Re: **Justification of Promulgation of Emergency Rule**
 LAC 48:I.9781 – Nursing Facilities – Virtual Visitation

MEMORANDUM

The Louisiana Department of Health finds it necessary to re-declare by emergency procedure rules pertaining to the licensing standards for nursing facilities to prevent imminent peril to the public health, safety, or welfare of nursing home residents whose health and safety is threatened by abuse and neglect. Effective January 1, 2019, all nursing home residents within the State of Louisiana are afforded the right to have a monitoring device placed in their room so that family caregivers may remain connected and be a part of the resident's care team. The legislation directs the Department of Health to adopt emergency rules in order to provide for the conditions for consent relative to the installation and use of monitoring devices. Pursuant to the legislation, the Department of Health, in

November 2018 adopted rules via the emergency rulemaking procedure to provide for the conditions that must be present for a nursing home resident to be able to consent to the placement of a monitoring device. The Department of Health finds it necessary to re-declare an emergency in order to prevent the rules governing consent to placement of a monitoring device from expiring before the final rule is adopted.
