

# COVID-19 IHE Reporting

LDH worked closely with the Louisiana Board of Regents and institutions of higher education in developing this reporting process. Sharing facility-level information is not standard public health practice, but we made an exception here at the request of the Board of Regents.

Not all institutions track cases among students attending virtual classes or faculty working virtually. When there is no information available, the corresponding field is blank.

Data as of Dec 18, 2020

These data only include self-reported cases to LDH that meet the "Lab Confirmed Case" criteria. A lab confirmed case is defined as an individual who has a positive molecular/viral lab result.

Total counts reflect all cases since reporting began. New cases are cases reported since the previous week's report.

Counts between 1 and 4 are suppressed to protect privacy
