

Medicaid Monthly Report
March 2017

Enclosed is a copy of our SFY 2016/17 Medicaid Financial Report for the month of March 2017.

The attached report shows the Louisiana Department of Health and the Medicaid program continue to project a surplus for the fiscal year. As of March 31, 2017, the anticipated **surplus is \$22.4 million in State General Funds**. This is up from the projected State General Fund surplus of \$17.65 million that LDH reported a month ago. (See Page 3, Table 3, *Grand Total*.)

Other key points in this March Report include:

- \$17.65 million of the surplus will be used by LDH to address the current mid-year deficit.
- LDH's total spending (both federal and state funding) is expected to be \$275.38 million more than budgeted. (See Page 1, Table 2, *Total Program*)
- This increase is all additional federal funds that support the expanded Medicaid program that today covers more than 416,000 newly eligible adults.

Expansion Population

- The current month forecast includes \$382.5 million more in payments to our managed care organizations for the expansion population than originally estimated. (See Page 2, Table 3, *Managed Care – Expansion*)
- Almost all, 97 percent, of this shortfall will be funded with federal dollars, and LDH must get the necessary spending authority from the Legislature.
- Based on current enrollment trends, the agency now estimates total expansion enrollment of more than 444,800 in FY17. This estimate is down slightly from last month's enrollment projection. (See Table 6)

Medicaid Expansion At-A-Glance

LDH updates the following statistics at least every two weeks, and can be found online at <http://ldh.la.gov/healthyladashboard/>.

- As of March 31, 2017 **416,000** newly eligible adults have enrolled in Medicaid Expansion.
- More than **77,700** of these new members have received preventive care visits with a provider.
- More than **6,200** women have completed a breast cancer screening such as a mammogram, MRI or ultrasound.
- More than **7,500** adults have had a colonoscopy; and almost **2,200** patients had precancerous polyps removed.
- Treatment has begun for almost **1,800** adults newly diagnosed with diabetes.
- More than **4,500** patients have been newly diagnosed with hypertension.
