Treatment of Opioid Use Disorder in Opioid Treatment Programs

Citation

42 CFR 440.130(d)

~~Effective January 20, 2020, the~~ [The Medicaid program](#) provides coverage for medically necessary medication-assisted treatment (MAT) delivered in opioid treatment programs, including but not limited to, methadone treatment, to all Medicaid-eligible adults and children with opioid use disorder (OUD).

Covered Services

The following services provided by opioid treatment programs shall be reimbursed under the Medicaid program:

- A. The administration and dispensing of medications; and
- B. Treatment phases 1 through 4:
 - 1. Initial treatment phase lasts from three to seven days. During this phase, the provider conducts orientation, provides individual counseling and develops the initial treatment plan for treatment of critical health or social issues.
 - 2. Early stabilization begins on the third to seventh day following initial treatment through 90 days in duration, whereas the provider:
 - a. Conducts weekly monitoring of the recipient's response to medication;
 - b. Provides at least four individual counseling sessions;
 - c. Revises the treatment plan within 30 days to include input by all disciplines, the recipient and significant others; and
 - d. Conducts random monthly drug screen tests.
 - 3. Maintenance treatment follows the end of early stabilization and lasts for an indefinite period of time. The provider shall:
 - a. Perform random monthly drug screen tests until the client has negative drug screen tests for 90 consecutive days as well as random testing for alcohol when indicated;
