

Ensuring residents feel connected—both to their loved ones and to their interests—has never been easier. Put the power of connection into their hands with senior-friendly iN2L tablets.

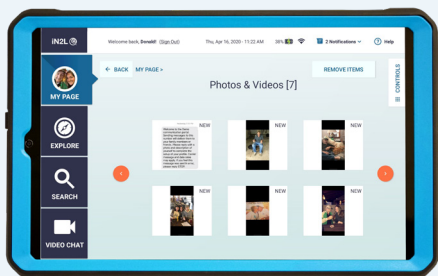

Video Chat

Easily initiate a video chat* to bring residents and their families together, despite physical distancing. Simple and convenient, our senior-friendly video chat is easy to use and saves staff time.

Engagement Apps

Each tablet is preloaded with expertly designed and curated content, including over 1,000 games, puzzles, movies, audiobooks, and more. There are endless opportunities for residents to learn, have fun, relax, and connect to areas of interest.

Family Connection

Residents can experience special moments and stay connected with personal photos, videos, and messages sent by family members and friends.

Telehealth

Offer residents an easy, safe, and convenient way to keep scheduled healthcare provider appointments with telehealth video consultations during COVID-19.

More Connection for Residents, Less Effort for Staff

- Customized and ongoing **training and tech support** that you won't get from off-the-shelf tablets
- **Tablet location tracking** in case tablets are misplaced or lost
- Invaluable **device usage data** to support project ROI
