

Chapter 95. School-Based Nursing Services

§9501. General Provisions

A. EPSDT school-based nursing services are provided by a registered nurse (RN) within a local education agency (LEA). The goal of these services is to prevent or mitigate disease, enhance care coordination, and reduce costs by preventing the need for tertiary care. Providing these services in the school increases access to health care for children and youth resulting in a more efficient and effective delivery of care.

B. RNs providing school-based nursing services are required to maintain an active RN license with the state of Louisiana and comply with the Louisiana Nurse Practice Act.

C. School-based nursing services shall be covered for all recipients in the school system and not limited to those with an individualized education program (IEP).

D. School boards and staff shall collaborate for all services with the Medicaid recipient's BAYOU HEALTH plan and shall ensure compliance with established protocols. In a fee-for-service situation, for the non-BAYOU HEALTH individuals, staff will make necessary referrals.

AUTHORITY NOTE: Promulgated in accordance with R.S. 36:254 and Title XIX of the Social Security Act.

HISTORICAL NOTE: Promulgated by the Department of Health and Hospitals, Bureau of Health Services Financing, LR 39:2760 (October 2013).

§9503. Covered Services

A. The following school-based nursing services shall be covered.

1. Episodic Care. This is unplanned care that occurs when children see the nurse for assessment of a health concern. Episodic care includes but is not limited to:

- a. nose bleeds;
- b. cuts;
- c. bruises; or
- d. flu symptoms.

2. Chronic Medical Condition Management and Care Coordination. This is care based on one of the following criteria.

a. The child has a chronic medical condition or disability requiring implementation of a health plan/protocol (examples would be children with asthma, diabetes, or cerebral palsy). There must be a written health care plan

based on a health assessment performed by the RN. The date of the completion of the plan and the name of the person completing the plan must be included in the written plan. Each health care service required and the schedule for its provision must be described in the plan.

b. Medication Administration. This service is scheduled as part of a health care plan developed by either the treating physician or the school district LEA. Administration of medication will be at the direction of the physician and within the license of the RN and must be approved within the district LEA policies.

c. Implementation of Physician's Orders. These services shall be provided as a result of receipt of a written plan of care from the child's physician/BAYOU HEALTH provider or an IEP/Health care plan for students with disabilities.

3. Immunization Assessments. These services are nursing assessments of health status (immunizations) required by the Office of Public Health. This service requires an RN to assess the vaccination status of children in these cohorts once each year. This assessment is limited to the following children:

- a. children enrolling in a school for the first time;
- b. pre-kindergarten children;
- c. kindergarten children; and
- d. children entering sixth grade; or
- e. any student 11 years of age regardless of grade.

4. EPSDT Program Periodicity Schedule for Screenings. A nurse employed by a school district may perform any of these screens within their licensure for BAYOU HEALTH members as authorized by the BAYOU HEALTH plan or as compliant with fee-for-service for non-BAYOU HEALTH individuals. The results of these screens must be made available to the BAYOU HEALTH provider as part of the care coordination plan of the district. The screens shall be performed according to the periodicity schedule including any inter-periodic screens.

AUTHORITY NOTE: Promulgated in accordance with R.S. 36:254 and Title XIX of the Social Security Act.

HISTORICAL NOTE: Promulgated by the Department of Health and Hospitals, Bureau of Health Services Financing, LR 39:2760 (October 2013).
