Basic Requirements for an LACF/Acidified Foods Manufacturer

This plans review packet is to provide you with the information needed to apply for a Permit to Operate a food manufacturing and distributing establishment. The following can be printed from our website (www.dhh.la.gov/fdu)—they are attached for your convenience:

Please find the following attached to this document (**items in bold need to be submitted for review**):

1. Guidelines for Prospective Food Manufacturers: Basic Requirements For Prospective Food Manufacturers, Processors, Packers and Repackers.
2. **FD-1B: Plans Review Questionnaire For Food And Drug Establishments**
 - Note that this document requests a **set of plans and specifications for the facility** and these should also be provided to your inspector for review.
3. **FD-1E: Utility No Objection Notice**
 - Provide this form to the local health unit for approval of sewage disposal, water supply and sizing of grease trap.
4. **FD-9(N): Application for Registration**
 - **Label Proofs must be submitted for review via email, by fax or by mail before your establishment will be issued a Permit-To-Operate.** The fees and application for the registration will be collected when a Permit to Operate is issued; *do not* send in fees prior to approval of the label(s).
 - Prior to registration of your products, you will need to do the following:
 - a. Have your product(s) reviewed by a qualified process authority and submit a **review document to accompany your labels or label proofs**; information on process authorities may be found at our website here: <http://new.dhh.louisiana.gov/index.cfm/page/614>
 - b. If the process is classified as LACF or Acidified the operator will need to attend a Better Process Control School training or other FDA-approved training for the type of product; a schedule of known classes is available at the above website link. If it is not feasible to complete a course prior to permitting, the firm must provide **proof of scheduling** before a permit will be issued and must provide this office with a copy of the **course completion certificate** upon receipt.
5. Title 51 Public Health – Sanitary Code, Part VI. Manufacturing, Processing, Packing and Holding of Foods, Drugs and Cosmetics. Chapter 1. General Regulations; Chapter 3. Current Good Manufacturing Practices in Manufacturing, Processing, Packing or Holding Human Food and Chapter 7. Food Storage Warehouse and Food Salvage Operations.
 - **Have your firm's process plan (s) and recall plan available for review at the time of inspection.**
 - Applicable sections from the FDA U.S. Food and Drug Administration: Code of Federal Regulations 21 CFR for all parts of this plans review packet may be found and printed from the FDA Website: <http://www.accessdata.fda.gov/scripts/cdrh/cfdocs/cfCFR/CFRSearch.cfm>
6. US FDA [Food and Drug Administration] requires that all food manufacturing facilities register in accordance with The Public Health Security and Bioterrorism Preparedness and Response Act of 2002. Registrations can be submitted online at <http://www.fda.gov/Food/GuidanceComplianceRegulatoryInformation/RegistrationofFoodFacilities/default.htm>. Registration of the firm may take place once a Permit to Operate is issued.

Carefully review the Basic Requirements For Prospective Food Manufacturers, Processors, Packers And Repackers. Please submit a set of plans and specifications to this office for compliance review including all items indicated in the plans review questionnaire document.

A Temporary Permit to Operate will be issued after the plans have been reviewed and approved and a pre-operational inspection demonstrates the facility is in compliance with our requirements. All labels must be deemed acceptable for registration before a Permit-to-Operate will be issued. Appropriate fees for both the permit and product registration will need to be collected at the time the applications are completed.

If you wish to discuss any of the basic requirements, or some specific aspect of your proposed food manufacturing or processing operation with an officer or employee of this agency, please don't hesitate to contact this office.
