

Tammany Utilities – Briarwood Water System (LA1103079)

Distribution System Materials Inventory 2018

There is no higher priority for Tammany Utilities than protecting public health and ensuring the safety of our nation’s drinking water. We are working with the Louisiana Department of Health, to improve transparency and public information with regards to the Lead and Copper Rule being properly implemented.

Tammany Utilities is making our materials inventory for the Briarwood Terrace Public Water System distribution system available to the public by posting it on the Tammany Utilities website.

We will update the materials inventory as new information comes to light.

Note: This Distribution Materials inventory may not be all-inclusive, information was compiled to the best of our knowledge.

Water Mains:
