Re: City of Abbeville
Improving Transparency and Public Information
City of Abbeville Water System
PWS ID # LA1113001

Dear Mr. Harris,

In response to the Louisiana Department of Health's (LADH) request that the City of Abbeville provide a materials inventory of the distribution system including the locations of lead service lines and lead plumbing, the City questioned the Water System's Personnel to determine if any lead service lines or plumbing have been identified throughout the City. After reviewing the water system's maps and discussing with the water system's personnel, the City has no records or information indicating that there are any water lines in its water distribution system containing lead.

The City requests that the LADH post this information on their website to make it publicly available. Please let us know if you have any questions or require additional information.

Sincerely,
CITY OF ABBEVILLE

A handwritten signature in blue ink that reads "Clay Menard". The signature is fluid and cursive, with a long horizontal stroke extending to the right.

CLAY MENARD
PUBLIC WORKS DIRECTOR
