

STATE OF LOUISIANA

AMOUNT, DURATION, AND SCOPE OF MEDICAL AND REMEDIAL CARE AND SERVICES PROVIDED
LIMITATIONS ON THE AMOUNT, DURATION, AND SCOPE OF CERTAIN ITEMS OF PROVIDED
MEDICAL AND REMEDIAL CARE AND SERVICES DESCRIBED AS FOLLOWS:

6. Peer Support Services

Peer support services (PSS) are an evidence-based behavioral health service that consists of a qualified peer support provider, who assists members with their recovery from mental illness and/or substance use. PSS are behavioral health rehabilitative services to reduce the disabling effects of an illness or disability and restore the beneficiary to the best possible functional level in the community. PSS are ~~person-centered and recovery focused~~ coordinated as part of a person-centered, goal-oriented treatment plan. PSS are face-to-face interventions with the member. Most contacts occur in community locations where the member lives, works, attends school and/or socializes.

Provider Qualifications

Peer support services must be provided under the administrative oversight of licensed and accredited local governing entities (LGEs) or certified Permanent Supportive Housing (PSH) agencies. LGEs and PSH agencies must meet state and federal requirements for providing PSS.

An individual providing Peer Support Services must successfully complete an OBH-approved peer training program prior to providing peer support services. Training provides the Peer Support Specialist with a basic set of competencies necessary to perform the peer support function. The Peer Support Specialist must also complete a minimum of ten (10) Continuing Education Units (CEU) per calendar year.

Credentialed Peer Support Specialists (CPSS) must have lived experience with a mental illness and/or substance use challenge or condition and must be at least 21 years of age. A CPSS must have at least twelve (12) months of continuous recovery, which is demonstrated by a lifestyle and decisions supporting an individual's overall wellness and recovery. CPSS must receive regularly scheduled clinical supervision from a Peer Supervisor. The Peer Supervisor must be either a Licensed Mental Health Professional (LMHP) or be supervised by an LMHP. LMHP-s Peer Supervisors must have the practice-specific education, experience, training, and credentials, and licensure to coordinate an array of behavioral health services, and shall complete the required OBH-approved Peer Supervisor Training.

7. Crisis Stabilization

Crisis Stabilization (CS) is a short-term bed-based crisis treatment and support service for members who have received a lower level of crisis services and are at risk of hospitalization or institutionalization, including nursing home placement.

CS is utilized when additional crisis supports are necessary to stabilize the crisis and ensure community tenure in instances in which more intensive inpatient psychiatric care is not warranted or when the member's needs are better met at this level.
