OFFICE OF PUBLIC HEALTH OFFICIAL GUIDANCE ON HOW FAMILIES CAN KEEP THEIR CHILDREN SAFE FROM COVID-19

Updated May 18, 2022

The U.S. Centers for Disease Control and Prevention (CDC), the American Academy of Pediatrics (AAP) and the Louisiana Department of Health’s official recommendation is clear: vaccinating your children ages 5-17 is the best way to protect them against COVID-19.

WHAT IF I STILL HAVE QUESTIONS?

That’s normal! Talk to your or your child’s doctor about what is right for your family. You can also call our COVID-19 Support Hotline at 1-855-453-0774 to get your questions answered, speak directly with a medical professional, find a vaccine provider or therapeutics near you, and schedule a vaccine appointment or homebound vaccination.
