Basic Requirements for a Food Storage Warehouse/Distributor

This plans review packet is to provide you with the information needed to apply for a Permit to Operate a food distribution operation. The following can be printed from our website (www.dhh.la.gov/fdu)—they are attached for your convenience:

Please find the following attached to this document (items in bold need to be submitted for review):

1. Guidelines for Prospective Food Manufacturers: Basic Requirements For Prospective Food Manufacturers, Processors, Packers and Repackers (includes information on storage and distribution operations).

2. **FD-1B: Plans Review Questionnaire For Food And Drug Establishments**
   - Note that this document requests a set of plans and specifications for the facility and these should also be provided to your inspector for review.

3. **FD-1E: Utility No Objection Notice**
   - Provide this form to the local health unit for approval of sewage disposal, water supply and sizing of grease trap.

4. **FD-9(N): Application for Registration** (submit to this office if required—if your firm does not distribute branded products, you should not need a product registration)
   - **Label Proofs must be submitted for review via email, by fax or by mail before your establishment will be issued a Permit-To-Operate.** The fees and application for the registration will be collected when a Permit to Operate is issued; do not send in fees prior to approval of the label(s).

   - Applicable sections from the FDA U.S. Food and Drug Administration: Code of Federal Regulations 21 CFR for all parts of this plans review packet may be found and printed from the FDA Website: http://www.accessdata.fda.gov/scripts/cdrh/cfdocs/cfCFR/CFRSearch.cfm

Carefully review the Basic Requirements For Prospective Food Manufacturers, Processors, Packers And Repackers. Please submit a set of plans and specifications to this office for compliance review including all items indicated in the plans review questionnaire document.

A Temporary Permit to Operate will be issued after the plans have been reviewed and approved and a pre-operational inspection demonstrates the facility is in compliance with our requirements. If applicable to your firm, all product labels must be deemed acceptable for registration before a Permit-to-Operate will be issued.

If you wish to discuss any of the basic requirements, or some specific aspect of your proposed food business with an officer or employee of this agency, please don’t hesitate to contact this office.
