

## Health Alert Network Message 21-08: Information on Online COVID-19 Vaccine Requests

**Origination Date:**  
January 24, 2021

**Revision Dates (List All Revision Dates):**

### Attention COVID-19 Vaccination Providers:

The Louisiana Department of Health's COVID-19 vaccine request process has changed! Requests must now be submitted electronically through an online form on the LDH COVID-19 Website. Interested vaccination providers are asked to begin this new request process, starting today. The previous version of the vaccine request form (PDF version) that had to be emailed to the Immunization Program will no longer be accepted after today, Saturday, January 23, 2021. You will have to submit the online version of the form to request vaccine. This email is being sent all providers who are ready-to-receive COVID-19 vaccines.

► **ONLINE COVID-19 Vaccine Request Form:** <https://forms.gle/LyoUpXnWvQNDBXcR6> ◀

**NEW DEADLINE!** The deadline to submit requests is **8:30 a.m. on Monday**. Providers must submit a request each week, before the Monday deadline, in order to be considered for potential vaccine deliveries the following week. *Requests that were submitted using the previous form and emailed to the Immunization Program since after 12 p.m. last Tuesday, January 19, will be included in this week's request process.*

To access the COVID-19 Vaccine Request Online Form on the LDH website, click [here](#).

Friendly reminder that this is only to notify the state of your interest in additional vaccine. It in no way guarantees the receipt of COVID19 vaccine. Vaccine allocations from the CDC to the state of Louisiana continue to be extremely limited.
