The license shall be valid until the expiration date shown on the license, unless the license is modified, revoked, suspended, or terminated.

2. Provisional Initial License. The department may issue a provisional initial license to the facility when the initial licensing survey finds that the PDHC facility is noncompliant with any licensing laws or regulations or any other required statutes, laws, ordinances, rules, regulations or fees, but the department determines that the noncompliance does not present a threat to the health, safety or welfare of the children or participants. The provisional license shall be valid for a period not to exceed six months.

a. At the discretion of the department, the provisional initial license may be extended for an additional period not to exceed 90 days in order for the PDHC facility to correct the noncompliance or deficiencies.

b. The facility must submit a plan of correction to the department for approval and the provider shall be required to correct all such noncompliance or deficiencies prior to the expiration of the provisional initial license.

c. A follow-up survey shall be conducted prior to the expiration of the provisional initial license.

i. If all such noncompliance or deficiencies are determined by the department to be corrected on a follow-up survey, a full license will be issued.

ii. If all such noncompliance or deficiencies are not corrected on the follow-up survey, the provisional initial license shall expire and the provider shall be required to begin the initial licensing process again by submitting a new initial license application packet and fee.

3. Full Renewal License. The department may issue a full renewal license to an existing licensed PDHC facility which is in substantial compliance with all applicable federal, state, departmental, and local statutes, laws, ordinances, rules, regulations and fees. The license shall be valid until the expiration date shown on the license, unless the license is modified, revoked, suspended, or terminated.

4. Provisional Renewal License. The department, in its sole discretion, may issue a provisional license to an existing licensed PDHC facility for a period not to exceed six months.

a. At the discretion of the department, the provisional renewal license may be extended for an

additional period not to exceed 90 days in order for the PDHC facility to correct the noncompliance or deficiencies.

ii. the existing licensed PDHC facility has more than three validated complaints in a one year period;

iii. the existing PDHC facility has been issued a deficiency that involved placing a child or participant at risk for serious harm or death;

iv. the existing PDHC facility has failed to correct deficient practices within 60 days of being cited for such deficient practices or at the time of a follow-up survey; or

v. the existing pediatric day health care provider is not in substantial compliance with all applicable federal, state, departmental, and local statutes, laws, ordinances, rules regulations and fees at the time of renewal of the license.

c. When the department issues a provisional renewal license to an existing licensed pediatric day health care provider, the department shall conduct an on-site follow-up survey at the pediatric day health care facility prior to the expiration of the provisional license.

i. If the on-site follow-up survey determines that the PDHC facility has corrected the deficient practices and has maintained compliance during the period of the provisional license, the department may issue a full license for the remainder of the year until the anniversary date of the PDHC facility license.

ii. If the on-site follow-up survey determines that the PDHC facility has not corrected the deficient practices or has not maintained compliance during the period of the provisional license, the provisional renewal license shall expire and the facility shall be required to begin the initial licensing process again by submitting a new initial license application packet and fee, if no timely informal reconsideration or administrative appeal is filed pursuant to this Chapter.

B. If an existing licensed PDHC facility has been issued a notice of license revocation, suspension, or termination, and the facility's license is due for annual renewal, the department shall deny the license renewal application and shall not issue a renewal license.

1. If a timely administrative appeal has been filed by the provider regarding the license revocation, suspension, or termination, the administrative appeal shall be suspensive and the facility shall be allowed to continue to operate and provide services until such time as the department's Bureau of Appeals issues a decision on the license revocation, suspension, or termination.

2. If the secretary of the department determines that the violations of the PDHC facility pose an imminent or

immediate threat to the health, welfare, or safety of a child, the imposition of such action may be immediate and may be enforced during the pendency of the administrative appeal. The PDHC facility shall be notified of this determination in writing.

3. The denial of the license renewal application shall not affect in any manner the license revocation, suspension, or termination.

C. The renewal of a license does not in any manner affect any sanction, civil monetary penalty, or other action imposed by the department against the facility.

D. The license for a PDHC facility shall be valid for one year from the date of issuance, unless revoked, suspended, modified, or terminated prior to that time.

The facility shall not provide services to any child until the initial licensing survey has been performed and the facility found in compliance with the licensing standards. The initial licensing survey shall be an announced survey.

B. Once an initial license has been issued, the department shall conduct licensing and other surveys at intervals deemed necessary by the department to determine compliance with licensing standards and regulations, as well as other required statutes, laws, ordinances, rules, regulations, and fees. These surveys shall be unannounced.

C. A follow-up survey may be conducted for any survey where deficiencies have been cited to ensure correction of the deficient practices.

2. The department shall issue written notice to the provider of the results of the follow-up survey.

If the department determines that other action, such as license revocation, is appropriate, a follow-up survey may not be required. The facility will be notified of any action.

1. The written request for an administrative appeal shall be submitted to the Bureau of Appeals and must be received within 30 calendar days of the receipt of the results of the informal reconsideration.

2. The hearing before the Bureau of Appeals is limited to the evidence presented at the informal reconsideration, unless the complainant or the facility has obtained additional evidence vital to the issues which could not have been obtained with due diligence before or during the informal reconsideration.
