Services must be performed by qualified providers as set forth in this State Plan Amendment and who provide these services as part of their respective area of practice (e.g., psychologist providing a behavioral health evaluation). Certified school psychologists must be supervised consistent with RS 17:7.1.

Children who are in need of behavioral health services shall be served within the context of the family and not as an isolated unit.

1. Services shall be:
  - a. delivered in a culturally and linguistically competent manner; and
  - b. respectful of the individual receiving services.
2. Services shall be appropriate for children and youth of diverse racial, ethnic, religious, sexual, and gender identities and other cultural and linguistic groups.
3. Services shall also be appropriate for:

  - c. education.

Evidence-based practices require prior approval and fidelity reviews on an ongoing basis as determined necessary by the department.

Service Limitations: Services provided in a school setting will only be reimbursed for recipients who are at least three years of age and under 21 years of age who have been determined eligible for Title XIX and the Individuals with Disabilities Education Act (IDEA), Part B services with a written service plan (an IEP) which contains medically necessary services recommended by a physician or other licensed practitioner, within the scope of his or her practice under state law. Medicaid covers §1905(a) medical services addressed in the IEP that are medically necessary that correct or ameliorate a child's health condition. Medicaid does not reimburse for social or educational needs or habilitative services.

**Behavioral Health Services Provided by Local Education Agencies**

Medicaid services provided in schools are services that are medically necessary and provided in schools to Medicaid recipients in accordance with an Individualized Education Program, (IEP). Covered services include the following:

1. Other Licensed Practitioner Behavioral Health Services (described in Attachment 3.1-A, Item 4b)
2. Rehabilitation Behavioral Health Services (includes Addiction Services as described in Attachment 3.1-A, Item 13.d)

The interim payment to the local education agencies (LEAs) for services listed above are based on the behavioral health fee schedule methodology as outlined in the Louisiana Medicaid Fee Schedule.

Summary of Payment Methodology

Final payment to each LEA is the lesser of: 1) number of units billed multiplied by \$100 (to be adjusted by DHH periodically per the Agency's fee schedule rate set as of March 1, 2012 and effective for services provided on or after that date. All rates are published on the Agency's website at [www.lamedicaid.com](http://www.lamedicaid.com)) or 2) the most recent school year's actual cost as determined by desk review and/or audit for each LEA provider.

Each LEA shall determine its own costs and certify to those costs annually by using DHH's Cost Report for Direct Service Cost template (the Direct Service Cost Report) form as approved by the Centers for Medicare and Medicaid Services (CMS) in November, 2005. Direct cost is limited to the amount of total compensation (salaries and fringe benefits) of current direct service providers as allocated to direct services for Medicaid special education recipients. The basis of allocation for direct compensation cost is DHH's Direct Services Time Study Methodology approved by CMS November 2005. This time study incorporates the CMS-approved Medicaid Administrative Claiming (MAC) methodology for direct service personnel and is used to determine the percentage of time direct service personnel spend on direct IDEA/IEP services and General and Administrative (G&A) time. There are no additional direct costs included in the rate. Indirect cost is derived by multiplying the cognizant agency indirect cost unrestricted rate assigned by the Department of Education to each LEA. There are no additional indirect costs included. The Direct Service Cost Report initially provides the total cost of all school-based services provided, regardless of payer. To determine the amount of direct services cost that may be attributed to Medicaid, the ratio of Medicaid covered students with IEPs to all students with IEPs is multiplied by total direct cost. Cost data is subject to certification by each parish. This serves as the basis for obtaining Federal Medicaid funding.

For each of the IDEA-related school based services other than specialized transportation services, the participating LEA's actual cost of providing the services will be claimed for Medicaid reimbursement. The State will gather actual expenditure information for each LEA through its payroll/benefits and accounts payable system. These costs are also reflected in the annual financial report (AFR) that all LEAs are required to certify and submit to the Department of Education. All costs included in the amount of cost to be certified and used subsequently to determine reconciliation and final settlement amounts as well as interim rates are identified on the CMS-approved Direct Services Cost Report and are allowed in the Office of Management and Budget (OMB) Circular A-87. The State also will use other LEA-specific information including the general fund budget and full-time equivalent (FTE) counts.

METHODS AND STANDARDS FOR ESTABLISHING PAYMENT RATES – OTHER TYPES OF CARE OR SERVICE LISTED IN SECTION 1902(A) OF THE ACT THAT IS INCLUDED IN THE PROGRAM UNDER THE PLAN ARE DESCRIBED AS FOLLOWS:

Step 1: Develop Direct Cost-The Payroll Cost Base

Total annual salaries and benefits paid as well as contracted (vendor) payments are obtained initially from each LEA's payroll/benefits and accounts payable system. This data will be reported on DHH's Direct Services Cost Report form for all direct service personnel (i.e., all personnel providing LEA direct treatment services covered under the State Plan).

Step 2: Adjust the Payroll Cost Base

The payroll cost base is reduced for amounts reimbursed by other funding sources (e.g. Federal grants). The payroll cost base does not include any amounts for staff whose compensation is 100 percent reimbursed by a funding source other than state/local funds. The application of Step 2 results in total adjusted salary cost.

Step 3: Determine the Percentage of Time to Provide All Direct Services

A time study which incorporates the CMS-approved Medicaid Administrative Claiming (MAC) methodology for direct service personnel is used to determine the percentage of time direct service personnel spend on direct IDEA/IEP services and general and administrative (G&A) time. This time study will assure that there is no duplicate claiming. The G&A percentage is reallocated in a manner consistent with the CMS-approved MAC methodology. Total G&A time is allocated to all other activity codes based on the percentage of time spent on each respective activity.

To reallocate G&A time to direct IDEA/IEP services, the percentage of time spent on direct IDEA/IEP services is divided by 100 percent, minus the percentage of time spent on G&A. This will result in a percentage that represents the IDEA/IEP services with appropriate allocation of G&A. This percentage is multiplied by total adjusted salary cost as determined in Step 2 to allocate cost to school-based services. The product represents total direct cost. A sufficient number of direct service personnel will be sampled to ensure results that will have a confidence level of at least 95 percent with a precision of plus or minus five percent overall.

Step 4: Determine Indirect Cost

Indirect cost is determined by multiplying each LEA's indirect unrestricted rate assigned by the cognizant agency (the Department of Education) by total adjusted direct cost as determined under Step 3. No additional indirect cost is recognized outside of the cognizant agency indirect rate. The sum of direct cost and indirect cost is total direct service costs for all students with an IEP.

METHODS AND STANDARDS FOR ESTABLISHING PAYMENT RATES – OTHER TYPES OF CARE OR SERVICE LISTED IN SECTION 1902(A) OF THE ACT THAT IS INCLUDED IN THE PROGRAM UNDER THE PLAN ARE DESCRIBED AS FOLLOWS:

Step 5: Allocate Direct Service Cost to Medicaid

To determine the amount of cost that may be attributed to Medicaid, total cost as determined under Step 4 is multiplied by the ratio of Medicaid recipients with an IEP to all students with an IEP. This results in total cost that may be certified as Medicaid's portion of school-based services cost.

Step 6: Compare the amount of behavioral health services authorized and billed through the interim process to the cost of the services

Final payment to each LEA is the lesser of: 1) number of units billed multiplied by \$100 (to be adjusted by DHH periodically per the Agency's fee schedule rate set as of March 1, 2012, and effective for services provided on or after that date. All rates are published on the Agency's website at [www.lamedicaid.com](http://www.lamedicaid.com)) or 2) the most recent school year's actual cost as determined by desk review and/or audit for each LEA provider.

Each LEA will complete the Direct Services and Transportation Cost Reports as applicable and submit the cost report(s) no later than five months after the June 30 fiscal year period ends and reconciliation will be completed within 12 months from the fiscal year end. If a provider's interim payments exceed the actual, certified costs for behavioral health Medicaid services provided in schools to Medicaid clients, the provider will remit the federal share of the overpayment at the time the cost report is submitted.

The Bureau of Health Services Financing (BHSF) will submit the federal share of the overpayment to CMS within 60 days of identification. If the actual, certified costs of a LEA provider exceed the interim payments, BHSF will pay the federal share of the difference of the lesser of 1) number of units billed multiplied by \$100 (to be adjusted by DHH periodically per the Agency's fee schedule rate set as of March 1, 2012, and effective for services provided on or after that date. All rates are published on the Agency's website at [www.lamedicaid.com](http://www.lamedicaid.com)) or 2) the most recent school year's actual cost as determined by desk review and/or audit for each LEA provider, to the provider in accordance with the final actual certification agreement and submit claims to CMS for reimbursement of that payment in the federal fiscal quarter following payment to the provider.

The interim payment to the local education agencies (LEAs) for services listed above are based on the behavioral health fee schedule methodology as outlined in the Louisiana Medicaid Fee Schedule.

Summary of Payment Methodology

Each LEA shall determine cost annually by using DHH's Cost Report for Direct Service Cost (the Direct Service Cost Report) form as approved by CMS in November, 2005. Direct cost is limited to the amount of total compensation (salaries and fringe benefits) of current direct service providers as allocated to direct services for Medicaid special education recipients. The basis of allocation for direct compensation cost is DHH's Direct Services Time Study Methodology approved by the Centers for Medicare and Medicaid Services (CMS) in November, 2005. METHODS AND STANDARDS FOR ESTABLISHING PAYMENT RATES – OTHER TYPES OF CARE OR SERVICE LISTED IN SECTION 1902(A) OF THE ACT THAT IS INCLUDED IN THE PROGRAM UNDER THE PLAN ARE DESCRIBED AS FOLLOWS:

Step 1: Develop Direct Cost-The Payroll Cost Base

Total annual salaries and benefits paid as well as contracted (vendor) payments are obtained initially from each LEA's payroll/benefits and accounts payable system. This data will be reported on DHH's Direct Services Cost Report form for all direct service personnel (i.e. all personnel providing LEA direct treatment services covered under the State Plan).

Step 2: Adjust the Payroll Cost Base

The payroll cost base is reduced for amounts reimbursed by other funding sources (e.g. Federal grants). The payroll cost base does not include any amounts for staff whose compensation is 100 percent reimbursed by a funding source other than state/local funds. The application of Step 2 results in total adjusted salary cost.

Step 3: Determine the Percentage of Time to Provide All Direct Services

A time study which incorporates the CMS-approved Medicaid Administrative Claiming (MAC) methodology for direct service personnel is used to determine the percentage of time direct service personnel spend on direct IDEA/IEP services and general and administrative (G&A) time. This time study will assure that there is no duplicate claiming. The G&A percentage is reallocated in a manner consistent with the CMS-approved MAC methodology. Total G&A time is allocated to all other activity codes based on the percentage of time spent on each respective activity.

To reallocate G&A time to direct IDEA/IEP services, the percentage of time spent on direct IDEA/IEP services is divided by 100 percent minus the percentage of time spent on G&A. This will result in a percentage that represents the IDEA/IEP services with appropriate allocation of G&A. This percentage is multiplied by total adjusted salary cost as determined in Step 2 to allocate cost to school based services. The product represents total direct cost. A sufficient number of direct service personnel will be sampled to ensure results that will have a confidence level of at least 95 percent with a precision of plus or minus five percent overall.

Step 4: Determine Indirect Cost

Indirect cost is determined by multiplying each LEA's indirect unrestricted rate assigned by the cognizant agency (the Department of Education) by total adjusted direct cost as determined under Step 3. No additional indirect cost is recognized outside of the cognizant agency indirect rate. The sum of direct cost and indirect cost is total direct service costs for all students with an IEP.
