(LAC 50:V.115)**

The Department of Health, Bureau of Health Services Financing adopts LAC 50:V.115 in the Medical Assistance Program as authorized by R.S. 36:254 and pursuant to Title XIX of the Social Security Act. This Emergency Rule is promulgated in accordance with the provisions of the Administrative Procedure Act, R.S. 49:953(B) (1) et seq., and shall be in effect for the maximum period allowed under the Act or until adoption of the final Rule, whichever occurs first.

The Department of Health, Bureau of Health Services Financing provides reimbursement through the Medical Assistance Program to the Office of Public Health (OPH) for laboratory services rendered in an acute care inpatient hospital setting in compliance with the requirements of Act 840 of the 1997 Regular Session of the Louisiana Legislature.

The department now proposes to amend the provisions governing inpatient hospital services in order to establish Medicaid reimbursement to OPH for newborn screenings provided in an acute care inpatient hospital setting, and to ensure that these provisions are promulgated in a clear and concise manner in the *Louisiana Administrative Code*. This action is being taken

to promote the health and welfare of Medicaid recipients by ensuring continued access to inpatient hospital services. It is estimated that implementation of this Emergency Rule will have no programmatic costs to the Medicaid Program for fiscal year 2017-2018.

Effective August 5, 2017, the Department of Health, Bureau of Health Services Financing amends the provisions governing inpatient hospital services to establish reimbursement to OPH for newborn screenings provided in an acute care inpatient hospital setting.
