CITATION

REIMBURSEMENT METHODOLOGY

Case management services for the Infant and Toddler program (EarlySteps) shall be prior authorized. The standard unit of service covers both service provision and overhead costs. Contacts are on a one-to-one basis between a case manager and a participant or between a case manager and others when this contact is for the benefit of the participant.

Reimbursement for Targeted Case Management is based on cost using an independent cost model approach to rate setting. In this approach, a model of the costs providers incur in delivering a particular service is constructed. In constructing the models, the primary cost drivers include the following:

1. Direct service staff wages;
2. Direct service staff employee related expenses (ERE);
3. The productivity of direct service staff, i.e. the amount of a direct service staff's time in each workday that can be billed;
4. Supervisory costs;
5. Key Staff costs;
6. Travel and office space costs;
7. Program support costs; and
8. Overhead expenses.

Case management agencies shall provide annual cost reports based on the state fiscal year, July 1 through June 30. Completed reports are due within 90 calendar days after the end of each state fiscal year or by September 28 of each calendar year.

Payments made to targeted case management providers do not duplicate payments for the same or similar services furnished by other providers or under other authority as an administrative function or as an integral part of a covered service.

Reimbursement is not available for case management services that are furnished to beneficiaries without charge by any other agency or entity. With the statutory exceptions of case management services included in Individualized Educational Programs (IEPs) or Individualized Family Service Plans (IFSPs) and services furnished through Title V public health agencies, payment for case management services cannot be made when another third party payor is liable, nor may payments be made for services for which no payment liability is incurred by the beneficiary.
