Accounting Pronouncements,* to our consolidated financial statements and are incorporated herein by reference.

Item 7A. ***Quantitative and Qualitative Disclosures About Market Risk.***

Interest rate risk

We have exposure to interest rate risk mainly related to our revolving credit facility, which has variable interest rates that may increase. We did not have any amounts outstanding on our revolving credit facility at December 31, 2018.

Item 8. ***Financial Statements and Supplementary Data.***

INDEX TO CONSOLIDATED FINANCIAL STATEMENTS

Management's Report on Internal Control Over Financial Reporting

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting for the registrant, as such term is defined in Rule 13a-15(f) of the Exchange Act. We designed our internal control over financial reporting to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Our internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting can provide only reasonable assurance with respect to financial statement preparation and presentation. The design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. The Company conducts periodic evaluations of its internal controls to enhance, where necessary, its procedures and controls.

We acquired Circulation, Inc. ("Circulation") on September 21, 2018, and we excluded from the assessment of effectiveness of our internal control over financial reporting as of December 31, 2018, Circulation's internal control over financial reporting associated with total assets of $6.1 million (which excludes acquired goodwill and intangible assets) and total revenues of $2.2 million included in the consolidated financial statements of the Company as of and for the year ended December 31, 2018.

We are currently integrating this acquisition into our internal control over financial reporting processes. In executing this integration, we are analyzing, evaluating and, where necessary, making changes in controls and procedures related to this acquisition, which we expect to be completed in fiscal year 2019. We have excluded this acquisition from our assessment of internal control over financial reporting as of December 31, 2018, as permitted by the guidance provided by the staff of the SEC. Other than the changes described above, there were no changes in our internal control over financial reporting during the fiscal quarter ended December 31, 2018 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

The Company, under the supervision and with the participation of its management, including its principal executive officer and principal financial officer, conducted an evaluation of the effectiveness of the Company's internal control over financial reporting as of December 31, 2018, based on the criteria set forth in the Internal Control–Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on such evaluation, the Company concluded that its internal control over financial reporting was effective as of December 31, 2018.

KPMG LLP, an independent registered public accounting firm that audited the Company's consolidated financial statements included in this Annual Report on Form 10-K, has issued an audit report on the effectiveness of the Company's internal control over financial reporting which is presented in Part II, Item 8 of this Annual Report on Form 10-K.

Report of Independent Registered Public Accounting Firm

To the Stockholders and Board of Directors
The Providence Service Corporation:

Opinion on the Consolidated Financial Statements

We have audited the accompanying consolidated balance sheets of The Providence Service Corporation and subsidiaries (the "Company") as of December 31, 2018 and 2017, the related consolidated statements of operations, comprehensive income, stockholders' equity, and cash flows for each of the years in the three-year period ended December 31, 2018, and the related notes and financial statement schedule II (collectively, the "consolidated financial statements"). In our opinion, based on our audits and the report of the other auditors, the consolidated financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2018 and 2017, and the results of its operations and its cash flows for each of the years in the three-year period ended December 31, 2018, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company's internal control over financial reporting as of December 31, 2018, based on criteria established in *Internal Control - Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission, and our report dated March 1, 2019 expressed an unqualified opinion on the effectiveness of the Company's internal control over financial reporting.

We did not audit the financial statements of Mercury Parent, LLC (43.6 percent owned investee company) as of and for the period ended December 31, 2018. The Company's investment in Mercury Parent, LLC as of December 31, 2018 was $161.5 million, and its equity in net loss of Mercury Parent, LLC was $6.2 million for the year ended December 31, 2018. The financial statements of Mercury Parent, LLC were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for Mercury Parent, LLC, is based solely on the report of the other auditors.

Change in Accounting Principle

As discussed in Note 2 to the consolidated financial statements, the Company has changed its method of accounting for revenues and related costs in 2018 due to the adoption of Accounting Standards Codification Topic 606, Revenue from Contracts with Customers.

Basis for Opinion

These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that our audits and the report of the other auditors provide a reasonable basis for our opinion.

/s/ KPMG LLP

We have served as the Company's auditor since 2008.

Stamford, Connecticut
March 1, 2019

Report of Independent Registered Public Accounting Firm

To the Stockholders and Board of Directors
The Providence Service Corporation:

Opinion on Internal Control Over Financial Reporting

We have audited The Providence Service Corporation and subsidiaries' (the Company) internal control over financial reporting as of December 31, 2018, based on criteria established in *Internal Control - Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission. In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2018, based on criteria established in *Internal Control - Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated balance sheets of the Company as of December 31, 2018 and 2017, the related consolidated statements of operations, comprehensive income, stockholders' equity, and cash flows for each of the years in the three-year period ended December 31, 2018, and the related notes and financial statement schedule II (collectively, the "consolidated financial statements"), and our report dated March 1, 2019 expressed an unqualified opinion on those consolidated financial statements.

The Company acquired Circulation, Inc. ("Circulation") during 2018, and management excluded from its assessment of the effectiveness of the Company's internal control over financial reporting as of December 31, 2018, Circulation's internal control over financial reporting associated with total assets of $6.1 million (which excludes acquired goodwill and intangible assets) and total revenues of $2.2 million included in the consolidated financial statements of the Company as of and for the year ended December 31, 2018. Our audit of internal control over financial reporting of the Company also excluded an evaluation of the internal control over financial reporting of Circulation.

Basis for Opinion

The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

Definition and Limitations of Internal Control Over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

The Providence Service Corporation
Notes to Consolidated Financial Statements
December 31, 2018
(in thousands except share and per share data)

1. Organization and Basis of Presentation

Description of Business

The Providence Service Corporation ("we", the "Company" or "Providence"), owns subsidiaries and investments primarily engaged in the provision of healthcare services in the United States. The Company's NET Services segment, which primarily operates under the brands LogistiCare and Circulation, since its acquisition in September 2018, is the largest manager of non-emergency medical transportation ("NET") programs for state governments and managed care organizations ("MCOs") in the United States ("U.S."). On September 21, 2018, we completed the acquisition of Circulation, Inc. ("Circulation"), which offers a full suite of logistics solutions to manage NET programs across all areas of healthcare, powered by its HIPAA-compliant digital platform. Circulation's technology expands LogistiCare's capabilities to manage transportation benefits, integrating all transportation capabilities while proactively monitoring for fraud, waste and abuse and emphasizing member convenience and satisfaction.

The Company's Matrix Investment segment consists of a minority investment in CCHN Group Holdings, Inc. and its subsidiaries ("Matrix"), a nationwide provider of home and mobile-based healthcare services for health plans in the U.S., including comprehensive health assessments ("CHAs"), quality gap closure visits, "level of service" needs assessments, and post-acute and chronic care management, providing such services through a network of community-based clinicians and a fleet of mobile health clinics with advanced diagnostics capabilities.

The Company's Corporate and Other segment includes the Company's executive, accounting, finance, internal audit, tax, legal, public reporting, and corporate development functions. On April 11, 2018, the Company announced an organizational consolidation plan to integrate substantially all activities and functions performed at the corporate holding company level into LogistiCare (the "Organizational Consolidation"). LogistiCare will retain its name and continue to be headquartered in Atlanta, GA, and the Company will continue to be named The Providence Service Corporation and be listed on NASDAQ Global Select Market ("NASDAQ") under the ticker symbol "PRSC". The Organizational Consolidation is expected to be complete by the second quarter of 2019. See Note 10, *Restructuring and Related Reorganization Costs,* for further information.

Discontinued Operations

During the periods presented, the Company completed the following transactions, which resulted in the presentation of the operations as Discontinued Operations.

- On December 21, 2018, the Company completed the sale of substantially all of the operating subsidiaries of its WD Services segment to Advanced Personnel Management Global Pty Ltd of Australia ("APM") and APM UK Holdings Limited, an affiliate of APM, with the exception of the segment's employment services operations in Saudi Arabia (the "WD Services Sale"). The Company's contractual counterparties in Saudi Arabia, including an entity owned by the Saudi Arabian government, assumed these operations beginning January 1, 2019. Additionally, on June 11, 2018, the Company entered into a Share Purchase Agreement to sell Ingeus France for a de minimis amount. The sale was effective on July 17, 2018, after court approval.

- On October 19, 2016, affiliates of Frazier Healthcare Partners purchased a 53.2% equity interest in Matrix with Providence retaining a 46.8% equity interest (the "Matrix Transaction") at the time of the transaction. Prior to the closing of the Matrix Transaction, the financial results of Matrix were included in the Company's Health Assessment Services ("HA Services") segment.

- On November 1, 2015, the Company completed the sale of its *Human Service*s segment. In addition to the results through the sale date, the Company has recorded additional expenses related to legal proceedings as described in Note 20, *Commitment and Contingencies*, related to an indemnified legal matter.

Basis of Presentation

The Company follows accounting standards set by the Financial Accounting Standards Board ("FASB"). The FASB establishes accounting principles generally accepted in the United States ("GAAP"). Rules and interpretive releases of the Securities

and Exchange Commission ("SEC") under authority of federal securities laws are also sources of authoritative GAAP for SEC registrants. References to GAAP issued by the FASB in these footnotes are to the FASB *Accounting Standards Codification* ("ASC"), which serves as a single source of authoritative non-SEC accounting and reporting standards to be applied by non-governmental entities. All amounts are presented in U.S. dollars, unless otherwise noted.

The Company holds an investment in Matrix which is accounted for using the equity method. The Company does not control the decision-making process or business management practices of Matrix. While the Company has access to certain information and performs certain procedures to review the reasonableness of information, the Company relies on management of Matrix to provide accurate financial information prepared in accordance with GAAP. The Company receives audit reports relating to such financial information from Matrix's independent auditors on an annual basis. The Company is not aware of any errors in or possible misstatements of the financial information provided by Matrix that would have a material effect on the Company's consolidated financial statements.

Reclassifications

The Company has reclassified certain amounts relating to its prior period results to conform to its current period presentation. See Note 2, *Significant Accounting Policies and Recent Accounting Pronouncements*, for additional information on reclassifications.

2. Significant Accounting Policies and Recent Accounting Pronouncements

Principles of Consolidation

The accompanying consolidated financial statements include The Providence Service Corporation, its wholly-owned subsidiaries, and entities it controls, or in which it has a variable interest and is the primary beneficiary of expected cash profits or losses. The Company records its investments in entities that it does not control, but over which it has the ability to exercise significant influence, using the equity method. The Company has eliminated significant intercompany transactions and accounts.

Accounting Estimates

The Company uses estimates and assumptions in the preparation of the consolidated financial statements in accordance with GAAP. Those estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the Company's consolidated financial statements. These estimates and assumptions also affect the reported amount of net income or loss during any period. The Company's actual financial results could differ significantly from these estimates. The significant estimates underlying the Company's consolidated financial statements include revenue recognition; allowance for doubtful accounts; accrued transportation costs; accrued restructuring; income taxes; recoverability of current and long-lived assets, including equity method investments; intangible assets and goodwill; loss contingencies; accounting for business combinations, including amounts assigned to definite and indefinite lived intangibles and contingent consideration; loss reserves for reinsurance and self-funded insurance programs; and stock-based compensation.

Cash and Cash Equivalents

Cash and cash equivalents include all cash balances and highly liquid investments with an initial maturity of three months or less. Investments in cash equivalents are carried at cost, which approximates fair value. The Company places its temporary cash investments with high credit quality financial institutions. At times, such investments may be in excess of the federally insured limits.

Accounts Receivable and Allowance for Doubtful Accounts

The Company records accounts receivable amounts at the contractual amount, less an allowance for doubtful accounts. The Company maintains an allowance for doubtful accounts at an amount it estimates to be sufficient to cover the risk that an account will not be collected. The Company regularly evaluates its accounts receivables, especially receivables that are past due, and reassesses its allowance for doubtful accounts based on identified customer collection issues. In circumstances where the Company is aware of a customer's inability to meet its financial obligation, the Company records a specific allowance for doubtful accounts to reduce its net recognized receivable to an amount the Company reasonably expects to collect. Under

certain contracts of NET Services, final payment is based on a reconciliation of actual utilization and cost, and the final reconciliation may require a considerable period of time.

The Company's provision for doubtful accounts expense from continuing operations for the years ended December 31, 2018, 2017 and 2016 was $338, $1,347 and $2,892, respectively.

Property and Equipment

Property and equipment are stated at historical cost, net of accumulated depreciation, or at fair value if the assets were initially recorded as the result of a business combination or if the asset was remeasured due to an impairment. Depreciation is calculated using the straight-line method over the estimated useful life of the asset. Maintenance and repairs are expensed as incurred. Gains and losses resulting from the disposition of an asset are reflected in operating expense.

Recoverability of Goodwill

In accordance with ASC 350, *Intangibles-Goodwill and Other*, the Company reviews goodwill for impairment annually, or more frequently, if events and circumstances indicate that an asset may be impaired. Such circumstances could include, but are not limited to: (1) the loss or modification of significant contracts, (2) a significant adverse change in legal factors or in business climate, (3) unanticipated competition, (4) an adverse action or assessment by a regulator, or (5) a significant decline in the Company's stock price. We perform the annual goodwill impairment test for all reporting units as of October 1.

First, we perform qualitative assessments for each reporting unit to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If the qualitative assessment suggests that it is more likely than not that the fair value of a reporting unit is less than its carrying value amount, then we perform a quantitative assessment and compare the fair value of the reporting unit to its carrying value.

We adopted ASU No. 2017-04, *Intangibles-Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment* ("ASU 2017-04") effective April 1, 2017. ASU 2017-04 removes the requirement to compare the implied fair value of goodwill with its carrying amount as part of step two of the goodwill impairment test. Instead, if we deem it necessary to perform the quantitative goodwill impairment test in an annual or interim period, we recognize an impairment charge equal to the excess, if any, of a reporting unit's carrying amount over its fair value, not to exceed the total amount of goodwill allocated to the reporting unit.

The Company estimates the fair value of the Company's reporting units using either an income approach, a market valuation approach, a transaction valuation approach or a blended approach. The income approach produces an estimated fair value of a reporting unit based on the present value of the cash flows the Company expects the reporting unit to generate in the future. Estimates included in the discounted cash flow model include the discount rate, which the Company determines based on adjusting an industry-wide weighted-average cost of capital for size, geography, and company specific risk factors, long-term rates of growth and profitability of the Company's business, working capital effects and planned capital expenditures. The market approach produces an estimated fair value of a reporting unit based on a comparison of the reporting unit to comparable publicly traded entities in similar lines of business. The transaction valuation approach produces an estimated fair value of a reporting unit based on a comparison of the reporting unit to publicly available transactional data involving both publicly traded and private entities in similar lines of business. The Company's significant estimates in both the market and transaction approach include the selected similar companies with comparable business factors such as size, growth, profitability, risk and return on investment and the multiples the Company applies to revenue and earnings before interest, taxes, depreciation and amortization ("EBITDA") to estimate the fair value of the reporting unit.

Recoverability of Intangible Assets Subject to Amortization and Other Long-Lived Assets

Intangible assets subject to amortization and other long-lived assets are carried at cost and are amortized or depreciated on a straight-line basis over their estimated useful lives of 3 to 15 years. In accordance with ASC 360, *Property, Plant, and Equipment*, the Company reviews the carrying value of long-lived assets or groups of assets to be used in operations whenever events or changes in circumstances indicate that the carrying amount of the assets may be impaired. Factors that may necessitate an impairment assessment include, among others, significant adverse changes in the extent or manner in which an asset or group of assets is used, significant adverse changes in legal factors or the business climate that could affect the value of an asset or group of assets or significant declines in the observable market value of an asset or group of assets. The presence or occurrence of those events indicates that an asset or group of assets may be impaired. In those cases, the Company assesses the recoverability of an asset or group of assets by determining whether the carrying value of the asset or group of assets exceeds the sum of the projected undiscounted cash flows expected to result from the use and eventual disposition of the assets over the

remaining economic life of the asset or the primary asset in the group of assets. If such testing indicates the carrying value of the asset or group of assets is not recoverable, the Company estimates the fair value of the asset or group of assets using appropriate valuation methodologies,

which would typically include an estimate of discounted cash flows. If the fair value of those assets or groups of assets is less than carrying value, the Company records an impairment loss equal to the excess of the carrying value over the estimated fair value.

Accrued Transportation Costs

Eligible members of our customers schedule transportation through the Company's central reservation system. NET Services generally contracts with third-party providers to provide transportation. The cost of transportation is recorded in the month the services are rendered, based upon contractual rates and mileage estimates. Transportation providers provide invoices once the trip is completed. Any trips that have not been invoiced require an accrual, based upon the expected cost as well as an estimate for cancellations, as the Company is generally only obligated to pay the transportation provider for completed trips. These estimates are based upon the historical trend associated with each contract's population and the transportation provider network servicing the program. There may be differences between actual invoiced amounts and estimated costs, and any resulting adjustments are included in expense. Accrued transportation costs were $84,889 and $83,588 at December 31, 2018 and 2017, respectively.

Deferred Financing Costs and Debt Discounts

The Company capitalizes direct expenses incurred in connection with its credit facilities and other borrowings, and amortizes such expenses over the life of the respective credit facility or other borrowings. Fees charged by lenders on the revolving facility and all fees charged by third parties are recorded as deferred financing costs and fees charged by lenders on term loans are recorded as a debt discount. Deferred financing costs, net of amortization, totaling $268 and $388 as of December 31, 2018 and 2017, respectively, are included in "Prepaid expenses and other" on the consolidated balance sheets.

Revenue Recognition

The Company adopted ASU No. 2014-09, *Revenue from Contracts with Customers,* effective January 1, 2018 using the modified retrospective transition method for contracts that were not completed as of January 1, 2018. See *Recent Accounting Pronouncements* below for further information on the adoption.

The Company recognizes revenue as it transfers control of promised services to its customers. The Company generates all of its revenue from contracts with customers. The amount of revenue recognized reflects the consideration to which the Company expects to be entitled in exchange for these services. The Company satisfies substantially all of its performance obligations and recognizes revenue over time instead of at points in time. See further information in Note 3, *Revenue Recognition.*

Stock-Based Compensation

The Company follows the fair value recognition provisions of ASC Topic 718 – *Compensation – Stock Compensation* ("ASC 718"), which requires companies to measure and recognize compensation expense for all share-based payments at fair value.

- The Company calculates the fair value of stock options using the Black-Scholes option-pricing formula. The fair value of non-vested restricted stock grants is determined based on the closing market price of the Company's Common Stock on the date of grant. Stock-based compensation expense charged against income for stock options and stock grants is based on the grant-date fair value. Forfeitures are recorded as they occur. The expense for stock-based compensation awards is amortized on a straight-line basis over the requisite service period, which is typically the vesting period.

- The Company records restricted stock units ("RSUs") that may be settled by the holder in cash, rather than shares, as a liability and remeasures these liabilities at fair value at the end of each reporting period. Upon settlement of these awards, the total compensation expense recorded over the vesting period of the awards will equal the settlement amount, which is based on the Company's stock price on the settlement date.

- Performance-based RSUs vest upon achievement of certain company specific performance conditions. On the date of grant, the Company determines the fair value of the performance-based award using the fair value of the Company's Common Stock at that time and assesses whether it is probable that the performance targets

will be achieved. If assessed as probable, the Company records compensation expense for these awards over the requisite service period. At each reporting period, the Company reassesses the probability of achieving the performance targets and the performance period required to meet those targets. The estimation of whether the performance targets will be achieved and of the performance period required to achieve the targets requires judgment, and to the extent actual results or updated estimates differ from the Company's current estimates, the cumulative effect

on current and prior periods of those changes will be recorded in the period estimates are revised, or the change in estimate will be applied prospectively depending on whether the change affects the estimate of total compensation cost to be recognized or merely affects the period over which compensation cost is to be recognized. The ultimate number of shares issued and the related compensation expense recognized will be based on a comparison of the final performance metrics to the specified targets.

- The Company calculates the fair value of market-based stock awards using the Monte-Carlo simulation valuation model. Forfeitures are recorded as they occur. Compensation expense for market-based awards is recognized over the requisite service period regardless of whether the market conditions are expected to be achieved.

Income Taxes

Deferred income taxes are determined by the liability method in accordance with ASC Topic 740 - *Income Taxes*. Under this method, deferred tax assets and liabilities are determined based on differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes and are measured using the enacted tax rates and laws that are expected to be in effect when the differences are expected to reverse. The Company considers many factors when assessing the likelihood of future realization of deferred tax assets, including recent earnings experience by jurisdiction, expectations of future taxable income, and the carryforward periods available for tax reporting purposes, as well as other relevant factors. The Company establishes a valuation allowance to reduce deferred tax assets to the amount that is more likely than not to be realized. Due to inherent complexities arising from the nature of the Company's businesses, future changes in income tax law or variances between the Company's actual and anticipated operating results, the Company makes certain judgments and estimates. Therefore, actual income taxes could materially vary from these estimates.

The Company has recorded a valuation allowance which includes amounts for certain carryforwards and deferred tax assets, as more fully described in Note 19, *Income Taxes,* for which the Company has concluded that it is more likely than not that these carryforwards and deferred tax assets will not be realized in the ordinary course of operations.

The Company recognizes interest and penalties related to income taxes as a component of income tax expense.

The Company accounts for uncertain tax positions based on a two-step process of evaluating recognition and measurement criteria. The first step assesses whether the tax position is more likely than not to be sustained upon examination by the tax authority, including resolution of any appeals or litigation, based on the technical merits of the position. If the tax position meets the more likely than not criteria, the portion of the tax benefit greater than 50% likely to be realized upon settlement with the tax authority is recognized in the consolidated financial statements.

On December 22, 2017, the U.S. bill commonly referred to as the Tax Cuts and Jobs Act ("Tax Reform Act") was enacted as more fully described in Note 19, *Income Taxes.*

Loss Reserves for Certain Reinsurance and Self-Funded Insurance Programs

The Company historically reinsured a substantial portion of its automobile, general and professional liability and workers' compensation costs under reinsurance programs primarily through the Company's wholly-owned subsidiary, Social Services Providers Captive Insurance Company ("SPCIC"), a licensed captive insurance company domiciled in the State of Arizona. As of May 16, 2017, SPCIC did not renew the expiring reinsurance policies. SPCIC will continue to resolve claims under the historical policy years.

The Company utilizes a report prepared by an independent actuary to estimate the gross expected losses related to historical automobile, general and professional and workers' compensation liability reinsurance policies, including the estimated losses in excess of SPCIC's insurance limits, which would be reimbursed to SPCIC to the extent such losses were incurred. As of December 31, 2018 and 2017, the Company had reserves of $3,900 and $6,699, respectively, for the automobile, general and professional liability and workers' compensation reinsurance policies, net of expected receivables for losses in excess of SPCIC's historical insurance limits. The gross reserve as of December 31, 2018 and 2017 of $10,489 and $12,448, respectively, is classified as "Reinsurance liability reserves" and "Other long-term liabilities" in the consolidated balance sheets. The estimated amount to be reimbursed to SPCIC as of December 31, 2018 and 2017 was $6,589 and $5,749, respectively, and is classified as "Other receivables" and "Other assets" in the consolidated balance sheets.

The Company also maintains a self-funded health insurance program with a stop-loss umbrella policy with a third-party insurer to limit the maximum potential liability for individual claims generally to $300 per person, subject to an aggregating stop-loss limit of $400. In addition, the program has a total stop-loss limit for total claims, in order to limit the Company's exposure to

catastrophic claims. With respect to this program, the Company considers historical and projected medical utilization data when estimating its health insurance program liability and related expense. As of December 31, 2018 and 2017, the Company had $2,201 and $2,229, respectively, in reserve for its self-funded health insurance programs. The reserves are classified as "Reinsurance and related liability reserves" in the consolidated balance sheets.

The Company utilizes analysis prepared by third-party administrators and independent actuaries based on historical claims information with respect to the general and professional liability coverage, workers' compensation coverage, automobile liability, automobile physical damage, and health insurance coverage to determine the amount of required reserves.

The Company regularly analyzes its reserves for incurred but not reported claims, and for reported but not paid claims related to its reinsurance and self-funded insurance programs. The Company believes its reserves are adequate. However, significant judgment is involved in assessing these reserves, such as assessing historical paid claims, average lag times between the claims' incurred date, reported dates and paid dates, and the frequency and severity of claims. There may be differences between actual settlement amounts and recorded reserves and any resulting adjustments are included in expense once a probable amount is known.

Restructuring and Related Reorganization Costs

On April 11, 2018, the Company announced the Organizational Consolidation. The Company accrued for severance and other employee separation costs under this plan when it was probable that benefits would be paid and the amount was reasonably estimable. The amounts used in determining severance accruals are based on an estimate of the salaries and related benefit costs payable and are included in accrued expenses to the extent they have not been paid. See further information in Note 10, *Restructuring and Related Reorganization Costs.*

Discontinued Operations

In determining whether a group of assets disposed (or to be disposed) of should be presented as a discontinued operation, the Company makes a determination of whether the criteria for held-for-sale classification is met and whether the disposition represents a strategic shift that has (or will have) a major effect on the entity's operations and financial results. If these determinations can be made affirmatively, the results of operations of the group of assets being disposed of (as well as any gain or loss on the disposal transaction) are aggregated for separate presentation apart from continuing operating results of the Company in the consolidated financial statements. See Note 23, *Discontinued Operations,* for a summary of discontinued operations.

Earnings Per Share

The Company computes basic earnings per share by taking net income attributable to the Company available to common stockholders divided by the weighted average number of common shares outstanding during the period, including restricted stock and stock held in escrow if such shares are participating securities. Diluted earnings per share includes the potential dilution that may occur from stock-based awards and other stock-based commitments using the treasury stock or the as-if converted methods, as applicable. For additional information on how the Company computes earnings per share, see Note 16, *Earnings Per Share*.

Recent Accounting Pronouncements

The Company adopted the following accounting pronouncements during the year ended December 31, 2018:

In May 2014, the FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers* (Topic 606) ("ASU 2014-09"). ASU 2014-09 introduced FASB Accounting Standards Codification Topic 606 ("ASC 606"), which replaced historical revenue recognition guidance and is intended to improve and converge with international standards the financial reporting requirements for revenue from contracts with customers. The core principle of ASC 606 is that an entity should recognize revenue for the transfer of goods or services equal to the amount that it expects to be entitled to receive for those goods or services. ASC 606 also requires additional disclosures about the nature, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments. ASU 2014-09 allows for adoption either on a full retrospective basis to each prior reporting period presented or on a modified retrospective basis with the cumulative effect of initially applying the new guidance recognized at the date of initial application. The Company adopted

ASU 2014-09 effective January 1, 2018 using the modified retrospective transition method for contracts that were not completed as of January 1, 2018.

The Company recognized the cumulative effect of initially applying the new revenue standard as an adjustment to the opening balance of retained earnings. These impacts related to our WD Services segment, which has since met the criteria for classification as discontinued operations. Upon adoption of ASU 2014-09, the cumulative effect of the changes made to the Company's consolidated balance sheet as of January 1, 2018 were as follows:

	Balance at December 31, 2017	Adjustments due to ASU 2014-09	Balance at January 1, 2018
Assets			
Current assets of discontinued operations	$ 104,024	$ 11,182	$ 115,206
Liabilities			
Current liabilities of discontinued operations	61,643	5,442	67,085
Noncurrent liabilities of discontinued operations	7,565	30	7,595
Equity			
Retained earnings, net of tax	204,818	5,710	210,528

The impact of applying the new revenue recognition guidance on the Company's consolidated statement of operations for the year ended December 31, 2018 was as follows:

	Year ended December 31, 2018	
	As Reported	Pro forma as if the previous accounting guidance was in effect
Service revenue, net	$ 1,384,965	$ 1,400,453
Service expense	1,284,603	1,300,091
Operating income	24,276	24,276

There was no impact of applying the new revenue recognition guidance on the Company's consolidated balance sheet at December 31, 2018, as any assets and liabilities impacted by the guidance were sold in the WD Services Sale. The comparative information has not been restated and continues to be reported under the accounting standards in effect for those periods. See further information in Note 3, *Revenue Recognition*.

In August 2016, the FASB issued ASU No. 2016-15, *Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments* ("ASU 2016-15"). ASU 2016-15 provides guidance for eight targeted changes with respect to how cash receipts and cash payments are classified in the statements of cash flows, with the objective of reducing diversity in practice. ASU 2016-15 is effective for financial statements issued for fiscal years beginning after December 15, 2017, with early adoption permitted. The Company adopted ASU 2016-15 on January 1, 2018. The adoption did not have a significant impact on the Company's consolidated financial statements.

In November 2016, the FASB issued ASU No. 2016-18, *Statement of Cash Flows (Topic 230): Restricted Cash* ("ASU 2016-18"). ASU 2016-18 requires that a statement of cash flows explain the change during the period in the total of cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents. ASU 2016-18 is effective for public entities for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. Early adoption is permitted, including adoption in an interim period; however, any adjustments must be reflected as of the beginning of the fiscal year that includes that interim period. ASU 2016-18 must be adopted retrospectively. The Company adopted ASU 2016-18 on January 1, 2018. As a result of the adoption of ASU 2016-18, the Company recast its consolidated statement of cash flows for the years ended December 31, 2017 and 2016. The recast resulted in an increase in cash used in investing activities of $7,834 for the year ended December 31, 2017. The recast resulted in a decrease in cash provided by investing activities of $5,926 for the year ended December 31, 2016. See additional information in Note 4, *Cash, Cash Equivalents and Restricted Cash.*

In May 2017, the FASB issued ASU No. 2017-09, *Compensation–Stock Compensation (Topic 718): Scope of Modification Accounting* ("ASU 2017-09"). ASU 2017-09 provides guidance about which changes to the terms of a share-

based payment award should be accounted for as a modification. A change to an award should be accounted for as a modification unless the fair value of the modified award is the same as the original award, the vesting conditions do not change, and the classification as an equity or liability instrument does not change. This guidance is effective for fiscal years beginning after December 15, 2017. Early

adoption is permitted. The Company adopted ASU 2017-09 on January 1, 2018. The adoption of ASU 2017-09 did not have a material impact on the Company's consolidated financial statements.

Recent accounting pronouncements that were not yet adopted by the Company through December 31, 2018 are as follows:

In February 2016, the FASB issued ASU No. 2016-02, *Leases (Topic 842)* ("ASU 2016-02"). ASU 2016-02 introduced FASB Accounting Standards Codification Topic 842 ("ASC 842"), which will replace ASC 840, *Leases*. In July 2018, the FASB issued ASU No. 2018-10, *Codification Improvements to Topic 842 (Leases)* ("ASU 2018-10"), which provides narrow amendments to clarify how to apply certain aspects of the new lease standard. Additionally, in July 2018, the FASB issued ASU No. 2018-11, *Leases (Topic 842): Targeted Improvements* ("ASU 2018-11"). ASU 2018-11 provides a new transition method and a practical expedient for separating components of a contract.

ASC 842 is effective for publicly held entities for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. Early adoption is permitted. Lessees may apply a modified retrospective transition approach for leases existing at, or entered after, the beginning of the earliest comparative period presented in the financial statements, or lessees may initially apply the new lease standard at the adoption date and recognize a cumulative-effect adjustment to the opening balance of retained earnings in the period of adoption.

The Company has not entered into significant lease agreements in which it is the lessor; however, the Company does have lease agreements in which it is the lessee. Under ASC 842, lessees will be required to recognize a lease liability and right-of-use asset for all leases (with the exception of short-term leases) at the commencement date. The Company will apply the modified retrospective transition method and elect the transition option to use the effective date of January 1, 2019 as the date of initial application. The Company will recognize the cumulative effect of the transition adjustment as of the effective date and will not provide any new lease disclosures for periods before the effective date. With respect to the practical expedients, the Company will elect the package of practical expedients and the practical expedient not to separate lease and non-lease components. The Company will not apply the use of hindsight practical expedient. Based on the Company's current portfolio of leases, the Company expects $24,000 to $28,000 of additional leased assets and liabilities will be recognized on its consolidated balance sheet. The Company does not expect a material impact on the statement of operations.

In June 2016, the FASB issued ASU No. 2016-13, *Financial Instruments - Credit Losses (Topic 326)* ("ASU 2016-13"). The amendments in ASU 2016-13 will supersede or clarify much of the existing guidance for reporting credit losses for assets held at amortized cost basis and available for sale debt securities. The amendments in ASU 2016-13 affect loans, debt securities, trade receivables, net investments in leases, off balance sheet credit exposures, reinsurance receivables, and any other financial assets not excluded from the scope that have the contractual right to receive cash. ASU 2016-13 is effective for financial statements issued for fiscal years beginning after December 15, 2019, with early adoption permitted for fiscal years beginning after December 15, 2018. The Company is currently evaluating the impact of ASU 2016-13 on its consolidated financial statements.

In August 2018, the FASB issued ASU No. 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework-Changes to the Disclosure Requirements for Fair Value Measurement* ("ASU 2018-13"). ASU 2018-13 removes certain disclosures, modifies certain disclosures and added additional disclosures. The standard is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019, with early adoption permitted. Certain disclosures in ASU 2018-13 would need to be applied on a retrospective basis and others on a prospective basis. The Company is currently evaluating the impact of ASU 2018-13 on its consolidated financial statements.

In August 2018, the FASB issued ASU No. 2018-15, *Intangibles-Goodwill and Other-Internal-Use Software: Customer's Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement that is a Service Contract* ("ASU 2018-15"), which will align the requirements for capitalizing implementation costs incurred in a hosting arrangement that is a service contract with the requirements for capitalizing implementation costs incurred to develop or obtain internal-use software. The standard is effective for fiscal years beginning after December 15, 2019, with early adoption permitted. The Company is currently evaluating the impact of ASU 2018-15 on its consolidated financial statements.

In August 2018, the SEC adopted the final rule under SEC Release No. 33-10532, Disclosure Update and Simplification, amending certain disclosure requirements that were redundant, duplicative, overlapping, outdated or superseded. In addition, the amendments expanded the disclosure requirements on the analysis of stockholders' equity for interim financial statements. Under the amendments, an analysis of changes in each caption of stockholders' equity presented in the balance

sheet must be provided in a note or separate statement. The analysis should present a reconciliation of the beginning balance to the ending balance of each period for which a statement of comprehensive income is required to be filed. The final rule is effective on November 5, 2018. The Company will adopt this new rule beginning with its financial reporting for the quarter ending March 31, 2019. Upon adoption,

the Company will include its Consolidated Statements of Stockholders' Equity with each filing of a Quarterly Report on Form 10-Q.

3. Revenue Recognition

Under ASC 606, the Company recognizes revenue as it transfers control of promised services to its customers. The Company generates all of its revenue from contracts with customers. The amount of revenue recognized reflects the consideration to which the Company expects to be entitled in exchange for these services. The Company satisfies substantially all of its performance obligations and recognizes revenue over time instead of at points in time.

Disaggregation of Revenue

The following table summarizes disaggregated revenue from contracts with customers for the year ended December 31, 2018 by contract type for NET Services:

State Medicaid agency contracts	$	732,261
Managed care organization contracts		652,704
Total NET Services revenue, net	$	1,384,965

Capitated contracts	$	1,096,822
Non-capitated contracts		288,143
Total NET Services revenue, net	$	1,384,965

NET Services provides non-emergency transportation services pursuant to contractual commitments over defined service delivery periods. For most contracts, NET Services arranges for transportation of members through its network of independent transportation providers, whereby it remits payment to the transportation providers. However, for certain contracts, NET Services only provides administrative management services to support the customers' efforts to serve its clients, and the amount of revenue recognized is based upon the management fee earned.

These contracts typically include single performance obligations under which NET Services stands ready to deliver management, fulfillment and record-keeping related to non-emergency transportation services. Transportation management services include, but are not limited to, fraud, waste, and abuse and utilization review programs as well as compliance controls. NET Services' performance obligations consist of a series of distinct services that are substantially the same and which are transferred to the customer in the same manner. In most cases, NET Services is the principal in its arrangements because it controls the services before transferring those services to the customer.

NET Services primarily uses the 'as invoiced' practical expedient to recognize revenue because it typically has the right to consideration from customers in an amount that corresponds directly with the value of its performance to date. This is consistent with NET Services' historical revenue recognition policy. NET Services recognizes revenue for some of its contracts that include variable consideration using a time-elapsed measure when the fees earned relate directly to services performed in the period. Because most contracts include termination for convenience clauses with required notice periods of less than one year, most NET Services contracts are deemed to be short-term in nature.

Some of NET Services' contracts include provisions whereby it must provide certain levels of service or face potential penalties or be required to refund fees paid by the customer. For those contracts, NET Services records a provision to reduce revenue to reflect the amount to which it expects it will ultimately be entitled.

The only financial impact for NET Services of adopting ASU 2014-09 was the determination it is the agent under one of its contracts based on the new guidance, whereas it previously considered itself the principal in the arrangement. Consequently, NET Services now recognizes revenue under the specific contract on a net basis, which resulted in reduced revenue and service expense of $15,488 during the year ended December 31, 2018.

During the year ended December 31, 2018, NET Services recognized $5,685 from performance obligations satisfied in previous periods due to the resolution of contractual adjustments agreed with the customer.

Related Balance Sheet Accounts

Accounts receivable, net - The following table provides information about accounts receivable, net as of December 31, 2018 and 2017:

	December 31, 2018	December 31, 2017
Accounts receivable	$ 101,340	$ 73,416
NET Services' reconciliation contract receivable	48,270	42,054
Allowance for doubtful accounts	(1,854)	(5,262)
	$ 147,756	$ 110,208

NET Services accrued contract payments - Includes liabilities related to certain contracts of NET Services for which final payment is based on a reconciliation of actual utilization and cost, and the final reconciliation may require a considerable period of time. The balance is included in "Accrued expenses" in the consolidated balance sheets. The balance at December 31, 2018 and 2017 totaled $9,756 and $17,487, respectively.

Deferred revenue - Includes funds received for certain services in advance of services being rendered. The balance of current deferred revenue at December 31, 2018 and December 31, 2017 totaled $562 and $3,019, respectively. The balance of noncurrent deferred revenue was $963 at December 31, 2018, and is included in "Other long-term liabilities" on the consolidated balance sheet. The decrease in the total deferred revenue balance from December 31, 2017 to December 31, 2018 is primarily driven by cash payments received or due in advance of satisfying our performance obligations. During the year ended December 31, 2018, $3,019 of revenue deferred as of December 31, 2017 was recognized.

Practical Expedients, Exemptions and Other Matters

We do not incur significant sales commission expenses. Any amounts are expensed as incurred. These costs are recorded within service expense in the consolidated statements of operations.

The Company generally expects the period of time from when it transfers a promised service to a customer and when the customer pays for the service to be one year or less, and thus we do not have a significant financing component for our contracts with customers.

We do not disclose the value of unsatisfied performance obligations for (i) contracts with an original expected length of one year or less; (ii) contracts for which we recognize revenue at the amount to which we have the right to invoice for services performed; or (iii) contracts for which the variable consideration is allocated entirely to a wholly unsatisfied performance obligation or to a wholly unsatisfied promise to transfer a distinct good or service that forms part of a single performance obligation, and the terms of the variable consideration relate specifically to our efforts to transfer the distinct service or to a specific outcome from transferring the distinct service.

4. Cash, Cash Equivalents and Restricted Cash

The following table provides a reconciliation of cash, cash equivalents and restricted cash reported within the consolidated balance sheets to the amounts shown in the consolidated statements of cash flows:

	December 31,	
	2018	2017
Cash and cash equivalents	$ 5,678	$ 52,798
Restricted cash, current	1,482	1,091
Current assets of discontinued operations	2,321	42,512
Restricted cash, less current portion	2,886	5,205
Cash, cash equivalents and restricted cash	$ 12,367	$ 101,606

Restricted cash primarily relates to amounts held in trusts for reinsurance claims losses under the Company's captive insurance operation for historical workers' compensation, general and professional liability and auto liability reinsurance

programs, as well as amounts restricted for withdrawal under our self-insured medical and benefits plans. Current assets of discontinued

operations principally reflects the cash position of WD Services operations in Saudi Arabia, which was not sold as part of the WD Services Sale. Such cash will be used to fund the shut-down costs of this operation as needed.

5. Equity Investment

Matrix

Prior to the closing of the Matrix Transaction on October 19, 2016, the financial results of Matrix were included in the Company's HA Services segment. Subsequent to the closing of the Matrix Transaction, the Company owned a 46.8% noncontrolling interest in Matrix. As of December 31, 2018, the Company owned a 43.6% noncontrolling interest in Matrix. Pursuant to a Shareholder's Agreement, affiliates of Frazier Healthcare Partners hold rights necessary to control the fundamental operations of Matrix. The Company accounts for this investment in Matrix under the equity method of accounting and the Company's share of Matrix's income or losses are recorded as "Equity in net loss (gain) of investees" in the accompanying consolidated statements of operations.

The carrying amount of the assets included in the Company's consolidated balance sheets and the maximum loss exposure related to the Company's interest in Matrix as of December 31, 2018 and 2017 totaled $161,503 and $169,699, respectively.

Summary financial information for Matrix on a standalone basis is as follows:

	December 31,	
	2018	2017
Current assets	$ 61,565	$ 37,563
Long-term assets	719,450	597,613
Current liabilities	27,619	27,718
Long-term liabilities	373,159	240,513

	Year ended December 31, 2018	Year ended December 31, 2017	October 19, 2016 through December 31, 2016
Revenue	$ 282,067	$ 227,872	$ 41,635
Operating (loss) income	(1,186)	11,870	(4,079)
Net (loss) income	(19,962)	26,665	(4,200)

Included in Matrix's standalone net loss of $19,962 for the year ended December 31, 2018 are depreciation and amortization of $43,119, integration costs of $6,524, equity compensation of $2,698, management fees paid to Matrix's shareholders of $4,887, merger and acquisition due diligence related costs of $2,341, transaction related costs of $1,010, interest expense of $25,942, including debt transaction costs and the write-off of deferred financing fees of $3,748, and an income tax benefit of $7,166.

Included in Matrix's standalone net income of $26,665 for the year ended December 31, 2017 are depreciation and amortization of $33,512, transaction related expenses of $3,537, which includes $2,679 of transaction incentive compensation, equity compensation of $2,639, management fees paid to Matrix's shareholders of $2,331, acquisition related costs of $412, interest expense of $14,818 and an income tax benefit of $29,613. The income tax benefit primarily related to the re-measurement of deferred tax liabilities arising from a lower U.S. corporate tax rate as a result of the Tax Reform Act.

Included in Matrix's standalone net loss of $4,200 for the year ended December 31, 2016 are depreciation and amortization of $6,356, transaction related expenses of $6,367, which includes $4,033 of transaction incentive compensation, equity compensation of $407, management fees paid to Matrix's shareholders of $396, interest expense of $2,949 and an income tax benefit of $2,828.

See Note 23, *Discontinued Operations*, for Matrix's January 1, 2016 through October 19, 2016 results of operations.

6. Prepaid Expenses and Other

Prepaid expenses and other were comprised of the following:

	December 31,	
	2018	2017
Prepaid income taxes	$ 35,207	$ 254
Escrow funds	—	10,000
Prepaid insurance	1,308	1,765
Note receivable	—	3,224
Prepaid rent	828	722
Other	6,824	6,494
Total prepaid expenses and other	$ 44,167	$ 22,459

Escrow funds at December 31, 2017 represented amounts related to indemnification claims from the sale of the Human Services segment. The escrow funds were used during the year ended December 31, 2018 to satisfy a portion of the Company's settlement of indemnification claims. See Note 20, *Commitments and Contingencies*, for further information.

7. Property and Equipment

Property and equipment consisted of the following:

	Estimated Useful Life (years)	December 31,	
		2018	2017
Computer and telecom equipment	3 — 5	$ 29,883	$ 27,742
Software	3 — 5	24,318	22,256
Leasehold improvements	Shorter of 7 years or lease term	8,078	7,599
Furniture and fixtures	5 — 10	1,942	2,351
Automobiles	5	3,666	3,209
Construction and development in progress	N/A	299	12,579
		68,186	75,736
Less accumulated depreciation		45,221	38,064
Total property and equipment, net		$ 22,965	$ 37,672

Depreciation expense from continuing operations was $12,058, $10,717 and $9,900 for the years ended December 31, 2018, 2017 and 2016, respectively.

Following the acquisition of Circulation and an analysis of the technology capabilities and scalability of the Circulation platform, the Company determined it would not continue the development of the LCAD NextGen technology ("NextGen"). The Company also determined it would not place any of the developed NextGen technology into service, and recorded an asset impairment charge of $13,496 related to its NET Services segment during the fourth quarter of 2018. In addition, the Company had previously recorded an impairment of $679 during the second quarter of 2018 in relation to the decision to abandon specific development work intended to synchronize data across applications of the proprietary NextGen systems, based on the determination of an alternative method to accomplish this task. The total impairment charge of $14,175 is reflected in "Asset impairment charge" in the consolidated statement of operations for the year ended December 31, 2018. As of December 31, 2017, construction in progress was primarily comprised of the software development costs for NextGen.

8. Goodwill and Intangibles

Impairment

The Company did not record any goodwill or intangible asset impairment charges for continuing operations for the years ended December 31, 2018, 2017 and 2016.

Goodwill

There were no changes in goodwill from December 31, 2016 to December 31, 2017. Changes in goodwill were as follows for the period from December 31, 2017 to December 31, 2018:

	NET Services
Balances at December 31, 2017	
Goodwill	$ 191,215
Accumulated impairment losses	(96,000)
	95,215
Acquisition of Circulation	40,001
Balances at December 31, 2018	
Goodwill	231,216
Accumulated impairment losses	(96,000)
	$ 135,216

The total amount of goodwill from continuing operations that was deductible for income tax purposes related to acquisitions as of December 31, 2018 and 2017 was $29 for each year.

Intangible Assets

Intangible assets are comprised of acquired customer relationships, trademarks and trade names, and developed technology. Intangible assets consisted of the following:

		December 31,			
		2018		2017	
	Estimated Useful Life (Yrs)	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
Customer relationships	15	$ 43,800	$ (32,515)	$ 43,800	$ (29,635)
Developed technology of Circulation	5	14,100	(705)	—	—
Customer relationships of Circulation	3	1,400	(117)	—	—
Trademarks and trade names of Circulation	3	200	(17)	—	—
Total		$ 59,500	$ (33,354)	$ 43,800	$ (29,635)

The weighted-average amortization period at December 31, 2018 for intangibles was 12.3 years. No significant residual value is estimated for these intangible assets. Amortization expense from continuing operations was $3,755, $2,901 and $2,881 for the years ended December 31, 2018, 2017 and 2016, respectively.

The Company acquired Circulation in September 2018, which resulted in the increase of intangible assets from December 31, 2017 to December 31, 2018. See additional discussion of the Circulation acquisition in Note 22, *Acquisitions*.

The total amortization expense is estimated to be as follows for the next five years as of December 31, 2018:

Year	Amount
2019	$ 6,234
2020	6,234
2021	6,101
2022	5,461
2023	2,116
Total	$ 26,146

9. Accrued Expenses

Accrued expenses consisted of the following:

	December 31,	
	2018	2017
Accrued compensation and related	$ 11,050	$ 18,816
NET Services accrued contract payments	9,756	17,487
Accrued settlement	—	15,000
Accrued cash settled stock-based compensation	3,719	3,938
Income taxes payable	—	1,959
Other	14,666	14,443
Total accrued expenses	$ 39,191	$ 71,643

The accrued settlement at December 31, 2017 represented amounts related to indemnification claims from the sale of the Human Services segment, which was completed on November 1, 2015. The settlement was finalized during the year ended December 31, 2018, which resulted in the payment of the accrued settlement amount, in which $10,000 was released from an escrow account and $4,475 was paid in cash. See Note 20, *Commitments and Contingencies*, for further information.

10. Restructuring and Related Reorganization Costs

Corporate and Other

On April 11, 2018, the Company announced the Organizational Consolidation, which involves transferring all job responsibilities previously performed by employees of the holding company to LogistiCare, and closing the current corporate offices in Stamford, Connecticut and Tucson, Arizona. The Company adopted an employee retention plan designed to incentivize current holding company level employees to remain employed with the Company during the transition. The employee retention plan became effective on April 9, 2018 and covers the holding company level employees and provides for certain payments and benefits to be provided to the employees if they remain employed with the Company through a retention date established for each individual, subject to a fully executed retention letter. The Organizational Consolidation is expected to be completed by the end of the second quarter of 2019.

As of December 31, 2018, the Company estimates that it will incur aggregate pre-tax restructuring charges of approximately $12,200 through June 30, 2019 in connection with the Organizational Consolidation discussed above. These charges include approximately $7,100 related to retention and personnel costs, $2,000 related to acceleration of stock-based compensation, $600 related to accelerated depreciation and $2,500 related to other costs, including lease termination and recruiting costs. A total of $8,797 restructuring and related costs has been incurred during the year ended December 31, 2018 related to the Organizational Consolidation. These costs include $5,098 of retention and personnel costs, $1,731 of accelerated stock-based compensation expense, $436 of accelerated depreciation and $1,532 of other costs, primarily related to recruiting and legal costs. These costs are recorded as “General and administrative expense” and “Depreciation and amortization” in the accompanying consolidated statements of operations. The Company’s estimate is subject to change, as it is based upon assumptions for the sublease of office space in Stamford, Connecticut and Tucson, Arizona, as well as other factors.

Summary of Liability for Corporate and Other Restructuring and Related Charges

	January 1, 2018	Costs Incurred	Cash Payments	December 31, 2018
Retention and personnel liability	$ —	$ 5,098	$ (3,142)	$ 1,956
Other liability	—	1,532	(1,134)	398
Total	$ —	$ 6,630	$ (4,276)	$ 2,354

The total restructuring liability at December 31, 2018 includes $2,124 classified as "Accrued expenses" and $230 classified as "Accounts payable" in the consolidated balance sheet.

11. Debt

The Company's debt was as follows:

	December 31, 2018	December 31, 2017
$200,000 revolving loan, LIBOR plus 2.25% - 3.25% with interest payable at least once every three months through August 2019	$ —	$ —
Capital lease obligations	1,071	2,984
	1,071	2,984
Less current portion of debt	718	2,400
Total debt, less current portion	$ 353	$ 584

Annual maturities of revolving loan and capital lease obligations as of December 31, 2018 are as follows:

Year	Amount
2019	$ 718
2020	308
2021	45
Total	$ 1,071

Credit Facility

The Company is a party to the amended and restated credit and guaranty agreement, dated as of August 2, 2013 (as amended, the "Credit Agreement"), with Bank of America, N.A., as administrative agent, swing line lender and letter of credit issuer, and the other lenders party thereto. The Credit Agreement provides the Company with a $200,000 revolving credit facility (the "Credit Facility"), including a sub-facility of $25,000 for letters of credit. On June 7, 2018, the Company and certain of its subsidiaries entered into the Fifth Amendment to the Amended and Restated Credit and Guaranty Agreement (the "Amendment"), amending the Amended and Restated Credit and Guaranty Agreement dated as of August 2, 2013 (as amended to date, the "Credit Agreement"), by and among the Company, the guarantors from time to time party thereto, the lenders from time to time party thereto and Bank of America, N.A. as administrative agent. The Amendment (i) extended the maturity date of the Credit Agreement to August 2, 2019 and (ii) amended certain covenants under the Credit Agreement to provide for greater operational, financial and strategic flexibility, including the implementation of the Company's Organizational Consolidation.

As of December 31, 2018, the Company had borrowings of $0 and ten letters of credit outstanding in the amount of $12,338 under the revolving credit facility. At December 31, 2018, the Company's available credit under the revolving credit facility was $187,662. Under the Credit Agreement, the Company has an option to request an increase in the amount of the revolving credit facility from time to time (on substantially the same terms as apply to the existing facilities) in an aggregate

amount of up to $75,000 with either additional commitments from lenders under the Credit Agreement at such time or new commitments from

financial institutions acceptable to the administrative agent in its reasonable discretion, so long as no default or event of default exists at the time of any such increase. The Company may not be able to access additional funds under this increase option as no lender is obligated to participate in any such increase under the Credit Facility. The Credit Agreement has a maturity date of August 2, 2019.

Interest on the outstanding principal amount of loans accrues, at the Company's election, at a per annum rate equal to LIBOR, plus an applicable margin, or the base rate as defined in the agreement plus an applicable margin. The applicable margin ranges from 2.25% to 3.25% in the case of LIBOR loans and 1.25% to 2.25% in the case of the base rate loans, in each case, based on the Company's consolidated leverage ratio as defined in the Credit Agreement. Interest on the loans is payable quarterly in arrears. In addition, the Company is obligated to pay a quarterly commitment fee based on a percentage of the unused portion of each lender's commitment under the Credit Facility and quarterly letter of credit fees based on a percentage of the maximum amount available to be drawn under each outstanding letter of credit. The commitment fee and letter of credit fee range from 0.25% to 0.50% and 2.25% to 3.25%, respectively, in each case, based on the Company's consolidated leverage ratio.

The Company's obligations under the Credit Facility are guaranteed by all of the Company's present and future domestic subsidiaries, excluding certain domestic subsidiaries which include the Company's insurance captive and the Company's investment in Matrix. The Company's obligations under, and each guarantor's obligations under its guaranty of, the Credit Facility are secured by a first priority lien on substantially all of the Company's respective assets, including a pledge of 100% of the issued and outstanding stock of the Company's domestic subsidiaries, excluding the Company's insurance captive.

The Credit Agreement contains customary affirmative and negative covenants and events of default. The negative covenants include restrictions on the Company's ability to, among other things, incur additional indebtedness, create liens, make investments, give guarantees, pay dividends, sell assets, and merge and consolidate. The Company is subject to financial covenants, including consolidated net leverage and consolidated interest coverage covenants.

Capital Leases

We have capital leases for information technology hardware and software with termination dates ranging from January 2018 through October 2020. The terms of the leases are between 12 and 36 months, with interest recorded at an incremental borrowing rate of 3.28%. At December 31, 2018, $1,894 represents the hardware and software under capital leases and $673 represents the related accumulated depreciation.

12. Convertible Preferred Stock, Net

The Company completed a rights offering on February 5, 2015 (the "Rights Offering") providing all of the Company's existing common stockholders the non-transferrable right to purchase their pro rata share of $65,500 of convertible preferred stock at a price equal to $100.00 per share ("Preferred Stock"). The Preferred Stock is convertible into shares of Providence's common stock, $0.001 par value per share ("Common Stock") at a conversion price equal to $39.88 per share, which was the closing price of the Company's Common Stock on NASDAQ on October 22, 2014.

Stockholders exercised subscription rights to purchase 130,884 shares of the Company's Preferred Stock. Pursuant to the terms and conditions of the Standby Purchase Agreement (the "Standby Purchase Agreement") between Coliseum Capital Partners, L.P., Coliseum Capital Partners II, L.P., Blackwell Partners, LLC - Series A and Coliseum Capital Co-Invest, L.P. (collectively, the "Coliseum Stockholders") and the Company, the remaining 524,116 shares of the Company's Preferred Stock were purchased by the Coliseum Stockholders at the $100.00 per share subscription price. The Company received $65,500 in aggregate gross proceeds from the consummation of the Rights Offering and Standby Purchase Agreement. Additionally, on March 12, 2015, the Coliseum Stockholders exercised their right to purchase an additional 150,000 shares of the Company's Preferred Stock, at a purchase price of $105.00 per share or a total purchase price of $15,750, of the same series and having the same conversion price as the Preferred Stock sold in the Rights Offering.

The Company may pay a noncumulative cash dividend on each share of Preferred Stock, if and when declared by a committee of its Board of Directors ("Board"), at the rate of five and one-half percent (5.5%) per annum on the liquidation preference then in effect. On or before the third business day immediately preceding each fiscal quarter, the Company must determine its intention whether or not to pay a cash dividend with respect to that ensuing quarter and will give notice of its intention to each holder of Preferred Stock as soon as practicable thereafter.

In the event the Company does not declare and pay a cash dividend, the Company will declare a payment-in-kind ("PIK") dividend by increasing the liquidation preference of the convertible Preferred Stock to an amount equal to the liquidation preference in effect at the start of the applicable dividend period, plus an amount equal to the liquidation preference then in effect multiplied

by eight and one-half percent (8.5%) per annum, computed on the basis of a 365-day year and the actual number of days elapsed from the start of the applicable dividend period to the applicable date of determination.

All holders of the Company's Preferred Stock are able to convert their Preferred Stock into shares of Common Stock at a rate of approximately 2.51 shares of Common Stock for each share of Preferred Stock. As of December 31, 2018, a total of 3,394 shares of Preferred Stock have been converted to 8,503 shares of Common Stock.

Cash dividends are payable quarterly in arrears on January 1, April 1, July 1 and October 1 of each year, and commenced on April 1, 2015, and, if declared, begin to accrue on the first day of the applicable dividend period. PIK dividends, if applicable, accrue cumulatively on the same schedule as set forth above for cash dividends and are also compounded at the applicable annual rate on each applicable subsequent dividend date. Cash dividends on redeemable convertible preferred stock totaling $4,413, or $5.50 per share, $4,418, or $5.50 per share, and $4,419, or $5.50 per share, were distributed to convertible preferred stockholders for the years ended December 31, 2018, 2017 and 2016, respectively.

The Preferred Stock is accounted for outside of stockholders' equity as it may be redeemed upon certain change in control events that are not solely in the control of the Company. Dividends are recorded in stockholders' equity and consist of the 5.5%/8.5% dividend. Certain other provisions apply in certain change in control events.

The following table summarizes the Preferred Stock activity for the years ended December 31, 2018 and 2017:

	Dollar Value	Share Count
Balance at December 31, 2016	$ 77,565	803,398
Conversion to common stock	(20)	(198)
Allocation of issuance costs	1	—
Balance at December 31, 2017	$ 77,546	803,200
Conversion to common stock	(161)	(1,594)
Allocation of issuance costs	7	—
Balance at December 31, 2018	$ 77,392	801,606

As of December 31, 2018 and 2017, the outstanding shares of Preferred Stock were convertible into 2,010,045 and 2,014,042 shares of Common Stock, respectively.

13. Stockholders' Equity

At December 31, 2018 and 2017 there were 17,784,769 and 17,473,598 shares of the Company's Common Stock issued, respectively, including 4,970,093 and 4,126,132 treasury shares at December 31, 2018 and 2017, respectively.

Subject to the rights specifically granted to holders of any then outstanding shares of the Company's Preferred Stock, the Company's common stockholders are entitled to vote together as a class on all matters submitted to a vote of the Company's common stockholders, and are entitled to any dividends that may be declared by the Board. The Company's common stockholders do not have cumulative voting rights. Upon the Company's dissolution, liquidation or winding up, holders of the Company's Common Stock are entitled to share ratably in the Company's net assets after payment or provision for all liabilities and any preferential liquidation rights of the Company's Preferred Stock then outstanding. The Company's common stockholders do not have preemptive rights to purchase shares of the Company's stock. The issued and outstanding shares of the Company's Common Stock are not subject to any redemption provisions and are not convertible into any other shares of the Company's capital stock. The rights, preferences and privileges of holders of the Company's Common Stock will be subject to those of the holders of any shares of the Company's Preferred Stock the Company may issue in the future.

The following table reflects the total number of shares of the Company's Common Stock reserved for future issuance as of December 31, 2018:

Shares of common stock reserved for:	
Exercise of stock options and restricted stock awards	960,719
Conversion of preferred stock to common stock	2,010,045
Total shares of common stock reserved for future issuance	2,970,764

Share Repurchases

On November 4, 2015, the Board authorized the Company to engage in a repurchase program to repurchase up to $70,000 in aggregate value of the Company's Common Stock during the twelve-month period following November 4, 2015. This plan terminated on November 3, 2016. A total of 1,360,249 shares were purchased through this plan for $62,981, excluding commission payments.

On October 26, 2016, the Board authorized a new repurchase program, under which the Company may repurchase up to $100,000 in aggregate value of the Company's Common Stock during the twelve-month period following October 26, 2016. Through October 26, 2017, a total of 770,808 shares were purchased through this plan for $30,360, excluding commission payments.

On November 2, 2017, the Board approved the extension of the Company's October 26, 2016 stock repurchase program, authorizing the Company to engage in a repurchase program to repurchase up to $69,640 (the amount remaining from the $100,000 repurchase amount authorized in 2016) in aggregate value of our Common Stock through December 31, 2018. Subsequently, on March 29, 2018, the Board authorized an increase in the amount available for stock repurchases under the Company's existing stock repurchase program by $77,800, and extended the existing stock repurchase program through June 30, 2019. As of December 31, 2018, 1,018,989 shares were purchased under this plan after it was extended on November 2, 2017 for $66,256, excluding commission payments.

During the years ended December 31, 2018, 2017 and 2016, the Company withheld 5,242, 19,556 and 2,736 shares, respectively, from employees to cover the settlement of income tax and related benefit withholding obligations arising from vesting of restricted stock awards. In addition, during the years ended December 31, 2018 and 2017, the Company withheld 12,676 and 5,665 shares, respectively, from employees to cover the settlement of income tax and related benefit withholding obligations and the exercise price upon the exercise of stock options.

14. Stock-Based Compensation and Similar Arrangements

The Company provides stock-based compensation to employees, non-employee directors, consultants and advisors under the Company's 2006 Long-Term Incentive Plan ("2006 Plan"). The 2006 Plan allows the flexibility to grant or award stock options, stock appreciation rights, restricted stock, unrestricted stock, stock units including restricted stock units and performance awards to eligible persons.

The following table summarizes the activity under the 2006 Plan as of December 31, 2018:

	Number of shares of the Company's Common Stock authorized for issuance	Number of shares of the Company's Common Stock remaining for future grants	Number of shares of the Company's Common Stock subject to	
			Stock Options	Stock Grants
2006 Plan	5,400,000	1,356,820	908,588	52,131

The following table reflects the amount of stock-based compensation, for share settled awards issued to employees and non-employee directors, recorded in each financial statement line item for the years ended December 31, 2018, 2017 and 2016:

	Year Ended December 31,		
	2018	2017	2016
Service expense	$ 950	$ 434	$ 841
General and administrative expense	8,037	7,052	4,324
Equity in net loss (gain) of investees	137	76	18
(Loss) income from discontinued operations, net of tax	6	57	(29)
Total stock-based compensation	$ 9,130	$ 7,619	$ 5,154

Stock-based compensation included in service expense is related to the NET Services segment, whereas the amount included in equity in net loss (gain) of investees is related to the Matrix Investment segment, as a member of Matrix management continues to hold Providence equity awards.

The amounts above exclude tax benefits of $1,888, $2,885 and $2,072 for the years ended December 31, 2018, 2017 and 2016, respectively.

Stock Options

During the year ended December 31, 2016, the Company did not grant any stock options. The fair value of each stock option awarded to employees is estimated on the date of grant using the Black-Scholes option-pricing formula based on the following assumptions for the years ended December 31, 2018 and 2017:

	Year Ended December 31,					
	2018			2017		
Expected dividend yield	0.0%			0.0%		
Expected stock price volatility	26.47%	—	39.83%	19.5%	—	42.95%
Risk-free interest rate	2.26%	—	2.91%	1.0%	—	2.23%
Expected life of options (years)	1.29	—	6.50	0.03	—	6.50

The risk-free interest rate was based on the U.S. Treasury security rate in effect as of the date of grant which corresponds to the expected life of the award. The expected stock price volatility was based on the Company's historical data. The expected lives of options were based on the Company's historical data, a simplified method for plain vanilla options, or the Company's best estimate where appropriate. The simplified method was used for plain vanilla options for which the Company did not have sufficient historical data to use in determining the expected life.

In connection with the Organizational Consolidation, on April 9, 2018, the Company entered into an agreement with R. Carter Pate for his continued employment as the Company's Interim CEO through June 30, 2019. The agreement also provided for a grant of unvested options to purchase up to 394,000 shares of the Company's common stock, at a price of $71.67 per share, which was the closing price of the Company's common stock on the grant date. The options are subject to vesting as follows: (i) 50% of the options will become vested if Mr. Pate remains employed by the Company through June 30, 2019 (the "Time-Vesting Options"), (ii) 25% of the options will become vested on March 31, 2019 if the Company has achieved its budget for its 2018 fiscal year, subject to certain adjustments, and Mr. Pate is then employed, and (iii) 25% of the options will become vested on March 31, 2019 subject to Mr. Pate's achievement of other performance metrics if Mr. Pate is then employed. In recognition of certain holding company employees' essential contributions to the success of the Company, and to encourage further alignment with the Company's long-term interests through the ownership of equity, Mr. Pate voluntarily set aside 98,500 of the options granted to him, representing 25% of his total award. The value of the awards of $1,273 was fully expensed in the three months ended June 30, 2018. The Compensation Committee of the Board granted cash bonuses to employees based upon their performance throughout the Organizational Consolidation process in December 2018 in relation to the options voluntarily set aside by Mr. Pate.

In accordance with the terms of the agreement and actual performance to budget, only half of the options related to the budget performance criteria in (ii) above will vest.

In addition, the Time-Vesting Options will become fully vested upon a "change in control" (as defined in the 2006 Plan) or a termination of Mr. Pate's employment by the Company without "cause" (as defined in the Company's 2015 Holding Company LTI Program) or for "good reason" (as defined in the Option Agreement). Once vested, the options will remain exercisable until April 8, 2021, unless terminated earlier due to a termination of Mr. Pate's employment for "cause".

Also, in connection with the Organizational Consolidation and his appointment as Interim CFO, on April 9, 2018, William Severance received an option to purchase 13,710 shares of common stock at a price of $71.67 per share, which was the closing price of the Company's common stock on the grant date. The options will become fully exercisable on May 10, 2019, subject to Mr. Severance's continued employment with the Company, and if not exercised will expire on December 31, 2020.

During the fourth quarter of 2017, James Lindstrom resigned from the Company as Chief Executive Officer ("CEO") and board member of the Company. As a result of Mr. Lindstrom's resignation as CEO, a separation agreement was entered into between the Company and Mr. Lindstrom. As a result of this separation agreement, Mr. Lindstrom was granted 125,000 stock options with an exercise price of $61.33 per share that were immediately vested. 75,000 of these options were exercised during the year ended December 31, 2018, the remaining options expired on December 31, 2018.

During the year ended December 31, 2018, the Company issued 266,293 shares of its Common Stock in connection with the exercise of employee stock options under the Company's 2006 Plan.

The following table summarizes the stock option activity for the year ended December 31, 2018:

	Year ended December 31, 2018			
	Number of Shares Under Option	Weighted-average Exercise Price	Weighted-average Remaining Contractual Term	Aggregate Intrinsic Value
Balance at beginning of period, January 1	606,695	$ 48.70		
Granted	750,993	66.73		
Exercised	(278,969)	44.82		
Forfeited/Canceled	(120,131)	68.81		
Expired	(50,000)	61.33		
Outstanding at end of period, December 31	908,588	$ 61.44	2.40	$ 4,348
Vested or expected to vest at end of period, December 31	871,651	$ 61.01	2.49	$ 4,348
Exercisable at end of period, December 31	263,897	$ 50.28	1.98	$ 2,570

The weighted-average grant date fair value for options granted, total intrinsic value and cash received by the Company related to options exercised during the years ended December 31, 2018, 2017 and 2016 were as follows:

	Year ended December 31,		
	2018	2017	2016
Weighted-average grant date fair value per share	$ 15.08	$ 9.05	$ —
Options exercised:			
Total intrinsic value	$ 6,805	$ 2,010	$ 979
Cash received	$ 12,413	$ 1,921	$ 4,108

Stock Option Modifications

As part of the Company's retention plan associated with the Organizational Consolidation, the Company provided that unvested stock-based awards to employees subject to the retention plan will vest in full upon their termination dates so long as those employees fulfill their service obligation to the Company under the retention plan. As such, the vesting terms of 11,035

stock options were modified. Additionally, the exercise terms of the respective unvested stock options were modified to allow for exercise through December 31, 2020. As a result of the modifications, the Company revalued the awards as of April 9, 2018,

and is expensing the unrecognized stock-based compensation cost, based on the new fair value, through the termination date of each relevant employee. Additional expense incurred during the year ended December 31, 2018, as a result of the modification, totaled $168. See Note 10, *Restructuring and Related Reorganization Costs,* for additional information.

During the fourth quarter of 2017, as a result of the separation agreement between the Company and Mr. Lindstrom, Mr. Lindstrom's outstanding stock options from his grants of 11,319 on August 6, 2015 and 9,798 on March 15, 2017 were modified to accelerate the vesting date of both awards to November 15, 2017 and allow exercise of the stock options until December 31, 2018. As a result of the modification to the terms of the original stock options granted to Mr. Lindstrom, the Company recognized an accelerated expense of $83 on the award for the year ended December 31, 2017.

Restricted Stock Awards

During the year ended December 31, 2018, the Company granted 20,242 shares of restricted stock ("RSAs") to non-employee directors of its Board, executive officers and certain key employees. The awards primarily vest in three equal installments on the first, second and third anniversaries of the date of grant.

During the year ended December 31, 2018, the Company issued 27,894 shares of its Common Stock to non-employee directors, executive officers and key employees upon the vesting of certain RSAs granted in 2017, 2016 and 2015 under the Company's 2006 Plan.

The following table summarizes the activity of the shares and weighted-average grant date fair value of the Company's unvested restricted Common Stock during the year ended December 31, 2018:

	Shares	Weighted-average grant date fair value
Non-vested at beginning of period, January 1	64,779	$ 44.82
Granted	20,242	$ 66.07
Vested	(27,894)	$ 46.39
Forfeited or cancelled	(9,799)	$ 46.83
Non-vested at end of period, December 31	47,328	$ 52.56

As of December 31, 2018, there was $7,604 of unrecognized compensation cost related to unvested share settled stock options and RSAs granted under the 2006 Plan. The cost is expected to be recognized over a weighted-average period of 1.2 years. The total fair value of stock options and RSAs vested was $4,428, $3,550 and $1,383 for the years ended December 31, 2018, 2017 and 2016, respectively.

Restricted Stock Award Modifications

As part of the Company's retention plan associated with the Organizational Consolidation, the Company provided that unvested stock-based awards to employees subject to the retention plan will vest in full upon their termination dates so long as those employees fulfill their service obligation to the Company under the retention plan. As such, the vesting terms of 7,286 restricted stock awards were modified. As a result of the modifications, the Company revalued the awards as of April 9, 2018, and is expensing the unrecognized stock-based compensation cost, based on the new fair value, through the termination date of each relevant employee. Additional expense incurred during the year ended December 31, 2018, as a result of the modification, totaled $290. See Note 10, *Restructuring and Related Reorganization Costs,* for additional information.

Restricted Stock Units

During the year ended December 31, 2016, the Company granted 5,930 restricted stock units to a key employee, related to the terms of a separation agreement, that vested on January 3, 2017. The units were settled through a cash payment of

$304 during the year ended December 31, 2017. The award was classified as a liability, and the expense recorded was based upon the Company's closing stock price at the end of each reporting period and the completed requisite service period.

Deferred Share Units

During the year ended December 31, 2018, the Company granted 4,803 deferred share units to a director that vested on June 8, 2018, but will not be released until March 3, 2019. The units were fully expensed during the year ended December 31, 2018 and had a grant date fair value of $75.51 per share.

Cash Settled Awards

During the years ended December 31, 2018, 2017 and 2016, respectively, the Company issued 2,017, 3,097 and 3,360 stock equivalent units ("SEUs"), which settle in cash upon vesting, to Coliseum Capital Partners, L.P., in lieu of a grant to Christopher Shackelton, Chairman of the Board, for his service on the Board, which vest one-third upon each anniversary of the vesting date. The fair value of the SEUs is based on the closing stock price on the last day of the period and the completed requisite service period. The Company recorded $209, $235 and $287 of expense for SEUs during the years ended December 31, 2018, 2017 and 2016, respectively.

During the year ended December 31, 2014, the Company issued 200,000 stock option equivalent units ("SOEUs"), with an exercise price of $43.81 per share, which settle in cash, to Coliseum Capital Partners, L.P in lieu of a grant to Christopher Shackelton, for other services rendered. All 200,000 SOEUs were outstanding and exercisable at December 31, 2018. This award vested one-third upon grant, one-third on June 30, 2015 and one-third on June 30, 2016. No additional SOEUs were granted during the years ended December 31, 2018, 2017 and 2016. The Company recorded benefits of $191 and $1,517 for SOEUs during the years ended December 31, 2018 and 2016, respectively, and expense of $2,146 during the year ended December 31, 2017. The benefits and expense are included in "General and administrative expense" in the consolidated statements of operations. The fair value of the SOEUs was estimated as of December 31, 2018, 2017 and 2016 using the Black-Scholes option-pricing formula and amortized over the option's graded vesting periods with the following assumptions:

	Year ended December 31,								
	2018			2017			2016		
Expected dividend yield	0.0%			0.0%			0.0%		
Expected stock price volatility	27.82%	—	30.59%	23.36%	—	32.09%	35.71%	—	41.8%
Risk-free interest rate	2.50%	—	2.61%	1.75%	—	1.95%	1.11%	—	1.64%
Expected life of options (in years)	0.75	—	1.75	0.75	—	2.75	1.00	—	3.00

As of December 31, 2018 and 2017, the Company had a short-term liability of $3,719 and $3,938, respectively, in "Accrued expenses" in the consolidated balance sheets related to unexercised vested and unvested cash settled share-based payment awards. The cash settled share-based compensation expense in total excluded a tax benefit of $908 for the year ended December 31, 2017. The cash settled share-based compensation benefit in total excluded a tax expense of $4 and $492 for the years ended December 31, 2018 and 2016. The unrecognized compensation cost for SEUs is expected to be recognized over a weighted average period of 0.7 years; however, the total expense for both SEUs and SOEUs will continue to be adjusted until the awards are settled.

Holdco Long-Term Incentive Plan

On August 6, 2015 (the "Award Date"), the Compensation Committee of the Board adopted the 2015 Holding Company LTI Program ("HoldCo LTIP") under the 2006 Plan. Under the program, executives would receive shares of Providence common stock based on the shareholder value created in excess of an 8.0% compounded annual return between the Award Date and December 31, 2017 (the "Extraordinary Shareholder Value"). The Award Date value was calculated on the basis of the Providence stock price equal to the volume weighted average of the common share price over the 90-day trading period ending on the Award Date. The Extraordinary Shareholder Value was calculated on the basis of the Providence stock price equal to the volume weighted average of the common share price over the 90-day trading period ending on December 31, 2017. A pool for use in the allocation of awards was created equal to 8.0% of the Extraordinary Shareholder Value.

It was determined that no shares would be distributed under the Holdco LTIP as the calculation of the pool amount was zero. $4,738 and $3,319 of expense are included in "General and administrative expense" in the consolidated statements of operations for the years ended December 31, 2017 and 2016, respectively.

These awards were classified as equity and the fair value of the awards was calculated using a Monte-Carlo simulation valuation model. The fair value of the awards granted in 2016 were estimated using the following assumptions:

	Year ended December 31, 2016
Forward interest rate	0.24% — 2.71%
Expected Volatility	40.0%
Dividend Yield	—%
Fair Value of Total Pool	$12,870

15. Long-Term Incentive Plans

The Company established Long-Term Incentive Plans ("LTIPs") for the Company's operating segments during the fourth quarter of 2015. The awards pay in cash, however up to 50% of the award may be paid in unrestricted stock if the recipient elects this option when the LTIP offer letter is received. In addition, at the discretion of the Company, the recipients may be able to elect unrestricted stock in lieu of cash compensation at a later date. The LTIPs reward participants based on certain measures of free cash flow and EBITDA results adjusted as specified in the plan document. The awards vest in three installments: 60% of the award will pay out immediately following December 31, 2017, 25% one year following the performance period (i.e. December 31, 2018) and 15% two years following the performance period (i.e. December 31, 2019). Payout is subject to the participant remaining employed by the Company.

During 2017, the Company revised the structure of the NET Services long-term incentive plan. As a result, the Company finalized the amount payable under the plan at $2,956. The total value will be paid to the awarded participants per the terms of the original agreement and thus the remaining unamortized expense relating to this plan continues to be recognized over the remaining service period. For the years ended December 31, 2018, 2017, and 2016, a benefit of $253, expense of $816 and expense of $1,513, respectively, is included in "Service expense" in the consolidated statements of operations related to this plan. At December 31, 2018 and 2017, the liability for long-term incentive plans of the Company's operating segments of $630 and $2,657, respectively, is reflected in "Accrued expenses" and "Other long-term liabilities" in the consolidated balance sheets.

The Board approved the LogistiCare 2017 Senior Executive LTI Plan (the "LogistiCare LTIP") for executive management and key employees of NET Services during the three months ending March 31, 2018. The LogistiCare LTIP pays in cash, however up to 50% of the award may be paid in unrestricted stock if the recipient elects this option prior to the award payment date. The LogistiCare LTIP rewards participants based on certain measures of free cash flow and EBITDA results adjusted as specified in the plan document. The awards have a performance period of January 1, 2017 through December 31, 2019, with a payout date within two and a half months of the performance period end date. Payout is subject to the participant remaining employed by the Company on the payment date. The maximum amount that can be earned through the LogistiCare LTIP is $7,000. As of December 31, 2018, 65.5% of the awards have been issued under the LogistiCare LTIP. No expense has been incurred for this plan during the year ended December 31, 2018, as we currently believe that it is not probable the defined measures will be met.

In connection with the acquisition of Circulation, the Company established a management incentive plan ("MIP") that is intended to motivate key employees of Circulation whereby they may be entitled to cash payments if certain financial measures are met based upon cumulative NET Services EBITDA; less the assumption of former Corporate and Other segment costs; less cumulative CAPEX ("MIP Financial Performance") for the performance period January 1, 2019 to December 31, 2021 as compared to the baseline, as determined by the Board. To the extent amounts are earned, the payout date is within 30 days following the finalization of the Company's audited financial statements for the fiscal year ending December 31, 2021. Payout is subject to the participant remaining employed by the Company through December 31, 2021. The amount that can be earned through the MIP ranges from $12,500 to $237,500 based on a range of value of the MIP Financial Performance of $272,500 to $395,500. As of December 31, 2018, the Company has accrued $1,441, reflected in "Other long-term liabilities" in the consolidated balance sheet, towards its estimate of the expected payout under the MIP.

16. Earnings Per Share

The following table details the computation of basic and diluted earnings per share:

	Year ended December 31,		
	2018	**2017**	**2016**
Numerator:			
Net (loss) income attributable to Providence	$ (18,981)	$ 53,369	$ 91,928
Less dividends on convertible preferred stock	(4,420)	(4,419)	(4,419)
Less income allocated to participating securities	(1,856)	(6,314)	(10,569)
Net (loss) income available to common stockholders	$ (25,257)	$ 42,636	$ 76,940
Continuing operations	$ 11,953	$ 40,647	$ 19,749
Discontinued operations	(37,210)	1,989	57,191
	$ (25,257)	$ 42,636	$ 76,940
Denominator:			
Denominator for basic earnings per share -- weighted-average shares	12,960,837	13,602,140	14,666,896
Effect of dilutive securities:			
Common stock options	72,410	66,314	105,837
Performance-based restricted stock units	—	4,860	6,665
Denominator for diluted earnings per share -- adjusted weighted-average shares assumed conversion	13,033,247	13,673,314	14,779,398
Basic earnings (loss) per share:			
Continuing operations	$ 0.92	$ 2.99	$ 1.35
Discontinued operations	(2.87)	0.15	3.90
	$ (1.95)	$ 3.14	$ 5.25
Diluted earnings (loss) per share:			
Continuing operations	$ 0.92	$ 2.97	$ 1.34
Discontinued operations	(2.86)	0.15	3.87
	$ (1.94)	$ 3.12	$ 5.21

Income allocated to participating securities is calculated by allocating a portion of net income attributable to Providence, less dividends on convertible stock, to the convertible preferred stockholders on a pro-rata as converted basis; however, the convertible preferred stockholders are not allocated losses.

The following weighted-average shares were not included in the computation of diluted earnings per share as the effect of their inclusion would have been anti-dilutive:

	Year ended December 31,		
	2018	**2017**	**2016**
Stock options to purchase common stock	560,547	362,392	22,638
Convertible preferred stock	802,489	803,323	803,442

17. Operating Leases and Service Commitment

Operating Leases

The Company has non-cancelable contractual obligations in the form of operating leases for office space, related office equipment and other facilities. The leases expire in various years and generally provide for renewal options. In the normal course of business, it is expected that these leases will be renewed or replaced by leases on other properties.

Certain operating leases provide for increases in future minimum annual rental payments based on defined increases in the Consumer Price Index, subject to certain minimum increases. Several of these lease agreements contain provisions for periods in which rent payments are reduced. The total amount of rental payments due over the lease term is being charged to rent expense on a straight-line basis over the term of the lease. The cumulative difference between rent expense recorded and the amount paid, for continuing operations, as of December 31, 2018 and 2017 was $2,115 and $2,209, respectively, and is included in "Accrued expenses" and "Other long-term liabilities" in the consolidated balance sheets.

Future minimum payments under non-cancelable operating leases for equipment and property with initial terms of one year or more consisted of the following at December 31, 2018:

	Operating Leases
2019	$ 8,825
2020	6,452
2021	4,594
2022	3,801
2023	1,767
Thereafter	1,600
Total future minimum lease payments	$ 27,039

Rent expense for continuing operations related to operating leases was $10,960, $10,250 and $9,624, for the years ended December 31, 2018, 2017 and 2016, respectively. Also, the lease agreements generally require the Company to pay executory costs such as real estate taxes, insurance, and repairs, which are recorded to expense as incurred.

Service Commitment

The Company has entered into a commitment related to transportation services. The commitment amount represents the minimum obligation the Company has under this agreement. If the Company does not utilize the minimum level of services specified in the agreement, a penalty provision will apply. However, the minimum obligation is less than the Company's projected use for these periods and payments may be more than the minimum obligation based on actual use.

Future minimum payments under this service commitment consisted of the following at December 31, 2018:

	Service Commitment
2019	$ 9,509
2020	19,208
Total future minimum payments	$ 28,717

18. Retirement Plan

The Company maintains a qualified defined contribution plan under Section 401(k) of the Internal Revenue Code of 1986, as amended, for all employees of its NET Services' operating segment and corporate personnel. The Company, at its

discretion, may make a matching contribution to the plan. Any matching contributions vest over 5 years. Unvested matching contributions are forfeitable upon employee termination. Employee contributions are fully vested and non-forfeitable. The Company's

contributions to the plan for continuing operations were $340, $304 and $232, for the years ended December 31, 2018, 2017 and 2016, respectively.

The Company also maintains a Deferred Compensation Rabbi Trust Plan for highly compensated employees of NET Services. This plan was put in place to compensate for the inability of highly compensated employees to take full advantage of the Company's 401(k) plan. Additional information is included in Note 20, *Commitments and Contingencies*.

19. Income Taxes

The federal and state tax provision is summarized as follows:

	Year Ended December 31,		
	2018	**2017**	**2016**
Federal income tax expense (benefit):			
Current	$ 3,462	$ 19,011	$ 20,963
Deferred	(1,157)	(19,762)	(6,545)
Total Federal income tax expense (benefit)	2,305	(751)	14,418
State income tax expense (benefit):			
Current	2,113	4,048	4,501
Deferred	266	706	(947)
Total State income tax expense (benefit)	2,379	4,754	3,554
Total provision for income taxes	$ 4,684	$ 4,003	$ 17,972

A reconciliation of the provision for income taxes with amounts determined by applying the statutory U.S. federal income tax rate to income from continuing operations before income taxes is as follows:

	Year Ended December 31,		
	2018	**2017**	**2016**
Federal statutory rates	21%	35%	35%
Federal income tax at statutory rates	$ 4,812	$ 19,281	$ 15,699
Revaluation of net deferred tax liabilities due to U.S. tax reform	(286)	(19,304)	—
U.S. tax reform impact on equity income of investees	—	(1,646)	—
Change in valuation allowance	36	177	296
Change in uncertain tax positions	108	7	73
State income taxes, net of federal benefit	1,843	3,157	2,399
Compensation expense	235	—	—
Stock compensation	76	3,400	—
Meals and entertainment	74	99	94
Transaction costs	263	159	—
Cost method investment re-measurement gain	(1,381)	—	—
Tax credits	(1,208)	(354)	(947)
Legal expense	—	(805)	522
Other	112	(168)	(164)
Provision for income taxes	$ 4,684	$ 4,003	$ 17,972
Effective income tax rate	20%	7%	40%

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Significant components of the Company's deferred tax assets and liabilities of continuing operations are as follows:

	December 31,	
	2018	2017
Deferred tax assets:		
Net operating loss carryforwards	$ 19,485	$ —
Capital loss carryforward	1,072	—
Tax credit carryforwards	840	486
Accounts receivable allowance	227	1,134
Accrued items and reserves	6,817	8,297
Stock compensation	1,480	1,480
Deferred rent	543	572
Deferred revenue	272	—
Other	773	172
	31,509	12,141
Deferred tax liabilities:		
Deferred financing costs	12	38
Prepaids	900	1,439
Property and equipment depreciation	3,492	3,329
Goodwill and intangibles amortization	6,944	3,678
Equity investment	40,577	42,113
Other	—	303
	51,925	50,900
Net deferred tax liabilities	(20,416)	(38,759)
Less valuation allowance	(2,633)	(473)
Net deferred tax liabilities	$ (23,049)	$ (39,232)
Net noncurrent deferred tax assets, net of valuation allowance of $0 for 2018 and 2017	$ 2,601	$ —
Net noncurrent deferred tax liabilities, net of valuation allowance of $2,633 and $473 for 2018 and 2017, respectively	(25,650)	(39,232)
	$ (23,049)	$ (39,232)

At December 31, 2018, the Company had approximately $86,865 of federal net operating loss carryforwards, including $3,055 which will expire primarily in 2037 and $83,810 which can be carried forward indefinitely. In addition, at December 31, 2018, the Company had approximately $26,936 of state net operating loss carryforwards which expire as follows:

2023	$ 2,021
Thereafter	24,915
Total state net operating loss carryforwards	$ 26,936

Approximately $8,600 of the U.S. and state net operating loss carryforwards relate to Circulation, Inc. pre-acquisition tax periods and are subject to change of ownership limitations on their use. These limitations are not expected to restrict the ultimate use of these loss carryforwards.

Realization of the Company's net operating loss carryforwards is dependent on generating sufficient taxable income. Although realization is not assured, management believes it is more likely than not that all of the deferred tax assets will be

realized, to the extent they are not covered by a valuation allowance. The amount of the deferred tax asset considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carryforward period are reduced.

The net change in the total valuation allowance for the year ended December 31, 2018 was $2,160, of which $36 related to current operations, $1,492 related to discontinued operations and $632 related to the balance from the Circulation acquisition. The valuation allowance of $2,633 includes $2,166 for state net operating loss, capital loss and tax credit carryforwards and $467 for stock compensation and accrued liability deferred tax assets for which the Company has concluded that it is more likely than not that these carryforwards and deferred tax assets will not be realized in the ordinary course of operations. The Company will continue to assess the valuation allowance, and to the extent it is determined that the valuation allowance should be changed, an appropriate adjustment will be recorded.

U.S. Tax Reform

On December 22, 2017, the Tax Reform Act was enacted which institutes fundamental changes to the taxation of multinational corporations. The Tax Reform Act includes changes to the taxation of foreign earnings by implementing a dividend exemption system, expansion of the current anti-deferral rules, a minimum tax on low-taxed foreign earnings and new measures to deter base erosion. The Tax Reform Act also includes a permanent reduction in the corporate tax rate to 21%, repeal of the corporate alternative minimum tax, expensing of capital investment, and limitation of the deduction for interest expense. Furthermore, as part of the transition to the new tax system, a one-time transition tax is imposed on a U.S. shareholder's historical undistributed earnings and profits ("E&P") of foreign affiliates. Although the Tax Reform Act is generally effective January 1, 2018, GAAP requires recognition of the tax effects of new legislation during the reporting period that includes the enactment date, which was December 22, 2017.

As a result of the reduction in the U.S. corporate income tax rate, the Company revalued its ending net deferred tax liabilities as of December 31, 2017 and recognized a provisional tax benefit of $20,950. The Company projected net accumulated deficits in foreign E&P; therefore, no provisional tax expense for deemed repatriation was recognized.

On December 22, 2017, the SEC staff issued Staff Accounting Bulletin No. 118 ("SAB 118") to address the application of GAAP in situations when a registrant does not have the necessary information available, prepared, or analyzed (including computations) in reasonable detail to complete the accounting for certain income tax effects of the Tax Reform Act. In accordance with the SAB 118 guidance, the Company has recognized the provisional tax impacts related to the benefit for the revaluation of deferred tax assets and liabilities in its consolidated financial statements for the year ended December 31, 2017. The financial reporting impact of the Tax Reform Act was completed in the fourth quarter of 2018 and an additional benefit of $286 was recorded.

Unrecognized Tax Benefits

The Company expects no material amount of the unrecognized tax benefits to be recognized during the next twelve months. The Company recognizes interest and penalties as a component of income tax expense. During the years ended December 31, 2018, 2017 and 2016, the Company recognized approximately $47, $65 and $19, respectively, in interest and penalties from continuing operations. The Company had approximately $109 and $83 for the payment of penalties and interest of continuing operations accrued as of December 31, 2018 and 2017, respectively.

A reconciliation of the liability for unrecognized income tax benefits for continuing operations is as follows:

	December 31,		
	2018	**2017**	**2016**
Unrecognized tax benefits, beginning of year	$ 1,115	$ 1,108	$ 271
Balance upon acquisition/disposition	—	—	764
Increase related to prior year positions	104	22	37
Increase related to current year tax positions	160	101	139
Statute of limitations expiration	(157)	(116)	(103)
Unrecognized tax benefits, end of year	$ 1,222	$ 1,115	$ 1,108

The Company is subject to taxation in the U.S. and various state jurisdictions. The statute of limitations is generally three years for the U.S. and between three and four years for the various states in which the Company operates. The tax years that remain open for examination by the U.S. and states principally include the years 2014 to 2017.

20. Commitments and Contingencies

Legal proceedings

In the ordinary course of business, the Company is a party to various lawsuits. Management does not expect these lawsuits to have a material impact on the liquidity, results of operations, or financial condition of the Company.

On January 21, 2019, the United States District Court for the Southern District of Ohio unsealed a qui tam complaint, filed in December 2015, against Mobile Care Group, Inc., Mobile Care Group of Ohio, LLC, Mobile Care EMS & Transport, Inc. and LogistiCare Solutions, LLC ("LogistiCare") by the relators Brandee White, Laura Cunningham, and Jeffery Wisier (the "Relators") alleging violations of the federal False Claims Act by presenting claims for payment to government healthcare programs knowing that the prerequisites for such claims to be paid had not been met. The Relators seek to recover damages, fees and costs under the federal False Claims Act including treble damages, civil penalties and attorneys' fees. In addition, the Relators seek reinstatement to their jobs with the Mobile Care entities. None of the Relators was employed by LogistiCare. Prior to January 21, 2019, LogistiCare had no knowledge of the complaint. The federal government has declined to intervene against LogistiCare. The Company intends to defend the litigation vigorously and believes that the case will not have a material adverse effect on its business, financial condition or results of operations.

Indemnifications related to Haverhill Litigation

The Company indemnified the Coliseum Stockholders from and against any and all losses, claims, damages, expenses and liabilities relating to or arising out of (i) any breach of any representation, warranty, covenant or undertaking made by or on behalf of the Company in the Standby Purchase Agreement and (ii) the transactions contemplated by the Standby Purchase Agreement and the 14.0% Unsecured Subordinated Note in aggregate principal amount of $65,500, except to the extent that any such losses, claims, damages, expenses and liabilities are attributable to the gross negligence, willful misconduct or fraud of such Coliseum Stockholder.

The Company has also indemnified other third parties from and against any and all losses, claims, damages, expenses and liabilities arising out of or in connection with the Company's acquisition of CCHN Group Holdings, Inc. (operating under the tradename Matrix, and formerly included in our HA Services segment) in October 2014 and related financing commitments, except to the extent that any such losses, claims, damages, expenses and liabilities are found in a final, non-appealable judgment by a court of competent jurisdiction to have resulted from the gross negligence, bad faith or willful misconduct of such third parties, or a material breach of such third parties' obligations under the related agreements.

In June 2015, a putative stockholder class action derivative complaint related to such rights offering and acquisition was filed in the Court of Chancery of the State of Delaware captioned Haverhill Retirement System v. Kerley et al., C.A. No. 11149-VCL (the "Haverhill Litigation"). In November 2017, the Company received a payment of $5,363 under the settlement agreement entered into by the parties to the Haverhill Litigation.

The Company recorded $318 and $1,282 of such indemnified legal expenses related to the Haverhill Litigation during the years ended December 31, 2017 and 2016, respectively, which is included in "General and administrative expenses" in the consolidated statements of operations. Of these amounts, $245 and $757 for the years ended December 31, 2017 and 2016, respectively, were indemnified legal expenses of related parties. Other legal expenses of the Company related to the Haverhill Litigation are covered under the Company's insurance policies, subject to applicable deductibles and customary review of the expenses by the carrier. The Company recognized a benefit of $226 for the year ended December 31, 2018, and expense of $8 and $210 for the years ended December 31, 2017 and 2016, respectively. While the carrier typically remits payment directly to the respective law firm, the Company accrues for the cost and records a corresponding receivable for the amount to be paid by the carrier. The Company recognized an insurance receivable of $941 in "Other receivables" in the consolidated balance sheet at December 31, 2017, with a corresponding liability amount recorded to "Accrued expenses".

Other Indemnifications

The Company provided certain standard indemnifications in connection with the sale of the Human Services segment to Molina Healthcare Inc. ("Molina") effective November 1, 2015. Certain representations made by the Company in the related Membership Interest Purchase Agreement (the "Purchase Agreement") including tax representations, survive until the expiration of applicable statutes of limitation. Molina and the Company entered into a settlement agreement regarding indemnification claims by Molina with respect to *Rodriguez v. Providence Community Corrections* (the "Rodriguez

Litigation"), a complaint filed in the District Court for the Middle District of Tennessee, Nashville Division, against Providence Community Corrections, Inc. ("PCC"),

an entity sold under the Purchase Agreement. The Company expects to recover a portion of the settlement through insurance coverage, although this cannot be assured.

The Company has provided certain standard indemnifications in connection with its Matrix stock subscription transaction whereby Mercury Fortuna Buyer, LLC ("Subscriber"), Providence and Matrix entered into a stock subscription agreement (the "Subscription Agreement"), dated August 28, 2016. The representations and warranties made by the Company in the Subscription Agreement ended January 19, 2018; however, certain fundamental representations survive through the 36th month following the closing date. The covenants and agreements of the parties to be performed prior to the closing ended January 19, 2018, and all other covenants and agreements survive until the expiration of the applicable statute of limitations in the event of a breach, or for such lesser periods specified therein. The Company is not aware of any indemnification liabilities with respect to Matrix that require accrual at December 31, 2018.

The Company has provided certain standard indemnifications in connection with the sale of substantially all of its WD Services segment to APM, which closed on December 21, 2018. The non-title warranties made by the Company in the related Share Purchase Agreement survive for 18 months following the closing date, and the title-related warranties and tax warranties survive five years from the closing date. The Company is not aware of any indemnification liabilities with respect to the former WD Services segment that require accrual at December 31, 2018.

On May 9, 2018, the Company entered into a registration indemnification agreement with the Coliseum Stockholders, who as of December 31, 2018, collectively held approximately 9.6% of the Company's outstanding common stock and approximately 95.6% of the Company's outstanding Preferred Stock, pursuant to which the Company has agreed to indemnify the Coliseum Stockholders, and the Coliseum Stockholders have agreed to indemnify the Company, against certain matters relating to the registration of the Coliseum Stockholders' securities for resale under the Securities Act.

Deferred Compensation Plan

The Company has one deferred compensation plan for management and highly compensated employees of NET Services as of December 31, 2018. The deferred compensation plan is unfunded, and benefits are paid from the general assets of the Company. The total of participant deferrals, which is reflected in "Other long-term liabilities" in the consolidated balance sheets, was $1,982 and $1,806 at December 31, 2018 and 2017, respectively.

21. Transactions with Related Parties

The Company incurred legal expenses under an indemnification agreement with the Coliseum Stockholders as further discussed in Note 20, *Commitments and Contingencies*. Preferred stock dividends earned by the Coliseum Stockholders during the years ended December 31, 2018 and 2017 totaled $4,213 each year.

Effective June 15, 2018, the Company registered shares of the Company's common stock and Preferred Stock held by the Coliseum Stockholders for resale under the Securities Act and on May 9, 2018, in connection with such registration, the Company entered into a registration indemnification agreement with the Coliseum Stockholders as further discussed in Note 20, *Commitments and Contingencies*.

During the year ended December 31, 2017, the Company made a $566 loan to Mission Providence. The loan was also repaid during the year ended December 31, 2017.

22. Acquisitions

During 2017, the Company made an equity investment in Circulation, which was accounted for as a cost method investment. On September 21, 2018, the Company's subsidiary, LogistiCare, acquired all of the outstanding equity of Circulation, which offers a full suite of logistics solutions to manage non-emergency transportation across all areas of healthcare, powered by its HIPAA-compliant digital platform. Circulation enables administration of transportation benefits, proactively monitors for fraud, waste and abuse, and integrates all transportation capabilities (e.g. outsourced transportation, owned fleets, and other medical logistics services), while emphasizing patient convenience and satisfaction. Circulation's proprietary platform simplifies ordering, improves reliability and efficiency, and reduces transportation spend. The Company believes the acquisition advances LogistiCare's central mission of reducing transportation as a barrier to healthcare and will help deliver a differentiated user experience and provide a core technology and analytics platform that better positions LogistiCare for growth.

The purchase price was comprised of cash consideration of $45,123 paid to Circulation's equity holders (including holders of vested Circulation stock options), other than Providence. Per the terms of the Agreement and Plan of Merger (the "merger agreement"), dated as of September 14, 2018, by and among LogistiCare, the Company, Catapult Merger Sub, a wholly-owned subsidiary of LogistiCare ("Merger Sub"), Circulation and Fortis Advisors LLC, as the representative of Circulation's equity holders, Providence assumed certain unvested Circulation stock options under similar terms and conditions to the existing option awards previously issued by Circulation. The merger agreement also required $1,000 to be paid three years after the closing date of the transaction to each of the two co-founders of Circulation subject to their continued employment or provision of consulting services to LogistiCare. The value of the options assumed and co-founder hold back is accounted for as compensation, over the relevant vesting period, as such amounts are tied to future service conditions.

The Company's initial investment in Circulation was $3,000 in July 2017 to acquire a minority interest. As a result of the transactions pursuant to the merger agreement, the fair value of this pre-acquisition interest increased to $9,577, and thus the Company recognized a gain of $6,577. This gain is recorded as "Gain on remeasurement of cost method investment" on the Company's consolidated statement of operations for the year ended December 31, 2018. The Company determined the fair value of its pre-acquisition equity interest by multiplying the number of shares it held in Circulation pre-acquisition by the per-share consideration validated by reference to the total merger consideration agreed to with other unrelated equity holders in Circulation.

The Company incurred acquisition and related costs for this acquisition of $1,729 during the year ended December 31, 2018. These expenses are primarily included in general and administrative expenses of the NET Services segment in the consolidated statements of operations.

The purchase price of Circulation is calculated as follows:

Cash purchase of common stock	$	45,123
Providence's acquisition date fair value equity interest in Circulation		9,577
Total consideration	$	54,700

The table below presents Circulation's net assets at the date of acquisition based upon the final estimate of respective fair values:

Cash	$	1,302
Accounts receivable		996
Other assets		216
Property and equipment		49
Intangibles		15,700
Goodwill		40,001
Deferred taxes, net		(2,199)
Accounts payable and accrued liabilities		(1,244)
Deferred revenue		(69)
Other non-current liabilities		(52)
Total of assets acquired and liabilities assumed	$	54,700

The goodwill is allocated to the NET Services segment. None of the acquired goodwill is expected to be deductible for tax purposes.

The fair value of intangible assets is as follows:

	Type	Life	Value
Customer relationships	Amortizable	3 years	$ 1,400
Trademarks and trade names	Amortizable	3 years	200
Developed technology	Amortizable	5 years	14,100
			$ 15,700

The amounts of Circulation's revenue and net income included in the Company's consolidated statement of operations for the year ended December 31, 2018, and the unaudited pro forma revenue and net (loss) income attributable to Providence of the combined entity had the acquisition date been January 1, 2017, are:

	Year Ended December 31, 2018
Actual Circulation:	
Revenue	$ 2,205
Net loss	(2,108)

	Year Ended December 31,	
	2018	2017
Pro forma:		
Revenue	$ 1,388,203	$ 1,319,195
Net (loss) income attributable to Providence	(21,541)	49,097
Diluted (loss) earnings per share	$ (2.11)	$ 2.85

The pro forma information above for the year ended December 31, 2018 includes the elimination of acquisition related costs. Adjustments for all periods include expensing the incentive for two co-founders to be paid upon continuing employment, amortization expense based on the estimated fair value and useful lives of intangible assets and related tax effects. The pro forma financial information is not necessarily indicative of the results of operations that would have occurred had the transaction been affected on January 1, 2017.

23. Discontinued Operations

WD Services Segment

On December 21, 2018, the Company completed the sale of substantially all of the operating subsidiaries of its WD Services segment to APM and APM UK Holdings Limited, an affiliate of APM, except for the segment's employment services operations in Saudi Arabia. The Company's contractual counterparties in Saudi Arabia, including an entity owned by the Saudi Arabian government, assumed these operations beginning January 1, 2019.

The total cash consideration of the sale was $46,450, with the buyer retaining existing WD Services cash of $20,993. In addition to the purchase consideration, as a result of closing the transaction before the year end, the Company expects to realize cash tax benefits of approximately $51,861 from the transaction, including approximately $34,275 in tax refunds by the fourth quarter of 2019 in relation to its 2018 tax returns and loss carrybacks, which is inclusive of $646 of tax that would have been otherwise due in the fourth quarter of 2018. The remaining cash tax benefit of $17,586 is expected to be realized as an offset to tax payments over the following three years, based upon the Company's current estimate of taxable income. In addition, $1,072 of benefits related to capital loss carryforwards is available, which amount was reserved as of December 31, 2018.

On June 11, 2018, the Company entered into a Share Purchase Agreement to sell the shares of Ingeus France, its WD Services operation in France, for a de minimis amount. The sale was effective on July 17, 2018, after court approval.

On September 29, 2017, the Company and Mission Australia completed the sale of 100% of the stock of Mission Providence, a joint venture in the WD Services segment, pursuant to a share sale agreement. Upon the sale of Mission Providence, the Company received AUD 20,184, or $15,823 of proceeds, for its equity interest, net of transaction fees. Subsequently, a working capital adjustment was finalized in December 2017 resulting in the return of $229 of the proceeds. The related gain on sale of Mission Providence totaling $12,377 is recorded as "(Loss) income from discontinued operations, net of tax" in the accompanying consolidated statements of operations for the year ended December 31, 2017. Summary financial information for Mission Providence on a standalone basis for the nine months ended September 30, 2017 and the year ended December 31, 2016 is as follows:

	Nine months ended September 30, 2017	Year ended December 31, 2016
Revenue	$ 30,125	$ 36,546
Operating loss	(1,765)	(9,664)
Net loss	(1,934)	(8,843)

In accordance with ASC 205-20, *Presentation of Financial Statements-Discontinued Operations*, ("ASC 205-20") a component of an entity is reported in discontinued operations after meeting the criteria for held for sale classification if the disposition represents a strategic shift that has (or will have) a major effect on the entity's operations and financial results. The Company analyzed the quantitative and qualitative factors relevant to the disposition of the WD Services segment and determined that those held for sale conditions for discontinued operations presentation were met during the fourth quarter of 2018. As such, the historical financial results of the Company's historical WD Services segment, and the related income tax effects have been presented as discontinued operations for all periods presented in the accompanying consolidated financial statements.

HA Services Segment

Effective October 19, 2016, the Company completed the Matrix Transaction. At the closing, (i) cash consideration of $180,614 was paid by the Subscriber to Matrix based upon an enterprise value of $537,500 and (ii) Matrix borrowed approximately $198,000 pursuant to a credit and guaranty agreement providing for term loans in an aggregate principal amount of $198,000 and revolving loan commitments in an aggregate principal amount not to exceed $10,000, which was not drawn at the closing. At the closing, Matrix distributed $381,163 to Providence, in full satisfaction of a promissory note and accumulated interest between Matrix and Providence. At the closing, Providence made a $5,663 capital contribution to Matrix, as described in the Subscription Agreement, as amended, based upon its pro-rata ownership of Matrix, to fund the near-term cash needs of Matrix. On the day that was fifteen days following the closing date, Providence was, to the extent payable pursuant to the terms of the Subscription Agreement, as amended, entitled to receive from Matrix, or required to pay to Matrix, subsequent working capital adjustment payments. Providence received an initial payment of $5,172 from Matrix in November 2016 which is net of the capital contribution of $5,663 described above, based upon the initial working capital calculation as described in the Subscription Agreement. Additionally, in February 2017, the Company received a $75 payment from Matrix representing the final working capital adjustment payment.

In accordance with ASC 205-20, the Company analyzed the quantitative and qualitative factors relevant to the Matrix stock subscription transaction resulting in the Company no longer owning a controlling interest in Matrix, and determined that those held for sale conditions for discontinued operations presentation were met during the third quarter of 2016. As such, the historical financial results of Matrix, the Company's historical HA Services segment, and the related income tax effects have been presented as discontinued operations for all periods presented in the accompanying consolidated financial statements through October 19, 2016.

The Company has continuing involvement with Matrix through its ownership of 43.6% of the equity interests in Matrix as of December 31, 2018, as well as through a management consulting agreement, not to exceed ten years. Prior to the Matrix Transaction, the Company owned 100% of the equity interest in Matrix. Subsequent to the Matrix Transaction, the Company accounts for its investment in Matrix under the equity method of accounting. The Company's share of Matrix's gains and losses subsequent to the Matrix Transaction, which totaled a loss of $6,158, a gain of $13,445 and a loss of $1,789, is recorded as "Equity in net (gain) loss of investees" in its consolidated statement of operations for the years ended December 31,

2018, 2017 and 2016, respectively. Matrix's pretax loss for the year ended December 31, 2018 totaled $27,128. Matrix's pretax loss for the year ended December 31, 2017 totaled $2,948 and included $3,537 of transaction related expenses. Matrix's pretax loss for the period of

October 19, 2016 through December 31, 2016 totaled $7,027 and included $6,367 of transaction related expenses. There have been no cash inflows or outflows from or to Matrix subsequent to the closing of the Matrix Transaction, other than the working capital adjustments discussed above and management and advisory fees associated with its ongoing relationship with Matrix, of which $2,271 and $1,103 were received during the years ended December 31, 2018 and 2017, respectively. $259 and $247 are included in "Other receivables" in the consolidated balance sheets at December 31, 2018 and 2017, respectively, related to management fees receivable.

Human Services Segment

On September 3, 2015, the Company entered into a Purchase Agreement, pursuant to which the Company agreed to sell all of the membership interests in Providence Human Services, LLC and Providence Community Services, LLC, comprising the Company's Human Services segment. During the years ended December 31, 2018, 2017 and 2016, the Company recorded additional expenses and benefits related to the Human Services segment, principally related to legal proceedings as described in Note 20, *Commitment and Contingences*, related to an indemnified legal matter.

Results of Operations

The following table summarizes the results of operations classified as (loss) income from discontinued operations, net of tax, for the years ended December 31, 2018, 2017 and 2016. The HA Services segment column in the table below for the year ended December 31, 2016 reflects the financial results for HA Services from January 1, 2016 through October 19, 2016.

	Year ended December 31, 2018		
	Human Services Segment	**WD Services Segment**	**Total Discontinued Operations**
Service revenue, net	$ —	$ 264,553	$ 264,553
Operating expenses:			
Service expense	—	248,824	248,824

Asset impairment charges

In connection with classifying the assets and liabilities of Ingeus France as held for sale during the three months ended June 30, 2018, the carrying value of the assets and liabilities was reduced to its estimated fair value less selling costs. As a result, an impairment charge of $9,203 was recorded during the year ended December 31, 2018 and is included in "Asset impairment charge" in the table above.

During the fourth quarter of 2016, the Company reviewed WD Services for impairment, primarily due to lower than expected volumes and unfavorable service mix shifts under a large contract in the United Kingdom ("UK") impacting future projections; additional clarity into the anticipated size and structure of the Work and Health Programme in the UK; the absence of additional details regarding the restructuring of the offender rehabilitation contract in the UK; and a change in senior management at WD Services during the fourth quarter. As a result, the Company performed a quantitative test comparing the fair value of the asset groupings comprising WD Services with the carrying amounts and recorded an asset impairment charge of $4,381 to definite-lived customer relationship intangible assets and an asset impairment charge of $9,983 to property and equipment, which are recorded in "Asset impairment charge" in the table above. In addition, the Company reviewed the carrying value of goodwill of WD Services, noting the carrying value exceeded the fair value. Therefore, the Company performed the second step of the impairment test, in which the fair value of the reporting unit is allocated to all of the assets and liabilities, on a fair value basis, with any excess representing the implied value of goodwill of the reporting unit. The fair value was determined using an income approach, which estimates the present value of future cash flows based on management's forecast of revenue growth rates and operating margins, working capital requirements and capital expenditures. Based on this analysis, the carrying value of goodwill of the WD Services reporting unit exceeded the implied fair value and the Company recorded an asset impairment charge of $5,224, which is included in "Asset impairment charge" on the Company's consolidated statement of operations.

Interest expense, net

The Company allocated interest expense, including amortization of deferred financing fees, to discontinued operations based on the portion of the debt that was required to be paid with the proceeds from the sale of the Matrix Transaction. The total allocated interest expense is included in "Interest expense, net" in the tables above. The total allocated interest expense for the year ended December 31, 2016 for the HA Services segment was $9,939.

Loss on disposition, net of tax

The total loss on disposition, net of tax, related to the sale of WD Services subsidiaries during the year ended December 31, 2018 is calculated as follows:

Total cash received, net of transaction costs and cash sold	$	12,780
Total WD Services net asset value as of transaction date, net of cash sold		(36,499)
Income tax benefit		51,861
Gain on sale before reclassification of currency translation, net of tax		28,142
Adjustment for reclassification of currency translation		(29,973)
Loss on disposition, net of tax	$	(1,831)

Assets and liabilities

The following table summarizes the carrying amounts of the major classes of assets and liabilities of discontinued operations in the consolidated balance sheets as of December 31, 2018 and 2017. Amounts as of December 31, 2018 represent the accounts of WD Services operations in Saudi Arabia, which were not sold as part of the WD Services Sale.

	December 31,	
	2018	**2017**
Cash and cash equivalents	$ 2,321	$ 42,512
Accounts receivable, net of allowance of $3,460 and $500 in 2018 and 2017, respectively	4,316	48,718
Other receivables	—	10
Prepaid expenses and other	414	12,784
Current assets of discontinued operations	$ 7,051	$ 104,024
Property and equipment, net	$ —	$ 12,705
Goodwill	—	26,453
Intangible assets, net	—	29,774
Equity investments	—	213
Other assets	—	51
Deferred tax asset	—	4,632

Cash flows from discontinued investing activities:			
Purchase of property and equipment	$ 9,174	$ 19,810	$ 28,984

24. Segments

The Company owns subsidiaries and investments primarily engaged in the provision of healthcare services in the United States. The Company's *NET Services* segment, which primarily operates under the brands LogistiCare and Circulation, since its acquisition in September 2018, is the largest manager of NET programs for state governments and MCOs in the U.S. On September 21, 2018, we completed the acquisition of Circulation, which offers a full suite of logistics solutions to manage NET programs across all areas of healthcare, powered by its HIPAA-compliant digital platform. Circulation's technology expands LogistiCare's existing capabilities to manage transportation benefits, integrating all transportation capabilities while proactively monitoring for fraud, waste and abuse and emphasizing member convenience and satisfaction.

The Company's *Matrix Investment* segment consists of a minority investment in Matrix, a nationwide provider of home and mobile-based healthcare services for health plans in the U.S., including CHAs, quality gap closure visits, "level of service" needs assessments, and post-acute and chronic care management, providing such services through a network of community-based clinicians, and a fleet of mobile health clinics with advanced diagnostics capabilities. On October 19, 2016, affiliates of Frazier Healthcare Partners purchased a controlling equity interest in Matrix, with the Company retaining a non-controlling equity interest. Matrix's financial results prior to October 19, 2016 are presented as a discontinued operation.

The Company's *Corporate and Other* segment includes the Company's executive, accounting, finance, internal audit, tax, legal, public reporting and corporate development functions, as well as the results of the Company's captive insurance company. On April 11, 2018, the Company announced an Organizational Consolidation. See Note 10, *Restructuring and Related Reorganization Costs,* for further information.

Our segments are determined based on how the Company's chief operating decision maker ("CODM") manages the Company's business, makes operating decisions and evaluates operating performance. The operating results of the segments

include revenue and expenses incurred by the segment, as well as an allocation of direct expenses incurred by Corporate on behalf of the segment. Indirect expenses, including unallocated corporate functions and expenses, such as executive, accounting, finance, internal audit, tax, legal, public reporting, certain strategic and corporate development functions and the results of the Company's captive insurance company as well as elimination entries recorded in consolidation are reflected in Corporate and Other.

The following table sets forth certain financial information from continuing operations attributable to the Company's business segments for the years ended December 31, 2018, 2017 and 2016.

	Year Ended December 31, 2018			
	NET Services	Matrix Investment	Corporate and Other	Total

Customer Information

12.6%, 13.8% and 13.1% of the Company's consolidated revenue was derived from one U.S. state Medicaid program for the years ended December 31, 2018, 2017 and 2016, respectively. In addition, substantially all of the Company's revenues are generated from domestic governmental agencies or entities that contract with governmental agencies.

25. Quarterly Results (Unaudited)

The quarterly consolidated financial statements presented below reflect WD Services and Human Services as discontinued operations for all periods presented. Additionally, certain costs incurred by the Corporate and Other segment which directly related to the WD Services Sale are also included as discontinued operations.

	Quarter ended			
	March 31, 2018	June 30, 2018 (1) (2)	September 30, 2018 (3)	December 31, 2018 (4)
Service revenue, net	$ 336,696	$ 343,736	$ 343,771	$ 360,762
Operating income	12,103	3,431	9,435	(693)
Income from continuing operations, net of tax	7,423	1,964	10,295	(1,454)
(Loss) income from discontinued operations, net of tax	(1,697)	(13,366)	(2,964)	(19,026)
Net income (loss) attributable to Providence	5,430	(11,215)	7,154	(20,350)
Earnings (loss) per common share (10):				
Basic	$ 0.27	$ (0.96)	$ 0.37	$ (1.67)
Diluted	$ 0.26	$ (0.95)	$ 0.37	$ (1.67)

	Quarter ended			
	March 31, 2017 (5)	June 30, 2017	September 30, 2017 (6)	December 31, 2017(6)(7)(8)(9)
Service revenue, net	$ 324,033	$ 338,805	$ 324,824	$ 330,558
Operating income	4,707	11,333	7,271	14,173
Income from continuing operations, net of tax	2,046	7,658	3,374	38,008
(Loss) income from discontinued operations, net of tax	(5,997)	(3,917)	11,575	1,074
Net (loss) income attributable to Providence	(4,325)	3,915	14,853	38,926
(Loss) earnings per common share (10):				
Basic	$ (0.40)	$ 0.15	$ 0.88	$ 2.44
Diluted	$ (0.40)	$ 0.14	$ 0.88	$ 2.42

(1) Operating income in the quarter ending June 30, 2018 was negatively impacted by higher transportation costs on a per trip basis as NET Services saw a shift in service mix to higher cost modes of transportation and higher average mileage per trip.

(2) Due to the disposition of Ingeus France in July 2018, the carrying value of its assets and liabilities were reduced to their estimated fair value less selling costs during the quarter ending June 30, 2018. As a result, an impairment charge of $9,203 was recorded during the quarter ending June 30, 2018, which is included in (loss) income from discontinued operations, net of tax.

(3) During the quarter ending September 30, 2018, the Company acquired all of the outstanding equity of Circulation. The Company's initial investment in Circulation was $3,000. As a result of the transaction, the fair value of this pre-acquisition interest increased to $9,577, and thus the Company recognized a gain of $6,577.

(4) (Loss) income from discontinued operations, net of tax in the quarter ending December 31, 2018, includes a loss on the disposition of substantially all of the WD Services segment of $1,056, net of tax. This sale was completed on December 21, 2018.

(5) The Company recorded expenses, net of tax, of $5,866 in (loss) income from discontinued operations, net of tax, in the quarter ending March 31, 2017 related to the Company's former Human Services segment, which are principally related to a settled legal matter.

(6) The Company recorded a gain on sale of equity investment of $12,606, net of tax, related to the sale of its equity interest in Mission Providence during the quarter ended September 30, 2017, which is reflected in (loss) income from discontinued operations, net of tax. During the quarter ended December 31, 2017, the Company recorded a reduction to the gain on sale of $229, related to the finalization of the working capital adjustment per the sale agreement.

(7) Operating income for the quarter ended December 31, 2017 increased as compared to the prior quarters in 2017 as a result of a decrease in service expense as a percentage of revenue for NET Services. This was primarily a result of lower operating costs as well as certain NET Services contractual adjustments recorded in the fourth quarter of 2017.

(8) The quarter ended December 31, 2017 includes the receipt of the Haverhill Litigation settlement of $5,363.

(9) The quarter ended December 31, 2017 includes a net tax benefit of $15,925 related to the enactment of the Tax Reform Act during the fourth quarter of 2017, due to the re-measurement of deferred tax liabilities by Providence as a result of the reduction in the U.S. corporate tax rate. Providence realized a tax benefit of $19,304, partially offset by $3,379 of increased tax expense resulting from additional equity in net gain of Matrix, due to Matrix' re-measurement of its deferred tax liabilities. The equity in net gain from Matrix for the quarter ended December 31,

2017 includes a tax benefit of $13,610 related to Matrix's re-measurement of deferred tax liabilities as a result of the Tax Reform Act.

(10) Earnings per share is computed independently for each of the quarters presented. Therefore, the sum of quarterly earnings per share may not equal the total computed for the year.

Item 9. ***Changes in and Disagreements With Accountants on Accounting and Financial Disclosure.***

None.

Item 9A. ***Controls and Procedures.***

Evaluation of Disclosure Controls and Procedures

The Company, under the supervision and with the participation of its management (including its principal executive officer and principal financial officer), evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures, as defined in Rule 13a-15(e) of the Exchange Act as of the end of the period covered by this Annual Report on Form 10-K (December 31, 2018). Based upon this evaluation, the Company's principal executive and financial officers have concluded that such disclosure controls and procedures were effective to provide reasonable assurance that (i) information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and (ii) information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the Company's management, including its principal executive and financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Management's Report on Internal Control Over Financial Reporting

Management's report on internal control over financial reporting is presented in Part II, Item 8, of this Annual Report and is hereby incorporated by reference.

We acquired Circulation on September 21, 2018, as discussed in Note 22, *Acquisitions*, to the Consolidated Financial Statements. As permitted by the SEC staff's Frequently Asked Question 3 on Management's Report on Internal Control Over Financial Reporting and Certification of Disclosure in Exchange Act Periodic Reports (revised September 24, 2007), our management excluded from our assessment of internal control over financial reporting effectiveness as of December 31, 2018, Circulation's internal control over financial reporting associated with consolidated total assets of approximately 1.1%, and consolidated total revenues of approximately 0.2%, included in our Consolidated Financial Statements as of and for the year ended December 31, 2018. We will include Circulation in our assessment of the effectiveness of internal control over financial reporting starting in the third quarter of 2019.

Report of Independent Registered Public Accounting Firm

The attestation report of the registered public accounting firm on the Company's internal control over financial reporting is presented in Part II, Item 8, of this Annual Report and is hereby incorporated by reference.

Changes in Internal Control Over Financial Reporting

The principal executive and financial officers also conducted an evaluation of whether any changes in the Company's internal control over financial reporting occurred during the quarter ended December 31, 2018 that have materially affected or which are reasonably likely to materially affect such control. Such officers have concluded that no such changes have occurred.

Item 9B. ***Other Information.***

None.

PART III

Item 10. ***Directors, Executive Officers and Corporate Governance.***

This Item is incorporated by reference from our definitive proxy statement on Schedule 14A to be filed with the SEC and delivered to stockholders in connection with our 2019 annual meeting of stockholders; provided that if such proxy statement is not filed on or before April 30, 2019, such information will be included in an amendment to this Annual Report on Form 10-K filed on or before such date.

Code of Ethics

We have adopted a code of ethics that applies to our senior management, including our chief executive officer, chief financial officer, controller and persons performing similar functions, as well as our directors, officers and employees. This code of ethics is part of our broader Compliance and Ethics Plan and Code of Conduct, which is available free of charge in the Investor Relations section of our website at www.prscholdings.com. We intend to disclose any amendment to, or waiver from, a provision of the code of ethics that applies to our principal executive officer, principal financial officer or principal accounting officer on our website. The information contained on our website is not part of, and is not incorporated in, this Annual Report on Form 10-K or any other report we file with or furnish to the SEC.

Item 11. ***Executive Compensation.***

This Item is incorporated by reference from our definitive proxy statement on Schedule 14A to be filed with the SEC and delivered to stockholders in connection with our 2019 annual meeting of stockholders; provided that if such proxy statement is not filed on or before April 30, 2019, such information will be included in an amendment to this Annual Report on Form 10-K filed on or before such date.

Item 12. ***Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters.***

This Item is incorporated by reference from our definitive proxy statement on Schedule 14A to be filed with the SEC and delivered to stockholders in connection with our 2019 annual meeting of stockholders; provided that if such proxy statement is not filed on or before April 30, 2019, such information will be included in an amendment to this Annual Report on Form 10-K filed on or before such date.

Item 13. ***Certain Relationships and Related Transactions, and Director Independence.***

This Item is incorporated by reference from our definitive proxy statement on Schedule 14A to be filed with the SEC and delivered to stockholders in connection with our 2019 annual meeting of stockholders; provided that if such proxy statement is not filed on or before April 30, 2019, such information will be included in an amendment to this Annual Report on Form 10-K filed on or before such date.

Item 14. ***Principal Accounting Fees and Services.***

This Item is incorporated by reference from our definitive proxy statement on Schedule 14A to be filed with the SEC and delivered to stockholders in connection with our 2019 annual meeting of stockholders; provided that if such proxy statement is not filed on or before April 30, 2019, such information will be included in an amendment to this Annual Report on Form 10-K filed on or before such date.

PART IV

Item 15. ***Exhibits, Financial Statement Schedules.***

(a)(1) Financial Statements

The following consolidated financial statements including footnotes are included in Item 8.

- Consolidated Balance Sheets at December 31, 2018 and 2017;
- Consolidated Statements of Operations for the years ended December 31, 2018, 2017 and 2016;
- Consolidated Statements of Comprehensive Income for the years ended December 31, 2018, 2017 and 2016;
- Consolidated Statements of Stockholders' Equity for the years ended December 31, 2018, 2017 and 2016; and
- Consolidated Statements of Cash Flows for the years ended December 31, 2018, 2017 and 2016.

(2) Financial Statement Schedules

Schedule II Valuation and Qualifying Accounts

	Balance at beginning of period	Additions: Charged to costs and expenses	Additions: Charged to other accounts	Deductions	Balance at end of period
Year Ended December 31, 2018:					
Allowance for doubtful accounts	$ 5,262	$ 338	$ (523) (1)	$ 3,223 (2)	$ 1,854
Year Ended December 31, 2017:					
Allowance for doubtful accounts	$ 5,164	$ 765	$ (537) (1)	$ 130 (2)	$ 5,262
Year Ended December 31, 2016:					
Allowance for doubtful accounts	$ 3,879	$ 2,903	$ 1,172 (1)	$ 2,790 (2)	$ 5,164

Notes:

Schedule above has been recast from prior year to exclude activity related to discontinued operations.

(1) Amounts primarily include the allowance for contractual adjustments related to our non-emergency transportation services operating segment that are recorded as adjustments to non-emergency transportation services revenue.
(2) Write-offs, net of recoveries.

All other schedules are omitted because they are not applicable or the required information is shown in our financial statements or the related notes thereto.

(3) Exhibits

Exhibit Number	Description
2.1	Share Sale Agreement, dated as of March 31, 2014, by and among The Providence Service Corporation, Pinnacle Australia Holdco Pty Ltd, Thérèse Virginia Rein, Gregory Kenneth Ashmead and GK Ashmead Holdings Pty Limited (as trustee of the GK Ashmead Nominees Trust) (Incorporated by reference from an exhibit to the registrant's current report on Form 8-K filed with the SEC on April 1, 2014).
2.2	Australian Share Sale Agreement Side Deed, dated as of March 31, 2014, by and among The Providence Service Corporation, Pinnacle Australia Holdco Pty Ltd, Thérèse Virginia Rein, Gregory Kenneth Ashmead, GK Ashmead Holdings Pty Limited (as trustee of the GK Ashmead Nominees Trust) and Deloitte LLP (Incorporated by reference from an exhibit to the registrant's current report on Form 8-K filed with the SEC on April 1, 2014).
2.3	Stock Subscription Agreement, dated as of August 28, 2016, by and among The Providence Service Corporation, CCHN Group Holdings, Inc. and Mercury Fortuna Buyer, LLC (Incorporated by reference from an exhibit to the registrant's current report on Form 8-K filed with the SEC on August 31, 2016).
2.4	Amendment No. 1, dated as of October 19, 2016, to the Stock Subscription Agreement, dated August 28, 2016, by and among The Providence Service Corporation, CCHN Group Holdings, Inc. and Mercury Fortuna Buyer, LLC (Incorporated by reference from an exhibit to the registrant's current report on Form 8-K filed with the SEC on October 25, 2016).
2.5	Agreement and Plan of Merger, dated as of September 14, 2018, among The Providence Service Corporation, LogistiCare Solutions, LLC, Catapult Merger Sub, Circulation, Inc. and Fortis Advisors LLC (Incorporated by reference from an exhibit to the registrant's current report on Form 8-K filed with the SEC on September 17, 2018).
2.6	Share Purchase Agreement, dated November 7, 2018, among The Providence Service Corporation, Ingeus UK Holdings Limited, Advanced Personnel Management Group Pty Ltd, APM UK Holdings Limited and International APM Group Pty Limited (Incorporated by reference from an exhibit to the registrant's quarterly report on Form 10-Q for the quarter ended September 30, 2018 filed with the SEC on November 8, 2018).
3.1	Second Amended and Restated Certificate of Incorporation of The Providence Service Corporation, including Certificate of Designation of Series A Junior Participating Preferred Stock, as filed with the Secretary of State of Delaware on December 9, 2011 (Incorporated by reference from an exhibit to the registrant's annual report on Form 10-K for the year ended December 31, 2011 filed with the SEC on March 15, 2012).
3.2	Certificate of Amendment of the Certificate of Incorporation of The Providence Service Corporation, dated as of May 6, 2015 (Incorporated by reference from an exhibit to the registrant's current report on Form 8-K filed with the SEC on May 7, 2015).
3.3	Amended and Restated Bylaws of The Providence Service Corporation, effective March 10, 2010 (Incorporated by reference from an exhibit to the registrant's annual report on Form 10-K for the year ended December 31, 2009 filed with the SEC on March 12, 2010).
4.1	Certificate of Designations of Series A Convertible Preferred Stock of The Providence Service Corporation, dated as of February 6, 2015 (Incorporated by reference from an exhibit to Amendment No. 1 to the registrant's annual report on Form 10-K/A for the year ended December 31, 2014 filed with the SEC on April 30, 2015).

10.1	Amended and Restated Credit and Guaranty Agreement, dated as of August 2, 2013, by and among The Providence Service Corporation and certain of its subsidiaries party thereto, Bank of America, N.A., SunTrust Bank, BMO Harris Bank, Merrill Lynch, Pierce, Fenner & Smith Incorporated and SunTrust Robinson Humphrey, Inc. and the lenders party thereto (Incorporated by reference from an exhibit to the registrant's current report on Form 8-K filed with the SEC on August 5, 2013).
10.2	Amended and Restated Pledge Agreement, dated as of August 2, 2013, by and among The Providence Service Corporation, certain of its subsidiaries party thereto, and Bank of America, N.A., as administrative agent (Incorporated by reference from an exhibit to the registrant's current report on Form 8-K filed with the SEC on August 5, 2013).
10.3	Amended and Restated Security Agreement, dated as of August 2, 2013, by and among The Providence Service Corporation, certain of its subsidiaries party thereto, and Bank of America, N.A., as administrative agent (Incorporated by reference from an exhibit to the registrant's current report on Form 8-K filed with the SEC on August 5, 2013).

10.4	First Amendment to Amended and Restated Credit and Guaranty Agreement and Consent, dated as of May 28, 2014, by and among The Providence Service Corporation, the Guarantors named therein, the New Subsidiaries named therein, the Lenders and New Lender named therein and Bank of America, N.A., as administrative agent (Incorporated by reference from an exhibit to the registrant's current report on Form 8-K filed with the SEC on June 3, 2014).
10.5	Second Amendment to the Amended and Restated Credit and Guaranty Agreement and Consent, dated as of October 23, 2014, by and among The Providence Service Corporation, certain of its subsidiaries party thereto, Bank of America, N.A., SunTrust Bank, Royal Bank of Canada, BMO Harris Bank, N.A., HSBC Bank USA, National Association, the other Lenders party thereto, Merrill Lynch, Pierce, Fenner & Smith Incorporated, SunTrust Robinson Humphrey, Inc., and RBC Capital Markets (Incorporated by reference from an exhibit to the registrant's current report on Form 8-K filed with the SEC on October 24, 2014).
10.6	Third Amendment and Consent to the Amended and Restated Credit and Guaranty Agreement, dated as of September 3, 2015, by and among The Providence Service Corporation, certain of its subsidiaries party thereto, Bank of America, N.A., Sun Trust Bank, Royal Bank of Canada, BMO Harris Bank, N.A., HSBC Bank USA, National Association, the other lenders party thereto, Merrill Lynch Pierce, Fenner & Smith Incorporated, Sun Trust Robinson Humphrey, Inc. and RBC Capital Markets (Incorporated by reference from an exhibit to the registrant's current report on Form 8-K filed with the SEC on September 8, 2015).
10.7	Fourth Amendment and Consent to the Amended and Restated Credit and Guaranty Agreement, dated as of August 28, 2016, by and among The Providence Service Corporation, the guarantors party thereto, the lenders party thereto and Bank of America, N.A., as Administrative Agent (Incorporated by reference to an exhibit to the registrant's current report on Form 8-K filed with the SEC on August 31, 2016).
10.8	Employment Agreement, dated January 14, 2015, by and between The Providence Service Corporation and James Lindstrom (Incorporated by reference from an exhibit to the registrant's current report on Form 8-K filed with the SEC on January 21, 2015).

None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. ☐ Yes ☒ No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. ☐ Yes ☒ No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. ☒ Yes ☐ No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). ☒ Yes ☐ No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§ 229.405 of this chapter) is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K. ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	☐	Accelerated filer	☒
Non-accelerated filer	☐ (Do not check if a smaller reporting company)	Smaller reporting company	☐
Emerging growth company	☐		

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 7(a)(2)(B) of the Securities Act. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). ☐ Yes ☒ No

The aggregate market value of the voting and non-voting common equity of the registrant held by non-affiliates based on the closing price for such common equity as reported on The NASDAQ Global Select Market on the last business day of the registrant's most recently completed second fiscal quarter (June 30, 2017) was $576.8 million.

As of March 5, 2018, there were outstanding 12,866,551 shares (excluding treasury shares of 4,656,738) of the registrant's Common Stock, $0.001 par value per share.

DOCUMENTS INCORPORATED BY REFERENCE

All or a portion of Items 10 through 14 in Part III of this Annual Report on Form 10-K are incorporated by reference to our definitive proxy statement on Schedule 14A for our 2018 stockholder meeting; provided that if such proxy statement is not filed on or before April 30, 2018, such information will be included in an amendment to this Annual Report on Form 10-K filed on or before such date.

TABLE OF CONTENTS

Part I

In this Annual Report on Form 10-K, the words the "Company", the "registrant", "we", "our", "us", "Providence" and similar terms refer to The Providence Service Corporation and, except as otherwise specified herein, to our subsidiaries. When such terms are used in reference to the Company's common stock, $0.001 par value per share (the "Common Stock), and the Series A Convertible Preferred Stock, $0.001 par value per share (the "Preferred Stock"), they refer specifically to The Providence Service Corporation.

DISCLOSURE REGARDING FORWARD-LOOKING STATEMENTS

This Annual Report on Form 10-K contains certain statements that may be deemed "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), including statements related to the Company's strategies or expectations about revenues, liabilities, results of operations, cash flows, ability to fund operations, profitability, ability to meet financial covenants, contracts or market opportunities. The Company may also make forward-looking statements in other reports filed with the Securities and Exchange Commission (the "SEC"), in materials delivered to stockholders and in press releases. In addition, the Company's representatives may from time to time make oral forward-looking statements. In certain cases, you may identify forward looking-statements by words such as "may", "will", "should", "could", "expect", "plan", "project", "intend", "anticipate", "believe", "seek", "estimate", "predict", "potential", "target", "forecast", "likely", the negative of such terms or comparable terminology. In addition, statements that are not historical statements of fact should also be considered forward-looking statements. These forward-looking statements are based on the Company's current expectations, assumptions, estimates and projections about its business and industry, and involve risks, uncertainties and other factors that may cause actual events to be materially different from those expressed or implied by such forward-looking statements. These risks and uncertainties include, but are not limited to, the risks described under Item 1A in Part I of this Annual Report on Form 10-K.

You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date the statement was made. The Company is under no obligation to (and expressly disclaims any such obligation to) update any of the information in any forward-looking statement if such forward-looking statement later turns out to be inaccurate, whether as a result of new information, future events or otherwise.

Item 1. ***Business.***

Background

The Providence Service Corporation owns subsidiaries and investments primarily engaged in the provision of healthcare services in the United States and workforce development services internationally. The subsidiaries and other investments in which we hold interests comprise the following segments:

- Non-Emergency Transportation Services ("NET Services") – Nationwide manager of non-emergency medical transportation ("NET") programs for state governments and managed care organizations.
- Workforce Development Services ("WD Services") – Global provider of employment preparation and placement services, legal offender rehabilitation services, youth community service programs and certain health related services to eligible participants of government sponsored programs.
- Matrix Investment – Minority interest in CCHN Group Holdings, Inc. and its subsidiaries ("Matrix"), a nationwide provider of in-home care optimization and management solutions, including comprehensive health assessments ("CHAs"), to members of managed care organizations, accounted for as an equity method investment. On February 16, 2018, Matrix acquired HealthFair, expanding its service offerings to include mobile health assessments, advanced diagnostic testing, and additional care optimization services.

In addition to its segments' operations, the Corporate and Other segment includes the Company's activities at its corporate office that include executive, accounting, finance, internal audit, tax, legal, public reporting, certain strategic and corporate development functions and the results of the Company's captive insurance company. We are actively monitoring these activities as they relate to our capital allocation and acquisition strategy to ensure alignment with Providence's overall strategic objectives and its goal of enhancing shareholder value.

The Company is a Delaware corporation formed in 1996 and headquartered in Stamford, Connecticut.

Business Strategies

Our businesses are operated on a decentralized basis and do not share any integrated functions such as sales, marketing, purchasing, human resources, accounting, finance or legal. They pursue strategies reflective of their respective industries and operating models. Our segments' core competencies include developing and managing large provider networks, tailoring healthcare and workforce development service offerings to the unique needs of diverse communities and populations, and implementing technology-enabled delivery models to achieve superior outcomes in low cost settings. We pursue both organic and inorganic growth through entry into adjacent markets and complementary service lines, particularly with offerings that may leverage the advantages inherent in our large-scale, technology-enabled, networks. In particular, as it relates to inorganic growth, we are actively evaluating the optimal industry sectors, such as the non-emergency medical transportation industry and others in which businesses complementary to our NET Services business operate, around which to focus our merger and acquisition activity. This ongoing evaluation takes into consideration and balances a number of factors, including the strategic goals, competitive landscape, and growth opportunities of our current segments, in an attempt to direct our capital towards those areas of our business most likely to drive long-term value creation and generate the highest levels of return for our shareholders. We also may enter into strategic partnerships or dispose of businesses, as demonstrated by the Matrix Transaction (defined below) and the Human Services Sale (defined below), based on a variety of factors, including availability of alternative opportunities to deploy capital or otherwise maximize shareholder value as well as other strategic considerations. The outcome of our active evaluation of the optimal industry sectors around which to focus our merger and acquisition activity as well as the potential future entry into strategic partnerships or potential disposition of businesses may impact the extent and manner in which we deploy resources across Providence, including strategic and administrative resources between Corporate and Other and our operating segments.

Discontinued Operations

On October 19, 2016, affiliates of Frazier Healthcare Partners purchased a controlling equity interest in Matrix, with Providence retaining a noncontrolling equity interest (the "Matrix Transaction"). Matrix's financial results prior to October 19, 2016 are presented as a discontinued operation. In addition, on November 1, 2015, the Company completed its sale of the Human Services Segment (the "Human Services Sale"), which is accounted for as a discontinued operation for all periods presented.

Description of Our Segments

The Company operates in two principal business segments, NET Services and WD Services. In addition, Providence holds a noncontrolling interest in Matrix, which is a reportable segment for financial reporting purposes (the "Matrix Investment"). Financial information about segments and geographic areas, including revenues, operating income (loss), and long-lived assets of each segment, is included in Note 21, *Segments*, to our consolidated financial statements and is incorporated herein by reference. See Item 1A, Risk Factors, for a discussion of risks related to our operations and investments.

NET Services

Services offered. NET Services provides non-emergency transportation solutions to clients in 38 states and the District of Columbia. As of December 31, 2017, approximately 23.6 million individuals were eligible to receive our transportation services, and during 2017, NET Services managed 66.8 million trips. For 2017, 2016 and 2015, NET Services accounted for 81.2%, 78.2% and 73.3%, respectively, of Providence's consolidated service revenue, net.

NET Services primarily contracts with state Medicaid programs and managed care organizations ("MCOs" and collectively "NET customers") for the coordination of their members' ("NET end-users") non-emergency transportation needs. NET end-users are typically Medicaid or Medicare eligible members, whose limited mobility or financial resources hinders their ability to access necessary healthcare and social services. We believe our transportation services enable access to care that not only improves the quality of life and health of the populations we serve, but also enables many of the individuals we serve to pursue independent living in their homes rather than in more expensive institutional care settings.

NET Services program delivery is dependent upon a highly-integrated technology platform and business process as well as the management of a multifaceted network of subcontracted transportation providers. Our technology platform is purpose-built for the unique needs of our industry and is highly scalable, capable of supporting substantial growth in our

clients' current and future membership base. In addition, our technology platform efficiently provides a broad interconnectivity among NET end-users, NET customers, and our network of transportation providers. We believe this technological capability and our industry experience uniquely position us as a future focal point in the evolving healthcare industry to introduce valuable population insights. In 2016 and 2017, we introduced service offerings and new technological features for NET end-users to improve service levels, lower costs and build the foundation for additional data analytics capabilities.

To fulfill the transportation needs of NET end-users, we apply our proprietary technology platform to an extensive network of approximately 5,100 transportation resources. This includes our in-network roster of fully contracted transportation providers who operate sedans, wheelchair equipped vehicles, multi-passenger vans and ambulances. Our system also utilizes partnerships with on-demand transportation network companies, mass transit entities, mileage reimbursement programs, taxis and county-based emergency medical service providers. To promote safety, quality, and compliance, our in-network transportation providers undergo an in-depth credentialing and education process. Our proprietary technology platform is designed to connect with our external partners' application program interfaces to improve on-time and on-demand performance, provide real time information and analytics (including live vehicle location data), minimize cancellations and better allow for the scale required to provide an effective, nationwide service.

Our transportation management services also include fraud, waste, and abuse and utilization review programs designed to monitor that our transportation services are provided in compliance with Medicaid program rules and remediate issues that are identified. Compliance controls include ongoing monitoring, auditing and remediation efforts, such as validating NET end-user eligibility for the requested date of service and employing a series of gatekeeping questions to check that the treatment type is covered and the appropriate mode of transportation is assigned. We also conduct post-trip confirmations of attendance directly with the healthcare providers for certain repetitive trips and we employ field monitors to inspect transportation provider vehicles and observe some transports in real time. Our claims validation process generally limits payment to trips that are properly documented, have been authorized in advance, and are billed at the pre-trip estimated amount.

In 2016, NET Services launched a strategic initiative to enhance client and member satisfaction and drive greater operational efficiencies. This initiative focuses on developing and deploying new processes and technologies needed to: progress towards an industry-leading call center and reservation scheduling platform; improve member communication, accessibility, and satisfaction; optimize the utilization of our extensive network of transportation providers; and build the foundation for additional analytical capabilities. Implementations under this strategic initiative that were completed in 2017 include new workforce management tools aimed at streamlining our call center operations and decreasing payroll costs, tools and models to better monitor transportation provider performance and capacity availability, and rate setting protocols aimed at lowering transportation costs and improving service quality. The full implementation of the initiative is expected to be substantially completed by the end of 2018.

Revenue and customers. In 2017, contracts with state Medicaid agencies and MCOs represented 55.9% and 44.1%, respectively, of NET Services' revenue. NET Services derived 13.8%, 13.1% and 15.0% of its revenue from a single state Medicaid agency for the years ended December 31, 2017, 2016 and 2015, respectively. The next four largest NET Services customers in the aggregate comprised 22.3%, 22.6% and 24.2% of NET Services' revenue for the years ended December 31, 2017, 2016 and 2015, respectively.

Contracts with state Medicaid agencies are typically for three to five years with multiple renewal options. Contracts with MCOs continue until terminated by either party upon reasonable notice (as determined in accordance with the contract), and allow for regular price adjustments based upon utilization and transportation cost. As of December 31, 2017, 30.8% of NET Services revenue was generated under state Medicaid contracts that are subject to renewal within the next 12 months. In 2017, NET Services renewed contracts representing 29.5% of its revenue in such year, including its contract with the New Jersey Department of Human Services, Division of Medical Assistance and Health Services, to provide non-emergency medical transportation management services to Medicaid-eligible New Jersey residents.

77.9% of NET Services' revenue in 2017 was generated under capitated contracts where we assume the responsibility of meeting the covered healthcare related transportation requirements of a specific population based on per-member per-month fees for the number of members in the customer's program. Revenue is recognized based on the population served during the period. Under certain capitated contracts, partial payment is received as a prepayment during the month service is provided. These partial payments may be due back to the customer, or additional payments may be due to the Company, after each reconciliation period, based on a reconciliation of actual utilization and cost compared to the prepayment made. 22.1% of NET Services' revenue was generated under other types of fee arrangements, including administrative services only, fee for service ("FFS"), cost plus and flat fee contracts, under which fees are generated based upon billing rates for specific services or defined membership populations.

Seasonality. While revenue is generally fixed, primarily as a result of the capitated nature of the majority of our contracts, service expense varies based on the utilization of our services. The quarterly operating income and cash flows of

NET Services normally fluctuate as a result of seasonal variations in the business, principally due to lower transportation demand during the winter season and higher demand during the summer season.

Competition. We compete with a variety of national organizations that provide similar healthcare and social services related transportation, such as Medical Transportation Management, Southeastrans, Veyo, and American Medical Response, as

well as local and regional providers. Most local competitors seek to win contracts for specific counties or small geographic territories whereas we and other larger competitors seek to win contracts for an entire state or large regional area. We compete based upon a number of factors, including our nationwide network, technical expertise, experience, service capability, service quality, and price.

Business development. Our sales and marketing strategy relies on a concentrated business development effort, with centralized marketing programs. Due to the critical nature of our services, our customers rely upon our past delivery performance record, network development and management expertise, technical expertise and capability, and specialized knowledge. A significant portion of our revenue is generated from long-term, repeat customers. Our long-term strategy is to improve our position as the preferred provider of transportation, complementary network-based services and data analytics offerings to a broad array of healthcare payers. Key elements of our long-term strategy include continued investment in our technologies, enabling us to both lower costs and improve service delivery. We also consider acquisitions of businesses that serve our market or leverage our nationwide infrastructure.

WD Services

Services offered. WD Services is a global provider of employment preparation and placement services, legal offender rehabilitation services, youth community service programs and certain health related services to eligible participants of government sponsored programs. For 2017, 2016 and 2015, WD Services accounted for 18.8%, 21.8% and 26.7%, respectively, of Providence's consolidated revenue.

WD Services' end user client base ("WD end-users") is broad and includes the disabled, recently and long-term unemployed and individuals seeking new skills, as well as individuals that are coping with medical illnesses, are newly graduated from educational institutions, or are being released from incarceration.

As of December 31, 2017, WD Services operated in 10 countries outside of the U.S. These countries included the United Kingdom ("UK"), France, Saudi Arabia, South Korea, Canada, Germany, Australia, Switzerland and Singapore. WD Services also holds a noncontrolling interest in a joint venture in Spain.

In order to build upon its leadership position in the UK employment services industry, enhance client satisfaction and drive greater operational efficiencies, WD Services implemented the Ingeus Futures program, which was substantially completed in 2017. This program included organizational restructuring, the development and deployment of new processes and technologies, and increased business development resources. Each aspect of the program was aimed at improving operational efficiencies and client services as well as developing the internal capabilities necessary to ensure long-term profitable growth in the employment, training and healthcare industries.

Revenue, customers and clients. The majority of WD Services' revenue is generated through the provision of employability, legal offender rehabilitation and training programs to national government entities seeking to reduce unemployment or recidivism rates. For the years ended December 31, 2017, 2016 and 2015, 61.4%, 68.3% and 75.5%, respectively, of WD Services' revenue was derived from operations in the UK, with 38.6%, 31.7% and 24.5%, respectively, derived from operations outside the UK. Additionally, during the years ended December 31, 2017, 2016 and 2015, respectively, 19.6%, 28.9% and 40.0% of WD Services' revenue was derived from a contract with the UK government's Department of Work and Pensions for employability services and 27.1%, 25.9% and 28.2% of WD Services' revenue was derived from a contract with the UK government's Ministry of Justice (the "MOJ"), for legal offender rehabilitation services. Revenue under the UK employability services contract is decreasing as expected, as referrals ended under this program in March 31, 2017. In late 2017, WD Services was awarded three new employability contracts and one sub-contract under the new Work and Health Programme in the UK, allowing Ingeus to continue to maintain its position as a leader in the UK workforce development market, although overall this program has a smaller scale than the legacy employability services contract. During 2017, there was negligible revenue under the new Work and Health Programme.

The revenue earned by WD Services under its contracts is often derived through a combination of different revenue channels including, but not limited to, fees contingent upon: (1) the volume of WD end-users referred to and/or admitted into a specific program, (2) the achievement of defined outcomes for specific individuals, such as a job placement or continued employment and (3) the achievement of defined outcomes for a population of individuals over a specific time period, such as aggregate employment or recidivism rates. The relative contributions of different revenue channels under a specific contract can fluctuate meaningfully over the life of a contract and thus contribute to significant earnings volatility. Revenue

recognition related to our National Citizen Services (“NCS”) youth programs can be particularly volatile due to the timing of services provided, which typically occur in the second and third quarters of each year. WD Services also earns revenue under fixed FFS arrangements, based

upon contractual rates established at the outset of the contract or the applicable contract year, although the rate may be prospectively adjusted during the contract year based upon actual volumes. Volume levels are typically not guaranteed under contracts.

The nature of the services offered by WD Services often relies on our ability to improve a certain set of outcomes at a reduced cost versus previously utilized in-sourced delivery models. As a result, as we commence new contracts using transformational delivery models, we are often required to invest significant upfront capital for information technology, human resources, facilities and other onboarding costs, such as consultants and redundancy payments. The level of upfront funding required is dependent upon the size and nature of the contract. Although significant upfront funding may be required, revenues are often payable only as services are delivered and, in some cases, only after incentive measures have been achieved over a multi-year period. As a result of these two factors, there can be significant variability in our earnings from quarter-to-quarter and year-to-year. In addition, under the majority of WD Services' contracts, the Company relies on its customers, which include government agencies, to provide referrals, for which the Company can provide services and earn revenue. The timing and magnitude of referrals can fluctuate significantly, leading to volatility in revenue. The Company also relies on certain customers to periodically provide information regarding the achievement of service delivery targets, which information could result in reductions in future payments if targets are not met. As a result, we often measure a contracts success over the entire term of the contract and believe the financial results of WD Services are best viewed from a multi-year perspective.

The MOJ is currently reviewing its program for outsourcing probationary services, which includes its contracts with our subsidiary Reducing Reoffending Partnership ("RRP"), which is in our WD Services segment. The review includes an investigation regarding sustainability of the economic terms of such contracts, as well as data relating to reoffending statistics and other factors that could impact contractual performance measures. The potential impact of this review on RRP's agreement with the MOJ, including with respect to any potential payments to the MOJ that may be required, cannot be determined at this time because the review is ongoing. See also "Risk Factors—Risks Related to our Business—If we fail to satisfy our contractual obligations, we could be liable for damages and financial penalties, which may place existing pledged performance and payment bonds at risk as well as harm our ability to keep our existing contracts or obtain new contracts and future bonds."

Seasonality. While there has been period-to-period variability in WD Services' earnings due to the factors discussed above and also set forth in Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations – Revenues and Expenses – WD Services", there has not been a material seasonal effect on WD Services' results of operations.

Competition. In the UK, U.S., Saudi Arabia and Singapore the workforce development market is served by large, often multi-national, corporations, along with national and regional for-profit and non-profit entities. In Canada, France, Germany, South Korea, Spain and Switzerland, our competition is primarily companies specific to the geography, nationally or regionally, and both privately owned for-profit and non-profit entities. In the UK, the offender rehabilitation market is served by large corporations, often working with charitable sector providers. In general our larger competitors internationally include Maximus, Interserve, Sodexo, The Reed Group and Working Links.

The market for services to governments is competitive and subject to change and pricing pressure, particularly during the bidding for new contracts and contract renewals. However, due to the critical nature of our offerings and the WD end-users we serve, market entry can be difficult for new entrants or those without prior established track-records. Other barriers to entry include operational service complexity and significant upfront investments. This can include establishment of complex IT systems which often must interface with government systems, significant monitoring and reporting obligations, delivery from sites across wide geographies, and management and development of supply chains.

Business development. Our business development activities are performed both locally and centrally from WD Services' London headquarters. Through local and global networks and relationships, we become aware of new opportunities for which we develop bids through competitive processes. The nature of the competitive processes varies from highly competitive to being one of a few providers, or the sole provider, to bid on a contract. We pursue only those contracts that meet certain investment criteria, including risk-weighted return on capital thresholds, and involve the provision of services where we believe our experience will allow us to deliver differentiated and improved outcomes for our clients.

Matrix Investment

Providence's Matrix Investment is comprised of our interest in Matrix. Since the completion of the Matrix Transaction, the Company has had a noncontrolling equity interest in Matrix. The Company and an affiliate of Frazier Health Partners (the "Frazier Subscriber"), which holds the controlling equity interest in Matrix, are party to the Second Amended and Restated Limited Liability Company Agreement (the "Operating Agreement") of Mercury Parent, LLC, the company through which the parties hold their equity interests in Matrix. The Operating Agreement sets forth certain terms and conditions regarding the ownership by the Company and Frazier Subscriber of interests in Mercury Parent and their indirect ownership of common stock of Matrix, and

provides for, among other things, certain liquidity and governance rights and other obligations and rights, in each case, on the terms and conditions contained therein.

At December 31, 2017, the Company owned a 46.6% noncontrolling interest in Matrix. Prior to the closing of the Matrix Transaction, the financial results of Matrix were included in our Health Assessment Services ("HA Services") segment. The Company's proportionate share of Matrix's net assets and financial results for the period following the closing of the Matrix Transaction are presented under the equity method. The assets, liabilities and financial results of Matrix for the period prior to the closing of the Matrix Transaction are presented within discontinued operations. For additional information regarding the Matrix Transaction, see Note 20, *Discontinued Operations,* to our consolidated financial statements.

Services offered. Matrix provides in-home care optimization and care management solutions, which include CHAs. As of December 31, 2017, Matrix utilized a national network of over 5,800 clinical providers, including 1,700 nurse practitioners ("NPs"), located across 50 states, to provide its services primarily to members of Medicare Advantage ("MA") health plans.

Matrix recently expanded its provider network and service offerings through a series of acquisitions. In December 2017, Matrix grew its clinical provider network through its acquisition of LP Health Services, a provider of quality and wellness visits on behalf of Medicaid/Duals managed care plans across the U.S., for a purchase price of $3.8 million. LP Health Services' revenue for the year ended December 31, 2017 was approximately $6 million.

In February 2018, Matrix completed its acquisition of HealthFair, a leading operator of mobile clinics which offer preventative health assessment and advanced diagnostic testing services, including laboratory, ultrasound, EKG and mammography testing, for a purchase price of $160 million plus an earnout payment contingent on HealthFair's 2018 performance. With the addition of HealthFair, Matrix's network increased to more than 6,000 community-based providers across all 50 states, including over 1,700 NPs. We believe the combination of the two organizations will provide health plan members with more convenient access to important care management and preventative health services. As a result of the rollover of certain equity interests of HealthFair, Providence's equity ownership in Matrix was 43.6% as of February 16, 2018. HealthFair's revenue for the year ended December 31, 2017 was approximately $45 million.

Matrix primarily generates revenue from CHAs, which obtain a health plan members' information related to health status, social, environmental and medical risks and help the MA plans improve the accuracy of such information. Matrix's services typically commence with a member analysis that utilizes client data, such as medical claims data, to maximize its ability to improve client and member outcomes as a result of the assessment process. Through Matrix's contact centers, which include approximately 160 colleagues, Matrix pursues additional data collection and schedules assessments. Matrix's NPs then conduct a CHA, which is comprised of a physical examination and other diagnostic services, in the member's home. Matrix also operates a care management offering which provides additional data analytics and chronic care management services.

Matrix's services are dependent upon its technology platform which integrates the clinical provider network, operations infrastructure, call centers and clients. Matrix's platform is designed for the unique needs of its industry, is highly scalable and can support substantial growth. We believe Matrix's network and platform positions Matrix as a future focal point in the evolving healthcare industry in the introduction of both additional population insights and care management services. With data provided by its health plan clients, Matrix utilizes analytics to determine which members it can most effectively lower costs and improve outcomes through face-to-face engagements with clinicians. Each program is customized and is served by a comprehensive team of case managers, nurse practitioners, registered nurses, and trained call center colleagues.

Revenue, customers and clients. As of December 31, 2017, Matrix's customers included 48 health plans, including for-profit multi-state health plans and non-profit health plans that operate in only one state or several counties within one state. For the year ended December 31, 2017, Matrix's top five customers accounted for 72.2% of its revenue, as its largest customer accounted for 30.9% of its revenue and its second largest customer account for 26.8% of its revenue. Matrix enters into annual or multi-annual contracts with its customers under which it is paid on a per assessment basis.

Seasonality. The Company attempts to perform CHAs evenly throughout the year to efficiently utilize NP capacity, although the timing of performance is driven by client demand.

Competition. We believe that Matrix and CenseoHealth, which announced in December 2017 a combination with Advance Health, a smaller competitor, are the largest independent providers of CHAs to the health plan market. There are many smaller competitors, such as EMSI Healthcare Services, MedXM, which was acquired by Quest Diagnostics on February 1, 2018, and Inovalon. In addition, some health plans in-source CHA services. Matrix's chronic care management competitors include Landmark Healthcare, PopHealthcare and Optum.

Employees

As of December 31, 2017, there were approximately 7,100 employees across Providence and our subsidiaries. Of such employees, approximately 3,800 work in NET Services and approximately 3,300 work in WD Services. In addition, 30 employees primarily conduct corporate activities.

None of our U.S. employees are members of a union. We have nearly 1,950 and 330 full-time employees in the UK and France, respectively. Certain of our UK employees are members of the NAPO and Unison unions and certain of our employees in France are members of the Confederation Generale du Travail and have collective bargaining rights. In other countries employees may be members of a trade union but these trade unions are not formally recognized by us. Participation in unions is confidential under European employment laws. We believe we have good relationships with our employees, both unionized and non-unionized, in the U.S. and internationally.

Regulatory Environment

NET Services and Matrix Investment

Overview

Our NET Services and Matrix Investment segments (the "U.S. Healthcare Segments") are subject to numerous U.S. federal, state and local laws, regulations and agency guidance (collectively, "Laws"). These Laws significantly affect the way in which these segments operate various aspects of their businesses. Our U.S. Healthcare Segments must also comply with state and local licensing requirements, state and federal requirements for participation in Medicare and Medicaid, requirements for contracting with MA plans, and contractual requirements imposed upon them by the federal, state and local agencies and third-party commercial customers to which they provide services. Failure to follow the rules and requirements of these programs can significantly affect our U.S. Healthcare Segments' ability to be paid for the services they provide and be authorized to provide services on an ongoing basis.

The Medicare and Medicaid programs are governed by significant and complex Laws. Both Medicare and Medicaid are financed, at least in part, with federal funds. Therefore, any direct or indirect recipients of those funds are subject to federal fraud, waste and abuse Laws. In addition, there are federal privacy and security Laws that govern the healthcare industry. State Laws primarily pertain to the licensure of certain categories of healthcare professionals and providers and the state's interest in regulating the quality of healthcare in the state, regardless of the source of payment, but may also include state Laws pertaining to fraud, waste and abuse, privacy and security Laws, and the state's regulation of its Medicaid program. Federal and state regulatory laws that may affect our U.S. Healthcare Segments' businesses, include, but are not limited to the following:

- false and other improper claims or false statements Laws pertaining to reimbursement;
- the Health Insurance Portability and Accountability Act of 1996 ("HIPAA") and its privacy, security, breach notification and enforcement and code set regulations and guidance, along with evolving state Laws protecting patient privacy and requiring notifications of unauthorized access to, or use of, patient medical information;
- civil monetary penalties Law;
- anti-kickback Laws;
- the Stark Law and other self-referral, financial inducement, fee splitting, and patient brokering Laws;
- CMS regulations pertaining to Medicare as well as CMS releases applicable to the operation of MA plans, such as reimbursement rates, risk adjustment and data collection methodologies, adjustments to quality management measurements and other relevant factors; and
- state licensure laws.

A violation of certain of these Laws could result in civil and criminal damages and penalties, the refund of monies paid by government or private payers, our U.S. Healthcare Segments' exclusion from participation in federal healthcare payer programs, or the loss of our segments' license to conduct business within a particular state's boundaries.

Federal Law

Federal healthcare Laws apply in any case in which our U.S. Healthcare Segments are providing an item or service that is reimbursable or provide information to such segments' customers that results in reimbursement by a federal healthcare payer program to such segments or to them. The principal federal Laws that affect our U.S. Healthcare Segments' businesses include those that prohibit the filing of false or improper claims or other data with federal healthcare payer programs and those that prohibit unlawful inducements for the referral of business reimbursable under federal healthcare payer programs.

False and Other Improper Claims

Under the federal False Claims Act (31 U.S.C. §§ 3729-3733) and similar state Laws, the government may impose civil liability on our U.S. Healthcare Segments if they knowingly submit a false claim to the government or cause another to submit a false claim to the government, or knowingly make a false record or statement intended to get a false claim paid by the government. The False Claims Act defines a claim as a demand for money or property made directly to the government or to a contractor, grantee, or other recipient if the money is to be spent on the government's behalf or if the government will reimburse the contractor or grantee. Liability can be incurred for submitting (or causing another to submit) false claims with actual knowledge or for submitting false claims with reckless disregard or deliberate ignorance. Liability can also be incurred for knowingly making or using a false record or statement to receive payment from the federal government or for knowingly and improperly avoiding or decreasing an obligation to pay or transmit money or property to the government. Consequently, a provider need not take an affirmative action to conceal or avoid an obligation to the government, but the mere retention of an overpayment from the government could lead to potential liability under the False Claims Act.

Many states also have similar false claims statutes. In addition, healthcare fraud is a priority of the U.S. Department of Justice, the Department of Health and Human Services ("DHHS"), its program integrity contractors and its Office of Inspector General, the Federal Bureau of Investigation and state Attorneys General. These agencies have devoted a significant amount of resources to investigating healthcare fraud.

If our U.S. Healthcare Segments are ever found to have violated the False Claims Act, they could be required to make significant payments to the government (including damages and penalties in addition to the return of reimbursements previously collected) and could be excluded from participating in federal healthcare programs or providing services to entities which contract with those programs. Although our U.S. Healthcare Segments monitor their billing practices for compliance with applicable laws, such laws are very complex, and they might not be able to detect all errors or interpret such laws in a manner consistent with a court or an agency's interpretation. While the criminal statutes generally are reserved for instances evidencing fraudulent intent, the civil and administrative penalty statutes are being applied by the federal government in an increasingly broad range of circumstances. Examples of the types of activities giving rise to liability for filing false claims include billing for services not rendered, misrepresenting services rendered (i.e., miscoding), applications for duplicate reimbursement and providing false information that results in reimbursement or impacts reimbursement amounts. Additionally, the federal government takes the position that a pattern of claiming reimbursement for unnecessary services violates these statutes if the claimant should have known that the services were unnecessary. The federal government also takes the position that claiming reimbursement for services that are substandard is a violation of these statutes if the claimant should have known that the care was substandard. Criminal penalties also are available even in the case of claims filed with private insurers if the federal government shows that the claims constitute mail fraud or wire fraud or violate any of the federal criminal healthcare fraud statutes.

State Medicaid agencies and state Attorneys General also have authority to seek criminal or civil sanctions for fraud and abuse violations. In addition, private insurers may bring actions under state false claim laws. In certain circumstances, federal and state laws authorize private whistleblowers to bring false claim or "qui tam" suits on behalf of the government against providers and reward the whistleblower with a portion of any final recovery. In addition, the federal government has engaged a number of private audit organizations to assist it in tracking and recovering claims for healthcare services that may have been improperly submitted.

Governmental investigations and whistleblower "qui tam" suits against healthcare companies have increased significantly in recent years, and have resulted in substantial penalties and fines and exclusions of persons and entities from participating in government healthcare programs. For more information on the risks related to a failure to comply with applicable government coding and billing rules, see "Risk Factors—Regulatory Risks—Our segments could be subject to actions for false claims or recoupment of funds pursuant to certain audits if they do not comply with government coding and billing rules, which could have a material adverse impact on our segments' operating results."

Health Information Practices

Under HIPAA, DHHS issued rules to define and implement standards for the electronic transactions and code sets for the submission of transactions such as claims, and privacy and security of individually identifiable health information in whatever manner it is maintained.

The Final Rule on Enforcement of the HIPAA Administrative Simplification provisions, including the transaction standards, the security standards and the privacy rule, published by DHHS addresses, among other issues, DHHS's policies for determining violations and calculating civil monetary penalties, how DHHS will address the statutory limitations on the imposition of civil monetary penalties, and various procedural issues. The rule extends enforcement provisions currently applicable to the

healthcare privacy regulations to other HIPAA standards, including security, transactions and the appropriate use of service code sets.

The Health Information Technology for Economic and Clinical Health Act ("HITECH"), enacted as part of the American Recovery and Reinvestment Act of 2009, extends certain of HIPAA's obligations to parties providing services to healthcare entities covered by HIPAA known as "business associates," imposes new notice of privacy breach reporting obligations, extends enforcement powers to state attorney generals and amends the HIPAA privacy and security laws to strengthen the civil and criminal enforcement of HIPAA. HITECH establishes four categories of violations that reflect increasing levels of culpability, four corresponding tiers of penalty amounts that significantly increase the minimum penalty amount for each violation, and a maximum penalty amount of $1.5 million for all violations of an identical provision. With the additional HIPAA enforcement power under HITECH, the Office of Civil Rights of the Department of Health and Human Services and states are increasing their investigations and enforcement of HIPAA compliance. Our U.S. Healthcare Segments have taken steps to ensure compliance with HIPAA and we are monitoring compliance on an ongoing basis.

Additionally, the HITECH Final Rule imposes various requirements on covered entities and business associates, and expands the definition of "business associates" to cover contractors of business associates. Even when our U.S. Healthcare Segments are not operating as covered entities, they may be deemed to be "business associates" for HIPAA rule purposes of such covered entities. Our U.S. Healthcare Segments monitor their compliance obligations under HIPAA as modified by HITECH, and implement operational and systems changes, associate training and education, conduct risk assessments and allocate resources as needed. Any noncompliance with HIPPA requirements could expose such segments to the criminal and increased civil penalties provided under HITECH and require them to incur significant costs in order to seek to comply with its requirements or to remediate potential issues that may arise.

Federal and State Anti-Kickback Laws

Federal law commonly known as the "Anti-Kickback Statute" prohibits the knowing and willful offer, solicitation, payment or receipt of anything of value (direct or indirect, overt or covert, in cash or in kind) which is intended to induce: the referral of an individual for a service for which payment may be made by Medicare, Medicaid or certain other federal healthcare programs; or the ordering, purchasing, leasing, or arranging for, or recommending the purchase, lease or order of, any service or item for which payment may be made by Medicare, Medicaid or certain other federal healthcare programs.

Interpretations of the Anti-Kickback Statute have been very broad and under current Law, courts and federal regulatory authorities have stated that the Anti-Kickback Statute is violated if even one purpose (as opposed to the sole or primary purpose) of the arrangement is to induce referrals. Even bona fide investment interests in a healthcare provider may be questioned under the Anti-Kickback Statute if the government concludes that the opportunity to invest was offered as an inducement for referrals.

This act is subject to numerous statutory and regulatory "safe harbors." Compliance with the requirements of a safe harbor offers defenses against Anti-Kickback Statute allegations. Failure of an arrangement to satisfy all of the requirements of a particular safe harbor does not mean that the arrangement is unlawful. However, it may mean that such an arrangement will be subject to scrutiny by the regulatory authorities.

Many states, including some where our U.S. Healthcare Segments do business, have adopted anti-kickback laws that are similar to the federal Anti-Kickback Statute. Some of these state laws are very closely patterned on the federal Anti-Kickback Statute; others, however, are broader and reach reimbursement by private payers. If our U.S. Healthcare Segments' activities were deemed to be inconsistent with state anti-kickback or illegal remuneration laws, they could face civil and criminal penalties or be barred from such activities, any of which could harm such segments' businesses.

If our U.S. Healthcare Segments' arrangements are found to violate the Anti-Kickback Statute or applicable state laws, these segments, along with their clients would be subject to civil and criminal penalties, and these segments' arrangements would not be legally enforceable, which could materially and adversely affect their business. For more information on the risks related to failure to comply with applicable anti-bribery and anti-corruption regulations, see "Risk Factors—Regulatory Risks—Our segments' business could be subject to civil penalties and loss of business if we fail to comply with applicable bribery, corruption and other regulations governing business with governments."

Federal and State Self-Referral Prohibitions

Our U.S. Healthcare Segments may be subject to federal and state statutes banning payments for referrals of patients and referrals by physicians to healthcare providers with whom the physicians have a financial relationship. Section 1877 of the Social Security Act, also known as the "Stark Law", prohibits physicians from making a "referral" for "designated health services" for

Medicare (and in many cases Medicaid) patients from entities or facilities in which such physicians directly or indirectly hold a "financial relationship".

A financial relationship can take the form of a direct or indirect ownership, investment or compensation arrangement. A referral includes the request by a physician for, or ordering of, or the certifying or recertifying the need for, any designated health services.

Certain services that our U.S. Healthcare Segments provide may be identified as "designated health services" for purposes of the Stark Law. Such segments cannot provide assurance that future regulatory changes will not result in other services they provide becoming subject to the Stark Law's ownership, investment or compensation prohibitions in the future.

Many states, including some states where our U.S. Healthcare Segments do business, have adopted similar or broader prohibitions against payments that are intended to induce referrals of clients. Moreover, many states where such segments operate have laws similar to the Stark Law prohibiting physician self-referrals. While our U.S. Healthcare Segments believe that they are operating in compliance with the Stark Law, there can be no guarantee that violations will not occur.

Healthcare Reform

On March 23, 2010, the President of the United States signed into law comprehensive health reform through the Patient Protection and Affordable Care Act (Pub. L. 11-148) ("PPACA"). On March 30, 2010, the President signed a reconciliation budget bill that included amendments to the PPACA (Pub. L. 11-152). These laws in combination form the "ACA" referred to herein. The changes to various aspects of the healthcare system in the ACA were far-reaching and included, among many others, substantial adjustments to Medicare reimbursement, establishment of individual mandates for healthcare coverage, extension of coverage to certain populations, expansion of Medicaid, restrictions on physician-owned hospitals, and increased efficiency and oversight provisions.

Some of the provisions of the ACA took effect immediately, while others will take effect later or will be phased in over time, ranging from a few months following approval to ten years. Due to the complexity of the ACA, it is likely that additional legislation will be considered and enacted. The ACA requires the promulgation of regulations that will likely have significant effects on the healthcare industry and third-party payers. Thus, the healthcare industry and our operations may be subjected to significant new statutory and regulatory requirements and contractual terms and conditions, and consequently to structural and operational changes and challenges.

The ACA also implemented significant changes to healthcare fraud and abuse laws that intensify the risks and consequences of enforcement actions. These included expansion of the False Claims Act by: (a) narrowing the public disclosure bar; and (b) explicitly stating that violations of the Anti-Kickback Statute trigger false claims liability. In addition, the ACA lessened the intent requirements under the Anti-Kickback Statute to provide that a person may violate the statute without knowledge or specific intent. The ACA also provided new funding and expanded powers to investigate fraud, including through expansion of the Medicare Recovery Audit Contractor ("RAC") program to Medicare Parts C and D and Medicaid and authorizing the suspension of Medicare and Medicaid payments to a provider of services pending an investigation of a credible allegation of fraud. Finally, the legislation created enhanced penalties for noncompliance, including increased criminal penalties and expansion of administrative penalties under Medicare and Medicaid. Collectively, such changes could have a material adverse impact on our U.S. Healthcare Segments' operations.

On January 20, 2017, the President of the United States issued an executive order that directed federal agencies to take steps to ensure the government's implementation of the ACA minimizes the burden on impacted parties (such as individuals and states). The underlying intent of the executive order was to take the first steps to repeal and replace the ACA. The executive order specifically instructed agencies to "waive, defer, grant exemptions from, or delay implementation of provisions" that place a "fiscal burden on any State" or that impose a "cost, fee, tax, penalty, or regulatory burden" on stakeholders including patients, providers, and insurers. The order stated that any changes should be made only to the extent "permitted by law" and should comply with the law governing administrative rule-making. The executive order did not, however, provide specifics on next steps or provisions that would be reexamined nor was it clear how the executive branch would be reconciled with Republican congressional efforts to repeal and replace the ACA or what portions of the ACA may continue in any replacement legislation. There are multiple pending legislative proposals to amend the ACA which, among other effects, could repeal all or parts of the ACA without replacing its extension of coverage to expansion populations. In

addition, there are pending legislative proposals to materially restructure Medicaid and other government health care programs.

In 2017, legislation was proposed in the U.S. Congress, but did not advance out of committee and was not passed, which would reduce or eliminate certain non-emergency medical transportation services provided by NET Services as a required Medicaid

benefit. A similar proposal was made in 2018 by the President of the United States in a federal budget proposal. If additional privatization initiatives are not proposed or enacted, or if previously enacted privatization initiatives are challenged, repealed or invalidated, there could be a material adverse impact on our segments' operating results.

Surveys and Audits

Our U.S. Healthcare Segments' programs are subject to periodic surveys by government authorities or their contractors to ensure compliance with various requirements. Regulators conducting periodic surveys often provide reports containing statements of deficiencies for alleged failures to comply with various regulatory requirements. In most cases, if a deficiency finding is made by a reviewing agency, our segments will work with the reviewing agency to agree upon the steps to be taken to bring our program into compliance with applicable regulatory requirements. In some cases, however, an agency may take a number of adverse actions against a program, including:

- the imposition of fines or penalties or the recoupment of amounts paid;
- temporary suspension of admission of new clients to our program's service;
- in extreme circumstances, exclusion from participation in Medicaid, Medicare or other programs;
- revocation of our license; or
- contract termination.

While our U.S. Healthcare Segments believe that our programs are in compliance with Medicare, Medicaid and other program certification requirements and state licensure requirements, failure to comply with these requirements could have a material adverse impact on such segments' businesses and their ability to enter into contracts with other agencies to provide services.

Billing/claims Reviews and Audits

Agencies and other third-party commercial payers periodically conduct pre-payment or post-payment medical reviews or other audits of our U.S. Healthcare Segments' claims or other audits in conjunction with their obligations to comply with the requirements of Medicare or Medicaid. In order to conduct these reviews, payers request documentation from our U.S. Healthcare Segments and then review that documentation to determine compliance with applicable rules and regulations, including the eligibility of clients to receive benefits, the appropriateness of the care provided to those clients, and the documentation of that care. Any determination that such segments have not complied with applicable rules and regulations could result in adjustment of payments or the incurrence of fines and penalties, or in situations of significant compliance failures review or non-renewal of related contracts.

Corporate Practice of Medicine and Fee Splitting

Some states in which our U.S. Healthcare Segments operate prohibit general business entities, such as these segments, from "practicing medicine," which definition varies from state to state and can include employing physicians, as well as engaging in fee-splitting arrangements with these healthcare providers. Among other things, our U.S. Healthcare Segments currently contract with and employ NPs to perform CHAs. We believe that such segments have structured their operations appropriately; however, they could be alleged or found to be in violation of some or all of these laws. If a state determines that some portion of our U.S. Healthcare Segments' businesses violate these laws, it may seek to have such segments discontinue or restructure those portions of their operations or subject them to increased costs, penalties, fines, certain license requirements or other measures. Any determination that such segments have acted improperly in this regard may result in liability to them. In addition, agreements between the corporation and the professional may be considered void and unenforceable.

Professional Licensure and Other Requirements

Many of our U.S. Healthcare Segments' employees are subject to federal and state laws and regulations governing the ethics and practice of their professions. For example, our mid-level practitioners (e.g., NPs) are subject to state laws requiring physician supervision and state laws governing mid-level scope of practice. As the use of mid-level practitioners by physicians increases, state governing boards are implementing more robust regulations governing mid-levels and their scope of practice under physician supervision. Our U.S. Healthcare Segments' ability to provide mid-level practitioner services may be restricted by the enactment of new state laws governing mid-level scope of practice and by state agency interpretations and

enforcement of such existing laws. In addition, services rendered by mid-level practitioners may not be reimbursed by payors at the same rates as payors may reimburse physicians for the same services. Lastly, professionals who are eligible to participate in Medicare and Medicaid as individual providers must not have been excluded from participation in government programs at any time. Our U.S. Healthcare Segments' ability to provide services depends upon the ability of their personnel to meet individual licensure and other requirements and maintain such licensure in good standing.

WD Services

Overview

As a provider of workforce development services in the U.S. and 10 countries outside the U.S., WD Services is subject to numerous national and local laws and regulations. These laws and regulations significantly affect the way in which we operate various aspects of our business. WD Services has implemented compliance policies to help assure our compliance with these laws and regulations as they become effective; however, different interpretations or enforcement of these laws and regulations in the future could subject our practices to allegations of impropriety or illegality or could require us to make changes in our facilities, equipment, personnel, services or the manner in which we conduct our business.

WD Services' revenue is primarily derived from contracts that are funded by national governments that are seeking to reduce the overall unemployment rate or improve job placement success for targeted cohorts, and to reduce the recidivism rate. Further, the revenue we receive from these contracts is typically tied to milestones that are largely uncontrolled by us. Such milestones include the job placement success of clients, duration and tenure of clients in jobs once they are placed, and various other market and industry factors including the overall unemployment rate. For more information on the risks related to failure to satisfy our contractual obligations, see "Risk Factors—Risks Related to Our Business—If we fail to satisfy our contractual obligations, we could be liable for damages and financial penalties, which may place existing pledged performance and payment bonds at risk as well as harm our ability to keep our existing contracts or obtain new contracts and future bonds."

Data Security and Protection

WD Services is also subject to the European Union's and other countries' data security and protection laws and regulations. These laws and regulations impose broad obligations on the organizations that collect such data, as well as confer broad rights on individuals about whom such data is collected. There are amendments which will come into effect in 2018 with respect to European data privacy legislation which will significantly increase the fines for any breaches. In addition to their power to impose fines, information privacy regulators in Europe have significant powers to require organizations that breach regulations to put in place measures to ensure that such breaches do not occur again, and require businesses to stop processing personal information until the required measures are in place. For more information on the risks related to a failure to comply with privacy and security regulations, see "Risk Factors—Regulatory Risks—Our segments are subject to regulations relating to privacy and security of patient and service user information. Failure to comply with privacy and security regulations could result in a material adverse impact on our segments' operating results."

The data security and protection laws and regulations may also restrict the flow of information, including information about employees or service users, from WD Services to Providence in the U.S. In certain instances, informed consent to the data transfer must be given by the affected employee or service user. Compliance with such laws and regulations is costly and requires our segment management to expend substantial time and resources which could negatively impact our segments' results of operations. Compliance may also make it more difficult for the Company to gather data necessary to ensure the appropriate operation of its internal controls or to detect corruption, resulting in the need for additional controls or increasing the Company's costs to maintain appropriate controls.

Anti-Bribery and Corruption

WD Services' international operations are subject to various U.S. and foreign statutes that prohibit bribery and corruption, including the U.S. Foreign Corrupt Practices Act and the UK's Bribery Act. These statutes generally require organizations to prohibit bribery by or for the organization and demand the implementation of systems to counter bribery, including risk management, training and guidance and the maintenance of adequate record-keeping and internal accounting practices. The statutes also, among other things, prevent the provision of anything of value to government officials for the purposes of influencing official decisions or obtaining or retaining business or otherwise obtaining favorable treatment. In addition, many countries in which we operate have antitrust or competition regulations which, among other things, prohibit collusive tendering or bid-rigging behavior. For more information on the risks related to a failure to comply with applicable anti-bribery and anti-corruption regulations, see "Risk Factors—Regulatory Risks—Our segments' business could be subject to civil penalties and loss of business if we fail to comply with applicable bribery, corruption and other regulations governing business with governments."

Licensing

In many of the locations where WD Services operates, it is required by local laws to obtain and maintain licenses. The applicable state and local licensing requirements govern the services our segments provide, the credentials of staff, record keeping, treatment planning, client monitoring and supervision of staff. The failure to maintain these licenses or the loss of a license could

have a material adverse impact on WD Services businesses and could prevent them from providing services to clients in a given jurisdiction.

Surveys and audits

WD Services' contracts permit clients to review its compliance or performance, as well as its records, at the client's discretion. In most cases, if a deficiency is found by a reviewing agency, WD Services' will work with the reviewing agency to agree upon the steps to be taken to bring our program into compliance with applicable regulatory requirements. In the case of any deficiency, however, a client may take a number of adverse actions against WD Services, including: (i) termination or modification of existing contracts, (ii) prevention of receipt of new contracts or extension of existing contracts or (iii) reduction of fees paid under existing contract.

Billing Requirements

In WD Services, particularly in Europe, our contracts are subject to stringent claims and invoice processing regimes which vary depending on the customer and nature of the payment mechanism. Under European procurement legislation which has been implemented in each EU member state, any conviction for fraud can result in a ban from participating in public procurement tenders for up to five years, or until the organization in question has put in place "self clean" measures to the satisfaction of the procuring authority. For more information on the risks related to a failure to comply with applicable government coding and billing rules, see "Risk Factors—Regulatory Risks—Our segments could be subject to actions for false claims or recoupment of funds pursuant to certain audits if they do not comply with government coding and billing rules, which could have a material adverse impact on our segments' operating results."

Brexit

On June 23, 2016, the UK held a referendum in which eligible persons voted in favor of a proposal that the UK leave the EU, also known as "Brexit". The result of the referendum increased political and economic uncertainty in the UK for the foreseeable future, in particular during any period where the terms of any UK exit from the EU are negotiated. In turn, Brexit could cause disruptions to and create uncertainty surrounding our business, including affecting our relationships with our existing and future payers and employees, which could have an adverse effect on our financial results, operations and prospects, including being adversely affected in ways that cannot be anticipated at present. For more information on the risks related to the UK's exit from the European Union, see "Risk Factors—Regulatory Risks—Our business could be adversely affected by the referendum on the UK's exit from the European Union."

Additional Information

The Company's website at www.prscholdings.com provides access to its periodic reports, certain corporate governance documents, press releases, interim shareholder reports and links to its subsidiaries' websites. The Company makes available to the public on its website its annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Exchange Act, as soon as reasonably practicable after it electronically files such material with, or furnishes such material to, the SEC. Copies are also available, without charge, upon request to The Providence Service Corporation, 700 Canal Street, Third Floor, Stamford, CT 06902, (203) 307-2800, Attention: Corporate Secretary. The information contained on our website is not part of, and is not incorporated by reference in, this Annual Report on Form 10-K or any other report we file with or furnish to the SEC.

Item 1A. ***Risk Factors.***

You should consider and read carefully all of the risks and uncertainties described below, as well as other information included in this Annual Report on Form 10-K, including our consolidated financial statements and related notes. The risks described below are not the only ones facing us. The occurrence of any of the following risks or additional risks and uncertainties not presently known to us or that we currently believe to be immaterial could materially and adversely affect our business, financial condition and results of operations. This Annual Report on Form 10-K also contains forward-looking statements and estimates that involve risks and uncertainties. Our actual results could differ materially from those anticipated in any forward-looking statements as a result of specific factors, including the risks and uncertainties described below.

Risks Related to Our Business

There can be no assurance that our contracts will survive until the end of their stated terms, or that upon their expiration will be renewed or extended on satisfactory terms, if at all. Disruptions to, the early expiration of or the failure to renew our contracts could have a material adverse impact on our financial condition and results of operations.

Our NET Services contracts, and certain WD Services contracts, are subject to frequent renewal. For example, many of the state Medicaid contracts held by NET Services, which represented 55.9% of NET Services revenue for the year ended December 31, 2017, have terms ranging from three to five years and are typically subject to a competitive bidding process near the end of the term. NET Services also contracts with MCOs, which represented 44.1% of NET Services revenue for the year ended December 31, 2017. MCO contracts typically continue until terminated by either party upon reasonable notice (as determined in accordance with the contract). We cannot anticipate if, when or to what extent we will be successful in renewing our state government contracts or retaining our MCO contracts. During 2017, we experienced a decline in operating income as a percentage of revenue due to the nonrenewal of certain state contracts. In addition, with respect to many of our contracts, the payer may terminate the contract without cause, at will and without penalty to the payer, either immediately or upon the expiration of a short notice period in the event that, among other reasons, government appropriations supporting the programs serviced by the contract are reduced or eliminated or the payer deems our performance under the contract to be unsatisfactory.

We cannot anticipate if, when or to what extent a payer might terminate its contract with us prior to its expiration, or fail to renew or extend a contract with us. If we are unable to retain or renew our contracts, or replace lost contracts, on satisfactory terms our financial conditions and results of operations could be materially adversely affected. While we pursue new contract awards and also undertake efficiency measures, there can be no assurance that such measures will fully offset the impact of contracts that are not renewed or are cancelled on our operating income and results of operations.

We obtain a significant portion of our business through responses to government requests for proposals and we may not be awarded contracts through this process in the future, or contracts we are awarded may not be profitable.

We obtain, and will continue to seek to obtain, a significant portion of our business from national, state, and local government entities. To obtain business from government entities, we are often required to respond to requests for proposals ("RFPs"). To propose effectively, we must accurately estimate our cost structure for servicing a proposed contract, the time required to establish operations and the terms of the proposals submitted by competitors. We must also assemble and submit a large volume of information within rigid and often short timetables. Our ability to respond successfully to RFPs will greatly impact our business. If we misinterpret bid requirements as to performance criteria or do not accurately estimate performance costs in a binding bid for an RFP, we will seek to correct such mistakes in the final contract. However, there can be no assurance that we will be able to modify the proposed contract and we may be required to perform under a contract that is not profitable.

WD Services' ability to win contracts to administer and manage programs traditionally administered by government employees is also dependent on the impact of government unions. Many WD Services government employees belong to labor unions with considerable financial resources and lobbying networks. Union opposition could result in our losing government contracts, being precluded from providing services under government contracts, or maintaining or renewing existing contracts. If we could not renew certain contracts or obtain new contracts due to opposition political actions, it could have a material adverse impact on our operating results.

If we fail to satisfy our contractual obligations, we could be liable for damages and financial penalties, which may place existing pledged performance and payment bonds at risk as well as harm our ability to keep our existing contracts or obtain new contracts and future bonds.

Our failure to comply with our contractual obligations could, in addition to providing grounds for immediate termination of the contract for cause, negatively impact our financial performance and damage our reputation, which, in turn, could have a

material adverse effect on our ability to maintain current contracts or obtain new contracts. The termination of a contract for cause could, for instance, subject us to liabilities for excess costs incurred by a payer in obtaining similar services from another source. In addition, our contracts require us to indemnify payers for our failure to meet standards of care, and some of them contain liquidated damages provisions and financial penalties that we must pay if we breach these contracts.

Our failure to meet contractual obligations could also result in substantial actual and consequential financial damages. For example, on January 25, 2018, the MOJ released a report on reoffending statistics for certain offenders who entered probation services during the period October 2015 to March 2016. The report provides statistics for all providers of probation services, including our subsidiary RRP, which is in our WD Services segment. This information is the second data set that is utilized to determine performance payments under the various providers' transforming rehabilitation contracts with the MOJ, as the actual rates of recidivism are compared to benchmark rates established by the MOJ. Performance payments and penalties are linked to two separate measures of recidivism - the binary measure and the frequency measure. The binary measure defines the percentage of offenders within a cohort, formed quarterly, who reoffend in the following 12 months. The frequency measure defines the average number of offenses committed by reoffenders within the same 12-month measurement period. The performance for the frequency measure for most providers has been below the benchmarks established by the MOJ. As a result, RRP could be required to make payments to the MOJ and the amounts of such payments could be material. The amount of potential payments to the MOJ, if any, under RRP's contracts with the MOJ cannot be estimated at this time, as the MOJ is reviewing the data to understand the underlying reasons for the increase in certain rates of recidivism and other factors that could impact the contractual measure.

Any acquisition or integration that we undertake could disrupt our business, not generate anticipated results, dilute stockholder value or have a material adverse impact on our operating results.

We endeavor to ensure our acquisition strategy and alignment of resources serves to enhance shareholder value, which could result in changes to our strategy or to the way in which we deploy resources across Providence. We have made, and anticipate that we will continue to make, acquisitions. The Company typically incurs costs related to acquisitions and integrations, including third-party costs, whether or not the acquisition or integration is completed, which can have a material adverse impact on our operating results. The success of an acquisition depends in part on our ability to integrate an acquired company into our business operations. Integration of any acquired companies will place significant demands on our management, systems, internal controls and financial and physical resources. This could require us to incur significant expense for, among other things, hiring additional qualified personnel, retaining professionals to assist in developing the appropriate control systems and expanding our information technology infrastructure. The nature of our business is such that qualified management personnel can be difficult to find. Our inability to manage growth effectively could have a material adverse effect on our financial results.

There can be no assurance that the companies acquired will generate income or incur expenses at the historical or projected levels on which we based our acquisition decisions, that we will be able to maintain or renew the acquired companies' contracts, that we will be able to realize operating and economic efficiencies upon integration of acquired companies or that the acquisitions will not adversely affect our results of operations or financial condition.

We continually review opportunities to acquire other businesses that would complement our current services, expand our markets or otherwise offer prospects for growth. In connection with our acquisition strategy, we could issue stock that would dilute existing stockholders' percentage ownership, or we could incur or assume substantial debt or contingent liabilities. Acquisitions involve numerous risks, including, but not limited to, the following:

- challenges and unanticipated costs assimilating the acquired operations;
- known and unknown legal or financial liabilities associated with an acquisition;
- diversion of management's attention from our core businesses;
- adverse effects on existing business relationships with customers;
- entering markets in which we have limited or no experience;
- potential loss of key employees of purchased organizations;
- incurrence of excessive leverage in financing an acquisition;
- failure to maintain and renew contracts and other revenue streams of the acquired business;
- costs associated with litigation or other claims arising in connection with the acquired company;
- unanticipated operating, accounting or management difficulties in connection with an acquisition; and
- dilution to our earnings per share.

We cannot assure you that we will be successful in overcoming problems encountered in connection with any acquisition or integration and our inability to do so could disrupt our operations and adversely affect our business. Our failure to address these risks or other problems encountered in connection with past or future acquisitions and investments could cause us to fail

to realize the anticipated benefits of such acquisitions or investments, incur unanticipated liabilities and harm our business generally.

We may be unable to realize the benefits of any strategic initiatives that are adopted by the Company.

From time to time we may launch strategic initiatives in order to enhance shareholder value. For example, in 2017, NET Services pursued a strategic initiative to enhance member satisfaction and drive greater operational efficiencies. The implementation of the initiative is expected to be substantially completed by the end of 2018. Also in 2017, in order to build upon its leadership position in the UK employment services industry, enhance client satisfaction and drive greater operational efficiencies, WD Services substantially completed the Ingeus Futures program. In addition, we are actively evaluating the optimal industry sectors, such as the non-emergency medical transportation industry and others in which businesses complementary to our NET Services business operate, around which to focus our go-forward merger and acquisition activity, in an attempt to direct our capital towards those areas most likely to drive long-term value creation and generate the highest levels of return for our shareholders. The outcome of this active evaluation may impact the extent and manner in which we deploy resources across Providence, including strategic and administrative resources between Corporate and Other and our operating segments. There can be no assurance as to whether any strategic initiatives will be adopted as a result of this evaluation, and the outcome of any current or future strategic initiatives is uncertain.

Our investments in any joint ventures and unconsolidated entities could be adversely affected by our lack of sole decision-making authority, our reliance on our joint venture partners' financial condition, any disputes that may arise between us and our joint venture partners and our exposure to potential losses from the actions of our joint venture partners.

We currently hold a noncontrolling interest in Matrix, which constitutes 24.0% of our consolidated assets. We do not have unilateral power to direct the activities that most significantly impact such business' economic performance. Our future growth may depend, in part, on future similar arrangements, any of which could be material to our financial condition and results of operations. These arrangements involve risks not present with respect to our wholly-owned subsidiaries, which may negatively impact our financial condition and results of operations or make the arrangements less successful than anticipated, including the following:

- we may be unable to take actions that we believe are appropriate but are opposed by our joint venture partners under arrangements that require us to cede or share decision-making authority over major decisions affecting the ownership or operation of the joint venture and any property owned by the joint venture, such as the sale or financing of the business or the making of additional capital contributions for the benefit of the business;
- our joint venture partners may take actions that we oppose;
- we may be unable to sell or transfer our interest in a joint venture to a third party if we fail to obtain the prior consent of our joint venture partners;
- our joint venture partners may become bankrupt or fail to fund their share of required capital contributions, which could adversely impact the joint venture or increase our financial commitment to the joint venture;
- our joint venture partners may have business interests or goals with respect to a business that conflict with our business interests and goals, including with respect to the timing, terms and strategies for investment, which could increase the likelihood of disputes regarding the ownership, management or disposition of the business;
- disagreements with our joint venture partners could result in litigation or arbitration that increases our expenses, distracts our officers and directors, and disrupts the day-to-day operations of the business, including the delay of important decisions until the dispute is resolved; and
- we may suffer losses as a result of actions taken by our joint venture partners with respect to our joint venture investments.

We derive a significant amount of our revenues from a few payers, which puts our financial condition and results of operations at risk. Any changes in the funding, financial viability or our relationships with these payers could have a material adverse impact on our financial condition and results of operations.

We generate a significant amount of the revenues in our segments from a few payers under a small number of contracts. For example, for the years ended December 31, 2017, 2016 and 2015, we generated 46.7%, 47.9% and 54.6%, respectively, of our consolidated revenue from ten payers. Additionally, five payers related to NET Services represented, in

the aggregate, 36.1%, 35.6% and 39.2%, respectively, of NET Services revenue for the years ended December 31, 2017, 2016 and 2015. A single payer related to WD Services represented 27.1%, 28.9% and 40.0% of our WD Services revenue for the years ended December 31, 2017, 2016 and 2015, respectively. Additionally, a single payer related to Matrix represented 30.9%, 27.8% and 31.1% of Matrix revenue for the years ended December 31, 2017, 2016 and 2015, respectively. The loss of, reduction in amounts generated by, or changes in methods or regulations governing payments for our services under these contracts could have a material adverse impact on our

revenue and results of operations. In addition, any consolidation of any of our private payers could increase the impact that any such risks would have on our revenue and results of operations.

If we fail to estimate accurately the cost of performing certain contracts, we may experience reduced or negative margins.

During 2017, 2016 and 2015, 77.9%, 78.3% and 83.6% of our NET Services revenue, respectively, was generated under capitated contracts with the remainder generated through FFS and flat fee contracts. WD Services also provides services under FFS and flat fee contracts. Under most of NET Services' capitated contracts, we assume the responsibility of managing the needs of a specific geographic population by contracting out transportation services to local transportation companies on a per ride or per mile basis. We use "pricing models" to determine applicable contract rates, which take into account factors such as estimated utilization, state specific data, previous experience in the state or with similar services, the medically covered programs outlined in the contract, identified populations to be serviced, estimated volume, estimated transportation provider rates and availability of mass transit. The amount of the fixed per-member, monthly fee is determined in the bidding process, but is predicated on actual historical transportation data for the subject geographic region as provided by the payer, actuarial work performed in-house as well as by third party actuarial firms and actuarial analysis provided by the payer. If the utilization of our services is more than we estimated, the contract may be less profitable than anticipated, or may not be profitable at all. Under our FFS contracts, we receive fees based on our interactions with government-sponsored clients. To earn a profit on these contracts, we must accurately estimate costs incurred in providing services. Our risk relating to these contracts is that our client population is not large enough to cover our fixed costs, such as rent and overhead. Our FFS contracts are not reimbursed on a cost basis and therefore, if we fail to estimate our costs accurately, we may experience reduced margins or losses on these contracts. Revenue under certain contracts may be adjusted prospectively if client volumes are below expectations. If the Company is unable to adjust its costs accordingly, our profitability may be negatively impacted. In addition, certain contracts with state Medicaid agencies are renewable at the state's option without an adjustment to pricing terms. If such renewed contracts require us to incur higher costs, including inflation or regulatory changes, than originally anticipated, our results of operations and financial condition may be adversely affected.

In WD Services, we often provide services to a client based on a unit price for delivery of a service or achievement of a defined outcome. If we fail to estimate costs accurately, we may have minimal ability to change the unit price to ensure profitability. While we may be able to alter our cost structure to reflect lower than anticipated volumes and other changes in service needs, there are certain fixed costs which are difficult to alter while still ensuring we can meet our contractual obligations. Further, many contracts require us to undertake significant onboarding projects, including making redundancies and changes to properties and IT. If we fail to anticipate the cost of these change programs, we may be unable to recover startup costs throughout the life of the contract. During the fourth quarter of 2016, WD Services recorded asset impairment charges of $19.6 million, which related, in part, to lower revenue and unanticipated costs for a recent contract. If WD Services continues to experience lower than expected volumes and unfavorable service mix shifts, it could result in additional impairment charges. For more information on the risks related to impairment of goodwill, see "Risk Factors—Risks Related to Our Business—Our reported financial results could suffer if there is an impairment of long-lived assets."

We may incur costs before receiving related revenues, which could impact our liquidity.

When we are awarded a contract to provide services, we may incur expenses before we receive any contract payments. These expenses include leasing office space, purchasing office equipment, instituting information technology systems, development of supply chains, hiring personnel and releasing certain personnel. As a result, in certain contracts where the government does not fund program start-up costs, we may be required to make significant investments before receiving any related contract payments or payments sufficient to cover start-up costs. For example, WD Services incurred start-up costs in 2017 related to the UK's Work and Health Programme, and in 2016 related to the offender rehabilitation program in the UK and start-up costs in France. In addition, payments due to us from payers may be delayed due to billing cycles or as a result of failures to approve government budgets in a timely manner, which may adversely affect our liquidity. Moreover, any resulting mismatch in expenses and revenue, especially under FFS arrangements, could be exacerbated if we fail either to invoice the payer correctly or to collect our fee in a timely manner. Such amounts may exceed our available cash, and any resulting liquidity shortages may require additional financing, which may not be available on satisfactory terms, or at all. This could have a material adverse impact on our ongoing operations and our financial position.

Our business is subject to risks of litigation.

The services we provide are subject to lawsuits and claims. A substantial award payable by the Company could have a material adverse impact on our operations and cash flows, and could adversely impact our ability to continue to purchase appropriate liability insurance. We can be subject to claims for negligence or intentional misconduct (in addition to professional liability type claims) by an employee or a third party we engage to assist with the provision of services, including but not limited to claims arising out of accidents involving vehicle collisions, workforce development placements or CHAs and various claims that could

result from employees or contracted third parties driving to or from interactions with clients or while providing direct client services. We can be subject to employee-related claims such as wrongful discharge, discrimination or a violation of equal employment laws and permitting issues. While we attempt to insure against for these types of claims, damages exceeding our insurance limits or outside our insurance coverage, such as a claim for fraud, certain wage and hour violations or punitive damages, could adversely affect our cash flow and financial condition.

We face risks related to attracting and retaining qualified employees and labor relations.

Our success depends to a significant degree on our ability to identify, attract, develop, motivate and retain highly qualified and experienced professionals who possess the skills and experience necessary to deliver high-quality services to our clients, with the continued contributions of our senior management being especially critical to our success. Our objective of providing the highest quality of service to our clients is a significant consideration when we evaluate the education, experience and qualifications of potential candidates for employment as direct care and administrative staff. A portion of our staff are professionals with requisite educational backgrounds and professional certifications. These employees are in great demand and are likely to remain a limited resource for the foreseeable future.

Our ability to attract and retain employees with the requisite experience and skills depends on several factors including, but not limited to, our ability to offer competitive wages, benefits and professional growth opportunities. While we have established programs to attract new employees and provide incentives to retain existing employees, particularly our senior management, we cannot assure you that we will be able to attract new employees or retain the services of our senior management or any other key employees in the future. In particular, we are currently seeking to fill several key management positions in our NET Services business, and we expect to continue to need to attract key employees to support the growth of our businesses. Some of the companies with which we compete for experienced personnel may have greater financial, technical, political and marketing resources, name recognition and a larger number of clients and payers than we do, which may prove more attractive to employment candidates. The inability to attract and retain experienced personnel could have a material adverse effect on our business.

The performance of each of our business segments also depends on the talents and efforts of our highly skilled information technology professionals. For example, technological improvement is a key component of the strategic initiative at NET Services to enhance member satisfaction and drive greater operational efficiencies and as NET Services expands our transportation network capacity beyond its traditional transportation provider network, increases on-time and on-demand performance, provides real time analytics and minimizes cancellations. Competition for skilled intellectual technology professionals can be intense. Our success depends on our ability to recruit, retain and motivate these individuals.

Effective succession planning is also important to our future success. If we fail to ensure the effective transfer of senior management knowledge and smooth transitions involving senior management, including the appointment of a new chief executive officer for the Company (as our chief executive officer terminated his role during the fourth quarter of 2017) and the transition of several key management positions, including the chief technology officer, in our NET Service business, our ability to execute short and long-term strategic, financial and operating goals, as well as our business, financial condition and results of operations generally, could be adversely affected.

In addition, our businesses rely on maintaining strong relationships with our employees and avoiding labor disputes. Certain of our UK employees are members of the NAPO and Unison unions and certain of our employees in France are members of the Confederation Generale du Travail. Unionized employees in both countries have collective bargaining rights. Participation in unions is confidential under European employment laws. While we believe we have good relationships with our employees, both unionized and non-unionized, in the U.S. and internationally, including the unions that represent some of our employees, a work stoppage due to our failure to renegotiate union contracts or for other reasons could have a significant negative effect on us. In addition, should additional portions of our workforce be subject to collective bargaining agreements, this could result in increased costs of doing business as we may be subject to mandatory, binding arbitration of labor scheduling, costs and standards and we may therefore have reduced operating flexibility.

We may have difficulty successfully completing divestitures or exiting businesses.

As demonstrated in 2017 with the sale of our interests in Mission Providence Pty Ltd to Konekt Limited, in 2016 with the Matrix Transaction and in 2015 with the Human Services Sale, we may dispose of all or a portion of our investments or exit businesses based on a variety of factors, including availability of alternative opportunities to deploy capital or

otherwise maximize shareholder value as well as other strategic considerations. A divestiture or business termination could result in difficulties in the separation of operations, services, products and personnel, the diversion of management's attention, the disruption of our business and the potential loss of key employees and customers. A divestiture or business termination may be subject to the satisfaction of pre-closing conditions as well as to obtaining necessary regulatory and government approvals, which, if not satisfied or obtained,

may prevent us from completing the disposition or business termination, whether or not the disposition or business termination has been publicly announced. A divestiture or business termination may also involve continued financial involvement in the divested assets and businesses, such as indemnities or other financial obligations, including continuing obligations to employees, in which the performance of the divested assets or businesses could impact our results of operations. From time to time the Company guarantees the contractual payment or performance obligations of its segments. An inability to obtain waiver or termination of such guarantees may prevent us from completing a disposition or business termination, or may result in continued financial involvement in divested assets and businesses. Further, such divestitures may result in proceeds to us in an amount less than we expect or less than our assessment of the value of those assets. Any sale of our assets could result in a loss on divestiture. Any of the foregoing could adversely affect our financial condition and results of operations.

The indemnification provisions of acquisition and disposition agreements by which we have acquired or sold companies may result in liabilities.

We rely heavily on the representations and warranties and related indemnities provided to us by the sellers of acquired companies, including as they relate to creation, ownership and rights in intellectual property and compliance with laws and contractual requirements. However, the liability of the former owners is limited under the relevant acquisition agreements, and certain sellers may be unable to meet their indemnification responsibilities. Similarly, the purchasers of our divested operations may from time to time agree to indemnify us for operations of such businesses after the closing. We cannot be assured that any of these indemnification provisions will fully protect us, and as a result we may face unexpected liabilities that adversely affect our consolidated results of operations, financial condition and cash flows.

In addition, we have provided certain indemnifications in connection with the Human Services Sale in 2015 and the Matrix Transaction in 2016. To the extent we choose to divest other operations of our businesses in the future, we expect to provide certain indemnifications in connection with these divestitures. We may face liabilities in connection with these current or future indemnification obligations that may adversely affect our consolidated results of operation, financial condition and cash flows. We have entered into a settlement with Molina Healthcare Inc. ("Molina"), the purchaser of our former Human Services segment, regarding the settlement of certain potential indemnification claims. As of December 31, 2017, the accrual is $15.0 million with respect to an estimate of loss for such potential indemnification claims. Litigation is inherently uncertain, and the losses incurred in the event that the legal proceedings related to such claims were to result in unfavorable outcomes could have a material adverse effect on the Company's business and financial performance. For more information on these potential indemnification obligations, see Note 18, *Commitments and Contingencies*, to our consolidated financial statements.

Our success depends on our ability to compete effectively in the marketplace.

We compete for clients and for contracts with a variety of organizations that offer similar services. Many organizations of varying sizes compete with us, including local not-for-profit organizations and community-based organizations, larger companies, organizations that currently provide or may begin to provide similar NET management services (including transportation network companies like Uber and Lyft), and large multi-national corporations that currently provide or may begin to provide workforce development services and CHA providers. Some of these companies may have greater financial, technical, political, marketing, name recognition and other resources and a larger number of clients or payers than we do. In addition, some of these companies offer more services than we do. To remain competitive, we must provide superior services and performance on a cost-effective basis to our customers.

The market in which we operate is influenced by technological developments that affect cost-efficiency and quality of services, and the needs of our customers change and evolve regularly. Accordingly, our success depends on our ability to develop services that address these changing needs and to provide technology needed to deliver these services on a cost-effective basis. Our competitors may better utilize technology to change the way services in our industry are designed and delivered and they may be able to provide our customers with different or greater capabilities than we can provide, including better contract terms, technical qualifications, price and availability of qualified professional personnel. In addition, new or disruptive technologies and methodologies by our competitors may make our services uncompetitive.

In conjunction with our initiatives to improve cost-efficiency, we incur substantial costs to develop technology, which may not ultimately serve our business purposes or lower costs. For example, in 2016, WD Services incurred a write-off of in-process technology of $3.1 million related to our legal offender rehabilitation services, as it was determined the system

would not meet our business needs. As of December 31, 2017, NET Services has incurred $11.9 million of development in progress costs related to its LCAD NextGen technology system, which is a critical component of its initiative to progress towards an industry-leading call center and reservation scheduling platform, improve member communication, accessibility, and satisfaction, optimize the utilization of our extensive network of transportation providers and build the foundation for additional analytical capabilities.

The system has not been placed into service, and a review of the project is ongoing. In addition, we made a cost-method investment of $3.0 million during 2017, in Circulation, a technology-based transportation services provider.

We have experienced, and expect to continue to experience, competition from new entrants into the markets in which we operate. Increased competition may result in pricing pressures, loss of or failure to gain market share or loss of or failure to gain clients or payers, any of which could have a material adverse effect on our operating results. Our business may also be adversely affected by the consolidation of competitors, which may result in increased pricing pressure or negotiating leverage with payers, or by the provision of our services by payers or clients directly, including through the acquisition of competitors.

We may be adversely impacted by inadequacies in, or security breaches of, our information technology systems.

Our information technology systems are critically important to our operations and we must implement and maintain appropriate and sufficient infrastructure and systems to support growth and business processes. We provide services to individuals, including services that require us to maintain sensitive and personal client information, including information relating to their health, social security numbers and other identifying data. Therefore, our information technology systems store client information protected by numerous federal, state and foreign regulations. We also rely on our information technology systems (some of which are outsourced to third parties) to manage the data, communications and business processes for all other functions, including our marketing, sales, logistics, customer service, accounting and administrative functions. Further, our systems include interfaces to third-party stakeholders, often connected via the Internet. In addition, certain of our services or information related to our services are carried out or hosted within our customers' IT systems, and any failure or weaknesses in their IT systems may negatively impact our ability to deliver the services, for which we may not receive relief from contractual performance obligations or compensation for services provided. As a result of the data we maintain and third-party access, we are subject to increasing cybersecurity risks. The nature of our business, where services are often performed outside a secured location, adds additional risk.

If we do not allocate and effectively manage the resources necessary to build, sustain and protect an appropriate technology infrastructure, our business or financial results could be negatively impacted. Furthermore, computer hackers and data thieves are increasingly sophisticated and operate large scale and complex automated attacks and our information technology systems may be vulnerable to material security breaches (including the access to or acquisition of customer, employee or other confidential data), cyber-based attacks or other material system failures. Because the techniques used to obtain unauthorized access or sabotage systems change frequently and may be difficult to detect for long periods of time, we may be unable to implement adequate preventative measures sufficient to prevent a breach of our systems and protect sensitive data. Any breach of our data security could result in an unauthorized release or transfer of customer or employee information, or the loss of valuable business data or cause a disruption in our business. A failure to prevent, detect and respond in a timely manner to a major breach of our data security or to other cybersecurity threats could result in system disruption, business continuity issues or compromised data integrity. These events or any other failure to safeguard personal data could give rise to unwanted media attention, damage our reputation, damage our customer relationships and result in lost sales, fines or lawsuits. We may also be required to expend significant capital and other resources to protect against or respond to or alleviate problems caused by a security breach. If we are unable to prevent material failures, our operations may be impacted, and we may suffer other negative consequences such as reputational damage, litigation, remediation costs, a requirement not to operate our business until defects are remedied or penalties under various data privacy laws and regulations, any of which could detrimentally affect our business, financial condition and results of operations.

Failure to protect our client's privacy and confidential information could lead to legal liability, adversely affect our reputation and have a material adverse effect on our business, financial condition and results of operations.

We retain confidential information in our computer systems, including personal information about our customers, such as names, addresses, phone numbers, email addresses, identification numbers and payment account information. Malicious cyber attacks to gain access to personal information affect many companies across various industries, including ours. Pursuant to federal and state laws, various government agencies have established rules protecting the privacy and security of personal information. In addition, most states have enacted laws, which vary significantly from jurisdiction to jurisdiction, to safeguard the privacy and security of personal information. An increasing number of states require that customers be notified if a security breach results in the inappropriate disclosure of personally identifiable customer information. Any compromise of the security of our systems that results in the disclosure of personally identifiable customer or employee information or inadvertent disclosure of any clients' personal information could damage our reputation, deter people from using our services, expose us to litigation, increase regulatory scrutiny and require us to incur significant

technical, legal and other expenses. In addition, data breaches impacting other companies, such as our vendors, may allow cybercriminals to obtain personally identifiable information about our customers. Cybercriminals may then use this information to, among other things, attempt to gain unauthorized access to our customers' accounts, which could have a material adverse effect on our reputation, business, results of operations or financial condition.

Failure to maintain or to develop further reliable, efficient and secure information technology systems would be disruptive to our operations and diminish our ability to compete and grow our business successfully.

We are highly dependent on efficient and uninterrupted performance of our information technology and business systems. These systems quote, process and service our business, and perform financial functions necessary for pricing and service delivery. These systems must also be able to undergo periodic modifications and improvements without interruptions or untimely delays in service. Additionally, our ability to integrate our systems with those of our clients is critical to our success. Our information systems rely on the commitment of significant financial and managerial resources to maintain and enhance existing systems as well as develop and create new systems to keep pace with continuing changes in information processing technology or evolving industry and regulatory requirements. However, we still rely on manual processes and procedures, including accounting, reporting and consolidation processes that may result in errors and may not scale proportionately with our business growth.

A failure or delay to achieve improvements in our information technology platforms could interrupt certain processes or degrade business operations and could place us at a competitive disadvantage. If we are unable to implement appropriate systems, procedures and controls, we may not be able to successfully offer our services and grow our business and account for transactions in an appropriate and timely manner, which could have an adverse effect on our business, financial condition and results of operations.

There are risks associated with our international operations that are different from the risks associated with our operations in the U.S., and our exposure to the risks of a global market could hinder our ability to maintain and expand international operations.

We have operation centers in Australia, Canada, France, Germany, Saudi Arabia, Singapore, South Korea, Switzerland, the UK and the U.S. and a noncontrolling interest in a joint venture in Spain. In implementing our international strategy, we may face barriers to entry and competition from local companies and other companies that already have established global businesses, as well as the risks generally associated with conducting business internationally. The success and profitability of international operations are subject to numerous risks and uncertainties, many of which are outside of our control, such as:

- political or economic instability;
- changes in governmental regulation or taxation;
- currency exchange fluctuations;
- difficulties and costs of staffing and managing operations in certain foreign countries, including potential pension and social plan liabilities;
- work stoppages or other changes in labor conditions; and
- taxes and other restrictions on repatriating foreign profits back to the U.S.

In addition, changes in policies or laws of the U.S. or foreign governments resulting in, among other changes, higher taxation, tariffs or similar protectionist laws could reduce the anticipated benefits of international operations and could have a material adverse effect on our results of operations and financial condition. We have currency exposure arising from both sales and purchases denominated in foreign currencies, including intercompany transactions outside the U.S., and we currently do not conduct hedging activities. The value of the U.S. dollar against other foreign currencies has seen significant volatility recently. Our financial condition and results of operations are reported in multiple currencies, and are then translated into U.S. dollars at the applicable exchange rate for inclusion in our consolidated financial statements. Appreciation of the U.S. dollar against these other currencies will have a negative impact on our reported net revenue and operating income while depreciation of the U.S. dollar against such currencies will have a positive effect on reported net revenue and operating income. We cannot predict with precision the effect of future exchange-rate fluctuations on our business and operating results, and significant rate fluctuations could have a material adverse effect on our results of operations and financial condition.

Our results of operations will continue to fluctuate due to seasonality.

NET Services operating results and operating cash flows normally fluctuate as a result of seasonal variations in our business. Due to higher demand in the summer months and lower demand in the winter months, coupled with a primarily fixed revenue stream based on a per-member, per-month payment structure, NET Services normally experiences lower operating margins during the summer season and higher operating margins during the winter season. WD Services typically

does not experience seasonal fluctuations in operating results. However, volatility in revenue and earnings is common in the case of WD Services due to the timing of commencement and expiration of certain major contracts as well as fluctuations in referrals provided by its customers.

Our reported financial results could suffer if there is an impairment of long-lived assets.

Goodwill may be impaired if the estimated fair value of one or more of our reporting units is less than the carrying value of the respective reporting unit. As a result of our growth, in part through acquisitions, goodwill and other intangible assets represent a significant portion of our assets. We perform an analysis on our goodwill balances to test for impairment on an annual basis. Interim impairment tests may also be required in advance of our annual impairment test if events occur or circumstances change that would more likely than not reduce the fair value, including goodwill, of one or more of our reporting units below the reporting unit's carrying value. Such circumstances could include but are not limited to: (1) loss of significant contracts, (2) a significant adverse change in legal factors or in the climate of our business, (3) unanticipated competition, (4) an adverse action or assessment by a regulator or (5) a significant decline in our stock price. In the fourth quarter of 2016, we recorded asset impairment charges of $19.6 million related to WD Services and an asset impairment of $1.4 million for Corporate and Other related to the sale of a building, as discussed below in Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations - Critical Accounting Policies and Estimates". As of December 31, 2017, the carrying value of goodwill, intangibles and property and equipment, net is $121.7 million, $43.9 million and $50.4 million, respectively. In addition, property and equipment as of December 31, 2017 includes $13.4 million of construction and development in progress, primarily related to NET Services' LCAD NextGen technology system, as discussed above. We continue to monitor the carrying value of these long-lived assets. Any future impairment charges could have a material adverse impact on our results of operations and financial position.

Our use of a reinsurance program and insurance programs to cover certain claims for losses suffered and costs or expenses incurred could negatively impact our business.

We reinsured a substantial portion of our automobile, general liability, professional liability and workers' compensation insurance policies through May 15, 2017. Upon renewal of the policies, we made the decision to no longer reinsure these risks, although we continue to resolve claims under the historical policy years. Through February 15, 2011, one of our subsidiaries also insured certain general liability, automobile liability, and automobile physical damage coverage for independent third-party transportation providers. In the event that actual reinsured losses increase unexpectedly and substantially exceed actuarially determined estimated reinsured losses under the program, the aggregate of such losses could materially increase our liability and adversely affect our financial condition, liquidity, cash flows and results of operations.

In addition, under our current insurance policies, we are subject to deductibles, and thus retain exposure within these limits. In the event that actual losses within our deductible limits increase unexpectedly and substantially exceed our expected losses, the aggregate of such losses could materially increase our liability and adversely affect our financial condition, liquidity, cash flows and results of operations.

As the availability to us of certain traditional insurance coverage diminishes or increases in cost, we will continue to evaluate the levels and types of insurance coverage we include in our reinsurance and self-insurance programs, as well as the deductible limits within our traditional insurance programs. Any increase to these reinsurance and self-insurance programs or increases in deductible limits increases our risk exposure and therefore increases the risk of a possible material adverse effect on our financial condition, liquidity, cash flows and results of operations.

Inaccurate, misleading or negative media coverage could damage our reputation and harm our ability to maintain or procure contracts.

There is sometimes media coverage regarding services that we or our competitors provide or contracts that we or our competitors are a party to. Inaccurate, misleading or negative media coverage about us could harm our reputation and, accordingly, our ability to maintain our existing contracts or procure new contracts. In addition, negative media coverage could influence government officials to slow the pace of privatizing or retendering government services.

Regulatory Risks

Our U.S. Healthcare Segments conduct business in a heavily regulated healthcare industry. Compliance with existing Laws is costly, and changes in Laws or violations of Laws may result in increased costs or sanctions that could reduce our segments' revenue and profitability.

The U.S. healthcare industry is subject to extensive federal and state Laws relating to, among other things:

- professional licensure;
- conduct of operations;
- addition of facilities, equipment and services, including certificates of need;
- coding and billing related to our services; and
- payment for services.

Both federal and state government agencies have increased coordinated civil and criminal enforcement efforts related to the healthcare industry. Regulations related to the healthcare industry are extremely complex and, in many instances, the industry does not have the benefit of significant regulatory or judicial interpretation of those laws. The Patient Protection and Affordable Care Act, as well as the anticipated attempts to repeal all or portions of those laws by the President and Congress, has also introduced some degree of regulatory uncertainty as the industry does not know how the changes it introduced or changes to it will affect many aspects of the industry. Medicare and Medicaid anti-fraud and abuse laws prohibit certain business practices and relationships related to items and services reimbursable under Medicare, Medicaid and other governmental healthcare programs, including the payment or receipt of remuneration to induce or arrange for referral of patients or recommendation for the provision of items or services covered by Medicare or Medicaid or any other federal or state healthcare program. Federal and state Laws prohibit the submission of false or fraudulent claims, including claims to obtain reimbursement under Medicare and Medicaid. Our U.S. Healthcare Segments have implemented compliance policies to help assure their compliance with these regulations as they become effective; however, different interpretations or enforcement of these laws and regulations in the future could subject our practices to allegations of impropriety or illegality or could require such segments to make changes in their facilities, equipment, personnel, services or the manner in which they conduct our business.

Changes in budgetary priorities of the government entities that fund the services our segments provide could result in our segments' loss of contracts or a decrease in amounts payable to them under their contracts.

Our segments' revenue is largely derived from contracts that are directly or indirectly paid or funded by government agencies. All of these contracts are subject to legislative appropriations and state or national budget approval. The availability of funding under NET Services' contracts with state governments is dependent in part upon federal funding to states. Changes in Medicaid methodology may further reduce the availability of federal funds to states in which our U.S. Healthcare Segments provide services. The President of the United States and Congress have proposed various changes to the Medicaid program, including considering converting the Medicaid program to a block grant format or capping the federal contribution to state Medicaid programs to a fixed amount per beneficiary. The Centers for Medicare and Medicaid Services ("CMS") has the ability to grant waivers to states relative to the parameters of their Medicaid programs. Such changes, individually or in the aggregate could have a material adverse effect on our U.S. Healthcare Segments operations.

Among the alternative Medicaid funding approaches that states have explored are provider assessments as tools for leveraging increased Medicaid federal matching funds. Provider assessment plans generate additional federal matching funds to the states for Medicaid reimbursement purposes, and implementation of a provider assessment plan requires approval by CMS in order to qualify for federal matching funds. These plans usually take the form of a bed tax or a quality assessment fee, which were historically required to be imposed uniformly across classes of providers within the state, except that such taxes only applied to Medicaid health plans.

Changes to provider assessment opportunities, the Medicaid programs in states in which our U.S. Healthcare Segments operate or in the structure of the federal government's support for those programs can impact the amount of funds available in the programs our U.S. Healthcare Segments support. Such segments cannot make any assurances that these Medicaid changes will not negatively affect the funding under their contracts. As funding under U.S. Healthcare Segments' contracts is dependent in part upon federal funding, such funding changes could have a significant effect upon such segments' businesses.

Currently, many of the U.S. states and overseas countries in which our segments operate are facing budgetary shortfalls or changes in budgetary priorities. While many of these states are dealing with budgetary concerns by shifting costs from institutional care to home and community based care such as we provide, there is no assurance that this trend will continue.

Likewise, in many of the overseas countries addressed by WD Services, particularly the UK, a continued focus following the global financial crisis on austerity measures to reduce national and local budget deficits could lead to further spending cuts or changes to welfare arrangements. This may make availability of funding for outsourcing of such services more difficult to obtain from relevant government departments, which may lead to more challenging terms and conditions, including pressure on prices or volumes of services provided.

In the UK, the low unemployment rate has led to a change in the government prioritizing employability services, and a consequent reduction in scale of the Work and Health Programme, the successor program to the Work Programme. While we have the ability to alter a portion of our cost structure to reflect the decreasing volume of these contracts during their term, there may be significant redundancy costs and management time additionally invested to reflect these changes, particularly if programs are discontinued.

Consequently, a significant decline in government expenditures, shift of expenditures or funding away from programs that call for the types of services that we provide, or change in government contracting or funding policies could cause payers to terminate their contracts with our segments or reduce their expenditures under those contracts, either of which could have a negative impact on our segments' operating results.

Our segments are subject to regulations relating to privacy and security of patient and service user information. Failure to comply with privacy and security regulations could result in a material adverse impact on our segments' operating results.

There are numerous federal and state regulations addressing patient information privacy and security concerns. In particular, the federal regulations issued under HIPAA contain provisions that:

- protect individual privacy by limiting the uses and disclosures of patient information;
- require the implementation of security safeguards to ensure the confidentiality, integrity and availability of individually identifiable health information in electronic form; and
- prescribe specific transaction formats and data code sets for certain electronic healthcare transactions.
