STATE OF LOUISIANA

PAYMENTS FOR MEDICAL AND REMEDIAL CARE AND SERVICES

METHODS AND STANDARDS FOR ESTABLISHING PAYMENT RATES -- OTHER TYPES OF CARE OR SERVICES LISTED IN SECTION 1905(A) OF THE ACT THAT IS INCLUDED IN THE PROGRAM UNDER THE PLAN ARE DESCRIBED AS FOLLOWS:

The baseline calculation will include all Medicaid coverable services provided by the FQHC regardless of existing methods of reimbursement for services. This includes, but is not limited to the following services previously reimbursed on a fee-for-service or other non-encounter basis:

1. ambulatory;
2. transportation;
3. laboratory (where applicable); and
4. dental

The per-visit rate will be all-inclusive. FQHCs will not be eligible to bill separately for any Medicaid covered services. FQHCs are responsible for maintaining licensure/accreditation/program participation standards for all such services. In the event an FQHC does not currently participate in any such program, but wishes to begin participation, the FQHC will be responsible for meeting all enrollment criteria of the program.

For the purpose of the calculation methodology, "fiscal year" is defined as the state fiscal year (SFY) for the FQHC. FQHCs must submit a cost report when there is an increase or decrease in their scope of services.

FQHCs are responsible for apportioning patient visits and statistical data in their 2001 cost report from the first day of the SFY 2001 cost reporting period July 1, 2000 through December 31, 2000. This data will be used to calculate cost settlements due to/from providers for the final cost-based reimbursement period in calendar year 2000. **Note:** Providers with a December 31 fiscal year end, do not have to conduct this apportionment.

Upon completion and implementation of the Prospective Payment System (PPS) rate determination, the State will reconcile payments back to January 1, 2001. This will be accomplished by calculating a payment amount for eligible patient visits under the PPS and comparing it to payments made for encounters under the existing cost-based reimbursement methodology.

METHODS AND STANDARDS FOR ESTABLISHING PAYMENT RATES -- OTHER TYPES OF CARE OR SERVICES LISTED IN SECTION 1905(A) OF THE ACT THAT IS INCLUDED IN THE PROGRAM UNDER THE PLAN ARE DESCRIBED AS FOLLOWS:

Cost Reports

In accordance with 1902(bb)(3)(B), the PPS rate may be adjusted due to a change in the scope of service for FQHCs. The modified rate, as a result of a change in scope of service, would be trended forward by the Medicare Economic Index (MEI) each year. A change in scope of service occurs when there is a change in the “type, intensity, duration and/or amount of services.”

Providers must submit change in scope of service requests to the State for review.
