

WHEN YOU CAN'T BE THERE – SEND ACADIAN HEALTH, YOUR PARTNER FOR AT-HOME CARE.

Acadian Health is proud to partner with Louisiana Department of Health and Aetna Better Health Louisiana, AmeriHealth Caritas of Louisiana, Healthy Blue, Humana Healthy Horizons in Louisiana, Louisiana Healthcare Connections, and United Healthcare Community Plan to treat **Medicaid patients 13 years of age and older.**

Acadian Health, a division of Acadian Companies, was founded to deliver on the last mile of healthcare by serving as an extension of your practice into your patients' homes, offering the highest quality of at-home healthcare. With five decades of mobile healthcare experience through our ambulance division, the Acadian Health mobile community healthcare team members arrive at a patient's location with the knowledge, skill, and equipment to act as our partners' eyes, ears, and hands.

WHY CHOOSE ACADIAN

Enhance your existing healthcare services with our mobile resources, bringing trained personnel direct to the patient – wherever they are. Working with Acadian Health eliminates or reduces:

- Expensive ambulance rides
- Time consuming and costly ER visits
- Unnecessary and expensive hospital stays
- Patient leakage
- Total cost of care

WHAT WE DO

Acadian Health's mobile community healthcare team offers quality at-home healthcare services for Clinical Partners looking to drive down medical care costs while ensuring that patients receive the proper treatment at the best location.

ACUTE CARE@HOME

(ER Alternative)

Provider-referred alternative care for non-traumatic hospitalizations for 'sick but stable' patients who would typically be transported by ambulance to an ER. Since its beginning, our at-home care has proven to save an average of \$1,000 per visit.

CLINIC@HOME

(Clinic Extension)

Hands-on visits for providers to extend their specialty practice into patients' homes, offering support 7 days a week from 8 a.m. – 10 p.m. Includes follow-up care and education for recently discharged and high-risk patients.

HOW IT WORKS

Working with Acadian Health provides greater opportunity to engage members or patients in the convenient and lower cost home setting.

- 1 Like an EASY button for providers: overcome transportation and mobility issues by simply pre-scheduling or requesting an on-demand At-Home Health visit.
- 2 Our trained personnel arrive fully stocked with medical kits for advanced diagnostics.
- 3 We act as your eyes, ears, and hands and coordinate with the patient's provider to support a wellness / specialist visit or address complex conditions.
- 4 Results are shared through our provider portal where encounter records can be easily viewed, downloaded, and uploaded to your system.
- 5 Virtual Visits and easy access to our records helps providers capture encounter details, conduct Health Risk Assessments, fill in gaps in care to support HEDIS/NCQA requirements, and improve patient satisfaction scores.

OUR METHOD

Acadian Health is guided by population health and total cost of care strategies, the IHI Triple Aim, and by Coleman's Four Pillars method for post-discharge patient care and disease management.

Teach medication self-management

Teach a patient about their condition and use of personal health record

Provide knowledge of warning symptoms and how to respond

Have a patient set up follow-up care with their doctor

WORK WITH US!

Visit **AcadianHealth.com** to learn more about our services and programs.

We're excited to get to work for you, driving patient-centered healthcare home. To schedule a call and get the conversation started, contact:
