

## **Thankful**

William H. Stewart, M.D.  
State Health Officer

Each of us has something to be thankful for, despite the problems that confront us each day.

During this Thanksgiving Day week, I want to express my thanks to the following:

o **To the thousands of public employees** in the Louisiana Health and Human Resources Administration for their loyalty and dedication;

o **To the citizens of our state** for their cooperation with and support of our efforts to serve you;

o **To the Governor and State Legislature** for health legislation in the fields of hypertension, hazardous substances control, a hospital for emotionally disturbed children, and other supportive Acts;

o **To the men and women** who serve on advisory boards, health planning committees, and voluntary health organizations, for their concern and unselfish contribution of time and effort;

o **To this newspaper**, for making my weekly health message available to its readers.

Week beginning 11/23/75

## **Dr. Stewart Expresses Thanks**

William H. Stewart, M.D.  
State Health Officer

Each of us has something to be thankful for, despite the problems that confront us each day.

During this Thanksgiving Day week, I want to express my thanks to the following:

o **To the thousands of public employees** in the Louisiana Health and Human Resources Administration for their loyalty and dedication;

o **To the citizens of our state** for their cooperation with and support of our efforts to serve you;
