FISCAL AND ECONOMIC IMPACT STATEMENT FOR ADMINISTRATIVE RULES RULE TITLE: Managed Care for Physical and Behavioral Health—Applied Behavior Analysis-Based Therapy Services Integration

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)

It is anticipated that the implementation of this proposed rule will result in estimated state programmatic cost of approximately \$543,270 for FY 17-18, \$5,052,848 for FY 18-19 and \$6,914,957 FY 19-20. It is anticipated that \$540 (\$270 SGF and \$270 FED) will be expended in FY 17-18 for the state's administrative expense for promulgation of this proposed rule and the final rule. The numbers reflected above are based on a blended Federal Medical Assistance Percentage (FMAP) rate of 63.34 percent in FY 17-18, and 64.23 in FY 18-19 and FY 19-20.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)

It is anticipated that the implementation of this proposed rule will increase federal revenue collections by approximately \$938,178 for FY 17-18, \$9,073,091 for FY 18-19 and \$12,416,764 for FY 19-20. It is anticipated that the implementation of this proposed rule will increase premium tax revenue collections, which are classified as statutory dedications, by approximately \$0 for FY 17-18, \$4,249,262 for FY 18-19 and \$6,937,794 for FY 19-20. Note that by FY 19-20, premium tax collections will offset the increased state general fund required as a result of this rule change. It is anticipated that \$270 will be expended in FY 17-18 for the federal administrative expenses for promulgation of this proposed rule and the final rule. The numbers reflected above are based on a blended Federal Medical Assistance Percentage (FMAP) rate of 63.34 percent in FY 17-18, and 64.23 in FY 18-19 and FY 19-20.

III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS OR NONGOVERNMENTAL GROUPS (Summary)

This proposed Rule amends the provisions governing managed care for physical and behavioral health in order to include applied behavior analysis (ABA)-based therapy as a covered service the managed care organizations (MCOs) that participate in the Healthy Louisiana Program are required to provide. This proposed Rule may be beneficial to recipients as it will allow access to ABA services through the MCOs. There is no anticipated impact to providers. It is anticipated that implementation of this proposed rule will increase Medicaid programmatic expenditures for managed care services by approximately \$1,481,178 for FY 17-18, \$14,125,939 for FY 18-19 and \$19,331,721 for FY 19-20 due to the addition of the managed care administrative load that includes premium tax, profit and administrative expenses. Though interminable at this time, it is also anticipated that the MCOs will be able to curb growth in this program resulting in lower expenditures than if the services remained in the fee-for-service model.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT
(Summary)

It is anticipated that the implementation of this proposed rule will not have an effect on competition.

(LAC 50:IX.15110 and 15113)

The Department of Health, Bureau of Health Services Financing proposes to adopt LAC 50:IX.15110, and to amend §15113, in the Medical Assistance Program as authorized by R.S. 36:254 and pursuant to Title XIX of the Social Security Act. This proposed Rule is promulgated in accordance with the provisions of the Administrative Procedure Act, R.S. 49:950 et seq.

The Department of Health, Bureau of Health Services Financing provides reimbursement under the Medicaid State Plan to physicians and other professional services practitioners for services rendered to Medicaid covered recipients.

The department now proposes to amend the provisions governing the Professional Services Program in order to revise the reimbursement methodology governing services rendered by physicians and other professional services practitioners employed by, or under contract to provide services in affiliation with, a state-owned or operated entity in order to enhance the reimbursement rates.

Subpart 15. Reimbursement

Chapter 151. Reimbursement Methodology

Subchapter A. General Provisions

§15110. State-Owned or Operated Professional Services Practices

A. Qualifying Criteria. Effective for dates of service on or after February 1, 2018, in order to qualify to receive enhanced rate payments for services rendered to Medicaid recipients under these provisions, physicians and other eligible professional service practitioners must be:

1. licensed by the state of Louisiana;
2. enrolled as a Louisiana Medicaid provider; and
3. employed by, or under contract to provide services in affiliation with, a state-owned or operated entity, such as a state-operated hospital or other state entity, including a state academic health system, which:

a. has been designated by the department as an essential provider. Essential providers include:

- i. LSU School of Medicine—New Orleans;
- ii. LSU School of Medicine—Shreveport; and
- iii. LSU state-operated hospitals (Lallie Kemp Regional Medical Center and Villa Feliciana Geriatric Hospital).

B. State-owned or operating entities shall identify to the department which professional service practitioners/groups qualify for the enhanced rate payments.

C. Payment Methodology

1. Effective for dates of service on or after February 1, 2018, payments shall be made at the community rate level for services rendered by physicians and other eligible professional service practitioners who qualify under the provisions of §15110.A.

a. *Community Rate Level*—the rates paid by commercial payers for the same service.

b. The provider's average commercial rate (ACR) demonstration will be updated at least every three years.

c. Enhanced rates are based on average commercial rates effective during the state fiscal year preceding the fiscal year in which the ACR is calculated for each service designated by a current procedural terminology (CPT) code recognized by the Medicaid program as a covered service.

2. For services rendered by physicians and other professional services practitioners, in affiliation with a state-owned or operated entity, the department will collect from the state owned or operated entity its current commercial rates/fee schedules by CPT code for their top three commercial payers by volume.

3. The department will calculate the average commercial rate for each CPT code for each professional services practice that provides services in affiliation with a state-owned or operated entity.

4. The department will extract from its paid claims history file, for the preceding fiscal year, all paid claims for those physicians and professional practitioners who will qualify for the enhanced reimbursement rates. The department will align the average commercial rate for each CPT code to each Medicaid claim for the physician or professional services practitioner/practice plan and calculate the average commercial payments for the claims.

5. The department will also align the same paid Medicaid claims with the Medicare rates for each CPT code for the physician or professional services practitioner and calculate the Medicare payment amounts for those claims. The Medicare rates will be the most currently available national non-facility rates.

6. The department will calculate an overall Medicare to commercial conversion factor by dividing the total amount of the average commercial payments for the claims by the total Medicare payments for the claims.

7. This conversion factor will be applied to the current Medicare rates for all procedure codes payable for Medicaid to create the enhanced reimbursement rate.

D. Payment to physician-employed physician assistants and registered nurse practitioners shall be 80 percent of the maximum allowable rate paid to physicians.

AUTHORITY NOTE: Promulgated in accordance with R.S. 36:254 and Title XIX of the Social Security Act.

N. Effective for dates of service on or after February 1, 2018, physicians, who qualify under the provisions of §15110 for services rendered in affiliation with a state-owned or operated entity that has been designated as an

essential provider, shall receive enhanced reimbursement rates up to the community rate level for qualifying services as determined in §15110.C.
