Password: EHD12022
Telephone option: 602-333-0032 Conference code: 523927

The Early Hearing Detection and Intervention (EHDI) is a national initiative supporting the early identification of infants who are deaf or hard of hearing through screening, audiological evaluation, enrollment in early intervention and family-to-family support services.

The overarching goal of the support provided through the EHDI program is to maximize opportunities for communicative and linguistic development for children who are deaf or hard of hearing. Without appropriate opportunities to learn language, these children will fall behind their hearing peers in communication, cognition, reading, and social emotional development.

AGENDA

1. Call to Order
2. Review and Acceptance of Minutes
3. Hospital Scorecards
4. 1-3-6 Data
