Subchapter B. Determination of Bed, Unit, Facility or Agency Need

§12524. Outpatient Abortion Facilities

A. No outpatient abortion facility shall be licensed to operate unless the FNR Program has granted an approval for the issuance of an outpatient abortion facility license. Once the FNR Program approval is granted, an outpatient abortion facility is eligible to be licensed by the department, subject to meeting all of the requirements for licensure.

B. The service area for proposed or existing outpatient abortion facilities is the DHH region where the facility is or will be licensed.

C. Determination of Need/Approval

1. The department will review the application to determine if there is a need for an additional outpatient abortion facility in the DHH region.

2. The department shall grant FNR approval only if the FNR application, the data contained in the application and other evidence effectively establishes the probability of serious, adverse consequences to individuals' ability to access outpatient abortion facility services if the facility is not allowed to be licensed.

3. In reviewing the application, the department may consider, but is not limited to, evidence showing:

- a. the number of other licensed outpatient abortion facilities in the DHH Region; and
- b. individuals' inability to access outpatient abortion clinic services.

4. The burden is on the applicant to provide data and evidence to effectively establish the probability of serious, adverse consequences to individuals' ability to access outpatient abortion clinic services if the facility is not allowed to be licensed. The department shall not grant any FNR approvals if the applicant fails to provide such data and evidence.

D. Applications for approvals of outpatient abortion facilities submitted under these provisions are bound to the description in the application with regard to the type of services proposed as well as to the site and location as defined in the application. FNR approval of facilities shall expire if these aspects of the application are altered or changed.

E. FNR approvals for outpatient abortion facilities are non-transferrable and are limited to the location and the name of the original licensee.

1. An outpatient abortion facility undergoing a change of location within the same DHH region in which it is licensed shall submit a written attestation of the change of location and the department shall re-issue the FNR approval with the name and new location. An outpatient abortion facility undergoing a change of location outside of the DHH Region in which it is currently licensed shall submit a new FNR application and fee and undergo the FNR approval process.

2. An outpatient abortion facility undergoing a change of ownership shall submit a new FNR application to the department's FNR Program. FNR approval for the new owner shall be granted upon submission of the new application and proof of the change of ownership, which must show the seller's or transferor's intent to relinquish the FNR approval.

3. FNR approval of a licensed provider shall automatically expire if the provider is moved or transferred to another party, entity or location without application to and approval by the FNR program.

F. Outpatient abortion facilities shall have six months from the date of FNR approval to obtain final architectural plan approval and shall have one year from the date of FNR approval within which to become licensed. A one-time 90 day extension may be granted, at the discretion of the department, when delays are caused by circumstances beyond the control of the applicant. Inappropriate zoning is not a basis for extension. Failure to meet the timeframes in this Section shall result in an automatic expiration of the FNR approval.

AUTHORITY NOTE: Promulgated in accordance with R.S. 40:2116.

HISTORICAL NOTE: Promulgated by the Department of Health and Hospitals, Bureau of Health Services Financing, LR 38:1962 (August 2012).
