Molina Medicaid Solutions

Data Currently in Louisiana Data Warehouse

1. For eligibility data, we maintain enrollment information starting 1/1/1995 and extending through the current month.
     For provider data, we maintain enrollment history information starting 7/1/2004 and extending through the current month.
     For claims data, we maintain all paid, adjusted and denied claims information that were processed starting 1/1/1995 and extending through the current week.

Here are the counts of claims data per year contained in the Data Warehouse:

Year	Claim Count
1995	43,189,410
1996	40,345,171
1997	38,277,242
1998	38,290,071
1999	39,965,464
2000	54,504,007
2001	45,097,257
2002	51,695,659
2003	59,962,132
2004	64,572,055
2005	68,808,650
2006	60,601,633
2007	64,824,346
2008	82,838,046
2009	84,522,578

2. We utilize these (approximate) capacities in our Data Warehouse hardware infrastructure:

SAS temporary workspace: 1 TB
SAS permanent workspace: .5 TB
RDBMS permanent storage: 1.5 TB
RDBMS temporary user storage: .5 TB
RDBMS temporary workspace: .5 TB
